06 The Assistant Commissioner for Operations, who shall head the Office of Operations, participates in the formulation and is responsible for the execution of overall Bureau policy and programs affecting (1) Federal highway construction on public lands, including forest highways, roads and trails in national parks, parkways, Indian Reservation roads and bridges; (2) foreign road construction and management, including the preparation of related diplomatic agreements, the organization and staffing of foreign missions, and advisory, design, and construction operations in cooperating foreign countries; and (3) Inter-American highway projects, including the advancement of construction of the Inter-American Highway and the Administration of operating aspects of these projects. In addition, he shall be responsible for the direction and supervision of civil defense activities of the Bureau and for operations under such preparedness programs when so required. The Assistant Commissioner for Operations supervises the operations of the following divisions: Civil Defense, Federal Domain, Foreign, and Inter-American Highway.

07 The Assistant Commissioner for Administration, who shall head the Office of Administration participates in the formulation and directs the execution of fiscal and administrative policies and programs of the Bureau. In this capacity he acts as comptroller of funds appropriated for Federal highway programs and prepares the apportionment of funds to States and Territories participating in the cooperative roads program. The Assistant Commissioner for Administration is also responsible for budgetary planning and the development of supporting accounting and auditing systems; program analysis activities; the direction of management studies and their implementation; all phases of personnel management including personnel training activities; the security program for the Bureau and activities thereunder; and the fulfillment of administrative services needs of the Bureau including space control, procurement of supplies and equipment, records disposal and administrative reporting. The Assistant Commissioner for Administration supervises the operations of the following divisions: Budget and Management, Personnel, Program Analysis, Audits and Accounts, Equipment, Procurement and Transportation, and Office Services.

08 The Assistant Commissioner for Research, who shall head the Office of Research, participates in the formulation and is responsible for the execution of policy and programs relating to highway research and planning independently and in collaboration with the several States, including physical and hydraulics research, highway transport research and financial and administrative research. These functions include the preparation and dissemination of technical data, statistics, and general highway information and the development of legislative requirements to effectively carry out the Bureau's research programs. In addition, he coordinates studies conducted under his supervision involving economic, financial and administrative research covering annual highway costs; equipment operations cost and highway contractors' operations; traffic control; and tax relationships. The Assistant Commissioner for Research supervises the operations of the following divisions: Financial and Administrative Research, Highway Transport, Hydraulics and Drainage, Physical Research, Research Coordination, and Publications and Reports.

SEC. 6. *Field organization.* 01 Field operations of the Bureau are conducted from eleven Regional Offices each headed by a Regional Engineer who reports to the Commissioner of Public Roads. In addition, there is a District Office, staffed by a District Engineer and supporting personnel, in each of the several States within a region. (See Appendix I, set forth below, for location of Regional Offices and areas of jurisdiction.)

02 The Regional Engineer is the field counterpart of the Commissioner of Public Roads and as such is responsible for the designation and improvement of highway systems consistent with the objectives of Federal highway legislation, State and local needs and highway requirements in the public domain. To this end, each Regional Engineer:

(1) Promotes and guides engineering and economic studies and the interpretation and application of the findings of such studies in planning highway systems; reviews highway system designations and proposed modifications; and reviews projects to insure the application of current planning data to highway improvements throughout the region;

(2) Develops and promotes improved and progressive geometric and structural design practices for application to highway improvements throughout the region; provides technical guidance to the district staff, State highway departments and other Federal agencies in connection with complicated and unusual highway design features;

(3) Develops and promotes improved and progressive construction and maintenance practices for application to highway improvements throughout the region; provides technical guidance to the district staff, State highway departments and other Federal agencies in connection with complicated and unusual construction and maintenance problems; and

(4) Administers fiscal and management functions throughout the region, including the preparation of internal budget estimates and budgetary controls, personnel administration, records management, the audit of construction and administrative vouchers, maintenance of fiscal records, and performance of centralized services for the region.

Effective date: January 23, 1957.

SINCLAIR WEEKS,
Secretary of Commerce.

APPENDIX I

Regional Offices. The location of the regional offices of the Bureau of Public Roads and the areas over which they have jurisdiction (District Office locations indicated in parenthesis) are as follows:

Region 1, Albany, New York: Maine (Augusta), New Hampshire (Concord), Vermont (Montpelier), Massachusetts (Boston), Connecticut (Hartford), Rhode Island (Providence), New York (Albany) and New Jersey (Trenton).

Region 2, Hagerstown, Maryland: Delaware (Dover), Maryland (Baltimore), Ohio (Columbus), Pennsylvania (Harrisburg), District of Columbia, Virginia (Richmond), West Virginia (Charleston).

Region 3, Atlanta, Georgia: Alabama (Montgomery), Florida (Tallahassee), Georgia (Atlanta), Mississippi (Jackson), Tennessee (Nashville), North Carolina (Raleigh), South Carolina (Columbia), Puerto Rico (San Juan).

Region 4, Chicago, Illinois: Illinois (Springfield), Indiana (Indianapolis), Kentucky (Frankfort), Michigan (Lansing), and Wisconsin (Madison).

Region 5, Kansas City, Missouri: North Dakota (Bismarck), South Dakota (Pierre), Minnesota (St. Paul), Iowa (Ames), Kansas (Topeka), Missouri (Jefferson City), and Nebraska (Lincoln).

Region 6, Fort Worth, Texas: Arkansas (Little Rock), Louisiana (Baton Rouge), Oklahoma (Oklahoma City), and Texas (Austin).

Region 7, San Francisco, California: Arizona (Phoenix), California (Sacramento), Nevada (Carson City), and Hawaii (Honolulu).

Region 8, Portland, Oregon: Montana (Missoula), Oregon (Salem), Idaho (Boise), Washington (Olympia).

Region 9, Denver, Colorado: Colorado (Denver), New Mexico (Sante Fe), Wyoming (Cheyenne), and Utah (Ogden).

Region 10, Juneau, Alaska: Anchorage, Fairbanks, Juneau, Valdez, Nome.

Region 15, Arlington, Virginia: Eastern National Forests and Parks.

[Dept. Order 159 (Revised)]

OFFICE OF INTERNATIONAL TRADE FAIRS

ORGANIZATION AND FUNCTIONS

The material appearing in 21 F. R. 3803 of June 2, 1956 is superseded by the following.

SECTION 1. *Purpose.* The purpose of this order is to redefine the organization and functions of the Office of International Trade Fairs.

SEC. 2. *Organization.* 01 The Office of International Trade Fairs is a constituent unit of the Office of the Secretary and is headed by a Director who reports to the Assistant Secretary of Commerce for International Affairs.

02 The Office of International Trade Fairs consists of the following organization units:

1. The Office of the Director—
   Deputy Director.
   Assistant Director.
2. Public Information Staff.
3. Industry Exhibits Division.
4. Research and Program Division.
5. Design Division.
6. Procurement Division.
7. Materials and Traffic Division.
8. Exhibit Operations Division.
9. Project Groups.

03 In order to facilitate design and procurement activities, the Office of International Trade Fairs maintains an office in New York City. An office is also maintained in Paris, France to facilitate economies in warehousing and transportation services.

SEC. 3. *Delegation of authority.* 01 Subject to such policies and limitations as the Secretary of Commerce may prescribe, the Director of the Office of International Trade Fairs shall perform the functions and exercise the power and authorities relating to the promotion of United States international trade, through the medium of international trade fairs, vested in the Secretary of Commerce by the Act of February 14, 1903 (32 Stat. 826), as amended; and in pursuance of the International Cultural Exchange and Participation Act of 1956, Pub. Law 860, 84th Congress, Second Session (70 Stat. 778).

02 The Director of the Office of International Trade Fairs may redelegate any power or authority conferred on him by this order to any officer of the Office of International Trade Fairs to be exercised in accordance with such conditions and limitations as he may prescribe.

SEC. 4. *Objectives and general functions.* The objective of the Office of International Trade Fairs is to demonstrate to peoples of other countries, in a dramatic and effective manner, the excellence of our free enterprise system as reflected in our products and our way of life and to strengthen the ties which unite the United States with other nations by the promotion of the foreign commerce of the United States through the medium of international trade fairs. To this end the Office shall:

1. Coordinate, plan, design, establish, and operate industry-government exhibits at selected international trade fairs abroad for the purpose of displaying official interest in such fairs and of strengthening total United States participation in specific events; and

2. Cooperate with United States business and industry to stimulate a wider use of the international trade fair abroad as a medium for the promotion of commerce and for the maintenance of the prestige of United States industry in foreign markets, and encourage and facilitate the display of American products by individual companies at such international trade fairs.

SEC. 5. *Duties and responsibilities.*

01 The Director is responsible for developing and coordinating the programs, and directing all operations and administrative activities of the Office of International Trade Fairs, including the transfer of personnel to the foreign cities where exhibits are staged.

1. The Deputy Director is the chief operating aide to the Director and shall assist in the direction of the operations of the Office of International Trade Fairs, act for the Director in his absence, and perform such other duties as the Director may assign.

2. The Assistant Director is responsible for the administrative management of the Office, including budget, personnel, contracts, other services and office facilities; secure all necessary administrative services for the Office through the appropriate offices reporting to the Assistant Secretary of Commerce for Administration and the General Counsel's offices; and advises and assists the Director on the operational phases of the program.

02 The Public Information Staff prepares news releases and maintains liaison with the daily and trade press and other media of public communications; and makes available to the public current information on the operations of the Trade Fair Program.

03 The Industry Exhibits Division is responsible for assisting U. S. private industry in the most practical ways of exhibiting at international trade fairs, and increasing and improving the flow of information to private industry about trade fairs toward fulfilling the objective of encouraging greater participation on the part of U. S. industry in trade fairs.

04 The Research and Program Division is responsible for assembling and analyzing all pertinent information necessary for the selection of proper themes and contents for all fairs. To this end the Division shall solicit the advice of country and area specialists in the Commerce, State, Agriculture and other U. S. Government departments, Embassies, USIA Staff and comments and suggestions from businessmen, designers and appropriate private organizations.

05 The Design Division is responsible for advance planning for trade fair designs, recommends to the Director for his consideration exterior and interior building designs, supervises the preparation of specifications and preliminary drawings, ascertains for the Director that design and construction contracts are let well in advance of opening dates of fairs and that work is completed on time and in accordance with specifications.

06 The Procurement Division is responsible for securing exhibits and displays appropriate to the theme of individual trade fairs; procuring through direct contact with industrial and business concerns specific items of equipment necessary for use in any aspect of the U. S. Exhibit by loan, gift or purchase; and participating in disposition actions.

07 The Materials and Traffic Division is responsible for maintaining the necessary control of all property used by the Office at exhibits and arranging for the disposition of such materials at the end of their usefulness to the Program. This Division shall also be responsible for the most expeditious and economic transportation of materials from their source to and from the fair sites at which they will be used and for the proper safeguarding of all equipment and related materials during shipment.

08 The Exhibit Operations Division is composed of the Exhibit Managers and Assistant Exhibit Managers who, being assigned to manage the U. S. Exhibits, go to the city where the fair will be held and assume responsibility for staging the exhibit.

09 Project Groups shall be formed as necessary for effective accomplishment of the Program, which is a succession of individual exhibit projects. To coordinate the effort of all the facilities of the Office toward an optimum result, the Office uses the project system of operation. These Project Groups will generally include a staff member from each Division and have as their responsibility the planning and staging of a specific exhibit.

Effective date: February 11, 1957.

SINCLAIR WEEKS,
Secretary of Commerce.

FEDERAL POWER COMMISSION

[Docket No. G-4600 etc.]

LOCKHART OIL COMPANY OF TEXAS ET AL.

NOTICE OF APPLICATIONS AND DATE OF HEARING

FEBRUARY 25, 1957.

In the matters of Lockhart Oil Company of Texas, Docket No. G-4600;[1] South States Oil & Gas Company, Docket No. G-9897; Lockhart Oil Company of Texas, Docket No. G-9925; L. M. Lockhart, Docket No. G-9926.

Take notice that, on January 26, 1956, Lockhart Oil Company of Texas and L. M. Lockhart filed applications in Docket Nos. G-9925 and G-9926 respectively, pursuant to section 7 (b) of the Natural Gas Act, for permission and approval to abandon service with respect to their two separate sales previously covered by certificate applications filed in Docket Nos. G-4600 and G-9474.[2] Each party states that by deed dated January 4, 1956, South States Oil & Gas Company has acquired all of the gas properties subject of the certificate applications referred to above and that such acquisition is subject to and dedicated to the gas purchase contracts covering the respective sales to Tennessee Gas Transmission Company and Trunkline Gas Company.

On January 23, 1956, South States Oil & Gas Company, a Texas Corporation with its principal place of business at San Antonio, Texas, filed an application pursuant to section 7 (c) of the Natural Gas Act, for a certificate of public convenience and necessity, authorizing it to continue the sales and operation of facilities which Lockhart Oil Company of Texas in Docket No. G-9925 and L. M. Lockhart in Docket No. G-9926 seek permission and approval to abandon, all as more fully represented in the respective applications which are on file with the Commission and open to public inspection.

These related matters should be heard on a consolidated record and disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on April 3, 1957, at 9:30 a. m., e. s. t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C. concerning the matters involved in and the issues presented by such applications: *Provided, however,* That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of § 1.30 (c) (1) or (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before March 15, 1957. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

[SEAL] JOSEPH H. GUTRIDE,
Secretary.

[F. R. Doc. 57-1521; Filed, Feb. 28, 1957; 8:45 a. m.]

[1] Notice of application and date of hearing in this matter was duly published in the FEDERAL REGISTER on April 19, 1956, in consolidation with Docket No. G-2867, et al. (21 F. R. 2576-2577). The subject docket was severed from the consolidated proceeding by notice of severance and continuance dated May 9, 1956.

[2] A certificate of public convenience and necessity was granted in Docket No. G-9474 by the Commission's order issued October 16, 1956 in Docket No. G-3244, et al.

[Docket No. E-6730]

GEORGIA POWER CO. ET AL.

ORDER INSTITUTING AN INVESTIGATION

FEBRUARY 25, 1957.

In the matter of Georgia Power Company, City Mills Co., Eagle & Phenix Mills Co., U. S. Corps of Engineers; Docket No. E-6730.

The River and Harbor Act of 1946 approved modification of the general plan for the development of the Apalachicola, Chattahoochee, and Flint River system, and authorized construction by the Department of the Army of the Buford project on the Chattahoochee River about 348.5 miles above its mouth and about 35 miles northeast of Atlanta, Georgia. It is our understanding that filling of the Buford reservoir was commenced on February 1, 1956.

There are nine existing hydroelectric developments on the Chattahoochee River downstream from the Buford project. Pertinent information for these projects follows:

Name of plant	River	River (miles)	Owner	Installed capacity (kilowatts)
Morgan Falls	Chattahoochee	312.6	Georgia Power Co	16,800
Langdale	do	194.2	do	4,010
Riverview	do	190.6	do	480
Bartletts Ferry	do	177.9	do	65,000
Goat Rock	do	172.2	do	26,000
North Highlands	do	162.5	do	6,000
City Mills	do	161.2	City Mills Co	180
Eagle & Phenix	do	160.4	Eagle & Phenix Mills Co	4,100
Jim Woodruff	Apalachicola	107.6	Corps of Engineers	30,000

Pursuant to the provisions of section 10 (f) of the Federal Power Act, we are required to determine and assess headwater improvement benefit charges against the owner of any project directly benefited by upstream improvements constructed by the United States. The projects mentioned in the preceding paragraph may be directly benefited by reason of the construction and operation by the United States of its upstream Buford project.

The Commission finds: It is appropriate and in the public interest that an investigation be instituted by the Commission as hereinafter provided.

The Commission orders: An investigation is hereby instituted pursuant to the provisions of the Federal Power Act, particularly section 10 (f) thereof, for the purpose of enabling the Commission to determine whether any of the above-designated projects located on the Chattahoochee and Apalachicola Rivers downstream from the above-designated headwater improvement constructed by the United States is directly benefited by the construction and operation of such upstream improvement of the United States and, if it so finds, to determine the equitable proportion of the annual charges to be paid by the owner of any non-Federal project so benefited for interest, maintenance and depreciation on such upstream improvement constructed by the United States.

By the Commission.

[SEAL] JOSEPH H. GUTRIDE,
Secretary.

[F. R. Doc. 57-1553; Filed, Feb. 28, 1957; 8:48 a. m.]

[Docket No. G-3545]

MIDSTATES OIL CORP.

NOTICE OF APPLICATION AND DATE OF HEARING

FEBRUARY 25, 1957.

Take notice that Midstates Oil Corporation (Applicant) having its principal place of business at Tulsa, Oklahoma, filed on September 28, 1954, an application, as supplemented on May 18, 1955, for a certificate of public convenience and necessity, pursuant to section 7 (c) of the Natural Gas Act, authorizing Applicant to continue the sale of natural gas in interstate commerce from production in the Southwest Pleasant Valley Field, Logan County, Oklahoma, to Cities Service Gas Company, for resale, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

On May 1, 1956, Applicant filed an application in the above proceeding seeking permission, pursuant to section 7 (b) of the Natural Gas Act, to abandon the subject sale to Cities Service Gas Company, stating that the gas reserve is now exhausted and that Applicant is no longer able to render the service for which it sought authorization in its original application in this proceeding.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on April 3, 1957, at 9:30 a. m. (e. s. t.), in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such application: *Provided, however,* That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of § 1.30 (c) (1) or (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before March 15, 1957. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

[SEAL] JOSEPH H. GUTRIDE,
Secretary.

[F. R. Doc. 57-1554; Filed, Feb. 28, 1957; 8:48 a. m.]

[Docket No. G-11563]

UNION OIL AND GAS CORPORATION OF LOUISIANA

NOTICE OF HEARING

FEBRUARY 25, 1957.

By order issued December 7, 1956, initiating this proceeding, certain proposed changes in rates filed by Union Oil and Gas Corporation of Louisiana were suspended and the use thereof deferred pursuant to the provisions of section 4 (e) of the Natural Gas Act. This order also provided for hearing concerning the lawfulness of the proposed changes in rates at a date to be fixed by notice from the Secretary of the Commission. The volumes of natural gas involved are purchased by Texas Gas Transmission Corporation.

Take notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by the Natural Gas Act, particularly sections 4, 15 and 16 thereof, and the Commission's rules of practice and procedure, a hearing will be held on April 24, 1957, at 10:00 a. m., e. s. t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the lawfulness of the changes in rates and charges proposed herein.

[SEAL] JOSEPH H. GUTRIDE,
Secretary.

[F. R. Doc. 57-1555; Filed, Feb. 28, 1957; 8:49 a. m.]

[Docket No. G-11797]

EL PASO NATURAL GAS CO.

NOTICE OF APPLICATION

FEBRUARY 25, 1957.

El Paso Natural Gas Company, a Delaware Corporation, with its principal place of business at El Paso, Texas, filed an application on January 25, 1957, pursuant to section 7 (c) of the Natural Gas Act, for a certificate of public convenience and necessity authorizing the construction and operation of certain additional facilities in various places in Texas, Arizona and New Mexico, at an estimated cost of $107,100,000, all as fully described in the application which is on file with the Commission and is open to public inspection. The additional facilities will be operated in conjunction with El Paso's existing facilities and facilities under construction as authorized in FPC Docket Nos. G-8940 and G-10499, for the purpose of delivering to El Paso's existing customers an additional 185 MMcf. (at 14.9 psi) of natural gas per day, for the sale of which authorization is also requested.

Applicant proposes to sell 75 MMcf. per day of the additional gas to Southern California Gas Company and Southern Counties Gas Company of California, 75 MMcf. per day to Pacific Gas & Electric Company, and 35 MMcf. per day to existing customers of Applicant in Arizona, principally in the Yuma, Arizona area.

El Paso proposes to obtain the 185 MMcf. of additional natural gas from the following sources:

40 MMcf. per day of gas-well gas from the Sonora gas pool in Sutton County, Texas.

5 MMcf. per day of gas-well gas from the East Panhandle field in Wheeler County, Texas.

40 MMcf. per day of residue gas from various fields in Borden and Upton counties, Texas, and Lea County, New Mexico.

100 MMcf. per day of gas-well gas from various Pictured Cliffs Fields and the Mesa Verde Field in San Juan and Rio Arriba counties, New Mexico.

Gas for company use and gas lost and unaccounted for in the course of making the proposed deliveries and sales will also be obtained from said sources.

The facilities for which authorization is requested include field facilities and also main line facilities. The field facilities consist of approximately 533 miles of pipeline from 2" to 24" in diameter, 27,850 hp. of compression in new and existing stations, additional gasoline absorption-plant, fractionating-plant, dehydration-plant and recovery-plant capacity; metering and communication facilities; structures and equipment; and additional leases and wells. The additional main line facilities include approximately 216 miles of pipeline, 6⅝" to 34" in diameter; 58,900 hp. of compression in new and existing stations; metering and communication facilities, structures and equipment.

Applicant says that the need for additional gas service in the areas served by the distributing companies to which the additional gas will be delivered is unquestioned.

Petitions and notices to intervene and protests may be filed with the Federal Power Commission, 441 G Street NW, Washington 25, D. C., in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.10) on or before April 1, 1957.

[SEAL] JOSEPH H. GUTRIDE, *Secretary.*

[Docket No. G-10751]

TEXAS GAS TRANSMISSION CORP.

NOTICE OF HEARING

FEBRUARY 25, 1957.

By order issued July 18, 1956, initiating this proceeding, certain proposed changes in rates filed by Texas Gas Transmission Corporation were suspended and the use thereof deferred pursuant to the provisions of section 4 (e) of the Natural Gas Act. This order also provides for hearing concerning the lawfulness of the proposed changes in rates at a date to be fixed by notice from the Secretary of the Commission.

Take notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by the Natural Gas Act, particularly sections 4, 15 and 16 thereof, and the Commission's rules of practice and procedure, a hearing will be held on April 15, 1957, at 10:00 a. m., e. s. t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the lawfulness of the changes in rates and charges proposed herein.

GENERAL SERVICES ADMINISTRATION

ARTHUR F. JOHNSON

STATEMENT OF CHANGES IN FINANCIAL INTERESTS

Statement of changes in financial interest required by subsection 710 (b) of the Defense Production Act of 1950, as amended, and section 302 (c) of Executive Order 10647:

Name of appointee: Arthur F. Johnson.

Employing agency: General Services Administration, Defense Materials Service.

Date of appointment: June 16, 1955.

Title of position: Consultant.

Name of private employer: Olin Industries, Inc., and Olin Mathieson Chemical Corporation, New York, N. Y.

Changes in the names of any:

(1) Corporations of which I am, or within 60 days preceding my appointment have been an officer or director;

(2) Corporations in which I own or within 60 days preceding my appointment have owned any stocks, bonds, or other financial interests;

(3) Partnerships in which I am, or within 60 days preceding my apointment have been a partner; and

(4) Other businesses in which I own or within 60 days preceding my appointment have owned any similar interests.

Additions

(2) El Paso Natural Gas Co.
(2) Southern Natural Gas Co.

Deletions

(2) All Olin Mathieson Chemical Corporation.
(2) All Phillips Petroleum (acquired and sold since previous report).
(3) El Paso Natural Gas Co. (excepting for 2 shares yet retained).

Dated: February 18, 1957.

ARTHUR F. JOHNSON.

SECURITIES AND EXCHANGE COMMISSION

[File No. 812-1064]

INSURANCE INVESTORS FUND, INC., AND FIRST SIERRA CORP.

NOTICE OF FILING OF APPLICATION FOR ORDER TEMPORARILY EXEMPTING APPLICANT FROM REQUIREMENTS OF ACT

FEBRUARY 25, 1957.

Notice is hereby given that Insurance Investors Fund, Incorporated ("Fund"), a registered, open-end management company and The First Sierra Corporation ("Sierra"), both of San Francisco, California, have filed an application pursuant to section 6 (c) of the Investment Company Act of 1940 ("act") for an order of the Commission temporarily exempting Fund from the provisions of sections 16 (a) and 32 (a), and Sierra from the provisions of section 15 (a), until the annual meeting of stockholders of Fund, scheduled for February 27, 1958.

The application discloses that Fund was organized on August 6, 1956, under the laws of the State of Delaware. The Fund registered on January 11, 1957 under the act and has filed a registration statement under the Securities Act of 1933 covering 50,000 shares of its capital stock; however, it has not yet commenced business operations and it has no stock outstanding. Sierra is registered as a broker-dealer under the Securities Exchange Act of 1934 and proposes to act as principal underwriter and investment adviser of Fund.

Fund proposes to obtain the $100,000 net worth required by section 14 (a) of the act, in accordance with the provisions of subsection (3) thereof, through the sale by Sierra of 5,500 shares of Fund's capital stock to not more than twenty-five persons for a total sales price of $110,000 of which the Fund will receive an aggregate net consideration of $100,320. Sierra will receive $9,680 as a sales commission. After receiving said aggregate net consideration Fund proposes to sell through Sierra as its principal underwriter, additional shares in a public offering, and it is contemplated that Sierra, when permitted by law, will act as investment adviser of Fund pursuant to a written contract containing the terms specified by section 15 (a) of the act. Fund will also retain the services of the accounting firm of Hood and Strong as independent public accountants for the purpose of certifying financial statements to be filed with the Commission.

The By-Laws of Fund provide that the annual meeting of stockholders shall be held on the fourth Tuesday in February of each year. It now appears that Fund will not have issued any stock by February 28, 1957, the scheduled date of the first annual meeting of stockholders. Accordingly, Fund proposes that its stockholders shall act on the following matters at the annual meeting on February 27, 1958, or at such earlier meeting as the Commission may by order direct: (1) To approve the contract between the Fund and Sierra as investment adviser; (2) to elect a Board of Directors of the Fund; and (3) to ratify or reject the selection of Hood and Strong as independent public accountants for Fund.

Section 15 (a) of the act makes it unlawful for a person to act as an investment adviser for a registered investment company, except pursuant to a written contract containing certain specified statutory terms, which has been approved by the vote of a majority of the outstanding voting securities of the registered investment company.

Section 16 (a) of the act requires the directors of a registered investment company to be elected to that office by stockholders at an annual or special meeting and requires such a meeting to be held within 60 days if at any time less than a majority of the directors are so elected by stockholders.

Section 32 (a) of the act requires, among other things, that the selection of an accountant employed by a registered management investment company shall be submitted for ratification or rejection at the next annual meeting of stockholders if such meeting be held.

Section 6 (c) of the act provides that the Commission, by order upon application, may conditionally or unconditionally exempt any transaction from any provision of the act, if and to the extent such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the act.

For a more detailed statement of the matters of fact and law asserted, all persons are referred to said application on file in the offices of the Commission in Washington, D. C.

Notice is further given that any interested person may, not later than March 12, 1957 at 5:30 p. m., submit to the Commission in writing any facts bearing upon the desirability of a hearing on the matter and may request that a hearing be held, such request stating the nature of his interest, the reasons for such request and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such communication or request should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D. C. At any time after said date, the application, as filed or as amended, may be granted as provided in Rule N-5 of the rules and regulations promulgated under the act.

By the Commission.

[File No. 812-1061]

ONE HUNDRED FUND, INC.

NOTICE OF FILING OF APPLICATION FOR EXEMPTION OF SMALL CLOSED-END INVESTMENT COMPANY

FEBRUARY 25, 1957.

Notice is hereby given that the One Hundred Fund, Inc. ("applicant") a corporation organized under the laws of the State of Texas, has filed an application pursuant to section 6 (d) of the Investment Company Act of 1940 ("act"), and Rule N-6D-1 thereunder, for an order of the Commission exempting it from certain provisions of the act. Applicant has agreed that it will accept and be subject to any specified provisions of the act if the Commission deems it necessary or appropriate in the public interest or for the protection of investors that it should be so subject.

Such application makes the following representations:

Applicant, a closed-end non-diversified management investment company as defined in the act, was organized on December 31, 1956. Its authorized capital consists of 1,000 shares of $50 par value common stock. The company proposes to offer 800 shares of common stock solely to residents of the State of Texas at a public offering price of $100 per share, or an aggregate of $80,000. The proposed underwriting commission of $5 per share will result in net proceeds to applicant of $76,000. The company has issued 25 shares to directors for $95 per share and has subscriptions for 75 shares at the same price.

Applicant will invest, reinvest and trade in securities or in real estate, or both. The Articles of Incorporation of applicant empower it, with respect to investments in real estate, to purchase, sell and subdivide real property in towns, cities and villages and their suburbs not extending more than two miles beyond their limits, and to purchase oil, gas and mineral leases, royalties and interests. There is no geographical limitation on freedom of action to concentrate its investments in a particular security or class of security, in securities of a particular industry or group of industries, or in the securities of a single issuer or group of issuers, or in real estate. The applicant may invest all or part of its funds in securities or real estate, invest in long-term or short-term debt securities, and may invest or trade with the purpose of realizing either income or short-term or long-term capital gains. Applicant will not purchase commodities or commodities contracts.

Section 6 (d) of the act provides, in substance, that the Commission by order upon application shall exempt a closed-end investment company from any or all provisions of the act, but subject to such terms and conditions as may be necessary or appropriate in the public interest or for the protection of investors, if the aggregate sums received from the sale of all its securities, outstanding and proposed to be offered, do not exceed $100,000 and if the sale of its securities is restricted to the residents of the state of its organization.

Section 6 (e) of the act provides that if, in connection with any order exempting any investment company from any provision of section 7, the Commission deems it necessary or appropriate in the public interest or for the protection of investors that certain specified provisions of the act pertaining to registered investment companies shall be applicable in respect to such company, the provisions so specified shall apply to such company, and to other persons in their transactions and relations with such company, as though such company were a registered investment company.

The Division of Corporate Regulation has recommended that exemption be granted applicant from only the following provisions of the act and the respective rules and regulations promulgated under each of such provisions and that applicant and other persons in their transactions and relations with applicant shall be subject to all other provisions of the act and rules thereunder as though applicant were a registered investment company:

Section 7; section 8 (b), except the requirement to file the information required by items 3, 4, and 5 of Form N-8B-1 and to report to the Commission any changes thereafter in respect thereof; section 14; section 20 (a); section 23 (c); section 24 (d) insofar as such section makes inapplicable the provisions of section 3 (a) (11) of the Securities Act of 1933 to any securities of a registered investment company; section 30 (a); section 30 (b), except that applicant shall, pursuant to section 30 (b) (2), file with the Commission copies of all reports sent to stockholders pursuant to section 30 (d) which reports to stockholders shall be accompanied by a certificate of independent public accountants pursuant to section 30 (e); section 30 (f), to the extent that the subject persons shall not be required to file reports more than once each six months; and section 32 (a); provided, that the applicant shall continue to comply with the provisions of sections 6 (d) (1) and 6 (d) (2) of the act and shall at all times maintain its classification as a closed-end company as defined in section 5 (a) (2) of the act.

Notice is further given that any interested person may not later than March 8, 1957, at 5:30 p. m., submit to the Commission in writing any facts bearing upon the desirability of a hearing on the matter and may request that a hearing be held, such request stating the nature of his interest, the reasons for such request and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such communication or request should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D. C. At any time after said date, the application may be granted as provided in Rule N-5 of the rules and regulations promulgated under the act.

By the Commission.

APPALACHIAN ELECTRIC POWER CO. ET AL.

NOTICE OF FILING OF APPLICATION-DECLARATION REGARDING ISSUANCE OF BONDS BY SUBSIDIARY AT COMPETITIVE BIDDING AND CAPITAL CONTRIBUTIONS TO SUBSIDIARY BY PARENT

FEBRUARY 25, 1957.

In the matter of Appalachian Electric Power Company, Kanawha Valley Power Company, American Gas and Electric Company; File No. 70-3561.

Notice is hereby given that American Gas and Electric Company ("American"), a registered holding company, and Appalachian Electric Power Company ("Appalachian") and Kanawha Valley Power Company ("Kanawha"), both public utility subsidiaries of American, have jointly filed an application-

declaration pursuant to the Public Utility Holding Company Act of 1935 ("act") and have designated sections 6 (b), 9, 10, and 12 of the act and Rules U-42, U-45, U-46 and U-50 promulgated thereunder as applicable to the proposed transactions.

All interested persons are referred to the application-declaration on file in the offices of the Commission for a statement of the transactions therein proposed, which are summarized as follows:

Appalachian proposes to issue and sell at competitive bidding $29,000,000 aggregate principal amount of its First Mortgage Bonds ("New Bonds") __ percent series, to be dated as of March 1, 1957, and to mature March 1, 1987. The interest rate on the New Bonds (which shall be expressed in a multiple of ⅛ of 1 percent) and the price to be paid to Appalachian, which shall be not less than 100 percent or more than 102¾ percent of the principal amount thereof, will be determined by competitive bidding.

American owns all of the 500 authorized and outstanding shares of common stock of Kanawha and had open account advances of $3,174,398 due from Kanawha as of December 31, 1956. It is proposed that, prior to or concurrently with the sale of the New Bonds, American make a capital contribution to Kanawha of its open account advances and thereafter make a capital contribution to Appalachian of the 500 shares of common stock of Kanawha owned by American. The common stock equity of Kanawha thus to be contributed to Appalachian will amount to $3,179,398, plus net income earned by Kanawha between December 31, 1956 and the date of the capital contribution. American also proposes, prior to or concurrently with the sale of the New Bonds, to make a cash capital contribution of $5,000,000 to Appalachian.

It is proposed that after the consummation of the transactions described above, Kanawha may, from time to time as cash is generated by depreciation accruals, pay cash dividends to Appalachian out of the capital surplus arising from the cancellation of its open account advances, such dividends to be treated by Appalachian as a reduction of its investment in Kanawha.

The proceeds of the cash capital contribution and sale of the New Bonds are to be applied by Appalachian, to the extent available, to the prepayment, without premium, of notes payable to banks. As of December 31, 1956, notes payable to banks were outstanding in the amount of $21,500,000, and it is expected that not to exceed $4,500,000 additional principal amount of such notes will be issued, making not in excess of $26,000,000 to be outstanding at the time of the issuance and delivery of the New Bonds. Any remaining proceeds will be added to Appalachian's treasury funds and will be applied to carry forward its present construction program, the cost of which is estimated for the calendar year 1957 to be $56,370,000.

The application-declaration states that various aspects of the proposed transactions will be expressly authorized by the Virginia State Corporation Commission in which state Appalachian is organized and doing business and by the Public Service Commission of West Virginia and by the Tennessee Public Service Commission, in which states Appalachian is qualified to do business. No other State commission and no Federal commission other than this Commission has jurisdiction over the proposed transactions.

It is estimated that the fees and expenses to be paid by the company will aggregate $122,394 including legal fees to Simpson Thacher & Bartlett of $13,500, legal fees to Hunton, Williams, Gay, Moore & Powell of $5,000, and accounting fees to Niles and Niles of $2,500. Legal fees of Winthrop, Stimson, Putnam & Roberts, counsel for the purchasers of the New Bonds, will be paid by such purchasers and such fees are estimated to be $8,100.

Notice is further given that any interested person may, not later than March 11, 1957 at 5:30 p. m., request the Commission in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said filing which he desires to controvert, or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D. C. At any time after said date, the application-declaration as filed or as it may hereafter be amended, may be granted or permitted to become effective, as provided in Rule U-23 of the rules and regulations promulgated under the act, or the Commission may grant exemption from its rules as provided in Rules U-20 (a) and U-100 or take such other action as it may deem appropriate.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

EASTERN UTILITIES ASSOCIATES ET AL.

NOTICE OF PROPOSED ISSUANCE AND SALE OF COMMON STOCK BY REGISTERED HOLDING COMPANY AND ITS SUBSIDIARIES PURSUANT TO SUBSCRIPTION OFFER AND PURCHASE BY PARENT OF SUBSIDIARY COMMON STOCKS

FEBRUARY 25, 1957.

In the matter of Eastern Utilities Associates, Blackstone Valley Gas and Electric Company, Brockton Edison Company, Fall River Electric Light Company; File No. 70-3560. Notice is hereby given that Eastern Utilities Associates ("EUA"), a registered holding company, and its public-utility subsidiary companies, Blackstone Valley Gas and Electric Company ("Blackstone"), Brockton Edison Company ("Brockton"), and Fall River Electric Light Company ("Fall River") have filed with this Commission a joint application-declaration, pursuant to the Public Utility Holding Company Act of 1935 ("act") designating sections 6 (a), 6 (b), 7, 9 (a), 10, 12 (e) and 12 (f) of the act and Rules U-42 (b) (2), U-43 and U-50 thereunder as applicable to the proposed transactions, which are summarized as follows:

EUA proposes to issue and offer to the holders of its outstanding common shares 89,322 of its common shares for subscription at a price to be determined by EUA shortly prior to the proposed offering, on the following basis: (a) One new common share for each 12 common shares held of record on a date in March 1957, to be fixed at a later date, and (b) the privilege of subscribing for additional new shares at the same price per common share, subject to allotment on the basis of the primary subscription privilege, and (c) the sale of the unsubscribed shares to underwriters to be selected pursuant to the competitive bidding requirements of Rule U-50.

Pursuant to Amended Reorganization Plan No. 4 of EUA some of its common shares are held by Distribution Agent for exchange for old convertible shares. Rights applicable to these common shares will be sold and the net proceeds held by the Distribution Agent and paid pro rata to the holders of such unexchanged convertible shares upon surrender thereof for exchange.

Blackstone has outstanding 173,234 shares of common stock of which EUA owns 171,804 shares (99.2 percent). Blackstone proposes to offer to the holders of its common stock 10,828 additional shares at $105 per share as fixed by its board of directors. Such shares will be offered on the basis of one new share for each 16 shares presently held and their sale is expected to provide proceeds of $1,132,000.

Brockton has outstanding 241,398 shares of common stock of which EUA owns 235,188 shares (97.4 percent). Brockton proposes to offer to the holders of its common stock 18,570 shares at $62 per share as fixed by its board of directors. Such shares will be offered on the basis of one new share for each 13 shares presently held and their sale is expected to provide proceeds of $1,146,000.

Fall River has outstanding 212,000 shares of common stock of which EUA owns 207,338 shares (97.8 percent). Fall River proposes to offer to the holders of its common stock 13,250 shares at $52 per share as fixed by its board of directors. Such shares will be offered on the basis of one new share for each 16 shares presently held and their sale is expected to provide proceeds of $684,000.

EUA will purchase its pro rata part of the shares of additional common stock to be issued by Blackstone, Brockton, and Fall River as well as any additional shares not subscribed for by other holders. EUA will use the proceeds of its common stock sale and other funds on hand or to be borrowed from banks for this purpose. Each subsidiary company will apply the proceeds from the sale of its additional common stock to the partial payment of its outstanding short-term bank loans.

EUA states that no State or Federal commission, other than this Commission, has jurisdiction over the proposed issue and sale of new common shares. The proposed issue and sale of new common stock by Blackstone is subject to the jurisdiction of the Public Utility Administrator, Department of Business Regulation, State of Rhode Island, the State commission of the State in which Blackstone is organized and doing business. The proposed issue and sale of new capital stock by Brockton and Fall River is subject to the Department of Public Utilities of Massachusetts, the State commission of the State in which Brockton and Fall River are respectively organized and doing business.

The fees and expenses in connection with the transactions proposed by EUA are estimated to aggregate $61,500 including legal fees and expenses of $6,200 and accountants' fees and expenses of $1,300. For the Blackstone transactions, the estimate aggregates $5,000 including $1,600 legal fees and expenses, for Brockton $5,000 including legal fees and expenses of $2,300 and for Fall River $4,000, including $1,500 legal fees and expenses. The fees and expenses of the underwriter's counsel to be paid by the underwriters will be supplied by amendment.

Notice is further given that any interested person may, not later than March 11, 1957 at 5:30 p. m., request the Commission in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D. C. At any time after said date, said application-declaration, as filed or as amended, may be permitted to become effective as provided in Rule U-23 of the rules and regulations promulgated under the act, or the Commission may exempt such transactions as provided in Rules U-20 and U-100 thereof.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[File No. 24D-1850]

IOLA URANIUM CORP.

ORDER VACATING ORDER OF SUSPENSION

FEBRUARY 25, 1957.

Iola Uranium Corporation (Iola), a Colorado corporation, 1414 South Michigan Avenue, Chicago 5, Illinois, filed with the Commission on July 26, 1955, a notification on Form 1-A and offering circular, and subsequently filed amendments thereto relating to a proposed public offering of 1,200,000 shares of common stock, 1¢ par value, at 25¢ per share, for the purpose of obtaining an exemption from the registration requirements of the Securities Act of 1933, as amended, pursuant to section 3 (b) thereof and Regulation A promulgated thereunder. Columbia Securities Company (Columbia), No. 1 Equitable Building, Denver, Colorado, was named as principal underwriter of the securities to be offered by Iola.

The Commission on September 6, 1956 ordered that the exemption on which Iola relied under Regulation A, be temporarily suspended for the reasons as stated in the referred to order.

Iola, subsequent to the action temporarily suspending the exemption, submitted a request that said order be vacated and in support thereof has furnished the Commission information that its relationship with its former underwriter, Columbia, was voluntarily terminated by Iola on August 28, 1956 when it first became aware of the indictment of one Arnold L. Kimmes and his connection with Columbia; that only 700 shares of those covered by the filing had been sold on or after August 3, 1956, the date of the Kimmes indictment; that it immediately ceased to offer the securities under its Regulation A filing on August 28, 1956, prior to the issuance of the temporary suspension order; and that no further offering of the securities is now contemplated under the said filing.

It therefore appearing to the Commission that a hearing is not necessary or appropriate in the Public interest or for the protection of investors and that the basis for said temporary order for suspension, as aforesaid, no longer exists;

It is ordered, Pursuant to rule 223 (b) under Regulation A of the general rules and regulations under the Securities Act of 1933, as amended, that said temporary order for suspension be, and it hereby is, vacated.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[File No. 31-640]

OLIN REVERE METALS CORP.

NOTICE OF FILING OF APPLICATION FOR EXEMPTION

FEBRUARY 21, 1957.

Notice is hereby given that Olin Revere Metals Corporation ("Metals"), a Delaware corporation, has filed an application and an amendment thereto pursuant to section 3 (a) (3) (A) of the Public Utility Holding Company Act of 1935 ("act") requesting an order exempting it, and every subsidiary company as such, from all the provisions of the act, on the ground that Metals is only incidently a holding company, being primarily engaged or interested in one or more businesses other than the business of a public utility company, and not driving directly or indirectly any material part of its income from any one or more subsidiary companies, the principal business of which is that of a public utility company.

The application as amended, which is on file in the offices of the Commission, may be summarized as follows:

Metals was organized in 1956 by Olin Mathieson Chemical Corporation ("Olin") and Revere Copper and Brass Incorporated ("Revere") for the purpose of constructing, owning and operating an integrated group of plants and facilities for the production of primary aluminum. The aluminum will be produced at a reduction plant to be situated near Clarington, Ohio, and will be sold to Olin and Revere in the proportions of 66 percent and 34 percent respectively. The electric power required for operation of the reduction plant will be obtained from electric generating facilities which will be owned by Olin Revere Generating Corporation ("Generating"), a wholly-owned subsidiary of Metals. Generating will come within the definition of an electric utility company as defined in the act, and Metals will come within the definition of a holding company as defined in the act.

Generating's facilities will consist of two units of a three-unit steam-electric generating station being constructed in West Virginia by Ohio Power Company ("Ohio"), a public utility subsidiary of American Gas and Electric Company ("American Gas"), a registered holding company. The third unit will be owned by Ohio and the three units will be operated as a single generating station by an "operating company" which will be a subsidiary of Ohio. The fuel requirements of the generating station will be supplied under a long-term contract by Pittsburgh Consolidation Coal Company ("Pittsburgh"). Electric power for the reduction plant will be delivered over a transmission line to be constructed and owned by Wheeling Electric Company ("Wheeling"), a public utility subsidiary of American Gas.

A Memorandum Agreement relating to the proposed aluminum project and its power supply was executed December 20, 1956 by Olin, Revere, Pittsburgh, Ohio and Wheeling. The agreement, among other things, contains provisions whereby a major portion of Generating's electric capacity will be made available to Metals, Olin and Revere, and a minor portion of this capacity will be made available to Ohio.

Electric energy will be sold by Generating on a cost reimbursement basis. Generating will realize no net income and will pay no dividends to Metals. The only revenue of Metals will be received from the sale of aluminum to Olin and Revere. The aluminum will be priced at an amount which will include the entire over-all "cost" of its production. Metals estimates that its revenue from the sale of aluminum will be approximately $60,000,000 in the first year of operation and will average approximately $70,000,000 per annum during the next four years. The revenue of Generating is estimated at approximately $15,000,000 annually during the first five years of operation of the generating station, and approximately $10,000,000 per annum thereafter.

The total cost of Metals' aluminum project, including the amount which Metals will invest in Generating, is estimated at $231,000,000. Metals will obtain $31,000,000 of this amount by the sale of its common stock and certain other securities to Olin and Revere. An

additional $100,000,000 will be obtained by the sale of 4½ percent First Mortgage Bonds of Metals to twenty institutional investors. The remaining $100,000,000 will be obtained through a five-year borrowing by Metals from ten commercial banks, evidenced by 4¼ percent promissory notes. The cost of the electric generating facilities to be owned by Generating is estimated at $60,000,000. Generating will purchase these facilities with funds obtained through the issuance and sale of capital stock and non-interest bearing Mortgage Notes to Metals.

The outstanding voting securities of Metals will initially be owned in equal amounts by Olin and Revere. Olin and its various subsidiaries are engaged in diversified manufacturing operations and at the end of 1955 had consolidated assets of approximately $622,000,000. For the year 1955 the consolidated net sales and revenues of Olin and subsidiaries were approximately $560,000,000. Revere is engaged in the manufacture of various products composed of copper, brass, bronze and other metals. Revere's total assets at the end of 1955 were approximately $88,000,000 and, for the year 1955, its net sales were approximately $243,000,000.

Olin and Revere will be holding companies as defined in the act. Olin and Revere have been advised by counsel that, upon the filing of the instant application by Metals in good faith, and while such application is pending, Olin and Revere will be exempt from the provisions of the act by virtue of Rule U-10 (a) of the rules and regulations thereunder, and that if the application is granted, Olin and Revere will be exempt thereafter pursuant to said rule.

Notice is further given that any interested person may, not later than March 11, 1957, at 5:30 p. m., request the Commission in writing that a hearing be held on such matter stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said application as amended which he desires to controvert, or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D. C. At any time after said date, said application as amended may be granted, or the Commission may take such other action as it may deem appropriate under the circumstances.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

INTERSTATE COMMERCE COMMISSION

FOURTH SECTION APPLICATIONS FOR RELIEF

FEBRUARY 26, 1957.

Protests to the granting of an application must be prepared in accordance with rule 40 of the general rules of practice (49 CFR 1.40) and filed within 15 days from the date of publication of this notice in the FEDERAL REGISTER.

LONG-AND-SHORT HAUL

FSA No. 33294: *Substituted service—R-W-R, Pennsylvania Railroad.* Filed by Central States Motor Freight Bureau, Inc., Agent, for interested rail carriers. Rates on various commodities, loaded in highway trailers on railroad flat cars between Indianapolis, Ind., on the one hand, and Pittsburgh, Pa., on the other, on traffic originating at points beyond or destined to points beyond the named points served by motor carriers.

Grounds for relief: Motor truck competition.

Tariff: Central States Motor Freight Bureau, Inc., tariff I. C. C. 27.

FSA No. 33295: *Anhydrous ammonia—Louisiana points to Sheffield, Ala.* Filed by F. C. Kratzmeir, Agent, for interested rail carriers. Rates on anhydrous ammonia, tank-car loads from Lake Charles, Sterlington, and West Lake Charles, La., to Sheffield, Ala.

Grounds for relief: Market competition and circuitous routes.

Tariff: Supplement 193 to Agent Kratzmeir's tariff I. C. C. 4112.

FSA No. 33296: *Alcohols—Louisiana points to Texas points:* Filed by F. C. Kratzmeir, Agent, for interested rail carriers. Rates on methyl ethyl ketone, other alcohols, and related articles, tank-car loads from Baton Rouge, Good Hope, New Orleans, and North Baton Rouge, La., to Houston, Texas City, and Velasco, Tex.

Grounds for relief: Maintenance of rates from points in the South in excess of lowest combinations by use of proposed rates from and to named points.

Tariff: Supplement 87 to Agent Kratzmeir's tariff I. C. C. 4161.

FSA No. 33297: *Aluminum billets—Arkansas and Texas to Baton Rouge, La.* Filed by F. C. Kratzmeir, Agent, for interested rail carriers. Rates on aluminum billets, blooms, pigs or slabs, carloads from specified points in Arkansas and Texas to Baton Rouge, La.

Grounds for relief: Short-line distance formula, market competition, and circuitous routes.

Tariff: Supplement 11 to Agent Kratzmeir's tariff I. C. C. 4225.

FSA No. 33298: *Cotton linters—Oklahoma points to Texas ports.* Filed by F. C. Kratzmeir, Agent, for interested rail carriers. Rates on cotton linters, carloads from McAlester and Oklahoma City, Okla., to Galveston, Houston, and Texas City, Tex., for export.

Grounds for relief: Circuitous routes.

Tariff: Supplement 76 to Agent Kratzmeir's tariff I. C. C. 4029.

FSA No. 33299: *Grain and grain products from and to points in central territory.* Filed by H. R. Hinsch, Agent, for interested rail carriers. Rates on grain and grain products, carloads from origins in central territory to destinations in central territory.

Grounds for relief: Grouping and circuity.

FSA No. 33300: *All freight—New York, N. Y., to Columbus, Ga., and Naples, Fla.* Filed by O. E. Schultz, Agent, for interested rail carriers. Rates on merchandise (all freight), mixed carloads from New York, N. Y., to Columbus, Ga., and Naples, Fla.

Grounds for relief: Modified short-line distance formula motor-truck (forwarder traffic) competition, and circuitous routes.

Tariff: Supplement 4 to Agent C. W. Boin's tariff I. C. C. A-1119.

FSA No. 33301: *Soda ash—Louisiana points to Coronet, Fla.* Filed by O. W. South, Jr., Agent, for interested rail carriers. Rates on soda ash, carloads from Baton Rouge and North Baton Rouge, La., to Coronet, Fla.

Grounds for relief: Barge-truck competition and circuity.

Tariff: Supplement 34 to Agent Spaninger's tariff I. C. C. 1526.

FSA No. 33302: *Sodium phosphates—official territory to Kansas City, Kans.-Mo.* Filed by O. E. Schultz, Agent, for interested rail carriers. Rates on phosphate of soda, noibn, di-sodium phosphate, and tri-sodium phosphate, carloads from specified points in Delaware, Michigan, New Jersey, Ohio and Pennsylvania to Kansas City, Kans.-Mo.

Grounds for relief: Circuitous routes.

Tariffs: Supplement 46 to Agent C. W. Boin's I. C. C. A-1034. Supplement 150 to Agent H. R. Hinsch's I. C. C. 4238.

FSA No. 33303: *Substituted service—motor-rail-motor-C. & E. I.* Filed by Middlewest Motor Freight Bureau, Agent, for the Chicago & Eastern Illinois Railroad, and interested motor carriers. Rates on various commodities loaded in highway trailers and transported on railroad flat cars between Chicago, Ill., on the one hand, and Mitchell, Ill., on the other, also between Chicago and East St. Louis, Ill.

Grounds for relief: Motor-truck competition.

Tariff: Supplement 43 to Middlewest Motor Freight Bureau tariff MF-I. C. C. 223.

FSA No. 33304: *Substituted service—motor-rail-motor, M-K-T-R. R.* Filed by Middlewest Motor Freight Bureau, Agent, for The Missouri-Kansas-Texas Railroad Company, and interested motor carriers. Rates on various commodities, loaded in highway trailers and transported on railroad flat cars from St. Louis, Mo., to Parsons, Kans., and in the reverse direction.

Grounds for relief: Motor truck competition.

Tariff: Supplement 43 to Middlewest Motor Freight Bureau tariff MF-I. C. C. 223.

FSA No. 33305: *Superphosphate—southwest to western trunk-line territory.* Filed by F. C. Kratzmeir, Agent, for interested rail carriers. Rates on superphosphate, in bulk, carloads from specified points in Arkansas, Louisiana, Missouri, Oklahoma and Texas to specified points in Colorado, Iowa, Kansas, Minnesota, Missouri, Nebraska, North Dakota, South Dakota and Wisconsin, also Streator, Ill.

Grounds for relief: Short-line distance formula and circuity.

Tariff: Supplement 194 to Agent Kratzmeir's tariff I. C. C. 4112.

FSA No. 33306: *Cottonseed oil—Memphis, Tenn., to Cincinnati, Ohio.* Filed by O. W. South, Jr., Agent, for interested rail carriers. Rates on cottonseed and soybean oil, and related oils, carloads from Memphis, Tenn., to Cincinnati, Ohio.

Grounds for relief: Circuitous route.

Tariff: Supplement 16 to Agent C. A. Spaninger's tariff I. C. C. 1551.

FSA No. 33307: *Frozen citrus fruit juices—Florida to western points.* Filed by O. W. South, Jr., Agent, for interested rail carriers. Rates on frozen citrus fruit juices and concentrates and related articles, carloads from specified points in Florida to specified points in Iowa, Minnesota, North Dakota, South Dakota and Wisconsin.

Grounds for relief: Short-line distance formula and circuitous routes, including routes through higher-rated territory.

Tariff: Supplement 2 to Agent C. A. Spaninger's tariff I. C. C. No. 1578.

By the Commission.

[SEAL] HAROLD D. MCCOY, *Secretary.*

TITLE 3—THE PRESIDENT

PROCLAMATION 3171

RED CROSS MONTH, 1957

BY THE PRESIDENT OF THE UNITED STATES OF AMERICA

A PROCLAMATION

WHEREAS the American National Red Cross continues to demonstrate its capacity to serve as a volunteer relief agency of the American people in matters affecting our communities, the Nation, and the world; and

WHEREAS by act of Congress the American National Red Cross is assigned responsibility in matters of voluntary relief for the armed forces of the United States, and serves as an agent of the American people in mitigating the suffering caused by disaster in this country or abroad; and

WHEREAS, while meeting its responsibilities to the American people, it has, during the past year, extended its assistance to the stricken people of Hungary; and

WHEREAS the Red Cross continues to maintain the largest single program in the Nation for the collection and distribution of blood and blood derivatives, providing approximately two million pints of blood annually for the treatment of the sick and injured; and

WHEREAS the activities of the Junior Red Cross contribute to the development of good citizenship and social responsibility among the youth of our Nation; and

WHEREAS through its programs of First Aid, Water Safety, and Home Nursing, as well as other voluntary community services, the Red Cross helps to safeguard the health of millions of our people:

NOW, THEREFORE, I, DWIGHT D. EISENHOWER, President of the United States of America and Honorary Chairman of the American National Red Cross, do hereby designate March 1957 as Red Cross Month; and I urge all Americans to honor the Red Cross during that month and to support this organization throughout the year to assure the continuing effectiveness of its programs and services.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the Seal of the United States of America to be affixed.

DONE at the City of Washington this 26th day of February in the year of our Lord nineteen hundred and
[SEAL] fifty-seven, and of the Independence of the United States of America the one hundred and eighty-first.

DWIGHT D. EISENHOWER

By the President:

JOHN FOSTER DULLES,
Secretary of State.

[F. R. Doc. 57-1672; Filed, Mar. 1, 1957; 11:30 a. m.]

MEMORANDUM OF FEBRUARY 6, 1957

[1957 RED CROSS CAMPAIGN]

THE WHITE HOUSE,
Washington, February 6, 1957.

MEMORANDUM FOR THE HEADS OF EXECUTIVE DEPARTMENTS AND AGENCIES

Because of its humanitarian purposes, the American Red Cross is close to the hearts of all who are concerned with the welfare of others. Federal employees and military personnel have demonstrated this fact through their splendid record of contributions to the Red Cross.

The need for our generous support of imperative Red Cross services continues. The past year has been a busy and costly one. Disaster expenditures alone were the highest in seventy-five years, and for several months the organization has been engaged in extensive relief operations on behalf of the people of Hungary. The Red Cross must always be kept ready to assume its responsibilities to victims of disaster, to the armed forces, to veterans, and their families, as well as through its safety services, nursing and national blood programs, community and international services.

The 1957 Red Cross Campaign will be conducted during the month of March in accordance with the approved Federal fund-raising policy and program which specifically provides a separate solicitation period for the American National Red Cross in all communities, except those where the Red Cross participates in a local united campaign, as well as

TITLE 7—AGRICULTURE

Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders), Department of Agriculture

[Navel Orange Reg. 108]

PART 914—NAVEL ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

LIMITATION OF HANDLING

§ 914.408 *Navel Orange Regulation 108*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 14, as amended (7 CFR Part 914; 21 F. R. 4707), regulating the handling of navel oranges grown in Arizona and designated part of California, effective September 22, 1953, under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.; 68 Stat. 906, 1047), and upon the basis of the recommendation and information submitted by the Navel Orange Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such navel oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The Navel Orange Administrative Committee held an open meeting on February 28, 1957, after giving due notice thereof, to consider supply and market conditions for navel oranges and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such navel oranges; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject thereto which cannot be completed on or before the effective date hereof.

(b) *Order.* (1) The quantity of navel oranges grown in Arizona and designated part of California which may be handled during the period beginning at 12:01 a. m., P. s. t., March 3, 1957, and ending at 12:01 a. m., P. s. t., March 10, 1957, is hereby fixed as follows:

(i) District 1: 295,680 cartons;
(ii) District 2: 628,320 cartons;
(iii) District 3: Unlimited movement;
(iv) District 4: Unlimited movement.

(2) All navel oranges handled during the period specified in this section are subject also to all applicable size restrictions which are in effect pursuant to this part during such period.

(3) As used in this section, "handled," "District 1," "District 2," "District 3," "District 4," and "carton" have the same meaning as when used in said amended marketing agreement and order.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: March 1, 1957.

[SEAL] G. R. GRANGE,
Acting Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[F. R. Doc. 57-1674; Filed, Mar. 1, 1957; 11:54 a. m.]

[Orange Reg. 311]

PART 933—ORANGES, GRAPEFRUIT, AND TANGERINES GROWN IN FLORIDA

LIMITATION OF SHIPMENTS

§ 933.832 *Orange Regulation 311*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 33, as amended (7 CFR Part 933), regulating the handling of oranges, grapefruit, and tangerines grown in the State of Florida, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendations of the committees established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of all Florida oranges, including Temple oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. Shipments of all oranges, including Temple oranges, grown in the State of Florida, are presently subject to regulation by grades and sizes, pursuant to the amended marketing agreement and order; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after an open meeting of the Growers Administrative Committee on February 26, 1957, such meeting was held to consider recommendations for regulation, after giving due notice of such meeting, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section, including the effective time hereof, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such oranges; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period hereinafter set forth so as to provide for the continued regulation of the handling of all oranges, including Temple oranges, and compliance with this section will not require any special preparation on the part of the persons subject thereto which cannot be completed by the effective time hereof.

(b) *Order.* (1) Terms used in the amended marketing agreement and order shall, when used herein, have the same meaning as is given to the respective term in said amended marketing agreement and order; and terms relating to grade, standard pack, and standard box, as used herein, shall have the

same meaning as is given to the respective term in the United States Standards for Florida Oranges and Tangelos (§§ 51.1140 to 51.1186 of this title).

(2) During the period beginning at 12:01 a. m., e. s. t., March 4, 1957, and ending at 12:01 a. m., e. s. t., March 18, 1957, no handler shall ship:

(i) Any oranges, including Temple oranges, grown in the State of Florida, which do not grade at least U. S. No. 1 Bronze;

(ii) Any oranges, except Temple oranges, grown in the State of Florida, which are of a size smaller than $2^{6}/_{16}$ inches in diameter, which shall be the largest measurement at a right angle to a straight line running from the stem to the blossom end of the fruit, except that a tolerance of 10 percent, by count, of oranges smaller than such minimum diameter shall be permitted, which tolerance shall be applied in accordance with the provisions for the application of tolerances, specified in the United States Standards for Florida Oranges and Tangelos (§§ 51.1140 to 51.1186 of this title): *Provided*, That in determining the percentage of oranges in any lot which are smaller than $2^{6}/_{16}$ inches in diameter, such percentage shall be based only on those oranges in such lot which are of a size $2^{1}/_{16}$ inches in diameter and smaller;

(iii) Any oranges, except Temple oranges, grown in the State of Florida, which are of a size larger than $3^{6}/_{16}$ inches in diameter, which shall be the largest measurement at a right angle to a straight line running from the stem to the blossom end of the fruit, except that a tolerance of 10 percent, by count, of oranges larger than such maximum diameter shall be permitted, which tolerance shall be applied in accordance with the provisions for the application of tolerances, specified in the United States Standards for Florida Oranges and Tangelos (§§ 51.1140 to 51.1186 of this title): *Provided*, That in determining the percentage of oranges in any lot which are larger than $3^{6}/_{16}$ inches in diameter, such percentage shall be based only on those oranges in such lot which are of a size 3 inches in diameter and larger; or

(iv) Any Temple oranges, grown in the State of Florida, which are of a size smaller than $2^{6}/_{16}$ inches in diameter, which shall be the largest measurement at a right angle to a straight line running from the stem to the blossom end of the fruit, except that a tolerance of 10 percent, by count, of Temple oranges smaller than such minimum diameter shall be permitted, which tolerance shall be applied in accordance with the provisions for the application of tolerances specified in the United States Standards for Florida Oranges and Tangelos (§§ 51.1140 to 51.1186 of this title).

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: February 27, 1957.

[Grapefruit Reg. 259]

PART 933—ORANGES, GRAPEFRUIT, AND TANGERINES GROWN IN FLORIDA

LIMITATION OF SHIPMENTS

§ 933.833 *Grapefruit Regulation 259*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 33, as amended (7 CFR Part 933), regulating the handling of oranges, grapefruit, and tangerines grown in the State of Florida, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendations of the committees established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of all Florida grapefruit, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. Shipments of all grapefruit, grown in the State of Florida, are presently subject to regulation by grades and sizes, pursuant to the amended marketing agreement and order; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the department after an open meeting of the Growers Administrative Committee on February 26, 1957, such meeting was held to consider recommendations for regulation, after giving due notice of such meeting, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section, including the effective time hereof, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such grapefruit; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period hereinafter set forth so as to provide for the continued regulation of the handling of all grapefruit, and compliance with this section will not require any special preparation on the part of the persons subject thereto which cannot be completed by the effective time hereof.

(b) *Order.* (1) Terms used in the amended marketing agreement and order shall, when used herein, have the same meaning as is given to the respective term in said amended marketing agreement and order; and terms relating to grade, standard pack, and standard box, as used herein, shall have the same meaning as is given to the respective term in the United States Standards for Florida Grapefruit (§§ 51.750 to 51.790 of this title); and the term "mature" shall have the same meaning as set forth in section 601.16 Florida Statutes, chapters 26492 and 28090, known as the Florida Citrus Code of 1949, as supplemented by section 601.17 (chapters 25149 and 28090) and also by section 601.18, as amended June 2, 1955 (chapter 29760).

(2) During the period beginning at 12:01 a. m., e. s. t., March 4, 1957, and ending at 12:01 a. m., e. s. t., March 18, 1957, no handler shall ship:

(i) Any seeded grapefruit, grown in the State of Florida, which are not mature and do not grade at least U. S. No. 1 Bronze;

(ii) Any seeded grapefruit, grown in the State of Florida, which are of a size smaller than $3^{15}/_{16}$ inches in diameter, measured midway at a right angle to a straight line running from the stem to the blossom end of the fruit, except that a tolerance of 10 percent, by count, of seeded grapefruit smaller than such minimum size shall be permitted, which tolerance shall be applied in accordance with the provisions for the application of tolerances, specified in the revised United States Standards for Florida Grapefruit (§§ 51.750 to 51.790 of this title);

(iii) Any seedless grapefruit, grown in Regulation Area I, which are not mature and do not grade at least U. S. No. 1 Bronze;

(iv) Any seedless grapefruit, grown in Regulation Area II, which are not mature and do not grade at least U. S. No. 1 Bronze: *Provided*, That not to exceed 40 percent, by count, of such grapefruit may be damaged, but not seriously damaged, by scars; or

(v) Any seedless grapefruit, grown in the State of Florida, which are of a size smaller than $3^{6}/_{16}$ inches in diameter, measured midway at a right angle to a straight line running from the stem to the blossom end of the fruit, except that a tolerance of 10 percent, by count, of seedless grapefruit smaller than such minimum size shall be permitted, which tolerance shall be applied in accordance with the provisions for the application of tolerances, specified in the revised United States Standards for Florida Grapefruit (§§ 51.750 to 51.790 of this title).

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: February 27, 1957.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[Tangerine Reg. 187]

PART 933—ORANGES, GRAPEFRUIT, AND TANGERINES GROWN IN FLORIDA

LIMITATION OF SHIPMENTS

§ 933.834 *Tangerine Regulation 187*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 33, as amended (7 CFR Part 933), regulating the handling of oranges, grapefruit, and tangerines grown in the State of Florida, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendations of the committees established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of Florida tangerines, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. Shipments of tangerines, grown in the State of Florida, are presently subject to regulation by grades and sizes, pursuant to the amended marketing agreement and order; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after an open meeting of the Growers Administrative Committee on February 26, 1957, such meeting was held to consider recommendations for regulation, after giving due notice of such meeting, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section, including the effective time hereof, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such tangerines; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period hereinafter set forth so as to provide for the continued regulation of the handling of tangerines, and compliance with this section will not require any special preparation on the part of the persons subject thereto which cannot be completed by the effective time hereof.

(b) *Order.* (1) Terms used in the amended marketing agreement and order shall, when used herein, have the same meaning as is given to the respective term in said amended marketing agreement and order; and terms relating to grade and standard pack, as used herein, shall have the same meaning as is given to the respective term in the United States Standards for Florida Tangerines (§§ 51.1810 to 51.1836 of this title).

(2) During the period beginning at 12:01 a. m., e. s. t., March 4, 1957, and ending at 12:01 a. m., e. s. t., March 18, 1957, no handler shall ship:

(i) Any tangerines, grown in the State of Florida, that do not grade at least U. S. No. 2; or

(ii) Any tangerines, grown in the State of Florida, that are of a size smaller than $2^{2}/_{16}$ inches in diameter, which shall be the largest measurement at a right angle to a straight line running from the stem to the blossom end of the fruit, except that a tolerance of 10 percent, by count, of tangerines smaller than such minimum diameter shall be permitted, which tolerance shall be applied in accordance with the provisions for the application of tolerances specified in the United States Standards for Florida Tangerines (§§ 51.1810 to 51.1836 of this title).

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: February 27, 1957.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[F. R. Doc. 57-1604; Filed, Mar. 1, 1957; 8:50 a. m.]

PART 942—MILK IN NEW ORLEANS, LOUISIANA, MARKETING AREA

ORDER SUSPENDING CERTAIN PROVISIONS

Pursuant to the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), hereinafter referred to as the "act", and of the order, as amended (7 CFR Part 942), regulating the handling of milk in the New Orleans, Louisiana, marketing area, hereinafter referred to as the "order", it is hereby found and determined that:

(a) The seasonal price adjustment provided in § 942.51 (a) does not tend to effectuate the declared policy of the act, for the period March through April, 1957.

(b) Notice of proposed rule making, public procedure thereon, and 30 days notice of the effective date hereof, are impracticable, unnecessary, and contrary to the public interest for reason stated under (a) above and in that:

1. The level of the Class I price was considered at a public hearing at New Orleans, Louisiana, January 28–31, 1957.

2. Issuance of this suspension order as a separate action is necessary in order to reflect current marketing conditions and facilitate, promote and maintain orderly marketing of milk produced for the said marketing area, pending further consideration and action on other issues of said hearing.

3. The effect of this suspension is to eliminate a seasonal price reduction which, in addition to a negative supply-demand adjustment, would result in an excessive price decrease under prevailing marketing conditions; and

4. This suspension order does not require of persons affected substantial or extensive preparation prior to its effective date.

Therefore, good cause exists for making this order effective immediately.

It is therefore ordered, That the provisions of § 942.51 (a) of the order which read "the months of March through" be and hereby are suspended for the months March through April, 1957.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C 608c)

Done at Washington, D. C., this 28th day of February 1957.

[SEAL] EARL L. BUTZ,
Assistant Secretary.

[F. R. Doc. 57-1644; Filed, Mar. 1, 1957; 8:52 a. m.]

[Lemon Reg. 676]

PART 953—LEMONS GROWN IN CALIFORNIA AND ARIZONA

LIMITATION OF SHIPMENTS

§ 953.783 *Lemon Regulation 676*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 53, as amended (7 CFR Part 953; 20 F. R. 8451; 21 F. R. 4393), regulating the handling of lemons grown in the State of California or in the State of Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.; 68 Stat. 906, 1047), and upon the basis of the recommendation and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of the quantity of such lemons which may be handled, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. Shipments of lemons, grown in the State of California or in the State of Arizona, are currently subject to regulation pursuant to said amended marketing agreement and order; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after an open meeting of the Lemon Administrative Committee on February 27, 1957;

such meeting was held, after giving due notice thereof to consider recommendations for regulation, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such lemons; it is necessary in order to effectuate the declared policy of the act, to make this section effective during the period hereinafter specified; and compliance with this section will not require any special preparation on the part of persons subject thereto which cannot be completed by the effective time thereof.

(b) *Order.* (1) The quantity of lemons grown in the State of California or in the State of Arizona which may be handled during the period beginning at 12:01 a. m., P. s. t., March 3, 1957, and ending at 12:01 a. m., P. s. t., March 10, 1957, is hereby fixed as follows:

(i) District 1: 4,650 cartons;

(ii) District 2: 181,350 cartons;

(iii) District 3: Unlimited movement.

(2) As used in this section, "handled," "District 1," "District 2," "District 3," and "carton" have the same meaning as when used in the said amended marketing agreement and order.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: February 28, 1957.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Division, Agricultural Marketing Service.

TITLE 6—AGRICULTURAL CREDIT

Chapter I—Farm Credit Administration

Subchapter B—Federal Farm Loan System

PART 10—FEDERAL LAND BANKS GENERALLY

INTEREST RATES ON LOANS MADE THROUGH ASSOCIATIONS

In order to reflect approval which has been given to increased interest rates on loans closed through national farm loan associations by the Federal Land Banks of Springfield, Louisville, and New Orleans, § 10.41 of Title 6 of the Code of Federal Regulations, as amended (21 F. R. 10167; 22 F. R. 133, 653), is hereby further amended, effective March 1, 1957: by substituting "5½" for "5" in the line with "Springfield" therein; by substituting "5" for "4½" in the line with "Louisville" therein; and by substituting "5" for "4½" in the line with "New Orleans" therein.

(Sec. 6, 47 Stat. 14, as amended; 12 U. S. C. 665. Interprets or applies secs. 12 "Second", 17, 39 Stat. 370, 375, as amended; 12 U. S. C. 771 "Second", 831)

[SEAL] A. T. ESGATE,
Acting Governor, Farm Credit Administration.

TITLE 10—ATOMIC ENERGY

Chapter I—Atomic Energy Commission

PART 40—CONTROL OF SOURCE MATERIAL

EXEMPTION FOR PERSONS ACQUIRING OR TRANSFERRING SOURCE MATERIAL UNDER CONTRACT WITH AND FOR THE ACCOUNT OF THE COMMISSION

The regulations in Part 40, "Control of Source Material", 10 CFR contain a general license for transfers, deliveries and receipts of possesion of (but not title to) source material by contractors and agents of the Commission, including subcontractors, in the authorized course of their business for the Commission (§ 40.62 (a)). This amendment, which exempts certain AEC contractors from the licensing requirements of Part 40, corresponds to the exemption of AEC contractors from special nuclear material licensing requirements (10 CFR 70.11). As in the case of contractors possessing special nuclear material, the Commission already imposes under the applicable contract appropriate controls to protect against hazards to health and safety or to the common defense and security.

Inasmuch as this amendment is intended to relieve from, rather than to impose, restrictions under regulations currently in effect, the AEC has found that general notice of proposed rulemaking and public procedure thereon are unnecessary and that good cause exists why this amendment should be made effective without the customary period of notice.

Part 40 is amended in the following respects:

1. The following new section is added:

§ 40.12 *Exemption for persons acquiring or transferring source material under contract with and for the account of the Commission.* The regulations in this part do not apply to any person to the extent that such person receives possession of (but not title to) source material owned by the Atomic Energy Commission, or transfers, delivers, or exports such source material, under and in accordance with a contract with and for the account of the Commission. In any such case, such person's obligations with respect to the source material are governed by the applicable contract between such person and the Commission.

2. Paragraph "(a)" of § 40.62 is deleted. Paragraphs "(b)" and "(c)" of § 40.62 are redesignated "(a)" and "(b)" respectively.

Dated at Washington, D. C., this 27th day of February 1957.

(60 Stat. 755-775; 42 U. S. C. 1801-1819)

K. E. FIELDS,
General Manager.

TITLE 33—NAVIGATION AND NAVIGABLE WATERS

Chapter II—Corps of Engineers, Department of the Army

PART 203—BRIDGE REGULATIONS

BEAVER DAM CREEK, N. J.

Pursuant to the provisions of section 5 of the River and Harbor Act of August 18, 1894 (28 Stat. 362; 33 U. S. C. 499), § 203.225 governing the operation of bridges over navigable waters in the State of New Jersey where constant attendance of draw tenders is not required is hereby amended prescribing paragraph (f) (5-a), to govern the operation of Ocean County highway bridge across Beaver Dam Creek, as follows:

§ 203.225 *Navigable waters in the State of New Jersey; bridges where constant attendance of draw tenders is not required.* • • •

(f) The bridges to which this section applies and the regulations applicable in each case, are as follows:

• • • • • •

(5-a) Beaver Dam Creek; Ocean County highway bridge near Point Pleasant. At all times during January, February, March and December and between 4:00 p. m. and 8:00 a. m., during April, May, October and November, at least 24 hours' advance notice required. At all other times the regulations in § 203.220 shall govern the operation of this bridge.

[Regs., February 14, 1957, 823.01 (Beaver Dam Creek, N. J.)—ENGWO] (Sec. 5, 28 Stat. 362; 33 U. S. C. 499)

[SEAL] HERBERT M. JONES,
Major General, U. S. Army, The Adjutant General.

[F. R. Doc. 57-1582; Filed, Mar. 1, 1957; 8:45 a. m.]

TITLE 36—PARKS, FORESTS, AND MEMORIALS

Chapter I—National Park Service, Department of the Interior

PART 20—SPECIAL REGULATIONS

MESA VERDE NATIONAL PARK

1. Section 20.39 *Mesa Verde National Park* is amended by the addition of paragraph (b) to read as follows:

(b) *Speed.* (1) The maximum speed of all vehicles on the Entrance Road and on the Ruins Roads up to the beginning of the loop sections is limited to 35 miles per hour.

(2) On the loop sections of the Ruins Roads, and those parts of the Headquarters Area Loop Road for which maximum limits are not prescribed by § 1.42 of this chapter 25 miles per hour, as posted.

(Sec. 3, 39 Stat. 535, as amended; 16 U. S. C. 3)

Issued this 8th day of February 1957.

O. W. CARLSON,
Superintendent, Mesa Verde National Park.

PROPOSED RULE MAKING

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 936]

FRESH BARTLETT PEARS, PLUMS, AND ELBERTA PEACHES GROWN IN CALIFORNIA

FINDINGS AND DETERMINATIONS WITH RESPECT TO CONTINUATION IN EFFECT OF AMENDED MARKETING AGREEMENT AND ORDER

Pursuant to the applicable provisions of Marketing Agreement No. 85, as amended, and Order No. 36, as amended (7 CFR, Part 936), and the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.), notice was given in the FEDERAL REGISTER on December 6, 1956 (21 F. R. 9661), that a referendum would be conducted among the growers who, during the marketing season beginning on March 1, 1956 (which period was determined to be a representative period for the purpose of such referendum), had been engaged, in the State of California, in the production of any fruit (as such term is defined in the amended marketing agreement and order) for shipment in fresh form to determine whether a majority of such growers favor the termination of the amended marketing agreement and order as to any one or more of such fruits.

Upon the basis of the results of the aforesaid referendum, which was conducted during the period January 19 to 31, 1957, both dates inclusive, it is hereby found and determined that the termination of the said marketing agreement and order, with respect to any of the fruits covered thereby, is not favored by the requisite majority of such growers.

Dated: February 26, 1957.

[SEAL] EARL L. BUTZ,
Assistant Secretary.

[7 CFR Part 982]

[Docket No. AO-238-A7]

HANDLING OF MILK IN CENTRAL WEST TEXAS MARKETING AREA

NOTICE OF HEARING ON PROPOSED EMERGENCY AMENDMENT TO TENTATIVE MARKETING AGREEMENT AND ORDER, AS AMENDED

Pursuant to the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and in accordance with the applicable rules of practice and procedure, as amended (7 CFR Part 900), notice is hereby given of a public hearing to be held at the Wooten Hotel, Abilene, Texas, beginning at 10:00 a. m., c. s. t., on March 18, 1957.

Subjects and issues involved in the hearing. This public hearing is for the purpose of receiving evidence with respect to economic and emergency conditions which relate to the handling of milk in the Central West Texas marketing area. More specifically, consideration will be given to the pricing of Class II milk utilized in the manufacture of Cheddar cheese to determine (1) the extent to which present conditions threaten to disrupt orderly marketing and constitute a threat to the supply of milk for the market, and (2) whether temporary emergency price relief is necessary to promote orderly marketing. The proposed amendment has not received the approval of the Secretary of Agriculture.

Amendment to the order (No. 82) as amended, for the Central West Texas marketing area was proposed by the Central West Texas Milk Producers Association, The Borden Company of Abilene, Texas, and The Borden Company of Midland, Texas, as follows:

Consider amending the Class II price to provide an emergency price for milk utilized in the manufacture of Cheddar cheese.

Copies of this notice of hearing may be obtained from the Market Administrator, P. O. Box 35225, Airlawn Station, Dallas, Texas, or from the Hearing Clerk, Room 112, Administration Building, United States Department of Agriculture, Washington 25, D. C., or may be there inspected.

Dated: February 27, 1957.

[SEAL] ROY W. LENNARTSON,
Deputy Administrator.

[F. R. Doc. 57-1590; Filed, Mar. 1, 1957; 8:47 a. m.]

DEPARTMENT OF LABOR

Division of Public Contracts

[41 CFR Part 202]

DRUGS AND MEDICINE INDUSTRY

PREVAILING MINIMUM WAGES

This matter is before the Department pursuant to the act of June 20, 1936 (49 Stat. 2036; 41 U. S. C. sec. 35 et seq.), known as the Walsh-Healey Public Contracts Act.

The drugs and medicine industry, for the purpose of this hearing, is defined to include the following: Drugs or medical preparations (other than food) intended for internal or external use in the diagnosis, treatment, or prevention of disease in, or to affect the structure or any function of, the body of man or other animals.

Typical products of the industry are: bulk organic and inorganic medicinal chemicals and their derivatives; endocrine products; basic vitamins; active medicinal principles such as alkaloids from botanical drugs and herbs; drugs and medicines in pharmaceutical preparations such as ampules, tablets, capsules, ointments, solutions and suspensions for human and veterinary use, including vitamin preparations and galenicals such as fluid extracts and tinctures; viruses, serums, toxins, and analogous products such as allergenic extracts, and normal serums and plasmas for human or veterinary use; and bacteriological media.

Now, therefore, notice is hereby given that a public hearing will be held on the 2d day of April 1957, beginning at 10 a. m., in Room 1214, United States Department of Labor Building, Fourteenth and Constitution Avenue NW., Washington, D. C., before the Secretary of Labor or a duly assigned Hearing Examiner, at which hearing all interested parties may appear and submit data, views and arguments (1) as to the propriety of the proposed definition of the industry; (2) as to what are the prevailing minimum wages in the industry; (3) as to whether a single determination is appropriate for all the products of the industry; (4) as to whether a single determination for all the area in which the industry operates or separate determinations for smaller geographic areas (including the appropriate limits for such areas) should be determined for this industry; (5) as to whether there should be included in any determination for this industry provision for the employment of beginners or apprentices at subminimum rates and on what terms or limitations, if any, such employment should be permitted. Employment and wage data have been prepared in the Department of Labor for consideration at the hearing and will be made available to interested parties upon request.

Persons intending to appear are requested to notify the Administrator of the Wage and Hour and Public Contracts Divisions of their intention in advance of the hearing.

Written statements of position or argument may be filed with the Administrator at any time prior to the date of the hearing by persons who cannot appear personally. An original and three copies of any such statement shall be filed and shall include the reason or reasons for non-appearance. Such statements as contain factual matter shall be sworn to and will be offered in evidence at the hearing. If objection is made to any such offer, the statement will be received in evidence subject to the objection which will be considered to affect the weight rather than the admissibility of the statement.

The following information is particularly invited with respect to the subject matter of the testimony of each witness, or the sworn statements of persons who cannot appear personally: (1) The identity of any product not now included in the definition of the industry which should be included and of any products now included which should not be included; (2) with respect to the testimony or presentation the number and location of establishments in the industry; (3) the number of workers employed in each such establishment; (4) the minimum

rates paid and the number of workers at each such establishment receiving such rates and the occupations in which they are employed; (5) at each such establishment the minimum wages paid to apprentices or beginners, the scale of wages paid during the apprenticeship or beginner period, the length of such periods, the number of workers receiving such wages, and the occupations in which they are employed; and (6) the nature and the geographic pattern of competition within this industry.

To the extent possible, data should be submitted in such manner as to permit evaluation thereof on a plant by plant basis.

This hearing shall be conducted pursuant to the rules of practice set forth in Part 203, Subpart C (41 CFR Part 203).

Signed at Washington, D. C., this 27th day of February 1957.

JAMES T. O'CONNELL,
Acting Secretary of Labor.

POST OFFICE DEPARTMENT

MAIL SERVICE TO HUNGARY

Mail service to Hungary, which had been suspended, was resumed recently. (See 22 F. R. 152.)

The Hungarian postal authorities have advised of the following customs regulations for gift parcels:

Exemption from customs duty is granted to items shown in the list on pages Hungary (2) and (3) of the Directory of International Mail, provided the quantities do not exceed the personal needs of the addressee and his family. The Hungarian customs authorities generally consider personal needs to be double the maximum amounts indicated in the list. Articles regarded as exceeding personal needs will be admitted but will be assessed with customs duty.

NOTICES

ATOMIC ENERGY COMMISSION

[Docket No. F-32]

AEROJET-GENERAL NUCLEONICS

NOTICE OF ISSUANCE OF LICENSE

Please take notice that the Atomic Energy Commission on February 23, 1957, issued License R-7 set forth below to Aerojet-General Nucleonics for a 100 milliwatt reactor designated by the applicant as Model AGN-201, Serial No. 101.

[License No. R-7]

LICENSE

I. Subject to the conditions and requirements incorporated herein, the Atomic Energy Commission hereby licenses Aerojet-General Nucleonics, San Ramon, California (hereinafter referred to as "AGN"),

a. Pursuant to Section 104c of the Atomic Energy Act of 1954 (hereinafter referred to as "the Act"), and Title 10, CFR, Chapter 1, Part 50, "Licensing of Production and Utilization Facilities," to possess and operate as a utilization facility the nuclear reactor (hereinafter referred to as "the facility") designated below;

b. Pursuant to the Act and Title 10, CFR, Chapter 1, Part 70, "Special Nuclear Material Regulations," to receive, possess and use up to 700 grams of contained uranium 235 in uranium oxide (UO_2) as fuel for operation of the facility.

c. Pursuant to the Act and Title 10, CFR, Chapter 1, Part 30, "Licensing of By-Product Material," to possess, but not to separate from the fuel or target materials such by-product material as may be produced from operation of the reactor.

2. This license applies to the nuclear reactor designated by the applicant as Model AGN-201, Serial No. 101 which is owned by AGN and located at San Ramon, California, and described in the application and documents incorporated therein by reference.

3. This license shall be deemed to contain and be subject to the conditions specified in Section 50.54 of Part 50 and Section 70.32 of Part 70; is subject to all applicable provisions of the Atomic Energy Act of 1954 and rules, regulations and orders of the Atomic Energy Commission now or hereafter in effect and to the proposed "Standards for Protection Against Radiation" regulation (10 CFR, Part 20) published in the FEDERAL REGISTER January 29, 1957, until such time as said proposed regulation shall become an effective regulation of the Commission; and is subject to any additional conditions specified or incorporated below.

4. The conditions and requirements contained in Appendix "A", attached hereto, are a part of this license.

5. This license is effective as of the date of issuance and shall expire at midnight, February 21, 1977, unless sooner terminated.

Date of issuance: February 23, 1957.

Dated at Washington, D. C., this 23d day of February 1957.

For the Atomic Energy Commission.

H. L. PRICE,
Director,
Division of Civilian Application.

APPENDIX A

I. *Operating restrictions.* a. AGN shall operate the reactor in accordance with the procedures described in its application and documents incorporated therein by reference.

b. AGN shall not by-pass any control mechanism during the operation of the facility.

c. AGN shall not operate the reactor at power levels in excess of 100 milliwatts without previous authorization from the Commission.

II. *Records.* In addition to those otherwise required under this license, AGN shall keep the following records:

a. Reactor operating records, including power levels.

b. Record of in-pile irradiations.

c. Records showing radioactivity released or discharged into the air or water beyond the effective control of AGN as measured at the point of such release or discharge.

d. Records of emergency reactor scrams, including reasons for emergency shutdowns.

III. *Reports.* AGN shall make a prompt report to the Commission of any unusual operating incident of the reactor.

[Docket No. 50-49]

AEROJET-GENERAL NUCLEONICS

NOTICE OF AMENDMENT OF LICENSE

Please take notice that the Atomic Energy Commission on February 26, 1957, issued an amendment to License No. R-7 issued Aerojet-General Nucleonics for a 100 milliwatt reactor designated by the applicant as Model AGN-201, Serial No. 101. The amendment authorizes (1) the transfer of the reactor from San Ramon, California to Philadelphia, Pennsylvania; (2) the operation of the reactor as an exhibit in Convention Hall, Philadelphia; and (3) the return of the reactor core to San Ramon and the transfer of the reactor without core to a site at Catholic University, Washington, D. C. for storage by Aerojet-General Nucleonics. A copy of the amendment is available for public inspection at the AEC Public Document Room located at 1717 H Street NW., Washington, D. C.

Notice of the proposed issuance of this amendment to license was published in the FEDERAL REGISTER on February 8, 1957, 22 F. R. 798.

Dated at Washington, D. C. this 26th day of February 1957.

For the Atomic Energy Commission.

H. L. PRICE,
Director,
Division of Civilian Application.

[F. R. Doc. 57-1610; Filed, Mar. 1, 1957; 8:51 a. m.]

[Docket No. F-32]

AEROJET-GENERAL NUCLEONICS

NOTICE OF ISSUANCE OF CONSTRUCTION PERMIT

Please take notice that on February 22, 1957, the Atomic Energy Commission issued a Construction Permit, CPRR-9, to Aerojet-General Nucleonics authorizing the construction of three 100 milliwatt reactors designated by the applicant as Model AGN-201. A copy of the permit is available for public inspection at the AEC Public Document Room located at 1717 H Street NW., Washington, D. C.

The construction permit is substantially in the form published under a notice of proposed action in the FEDERAL REGISTER on February 6, 1957, 22 F. R. 742.

Dated at Washington, D. C., this 22d day of February 1957.

For the Atomic Energy Commission.

H. L. PRICE,
Director,
Division of Civilian Application.

[Docket No. 50-54]

UNION CARBIDE NUCLEAR CO.

NOTICE OF APPLICATION FOR UTILIZATION FACILITY LICENSE

Please take notice that on February 15, 1957, Union Carbide Nuclear Company, a Division of Union Carbide Corporation, 30 East 42d Street, New York, New York, filed an application under section 104c of the Atomic Energy Act of 1954 for a license to construct and operate a 5-megawatt, pool-type nuclear reactor to be located in Sterling Forest, Orange County, New York. A copy of the application is available for public inspection in the AEC Public Document Room located at 1717 H Street NW., Washington, D. C.

Dated at Washington, D. C. this 26th day of February 1957.

For the Atomic Energy Commission.

FRANK K. PITTMAN,
Deputy Director,
Division of Civilian Application.

[F. R. Doc. 57-1611; Filed, Mar. 1, 1957; 8:51 a. m.]

DEPARTMENT OF AGRICULTURE

Office of the Secretary

NORTH CAROLINA

DISASTER ASSISTANCE; DESIGNATION OF AREA FOR SPECIAL EMERGENCY LOANS

For the purpose of making emergency loans pursuant to Public Law 727, 83d Congress, as amended, it is determined that in the State of North Carolina there is a need for agricultural credit which cannot be met for a temporary period from commercial banks, cooperative lending agencies, the Farmers Home Administration under its regular programs, or under Public Law 38, 81st Congress (12 U. S. C. 1148a-2), as amended, or other responsible sources.

Pursuant to the authority set forth above, such loans may be made to new applicants in the State of North Carolina through June 30, 1957. Thereafter, such loans may be made in the State only to applicants who previously received such assistance and who can qualify under established policies and procedures.

Done at Washington, D. C., this 27th day of February 1957.

[SEAL] TRUE D. MORSE,
Acting Secretary.

[F. R. Doc. 57-1607; Filed, Mar. 1, 1957; 8:51 a. m.]

CIVIL AERONAUTICS BOARD

[Docket No. 8412]

PAN AMERICAN WORLD AIRWAYS, INC., AND FLYING TIGER LINE, INC.

NOTICE OF HEARING

In the matter of the joint application of Pan American World Airways, Inc., and The Flying Tiger Line Inc. for approval of an agreement under sections 408 and 412 of the Civil Aeronautics Act of 1938, as amended.

Notice is hereby given, pursuant to the Civil Aeronautics Act of 1938, as amended, particularly sections 408 and 412 of the said act, that a hearing in the above-entitled proceeding is assigned to be held on March 11, 1957, at 10:00 a. m., (eastern standard time) in Room E-210, Temporary Building No. 5, 16th Street and Constiution Avenue NW., Washington, D. C., before Examiner Richard A. Walsh.

Without limiting the scope of the issues presented by said application, particular attention will be directed to the following matters and questions:

(1) Whether approval of the agreement will be consistent with the public interest within the meaning of sections 408 and 412 of the Civil Aeronautics Act of 1938, as amended.

(2) Whether the proposed transaction will result in the creation of a monopoly or monopolies and thereby restrain competition or jeopardize another air carrier not a party thereto.

Notice is further given that any person desiring to be heard in this proceeding must file with the Board, on or before March 11, 1957, a statement setting forth the issues of fact or law raised by said application which he desires to controvert.

For further details of the authorization requested, interested parties are referred to the joint application on file with the Civil Aeronautics Board.

Dated at Washington, D. C., February 25, 1957.

[SEAL] FRANCIS W. BROWN,
Chief Examiner.

FEDERAL POWER COMMISSION

[Docket Nos. G-10326; G-10370 etc.]

SUNRAY MID-CONTINENT OIL CO. ET AL.

NOTICE OF SEVERANCE

FEBRUARY 26, 1957.

Notice is hereby given that the application of Sunray Mid-Continent Oil Company (Applicant) Docket No. G-10326 in the above consolidated proceedings scheduled for hearing on March 5, 1957, at 9:30 a. m., e. s. t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., is hereby severed therefrom and continued for a hearing at a subsequent date to be set by further notice.

[SEAL] JOSEPH H. GUTRIDE,
Secretary.

[F. R. Doc. 57-1586; Filed, Mar. 1, 1957; 8:46 a. m.]

[Docket No. G-12067]

JOSEPH M. JONES

ORDER SUSPENDING PROPOSED CHANGE IN RATES

FEBRUARY 26, 1957.

Joseph M. Jones (Operator), et al. (Jones), on January 28, 1957, tendered for filing a proposed change in the presently effective rate schedule for sales of natural gas subject to the jurisdiction of the Commission. The proposed change, which constitutes an increased rate, is contained in the following designated filing, which is proposed to become effective on the date shown:

Description: Notice of change dated January 28, 1957.

Purchaser: Texas Gas Transmission Corporation.

Rate schedule designation: Supplement No. 2 to Jones' FPC Gas Rate, Schedule No. 2.

Proposed effective date: [1] February 28, 1957.

Jones' proposed rate change is based on favored-nations clauses in its contract with Texas Gas Transmission Corporation in the North Cankton Field, St. Landry Parish, Louisiana, which, by its terms, has become operative by the rates for initial service to Texas Gas in the South Bell City Field, one such rate being that under Gulf Refining Company FPC Gas Rate Schedule No. 24.

In support of the increase, Jones states that inclusion of the favored-nation clause in the contract, which was negotiated in good faith and at arm's-length, was a major consideration of the sellers in binding themselves to a long-term contract at an initial rate of 8.997 cents per Mcf. Jones further states the sellers require the increased rate as compensation and incentive for further exploration and development.

The proposed increased rate and charge designated above has not been shown to be justified, and may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the said proposed change, and that the above-designated supplement be suspended and the use thereof deferred as hereinafter ordered.

The Commission orders:

(A) Pursuant to the authority contained in sections 4 and 15 of the Natural Gas Act and the Commission's general rules and regulations (18 CFR Ch. I), a public hearing be held upon a date to be fixed by notice from the Secretary concerning the lawfulness of the proposed increased rate and charge, and, pending such hearing and decision thereon, said supplement be and it is hereby suspended and the use thereof deferred until July 28, 1957, and until such further time as it is made effective in the manner prescribed by the Natural Gas Act.

(B) Neither the supplement hereby suspended, nor the rate schedule sought to be altered thereby, shall be changed until this proceeding has been disposed of or until the period of suspension has expired, unless otherwise ordered by the Commission.

(C) Interested state commissions may participate as provided by §§ 1.8 and 1.37 (f) of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.37 (f)).

By the Commission.

[SEAL] JOSEPH H. GUTRIDE, *Secretary.*

[F. R. Doc. 57-1594; Filed, Mar. 1, 1957; 8:47 a. m.]

[1] The stated effective date is the first day after expiration of the required thirty days' notice, or the effective date proposed by Jones, if later.

[Docket No. G-12068]

BRITISH-AMERICAN OIL PRODUCING CO.

ORDER SUSPENDING PROPOSED CHANGE IN RATES

FEBRUARY 26, 1957.

The British-American Oil Producing Company (British-American) on January 28, 1957, tendered for filing a proposed change in its presently effective rate schedule for sales of natural gas subject to the jurisdiction of the Commission. The proposed change, which constitutes an increased rate, is contained in the following designated filing which is proposed to become effective on the date shown:

Description: Notice of change, Undated.

Purchaser: Mississippi River Fuel Corporation.

Rate schedule designation: Supplement No. 5 to British-American's FPC Gas Rate Schedule No. 7.

Proposed effective date: [2] March 1, 1957.

In support, British-American states that the increased rate was arrived at by arm's-length bargaining and asserts that the proposed increase is just and reasonable.

The increased rate and charge so proposed has not been shown to be justified, and may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the said proposed change, and that the above-designated supplement be suspended and the use thereof deferred as hereinafter ordered.

The Commission orders:

(A) Pursuant to the authority contained in sections 4 and 15 of the Natural Gas Act and the Commission's general rules and regulations (18 CFR Ch. I), a public hearing be held upon a date to be fixed by notice from the Secretary concerning the lawfulness of the proposed increased rate and charge, and pending such hearing and decision thereon, said supplement be and it is hereby suspended and the use thereof deferred until August 1, 1957, and until such further time as it is made effective in the manner prescribed by the Natural Gas Act.

(B) Neither the supplement hereby suspended, nor the rate schedule sought to be altered thereby, shall be changed until this proceeding has been disposed of or until the period of suspension has expired, unless otherwise ordered by the Commission.

(C) Interested state commissions may participate as provided by §§ 1.8 and 1.37 (f) of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.37 (f)).

By the Commission.[3]

[SEAL] JOSEPH H. GUTRIDE, *Secretary.*

[F. R. Doc. 57-1595; Filed, Mar. 1, 1957; 8:48 a. m.]

[2] The stated effective date is the first day after expiration of the required thirty days' notice, or the effective date proposed by British-American, if later.

[3] Commissioner Digby dissenting.

INTERSTATE COMMERCE COMMISSION

FOURTH SECTION APPLICATIONS FOR RELIEF

FEBRUARY 27, 1957.

Protests to the granting of an application must be prepared in accordance with Rule 40 of the general rules of practice (49 CFR 1.40) and filed within 15 days from the date of publication of this notice in the FEDERAL REGISTER.

LONG-AND-SHORT HAUL

FSA No. 33308: *Fertilizer and Materials From Boston and Lansdale, Pa.* Filed by O. E. Schultz, Agent, for interested rail carriers. Rates on fertilizer and fertilizer materials, carloads from Boston and Lansdale, Pa., to points in southern territory.

Grounds for relief: Modified short-line distance formula and circuitous routes.

Tariff: Supplement 11 to Agent C. W. Boin's tariff I. C. C. A-1075.

FSA No. 33309: *Fertilizer and Materials—Ordill, Ill., to the South.* Filed by O. E. Schultz, Agent, for interested rail carriers. Rates on fertilizer and fertilizer materials, carloads from Ordill, Ill., to points in southern territory.

Grounds for relief: Short-line distance formula and circuitous routes.

Tariff: Supplement 11 to Agent C. W. Boin's tariff I. C. C. A-1075.

FSA No. 33310: *Wooden Doors—Western Points to Eastern Points.* Filed by W. J. Prueter, Agent, for interested rail carriers. Rates on doors, solid composition core, faced with veneer made from native wood, and woods of value, carloads from specified points in Iowa, Michigan, Minnesota, Wisconsin, and western Canada to specified points in trunk-line and New England territories and in eastern Canada.

Grounds for relief: Circuitous routes.

Tariff: Agent Prueter's tariff I. C. C. A-4185.

FSA No. 33311: *Asphalt—South Atlantic and Virginia Ports to North Carolina.* Filed by O. W. South, Jr., Agent, for interested rail carriers. Rates on liquid asphalt, tank-car loads from Charleston, S. C., Wilmington, N. C., Savannah and Port Wentworth, Ga., Norfolk and Newport News, Va., to specified points in North Carolina.

Grounds for relief: Circuitous routes.

Tariff: Supplement 66 to Alternate Agent J. H. Marque's tariff I. C. C. 424.

FSA No. 33312: *Coffee—Norfolk and Newport News, Va., to Nashville, Tenn.* Filed by O. W. South, Jr., Agent, for interested rail carriers. Rates on green coffee, in bags, carloads from Norfolk and Newport News, Va., (import) to Nashville, Tenn.

Grounds for relief: Port competition and circuitous routes.

Tariff: Supplement 28 to Alternate Agent J. H. Marque's tariff I. C. C. 443.

FSA No. 33313: *Caustic Soda—Arkansas, Louisiana and Texas to Champaign, Ill.* Filed by F. C. Kratzmeir, Agent, for interested rail carriers. Rates on caustic soda, in solution, tank-car loads from Baldwin, Ark., Lake Charles and West Lake Charles, La., Corpus Christi and Velasco, Tex., to Champaign, Ill.

Grounds for relief: Market competition and circuity.

Tariffs: Supplement 203 to Agent Kratzmeir's tariff I. C. C. 4087 and two other tariffs.

FSA No. 33314: *Sodium Phosphates—St. Louis, Mo., Group to Brunswick, Ga.* Filed by F. C. Kratzmeir, Agent, for interested rail carriers. Rates on sodium, dj-sodium, and tri-sodium phosphates, noibn, carloads from St. Louis, Mo., and East St. Louis, Ill., to Brunswick, Ga.

Grounds for relief: Circuitous routes in part west of the Mississippi River.

FSA No. 33315: *Woodpulp—Southern Points to Northern and Eastern Points.* Filed by F. C. Kratzmeir, Agent, for interested rail carriers. Rates on woodpulp, not powdered, noibn, carloads from specified points in Louisiana and Mississippi to specified points in Indiana, New York, Ohio and Pennsylvania.

Grounds for relief: Circuitous routes in part west of the Mississippi River.

FSA No. 33316: *Fertilizer and Materials—Charleston, W. Va., Group to Southern Points.* Filed by O. E. Schultz, Agent, for interested rail carriers. Rates on fertilizer and fertilizer materials, carloads from Belle, Charleston, and Institute, W. Va., to specified points in southern territory.

Grounds for relief: Short-line distance formula and circuitous routes.

Tariffs: Supplements Nos. 11 and 12 to Agent C. W. Boin's tariff I. C. C. A-1075.

FSA No. 33317: *Crude Rubber—Texas to Baton Rouge and New Orleans, La.* Filed by F. C. Kratzmeir, Agent, for interested rail carriers. Rates on rubber, artificial, synthetic or neoprene, crude, straight or mixed carloads from Baytown, Borger, Houston and Port Neches, Tex., to Baton Rouge, and North Baton Rouge, La.

Grounds for relief: Short-line distance formula and circuitous routes.

Tariff: Supplement 89 to Agent Kratzmeir's tariff I. C. C. 4161.

FSA No. 33318: *Concrete Pipe—Price, Miss., to Southwestern and Western Territories.* Filed by O. W. South, Jr., Agent, for interested rail carriers. Rates on reinforced concrete pressure pipe carloads from Price, Miss., to specified points in southwestern and western trunk-line territories.

Grounds for relief: Short-line distance formula and circuitous routes.

Tariff: Supplement 5 to Agent Spanginger's tariff I. C. C. 1554.

FSA No. 33319: *T. O. F. C. Service Between Missouri and Southwestern Points.* Filed by F. C. Kratzmeir, Agent, for interested rail carriers. Rates on various commodities moving on class and commodity rates loaded in highway trailers and transported on railroad flat cars between Kansas City, Mo.-Kans., East St. Louis, Ill., and St. Louis, Mo., on one hand, and specified points in Arkansas, Louisiana, Oklahoma, and Texas, on the other.

Grounds for relief: Motor truck competition and circuity.

Tariff: Supplement 8 to Agent Kratzmeir's tariff I. C. C. 4233.

FSA No. 33320: *Liquefied Petroleum Gas—Louisiana Points to Southern Territory.* Filed by F. C. Kratzmeir, Agent, for interested rail carriers. Rates on liquefied petroleum gas, tank-car loads from Egan, Erath and West Erath, La., to points in southern territory.

Grounds for relief: Circuitous routes.

Tariff: Supplement 113 to Agent Kratzmeir's tariff I. C. C. 4118.

FSA No. 33321: *Commodity Rates From and to Mabley, W. Va.* Filed by O. W. South, Jr., Agent, for interested rail carriers. Rates on various commodities (other than coal and coke), carloads and less-than-carloads between Mabley, W. Va., on the one hand and points in the United States and Canada, on the other.

Grounds for relief: Establishment of new station, carrier competition and circuity.

FSA No. 33322: *Soybean Oil Cake or Meal—Helena, Ark., to New Orleans, La.* Filed by F. C. Kratzmeir, Agent, for interested rail carriers. Rates on soybean oil cake or meal, carloads from Helena, Ark., to New Orleans, La. (shipside).

Grounds for relief: Circuitous routes in part west of the Mississippi River.

By the Commission.

SECURITIES AND EXCHANGE COMMISSION

[File No. 1-537]

RIDGEWAY CORP.

NOTICE OF APPLICATION TO STRIKE FROM LISTING AND REGISTRATION, AND OF OPPORTUNITY FOR HEARING

FEBRUARY 26, 1957.

In the matter of Ridgeway Corporation, Capital Stock; File No. 1-537.

New York Stock Exchange has made application, pursuant to section 12 (d) of the Securities Exchange Act of 1934 and rule X-12D2-1 (b) promulgated thereunder, to strike the above named security from listing and registration thereon.

The reasons alleged in the application for striking this security from listing and registration include the following:

The New York Stock Exchange determined to delist this stock by reason of the sale by the issuer of its assets on April 2, 1956, but deferred action so as to afford the said issuer an opportunity to secure listing on another National Securities Exchange. The stock was suspended from dealings on the New York Stock Exchange before the opening of the trading session on January 28, 1957, upon receipt of advice that it was to be admitted to the list of the American Stock Exchange as of that date.

Upon receipt of a request, on or before March 13, 1957, from any interested person for a hearing in regard to terms to be imposed upon the delisting of this security, the Commission will determine whether to set the matter down for hearing. Such request should state briefly the nature of the interest of the person requesting the hearing and the position he proposes to take at the hearing with respect to imposition of terms. In addition, any interested person may submit his views or any additional facts bearing on this application by means of a letter addressed to the Secretary of the Securities and Exchange Commission, Washington 25, D. C. If no one requests a hearing on this matter, this application will be determined by order of the Commission on the basis of the facts stated in the application and other information contained in the official file of the Commission pertaining to the matter.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

FEDERAL REGISTER

VOLUME 22 NUMBER 43

Washington, Tuesday, March 5, 1957

THE NATIONAL ARCHIVES LITTERA SCRIPTA MANET 1934 OF THE UNITED STATES

UNIVERSITY OF MICHIGAN MAIN READING ROOM

TITLE 7—AGRICULTURE

Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders), Department of Agriculture

[Lemon Reg. 675, Amdt. 1]

PART 953—LEMONS GROWN IN CALIFORNIA AND ARIZONA

LIMITATION OF SHIPMENTS

Findings. 1. Pursuant to the marketing agreement, as amended, and Order No. 53, as amended (7 CFR Part 953; 21 F. R. 4393), regulating the handling of lemons grown in the State of California or in the State of Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.; 68 Stat. 906, 1047), and upon the basis of the recommendation and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of the quantity of such lemons which may be handled, as hereinafter provided, will tend to effectuate the declared policy of the act.

2. It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice and engage in public rule-making procedure, and postpone the effective date of this amendment until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this amendment is based became available and the time when this amendment must become effective in order to effectuate the declared policy of the Agricultural Marketing Agreement Act of 1937, as amended, is insufficient, and this amendment relieves restriction on the handling of lemons grown in the State of California or in the State of Arizona.

Order, as amended. The provisions in paragraph (b) (1) (ii) of § 953.782 (Lemon Regulation 675, 22 F. R. 1081) are hereby amended to read as follows:

(ii) District 2: 172,050 cartons.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: February 28, 1957.

[SEAL] S. R. SMITH, *Director, Fruit and Vegetable Division, Agricultural Marketing Service.*

[F. R. Doc. 57-1650; Filed, Mar. 4, 1957; 8:52 a. m.]

PART 998—MILK IN CORPUS CHRISTI, TEXAS, MARKETING AREA

ORDER SUSPENDING CERTAIN PROVISION

Pursuant to the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), hereinafter referred to as the "act", and of the order, as amended (7 CFR Part 998), regulating the handling of milk in the Corpus Christi, Texas, marketing area, hereinafter referred to as the "order", it is hereby found that:

(a) The provision of 998.41 (b) (4) which provides for allowable shrinkage of 5 percent with respect to skim milk to be classified as Class II milk only for the months of April, May and June, will not tend to effectuate the declared policy of the act during the month of March 1957.

(b) Notice of proposed rule making public procedure thereon and 30-day prior notice to the effective date hereof are found to be impracticable, unnecessary and contrary to the public interest in that (1) this issue was considered at a public hearing at Edinburg, Texas, January 8-11, 1957, and the issuance of this suspension order as a separate action is necessary in order to reflect current marketing conditions and facilitate, promote and maintain the orderly marketing of milk produced for the said marketing area, pending further consideration and action on other issues of said hearing; (2) this suspension order should be made effective for March 1957, to relieve handlers of hardship with respect to handling the heavy increase in seasonal production of milk in view of the shortage of available maunfacturing facilities; (3) unless such action is taken, some producers, whose milk is needed for the Corpus Christi market most of the year, are faced with the possible loss of a market

FEDERAL REGISTER

Published daily, except Sundays, Mondays, and days following official Federal holidays, by the Federal Register Division, National Archives and Records Service, General Services Administration, pursuant to the authority contained in the Federal Register Act, approved July 26, 1935 (49 Stat. 500, as amended; 44 U. S. C., ch. 8B), under regulations prescribed by the Administrative Committee of the Federal Register, approved by the President. Distribution is made only by the Superintendent of Documents, Government Printing Office, Washington 25, D. C.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $1.50 per month or $15.00 per year, payable in advance. The charge for individual copies (minimum 15 cents) varies in proportion to the size of the issue. Remit check or money order, made payable to the Superintendent of Documents, directly to the Government Printing Office, Washington 25, D. C.

The regulatory material appearing herein is keyed to the CODE OF FEDERAL REGULATIONS, which is published, under 50 titles, pursuant to section 11 of the Federal Register Act, as amended August 5, 1953. The CODE OF FEDERAL REGULATIONS is sold by the Superintendent of Documents. Prices of books and pocket supplements vary.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER, or the CODE OF FEDERAL REGULATIONS.

TITLE 10—ATOMIC ENERGY

Chapter I—Atomic Energy Commission

PART 60—DOMESTIC URANIUM PROGRAMS

URANIUM PROSPECTING PERMITS AND MINING LEASES ON LANDS ADMINISTERED BY FEDERAL AGENCIES WHICH DO NOT HAVE AUTHORITY TO LEASE SUCH LANDS

Notice is hereby given that the following regulations have been adopted by the Atomic Energy Commission, effective upon publication in the FEDERAL REGISTER.

§ 60.9 *Uranium prospecting permits and mining leases on lands administered by Federal agencies which do not have the authority to lease such lands*—(a) *What this section does.* This section provides for the issuance by the United States Atomic Energy Commission of uranium prospecting permits and mining leases covering certain lands of the United States which are not open to the location of mining claims under the United States mining laws and which are not subject to lease for prospecting or mining purposes by the Federal agencies administering such lands or by the Department of the Interior. The program for which provision is made in this section will be administered by the Atomic Energy Commission with the assistance and cooperation of the Bureau of Land Management of the Department of the Interior.

NOTE: Permits or leases will not be issued under this section for lands administered by the United States for national park, monument or wildlife purposes. (See section 67, Public Law 703, 83d Congress.)

(b) *Statutory authority.* The Atomic Energy Act of 1954 (68 Stat. 919) is authority for this section.

(c) *Eligibility of applicants.* Uranium prospecting permits and mining leases under this section will be issued only to (1) citizens of the United States, (2) associations of such citizens, (3) corporations organized under the laws of the United States or of any State or Territory thereof. Uranium prospecting permits and mining leases under this section will not be issued to persons under twenty-one (21) years of age nor to employees of the Commission or the Department of the Interior.

(d) *Applications.* There is no required form of application for a permit or lease under this section but the application should:

(1) Name the Government agency administering the land and, where practicable, the particular unit thereof concerned.

(2) Contain an accurate description of the land.

In the States under the public land rectangular system, if surveyed, the description should be by legal subdivision, section, township, and range; if unsurveyed, by a similar description based upon the premise of its location when surveyed and by courses and distances connected to a corner of the public land rectangular system. In those States not covered by the public land rectangular system, the description should be the description in the deed of conveyance of the tract to the United States, or, if a portion of such tract, by courses and distances connected with an identifiable and established corner of an existing survey recognized by the laws of the State. Upon request, applicant must submit satisfactory evidence that the Government has title to the minerals in said land and the right to their removal.

(3) Include an accurate map or plan of the lands prepared from the survey thereof or other reliable map source, unless the lands are surveyed under the public land system of surveys.

(4) Contain a statement of applicant's name, address and citizenship (if a corporation, the State of incorporation and a statement of the applicant's authority to hold a prospecting permit or mining lease under its corporate powers) and a statement of applicant's interests, direct or indirect, in prospecting permits and mining leases and application for such permits and leases under these regulations for uranium in Federal lands in the same State. No permit or lease will be issued where such interests exceed 1920 acres.

(5) The application shall be filed in triplicate in the land office of the Bureau of Land Management for the State where the land is situated. In States in which there are no land officers applications shall be forwarded to the Director, Bureau of Land Management, Washington 25, D. C., except that applications covering lands in the following States should be forwarded to the land offices named: North and South Dakota, land office at Billings, Montana; Nebraska and Kansas, at Cheyenne, Wyoming; Oklahoma and Texas, at Santa Fe, New Mexico. Applications must be accompanied by a filing fee of $10 which is not returnable.

(e) *Issuance and supervision of permits and leases.* Permits and leases will be executed by the Commission. Although priority in filing an application will normally be the controlling factor where more than one application has been filed for a permit or lease, consideration may be given to equities and right is reserved to offer the lands competitively in appropriate cases. The right is also reserved to refuse to issue a permit or lease or extension thereof. It is the objective under this section to issue permits and leases containing uniform terms and conditions. However, since the lands affected by this section are administred by other Government agencies having responsibilities in connection with the administration of the land, it probably will be necessary to include in particular permits and leases addditional terms and conditions designed to permit the agencies involved to fulfill appropriately their functions and obligations or to refrain from issuing permits or leases or extensions thereof where it is concluded that issuance is contrary to the interests of the United States. The term of each permit or lease and extensions thereof will also be subject to such considerations.

(f) *Prospecting permits terms and conditions.* (1) Prospecting permits will be issued for a period not exceeding two years (see paragraph (e) of this section) and will grant the permittee the right to prospect on the lands described therein to determine the existence of, or workability of, uranium deposits. Only such material may be removed from the land as is necessary to demonstrate the existence of uranium in commercial quantities. The permittee may sell such quantities of uranium-bearing material as may be approved by the Commission.

(2) A prospecting permit may not include more than 1920 acres of land which must be reasonably compact.

(3) Payment of an annual rental of 25 cents per acre of land or fraction thereof covered by the permit will be required. Such rental will be payable annually in advance; payment of the first full year's rental will be required with the filing of the application and the balance of the rental will be payable on or before the first anniversary of the effective date of the permit. Failure to pay such rental when due will result in automatic termination of the permit. The permittee may also be required to furnish a performance bond.

(4) Permits issued under this section may be assigned to those eligible under paragraph (c) of this section, subject to approval of the Commission as to all or any of the lands subject to permit. To procure such approval all instruments of transfer of the permit must be filed at the proper land office of the Bureau of Land Management within 90 days after execution and must contain all of the terms and conditions agreed upon by the parties thereto. The application for approval of assignment must be accompanied by (i) a statement of the proposed assignee setting forth his qualifications to hold a permit and his agreement to be bound by the terms and conditions of the permit, (ii) a filing fee of $10 which is not returnable.

(g) *Extension of permit.* (1) Subject to the provisions of paragraph (e) of this section, a prospecting permit may be extended for one additional term not exceeding two years upon written application made by the permittee and filed in triplicate in the proper land office of the Bureau of Land Management at least 90 days prior to the expiration date of the permit. Such application must be accompanied by a filing fee of $10 which is not returnable, and the third year's rental. In support of application for extension of a prospecting permit, the permittee must show that he has diligently performed prospecting activities on the land during the period for which the permit was issued or that any failure to do so arose from conditions beyond the permittee's control.

(2) Upon failure of the permittee to file an application for extension within the specified period, the permit will expire at the end of its primary term without notice to the permittee and the land will thereupon become subject to new application for prospecting permits.

(h) *Preference right lease; terms and conditions.* (1) Upon discovery of a valuable deposit of uranium by a permittee, subject to paragraph (e) of this section, he shall be entitled to a preference right lease covering any or all of the lands in the permit. (Issuance of a prospecting permit must precede an application for a preference right lease.) An application for a preference right lease must be filed in accordance with paragraph (d) (5) of this section not later than 30 days after the expiration date of the permit and must describe the lands, disclose any change in the information contained in the application for the permit, specify fully the extent and mode of occurrence of the mineral deposit as disclosed by prospecting and show that a valuable deposit of uranium was discovered before the expiration of the permit.

(2) Leases will be issued subject to royalty and rental payments as set forth in subdivisions (i) and (ii) of this subparagraph and to such other terms and conditions for protection of the surface of the land as may be required.

(i) Royalty shall be at the rate of 10 percent of gross receipts, including initial production bonus paid pursuant to § 60.6 (Domestic Uranium Program Circular 6), but exclusive of any haulage and development allowances paid pursuant to §§ 60.5 and 60.5a (Domestic Uranium Program Circular 5, Revised), or equivalent haulage and development allowances from the sale of uranium-bearing ore produced from the leased premises.

(ii) Rental shall be at the rate of $1.50 per acre per year payable annually in advance. Such advance rentals shall be credited on the royalty due from the sale of uranium-bearing ore during that lease year.

(3) A lease issued under this section will be for a term not exceeding 5 years (see paragraph (e) of this section) and will be renewable in the discretion of the Commission as to any and all tracts for not more than 3 additional periods of not exceeding 3 years each upon written application therefor by the lessee at least 90 days prior to the expiration of the lease or any extension thereof. The application for renewal must be accompanied by a filing fee of $10.00 which is not returnable. Renewals may include such revisions of or additions to the lease terms as may be required.

(4) Leases issued under this section will become effective when signed on behalf of the Commission.

(5) A lease or any of the tracts under a lease may be relinquished by the lessee by written notification sent to the proper land office of the Bureau of Land Management subject to continued liability to the United States for any payments then due and subject to compliance with the terms of the lease. Relinquishment shall take effect on the date such notification is received by the Bureau of Land Management, as evidenced by the written acknowledgment of the Bureau of Land Management.

(6) Should the lessee fail to comply with any of the terms and conditions of the lease within 30 days after receipt of written notice specifying such failure and requesting compliance, the Commission shall have the right to terminate the lease.

(7) Leases issued under this section may be assigned to those eligible under paragraph (c) of this section, subject to approval of the Commission as to all or any of the leased tracts. To process such approval, all instruments of transfer of the lease must be filed at the proper land office of the Bureau of Land Management within 90 days after execution and must contain all of the terms and conditions agreed upon by the parties thereto. The application for approval of assignment must be accompanied by (i) a statement of the proposed assignee setting forth his qualifications to hold a lease and his agreement to be bound by the terms and condition of the lease, (ii) a filing fee of $10.00 which is not returnable.

(l) *Initial production bonus.* Leases issued under this section shall provide that leasees otherwise meeting the requirements of § 60.6 (Domestic Uranium Program Circular 6) shall be eligible for initial production bonus payments under that section notwithstanding the reference to properties leased by the Commission in paragraph (g) (3) (vi) thereof.

(j) *Reservation of rights.* The right is reserved to the Commission to revise, modify or terminate these regulations at any time without prejudice to rights of permit holders or lease holders established under existing permits or leases.

(k) *Definition used in this section.* "Commission" means the Atomic Energy Commission created by the Atomic Energy Act of 1954, as amended, or its duly authorized representative.

(l) *Decisions.* The Atomic Energy Commission has duly authorized the Bureau of Land Management to assist it in the administration of this program and, ordinarily, the decisions of the Director of the Bureau of Land Management will be final, but the Atomic Energy Commission may choose to give further consideration to any matter.

(60 Stat. 755–775; 42 U. S. C. 1801–1819)

Dated at Washington, D. C., this 4th day of February 1957.

K. E. FIELDS,
General Manager.

I concur.

Dated at Washington, D. C., this 15th day of February 1957.

FRED A. SEATON,
Secretary of the Interior.

[F. R. Doc. 57–1649; Filed, Mar. 4, 1957; 9:00 a. m.]

TITLE 14—CIVIL AVIATION

Chapter II—Civil Aeronautics Administration, Department of Commerce

PART 601—DESIGNATION OF CONTROL AREAS, CONTROL ZONES, AND REPORTING POINTS

TEMPORARY CONTROL AREA ALTERATION; KING COLE, LA.

The control area alteration appearing hereinafter is adopted to meet the requirements of the Department of Defense for a temporary restricted area. The control area alteration has been coordinated with the civil operators, the Army, the Navy and the Air Force through the Air Coordinating Committee, Airspace Panel, and is adopted to become effective when indicated in order to promote safety. Compliance with the notice, procedures, and effective date provisions of section 4 of the Administrative Procedure Act would be impracticable and contrary to public interest and therefore is not required.

Part 601 is amended as follows:

Section 601.1006 is amended to read:

§ 601.1006 *Control area extension (Lake Charles, La.).* That airspace within a 40-mile radius of the Lake Charles, La., radio range station excluding the portion which overlaps the Houston (Beaumont-Palacious-Houston) control area extension, and excluding the portion below 3000 feet mean sea level lying within the temporary King Cole Restricted Area.

(Sec. 205, 52 Stat. 984, as amended; 49 U. S. C. 425. Interprets or applies sec. 601, 52 Stat. 1007, as amended; 49 U. S. C. 551)

This amendment shall be effective from 0001 c. s. t. April 1, 1957, to 2400 c. s. t. April 5, 1957. At the end of that period § 601.1006 as designated prior to this temporary amendment shall again become effective.

[SEAL] S. A. KEMP,
Acting Administrator of Civil Aeronautics.

[F. R. Doc. 57–1615; Filed, Mar. 4, 1957; 8:45 a. m.]

[Amdt. 187]

PART 608—RESTRICTED AREAS

TEMPORARY RESTRICTED AREA ALTERATION; KING COLE, LA.

The restricted area alteration appearing hereinafter has been coordinated with the civil operators involved, the Army, the Navy, and the Air Force, through the Air Coordinating Committee, Airspace Panel and is adopted to become effective when indicated in order to promote safety of the flying public. Since a military function of the United States is involved, compliance with the notice, procedure and effective date provisions of section 4 of the Administrative Procedure Act is not required.

Part 608 is amended as follows:

In § 608.26, the King Cole, Temporary Restricted Area; Louisiana, is added to read:

Name and location (chart)	Description by geographical coordinates	Designated altitudes	Time of designation	Controlling agency
King Cole, Louisiana, temporary restricted area (Beaumont).	"From latitude 30°18'00", longitude 93°36'00"; the SW corner North to latitude 30°35'00", longitude 93°36'00"; thence East to latitude 30°35'00", longitude 93°16'00"; thence South to latitude 30°18'00", longitude 93°16'00"; thence to point of beginning, excluding the Lake Charles AFB Control Zone".	Surface to 3,000 feet.	Continuous.....	Maneuver Director, Camp Polk, Louisiana.

(Sec. 205, 52 Stat. 984, as amended; 49 U. S. C. 425. Interprets or applies sec. 601, 52 Stat. 1007, as amended; 49 U. S. C. 551)

This amendment shall be effective from April 1, 1957 through April 5, 1957.

[SEAL] S. A. KEMP,
Acting Administrator of Civil Aeronautics.

[F. R. Doc. 57–1616; Filed, Mar. 4, 1957; 8:45 a. m.]

TITLE 18—CONSERVATION OF POWER

Chapter I—Federal Power Commission

[Order 195; Docket No. R–160]

PART 154—RATE SCHEDULES AND TARIFFS

RATE FILINGS BY INDEPENDENT PRODUCERS; NUMBER OF COPIES

FEBRUARY 27, 1957.

The Commission has under consideration in this proceeding the amendment of § 154.99 of Part 154, Rate Schedules and Tariffs, of its regulations under the Natural Gas Act (18 CFR 154.99) so as to require the filing of three instead of two copies of rate schedules filed by independent producers of natural gas.

These filings are frequently of interest and concern to others than the customers directly affected thereby and the additional copy will be more quickly available for public inspection.

It appears that the amendment to § 154.99, hereinafter adopted, is a matter of procedure which does not require notice or hearing under section 4 (a) of the Administrative Procedure Act.

The Commission finds: The amendment as hereinafter adopted is necessary and appropriate to carry out the provisions of the Natural Gas Act.

The Commission, acting pursuant to authority granted by sections 4 and 16 of the Natural Gas Act (52 Stat. 822, 830, 15 U. S. C. 717c, 717o) orders:

(A) The first sentence of § 154.99 of the regulations under the Natural Gas Act is amended to read as follows:

§ 154.99 *Number of copies; material to be submitted with changes in rate schedules.* Three copies of any rate schedule or part thereof, and material required by § 154.95 to be filed therewith, and Notices of Cancellation or Termination submitted for filing, must be supplied to the Commision. * * *

(B) The amendment herein prescribed shall become effective on April 1, 1957.

(C) The Secretary shall cause prompt publication of this order to be made in the FEDERAL REGISTER.

(Sec. 16, 52 Stat. 830; 15 U. S. C. 717o)

By the Commission.

[SEAL] JOSEPH H. GUTRIDE,
Secretary.

[F. R. Doc. 57–1620; Filed, Mar. 4, 1957; 8:46 a. m.]

TITLE 16—COMMERCIAL PRACTICES

Chapter I—Federal Trade Commission

[Docket 6667]

PART 13—DIGEST OF CEASE AND DESIST ORDERS

MONTAMOWER CO. ET AL.

Subpart—*Advertising falsely or misleadingly:* § 13.20 *Comparative data or merits;* § 13.140 *Old, reclaimed, or reused as new;* § 13.155 *Prices:* Exaggerated as regular and customary; usual as reduced, special, etc.; § 13.170 *Qualities or properties of product or service;* § 13.190 *Results.*

(Sec. 6, 38 Stat. 721; 15 U. S. C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; 15 U. S. C. 45). [Cease and desist order, The MontaMower Company et al., Traverse City, Mich., Docket 6667, February 14, 1957]

In the Matter of The MontaMower Company, a Corporation; Hubert H. Montague, Gerald T. Montague and Velma Montague Individually and as Officers of Said Corporation; and Herbert B. Montague, Trading as MontaMower Distributing Company

This proceeding was heard by a hearing examiner on the complaint of the Commission charging a corporate manufacturer and the distributor in Traverse City, Mich., of a grass-cutting device designated "MontaMower", with representing falsely in advertisements in magazines, newspapers, etc., often accompanied by misleading pictures, the effectiveness in use and results obtainable from the device, its weed-controlling qualities, comparative merits, the price, savings available to purchasers, and that all the machines were new and made of new and unused parts and materials.

Following entry of an agreement between counsel for a consent order, the hearing examiner made his initial decision and order to cease and desist which became on February 14 the decision of the Commission.

The order to cease and desist is as follows:

It is ordered, That respondent Herbert B. Montague, trading as MontaMower Distributing Company, or operating under any other trade name, and his agents, employees or representatives, directly or through any corporate or other device, in or in connection with the offering for sale, sale or distribution in commerce (as commerce is defined in the Federal Trade Commission Act) of lawn mowers now designated as "MontaMower" or any other lawn mower or grass-cutting device of substantially similar construction or operation, whether designated by the same or any other name, do forthwith cease and desist from:

1. Representing, directly or by implication, that used or reconditioned lawn mowers, or mowers made in whole or in part of used, second-hand or reconditioned parts or materials, are new or unused, or are made of new or unused parts or materials.

2. Advertising, offering for sale or selling any lawn mowers which have been used, or which contain parts or materials which have been used, without disclosing to the purchaser or potential purchaser, by a clear and conspicuous statement in advertising and sales promotion matter and on the mower and the container in which it is shipped and delivered, that the product is used or not new, or that it contains parts or materials which have been used or which are not new.

3. Representing by words, pictures or any other means;

(a) That the device is non-clogging.

(b) That it affords positive cutting of all grass and lawn weeds, without misses or skips.

(c) That it will cut all grass and all lawn weeds, regardless of height or toughness, or that it will cut grass and weeds left uncut by other mowers.

(d) That it leaves no grass or weeds standing, or that it eliminates the necessity of hand pulling or going back over a lawn with a whipper or other cutting device.

(e) That it trims so completely as to eliminate hand-trimming.

(f) That its use results in the elimination of weeds or the control of weeds, or keeps weeds from going to seed.

(g) That it smoothly, cleanly, evenly or easily cuts a 16-inch swath, or any other width swath, through grass, dandelions or tall weeds, or that it does this as evenly as a pair of keen-edged shears.

(h) That the regular price of the MontaMower is $30, or that the regular price of this or any other product is any amount greater than the amount at which such products are usually and customarily sold in the regular course of business.

(i) That regular prices are special or reduced prices.

(j) That savings to be realized through purchases under so-called special offers are greater than is actually the fact, whether through the use of a fictitious "regular" price or otherwise.

4. Misrepresenting in any other manner the performance of the device, the results obtainable from its use, or its price.

By "Decision of the Commission", report of compliance was required as follows:

It is ordered, That respondent, Herbert B. Montague, trading as MontaMower Distributing Company, shall within sixty (60) days after service upon him of this order, file with the Commission a report in writing setting forth in detail the manner and form in which he has complied with the order to cease and desist.

Issued: February 14, 1957.

By the Commission.

[SEAL] ROBERT M. PARRISH,
Secretary.

[F. R. Doc. 57–1629; Filed, Mar. 4, 1957; 8:48 a. m.]

TITLE 26—INTERNAL REVENUE, 1954

Chapter I—Internal Revenue Service, Department of the Treasury

Subchapter E—Alcohol, Tobacco, and Other Excise Taxes

PART 182—INDUSTRIAL ALCOHOL

PART 212—FORMULAS FOR DENATURED ALCOHOL

On August 11, 1956, a notice of proposed rule making, to revise and reissue regulations relating to formulas for denatured alcohol as Part 212, Title 26, Code of Federal Regulations, superseding the appendix to Part 182, Title 26, Code of Federal Regulations, to effect administrative decisions, and to provide for publication of formulas for denatured alcohol as a separate part of the Code of

Federal Regulations, was published in the FEDERAL REGISTER (21 F. R. 6026). After consideration of all relevant matters as were presented by interested persons regarding the rules proposed, the regulations as so published are hereby adopted subject to the changes set forth below:

PARAGRAPH 1. Section 212.5 is amended by adding a new paragraph *special industrial solvents* immediately after the close of the last paragraph.

PAR. 2. Section 212.16 is amended by adding new paragraphs (d) and (e) immediately after the close of paragraph (c).

PAR. 3. Section 212.40 is amended by striking the word "pure" from the first sentence.

PAR. 4. Section 212.45 is amended by striking from the first sentence the phrase "Five gallons of ethyl acetate" and inserting in lieu thereof the following "4.26 gallons of ethyl acetate having an ester content of 100 percent by weight or the equivalent thereof not to exceed 5 gallons of ethyl acetate having an ester content of not less than 85 percent by weight."

PAR. 5. Section 212.48 is amended by striking the parenthetical word (pure) after "Citronella oil, natural" and "Spike lavender oil, natural," striking ", pure" after "Safrol" in the list of oils and substances, and adding thereto "Spearmint oil, terpeneless" immediately following "Spearmint oil, N. F."

PAR. 6. Section 212.53 is amended by striking ", pure" after "Cinchonidine."

PAR. 7. Section 212.59 (a) (3) is amended by striking ", pure" immediately following "Phenyl mercuric benzoate."

PAR. 8. The following sections are renumbered as indicated below:

§ 212.75 is renumbered § 212.77.
§ 212.76 is renumbered § 212.78.
§ 212.77 is renumbered § 212.79.
§ 212.78 is renumbered § 212.80.
§ 212.79 is renumbered § 212.81.
§ 212.80 is renumbered § 212.82.
§ 212.81 is renumbered § 212.83.
§ 212.82 is renumbered § 212.84.
§ 212.83 is renumbered § 212.86.
§ 212.84 is renumbered § 212.87.
§ 212.85 is renumbered § 212.88.
§ 212.86 is renumbered § 212.90.
§ 212.87 is renumbered § 212.91.
§ 212.88 is renumbered § 212.94.
§ 212.89 is renumbered § 212.95.
§ 212.90 is renumbered § 212.96.
§ 212.95 is renumbered § 212.105.
§ 212.100 is renumbered § 212.110.
§ 212.105 is renumbered § 212.115.

PAR. 9. Section 212.69 and renumbered §§ 212.80, 212.81, and 212.88 are amended by striking the parenthetical phrase "(A. S. T. M. D–86–53)" and inserting in lieu thereof the parenthetical phrase "(applicable A. S. T. M. method)".

PAR. 10. Section 212.73 and renumbered §§ 212.78 and 212.83 are amended by striking the parenthetical phrase "(A. S. T. M. D–1078–49–T)" and inserting in lieu thereof the parenthetical phrase "(applicable A. S. T. M. method)".

PAR. 11. Renumbered §§ 212.77 and 212.87 are amended by striking the parenthetical phrase "(A. S. T. M. D–1078–49)" and inserting in lieu thereof the parenthetical phrase "(applicable A. S. T. M. method)".

PAR. 12. Renumbered § 212.80 is amended by adding "*Odor.* Characteristic odor," immediately below the last sentence.

PAR. 13. Renumbered § 212.82 is amended to read as set forth below.

PAR. 14. New §§ 212.75, 212.76, 212.85, 212.89, 212.92, and 212.93 are added as set forth below.

PAR. 15. Renumbered § 212.105 is amended as follows:

a. Amend the heading for the list of product or process and formulas authorized to read "Uses of Specially Denatured Alcohol[1]";

b. In the list of "Product or Process" change the numeral 1 after "Laboratory uses" to the numeral 2 and change the numeral 2 after "Unclassified uses" to the numeral 3;

c. Renumber footnote numbers 1 and 2 to read 2 and 3 respectively; and

d. Insert above renumbered footnote 2:

[1] Other products or processes may be authorized by the Director under § 212.15 (b).

PAR. 16. Renumbered § 212.110 is amended by striking the parenthetical word (pure) after "Citronella oil, natural," "Cinchonidine," "Phenyl mercuric benzoate", "Safrol" and "Spike Lavender oil, natural" in the list of denaturants, and adding thereto "Spearmint oil, terpeneless—S. D. 38–B" immediately following "Spearmint oil, N. F."

PAR. 17. Subpart H in its entirety is amended to read as set forth below.

[SEAL] RUSSELL C. HARRINGTON,
Commissioner of Internal Revenue.

Approved: February 28, 1957.

DAN THROOP SMITH,
Deputy to the Secretary.

PART 212—FORMULAS FOR DENATURED ALCOHOL

Preamble. 1. The regulations in this part shall supersede the appendix to 26 CFR Part 182, designated in F. R. Doc. 54–10417 as Appendix A "Completely Denatured Alcohol Formulae", and Appendix B "Specially Denatured Alcohol Formulae"; 19 F. R. 9438, as corrected in 20 F. R. 275.

2. These regulations shall not affect any act done or any liability or right accruing or accrued, or any suit or proceeding had or commenced, before the effective date of these regulations.

3. The regulations in this part shall be effective on the first day of the first month which begins not less than 30 days after the date of publication in the FEDERAL REGISTER.

Subpart A—Scope of Regulations

Sec.
212.1 Formulas for denatured alcohol.
212.2 Forms prescribed.
212.3 Stocks of discontinued formulas.

Subpart B—Definitions

212.5 Meaning of terms.

Subpart C—Completely Denatured Alcohol Formulas

Sec.
212.10 General.
212.11 Formula No. 18.
212.12 Formula No. 19.

Subpart D—Specially Denatured Alcohol Formulas and Authorized Uses

212.15 General.
212.16 Formula No. 1.
212.17 Formula No. 2–B.
212.18 Formula No. 2–C.
212.19 Formula No. 3–A.
212.20 Formula No. 3–B.
212.21 Formula No. 4.
212.22 Formula No. 6–B.
212.23 Formula No. 12–A.
212.24 Formula No. 13–A.
212.25 Formula No. 17.
212.26 Formula No. 18.
212.27 Formula No. 19.
212.28 Formula No. 20.
212.29 Formula No. 22.
212.30 Formula No. 23–A.
212.31 Formula No. 23–F.
212.32 Formula No. 23–H.
212.33 Formula No. 25.
212.34 Formula No. 25–A.
212.35 Formula No. 27.
212.36 Formula No. 27–A.
212.37 Formula No. 27–B.
212.38 Formula No. 28–A.
212.39 Formula No. 29.
212.40 Formula No. 30.
212.41 Formula No. 31–A.
212.42 Formula No. 32.
212.43 Formula No. 33.
212.44 Formula No. 35.
212.45 Formula No. 35–A.
212.46 Formula No. 36.
212.47 Formula No. 37.
212.48 Formula No. 38–B.
212.49 Formula No. 38–C.
212.50 Formula No. 38–D.
212.51 Formula No. 38–F.
212.52 Formula No. 39.
212.53 Formula No. 39–A.
212.54 Formula No. 39–B.
212.55 Formula No. 39–C.
212.56 Formula No. 39–D.
212.57 Formula No. 40.
212.58 Formula No. 40–A.
212.59 Formula No. 42.
212.60 Formula No. 44.
212.61 Formula No. 45.
212.62 Formula No. 46.

Subpart E—Specifications for Denaturants

212.65 General.
212.66 U. S. P. or N. F.
212.67 Acetaldehyde.
212.68 Acetaldol.
212.69 Benzene.
212.70 Bone oil (Dipple's oil).
212.71 Brucine alkaloid.
212.72 *n*-Butyl alcohol.
212.73 *tert.*-Butyl alcohol.
212.74 Chloroform.
212.75 Cinchonidine.
212.76 Citronella oil, natural.
212.77 Diethyl phthalate.
212.78 Ethyl acetate.
212.79 Ethyl ether.
212.80 Gasoline.
212.81 Kerosene.
212.82 Methyl alcohol.
212.83 Methyl isobutyl ketone.
212.84 Nicotine solution.
212.85 Phenyl mercuric benzoate.
212.86 Pyridine bases.
212.87 Pyronate.
212.88 Rubber hydrocarbon solvent.
212.89 Safrol.
212.90 Shellac.
212.91 Sodium (metallic).
212.92 Spearmint oil, terpeneless.
212.93 Spike lavendar oil, natural.
212.94 Sucrose octa acetate.
212.95 Vinegar.
212.96 Wood alcohol.

Subpart F—Uses of Specially Denatured Alcohol

212.105 Listing of products and processes using specially denatured alcohol and formulas authorized therefor.

Subpart G—Denaturants Authorized for Denatured Alcohol

212.110 Listing of denaturants authorized in denatured alcohol.

Subpart H—Weights and Specific Gravity of Specially Denatured Alcohol

212.115 Weights and specific gravity of specially denatured alcohol.

AUTHORITY: §§ 212.1 to 212.215 issued under sec. 7805, 68A Stat. 917; 26 U. S. C. 7805.

SUBPART A—SCOPE OF REGULATIONS

§ 212.1 *Formulas for denatured alcohol.* The regulations in this part, "Formulas for Denatured Alcohol" relate to formulas used for the denaturation of alcohol. The regulations give formulas for the production of specially and completely denatured alcohol, the specifications for denaturants, a listing of processes and products in which specially denatured alcohol is used and specific formulas authorized for each use, a listing of denaturants and the formulas in which used, and a table of weights of the formulas of specially denatured alcohol. The procedural and substantive requirements relative to the issuance of permits and to the production, disposition, and use of denatured alcohol are prescribed in Part 182 of this chapter.

§ 212.2 *Forms prescribed.* The Director, Alcohol and Tobacco Tax Division, is authorized to prescribe all forms required by this part, including bonds, applications, notices, reports, returns, and records. Information called for shall be furnished in accordance with the instructions on the forms or issued in respect thereto.

§ 212.3 *Stocks of discontinued formulas.* Denaturers or specially denatured alcohol dealers or users having on hand stocks of formulas of specially denatured alcohol no longer authorized by this part may (a) continue to supply or use such stocks in accordance with permits until the stocks are exhausted; (b) otherwise dispose of such stocks in a manner satisfactory to the Director, Alcohol and Tobacco Tax Division pursuant to an approved application; or (c) on approval by the assistant regional commissioner of an application to do so, destroy such stocks under such supervision as the assistant regional commissioner may prescribe.

SUBPART B—DEFINITIONS

§ 212.5 *Meaning of terms.* As used in this part, unless the context otherwise requires, terms shall have the meanings ascribed in this section.

Alcohol. "Alcohol" means that substance known as ethyl alcohol, ethanol, hydrated oxide of ethyl, or spirits of wine, from whatever source or process produced, having a proof of 160 degrees or more, but does not include the substances commonly known as whisky, brandy, rum, gin, or other spirits, produced at registered distilleries or fruit distilleries under Parts 220 and 221 of this chapter.

Assistant regional commissioner. "Assistant regional commissioner" means the assistant regional commissioner (alcohol and tobacco tax), who is responsible to, and functions under the direction and supervision of, the regional commissioner.

Commissioner. "Commissioner" means the Commissioner of Internal Revenue.

Completely denatured alcohol. "Completely denatured alcohol" means denatured alcohol in which the denaturants are of such a nature that such denatured alcohol may be sold and used within certain limitations without permit and bond.

Denaturant. "Denaturant" means a material which, when added to alcohol in accordance with formulas in this part, destroys its character as a beverage and renders it unfit for liquid medicinal purposes.

Denatured alcohol. "Denatured alcohol" means alcohol to which has been added denaturing material which destroys its character as a beverage and renders it unfit for liquid medicinal purposes.

Director. "Director, Alcohol and Tobacco Tax Division" means the Director, Alcohol and Tobacco Tax Division, Internal Revenue Service, Treasury Department, Washington, D. C.

Essential oil. "Essential oil" means one of the volatile odoriferous oils found in plants and imparting to the plants odor, and often other characteristic properties, and includes imitation essential oils, aromatic substances, and synthetic oils which possess the denaturing characteristics of essential oils.

Gallon. "Gallon" or "wine gallon" means a United States gallon of liquid measure equivalent to the volume of 231 cubic inches.

Includes and including. The terms "includes" and "including" when used in this part shall not be deemed to exclude other things otherwise within the meaning.

I. R. C. "I. R. C." means the Internal Revenue Code of 1954.

Manufacturer or user. "Manufacturer" or "user" means a person who holds a permit to use specially denatured alcohol in any process or in the manufacturing of any substance, preparation, or product, including the product obtained by further manufacture or by combination with other materials; who recovers completely or specially denatured alcohol; or who recovers articles containing denatured alcohol.

Proof. "Proof" means the ethyl alcohol content of a liquid at 60° Fahrenheit, stated as twice the percent of ethyl alcohol by volume.

Proprietary solvent. "Proprietary solvent" means a solvent containing more than 25 percent of alcohol by volume which is manufactured with specially denatured alcohol in accordance with a formula approved by the Director and is generally adapted for specific uses.

Regional commissioner. "Regional commissioner" means the regional commissioner of internal revenue in each of the internal revenue regions.

Rubbing alcohol compound. "Rubbing alcohol compound" means any product manufactured with specially denatured alcohol which is represented to be a "rubbing alcohol compound".

Secretary. "Secretary" means the Secretary of the Treasury.

Specially denatured alcohol. "Specially denatured alcohol" means denatured alcohol in which the denaturant or denaturants are of such a nature that such denatured alcohol may be used in a greater number of specified arts and industries than completely denatured alcohol, but, except as otherwise provided in Part 182 of this chapter, may be sold, possessed, and used only pursuant to permit and bond.

Special industrial solvents. "Special industrial solvents" means a proprietary solvent which is manufactured in accordance with authorized special industrial solvent formulations and because of its composition is restricted to industrial and manufacturing uses.

SUBPART C—COMPLETELY DENATURED ALCOHOL FORMULAS

§ 212.10 *General.* Completely denatured alcohol will be denatured in accordance with formulas prescribed in this subpart.

§ 212.11 *Formula No. 18.* To every 100 gallons of ethyl alcohol of not less than 160° proof add:

2.50 gallons of methyl isobutyl ketone;
0.125 gallon of pyronate or a compound similar thereto;
0.50 gallon of acetaldol (b-hydroxybutyraldehyde); and
1.00 gallon kerosene.

§ 212.12 *Formula No. 19.* To every 100 gallons of ethyl alcohol of not less than 160° proof add:

4.0 gallons of methyl isobutyl ketone; and
1.0 gallon of kerosene.

SUBPART D—SPECIALLY DENATURED ALCOHOL FORMULAS AND AUTHORIZED USES

§ 212.15 *General*—(a) *Formulas.* Specially denatured alcohol will be denatured in accordance with formulas prescribed in this subpart. Alcohol of 190, 192, or 200 degrees of proof shall be used in the manufacture of all formulas of specially denatured alcohol, unless otherwise authorized by the Director.

(b) *Uses.* Users and manufacturers holding approved Forms 1479–A covering manufacture of products or use in processes no longer authorized for a particular formula may continue such use. The Director may authorize, in his discretion, the use of any formula of specially denatured alcohol for uses not specifically authorized in this part. The code number before each item under "authorized uses" shall be used in reporting the use of specially denatured alcohol.

§ 212.16 *Formula No. 1*—(a) *Formula.* To every 100 gallons of alcohol add:

Five gallons wood alcohol.

(b) *Authorized uses.* (1) As a solvent:

011. Cellulose coatings.
012. Synthetic resin coatings.
013. Shellac coatings.
014. Other natural resin coatings.
016. Other coatings.
021. Cellulose plastics.
022. Non-cellulose plastics.
031. Photographic film and emulsions.
032. Transparent sheeting.
033. Explosives.
034. Cellulose intermediates and industrial collodions.
035. Soldering flux.
036. Adhesives and binders.
041. Proprietary solvents (standard formulations).
042. Other solvents and thinners.
043. Special solvents (restricted sale).
051. Polishes.
052. Inks (including meat branding inks).
053. Stains (wood, etc.).
141. Shampoos.
142. Soap and bath preparations.
311. Cellulose compounds (dehydration).
312. Sodium hydrosulphite (dehydration).
315. Other dehydration products.
320. Petroleum products.
331. Processing pectin.
332. Processing other food products.
341. Processing crude drugs.
342. Processing glandular products, vitamins, hormones and yeasts.
343. Processing antibiotics and vaccines.
344. Processing medicinal chemicals including alkaloids.
345. Processing blood and blood products.
349. Miscellaneous, drug processing (including manufacture of pills).
351. Processing dyes and intermediates.
352. Processing perfume materials and fixatives.
353. Processing photographic chemicals.
358. Processing other chemicals.
359. Processing miscellaneous products.
410. Disinfectants, insecticides, fungicides and other biocides.
420. Embalming fluids and related products.
430. Sterilizing and preserving solutions.
440. Industrial detergents and soaps.
450. Cleaning solutions (including household detergents).
481. Photo-engraving and rotogravure dyes and solutions.
482. Other dye solutions.
485. Miscellaneous solutions (including duplicating fluids).

(2) As a raw material:

521. Ethyl acetate.
522. Ethyl chloride.
523. Other ethyl esters.
530. Ethylamines (for rubber processing).
540. Dyes and intermediates (ethylamines).
551. Acetaldehyde.
552. Other aldehydes.
561. Ethyl ether.
562. Other ethers.
571. Ethylene dibromide.
572. Ethylene gas.
573. Xanthates.
574. Fulminate of mercury and other detonators.
575. Drugs and medicinal chemicals.
579. Other chemicals.

(3) As a fuel:

611. Automobile and supplementary fuels.
612. Airplane and supplementary fuels.
613. Rocket and jet fuels.
620. Proprietary heating fuels.
630. Other fuel uses.

(4) As a fluid:

710. Scientific instruments.
720. Brake fluids.
730. Cutting oil.
740. Refrigerating uses.
750. Other fluid uses.
760. Proprietary anti-freeze.

(5) Miscellaneous uses:

900. Specialized uses (unclassified).

(c) *Standard Proprietary Solvents Formulations using S. D. A. No. 1*—(1) *Formulation No. I.*

Specially denatured alcohol formula No. 1	Gallons 100
Ethyl acetate	5
Gasoline	1

(2) *Formulation No. II.*

Specially denatured alcohol formula No. 1	Gallons 100
Denaturing grade wood alcohol	2
Ethyl acetate	1
Gasoline	1

(3) *Formulation No. III.*

Specially denatured alcohol formula No. 1	Gallons 100
Methyl isobutyl ketone	1
Ethyl acetate	1
Gasoline	1

(4) *Formulation No. IV.*

Specially denatured alcohol formula No. 1	Gallons 100
Methyl isobutyl ketone	1
tert-butyl alcohol	2
Gasoline	1

(5) *Formulation No. V.*

Specially denatured alcohol formula No. 1	Gallons 100
Methyl isobutyl ketone	1
Secondary butyl alcohol	2
Gasoline	1

(d) *Special industrial solvents formulations using S. D. A. No. 1*—(1) *Formulation A.*

Specially denatured alcohol formula No. 1	Gallons 100
Isopropyl alcohol	10
Methyl isobutyl ketone	1

(2) *Formulation B.*

Specially denatured alcohol formula No. 1	Gallons 100
Isopropyl alcohol	5
Methyl isobutyl ketone	1
Methyl alcohol	5

(3) *Formulation C.*

Specially denatured alcohol formula No. 1	Gallons 100
Methyl isobutyl ketone	1
Ethyl acetate	5

(e) *Conditions governing use.* Special industrial solvents can be sold only (1) to legitimate industrial users for their own use including the manufacture of products for sale, and (2) to wholesale dealers for resale to such industrial users. Sale of such solvents for distribution through retail channels is prohibited. When special industrial solvents are used in the manufacture of products for sale there shall be added sufficient ingredients to change the character and composition of the solvent and the finished products shall not contain more than 25 percent alcohol by volume. Special industrial solvents must be shipped in containers having a capacity of 80 gallons or more. All such containers shall have affixed thereon a label showing the brand name under which produced and the name and address of the producer, except that in the case of railroad tank car or tank truck shipments the label shall be affixed to the route board of such vehicle. Dealers may not relabel or repackage special industrial solvents under their own brand name. Dealers may not purchase or sell more than 550 gallons of special industrial solvents during a calendar month, except that the assistant regional commissioner may authorize quantities exceeding the above limitation on presentation of satisfactory evidence that there is a legitimate need by such dealers and their customers. Detailed and accurate records of receipts and disposition of special industrial solvents shall be maintained by dealers of such solvents. Industrial users receiving solvents in railroad tank cars or tank trucks shall maintain complete records of the receipt and use thereof. The records prescribed must be kept available for inspection by internal revenue officers at all reasonable hours.

§ 212.17 *Formula No. 2–B*—(a) *Formula.* To every 100 gallons of alcohol add:

One-half gallon benzene or one-half gallon rubber hydrocarbon solvent.

(b) *Authorized uses*—(1) As a solvent:

021. Cellulose plastics.
022. Non-cellulose plastics.
031. Photographic film and emulsions.
032. Transparent sheeting.
033. Explosives.
311. Cellulose compounds (dehydration).
312. Sodium hydrosulfite (dehydration).
315. Other dehydration products.
320. Petroleum products.
331. Processing pectin.
332. Processing other food products.
341. Processing crude drugs.
342. Processing glandular products, vitamins, hormones and yeasts.
343. Processing antibiotics and vaccines.
344. Processing medicinal chemicals, including alkaloids.
349. Miscellaneous drug processing (including manufacture of pills).
351. Processing dyes and intermediates.
352. Processing perfume materials and fixatives.
353. Processing photographic chemicals.
358. Processing other chemicals.
359. Processing miscellaneous products.

(2) As a raw material:

521. Ethyl acetate.
522. Ethyl chloride.
523. Other ethyl esters.
524. Sodium ethylate, anhydrous (for own use only).
530. Ethylamines (for rubber processing).
540. Dyes and intermediates (ethylamines).
551. Acetaldehyde.
552. Other aldehydes.
561. Ethyl ether.
562. Other ethers.

571. Ethylene dibromide.
572. Ethylene gas.
573. Xanthates.
575. Drugs and medicinal chemicals.
579. Other chemicals.

(c) *Conditions governing use.* This formula must be used in a closed and continuous system unless it is shown that it is not practical to do so.

§ 212.18 *Formula No. 2–C*—(a) *Formula.* To every 100 gallons of alcohol add:

Thirty-three pounds, or more, of metallic sodium and either one-half gallon benzene or one-half gallon rubber hydrocarbon solvent.

(b) *Authorized uses.* (1) As a solvent:

344. Processing medicinal chemicals (including alkaloids).
358. Processing other chemicals.
359. Processing miscellaneous products.

(2) As a raw material:

523. Miscellaneous ethyl esters.
524. Sodium ethylate, anhydrous (for own use only).
530. Ethylamines (for rubber processing).
540. Dyes and intermediates (ethylamines).
575. Drugs and medicinal chemicals.
579. Other chemicals.

(c) *Conditions governing use.* This formula must be used in a closed and continuous system unless it is shown that it is not practical to do so.

§ 212.19 *Formula No. 3–A*—(a) *Formula.* To every 100 gallons of alcohol add:

Five gallons methyl alcohol.

(b) *Authorized uses.* (1) As a solvent:

021. Cellulose plastics.
022. Non-cellulose plastics.
031. Photographic film and emulsions.
032. Transparent sheeting.
033. Explosives.
034. Cellulose intermediates and industrial collodions.
035. Soldering flux.
036. Adhesives and binders.
051. Polishes.
052. Inks (including meat branding inks).
053. Stains (wood, etc.).
141. Shampoos.
142. Soaps and bath preparations.
311. Cellulose compounds (dehydration).
312. Sodium hydrosulfite (dehydration).
315. Other dehydration products.
320. Petroleum products.
331. Processing pectin.
332. Processing other food products.
341. Processing crude drugs.
342. Processing glandular products, vitamins, hormones and yeasts.
343. Processing antibiotics and vaccines.
344. Processing medicinal chemicals (including alkaloids).
345. Processing blood and blood products.
349. Miscellaneous (including manufacture of pills).
351. Processing dyes and intermediates.
352. Processing perfume materials and fixatives.
353. Processing photographic chemicals.
358. Processing other chemicals.
359. Processing miscellaneous products.
410. Disinfectants, insecticides, fungicides and other biocides.
420. Embalming fluids and related products.
430. Sterilizing and preserving solutions.
440. Industrial detergents and soaps.
450. Cleaning solutions (including household detergents).

470. Theater sprays, incense and room deodorants.
481. Photoengraving and rotogravure dyes and solutions.
482. Other dye solutions.
485. Miscellaneous solutions (including duplicating fluids).

(2) As a raw material:

530. Ethylamines (for rubber processing).
540. Dyes and intermediates (ethylamines).
575. Drugs and medicinal chemicals.
579. Other chemicals.

(3) As a fuel:

611. Automobile and supplementary fuels.
612. Airplane and supplementary fuels.
613. Rocket and jet fuels.
620. Proprietary heating fuels.
630. Other fuel uses.

(4) As a fluid:

710. Scientific instruments.
720. Brake fluids.
730. Cutting oils.
740. Refrigerating uses.
750. Other fluid uses.

(5) Miscellaneous uses:

810. Laboratory, reagent and pilot plant uses.
900. Specialized uses (unclassified).

§ 212.20 *Formula No. 3–B*—(a) *Formula.* To every 100 gallons of alcohol add:

One gallon of pine tar N. F.

(b) *Authorized uses.* (1) As a solvent:

111. Hair and scalp preparations.
141. Shampoos.
142. Soap and bath preparations.
410. Disinfectants, insecticides, fungicides and other biocides.

§ 212.21 *Formula No. 4*—(a) *Formula.* To every 100 gallons of alcohol add:

One gallon of the following solution: Five gallons of an aqueous solution containing 40 percent nicotine; and 3.6 av. ounces of methylene blue, N. F.; water sufficient to make 100 gallons.

(b) *Authorized uses.* (1) As a solvent:

460. Tobacco sprays and flavors.

§ 212.22 *Formula No. 6–B*—(a) *Formula.* To every 100 gallons of alcohol add:

One-half gallon pyridine bases.

(b) *Authorized uses.* (1) As a raw material:

523. Miscellaneous ethyl esters.
574. Fulminate of mercury and other detonators.
575. Drugs and medicinal chemicals.
579. Other chemicals.

§ 212.23 *Formula No. 12–A*—(a) *Formula.* To every 100 gallons of alcohol add:

Five gallons of benzene.

(b) *Authorized uses.* (1) As a solvent:

021. Cellulose plastics.
022. Non-cellulose plastics.
342. Processing glandular products, vitamins, hormones and yeasts.
343. Processing antibiotics and vaccines.
344. Processing medicinal chemicals (including alkaloids).
345. Processing blood and blood products.
351. Processing dyes and intermediates.
352. Processing perfume materials and fixatives.
358. Processing other chemicals.
359. Processing miscellaneous products.
430. Sterilizing and preserving solutions.
481. Photoengraving and rotogravure solutions and dyes.

(2) As a raw material:

523. Miscellaneous ethyl esters.
561. Ethyl ether.
562. Other ethers.
575. Drugs and medicinal chemicals.
579. Other chemicals.

§ 212.24 *Formula No. 13–A*—(a) *Formula.* To every 100 gallons of alcohol add:

Ten gallons of ethyl ether.

(b) *Authorized uses.* (1) As a solvent:

015. Candy glazes.
021. Cellulose plastics.
022. Non-cellulose plastics.
031. Photographic film and emulsions.
032. Transparent sheeting.
034. Cellulose intermediates and industrial collodions.
052. Inks (including meat branding inks).
241. Collodion (U. S. P. or N. F.).
331. Processing pectin.
332. Processing other food products.
342. Processing glandular products, vitamins, hormones and yeasts.
343. Processing antibiotics and vaccines.
344. Processing medicinal chemicals (including alkaloids).
345. Processing blood and blood products.
349. Miscellaneous drug processing (including manufacture of pills).
352. Processing perfume materials and fixatives.
353. Processing photographic chemicals.
358. Processing other chemicals.
359. Processing miscellaneous products.
430. Sterilizing and preserving solutions.
481. Photoengraving and rotogravure solutions and dyes.

(2) As a raw material:

523. Miscellaneous ethyl esters.
561. Ethyl ether.
562. Other ethers.
575. Drugs and medicinal chemicals.
579. Other chemicals.

§ 212.25 *Formula No. 17*—(a) *Formula.* To every 100 gallons of alcohol add:

Five-hundredths (0.05) gallon (6.4 fluid ounces) of bone oil (Dippie's oil).

(b) *Authorized uses.* (1) As a solvent:

344. Processing medicinal chemicals (including alkaloids).
358. Processing other chemicals.
359. Processing miscellaneous products.

(2) As a raw material:

575. Drugs and medicinal chemicals.
579. Other chemicals.

§ 212.26 *Formula No. 18*—(a) *Formula.* To every 100 gallons of alcohol add:

One hundred gallons of vinegar containing not less than 9 percent of acetic acid.

(b) *Authorized uses.* (1) As a raw material:

511. Vinegar.

§ 212.27 *Formula No. 19*—(a) *Formula.* To every 100 gallons of alcohol add:

One hundred gallons of ethyl ether.

(b) *Authorized uses.* (1) As a solvent:

031. Photographic film and emulsions.
034. Cellulose intermediates and industrial collodions.
241. Collodion (U. S. P.).

§ 212.28 *Formula No. 20*—(a) *Formula.* To every 100 gallons of alcohol add:

Five gallons of chloroform.

(b) *Authorized uses.* (1) As a raw material:

579. Miscellaneous chemicals (chloroform).

§ 212.29 *Formula No. 22*—(a) *Formula.* To every 100 gallons of alcohol add:

Ten gallons of formaldehyde solution (U. S. P.)

(b) *Authorized uses.* (1) As a solvent:

420. Embalming fluids and related products.
430. Sterilizing and preserving solutions.
470. Theater sprays, incense and room deodorants.

§ 212.30 *Formula No. 23–A*—(a) *Formula.* To every 100 gallons of alcohol add:

Ten gallons of acetone, N. F.

(b) *Authorized uses.* (1) As a solvent:

011. Cellulose coatings.
012. Synthetic resin coatings.
013. Shellac coatings.
014. Other natural resin coatings.
015. Candy glazes.
016. Other coatings.
032. Transparent sheeting.
034. Cellulose intermediates and industrial collodions.
035. Soldering flux.
036. Adhesives and binders.
042. Solvents and thinners (other than proprietary solvents).
052. Inks (including meat branding inks).
053. Stains (wood, etc.).
111. Hair and scalp preparations.
112. Bay rum.
113. Lotions and creams (hand, face and body).
114. Body deodorants and deodorant creams.
141. Shampoos.
142. Soaps and bath preparations.
210. External pharmaceuticals (not U. S. P. or N. F.).
249. Miscellaneous external pharmaceuticals (U. S. P. or N. F.).
331. Processing pectin.
332. Processing other food products.
341. Processing crude drugs.
342. Processing glandular products, vitamins, hormones and yeasts.
343. Processing antibiotics and vaccines.
344. Processing medicinal chemicals (including alkaloids).
345. Processing blood and blood products.
349. Miscellaneous drug processing (including manufacture of pills).
358. Processing other chemicals.
359. Processing miscellaneous products.
410. Disinfectants, insecticides, fungicides and other biocides.
420. Embalming fluids and related products.
430. Sterilizing and preserving solutions.
440. Industrial detergents and soaps.
450. Cleaning solutions (including household detergents).
482. Miscellaneous dye solutions.
485. Miscellaneous solutions.

(2) As a fluid:

740. Refrigerating uses.
750. Miscellaneous fluid uses.

§ 212.31 *Formula No. 23–F*—(a) *Formula.* To every 100 gallons of alcohol add:

Three pounds of salicylic acid, U. S. P., 1 pound resorcin, U. S. P.; and 1 gallon bergamot oil, N. F., or bay oil, N. F.

(b) *Authorized uses.* (1) As a solvent:

111. Hair and scalp preparations.
210. External pharmaceuticals (not U. S. P. or N. F.).

§ 212.32 *Formula No. 23–H*—(a) *Formula.* To every 100 gallons of alcohol add:

Eight gallons of acetone, N. F. and 1.5 gallons of methyl isobutyl ketone.

(b) *Authorized uses.* (1) As a solvent:

111. Hair and scalp preparations.
210. External pharmaceuticals (not U. S. P. or N. F.).
220. Rubbing alcohol compounds.
410. Disinfectants, insecticides, fungicides and other biocides.
450. Cleaning solutions (including household detergents).

(c) *Standard Formula for rubbing alcohol compound.*

S. D. A. No. 23–H	103.3 fl. oz.
Sucrose octa-acetate	0.5 av. oz.
Water q. s	1 gal.

All rubbing alcohol compounds or preparations coming under the general classification of rubbing alcohols must be manufactured with specially denatured alcohol Formula No. 23–H according to the above formula except that manufacturers may also add to the formula other odorous or medicinal ingredients provided they are shown in the formula submitted for approval and that the finished product contains 70 percent absolute alcohol by volume.

§ 212.33 *Formula No. 25*—(a) *Formula.* To every 100 gallons of alcohol add:

Twenty pounds of iodine, U. S. P. and 15 pounds of either potassium or sodium iodide U. S. P.

(b) *Authorized uses.* (1) As a solvent:

230. Tinctures of iodine.
249. Miscellaneous external pharmaceuticals (U. S. P. or N. F.).

(c) *Formula for Strong Iodine Tincture N. F. (using S. D. A. Formula No. 25).*

Iodine U. S. P	3.50 av. oz.
Potassium iodide U. S. P	4.50 av. oz.
Distilled water	6.40 fl. oz.
S. D. A. Formula No. 25 q. s	128.00 fl. oz.

(d) *Formula for Iodine Tincture U. S. P. (using S. D. A. Formula No. 25).*

Iodine U. S. P	1.0 av. oz. 11.0 gr.
Sodium iodide U. S. P	1.0 av. oz. 431.0 gr.
Distilled water	65.0 fl. oz. 134.0 min.
S. D. A. Formula No. 25 q. s	128.0 fl. oz.

(e) *N. F. and U. S. P. preparations.* In preparation of N. F. and U. S. P. formulas, pursuant to paragraphs (c) and (d) of this section the quantities of iodine and potassium or sodium iodide referred to as separate items in the formula are exclusive of the denaturants in the specially denatured alcohol, and are the quantities that must be added in order that the finished product may comply with the official U. S. P. or N. F. preparation.

§ 212.34 *Formula No. 25–A*—(a) *Formula.* To every 100 gallons of alcohol add:

A solution composed of 20 pounds of iodine, U. S. P., 15 pounds of potassium or sodium iodide U. S. P. and 15 pounds of water.

(b) *Authorized uses.* (1) As a solvent:

230. Tinctures of iodine.
249. Miscellaneous external pharmaceuticals (U. S. P. or N. F.).

(c) *Formula for Strong Iodine Tincture, N. F. (using S. D. A. Formula No. 25–A).*

Iodine U. S. P	6.50 av. oz.
Potassium iodide U. S. P	4.50 av. oz.
Distilled water	4.40 fl. oz.
S. D. A. Formula No. 25–A q. s	128.0 fl. oz.

(d) *Formula for Iodine Tincture, U. S. P. (using S. D. A. Formula No. 25–A).*

Iodine U. S. P	1.0 av. oz. 11.0 gr.
Sodium iodide U. S. P	1.0 av. oz. 431.0 gr.
Distilled water	64.0 fl. oz.
S. D. A. Formula No. 25–A q. s	128.0 fl. oz.

(e) *N. F. and U. S. P. preparations.* In preparation of N. F. and U. S. P. formulas, pursuant to paragraphs (c) and (d) of this section the quantities of iodine and potassium or sodium iodide referred to as separate items in the formula are exclusive of the denaturants in the specially denatured alcohol, and are the quantities that must be added in order that the finished products may comply with the official U. S. P. or N. F. preparations.

§ 212.35 *Formula No. 27*—(a) *Formula.* To every 100 gallons of alcohol add:

One gallon of rosemary oil, N. F. and 5 pounds of camphor, U. S. P.

(b) *Authorized uses.* (1) As a solvent:

243. Liniments, U. S. P. or N. F.

(c) *Formula for Camphor and Soap Liniment N. F. (using S. D. A. Formula No. 27).*

Hard soap, N. F. dried and granulated or powdered.	8.0 av. oz. 6 gr.
Camphor U. S. P. (small pieces).	2.0 av. oz. 200 gr.
Rosemary oil N. F	185 min.
S. D. A. Formula No. 27	93.75 fl. oz.
Distilled water q. s	128.0 fl. oz.

(d) *N. F. preparation.* In the preparation of N. F. formula pursuant to paragraph (c) of this section the quantities of soap, camphor and oil of rosemary referred to as separate items in the formula are exclusive of the denaturants in the specially denatured alcohol and are the quantities that must be added in order that the finished produce may comply with the official N. F. preparation.

§ 212.36 *Formula No. 27–A*—(a) *Formula.* To every 100 gallons of alcohol add:

Thirty-five pounds of camphor, U. S. P. and 1 gallon of clove oil, U. S. P.

(b) *Authorized uses.* (1) As a solvent:

210. External pharmaceuticals (not U. S. P. or N. F.).

§ 212.37 *Formula No. 27–B*—(a) *Formula.* To every 100 gallons of alcohol add:

One gallon of lavender oil, U. S. P., and 100 pounds of medicinal soft soap, U. S. P.

(b) *Authorized uses.* (1) As a solvent.

141. Shampoos.
210. External pharmaceuticals (not U. S. P. or N. F.).
243. Liniments (U. S. P. or N. F.).
410. Disinfectants, insecticides, fungicides and other biocides.

(c) *Formula for medicinal soft soap Liniment U. S. P. (using S. D. A. Formula No. 27–B).*

Medicinal soft soap, U. S. P.	81.0 av. oz. 240 gr.
Lavender oil, U. S. P	2.0 fl. oz. 66 min.
S. D. A. Formula No. 27–B q. s	128.0 fl. oz.

(d) *U. S. P. preparation.* In the preparation of U. S. P. formula pursuant to paragraph (c) of this section the quantities of ingredients referred to as separate items in the formula are exclusive of the denaturants in the specially denatured alcohol and are necessary additions in order that the finished product may comply with the official formula.

§ 212.38 *Formula No. 28–A*—(a) *Formula.* To every 100 gallons of alcohol add:

One gallon of gasoline.

(b) *Authorized uses.* (1) As a fuel:

611. Automobile and supplementary fuels.
612. Airplane and supplementary fuels.
613. Rocket and jet fuels.
690. Proprietary heating fuels.
690. Other fuel uses.

§ 212.39 *Formula No. 29*—(a) *Formula.* To every 100 gallons of alcohol add:

One gallon of 100 percent acetaldehyde or 5 gallons of an alcohol solution of acetaldehyde containing not less than 20 percent acetaldehyde, or, where approved by the Director, Alcohol and Tobacco Tax Division, as to material and quantity, not less than 6.8 pounds if solid, or 1 gallon if liquid, of any chemical. Where material other than acetaldehyde is proposed to be used the applicant will furnish the Director, Alcohol and Tobacco Tax Division, with specifications and duplicate 8 ounce samples.

(b) *Authorized uses.* (1) As a raw material:

612. Acetic acid.
611. Ethyl acetate.
613. Ethyl chloride.
690. Other ethyl esters.
690. Ethylamines (for rubber processing).
690. Dyes and intermediates (ethylamines).
611. Acetaldehyde.
690. Other aldehydes.
611. Ethyl ether.
690. Other ethers.
611. Ethylene dibromide.
612. Ethylene gas.
690. Xanthates.
690. Drugs and medicinal chemicals.
690. Other chemicals.
690. Synthetic rubber.

(c) *Conditions governing use.* This formula is restricted to processes in which the alcohol loses its identity by being converted into other chemicals.

§ 212.40 *Formula No. 30*—(a) *Formula.* To every 100 gallons of alcohol add:

Ten gallons of methyl alcohol.

(b) *Authorized uses.* (1) As a solvent:

021. Cellulose plastics.
022. Non-cellulose plastics.
031. Photographic film and emulsions.
035. Soldering flux.
036. Adhesives and binders.
051. Polishes.
052. Inks.
053. Stains.
142. Soap and bath preparations.
331. Processing pectin.
332. Processing other food products.
341. Processing crude drugs.
342. Processing glandular products, vitamins, hormones and yeasts.
343. Processing antibiotics and vaccines.
344. Processing medicinal chemicals (including alkaloids).
345. Processing blood and blood products.
349. Miscellaneous drug processing (including manufacture of pills).
352. Processing perfume materials and fixatives.
353. Processing photographic chemicals.
358. Processing other chemicals.
359. Processing miscellaneous products.
410. Disinfectants, insecticides, fungicides and other biocides.
430. Sterilizing and preserving solutions.
440. Industrial detergents and soaps.
450. Cleaning solutions (including household detergents).
481. Photoengraving and rotogravure solutions and dyes.
482. Other dye solutions.
485. Miscellaneous solutions (including duplicating fluids).

(2) As a raw material:

575. Drugs and medicinal chemicals.
579. Other chemicals.

(3) As a fluid in:

740. Refrigerating uses.
750. Other fluid uses.

(4) Miscellaneous uses:

810. Laboratory use.

§ 212.41 *Formula No. 31–A*—(a) *Formula.* To every 100 gallons of alcohol add:

One hundred pounds of glycerol, U. S. P. and 20 pounds of hard soap, N. F.

(b) *Authorized uses.* (1) As a solvent:

113. Lotions and creams (hand, face, and body).
131. Tooth paste and tooth powder.
141. Shampoos.

§ 212.42 *Formula No. 32*—(a) *Formula.* To every 100 gallons of alcohol add:

Five gallons of ethyl ether.

(b) *Authorized uses.* (1) As a solvent:

031. Photographic film and emulsions.
052. Inks (including meat branding inks).
241. Collodion (U. S. P.).
332. Processing miscellaneous food products.
342. Processing glandular products, vitamins, hormones and yeasts.
343. Processing antibiotics and vaccines.
430. Sterilizing and preserving solutions.
481. Photoengraving and rotogravure solutions and dyes.

(2) As a raw material:

522. Ethyl chloride.
523. Other ethyl esters.
561. Ethyl ether.
562. Other ethers.
571. Ethylene dibromide.
572. Ethylene gas.
575. Drugs and medicinal chemicals.
579. Other chemicals.
580. Synthetic rubber.

§ 212.43 *Formula No. 33*—(a) *Formula.* To every 100 gallons of alcohol add:

Thirty pounds of methyl violet, U. S. P.

(b) *Authorized uses.* (1) As a solvent:

052. Inks.

(c) *Conditions governing use.* Meat branding inks made with Formula No. 33 do not meet U. S. Department of Agriculture meat inspection specifications for use in federally inspected establishments. Such inks must be made with FD&C Violet No. 1. Specially denatured alcohol Formulas No. 23–A and 32 are authorized for this purpose.

§ 212.44 *Formula No. 35*—(a) *Formula.* To every 100 gallons of alcohol add:

Thirty-five gallons of ethyl acetate.

(b) *Authorized uses.* (1) As a solvent:

015. Candy glazes.

§ 212.45 *Formula No. 35–A*—(a) *Formula.* To every 100 gallons of alcohol add:

4.26 gallons of ethyl acetate having an ester content of 100 percent by weight or the equivalent thereof not to exceed 5 gallons of ethyl acetate with an ester content of not less than 85 percent by weight.

(b) *Authorized uses.* (1) As a solvent:

015. Candy glazes.
331. Processing pectin.
332. Processing other food products.
342. Processing glandular products, vitamins, hormones and yeasts.
343. Processing antibiotics and vaccines.
344. Processing medicinal chemicals (including alkaloids).
349. Miscellaneous drug processing (including manufacture of pills).
358. Processing miscellaneous chemicals.
359. Processing miscellaneous products.

(2) As a raw material:

511. Vinegar.
521. Ethyl acetate.
523. Other ethyl esters.

§ 212.46 *Formula No. 36*—(a) *Formula.* To every 100 gallons of ethyl alcohol add:

Three gallons of strong ammonia solution, U. S. P.

(b) *Authorized uses.* (1) As a raw material:

530. Ethylamines (for rubber processing).
540. Dyes and intermediates (ethylamines).

§ 212.47 *Formula No. 37*—(a) *Formula.* To every 100 gallons of alcohol add:

Forty-five fluid ounces of eucalyptol, U. S. P., 30 av. ounces of thymol, N. F. and 20 av. ounces of menthol, U. S. P.

(b) *Authorized uses.* (1) As a solvent:

111. Hair and scalp preparations.
112. Bay rum.
113. Lotions and creams (hand, face and body).
131. Dentifrices.
132. Mouth washes.
210. External pharmaceuticals (not U. S. P. or N. F.).
244. Antiseptic solutions (U. S. P. or N. F.).
410. Disinfectants, insecticides, fungicides and other biocides.
430. Sterilizing and preserving solutions.
470. Theater sprays, incense and room deodorants.

§ 212.48 *Formula No. 38–B*—(a) *Formula.* To every 100 gallons of alcohol add:

Ten pounds of any one or a total of 10 pounds of two or more of the oils and substances listed below:

Anethol, U. S. P.
Anise oil, U. S. P.
Bay oil (myrcia oil), N. F.
Benzaldehyde, N. F.
Bergamot oil, N. F.
Bitter almond oil, N. F.
Camphor, U. S. P.
Cedar leaf oil, U. S. P. XIII
Chlorothymol, N. F.
Cinnamic aldehyde, N. F. IX
Cinnamon oil (cassia oil), U. S. P.
Citronella oil, natural
Clove oil, U. S. P.
Coal tar, U. S. P.
Eucalyptol, U. S. P.
Eucalyptus oil, N. F.
Eugenol, U. S. P.
Guaiacol, N. F.
Lavender oil, U. S. P.
Menthol, U. S. P.
Mustard oil, volatile (allyl isothiocyanate), U. S. P. XII.
Peppermint oil, U. S. P.
Phenol, U. S. P.
Phenyl salicylate (salol), N. F.
Pine oil, N. F.
Pine needle oil, dwarf, N. F.
Rosemary oil, N. F.
Safrol
Sassafras oil, N. F.
Spearmint oil, N. F.
Spearmint oil, terpeneless.
Spike lavender oil, natural
Storax, U. S. P.
Thyme oil, N. F.
Thymol, N. F.
Tolu balsam, U. S. P.
Turpentine oil, N. F.
Wintergreen oil (methyl salicylate), U. S. P.

Each ingredient and the amount used to make up the required 10 pounds of denaturants must be stated on Form 1479–A. Where it is shown that none of the above single denaturants or combinations can be used in the manufacture of a particular product, application may be made to use another essential oil or substance having denaturing properties satisfactory to the Director, Alcohol and Tobacco Tax Division. In such case the applicant will furnish the Director, Alcohol and Tobacco Tax Division, with specifications and duplicate 8 ounce samples for examination.

(b) *Authorized uses.* (1) As a solvent:

111. Hair and scalp preparations.
113. Lotions and creams (hand, face and body).
114. Deodorants (body).
121. Perfumes and perfume tinctures.
122. Toilet waters and colognes.
131. Dentifrices.
132. Mouth washes.
141. Shampoos.
142. Soap and bath preparations.
210. External pharmaceuticals (not U. S. P. or N. F.).
243. Liniments, U. S. P. or N. F.
244. Antiseptic solutions, U. S. P. or N. F.
249. Miscellaneous external pharmaceuticals U. S. P. or N. F.
410. Disinfectants, insecticides, fungicides and other biocides.
430. Sterilizing and preserving solutions.
470. Theater sprays, incense and room deodorants.

§ 212.49 *Formula No. 38–C*—(a) *Formula.* To every 100 gallons of alcohol add:

Ten pounds of menthol, U. S. P., and 1.25 gallons of Formaldehyde solution U. S. P.

(b) *Authorized uses.* (1) As a solvent:

131. Dentifrices.
132. Mouth washes.

§ 212.50 *Formula No. 38–D*—(a) *Formula.* To every 100 gallons of alcohol add:

Two and one-half pounds of menthol, U. S. P. and 2.5 gallons of Formaldehyde Solution, U. S. P.

(b) *Authorized uses.* (1) As a solvent:

131. Dentifrices.
132. Mouth washes.

§ 212.51 *Formula No. 38–F*—(a) *Formula.* To every 100 gallons of alcohol add:

(1) Six pounds of boric acid, U. S. P., 1⅓ pounds thymol, N. F., 1⅓ pounds chlorothymol, N. F., and 1⅓ pounds menthol, U. S. P.; or

(2) Seven pounds of boric acid, U. S. P. and a total of 3 pounds of any two or more denaturing materials listed under Formula No. 38–B. The denaturants selected and the amounts must be stated on Form 1479–A.

(b) *Authorized uses.* (1) As a solvent:

132. Mouth washes.
244. Antiseptic solutions (U. S. P. or N. F.).

§ 212.52 *Formula No. 39*—(a) *Formula.* To every 100 gallons of alcohol add:

Nine pounds of sodium salicylate or salicylic acid, U. S. P., 1.25 gallons fluid extract of quassia, N. F. VII and ⅛ gallon of *tert*-butyl alcohol.

(b) *Authorized uses.* (1) As a solvent:

111. Hair and scalp preparations.
112. Bay rum.
121. Perfume and perfume tinctures.
122. Toilet waters and colognes.

§ 212.53 *Formula No. 39–A*—(a) *Formula.* To every 100 gallons of ethyl alcohol add:

Sixty av. ounces of any one of the following alkaloids or salts together with ⅛ gallon of *tert*-butyl alcohol:

Quinine, N. F.
Quinine bisulfate, N. F.
Quinine hydrochloride, U. S. P.
Cinchonidine
Cinchonidine sulfate, N. F. IX.

The denaturant selected must be stated on Form 1479–A.

(b) *Authorized uses.* (1) As a solvent:

111. Hair and scalp preparations.
122. Toilet waters and colognes.
141. Shampoos.

§ 212.54 *Formula No. 39–B*—(a) *Formula.* To every 100 gallons of alcohol add:

Two and one-half gallons of diethyl phthalate and ⅛ gallon of *tert*-butyl alcohol.

(b) *Authorized uses.* (1) As a solvent:

111. Hair and scalp preparations.
112. Bay rum.
113. Lotions and creams (hand, face and body).
114. Deodorants (body).
121. Perfumes and perfume tinctures.
122. Toilet waters and colognes.
141. Shampoos.
142. Soap and bath preparations.
210. External pharmaceuticals (not U. S. P. or N. F.).
410. Disinfectants, insecticides, fungicides and other biocides.
450. Cleaning solutions (including household detergents).
470. Theater sprays, incense and room deodorants.
485. Miscellaneous solutions.

§ 212.55 *Formula No. 39–C*—(a) *Formula.* To every 100 gallons of alcohol add:

One gallon of diethyl phthalate.

(b) *Authorized uses.* (1) As a solvent:

111. Hair and scalp preparations.
113. Lotions and creams (hand, face and body).
114. Deodorants (body).
121. Perfumes and perfume tinctures.
122. Toilet waters.
142. Soaps and bath preparations.
470. Theater sprays, incense and room deodorants.
482. Miscellaneous dye solutions (own use only).

(c) *Conditions governing use.* Preparations manufactured with Formula No. 39–C must contain in each gallon of finished product not less than 2 fluid ounces of perfume material (essential oils, isolates, aromatic chemicals, etc.) satisfactory to the Director, Alcohol and Tobacco Tax Division.

§ 212.56 *Formula No. 39–D*—(a) *Formula.* To every 100 gallons of alcohol add:

One gallon of bay oil, N. F. and either 80 av. ounces of quinine sulphate, U. S. P., 80 av. ounces of quinine bisulphate, N. F., or 80 av. ounces of sodium salicylate, U. S. P.

The denaturant selected must be stated on Form 1479–A.

(b) *Authorized uses.* (1) As a solvent:

111. Hair and scalp preparations.
112. Bay rum.

§ 212.57 *Formula No. 40*—(a) *Formula.* To every 100 gallons of alcohol add:

Three av. ounces of brucine (alkaloid) or brucine sulfate, N. F. IX and ⅛ gallon of *tert*-butyl alcohol.

(b) *Authorized uses.* (1) As a solvent:

111. Hair and scalp preparations.
112. Bay rum.
113. Lotions and creams (hand, face and body).
114. Deodorants (body).
121. Perfumes and perfume tinctures.
122. Toilet waters and colognes.
141. Shampoos.

142. Soaps and bath preparations.
210. External pharmaceuticals (not U. S. P. or N. F.).
410. Disinfectants, insecticides, fungicides and other biocides.
450. Cleaning solutions (including household detergents).
470. Theater sprays, incense and room deodorants.
482. Miscellaneous dye solutions.
485. Miscellaneous solutions.

§ 212.58 *Formula No. 40–A*—(a) *Formula.* To every 100 gallons of alcohol add:

Five pounds of sucrose octa-acetate and ⅛ gallon of *tert*-butyl alcohol.

(b) *Authorized uses.* (1) As a solvent:

111. Hair and scalp preparations.
112. Bay rum.
113. Lotions and creams (hand, face and body).
114. Deodorants (body).
121. Perfumes and perfume tinctures.
122. Toilet waters and colognes.
141. Shampoos.
142. Soap and bath preparations.
210. External pharmaceuticals (not U. S. P. or N. F.).
410. Disinfectants, insecticides, fungicides and other biocides.
470. Theater sprays, incense and room deodorants.
485. Miscellaneous solutions.

§ 212.59 *Formula No. 42*—(a) *Formula.* To every 100 gallons of alcohol add:

(1) Eighty grams of potassium iodide, U. S. P. and 109 grams of red mercuric iodide, N. F.;

(2) Ninety-five grams of thimerosal, N. F.; or

(3) Seventy-six grams of any of the following: phenyl mercuric nitrate, N. F.; phenyl mercuric chloride, N. F. IX or phenyl mercuric benzoate.

(b) *Authorized uses.* (1) As a solvent:

430. Sterilizing and preserving solutions.

§ 212.60 *Formula No. 44*—(a) *Formula.* To every 100 gallons of alcohol add:

Ten gallons of *n*-butyl alcohol.

(b) *Authorized uses.* (1) As a solvent:

430. Sterilizing and preserving solutions.

§ 212.61 *Formula No. 45*—(a) *Formula.* To every 100 gallons of alcohol add:

Three hundred pound of refined white or orange shellac.

(b) *Authorized uses.* (1) As a solvent:

485. Candy glazes.

§ 212.62 *Formula No. 46*—(a) *Formula.* To every 100 gallons of alcohol add:

Twenty-five fluid ounces of phenol, U. S. P. and 4 fluid ounces of wintergreen oil (methyl salicylate), U. S. P.

(b) *Authorized uses.* (1) As a solvent:

220. An antiseptic, sterilizing and bathing solution having restricted use.

(c) *Conditions governing use.* This formula may be used only by institutions and organizations which are of a semi-public character and engaged in charitable work.

SUBPART E—SPECIFICATIONS FOR DENATURANTS

§ 212.65 *General.* Denaturants prescribed in this part shall comply with the specifications set forth in this subpart: *Provided,* That, in order to meet requirements of national defense or for other valid reason, the Director, Alcohol and Tobacco Tax Division, may authorize variations from such specifications or authorize the use of substitute denaturants where such variation or substitution will not jeopardize the revenue.

§ 212.66 *U. S. P. or N. F.* Denaturing materials and products listed in this part as "U. S. P." or "N. F." shall meet the specifications set forth in the current United States Pharmacopea or National Formulary or the latest volume in which they appeared as official preparations. The designations "U. S. P." and "N. F." shall be considered interchangeable when preparations are transferred from one official publication to the other.

§ 212.67 *Acetaldehyde.*

Aldehyde content (as acetaldehyde). Not less than 95.0 percent by weight.
Color. Colorless.
Odor. Characteristic pungent, fruity odor.
Specific gravity at 15.56°/15.56° C. Not less than 0.7800.

§ 212.68 *Acetaldol.*

Purity. Not less than 90 percent by weight acetaldol as determined by the following method:

Dissolve 15 grams of the acetaldol in distilled water and dilute to 1 liter in a volumetric flask. Transfer 5 ml. of this solution to a 250 ml. glass-stoppered flask containing 25 ml. distilled water. Add 25 ml. of a freshly prepared 1 percent sodium bisulfite solution. Prepare a blank omitting the acetaldol solution. Place the flasks in a dark place away from excessive heat or cold and allow to stand six hours. Remove flasks and titrate free bisulfite with 0.1 N. Iodine solution using starch indicator.

$$\text{Percent acetaldol by weight} = \frac{(\text{ml. blank} - \text{ml. test}) \times 200 \times 0.44}{\text{weight of sample}}$$

Titrations in excess of 100 percent may be obtained if the sample contains appreciable amounts of acetaldehyde.
Specific gravity at 20° C. 1.098 to 1.105.

§ 212.69 *Benzene.*

Distillation range—(Applicable A. S. T. M. method). When 100 ml. of benzene are distilled by this method, not more than 1 ml. should distill below 77° C., and not less than 95 ml. below 85° C.
Odor. Characteristic odor.
Specific gravity at 15.6/15.6° C. 0.875 to 0.886.
Water solubility. When 10 ml. of benzene are shaken with an equal volume of water in a glass-stoppered cylinder, graduated to 0.1 ml., and allowed to stand 5 minutes to separate, the upper layer of liquid shall measure not less than 9.5 ml.

§ 212.70 *Bone oil (Dipple's oil).*

Color. The color shall be a deep brown.
Distillation range. When 100 ml. are distilled in the manner described for wood alcohol, not more than 5.0 ml. should distill below 90° C.
Pyrrol reaction. Prepare a 1.0 percent solution of bone oil in 95 percent alcohol. Prepare a second solution containing 0.025 percent bone oil by diluting 2.50 ml. of the first solution to 100 ml. with 95 percent alcohol. Dip a splinter of pine, previously moistened with concentrated hydrochloric acid, into 10 ml. of the 0.025 percent bone oil solution. After a few minutes the splinter should show a distinct red coloration.
Reaction with mercuric chloride. Add 5 ml. of the 1.0 percent bone oil solution above to 5 ml. of a 2 percent alcoholic solution of mercuric chloride. A turbidity is formed at once which separates into a flocculent precipitate on standing several minutes. Add 5.0 ml. of the 0.025 percent bone oil solution to 5.0 ml. of a 2.0 percent alcoholic solution of mercuric chloride. A faint turbidity appears after several minutes.

§ 212.71 *Brucine alkaloid.*

Identification test. Add a few drops of concentrated nitric acid to about 10 mg. of brucine alkaloid. A vivid red color is produced. Dilute the red solution with a few drops of water and add a few drops of freshly made dilute stannous chloride solution. A reddish purple (violet) color is produced.
Melting point. 178° C. ±1°. Dry the alkaloid in an oven for one hour at 100° C., increase the temperature to 110° and dry to a constant weight before taking melting point.
NOTE: Brucine alkaloid—4 H_2O melts at 105° C. while the anhydrous form melts at 178° C.
Strychnine test. Brucine alkaloid shall be free of strychnine when tested by the method listed under Brucine Sulfate in the National Formulary, 9th Edition.
NOTE: If the brucine contains as much as 0.05 percent strychnine, a clear distinctive violet color, characteristic of strychnine, will be obtained.
Sulfate test. No white precipitate is formed that is not dissolved by hydrochloric acid when several drops of a 1 N barium chloride solution are added to 10 ml. of a solution of the alkaloid.

§ 212.72 *n-Butyl alcohol.*

Acidity (as acetic acid). 0.03 percent by weight maximum.
Color. Colorless.
Dryness at 20° C. Miscible without turbidity with 10 volumes of 60° Bé. gasoline.
Odor. Characteristic odor.
Specific gravity at 20°/20° C. 0.810 to 0.815.

§ 212.73 *tert.-Butyl alcohol.*

Acidity (as acetic acid). 0.003 percent by weight maximum.
Color. Colorless.
Distillation range (Applicable A. S. T. M. method). When 100 ml. of tertiary butyl alcohol are distilled, none should distill below 78° C. and none above 85° C. More than 95 percent should distill between 81°—83° C.
Dryness at 20° C. Miscible without turbidity with 19 volumes of 60° Bé. gasoline.
Freezing point (first needle). Above 20° C.
Identification test. Place 5 drops of a solution containing approximately 0.1 percent tertiary butyl alcohol in ethyl alcohol in a test tube. Add 2 ml. of Denige's reagent. (Dissolve 5 grams of red mercuric oxide in 20 ml. concentrated sulfuric acid. Add this solution to 80 ml. of distilled water, and filter when cool.) Heat the mixture just to the boiling point and remove from the flame. A yellow precipitate forms within a few seconds.
Non volatile matter. Less than 0.005 percent by weight.
Odor. Characteristic odor.
Residual odor after evaporation. None.
Specific gravity at 25°/25° C. 0.780 to 0.786.

§ 212.74 *Chloroform.*

Odor. Characteristic odor.
Specific gravity at 25°/25° C. Not less than 1.400.

§ 212.75 *Cinchonidine.*

Melting point. 208° to 210° C.
Color. White powder.
Taste. Bitter.
Test. A solution of cinchonidine in dilute sulfuric acid shall not have more than a faint blue fluorescence (to distinguish from quinine and quinoidine).

§ 212.76 *Citronella oil, natural*—(a) *Java type:*

Alcohol content (as Geraniol). Not less than 85 percent by weight.
Aldehyde content (as Citronella). Not less than 30 percent by weight.
Refractive index at 20° C. 1.4660 to 1.4745.
Specific gravity at 25°/25° C. 0.875 to 0.893.
Odor. Characteristic odor.

(b) *Ceylon type.*

Alcohol content (as Geraniol). Not less than 55 percent by weight.
Aldehyde content (as Citronella). Not less than 7 percent by weight.
Refractive index at 20° C. 1.4790 to 1.4850.
Specific gravity at 25°/25° C. 0.891 to 0.904.
Odor. Characteristic odor.

§ 212.77 *Diethyl phthalate.*

Color. Colorless.
Distillation range (Applicable A. S. T. M. method). When 100 ml. of diethyl phthalate are distilled by this method none should distill below 290° C. and none above 297° C.
Ester content (as diethyl phthalate). Not less than 99 percent by weight.
NOTE: The sample taken for ester determination should be approximately 0.8 gram. The number of ml. of 0.5N KOH used in saponification multiplied by 0.05555, indicates the grams of ester in the sample taken for assay.
Odor. Practically odorless.
Solubility. Soluble in 2 parts of 60 percent alcohol.
Specific gravity at 25°/25° C. 1.115 to 1.118.

§ 212.78 *Ethyl acetate.*

Acidity (as acetic acid). Not more than 0.015 percent by weight.
Color. Colorless.
Distillation range (Applicable A. S. T. M. method). When 100 ml. of ethyl acetate are distilled by this method none shall distill below 70° C.; not more than 10 ml. shall distill below 72° C., and none above 80° C.
Ester content. Not less than 85 percent by weight.
Odor. Characteristic odor.
Specific gravity at 20°/20° C. Not less than 0.885.

§ 212.79 *Ethyl ether.*

Odor. Characteristic odor.
Specific gravity at 15.56°/15.56° C. Not more than 0.728.

§ 212.80 *Gasoline.*

Distillation range (Applicable A. S. T. M. method). When 100 ml. of gasoline are distilled none shall distill below 90° F. Not more than 5 ml. shall be collected below 140° F., and not less than 50 ml. shall distill below 230° F.
Odor. Characteristic odor.

§ 212.81 *Kerosene.*

Distillation range (Applicable A. S. T. M. method). No distillate should come over below 340° F. and none above 570° F.
Flash point. 115° F. minimum.
Odor. Characteristic odor.

§ 212.82 *Methyl alcohol.*

Specific gravity at 15.56°/15.56° C. 0.810 maximum.

§ 212.83 *Methyl isobutyl ketone.*

Acidity (as acetic acid). 0.02 percent by weight, maximum.
Color. Colorless.
Distillation range (Applicable A. S. T. M. method). No distillate should come over below 111° C. and none above 117° C.
Odor. Characteristic odor.
Specific gravity at 20°/20° C. 0.799 to 0.804.

§ 212.84 *Nicotine solution.*

Composition: Five gallons of an aqueous solution containing 40 percent nicotine; 3.6 av. oz. methylene blue N. F.; water sufficient to make 100 gallons.
Color. One ml. of the nicotine solution (previously agitated in the presence of air) is measured into 100 ml. of water and thoroughly mixed. Fifty ml. of this colored solution is compared, using Nessler tubes, with 50 ml. of a standard color solution containing 5 grams of $CuSO_4 \cdot 5H_2O$, C. P. in 100 ml. of water. The color intensity of the solution tested should be equal to or greater than that of the standard solution.
Nicotine content. The above solution must contain not less than 1.88 percent of nicotine determined by the following process: 20 ml. of the solution are measured into a 500 ml. Kjeldahl flask provided with a suitable bulb tube, 50 ml. of 0.1 N NaOH added and the mixture distilled in a current of steam until the distillate is no longer alkaline (about 500 ml.). The distillate is then titrated with 0.1 N H_2SO_4 using rosolic acid or methyl red as indicator. Not less than 23.2 ml. should be required for neutralization.

§ 212.85 *Phenyl mercuric benzoate.*

Assay (as phenyl mercuric benzoate). Not less than 99.0 percent by weight.
Melting point. Not less than 94° C.

§ 212.86 *Pyridine bases.*

Alkalinity. One ml. of pyridine bases dissolved in 10 ml. of water is titrated with N H_2SO_4 until a drop of the mixture placed upon Congo paper shows a distinct blue border, which soon disappears. A minimum of 9.5 ml. of the acid must be required for the end point. (Congo paper: filter paper treated with 0.1 percent aqueous solution of Congo red and dried.)
Distillation range. 100 ml. of the denaturant are distilled in the same apparatus prescribed for wood alcohol. At least 50 ml. must distill at or below 140° C. and at least 90 ml. below 160° C.
Reactions. Dissolve 1 ml. of pyridine bases in 100 ml. of water. (a) 10 ml. of this solution are treated with 5 ml. of 5 percent aqueous solution of anhydrous fused $CaCl_2$ and the mixture vigorously shaken. An abundant crystalline separation should occur within 10 minutes.
(b) 10 ml. of the pyridine solution mixed with 5 ml. of Nessler's reagent must give a white precipitate.
Water content. 20 ml. of pyridine bases are shaken with 20 ml. of a caustic soda solution having a specific gravity of 1.40 (15.56°/15.56° C.) and the mixture allowed to stand until completely separated into two layers. The amount of the pyridine base layer should be 18.5 ml., minimum.

§ 212.87 *Pyronate.*

Pyronate is a product of the destructive distillation of hardwood meeting the following requirements:
Acidity (as acetic acid). Not more than 0.1 percent by weight, determined as follows:
Add 5.0 ml. sample to 100 ml. distilled water in an Erlenmeyer flask and titrate with 0.1 N NaOH to a bromthymol blue endpoint.
Color. The color shall be no darker than the color produced by 2.0 grams of potassium dichromate in 1 liter of water. The comparison shall be made in 4 oz. oil sample bottles viewed crosswise.
Distillation range (Applicable A. S. T. M. method). When 100 ml. are distilled not more than 5 ml. shall distill below 70° C. and not less than 50 ml. below 160° C., and not less than 90 ml. below 205° C.
NOTE: Any material submitted as pyronate must agree in color, odor, taste and denaturing value with a standard sample furnished by the Alcohol and Tobacco Tax Division, Internal Revenue Service, to chemists authorized to examine samples of denaturants.

§ 212.88 *Rubber hydrocarbon solvent.*

Rubber hydrocarbon solvent is a petroleum derivative:
Distillation range (Applicable A. S. T. M. method). When 10 percent of the sample has been distilled into a graduated receiver, the thermometer shall not read more than 162° F. nor less than 120° F. When 90 percent has been recovered in the receiver the thermometer shall not read more than 250° F.

§ 212.89 *Safrol.*

Congealing point. 10.0° to 11.2° C.
Refractive index at 20° C. 1.5363 to 1.5393.
Specific gravity at 15°/15° C. 1.100 to 1.106.
Odor. Characteristic odor.

§ 212.90 *Shellac (refined).*

Arsenic content. None as determined by the Marsh Method or Gutzeit Method.
Color. White or orange.
Rosin content. None when tested by the following method: Add 20 ml. of absolute alcohol or glacial acetic acid (m. p. 13° to 15° C.) to 2 grams of the shellac and thoroughly dissolve. Add 100 ml. of petroleum ether and mix thoroughly. Add approximately 2 liters of water and separate a portion of the ether layer (at least 50 ml.) and filter if cloudy. Evaporate the petroleum ether and test as follows: Solution A—5 ml. phenol dissolved in 10 ml. carbon tetrachloride. Solution B—1 ml. bromine dissolved in 4 ml. carbon tetrachloride. To the residue obtained above add 2 ml. of Solution A and transfer the mixture to a porcelain spot plate, filling one cavity. Immediately fill an adjacent cavity with Solution B. Cover the plate with a watch glass and observe any color formation in Solution A. A decided purple or deep indigo blue color is an indication of the presence of rosin.

§ 212.91 *Sodium (metallic).*

Color. Silvery-white (metallic luster) when freshly cut.
Identification test. Clean a platinum wire by dipping it in concentrated hydrochloric acid and holding it over a Bunsen burner until the flame is no longer colored. Moisten the wire loop with hydrochloric acid and dip it into the sample. Hold the wire in the Bunsen flame and note the color. Sodium produces a golden yellow flame; not observed when viewed through a cobalt glass.
Purity. Technical grade or better.

§ 212.92 *Spearmint oil, terpeneless.*

Carvone content. Not less than 85 percent by weight.
Refractive index at 20° C. 1.4930 to 1.4960.
Specific gravity at 25°/25° C. 0.949 to 0.956.
Odor. Characteristic odor.

§ 212.93 *Spike lavendar oil, natural.*

Alcohol content (as borneol). Not less than 30 percent by weight.
Esters (as bornyl acetate). Not less than 1.5 percent by weight.
Refractive index at 20° C. 1.4630 to 1.4660.

Specific gravity at 25°/25° C. 0.893 to 0.909.
Odor. Characteristic odor.

§ 212.94 *Sucrose octa-acetate.*

Sucrose octa-acetate is an organic acetylation product occurring as a cream-colored, nonhydroscopic powder, having an intensely bitter taste.
Free acid (as acetic acid). Maximum percentage 0.15 by weight when determined by the following procedure: Dissolve 1.0 gram of sample in 50 ml. of neutralized ethyl alcohol (or SDA No. 30) and titrate with 0.1 N sodium hydroxide using phenolphthalein indicator.

$$\text{Percent acid as acetic acid} = \frac{\text{ml. NaOH used} \times 0.6}{\text{weight of sample}}$$

Insoluble matter. 0.30 percent by weight maximum.
Melting point. Not less than 78.0° C. or more than 84.0° C.
Purity. Sucrose octa-acetate 98% minimum by weight when determined by the following procedure: Transfer a weighed 1.50 gram sample to a 500 ml. Erlenmeyer flask containing 100 ml. of neutral ethyl alcohol (or SDA No. 30) and exactly 50.0 ml. of 0.5 N sodium hydroxide. Reflux for one hour on a steam bath, cool and titrate the excess sodium hydroxide with 0.5 N sulfuric acid using phenolphthalein indicator.

$$\text{Percent sucrose octa-acetate} = \frac{(\text{ml. NaOH} - \text{ml. } H_2SO_4) \times 4.2412}{\text{weight of sample}}$$

§ 212.95 *Vinegar.*

Acidity (as acetic acid). 9.0 percent by weight, minimum.

§ 212.96 *Wood alcohol.*

The wood alcohol submitted must be a partially purified distillate from crude wood alcohol obtained only by the destructive distillation of wood. It may be a blend of those distillation fractions commonly known as the methyl acetone, methyl alcohol, and allyl fractions. This blend shall consist in its entirety of all or portions of each of the fractions.
A mere physical mixture of the essential chemical constituents will not be approved nor will the addition of water subsequent to distillation in order to make the specific gravity conform to the specifications. It is the intent of these specifications that the chemical findings outlined below shall be due only to those impurities or ingredients naturally formed in the course of the destructive distillation of wood and that the extent of the presence of such impurities or ingredients be due entirely to their natural occurrence in the fractions mentioned above.
Acetone. Not less than 10.0 grams nor more than 20.0 grams of acetone and other substances estimated as acetone per 100 ml. of sample when tested by the following method: One ml. of a mixture of 10 ml. wood alcohol and 90 ml. of water is treated with 10 ml. of 2 N sodium hydroxide solution. To this mixture is added, with shaking, 50 ml. of 0.1 N iodine solution. After standing for fifteen minutes the solution is acidified with dilute sulfuric acid. The excess iodine is titrated with 0.1 N sodium thiosulfate solution using 1–2 ml. starch indicator. From 10.3 to 20.7 ml. of 0.1 N iodine solution should be required by the sample. The test should be made at a temperature between 15° and 20° C.
Calculation:
X=grams of acetone in 100 ml. sample.
Y=ml. of 0.1 N iodine solution required.
N=ml. of sample taken for titration.
Then:

$$X = \frac{Y(0.0968)}{N}$$

It is recommended that a blank be run with each test using a solution of 16 grams of acetone, C. P., made up to 100 ml. with absolute methanol. The difference between the known value and the titrated value of the blank is added to the amount of acetone found in the sample.
Color. Not darker than a freshly prepared solution of 2 ml. of 0.1 N iodine diluted to one liter with distilled water.
Distillation range (at 760 mm.). Of a 100 ml. sample taken, 90 ml. or more distillate shall be collected at a temperature not exceeding 75° C. when distilled in the following manner: The sample is placed in a short-necked glass flask of about 200 ml. capacity which is rested on an asbestos plate having a circular opening of 30 mm. in diameter. The neck of this flask is fitted with a fractionating tube 12 mm. in diameter and 170 mm. long and having a bulb just 1 cm. below the side tube which is connected with a Liebig condenser having a water jacket not less than 400 mm. in length. A standardized thermometer is placed in the fractionating tube so that the mercury bulb is suspended in the center of the fractionating bulb. Heat is applied slowly and in such manner that 5 ml. of distillate is collected per minute in a graduated cylinder.
Correction may be made for variations in barometric pressure by allowing 1° C. for each variation of 30 mm. from normal (760 mm.). Thus, at 770 mm., 90 ml. should have distilled at 75.3° C. and at 750 mm., 90 ml. should have distilled at 74.7° C.
Esters (as methyl acetate). Not less than 3 nor more than 10 grams per 100 ml. when determined as follows: Dilute 10 ml. of wood alcohol to 500 ml. with distilled water and agitate until thoroughly mixed. Transfer 100 ml. of this mixture to a 500 ml. flask, neutralize free acid, add 50 ml. excess 0.1 N sodium hydroxide (carbonate free) connect flask with air-cooled condenser about 2 feet in length, heat for two hours on a steam bath, allow to cool and titrate excess alkali with 0.1 N sulfuric acid, using phenolphthalein indicator solution.
Calculation:
M=grams of methyl acetate per 100 ml. of sample.
V=ml. of sample titrated (2 ml. in this case).
B=ml. of 0.1 N sodium hydroxide solution required.
Then

$$M = \frac{B(0.0074) \times 100}{V}$$

Miscibility with water (25° to 30° C.). No distinct separation of an oily layer shall be observed three minutes after mixing with twice its volume of water.
Pyroligneous bodies (by bromine adsorption). It must contain such a quantity of pyroligneous bodies (derived entirely from the methyl acetone, methyl alcohol and allyl fractions) that not less than 14 ml. nor more than 21 ml. shall be required to decolorize a standard solution containing 0.5 gram of bromine prepared as follows: Transfer 12.406 grams of potassium bromide and 3.481 grams of potassium bromate, C. P., (oven dried for 2 hours at 105° C.) to a liter volumetric flask and make up to volume with distilled water. Transfer 50 ml. of this solution containing 0.5 gram of bromine to a 200 ml. glass-stoppered flask, acidify with dilute sulfuric acid (1 to 4) and allow to stand for five minutes. From a burette add the sample of wood alcohol dropwise, not exceeding 5 ml. per minute, until the bromine color disappears. Record the ml. of sample required. The temperature of the mixture should be 20° C.
Specific gravity 15.56°/15.56° C. 0.8198 minimum.
In addition to the above requirements, the wood alcohol must be of such a character as to impart its characteristic odor and taste to the ethyl alcohol with which it is mixed, thereby giving an unmistakable warning of its presence.

SUBPART F—USES OF SPECIALLY DENATURED ALCOHOL

§ 212.105 *Listing of products and processes using specially denatured alcohol and formulas authorized therefore.* This section gives a listing, alphabetically by product or process, of formulas of specially denatured alcohol authorized for use in such products or processing, and a listing of the code numbers assigned thereto.

USES OF SPECIALLY DENATURED ALCOHOL[1]

Product or process	Code No.	Formulas authorized
Acetaldehyde	551	1, 2-B, 29.
Acetic acid	512	1, 2-B, 29.
Adhesives and binders	036	1, 3-A, 23-A, 30.
Aldehydes, miscellaneous	552	1, 2-B, 29.
Alkaloids (processing)	344	1, 2-B, 2-C, 3-A, 12-A, 13-A, 17, 23-A, 30, 35-A.
Antibiotics (processing)	343	1, 2-B, 3-A, 12-A, 13-A, 23-A, 30, 32, 35-A.
Antifreeze, proprietary	760	1.
Antiseptic, bathing solution (restricted)	220	46.
Antiseptic solutions, U. S. P. or N. F.	244	37, 38-B, 38-F.
Bath preparations	142	1, 3-A, 3-B, 23-A, 30, 38-B, 39-B, 39-C, 40, 40-A.
Bay rum	112	23-A, 37, 39, 39-B, 39-D, 40, 40-A.
Biocides, miscellaneous	410	1, 3-A, 3-B, 23-A, 23-H, 27-B, 30, 37, 38-B, 39-B, 40, 40-A.
Blood and blood products (processing)	345	1, 3-A, 12-A, 13-A, 23-A, 30.
Brake fluids	720	1, 3-A.
Candy glazes	015	13-A, 23-A, 35, 35-A, 45.
Cellulose coatings	011	1, 23-A.
Cellulose compounds (dehydration)	311	1, 2-B, 3-A.
Cellulose intermediates	034	1, 3-A, 13-A, 19, 23-A.
Chemicals (miscellaneous)	579	1, 2-B, 2-C, 3-A, 6-B, 12-A, 13-A, 17, 20, 29, 30, 32.
Cleaning solutions	450	1, 3-A, 23-A, 23-H, 30, 39-B, 40.
Coatings, miscellaneous	016	1, 23-A.
Collodions, industrial	034	1, 3-A, 13-A, 19, 23-A.
Collodions, U. S. P. or N. F.	241	13-A, 19, 32.
Colognes	122	38-B, 39, 39-A, 39-B, 39-C, 40, 40-A.
Crude drugs (processing)	341	1, 2-B, 3-A, 23-A, 30.
Cutting oils	730	1, 3-A.
Dehydration products, miscellaneous	315	1, 2-B, 3-A.
Dentifrices	131	31-A, 37, 38-B, 38-C, 38-D.
Deodorants (body)	114	23-A, 38-B, 39-B, 39-C, 40, 40-A.
Detergents, household	450	1, 3-A, 23-A, 23-H, 30, 39-B, 40.
Detergents, industrial	440	1, 3-A, 23-A, 30.
Detonators	574	1, 6-B.
Disinfectants	410	1, 3-A, 3-B, 23-A, 23-H, 27-B, 30, 37, 38-B, 39-B, 40, 40-A.
Drugs and medicinal chemicals	575	1, 2-B, 2-C, 3-A, 6-B, 12-A, 13-A, 17, 29, 30, 32.
Drugs, miscellaneous (processing)	349	1, 2-B, 3-A, 13-A, 23-A, 30, 35-A.
Duplicating fluids	485	1, 3-A, 30.

[1] Other products or processes may be authorized by the Director under § 212.15 (b).

USES OF SPECIALLY DENATURED ALCOHOL [1]—Continued

Product or process	Code No.	Formulas authorized
Dyes and intermediates	540	1, 2-B, 2-C, 3-A, 12-A, 29, 36.
Dyes and intermediates (processing)	351	1, 2-B, 3-A, 12-A.
Dye solutions, miscellaneous	482	1, 3-A, 23-A, 30, 39-C, 40.
Embalming fluids, etc	420	1, 3-A, 22, 23-A.
Esters, ethyl (miscellaneous)	523	1, 2-B, 2-C, 3-A, 6-B, 12-A, 13-A, 17, 29, 32, 35-A.
Ether, ethyl	561	1, 2-B, 13-A, 29, 32.
Ethers, miscellaneous	562	1, 2-B, 13-A, 29, 32.
Ethyl acetate	521	1, 2-B, 29, 35-A.
Ethylamines (rubber processing)	530	1, 2-B, 2-C, 3-A, 12-A, 29, 36.
Ethyl chloride	522	1, 2-B, 29, 32.
Ethylene dibromide	571	1, 2-B, 29, 32.
Ethylene gas	572	1, 2-B, 29, 32.
Explosives	033	1, 2-B, 3-A.
External pharmaceuticals (not U. S. P. or N. F.)	210	23-A, 23-F, 23-H, 27-A, 27-B, 37, 38-B, 39-B, 40, 40-A.
External pharmaceuticals, miscellaneous (U. S. P. or N. F.)	249	23-A, 25, 25-A, 38-B.
Fluid uses, miscellaneous	750	1, 3-A, 23-A, 30.
Food products, miscellaneous (processing)	332	1, 2-B, 3-A, 13-A, 23-A, 30, 32, 35-A.
Fuel uses, miscellaneous	630	1, 3-A, 28-A.
Fuels, airplane and supplementary	612	1, 3-A, 28-A.
Fuels, automobile and supplementary	611	1, 3-A, 28-A.
Fuels, proprietary heating	620	1, 3-A, 28-A.
Fuels, rocket and jet	613	1, 3-A, 28-A.
Fungicides	410	1, 3-A, 3-B, 23-A, 23-H, 27-B, 30, 37, 38-B, 39-B, 40, 40-A.
Glandular products (processing)	342	1, 2-B, 3-A, 12-A, 13-A, 23-A, 30, 32, 35-A.
Hair and scalp preparations	111	3-B, 23-A, 23-F, 23-H, 37, 38-B, 39, 39-A, 39-B, 39-C, 39-D, 40, 40-A.
Hormones (processing)	342	1, 2-B, 3-A, 12-A, 13-A, 23-A, 30, 32, 35-A.
Incense	470	3-A, 22, 37, 38-B, 39-B, 39-C, 40, 40-A.
Inks	052	1, 3-A, 13-A, 23-A, 30, 32, 33.
Insecticides	410	1, 3-A, 3-B, 23-A, 23-H, 27-B, 30, 37, 38-B, 39-B, 40, 40-A.
Iodine solutions (including U. S. P. and N. F. tinctures).	230	25, 25-A.
Laboratory reagents (for sale)	810	3-A, 30.
Laboratory uses [2]	810	3-A, 30.
Lacquer thinners	042	1, 23-A.
Liniments (U. S. P. or N. F.)	243	27, 27-B, 38-B.
Lotions and creams (body, face, and hand)	113	23-A, 31-A, 37, 38-B, 39-B, 39-C, 40, 40-A.
Medicinal chemicals (processing)	344	1, 2-B, 2-C, 3-A, 12-A, 13-A, 17, 23-A, 30, 35-A.
Miscellaneous chemicals (processing)	358	1, 2-B, 2-C, 3-A, 12-A, 13-A, 17, 23-A, 30, 35-A.
Miscellaneous products (processing)	359	1, 2-B, 2-C, 3-A, 12-A, 13-A, 17, 23-A, 30, 35-A.
Mouth washes	132	37, 38-B, 38-C, 38-D, 39-F.
Pectin (processing)	331	1, 2-B, 3-A, 13-A, 23-A, 30, 35-A.
Perfume materials (processing)	352	1, 2-B, 3-A, 12-A, 13-A, 30.
Perfumes and perfume tinctures	121	38-B, 39, 39-B, 39-C, 40, 40-A.
Petroleum products	320	1, 2-B, 3-A.
Photoengraving dyes and solutions	481	1, 3-A, 13-A, 30, 32.
Photographic chemicals (processing)	353	1, 3-A, 2-B, 13-A, 30.
Photographic film and emulsions	031	1, 2-B, 3-A, 13-A, 19, 30, 32.
Plastics, cellulose	349	1, 2-B, 3-A, 13-A, 23-A, 30, 35-A.
Plastics, noncellulose	021	1, 2-B, 3-A, 12-A, 13-A, 30.
Polishes	022	1, 2-B, 3-A, 12-A, 13-A, 30.
Preserving solutions	051	1, 3-A, 30.
Proprietary solvents (standard formulas)	430	1, 3-A, 12-A, 13-A, 22, 23-A, 30, 32, 37, 38-B, 42, 44.
Refrigerating uses	041	1.
Resin coatings, natural	740	1, 3-A, 23-A, 30.
Resin coatings, synthetic	014	1, 23-A.
Room deodorants	012	1, 23-A.
Rotogravure dyes and solutions	470	3-A, 22, 37, 38-B, 39-B, 39-C, 40, 40-A.
Rubber synthetic	481	1, 3-A, 13-A, 30, 32.
Rubbing alcohol compound	580	29, 32.
Scientific instruments	220	23-H.
Shampoos	710	1, 3-A.
Shellac coatings	141	1, 3-A, 3-B, 23-A, 27-B, 31-A, 38-B, 39-A, 39-B, 40, 40-A.
Soaps, industrial	013	1, 23-A.
Soaps, toilet	440	1, 3-A, 23-A, 30.
Sodium ethylate, anhydrous (restricted)	142	1, 3-A, 3-B, 23-A, 30, 38-B, 39-B, 39-C, 40, 40-A.
Sodium hydrosulfite (dehydration)	524	2-B, 2-C
Soldering flux	312	1, 2-B, 3-A.
Solutions, miscellaneous	035	1, 3-A, 23-A, 30.
Solvents and thinners, miscellaneous	485	1, 3-A, 23-A, 30, 39-B, 40, 40-A.
Solvents, special (restricted sale)	042	1, 23-A.
Stains (wood)	043	1.
Sterilizing solutions	053	1, 3-A, 23-A, 30.
Theater sprays	430	1, 3-A, 12-A, 13-A, 22, 23-A, 30, 32, 37, 38-B, 42, 44.
Tobacco sprays and flavors	470	3-A, 22, 37, 38-B, 39-B, 39-C, 40, 40-A.
Toilet waters	460	4.
Transparent sheetings	122	38-B, 39, 39-A, 39-B, 39-C, 40, 40-A.
Unclassified uses [3]	032	1, 2-B, 3-A, 13-A, 23-A.
Vaccine (processing)	800	1, 3-A.
Vinegar	343	1, 2-B, 3-A, 12-A, 13-A, 23-A, 30, 32, 35-A.
Vitamins (processing)	511	18, 35-A.
Xanthates	342	1, 2-B, 3-A, 12-A, 13-A, 23-A, 30, 32, 35-A.
Yeast (processing)	573	1, 2-B, 2-C, 29.
	342	1, 2-B, 3-A, 12-A, 13-A, 23-A, 30, 32, 35-A.

[1] Other products or processes may be authorized by the Director under § 212.15 (b).
[2] Formula No. 3-A and Formula No. 30 are authorized for general laboratory purposes under Code 810. Other formulas may be authorized for laboratory use in connection with specific product development.
[3] Persons desiring other formulas for this use should indicate the fact in the space provided for this purpose on Form 1479-A.

SUBPART G—DENATURANTS AUTHORIZED FOR DENATURED ALCOHOL

§ 212.110 *Listing of denaturants authorized for denatured alcohol.* Following is an alphabetical listing of denaturants authorized for use in denatured alcohol:

DENATURANTS AUTHORIZED FOR COMPLETELY DENATURED ALCOHOL (C. D.) AND SPECIALLY DENATURED ALCOHOL (S. D.)	
Acetaldehyde	S. D. 29
Acetone N. F.	S. D. 23-A; 23-H
Acetaldol	C. D. 18
Almond oil, bitter N. F.	S. D. 38-B
Ammonia solution, strong U. S. P.	S. D. 36
Anethole U. S. P.	S. D. 39
Anise oil U. S. P.	S. D. 39
Bay oil (myrcia oil) N. F.	S. D. 39; 38-B; 39
Benzaldehyde N. F.	S. D. 39
Benzene	S. D. 2-B; 2-C; 15
Bergamot oil N. F.	S. D. 23-F; 39
Bone oil (Dipple's oil)	S. D. 1
Boric acid U. S. P.	S. D. 39
Brucine alkaloid	S. D. 40
Brucine sulfate N. F. IX	S. D. 40
n-Butyl alcohol	S. D. 44
tert-Butyl alcohol	S. D. 39; 39-A; 39-B; 40; 40-A
Camphor U. S. P.	S. D. 27; 27-A; 39
Cedar leaf oil U. S. P. XIII	S. D. 39
Chloroform	S. D. 39
Chlorothymol N. F.	S. D. 38-B; 39
Cinnamon oil (cassia oil) U. S. P.	S. D. 39
Citronella oil, natural	S. D. 39
Cinchonidine	S. D. 39
Cinchonidine sulfate N. F. IX	S. D. 39
Cinnamic aldehyde (cinnamaldehyde) N. F. IX	S. D. 39
Clove oil U. S. P.	S. D. 27-A; 39
Coal tar U. S. P.	S. D. 39
Diethyl phthalate	S. D. 39-B; 39
Ethyl acetate	S. D. 35; 35
Ethyl ether	S. D. 13-A; 19; 39
Eucalyptol U. S. P.	S. D. 27; 39
Eucalyptus oil N. F.	S. D. 39
Eugenol U. S. P.	S. D. 39
Formaldehyde solution U. S. P.	S. D. 39
Gasoline	38-C; 39
Glycerol U. S. P.	S. D. 39
Guaiacol N. F.	S. D. 31
Iodine U. S. P.	S. D. 25; 39
Kerosene	C. D. 18; 39
Lavender oil U. S. P.	S. D. 27-B; 39
Menthol, U. S. P.	S. D. 39; 38-B; 38-C; 38-D; 39
Mercuric iodide, red N. F.	S. D. 40
Methylene blue N. F.	S. D. 40
Methyl alcohol	S. D. 3-A; 39
Methyl isobutyl ketone	C. D. 18; 19; S. D. 39
Methyl violet (methylrosaniline chloride) U. S. P.	S. D. 39
Mustard oil, volatile (allyl isothiocyanate), U. S. P. XII	S. D. 39
Nicotine solution	S. D. 6
Peppermint oil U. S. P.	S. D. 39
Phenol U. S. P.	S. D. 39-B; 40
Phenyl mercuric benzoate	S. D. 40
Phenyl mercuric chloride N. F. IX	S. D. 40
Phenyl mercuric nitrate N. F.	S. D. 40
Phenyl salicylate (salol) N. F.	S. D. 39
Pine needle oil, dwarf N. F.	S. D. 39
Pine oil, N. F.	S. D. 39
Pine tar, N. F.	S. D. 39
Potassium iodide, U. S. P.	S. D. 25; 25-A; 40
Pyridine bases	S. D. 6
Pyronate	C. D. 18
Quassia, fluid extract of, N. F. VII	S. D. 39
Quinine, N. F.	S. D. 39
Quinine bisulfate N. F.	S. D. 39-A; 39
Quinine hydrochloride U. S. P.	S. D. 39
Quinine sulfate U. S. P.	S. D. 39
Resorcin, U. S. P.	S. D. 39
Rosemary oil, N. F.	S. D. 27; 39
Rubber hydrocarbon solvent	S. D. 2-B; 2-C
Safrol	S. D. 39
Salicylic acid, U. S. P.	S. D. 23-F; 39
Sassafras oil, N. F.	S. D. 39
Shellac (refined)	S. D. 40
Sodium iodide, U. S. P.	S. D. 25; 25-A
Sodium, metallic	S. D. 2-C
Sodium salicylate, U. S. P.	S. D. 39; 39
Soap, hard, N. F.	S. D. 31-A
Soap, medicinal soft, U. S. P.	S. D. 27-B
Spearmint oil, N. F.	S. D. 39
Spearmint oil, terpeneless	S. D. 39
Spike lavender oil, natural	S. D. 39
Storax, U. S. P.	S. D. 39
Sucrose octa-acetate	S. D. 40-A
Thimerosal, N. F.	S. D. 40
Thyme oil, N. F.	S. D. 39
Thymol, N. F.	S. D. 37; 38-B; 39
Tolu balsam, U. S. P.	S. D. 38-B
Turpentine oil, N. F.	S. D. 38-B
Vinegar	S. D. 18
Wintergreen oil (methyl salicylate) U. S. P.	S. D. 38-B; 46
Wood alcohol	S. D. 1

SUBPART H—WEIGHTS AND SPECIFIC GRAVITIES OF SPECIALLY DENATURED ALCOHOL

§ 212.115 *Weights and specific gravities of specially denatured alcohol.* The weight of one gallon of each formula of specially denatured alcohol at 15.56° C. (60° F.) is as listed in this section. The specific gravity of each formula of specially denatured alcohol at 15.56° C./15.56° C. (60° F./60° F.) in vacuum is as listed in this section. (Weight of 1 gallon of water at 15.56° C. (60° F.) is 8.32823 pounds in air and 8.33722 pounds in vacuum).

WEIGHTS AND SPECIFIC GRAVITIES OF SPECIALLY DENATURED ALCOHOL

[Slight deviations from this table may occur due to variations in specific gravities of authorized denaturants. Values for 190° proof determined experimentally by National Bureau of Standards. Other values calculated from these gravities.]

SDA formula No.	Finished formula (gal.)	190° proof		192° proof		200° proof	
		Wt./gal. in air	Sp. gr. in vac.	Wt./gal. in air	Sp. gr. in vac.	Wt./gal. in air	Sp. gr. in vac.

TITLE 32A—NATIONAL DEFENSE, APPENDIX

Chapter I—Office of Defense Mobilization

[Defense Mobilization Order VII-6 Supp. 15]

DMO VII-6—EXPANSION GOALS

TRANSFER OF CERTAIN GOALS FROM OPEN TO CLOSED LIST

1. Defense Mobilization Order VII-6, dated December 3, 1953 (18 F. R. 7876) is supplemented as follows:

The following expansion goals are hereby transferred from List III, Open to List I, Closed:

Goal No.	Title	Delegate agency
20	Chromite, Chemical Grade	Interior.
176	Scientific Instruments	Commerce.
178	Selenium	Interior.
187	Manganese Ore, Battery and Chemical Grades.	Do.
198	Medical Supplies and Equipment.	Commerce.
225	Power Facilities for Military, Atomic Energy and Defense Related Needs.	Interior.

2. This supplement shall be effective on February 28, 1957.

OFFICE OF DEFENSE MOBILIZATION,
ARTHUR S. FLEMMING,
Director.

[Defense Mobilization Order VII-6, Amdt. 1 to Supp. 3]

DMO VII-6, SUPP. 3—EXPANSION GOALS FOR TAX AMORTIZATION

OIL AND GAS PIPELINES AND PETROLEUM STORAGE FACILITIES

1. Expansion Goal No. 226, dated September 29, 1955 (20 F. R. 7370) is hereby amended to read as follows:

Expansion Goal No. 226, Oil and Gas Pipelines and Petroleum Storage Facilities (Specific Defense Programs) is hereby established for the following purposes:

a. Oil and gas pipelines used solely to supply military installations or AEC projects.

b. Petroleum storage facilities erected solely for military use;

c. Petroleum pipelines and/or petroleum storage facilities which are strategically located and needed to fill a special wartime requirement approved by the Office of Defense Mobilization.

2. This amendment shall take effect immediately.

Dated: February 28, 1957.

OFFICE OF DEFENSE MOBILIZATION,
ARTHUR S. FLEMMING,
Director.

CLOTH PIN CUSHIONS DECORATED WITH PARTS OF ARTIFICIAL FLOWERS

NOTICE OF PROSPECTIVE CLASSIFICATION

FEBRUARY 27, 1957.

It appears that certain cloth pin cushions decorated with parts of artifical flowers are properly classifiable according to component material of chief value, for example, if in chief value of cotton plush, under paragraph 909, Tariff Act of 1930, as modified, at the rate of 25 percent ad valorem, if in chief value of wool pile fabric under paragraph 1110, as modified, at the rate of 33 cents per pound and 25 percent ad valorem, if in chief value of rayon pile fabric, other than rayon pile ribbon, under paragraph 1307, as modified, at the rate of 15 cents per pound and 25 percent ad valorem, and so forth.

Pursuant to § 16.10a (d) of the Customs Regulations (19 CFR 16.10a (d)), notice is hereby given that the existing practice of classifying cloth pin cushions decorated with parts of artificial flowers under paragraph 1529 (a), as modified, as articles in chief value of yarns, threads, or filaments and in part of ornaments, dutiable at the rate of 45 percent ad valorem, is under review in the Bureau of Customs.

Consideration will be given to any relevant data, views, or arguments pertaining to the correct classification of this merchandise which are submitted to the Bureau of Customs, Washington, D. C., in writing. To assure consideration, such communications must be received in the Bureau not later than 30 days from the date of publication of this notice. No hearings will be held.

[SEAL] C. A. EMERICK,
Acting Commissioner of Customs.

[F. R. Doc. 57-1637; Filed, Mar. 4, 1957; 8:49 a. m.]

[TC 433.7]

BICYCLES, COMPLETE WITHOUT ACCESSORIES, AND ACCOMPANYING ARTICLES

TARIFF CLASSIFICATION

FEBRUARY 28, 1957.

On April 26, 1956, there was published in the FEDERAL REGISTER (81 F. R. 2695) an announcement that a correct interpretation of paragraph 371, Tariff Act of 1930, as modified, required certain modifications in the established and uniform practice.

After a thorough consideration of all submissions received as a result of that announcement, including oral representations, the Bureau by a letter addressed to the collector of customs at New York, New York, has ruled that a bicycle "complete without accessories" within the meaning of paragraph 371, as modified, consists of not more than the following:

The mud guards and chain guards.
The frame and fork.
The handle bar and handle bar grips.
The sprocket, chain, cranks and pedals.
The front and rear wheels, including the rims, hubs, axles, and spokes.
The tires and tubes.
The brakes, hand or foot.
Dynamo mechanisms incorporated in hubs.
An assembly consisting of a dynamo mechanism incorporated in the wheel hub, and the related lamp, brackets, and wiring.
Gear shift mechanisms.
The saddle or seat and seat post.
All fittings, bearings, nuts, bolts, washers, and other articles essential to the assembly of the foregoing.

The following articles whether attached at the time of importation or imported in the same shipment for subsequent attachment in the assembly of the bicycle, are comprised within the bicycle entirety, although they are not included in determining the weight of the bicycle "complete without accessories." Such articles are classifiable as a component of the imported bicycle entirety and are subject to the rate applicable to the bicycles "complete without accessories" with which they are imported attached or unattached, provided the articles are to be sold at retail as a component of the bicycle entirety and are not to be sold or distributed separately:

Lamps and lighting sets (other than lamps and lighting sets forming a part of an assembly including a dynamo mechanism incorporated in the wheel hub referred to above) and reflectors.
Bells and horns.
Tool kits and the included tools.
Pumps.
Luggage carriers.
Mirrors, cyclometers and speedometers.
Kickstands or other stands.
Tanks.
Mud flaps.
Toe clips.

In any case in which this ruling will result in the assessment of a higher rate of duty than has been heretofore assessed under an established and uniform practice, it shall only be applied to such or similar merchandise entered, or withdrawn from warehouse, for consumption after 90 days after the date of publication of an abstract of this decision in the weekly Treasury Decisions.

[SEAL] C. A. EMERICK,
Acting Commissioner of Customs.

MINNESOTA

NOTICE OF FILING OF PLATS OF SURVEY AND ORDER PROVIDING FOR OPENING OF PUBLIC LAND

FEBRUARY 27, 1957.

Plats of survey of islands in Island Lake and Johnson Lake, described below, accepted January 26, 1956, will be officially filed in the Eastern States Land Office, Washington 25, D. C., effective at 10:00 a. m., on April 15, 1957:

FOURTH PRINCIPAL MERIDIAN, MINNESOTA

T. 49 N., R. 22 W.,
Sec. 18, Lot 8, containing 0.34 acres.
T. 68 N., R. 18 W.,
Sec. 26, Lot 6, containing 0.29 acres;
Sec. 35, Lot 7, containing 8.69 acres;
Sec. 35, Lot 8, containing 3.41 acres.

These surveys were made as an administrative measure to provide legal designation and area for islands omitted in the original surveys.

All of T. 68 N., R. 18 W., was withdrawn by the Act of July 10, 1930, Public Law 539, for protection of lands and water.

No application for the land may be allowed under the homestead or small tract or any other nonmineral public land laws unless the land has been classified as valuable or suitable for each type of application or shall be so classified upon consideration of an application.

At the hour specified on the above-mentioned effective date, the land shall become subject to application, petition, location or selection, under applicable laws, subject to valid existing rights, the provisions of existing withdrawals and the 91 day preference right filing period for veterans and others entitled to preference under the act of September 27, 1944 (53 Stat. 717; 43 U. S. C. 279–284), as amended.

All inquiries relating to the land should be addressed to the Acting Manager, Eastern States Land Office, Bureau of Land Management, Department of the Interior, Washington 25, D. C.

H. K. SCHOLL,
Acting Manager.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

FARMER & RANCHER COMMISSION CO. ET AL.

PROPOSED POSTING OF STOCKYARDS

The Director of the Livestock Division, Agricultural Marketing Service, United States Department of Agriculture, has information that the livestock markets named below are stockyards as defined in section 302 of the Packers and Stockyards Act, 1921, as amended (7 U. S. C. 202), and should be made subject to the provisions of the act.

Farmer & Rancher Commission Co., Fort Collins, Colo.
Fort Collins Sales Yard, Fort Collins, Colo.
Anamosa Livestock Auction, Anamosa, Iowa.
Belle Plaine Sales Barn, Belle Plaine, Iowa.
Central City Sales Co., Central City, Iowa.
Colfax Sales Co., Colfax, Iowa.
Lake City Sales Pavilion, Lake City, Iowa.
Bastrop Livestock Auction, Bastrop, La.
Clark Livestock Commission Co., Benton, La.
Red River Livestock Auction, Inc., Coushatta, La.
Farmer and Stockman Auction, Inc., Clarence, La.
Delhi Livestock Auction, Delhi, La.
Grand Cane Livestock Commission Co., Grand Cane, La.
Homer Livestock Auction, Homer, La.
Calhoun Livestock Commission Market, Mansfield, La.
West Monroe Livestock Auction, Inc., West Monroe, La.
Austin Stockyards Corp., Austin, Tex.
Capital Livestock Auction Co., Austin, Tex.
The Heart of Texas Commission Co., Brady, Tex.
Grabow's Livestock Commission Co., Brenham, Tex.
Columbus Livestock Commission Co., Columbus, Tex.
Flatonia Livestock Commission Co., Flatonia, Tex.
Lexington Livestock Commission, Lexington, Tex.
Lockhart Livestock Auction Co. Lockhart, Tex.
Mason Auction Company, Inc., Mason, Tex.
Menard County Commission Co., Menard, Tex.
Producers Livestock Auction Co., San Angelo, Tex.
San Angelo Livestock Auction Co., San Angelo, Tex.
Farmers Livestock Exchange, Schulenburg, Tex.

Notice is hereby given, therefore, that the said Director, pursuant to authority delegated under the Packers and Stockyards Act, 1921, as amended (7 U. S. C. 181 et seq.), proposes to issue a rule designating the stockyards named above as posted stockyards subject to the provisions of the act, as provided in section 302 thereof.

Any person who wishes to submit written data, views, or arguments concerning the proposed rule may do so by filing them with the Director, Livestock Division, Agricultural Marketing Service, United States Department of Agriculture, Washington 25, D. C., within 15 days after publication hereof in the FEDERAL REGISTER.

Done at Washington, D. C., this 27th day of February, 1957.

[SEAL] DAVID M. PETTUS,
Acting Director, Livestock Division, Agricultural Marketing Service.

DEPARTMENT OF COMMERCE

Bureau of Foreign Commerce

[Case 224]

K. BURGI-TOBLER & CO. ET AL.

ORDER DENYING EXPORT PRIVILEGES

In the matter of a compliance proceeding against K. Burgi-Tobler & Co., Karl Burgi-Tobler, Anna Burgi-Tobler, 69 Stampfenbachstrasse, Zurich, Switzerland; Baird Chemical Corporation, 254 W. 31st Street, New York 1, New York; respondents; Case No. 224.

The respondents, K. Burgi-Tobler & Co. and its owners, Karl Burgi-Tobler and Anna Burgi-Tobler (hereafter Burgi-Tobler), and Baird Chemical Corporation (hereafter Baird) being charged by the Director of the Investigation Staff, Bureau of Foreign Commerce, with violations of the Export Control Act of 1949, as amended, and the regulations promulgated thereunder, duly appeared in this proceeding and were represented by counsel and, after admitting the facts as set forth in the charging letters, submitted proposals that a consent order be entered against them as hereinafter set forth; and the Agent-in-Charge, Investigation Staff, having agreed to the same; and upon my having duly considered the evidence in support of the charges and all evidence and data submitted by the respondents in mitigation thereof, and the consent proposals, I hereby make the following findings of fact and, based thereon, the following conclusions of law, with respect to:

A. BURGI-TOBLER

FINDINGS OF FACT

1. At all times hereinafter mentioned, Burgi-Tobler was and still is, engaged in the import and export business in Zurich, Switzerland, and participated in the transactions set forth hereinbelow.

2. Burgi-Tobler purchased from another Swiss company 270 drums (93 metric tons) of caustic soda. Burgi-Tobler then knew that this commodity which it had purchased was being exported from the United States on a bill of lading, dated January 24, 1952, and further knew from said bill of lading that the caustic soda had been licensed by the United States for a West German firm as the ultimate consignee and for ultimate destination West Germany, and that its diversion from West Germany was contrary to United States law. Nevertheless, Burgi-Tobler then knowingly authorized, arranged and effected the transshipment and diversion in February 1952 of said caustic soda from Rotterdam to East Germany, a Soviet bloc destination, without the required knowledge and authorization of the United States Government.[1]

3. Burgi-Tobler received three letters by registered mail from three separate United States export companies, which letters were dated in July 1952, September 1952, and January 1953. These letters, which were sent at the instance of the Bureau of Foreign Commerce, specifically informed Burgi-Tobler that the United States Export Regulations prohibited any foreign party from reexporting, diverting, or transshipping any United States commodities to Soviet bloc destinations, Hong Kong, or Macao, whether they were exported from the United States pursuant to specific validated license or under general license, unless and until specific prior approval was obtained from the Bureau of Foreign Commerce.

4. Notwithstanding the aforesaid specific notification contained in the July 1952 letter, and the specific destination control notice contained on the United States ocean bill of lading that the commodity was licensed by the United States for ultimate destination Switzerland and that its diversion contrary to United States law was prohibited, Burgi-Tobler, without United States knowledge and authorization, knowingly effected the transshipment to a Soviet bloc destination of 250 kilos of pentobarbital sodium priced at $5,125 which was exported to it under general license GRO from the United States in August 1952.

5. In April 1953, Burgi-Tobler submitted to a United States exporter an order to purchase 10 kilograms of bacto-agar, together with a Swiss Government import certificate which certified that Burgi-Tobler had pledged itself to import the commodity into the Swiss customs territory and that any reexportation of the commodity from Switzerland was prohibited. Based thereon, the Bureau of Foreign Commerce issued a validated license authorizing the exportation from the United States of this commodity to Burgi-Tobler as the ultimate consignee, with Switzerland as the country of ultimate destination. This commodity, together with another general license commodity, was exported from the United States in June 1953 under a bill of lading which notified Burgi-Tobler that these commodities were licensed by the United States for ultimate destination Switzerland and that their diversion contrary to United States law was prohibited. Upon the arrival of such commodities at a European port, Burgi-Tobler, without the required notice to and authorization of the United States (and the Swiss Government as to the bacto-agar), knowingly effected their transshipment to a Soviet bloc destination.

6. Notwithstanding its knowledge of the United States Export Regulations referred to in Finding 3 hereinabove, Burgi-Tobler also effected the unlawful transshipment to a Soviet bloc destination of 25 kilograms of calcium fluoride crystals, valued at $9,000, exported under general license GRO from the United States to Burgi-Tobler in October 1953 and January 1954.

7. Notwithstanding the aforesaid notifications concerning the United States Export Regulations referred to in Finding 3 hereinabove, and an additional notification which Burgi-Tobler received in November 1954 from another United

[1] See Order Denying Export Privileges issued against the West German firm, (21 F. R. 5944) August 8, 1956.

States Exporter that a specific United States export license was required before paraffin wax could be lawfully exported from the United States to Poland and Communist China, Burgi-Tobler knowingly and without said authorization effected the unlawful transshipment from Rotterdam to a Soviet bloc destination, Poland, for ultimate shipment to Communist China, of two shipments of paraffin wax, totaling 150 tons, and priced at $37,300, which were exported to it from the United States under general license GRO in December 1954 and January 1955.

8. Burgi-Tobler purchased the 150 metric tons of paraffin wax and an additional 225 tons from respondent Baird. Burgi-Tobler at all times intended to transship the 225 tons of paraffin wax, similar to the prior two shipments, upon their arrival at Rotterdam to a Soviet bloc destination, to fill Burgi-Tobler's contract of sale with its Communist Chinese purchaser.

9. The 225 tons of paraffin wax were loaded on board a vessel which left San Francisco on February 3, 1955. Before the arrival of the vessel in New York City en route to Rotterdam, the Bureau of Foreign Commerce ascertained that the commodity was destined for the unauthorized Soviet bloc destination. In lieu of ordering the unloading of the paraffin wax at New York because of hardship to the carrier, the Bureau of Foreign Commerce, under § 379.11 of the Export Regulations (15 CFR 379.11), ordered the carrier to return said commodity to the United States from Rotterdam, and, upon its return to the United States, the paraffin wax was duly seized by the Collector of Customs and a libel of information was filed in the Eastern District of New York. Burgi-Tobler appeared as the owner-claimant of the paraffin wax in the seizure action. As part of the overall consent proposal made by Burgi-Tobler in this case, the seizure action was settled with Burgi-Tobler's receiving $15,000 out of the proceeds held by the court from the sale by the United States of the paraffin wax. Since Burgi-Tobler had paid its United States supplier, Baird, $56,250 for the 225 tons of paraffin was C&F Rotterdam, Burgi-Tobler suffered a loss of $41,250 with respect to this United States seizure of the shipment of paraffin wax, not including legal fees paid to its attorneys in the United States in connection with said court action.

10. On February 21, 1955, the Bureau of Foreign Commerce issued an Order temporarily denying to Burgi-Tobler, and to all parties related to it, all privileges of participating, directly or indirectly, in any manner, form or capacity, in an exportation of any commodity from the United States to any foreign destination. The Order, effective that date, was to remain in effect until the termination of administrative compliance proceedings then being prepared by the Bureau of Foreign Commerce against Burgi-Tobler. The order specifically denied to Burgi-Tobler among other privileges those of receiving, ordering, buying and selling, United States commodities, as well as their financing and transporting. A copy of the Denial Order was duly delivered to Burgi-Tobler in Switzerland on or about March 7, 1955, and was published in 20 F. R. p. 1188, February 25, 1955.

11. In January 1955, Burgi-Tobler had entered into negotiations with a United States exporter for the sale to Burgi-Tobler of specific culture media. Nevertheless, despite its knowledge of the Denial Order, Burgi-Tobler, on March 21, 1955, placed an order with the United States exporter for the culture media. Burgi-Tobler, at the same time, requested the exporter to consign the goods to a forwarding agent in Antwerp, Belgium, and to send to Burgi-Tobler the original bills of lading, but to invoice another specifically named Swiss company for sale of the goods.

12. The United States exporter then received a letter, dated April 7, 1955, purportedly from the other Swiss company, ordering the same culture media, upon the same terms and conditions as contained in the prior Burgi-Tobler order, with the exception that the original bills of lading were to be transmitted to this other Swiss company. The exporter also later received a letter, dated May 25, 1955, purportedly from this other Swiss company, requesting prompt delivery of the goods.

13. In fact, the two letters of April 7 and May 25, 1955, were prepared and signed with fictitious names by Burgi-Tobler, without the alleged knowledge or consent of the other Swiss firm, on stationery of the other Swiss firm entrusted by it to Burgi-Tobler for other purposes. Burgi-Tobler, knowing that it had been denied United States export privileges, admittedly used the name and stationery of the other Swiss firm in an attempt to obtain the culture media in circumvention of the aforesaid Denial Order of the Bureau of Foreign Commerce.

14. The culture media were exported from the United States under general license GRO on June 2, 1955, under export control documents which did not disclose the name of Burgi-Tobler. The Bureau of Foreign Commerce, acting on information that the goods, unless stopped, would reach Burgi-Tobler in violation of the Denial Order, ordered the export carrier to return them to the United States pursuant to § 379.11 of the Export Regulations (15 CFR 379.11), and, upon their arrival in New York, the goods, for which Burgi-Tobler had paid over $1800, were duly seized by the Collector of Customs.[2]

CONCLUSIONS

1. Burgi-Tobler knowingly concealed material facts, and caused false statements to be made on export control documents, in violation of the Export Regulations then in effect.

2. Burgi-Tobler knowingly disposed of, diverted, transshipped and reexported United States commodities to unauthorized Soviet bloc destinations, and caused and attempted to do such acts, without the required authorization, contrary to the terms of expert control documents and contrary to notifications of prohibitions against such actions, in violation of the Export Regulations then in effect.

3. Burgi-Tobler bought and sold commodities exported from the United States, knowing that with respect thereto, violations of the United States Export Control Law were about to occur, were intended to occur, in violation of the Export Regulations then in effect.

4. Burgi-Tobler knowingly participated, directly and indirectly, in an exportation of commodities from the United States, including the obtaining and using of export control documents and the ordering, buying, financing, and transporting of such commodities, in violation of the Order Temporarily Denying Export Privileges to Burgi-Tobler, dated February 21, 1955, duly issued by the Bureau of Foreign Commerce pursuant to Part 382 of the Export Regulations.

5. Burgi-Tobler knowingly caused, procured and permitted the doing of acts prohibited by the said Order Temporarily Denying Export Privileges, and bought, transported, and financed an exportation from the United States knowing that with respect to such exportation, violations of the said Order Temporarily Denying Export Privileges had occurred and were about to and were intended to occur, and knowingly acted in an attempt to bring about violations of said order, to wit, the receipt, sale, use, and disposal in a foreign country of commodities exported from the United States, in violation of the Export Regulations then in effect.

In addition, I hereby make the following findings of fact and, based thereon, the following conclusions of law, with respect to:

B. BAIRD

FINDINGS OF FACT

1. Baird Chemical Corporation is, and was at the time of these occurrences, an experienced exporter of commodities from the United States, and was familiar with the Bureau of Foreign Commerce Export Regulations.

2. Baird, which was at the time engaged in other export transactions with Burgi-Tobler, received a letter from Burgi-Tobler, dated November 16, 1954, written in German, which referred to another commodity, paraffin wax. In the letter, Burgi-Tobler advised Baird that it had discussed with a Baird representative then in Europe a transaction involving paraffin wax and that Burgi-Tobler was then holding an offer for the sale of such commodity from another named New York exporter. After telling Baird that its representative believed that Baird would not be in a position to submit a more favorably priced quotation, Burgi-Tobler stated in its letter (translated from the German):

> For some time since then, we have corresponded and cabled with the named firm relative to this transaction, and after we have now been enabled to book a firm order from our customer for 150 tons, the firm [other named New York exporter] demands now, all of a sudden, statements regarding the country of ultimate destination, although in the beginning nothing was said about this in the offers of the named firm. On the contrary, it was declared to us that the merchandise would be supplied without export license.
>
> We are not in a position nor willing to make known the final destination and would, therefore, suggest to you that this transaction be consummated by you.

3. Burgi-Tobler did not inform Baird that the other named United States exporter had asked Burgi-Tobler for the country of ultimate destination of the paraffin wax, that Burgi-Tobler had replied that it was Poland, and that Burgi-Tobler had ceased its negotiations with the other exporter when the latter notified Burgi-Tobler that such export for Poland required a validated United States export license, as well as a representation from Burgi-Tobler that the goods were not for Communist China.

4. Upon its receipt of Burgi-Tobler's letter of November 16, 1954, Baird commenced negotiations with Burgi-Tobler concerning the export sale of paraffin wax, without therein at any time asking Burgi-Tobler any questions concerning the destination of the commodity or making to Burgi-Tobler any references concerning United States export licenses or the restrictions upon onshipment contained in the United States Export Regulations. Baird also did not communicate with the other identified United States exporter.

5. These negotiations culminated in Baird's sale and shipment of 150 tons of paraffin wax to Burgi-Tobler, which, upon arrival at a European port, were reshipped by Burgi-Tobler to a Soviet bloc destination for its Communist Chinese customer. Baird also sold to Burgi-Tobler an additional 225 tons of paraffin wax, which shipment, while en route, was stopped and seized by the United States Government.

6. In effecting each of these shipments of paraffin wax, Baird caused to be prepared, and to be authenticated by the Collector of Customs, shipper's export declarations in which Baird, without having any reasonable basis for such belief, represented and certified that the country of ultimate destination was Switzerland, and that such shipments were exportable under general license GRO.

7. Baird's failure, in light of the statements contained in Burgi-Tobler's letter of November 16, 1954, to inquire further of Burgi-Tobler as to the ultimate destination of the paraffin wax in order to ascertain whether such destination was one which required a validated export license, and to prepare properly its shipper's export declarations, was such negligence as to constitute a knowing disregard of the Export Regulations.

CONCLUSIONS

1. Baird knowingly made false and misleading representations and certifications in shipper's export, declarations, which are export control documents, in violation of § 381.5 of the Export Regulations (15 CFR 381.5).

2. Baird knowingly caused and permitted the diversion and transshipment of commodities to unauthorized destinations contrary to the Export Control Law and the regulations issued thereunder, in violation of §§ 381.2 and 381.6 of the Export Regulations (15 CFR 381.2 and 381.6).

In considering the reasonableness of the consent order proposed for Burgi-Tobler, I have taken into consideration, among other things, the fact that it already has been denied by a prior temporary Order all United States export privileges since February 21, 1955, to date, that Burgi-Tobler suffered a considerable financial loss as a result of the United States seizure of the paraffin wax shipment, and certain other mitigating circumstances presented on behalf of Burgi-Tobbler, and I have thereupon decided to accept such consent proposal. The Order issued this day supersedes the temporary suspension Order of February 21, 1955.

I have also accepted the consent proposal applicable to Baird. In so doing, I have considered as mitigation of the violation, among other factors, that Baird's failure to act in this instance was the result of its negligent attention to information in its possession rather than wilful conduct; that this is a case of first impression in which a United States exporter has been held for having failed to question its foreign customer, located in a country to which general license shipments could be made directly, as to the country of ultimate destination, when transshipment, reexportation or diversion from the customer's country was indicated to the exporter; and that Baird has had the practice of making such inquiries of its customers since February 1955 when such requirement was specifically brought to its attention.

Accordingly, being of the opinion that the proposed orders are fair and necessary to achieve effective enforcement of the law: *It is hereby ordered:*

I. The respondents, for the following periods of time, are hereby denied all privileges of participating, directly or indirectly, in any manner or capacity, in an exportation of any commodity or technical data from the United States to any foreign destination, including Canada, whether such exportation has heretofore or hereafter been completed:

K. Burgi-Tobler & Co., Karl Burgi-Tobler, Anna Burgi-Tobler—henceforth and for a period of thirty-two months or for the duration of export controls, whichever occurs sooner, except as qualified in Part III hereof;

Baird Chemical Corporation—for three months, not to be effective except as provided in Part IV hereof.

Without limitation of the generality of the foregoing denial of export privileges, participation in an exportation is deemed to include and prohibit participation by any of the respondents, directly or indirectly, in any manner or capacity, (a) as a party or as a representative of a party to any validated export license application, (b) in the preparation or filing any export license application or document to be submitted therewith, (c) in the obtaining or using of any validated or general export license or other export control documents, (d) in the receiving, ordering, buying, selling, delivering, using, or disposing in any foreign country of any commodities in whole or in part exported or to be exported from the United States, and (e) in financing, forwarding, transporting, or other servicing of such exports from the United States.

II. Such denials of export privileges shall extend not only to the respondents and to each of them, but also to any person, firm, corporation, or business organization with which they or any of them may be now or hereafter related by ownership, control, position of responsibility, or other connection in the conduct of trade in which may be involved exports from the United States or services connected therewith.

III. The respondents K. Burgi-Tobler & Co., Karl Burgi-Tobler, and Anna Burgi-Tobler, without further order of the Bureau of Foreign Commerce, shall, if export controls are still in effect, have their export privileges restored to them thirty-two (32) months from the date of this order, provided and upon condition that said respondents and related persons and companies have not knowingly during said thirty-two month period violated the terms of this order or the Export Control laws or the regulations or orders issued thereunder.

In the event that the said Burgi-Tobler respondents, or any one of them; or any person or company related to them shall knowingly violate the terms and provisions of this order or the Export Control laws, regulations or orders during the first thirty-two month period, or shall knowingly violate the Export Control laws, regulations or orders thereafter so long as export controls shall be in effect, the Director, Office of Export Supply, or such other official as may at that time be exercising his duties, may, summarily and without prior notice, at such time as he shall determine that such violation has occurred, issue a supplemental order denying for the duration of export controls all export privileges to any such guilty respondent and to the persons and companies related to it, and revoke and cancel all validated export licenses then outstanding to which such person or firm may be a party, without thereby limiting the Bureau of Foreign Commerce from taking such other and further action based on such violation as it shall deem warranted. In the event that such supplemental order is issued, the respondents and related parties shall have the right to hearing and appeal therefrom, as provided in the Export Regulations.

IV. By reason of mitigating circumstances, the denial of export privileges to Baird Chemical Corporation, as set forth in Part I hereof, shall not take effect and shall be suspended entirely for a period of six months from the date hereof, upon condition that, during the said six month period Baird and any related persons and companies have not knowingly violated the Export Control laws, or the regulations or orders issued thereunder. In the event of such violation, the Director, Office of Export Supply, may summarily and without prior notice, at such time as he shall determine that such violation has occurred, issue a supplemental order which may deny to

[2] See Export Denial Order issued against the United States exporter for its participation in this transaction (21 F. R. 6305) August 22, 1956.

said respondent and related persons and companies all export privileges for the three month period which has been held in abeyance, and revoke all validated export licenses to which said respondent and related persons and companies may be a party, without thereby limiting the Bureau of Foreign Commerce from taking such other and further action based on such violation as it shall deem warranted. In the event that such supplemental order is issued, the respondent and related parties shall have the right to hearing and appeal therefrom, as provided in the Export Regulations.

V. No person, firm, corporation, or other business organization, whether in the United States or elsewhere, during any time when any respondent or related party is prohibited under the terms hereof from engaging in any activity within the scope of Part I hereof, shall, without prior disclosure to, and specific authorization from, the Bureau of Foreign Commerce, directly or indirectly, in any manner or capacity, (a) apply for, obtain or use any export license, shipper's export declaration, bill of lading, or other export control document relating to any such prohibited activity, (b) order, receive, buy, sell, deliver, use, dispose of, finance, transport, forward, or otherwise service or participate in, any exportation from the United States, on behalf of or in any association with such respondent or related party, or (c) do any of the foregoing acts with respect to any exportation in which such respondent or related party may have any interest or obtain any benefit of any kind or nature, direct or indirect.

Dated: March 1, 1957.

JOHN C. BORTON,
Director,
Office of Export Supply.

WALLACE E. CARROLL

REPORT OF APPOINTMENT AND STATEMENT OF FINANCIAL INTERESTS

Report of appointment and statement of financial interests required by section 710 (b) (6) of the Defense Production Act of 1950, as amended.

Report of Appointment

1. Name of appointee: Mr. Wallace E. Carroll.
2. Employing agency: Department of Commerce, Business and Defense Services Administration.
3. Date of appointment: February 18, 1957.
4. Title of position: Consultant.
5. Name of private employer: American Gage & Machine Company, Chicago, Illinois.

CARLTON HAYWARD,
Director of Personnel.

FEBRUARY 26, 1957.

Statement of Financial Interests

6. Names of any corporations of which the appointee is an officer or director or within 60 days preceding appointment has been an officer or director, or in which the appointee owns or within 60 days preceding appointment has owned any stocks, bonds, or other financial interests; any partnerships in which the appointee is, or within 60 days preceding appointment was, a partner; and any other businesses in which the appointee owns, or within 60 days preceding appointment has owned, any similar interest.

American Gage and Machine Co.
Alpha-Moly Corp.
G. M. Diehl Machine Co.
Affiliated Screw Products.
Bank deposits.

Dated: February 25, 1957.

[Docket No. G-8921 etc.]

ARKANSAS FUEL OIL CORP. ET AL.

NOTICE SEVERING, CONSOLIDATING PROCEEDINGS FOR PURPOSE OF HEARING, AND FIXING DATE OF HEARING

FEBRUARY 26, 1957.

In the matters of Arkansas Fuel Oil Corporation, Docket Nos. G-8921, G-9386, G-9571, G-9800, G-10036, G-11289, and G-11290; Arkansas Fuel Oil Corporation (Operator), Docket Nos. G-11311 and G-11327; R. H. Goodrich, Docket Nos. G-8977 and G-9575; W. H. Cocke, Docket Nos. G-8978 and G-9570; C. N. Johnston, et al., Docket Nos. G-9136 and G-9569; John W. Mecom (doing business as Mecom Petroleums), Docket No. G-10357.

The Commission issued orders in the below-designated dockets suspending proposed changes in rates pertaining to sales of natural gas in interstate commerce to United Gas Pipe Line Company, as follows:

Seller; Docket No.; and Order Suspending Rates Issued

Arkansas Fuel Oil Corporation; G-8921; May 18, 1955.
Arkansas Fuel Oil Corporation; G-9571; October 28, 1955.
Humble Oil & Refining Company; G-8925; May 19, 1955.
Humble Oil & Refining Company; G-9574; October 28, 1955.
The Texas Company; G-8969; May 27, 1955.
The Texas Company; G-9576; October 28, 1955.
R. H. Goodrich; G-8977; June 1, 1955.
R. H. Goodrich; G-9575; October 28, 1955.
W. H. Cocke; G-8978; June 1, 1955.
W. H. Cocke; G-9570; October 28, 1955.
Hunt Oil Company; G-9065; June 23, 1955.
Hunt Oil Company, G-9568; October 28, 1955.
C. N. Johnston, et al.; G-9136; July 15, 1955.
C. N. Johnston, et al.; G-9569; October 28, 1955.

By order issued March 2, 1956, the Commission consolidated, fixed date of hearing and specified procedure in the above-docketed suspension proceedings. By Notice of the Secretary, dated March 7, 1956, the hearing scheduled in the March 2, 1956 order was postponed to a date to be fixed by further notice.

The Commission also issued orders in the below-designated dockets suspending certain rates for sales of natural gas in interstate commerce, as follows:

Seller; Docket No.; and Order Suspending Rates Issued

Arkansas Fuel Oil Corporation; G-9386; September 23, 1955.
Arkansas Fuel Oil Corporation; G-9800; December 23, 1955.
Arkansas Fuel Oil Corporation; G-10036; March 5, 1956.
Arkansas Fuel Oil Corporation; G-11289; October 26, 1956.
Arkansas Fuel Oil Corporation; G-11290; October 26, 1956.
Arkansas Fuel Oil Corporation (Operator); G-11311; October 30, 1956.
Arkansas Fuel Oil Corporation (Operator); G-11327; October 30, 1956.
John W. Mecom (d/b/a Mecom Petroleums); G-10357; May 9, 1956.

It is appropriate and in the public interest that the proceedings in Docket Nos. G-8925, G-9574, G-8969, G-9576, G-9065, and G-9568, which have heretofore been consolidated with the proceedings in Docket Nos. G-8921, G-9571, G-8977, G-9575, G-8978, G-9570, G-9136, and G-9569 by the Commission's March 2, 1956 order, be severed from the other proceedings consolidated by that order.

It is also appropriate and in the public interest that the proceedings in Docket Nos. G-9386, G-9800, G-10036, G-11289, G-11290, G-11311, G-11327, and G-10357, be consolidated for purposes of hearing with Docket Nos. G-8921, G-9571, G-8977, G-9575, G-8978, G-9570, G-9136, and G-9569.

Take notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by the Natural Gas Act, particularly sections 4 and 15, and the Commission's rules of practice and procedure, a hearing be held commencing on April 1, 1957, at 10:00 a. m., e. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington 25, D. C., concerning the matters involved, and the issues presented in the above-captioned consolidated proceedings.

Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.37 (f)).

[SEAL] JOSEPH H. GUTRIDE,
Secretary.

[F. R. Doc. 57-1621; Filed, Mar. 4, 1957; 8:46 a. m.]

[Docket No. G-10332]

SINCLAIR OIL & GAS CO.

NOTICE OF APPLICATION AND DATE OF HEARING

FEBRUARY 27, 1957.

Take notice that Sinclair Oil & Gas Company (Applicant) a Maine corporation with its principal place of business at Tulsa, Oklahoma, filed on May 1, 1956, an application for permission and approval to abandon service, pursuant to section 7 (b) of the Natural Gas Act, as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in the Application on file with the Commission and open to public inspection.

Applicant seeks to abandon the sale of natural gas in interstate commerce to Cities Service Gas Company (Cities Service) for resale from its Gas Products Plant No. 2, Drumright Field, Creek County, Oklahoma. Such sale was authorized covering the Gas Products Plant No. 2 in Docket No. G-8802 by the Commission's order issued October 26, 1956, in Docket No. G-5524, et al.

Applicant states that at the time the basic contract dated March 9, 1955 was entered into, it was contemplated [illegible] Applicant would have [illegible] amounts of residue gas available for [illegible] to Cities Service, but that because of [illegible] contract reservations of gas to meet [illegible] other commitments, only nominal [illegible] tities have been available to Cities Service (an aggregate on only 77 Mcf [illegible] livered during the month of Sept[illegible] 1955 through January 1956). Moreover, it does not appear that substantially larger amounts will be available to Cities Service in the near future.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on April 1, 1957, at 9:30 a. m., e. s. t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such applications: *Provided, however,* That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of § 1.30 (c) (1) or (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before March 21, 1957. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

[SEAL] JOSEPH H. GUTRIDE,
Secretary.

[Docket No. E-6731]

CALIFORNIA ELECTRIC POWER CO.

NOTICE OF APPLICATION

FEBRUARY 27, 1957.

Take notice that on February 21, [illegible] an application was filed with the Federal Power Commission pursuant to section 204 of the Federal Power Act by California Electric Power Company ("Applicant"), a corporation organized under the laws of the State of Delaware and doing business in the States of California and Nevada, with its principal business office at Riverside, California, seeking an order authorizing the issuance and sale by competitive bidding of 300,000 shares of Common Stock, par value $1.00 per share, and $[illegible] principal amount of First Mortgage Bonds, ------ percent Series due [illegible] The proposed bonds will mature on April 1, 1987. Applicant proposes to use the proceeds from the issue and sale of stock and bonds to discharge its obligations and to apply the balance of the proceeds toward the acquisition of property and the construction of facilities.

Any person desiring to be heard or to make any protest with reference to said application should on or before the 18th day of March 1957, file with the Federal Power Commission, Washington 25, D. C., a petition or protest in accordance with the Commission's rules of practice and procedure. The application is on file and available for public inspection.

[SEAL] JOSEPH H. GUTRIDE,
Secretary.

[Docket No. G-8969 etc.]

TEXAS CO. ET AL.

NOTICE OF CONSOLIDATION OF PROCEEDINGS AND DATE OF HEARING

FEBRUARY 27, 1957.

In the matters of The Texas Company, Docket Nos. G-8969, G-9576, G-9593, G-9596, G-9609, G-9161, G-10884, G-11321, G-11322, G-11323, G-11333; The Texas Company (Operator), et al., Docket No. G-11324; The Texas Company (Operator), et al. Docket No. G-11391.

The above proceedings relate to proposed changes in rates which heretofore have been suspended by order of the Commission, with the provision that a public hearing be held thereon at a date to be fixed by notice from the Secretary.

Take notice that the said related proceedings will be heard on a consolidated record to the end that they may be disposed of as promptly as possible.

Take further notice that pursuant to the prior orders of the Commission in each of the above proceedings and the Natural Gas Act, particularly sections 4 and 15 thereof, and the Commission's rules of practice and procedure, a public hearing will be held commencing on April 8, 1957, at 10:00 a. m., e. s. t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters and issues involved in these consolidated proceedings.

Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.37 (f)).

[Docket Nos. G-10792, G-11229]

SOUTHERN PRODUCTION CO., INC., AND SINCLAIR OIL & GAS CO.

NOTICE OF APPLICATION AND DATE OF HEARING

FEBRUARY 27, 1957.

In the matters of Southern Production Company, Inc., Docket No. G-10792; Sinclair Oil & Gas Company and Southern Production Company, Inc., Docket No. G-11229.

Take notice that Southern Production Company, Inc. (Southern), a Delaware corporation with its principal place of business at Fort Worth, Texas, filed on July 23, 1956, an application in Docket No. G-10792, pursuant to section 7 (c) of the Natural Gas Act, for authority to sell natural gas in interstate commerce to Phillips Petroleum Company from Southern's 1/16th interest in the 490.8 acre Fasken Block CB Unit located in the Magutex Field, Andrews County, Texas, all as more fully described in the application on file with the Commission and open to public inspection.

Take further notice that Sinclair Oil & Gas Company (Sinclair), a Maine corporation with its principal place of business at Tulsa, Oklahoma, and Southern filed on October 12, 1956, a joint application in Docket No. G-11229, pursuant to section 7 of the Natural Gas Act seeking authorization for:

(1) Southern to abandon certain sales of natural gas, pursuant to section 7 (b) of the Natural Gas Act, previously authorized at Docket Nos. G-2583, G-6027, G-6098, G-6212 and G-8722.

(2) Sinclair to continue the above authorized sales, pursuant to section 7 (c) of the Natural Gas Act, in place of Southern.

(3) Sinclair to replace Southern as Applicant in Docket No. G-10792 herein.

The joint application in Docket No. G-11229 states that Southern's stockholders, by vote on October 11, 1956, have adopted a plan previously approved by Southern's Board of Directors, for the complete liquidation of Southern including the sale and transfer to Sinclair of certain of Southern's oil and gas properties which are the subject matter of the certificate applications mentioned in (1) and (3) above. The sale and transfer of such gas and oil properties was scheduled to occur on November 1, 1956.

These related matters should be heard on a consolidated record and disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on April 8, 1957, at 9:30 a. m., e. s. t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such applications: *Provided, however,* That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of § 1.30 (c) (1) or (ii) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10), on or before March 21, 1957. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

SECURITIES AND EXCHANGE COMMISSION

[File No. 68-167]

UNION ELECTRIC CO.

NOTICE OF ORDER REGARDING SOLICITATIONS OF PROXIES

FEBRUARY 27, 1957.

The Commission has been informed by Union Electric Company ("Union"), a registered holding company, that it proposes to solicit the proxies of its stockholders in regard to the annual meeting of such stockholders to be held on April 20, 1957. At such meeting Union anticipates a proxy contest and Union desires prior to the meeting to make several solicitations of its stockholders in order to present the position of its management.

Union and certain of its common stockholders have filed with the Commission preliminary solicitation material pursuant to Regulation X-14 promulgated under the Securities Exchange Act of 1934 in anticipation of the soliciting of Union's security holders in connection with the forthcoming annual meeting.

The staff of the Commission has advised the Commission that on the basis of its examination of the preliminary solicitation material referred to above and of other information contained in the Commission's files it is indicated that substantial questions of law and fact are presented by the intended solicitations under the standards of section 12 (e) of the Public Utility Holding Company Act of 1935 ("act").

In view of the foregoing it appears to the Commission that, in addition to compliance with the requirements of the rules of the Commission promulgated under section 12 (e) of the act, for the purpose of expediting solicitation of proxies in ordinary situations, it is appropriate in the public interest and for the protection of investors and consumers to require Union and all other persons desiring to solicit Union's security holders in connection with the company's next annual meeting to comply with the provisions of Rule U-62 under the act.

Wherefore it is ordered and notice is hereby given, That, pending the further order of the Commission, Union and all other persons be, and hereby are, prohibited from soliciting by use of the mails or any other means or instrumentalities of interstate commerce, or otherwise, any proxy, power-of-attorney, consent, or authorization regarding the voting of any security of Union in connection with the annual meeting of Union's stockholders scheduled to be held April 20, 1957, unless pursuant to a declaration, filed under section 12 (e) of the act and Rule U-62 promulgated thereunder, which has become, or shall have been permitted by the Commission to become, effective.

It is further ordered, That the Secretary of the Commission serve copies of this notice and order by registered mail on Union, J. Raymond Dyer, and Nancy Corinne Dyer and that notice shall be given to all other persons by general release of this Commission, which shall be distributed to the press and mailed to the mailing list for releases issued under the Public Utility Holding Company Act of 1935, and by publication of this notice and order in the FEDERAL REGISTER.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[F. R. Doc. 57-1648; Filed, Mar. 4, 1957; 8:52 a. m.]

DEPARTMENT OF LABOR

Wage and Hour Division

LEARNER EMPLOYMENT CERTIFICATES

ISSUANCE TO VARIOUS INDUSTRIES

Notice is hereby given that pursuant to section 14 of the Fair Labor Standards Act of 1938 (52 Stat. 1060, as amended; 29 U. S. C. 201 et seq.), and Part 522 of the regulations issued thereunder (29 CFR Part 522), special certificates authorizing the employment of learners at hourly wage rates lower than the minimum wage rates applicable under section 6 of the act have been issued to the firms listed below. The employment of learners under these certificates is limited to the terms and conditions therein contained and is subject to the provisions of Part 522. The effective and expiration dates, occupations, wage rates, number or proportion of learners and learning periods for certificates issued under general learner regulations (§§ 522.1 to 522.12) are as indicated below; conditions provided in certificates issued under special industry regulations are as established in these regulations.

Apparel Industry Learner Regulations (29 CFR 522.20 to 522.24, as amended March 1, 1956, 21 F. R. 1349).

The following learner certificates were issued for normal labor turnover purposes and, except as otherwise indicated below, not more than 10 percent of the total number of factory production workers were authorized for employment.

Anderson Bros. Consolidated Co's, Inc., Floyd and High Streets, Danville, Va.; effective 3-1-57 to 10-30-57 (coveralls, work pants, work shirts).

Berlin Manufacturing Co., Inc., Berlin, Md.; effective 2-20-57 to 2-19-58; 10 learners (cotton work clothing).

Carl-Lee Trouser Co., Inc., Boston, Ala.; effective 3-1-57 to 9-30-57 (men's slacks).

Champ Trouser Co., Inc., Winfield, Ala.; effective 3-1-57 to 9-30-57 (men's slacks).

Clinton Garment Manufacturing Co., Inc., Clinton, Ky.; effective 2-18-57 to 2-17-58 (men's and boys' parka jackets).

Elder Garment Co., Vandalia, Mo.; effective 3-1-57 to 9-30-57 (dresses).

Fawn Grove Manufacturing Co., Inc., Fawn Grove, Pa.; effective 2-20-57 to 2-19-58 (cotton work clothing).

Fawn Grove Manufacturing Co., Inc., Rising Sun, Md.; effective 2-20-57 to 2-19-58; 10 learners (dungarees, overalls, coveralls, etc.).

Gateway Manufacturing Co., Masontown, Pa.; effective 2-11-57 to 2-10-58 (ladies' blouses and shorts).

Glassboro Shirt Co., 31 North Main Street, Glassboro, N. J.; effective 2-20-57 to 2-19-58; three learners (children's apparel).

Greer Shirt Corp., Greer, S. C.; effective 2-15-57 to 2-14-58 (sport shirts).

Lennie Lee Manufacturing Co., Inc., 105 Sussex Street, Old Forge, Pa.; effective 2-11-57 to 2-10-58; five learners (blouses).

Lerner-Slone Clothing Corp., 304 East Main Street, Carbondale, Ill.; effective 2-14-57 to 2-13-58 (men's slacks and trousers).

Mover Star of Poplarville, Poplarville, Miss.; effective 2-12-57 to 2-11-58 (women's slips, petticoats, and gowns).

Norway Needlecraft Corp., Norway, Mich.; effective 3-1-57 to 9-30-57; 10 learners for normal labor turnover purposes engaged in the production of women's, misses', and children's woven underwear, nightwear, and negligees (underwear, nightwear, and negligees).

Playcraft Corp., Saltillo, Miss.; effective 2-20-57 to 2-19-58 (sportswear, sun suits, jackets).

Puritan Foundations, Portage, Pa.; effective 2-14-57 to 2-13-58 (brassieres and garter belts).

Reliance Manufacturing Co., Factory No. 42, Blytheville, Ark.; effective 3-1-57 to 11-20-57 (replacement certificate) (sport shirts).

Reliance Manufacturing Co., Factory No. 45, Bonne Terre, Mo.; effective 3-1-57 to 10-30-57 (replacement certificate) (men's and boys' unlined jackets).

Reliance Factory No. 47, Farmington, Mo.; effective 3-15-57 to 3-14-58 (women's and girls' outer shorts and slacks).

Reliance Manufacturing Co., St. James, Mo.; effective 3-1-57 to 2-28-58 (women's dresses).

Reliance Manufacturing Co., No. 48, Thayer, Mo.; effective 3-1-57 to 6-19-57 (replacement certificate) (dresses).

Reliance Manufacturing Co., Factory No. 40, Water Valley, Miss.; effective 3-1-57 to 10-14-57 (replacement certificate) (men's cotton work pants and shirts).

D. F. Rodgers Manufacturing Co., Inc., 10 University Ridge, Greenville, S. C.; effective 2-15-57 to 2-14-58 (dresses).

The Seaford Garment Co., Seaford, Del.; effective 2-18-57 to 2-17-58 (dress shirts).

Texas Dress Corp., Bowie, Tex.; effective 2-14-57 to 2-13-58; 10 learners (learners may not be engaged at special minimum wage rates in the production of separate skirts).

Thornby Manufacturing Co., Thornby, Ala.; effective 2-13-57 to 2-12-58; 10 learners (ladies' blouses).

Wellington Manufacturing Co., Okolona, Miss.; effective 2-15-57 to 2-14-58 (men's dress trousers).

The following learner certificates were issued for plant expansion purposes. The number of learners authorized is indicated:

Blue Bell, Inc., Ada, Okla.; effective 2-14-57 to 8-13-57; 95 learners (men's and boys' dungarees).

The Johnie Jan Co., Walnut Ridge, Ark.; effective 2-11-57 to 8-10-57; 20 learners (wash frocks).

Piedmont Blouse Co., Inc., 322 South Davie Street, Greensboro, N. C.; effective 2-11-57 to 8-10-57; five learners (ladies' and children's woven cotton slips).

Reliance Manufacturing Co., No. 48, Thayer, Mo.; effective 3-1-57 to 5-22-57; 20 learners (replacement certificate) (dresses).

Salley Manufacturing Co., Salley, S. C.; effective 2-13-57 to 8-12-57; 5 learners (women's slacks and Bermuda shorts).

Thornby Manufacturing Co., Thornby, Ala.; effective 2-13-57 to 8-12-57; 10 learners (ladies' blouses).

Troutman Shirt Co., Mooresville, N. C.; effective 2-15-57 to 8-14-57; 30 learners (work shirts and work pants).

Cigar Industry Learner Regulations (29 CFR 522.80 to 522.85, as amended March 1, 1956, 21 F. R. 629).

T. E. Brooks & Co., 31 South Pine Street, Red Lion, Pa.; effective 2-16-57 to 2-15-58; authorizing the employment of three learners for normal labor turnover purposes in the occupation of packing (cigars retailing for more than 6 cents), for 320 hours; and in the occupation of packing (cigars retailing for 6 cents or less) for 160 hours; all at 80 cents an hour.

Hosiery Industry Learner Regulations (29 CFR 522.40 to 522.43, as amended March 1, 1956, 21 F. R. 629).

Chester H. Roth Co., Inc., Burlington, N. C.; effective 2-14-57 to 2-13-58; authorizing the employment of 5 percent of the total number of factory production workers for normal labor turnover purposes (full-fashioned).

Knitted Wear Industry Learner Regulations (29 CFR 522.30 to 522.35, as amended March 1, 1956, 21 F. R. 581).

Norway Needlecraft Corp., Norway, Mich.; effective 2-15-57 to 8-14-57; 26 learners for expansion purposes engaged in the production of knitted underwear, nightwear, and negligees (underwear, nightwear, and negligees).

Reliance Manufacturing Co., Houston, Miss., effective 3-1-57 to 10-8-57; 5 percent of the total number of workers engaged in the production of shorts for normal labor turnover purposes (replacement certificate) (men's and boys' shorts).

Shoe Industry Learner Regulations (29 CFR 522.50 to 522.55, as amended March 1, 1956, 21 F. R. 1195).

Martinsburg Shoe Co., Inc., 107 Highland Street, Martinsburg, Pa.; effective 2-24-57 to 2-23-58; 10 percent of the total number of factory production workers for normal labor turnover purposes.

Each learner certificate has been issued upon the employer's representation that employment of learners at subminimum rates is necessary in order to prevent curtailment of opportunities for employment, and that experienced workers for the learner occupations are not available. The certificates may be annulled or withdrawn in the manner provided in Part 528 and as indicated in the certificates. Any person aggrieved by the issuance of any of these certificates may seek a review or reconsideration thereof within fifteen days after publication of this notice in the FEDERAL REGISTER pursuant to the provisions of Part 522.

Signed at Washington, D. C., this 21st day of February 1957.

MILTON BROOKE,
Authorized Representative of the Administrator.

FEDERAL REGISTER

VOLUME 22 NUMBER 44

Washington, Wednesday, March 6, 1957

UNIVERSITY OF MICHIGAN
MAR 11 1957
MAIN READING ROOM

TITLE 7—AGRICULTURE

Chapter I—Agricultural Marketing Service (Standards, Inspections, Marketing Practices), Department of Agriculture

Subchapter D—Warehouse Regulations

PART 101—COTTON WAREHOUSES

PRINTING OF WAREHOUSE RECEIPTS

Pursuant to authority conferred by section 28 of the United States Warehouse Act (7 U. S. C. 268) § 101.19 of the cotton warehouse regulations (7 CFR 101.19) is hereby amended to read as follows:

§ 101.19 *Printing of receipts.* No receipt shall be issued by a licensed warehouseman unless it is (a) in a form prescribed by the Administrator, (b) upon distinctive paper or card stock specified by the Administrator, (c) printed by a printer with whom the United States has a subsisting contract and bond for such printing, and (d) on paper manufactured by and procured from a manufacturer with whom the United States has a subsisting contract and bond for the manufacture of such paper, or on card stock distinctively tinted with fugitive ink by the printer in the manner prescribed by the contract under paragraph (c) of this section.

(Sec. 28, 39 Stat. 490; 7 U. S. C. 268)

The foregoing amendment relieves restrictions by permitting the issuance by cotton warehousemen licensed under the act of warehouse receipts printed on card stock instead of the paper heretofore permitted. Hereafter either may be used in accordance with the regulation. In order to be of maximum benefit to all affected parties, the amendment should be made effective as soon as possible to allow adequate time for printing of the new type of receipts by the beginning of the cotton storage season on August 1. Each warehouseman involved is being notified of the amendment by letter. Therefore, under section 4 of the Administrative Procedure Act (5 U. S. C. 1003), it is found upon good cause that notice of rule making and other public procedure with respect to the amendment are unnecessary and impracticable and since the amendment relieves restrictions it may be made effective less than 30 days after its publication in the FEDERAL REGISTER.

The foregoing amendment shall become effective on March 6, 1957.

Done at Washington, D. C. this 1st day of March, 1957.

[SEAL] GEORGE A. DICE,
Director,
Special Services Division.

FEDERAL REGISTER

Published daily, except Sundays, Mondays, and days following official Federal holidays, by the Federal Register Division, National Archives and Records Service, General Services Administration, pursuant to the authority contained in the Federal Register Act, approved July 26, 1935 (49 Stat. 500, as amended; 44 U. S. C., ch. 8B), under regulations prescribed by the Administrative Committee of the Federal Register, approved by the President. Distribution is made only by the Superintendent of Documents, Government Printing Office, Washington 25, D. C.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $1.50 per month or $15.00 per year, payable in advance. The charge for individual copies (minimum 15 cents) varies in proportion to the size of the issue. Remit check or money order, made payable to the Superintendent of Documents, directly to the Government Printing Office, Washington 25, D. C.

The regulatory material appearing herein is keyed to the CODE OF FEDERAL REGULATIONS, which is published, under 50 titles, pursuant to section 11 of the Federal Register Act, as amended August 5, 1953. The CODE OF FEDERAL REGULATIONS is sold by the Superintendent of Documents. Prices of books and pocket supplements vary.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER, or the CODE OF FEDERAL REGULATIONS.

CFR SUPPLEMENTS

(As of January 1, 1957)

728.790 Penalty for failure or refusal to keep records and make reports.
728.791 Records to be kept and reports to be made by producers.
728.792 Data to be kept confidential.
728.793 Enforcement.

SPECIAL PROVISIONS AND EXEMPTIONS

728.794 Farms on which the wheat acreage is not in excess of 15 acres or on which the normal production of the wheat acreage is less than 200 bushels.
728.795 Experimental wheat farms.
728.796 Federal and State Wildlife Refuge Farms.
728.797 Erroneous notice of wheat acreage allotment.
728.798 Redelegation of authority.

AUTHORITY: §§ 728.750 to 728.798 issued under sec. 375, 52 Stat. 66, as amended; 7 U. S. C. 1375. Interpret or apply secs. 301, 331–339, 362–368, 372–376, 52 Stat. 38, as amended; 55 Stat. 203, as amended; sec. 106, 70 Stat. 191; 7 U. S. C. 1301, 1331–1340, 1362–1368, 1372–1376.

GENERAL

§ 728.750 *Basis and purpose.* The regulations contained in §§ 728.750 to 728.798, inclusive, are issued pursuant to and in accordance with the Agricultural Adjustment Act of 1938, as amended, and govern the identification and measurement of farms; the amount, adjustment, and review of the farm marketing quota and farm marketing excess; the issuance of marketing cards and certificates; the identification of marketings of wheat as subject to or not subject to the penalty and lien for the penalty; the rate of the penalty and the manner in which penalties shall be paid by producers and buyers; the refunding of penalty overpayments; the postponement or avoidance of penalty on excess wheat by storage, by delivery to the Secretary of Agriculture, or, in a subsequent year, by underplanting the allotment or producing a less than normal crop; the records and reports required to be made by wheat producers and handlers; and special provisions and exemptions applicable to farms on which 15 acres or less of wheat are planted, to farms on which the normal production of the wheat acreage is less than 200 bushels, to wheat produced by publicly-owned experiment stations, and to wheat grown on Federal and State Wildlife Refuge Farms. Prior to preparing §§ 728.750 to 728.798 inclusive, public notice (21 F. R. 7025) of the Secretary's intention to formulate and issue the regulations was given in accordance with the Administrative Procedure Act (5 U. S. C. 1003). The data, views, and recommendations pertaining to the regulations in §§ 728.750 to 728.798 which were submitted have been duly considered within the limits permitted by the Agricultural Adjustment Act of 1938, as amended. Since 1957 wheat acreages are now being measured in some sections of the country and since farmers should be informed as soon as possible of these measured acreages and of the final dates by which their wheat acreages in excess of their farm allotments may be adjusted to such allotments, it is hereby found that compliance with the effective date provision of section 4 of the Administrative Procedure Act is impracticable and contrary to the public interest, and the regulations herein shall become effective upon the date of publication of this document in the FEDERAL REGISTER.

§ 728.751 *Definitions.* As used in this subpart and in all forms and documents in connection therewith, unless the context or subject matter otherwise requires, the following terms shall have the following meanings:

(a) "Department" means the United States Department of Agriculture.

(b) "Act" means the Agriculture Adjustment Act of 1938 and any amendments or supplements thereto.

(c) "Secretary" means the Secretary of Agriculture of the United States, or the officer of the Department acting in his stead pursuant to delegated authority.

(d) "Director" means the Director of the Grain Division, Commodity Stabilization Service, United States Department of Agriculture.

(e) "Committee" means according to context, one of the several committees defined as follows:

(1) "State committee" means the persons designated by the Secretary as the State Agricultural Stabilization and Conservation Committee of the Commodity Stabilization Service, pursuant to section 8 (b) of the Soil Conservation and Domestic Allotment Act.

(2) "County committee" means the persons elected within a county as the county committee, pursuant to the regulations governing the selection and functions of the Agricultural Stabilization and Conservation county and community committees under section 8 (b) of the Soil Conservation and Domestic Allotment Act.

(3) "Community committee" means the persons elected within a community as a community committee pursuant to the regulations governing the selection and functions of the Agricultural Stabilization and Conservation county and community committees under section 8 (b) of the Soil Conservation and Domestic Allotment Act.

(4) "Review committee" means the committee appointed by the Secretary of Agriculture to review farm marketing quotas as provided in section 363 of the act.

(f) "Person" means an individual, partnership, association, corporation, estate, trust, or other business enterprise or legal entity, and wherever applicable, a State, political subdivision of a State, the Federal Government, or any agency thereof.

(g) "County office manager" means the person employed by the county committee to execute the policies of the county committee and be responsible for the day-to-day operations of the ASC county office, or the person acting in such capacity.

(h) "Landlord" or "owner" means a person who owns land.

(i) "Tenant" means a person other than a sharecropper who rents land from another person, whether or not he rents such land or part thereof to another person.

(j) "Sharecropper" means a person who works a farm in whole or in part under the general supervision of the operator and is entitled to receive for his labor a share of a crop produced thereon or of the proceeds thereof.

(k) "Operator" means the person who is in charge of the supervision and conduct of the farming operations on the entire farm.

(l) "Producer" or "farmer" means a person who as owner, landlord, tenant, or sharecropper is entitled to all or a share of the 1957 wheat crop or of the proceeds thereof.

(m) "Buyer" means a person who buys wheat.

(n) "Transferee" means a person who acquires wheat from a producer or any other person by barter, exchange or gift.

(o) "Intermediate buyer" means any buyer or transferee who purchases or acquires any wheat prior to the time the wheat so purchased or acquired has been marketed either (1) to a warehouseman, elevator operator, feeder, or processor, or (2) to any other grain dealer who conducts his business in a manner substantially the same as a warehouseman or elevator operator.

(p) "Farm" means all adjacent or nearby farm or range land under the same ownership which is operated by one person, including also:

(1) Any other adjacent or nearby farm or range land which the county committee determines is operated by the same person as a part of the same unit in producing range livestock, or with respect to the rotation of crops and with workstock, farm machinery, and labor, substantially separate from that for any other land; and

(2) Any field-rented tract (whether operated by the same or another person) which, together with any other land in-

cluded in the farm constitutes a unit with respect to the rotation of crops.

A farm shall be regarded as located in the county or administrative area in which the principal dwelling is situated or, if there is no dwelling thereon, it shall be regarded as located in the county or administrative area in which the major portion of the farm is located.

(q) "Farm acreage allotment" means the wheat acreage allotment established for the farm under §§ 728.710 through 728.724 as published in the FEDERAL REGISTER under date of March 28, 1956 (21 F. R. 1895), and amendments thereto.

(r) "Wheat cover crop" means the acreage of wheat which does not reach maturity because it is, while still green, turned under, cut off or pastured off, to the extent that wheat will not mature as grain, not later than 30 days prior to the date wheat harvest normally begins in the county or areas within the county as determined by the Secretary upon recommendation of the county and State committees.

In accordance with the foregoing the dates in each county or areas of a county by which the acreage of wheat on the farm must be utilized in the prescribed manner as wheat cover crop are determined to be as follows:

ARKANSAS

May 20, 1957: All counties.

CALIFORNIA

May 1, 1957: Imperial.

July 20, 1957: Big Horn, Campbell, Converse, Crook, Fremont, Hot Springs, Johnson, Natrona, Niobrara, Park, Sheridan, Washakie, Weston.

August 1, 1957: Albany, Carbon, Lincoln, Sublette, Sweetwater, Teton, Uinta.

(s) "Wheat mixture" means a mixture of wheat and other small grains (excluding vetch, Austrian winter peas, rough peas, and flax) which contains, when seeded, less than 50 percent by weight of wheat and which when harvested produced less than 50 percent of wheat by weight. An acreage will not be considered as having been devoted to a wheat mixture if the crops other than wheat fail to reach maturity and the wheat is permitted to reach maturity.

(t) "Wheat mixture counties" means counties in which the seeding of wheat mixtures is a normal farming practice determined to be as follows: All counties in the States of Arkansas, Georgia, Kentucky, Minnesota, North Carolina, South Carolina, Tennessee, Virginia and Wisconsin; in the State of Idaho the counties of Ada, Bannock, Bingham, Blaine, Boise, Bonneville, Butte, Camas, Canyon, Caribou, Cassia, Clark, Elmore, Fremont, Gem, Gooding, Jefferson, Jerome, Lincoln, Madison, Minidoka, Oneida, Owyhee, Payette, Power, Teton, Twin Falls and Washington; in the State of Oregon the counties of Benton, Clackamas, Douglas, Lane, Linn, Malheur, Marion, Polk, Washington and Yamhill; and in the State of West Virginia, Monroe County.

(u) "Wheat acreage" means any acreage of seeded wheat, or self seeded (volunteer) wheat which reaches maturity, excluding any acreage (1) of a wheat mixture in wheat-mixture counties, or of a mixture of other grains and wheat in non-wheat-mixture counties which does not contain enough wheat to cause the grain to be graded as "mixed grain" under the Official Grain Standards of the United States (Part 26 of this title), (2) of wheat cover crop, (3) in case of a delayed notice of 1957 acreage of wheat, of unharvested wheat plowed or disced under within 15 days after such notice has been mailed to the operator of the farm, and (4) of unharvested wheat seeded in excess of the allotment which is completely destroyed by some cause beyond the control of the operator prior to (i) 30 days before the date wheat harvest normally begins in the county or areas within the county (as determined under paragraph (r) of this section) or (ii) within 15 days after a delayed notice of the acreage of wheat is mailed to the operator of the farm, unless the operator or his representative indicates in writing to the county office manager that such destroyed seeded acreage under this item (4) should be classified as wheat acreage. Notice of 1957 Acreage of Wheat (Form CSS–597), if practicable, should be mailed to the operator of the farm on which the first inspection shows there is an excess acreage of wheat at least 15 days prior to the date established under paragraph (r) of this section for utilizing wheat acreage as wheat cover crop; however, if for any reason the notice is not so mailed, it shall be mailed as soon thereafter as possible and upon mailing shall be fully effective and construed as a delayed notice under this paragraph. Wheat acreage shall not include any acreage of emmer, spelt, einkorn, Polish wheat and poulard wheat.

(v) "Excess wheat acreage" means the acreage of wheat determined for the farm which is in excess of the farm acreage allotment, except that there shall be no excess wheat acreage on any farm on which (1) the wheat acreage does not exceed 15 acres, (2) the farm normal yield times the wheat acreage is less than 200 bushels, (3) the wheat is grown for experimental purposes only by a publicly-owned experiment station, or (4) all the wheat is produced on a Federal or State wildlife refuge farm solely for wildlife feed and for seed for the production of wildlife feed on such wildlife refuge farm.

(w) "Normal yield" means the number of bushels of wheat established as the normal yield per acre for the farm under § 728.753.

(x) "Actual yield" means the number of bushels of wheat determined by dividing the number of bushels of wheat produced on the farm in 1957 by the 1957 wheat acreage on the farm.

(y) "Normal production" of any number of acres means the normal yield of wheat for the farm times such number of acres.

(z) "Actual production" of any number of acres means the actual yield of wheat per acre for the farm times such number of acres.

(aa) "Farm marketing quota" means the wheat marketing quota established under the Act for the farm for the 1958 crop.

(bb) "Farm marketing excess" means the amound of wheat determined for any farm under § 728.759 or § 728.762, whichever is applicable.

(cc) "Marketing year" means the period beginning July 1, 1957, and ending June 30, 1958, both dates inclusive.

(dd) "Market" means to dispose of wheat, in raw or processed form, by voluntary or involuntary sale, barter, or exchange, or by gift, or by feeding (in any form) to poultry or livestock which, or the products of which, are sold, bartered, or exchanged, or are to be so disposed of.

(1) The term "sale" means any transfer of title to wheat by a producer by any means other than barter, exchange, or gift. The penalty on excess wheat is due regardless of what use is made of the excess wheat.

(2) The terms "barter" and "exchange" mean transfer of title to wheat by a producer in return for wheat or any other commodity, service, or property, in cases where the value of the wheat or such other commodity, service or property is not considered in terms of money or the transfer of title to wheat by a producer in payment of a fixed rental or other charge for land, or the payment of an amount of wheat in lieu of a cash charge for harvesting or milling wheat (commonly called "toll wheat").

(3) The term "gift" means any transfer of title to wheat accompanied by delivery of the wheat by a producer which takes effect immediately and is irrevocably and is made without any consideration or compensation therefor.

(4) "Marketed," "marketing," and "market" shall have meaning corresponding to the term "market" in the connection in which they are used.

(ee) "Penalty" means the penalty provided in paragraph (2) of Public Law

No. 74, 77th Congress, as amended by section 3 of Public Law No. 117, 83rd Congress.

(ff) "Treasurer of the county committee" means the county office manager or the person designated by him to act as treasurer of the ASC county committee.

(gg) "State administrative officer" means the person employed to execute the policies of the State committee and to be responsible for the day-to-day operations of the office of the State committee, or the person acting in such capacity.

§ 728.752 *Instructions and forms.* The Director shall cause to be prepared and issued such forms as are necessary and shall cause to be prepared such instructions with respect to internal management as are necessary for carrying out the regulations in this part. Such forms and instructions shall be approved by, and the instructions shall be issued by, the Deputy Administrator for Production Adjustment, Commodity Stabilization Service.

§ 728.753 *Normal yields*—(a) *Farms for which normal yields will be determined.* The county committee will determine a normal yield for each farm for which a farm marketing excess is required to be determined for the 1957 crop for each farm for which it is necessary to establish a normal yield to determine whether the farm falls within the 200 bushel exemption, for each farm for which a request is made to the county committee by the operator prior to seeding, and for each farm as required for the purposes of the provisions of § 728.783 (h) and (i). Determinations of farm normal yields shall be documented in a manner approved by the State committee and such determinations shall be subject to review and revision by the State committee or on behalf of the State committee by the State administrative officer, program specialist, or farmer fieldman. No notice of a farm normal yield shall be mailed to a producer until the yield has been approved by or on behalf of the State committee.

(b) *Yields based on reliable records.* Where reliable records of the actual average yield per acre for all of the ten calendar years immediately preceding the calendar year in which the yield is determined are available to the county committee, the normal yield per acre of wheat for the farm shall be determined to be the average of such yields, adjusted for abnormal weather conditions and trends in yields.

(c) *Appraised yields.* If for any year of such 10-year period records of the actual average yield are not available, or there was no actual yield, the normal yield per acre of wheat for the farm shall be appraised by the county committee, taking into consideration abnormal weather conditions during such 10-year period, the normal yield for the county, and the yields in years for which data were available. Where conditions affecting the production of wheat are not uniform within the county and the normal yield for the county is not representative of the normal yield for the farm, the county committee in appraising the normal yield for the farm shall also take into consideration the yields obtained on farms in the same locality which are similar with respect to types of soil, topography, and farming practices associated with the production of wheat.

IDENTIFICATION AND MEASUREMENT OF FARMS

§ 728.754 *Identification of farms.* Each farm as operated for the 1957 crop of wheat shall be identified by a farm serial number, assigned by the county committee, which shall not be changed, and all records pertaining to marketing quotas for the 1957 crop of wheat shall be identified by the farm serial number.

§ 728.755 *Measurement of farms.* The county committee shall provide for the measurement of all farms in the county having a 1957 wheat acreage allotment and any other farms in the county on which the committee has reason to believe there is wheat which could be available for harvest in 1957, regardless of its intended use, for the purposes of ascertaining with respect to each of such farms the acreage of wheat and whether such acreage is in excess of the farm wheat acreage allotment for 1957. A farm will be considered as being located in the county in which is located the ASC county office from which the 1957 wheat farm acreage allotment notice was sent to the operator and shall be retained in such status until the next crop year. Measurement shall be made under the general supervision of the county committee in accordance with the following provisions:

(a) *Reporter.* The measurement on the farm shall be made by an employee of the county committee who has been designated as a reporter and determined to be qualified to carry out the duties of a reporter by the county office manager. In addition, upon request of the county committee the State administrative officer may designate an employee of the State committee to serve as a reporter. A reporter may be assisted in the measurement of a farm by another reporter, community, county or State committeeman, county office manager, State committee representative, any employee of the ASC county office when authorized by the county office manager, or any employee of the Department when authorized by the Deputy Administrator for Production Adjustment, Commodity Stabilization Service. The reporter may request the operator or producer, or his representative, to designate all fields on the farm being utilized for growing wheat and otherwise to assist in measuring the farm. If requested, the operator or producer, or his representative, shall so designate all fields being utilized for growing wheat and may otherwise assist in measuring the farm. The reporter may utilize any such assistance from the operator or producer, or his representative.

(b) *Assignment.* The county office manager shall have responsibility for assigning in writing the farms in the county to be measured by a reporter. Upon request of any interested producer the reporter shall obtain certification from the county office manager that the reporter is the county office representative appointed to measure the wheat acreage on the farm in which the producer is interested.

(c) *Farm visit.* A reporter shall visit each farm assigned to him for measurement and enter thereon if such entry will facilitate measurement. Upon request he will exhibit to the farm operator, producer, or owner, his assignment to measure the farm.

(d) *Methods of measurement.* Measurement may be made by identification of fields or parts of fields by use of a map, aerial photograph, or by means of a steel or metallic tape or chain. No other measuring equipment shall be used unless approval in writing is obtained from the Deputy Administrator of Production Adjustment, Commodity Stabilization Service. Any combination of one or more of the foregoing methods may be employed. Measurement shall also be deemed to include an estimate when made in compliance with the provisions of paragraph (e) (1) of this section. The measurement will be entered by the reporter on the Form CSS–578 and filed in the ASC county office. Computations of acreages shall be made by an employee in the ASC county office from the data so obtained and the use of a planimeter or rotometer in connection therewith is authorized.

(e) *Measurement of wheat acreage.* (1) Upon his first visit to the farm for purposes of measurement the reporter assigned thereto shall (i) when there is no wheat acreage reserve agreement for the farm estimate the acreage planted to wheat including volunteer wheat and wheat mixtures in wheat-mixture counties where the total acreage of wheat is obviously less than 10 acres and all producers of wheat on the farm or their authorized representatives indicate on the Form CSS–578 that they will not apply for price support on 1957 wheat produced on the farm; and (ii) in all other cases measure all acreages on which wheat is growing except fields or parts of fields which are identified by the operator or producer as being fields of wheat mixtures in wheat-mixture counties, acreages to be used as cover crop, or volunteer wheat. The acreages of such wheat mixtures, cover crop, and volunteer wheat may be measured, and if not measured shall be estimated.

(2) All farms required to be measured under the provisions of subparagraph (1) (ii) of this paragraph which from such measurement (including estimates, if any) are found to have acreage on which wheat is growing in excess of the 1957 farm wheat acreage allotment shall be revisited by a reporter for the purposes of a second measurement after the period for adjusting excess acreage prior to harvest has expired, except that a revisit shall not be made to any farm on which the first inspection showed a total acreage of wheat not in excess of 15 acres unless a producer on such farm requests measurement and pays the cost thereof by the date specified on Notice of 1957 Acreage of Wheat (Form CSS–597), which date shall coincide with the latest date on which the adjustment may be

made as provided in § 728.751 (u). On this visit all acreage devoted to wheat which has not been adjusted prior to harvest so as not to qualify as wheat acreage in accordance with the regulations in this subpart or which does not qualify as a wheat mixture in wheat-mixture exemption counties shall be measured. In making such measurements, measurement data acquired on the first visit may be utilized.

(f) *Prior measurements.* Measurements made prior to the effective date of the regulations in this subpart, and in accordance with procedures then in effect may be utilized where pertinent for the purpose of ascertaining with respect to any farm the 1957 wheat acreage and the wheat acreage in excess of the 1957 farm wheat acreage allotment.

§ 728.756 *Reports and records of farm measurements.* A record shall be kept in the ASC county office of the measurements made on all farms. There shall be filed with the ASC State office a written report setting forth for each farm for which a farm marketing excess is determined (a) the farm serial number, (b) the name of the operator, (c) the total acreage in cultivation, (d) the farm acreage allotment, and (e) the wheat acreage.

FARM MARKETING QUOTA AND FARM MARKETING EXCESS

§ 728.757 *Marketing quotas in effect.* Marketing quotas for the 1957 crop of wheat shall be applicable in the 1957 commercial wheat-producing area which comprises all States in the continental United States except the States of Alabama, Arizona, Connecticut, Florida, Louisiana, Maine, Massachusetts, Mississippi, Nevada, New Hampshire, Rhode Island and Vermont. Wheat marketing quotas shall be applicable to all wheat of the 1957 crop in the commercial wheat-producing area notwithstanding that it may be available for marketing prior to the beginning of the marketing year or subsequent to the end of the marketing year. Notwithstanding the inapplicability of wheat marketing quotas outside the 1957 commercial wheat-producing area, the regulations in this subpart shall be applicable to buyers and transferees outside such area.

§ 728.758 *Farm marketing quota.* The farm marketing quota for any farm for the 1957 crop of wheat shall be that number of bushels of wheat produced on the farm less the amount of the farm marketing excess for the farm.

§ 728.759 *Farm marketing excess.* The farm marketing excess for the 1957 crop of wheat for any farm shall be the normal production of the wheat acreage on the farm in excess of the farm acreage allotment therefor: *Provided*, That the farm marketing excess for any crop shall not be larger than the amount by which the actual production of such crop of wheat on the farm exceeds the normal production of the farm wheat acreage allotment if the producer establishes such actual production to the satisfaction of the Secretary.

§ 728.760 *Notice of farm marketing excess.* Written notice of the farm marketing excess for a farm shall be mailed to the operator of each farm for which a farm marketing excess is determined. Notice so given shall constitute notice to each producer having an interest in the 1957 wheat crop produced or to be produced on the farm. A copy of such notice shall also be mailed on the same date to each other wheat producer on the farm. Each notice shall contain a brief statement of the procedure whereby application for a review of the farm marketing quota, farm marketing excess, or any determination made in connection therewith may be had in accordance with section 363 of the act. A record of each notice containing the date of mailing the notice to the operator of the farm shall be kept among the permanent records in the ASC county office and upon request a copy thereof shall be furnished without charge to any person who as operator, landlord, tenant, or sharecropper is interested in the wheat produced in 1957 on the farm for which the notice is given. Each notice shall contain the information necessary in each case to inform the producer as to the basis for the determination set forth in the notice and the effect thereof and shall be on Form MQ–93—Wheat.

§ 728.761 *Farms for which proper notice of 1957 farm marketing quota and farm marketing excess of wheat was not issued.* Where, for any reason, proper notice of the farm marketing quota and farm marketing excess and of the producer's right to obtain a downward adjustment in the farm marketing excess for his farm on account of actual production, and of his right to store or deliver to the Secretary the farm marketing excess of wheat established for the farm was not issued to the producer in sufficient time to allow him 30 days prior to the time in which he was required to make application for a downward adjustment, or to store or deliver to the Secretary the farm marketing excess, as prescribed by §§ 728.760, 728.762, 728.783 and 728.784, the producer shall be so notified by the county committee on Form MQ–93—Wheat and the producer may, within 30 days from the date such notice is mailed to him apply to the county committee for a downward adjustment in the amount of the farm marketing excess and may, within 30 days from the date such notice is mailed store or deliver to the Secretary the farm marketing excess as provided in §§ 728.762, 728.783 and 728.784. In the event application for downward adjustment in the farm marketing excess is made by the producer, a revised notice on Form MQ–93—Wheat with a copy of the determination of the county committee as provided in § 728.762 (b) shall be mailed to the operator of the farm, to the applicant if he is not such operator, and to all other interested producers.

§ 728.762 *Farm marketing excess adjustment*—(a) *Adjustment in the amount of the farm marketing excess.* Any producer having an interest in the wheat produced in 1957 on any farm for which there is a farm marketing excess may (1) within 60 days after the harvesting of wheat is normally substantially completed in the county or area in the county in which the farm is situated apply to the county office for a downward adjustment in the amount of the farm marketing excess on the basis of the amount of wheat produced in 1957 on the farm, or (2) apply to the county office at any time prior to the institution of court proceedings to collect the penalty for a determination that there was no farm marketing excess for the farm because the actual production on the farm was not in excess of the normal production of the acreage allotment. Notwithstanding the foregoing provisions of this paragraph, whenever the county committee determines that no wheat has been or will be produced in 1957 on a farm with a farm marketing excess, the county committee may adjust the farm marketing excess and notify the operator of such adjustment, as provided in paragraph (b) of this section. The date on which the harvesting of wheat is normally substantially completed in the county or area in the county shall be determined by the State committee with the approval of the Secretary, taking into consideration recommendations which the county committee may make and, unless application for an adjustment in the farm marketing excess is made prior to the expiration of 60 calendar days next succeeding that date, or unless prior to the institution of court proceedings to collect the penalty with respect to the farm it is determined that there was no farm marketing excess for the farm, the farm marketing excess for any farm in the county as determined on the basis of the normal production of the excess wheat acreage for the farm shall be final as to the producers on the farm. The producer must furnish satisfactory proof to the county committee of his actual production. The county office shall keep a record of each application so made and the date thereof. The county committee shall establish a time and place at which each application will be considered and shall notify the applicant of the time and place of the hearing. Insofar as practicable, applications shall be considered in the order in which made. The established dates on which wheat harvest is normally substantially completed have been determined as aforesaid as follows:

ARKANSAS

June 25, 1957: All counties.

CALIFORNIA

July 1, 1957: Imperial.
August 15, 1957: Butte, Colusa, Fresno, Glenn, Kern, Kings, Los Angeles, Madera, Merced, Orange, Riverside, Sacramento, San Bernardino, San Diego, San Joaquin, Santa Barbara, Solano, Stanislaus, Sutter, Tehama, Tulare, Ventura, Yola, Yuba.
September 1, 1957: Alameda, Contra Costa, Lake, Marin, Monterey, Napa, San Benito, San Mateo, Santa Clara, Santa Cruz, Sonoma.
September 15, 1957: Alpine, Amador, Calaveras, Del Norte, El Dorado, Humboldt, Inyo, Mariposa, Mendocino, Mono, Nevada, Placer, Tuolumne.
October 1, 1957: Lassen, Modoc, Plumas, San Luis Obispo, Shasta, Sierra, Siskiyou, Trinity.

COLORADO

August 15, 1957: Larimer, Boulder, Jefferson, El Paso, Pueblo, Huerfano, Las Animas and all counties East thereof.

November 1, 1957: Alamosa, Archuleta, Chaffee, Conejos, Costilla, Custer, Delta, Dolores, Eagle, Fremont, Garfield, Grand, Jackson, La Plata, Mesa, Moffat, Montezuma, Montrose, Ouray, Pitkin, Rio Blanco, Rio Grande, Routt, Saguache, San Miguel, Teller.

DELAWARE

August 1, 1957: All counties.

GEORGIA

July 1, 1957: Area I—Quitman, Randolph, Terrell, Lee, Crisp, Wilcox, Dodge, Wheeler, Montgomery, Toombs, Candler, Bulloch, Screven and all counties South thereof.
July 15, 1957: Area II—Haralson, Paulding, Cobb, Fulton, Gwinnett, Barrow, Jackson, Madison, Franklin, and all counties South to Area I.
August 1, 1957: Area III—Polk, Bartow, Cherokee, Forsyth, Hall, Banks, Stephens, and all counties North thereof.

IDAHO

September 1, 1957: Ada, Canyon, Gem, Owyhee, Payette.
September 15, 1957: Washington, Cassia, Gooding, Jerome, Minidoka, Twin Falls.
October 1, 1957: Benewah, Boundary, Clearwater, Idaho, Kootenai, Latah, Lewis, Nez Perce, Adams, Boise, Elmore, Blaine, Camas, Lincoln, Bannock, Bingham, Caribou, Franklin, Oneida, Power, Bonneville, Clark, Fremont, Jefferson, Lemhi.
October 15, 1957: Bonner, Valley, Bear Lake, Butte, Custer, Madison, Teton.

ILLINOIS

July 31, 1957: All counties.

INDIANA

July 16, 1957: All counties.

IOWA

July 31, 1957: All counties.

KANSAS

July 30, 1957: All counties.

KENTUCKY

August 1, 1957: All counties.

MARYLAND

August 1, 1957: All counties except Garrett and Allegany.
September 1, 1957: Allegany and Garrett.

MICHIGAN

August 15, 1957: All counties south of and including Mason, Lake, Osceola, Clare, Gladwin and Arenac.
August 31, 1957: All other counties including the upper Peninsula.

MINNESOTA

September 2, 1957: All counties.

MISSOURI

July 30, 1957: All counties.

MONTANA

September 16, 1957: All counties.

NEBRASKA

July 20, 1957: Burt, Butler, Cass, Clay, Colfax, Cuming, Dodge, Douglas, Fillmore, Gage, Jefferson, Johnson, Lancaster, Nemaha, Nuckolls, Otoe, Pawnee, Richardson, Saline, Sarpy, Saunders, Seward, Thayer, Thurston, Washington, Webster, York.
August 1, 1957: All other counties.

NEW JERSEY

July 24, 1957: All counties.

NEW MEXICO

July 15, 1957: Chaves, Eddy, Hidalgo, Otero, Dona Ana, Grant, Luna, Lea, Sierra.
August 1, 1957: Bernalillo, Curry, De Baca, Guadalupe, Lincoln, Quay, Roosevelt, Santa Fe, Socorro, Torrance, Valencia (area east of Rio Puerco).
August 15, 1957: Colfax, Catron, Sandoval, Harding, Mora, McKinley, Rio Arriba, San Juan, San Miguel, Taos, Union, Valencia (area west of Rio Puerco).
September 1, 1957: Any area above 7,000 feet elevation.

NEW YORK

August 15, 1957: All counties.

September 1, 1957: Albany, Carbon, Lincoln, Sublette, Sweetwater, Teton, Uinta.

(b) *Procedure in connection with an application for an adjustment in the farm marketing excess.* The county committee shall consider each application on the basis of facts known by or made available to it and on the basis of such evidence as may be presented to it by the applicant. The actual production of any farm shall be determined on the basis of the relevant facts, including past production on the farm; the actual yields during the same year of other farms in the community; the actual and normal yields of other farms in the community which are similar with regard to farming practices followed, type of soil, and productivity; the harvesting, processing, and sales of the commodity produced on the farm; farming practices followed on the farm; and weather and other factors affecting the production of wheat on the farm and in the locality in which the farm is situated. In the consideration of any application for an adjustment in the farm marketing excess, the producer shall have the burden of proof. The evidence presented by the applicant may be in the form of written statements or other documentary evidence or of oral testimony in a hearing before the county committee during its consideration of the application. In order to expedite the consideration of applications, the county committee shall receive, in advance of the time fixed for consideration of the application, any written statement or documentary evidence offered by or on behalf of the applicant, and the application may be disposed of upon the basis of such statement or evidence, together with other information bearing on or establishing the facts which is available to the county committee, unless the applicant appears before the county committee at the time fixed for considering the application and requests a hearing for the purpose of offering documentary evidence or oral testimony in support of the application. Every such hearing shall be open to the public. The county committee shall make its determination in connection with each application not later than five calendar days next succeeding the day on which the consideration of the application was concluded. The determination of the county

made as provided in § 728.751 (u). On this visit all acreage devoted to wheat which has not been adjusted prior to harvest so as not to qualify as wheat acreage in accordance with the regulations in this subpart or which does not qualify as a wheat mixture in wheat-mixture exemption counties shall be measured. In making such measurements, measurement data acquired on the first visit may be utilized.

(f) *Prior measurements.* Measurements made prior to the effective date of the regulations in this subpart, and in accordance with procedures then in effect may be utilized where pertinent for the purpose of ascertaining with respect to any farm the 1957 wheat acreage and the wheat acreage in excess of the 1957 farm wheat acreage allotment.

§ 728.756 *Reports and records of farm measurements.* A record shall be kept in the ASC county office of the measurements made on all farms. There shall be filed with the ASC State office a written report setting forth for each farm for which a farm marketing excess is determined (a) the farm serial number, (b) the name of the operator, (c) the total acreage in cultivation, (d) the farm acreage allotment, and (e) the wheat acreage.

FARM MARKETING QUOTA AND FARM MARKETING EXCESS

§ 728.757 *Marketing quotas in effect.* Marketing quotas for the 1957 crop of wheat shall be applicable in the 1957 commercial wheat-producing area which comprises all States in the continental United States except the States of Alabama, Arizona, Connecticut, Florida, Louisiana, Maine, Massachusetts, Mississippi, Nevada, New Hampshire, Rhode Island and Vermont. Wheat marketing quotas shall be applicable to all wheat of the 1957 crop in the commercial wheat-producing area notwithstanding that it may be available for marketing prior to the beginning of the marketing year or subsequent to the end of the marketing year. Notwithstanding the inapplicability of wheat marketing quotas outside the 1957 commercial wheat-producing area, the regulations in this subpart shall be applicable to buyers and transferees outside such area.

§ 728.758 *Farm marketing quota.* The farm marketing quota for any farm for the 1957 crop of wheat shall be that number of bushels of wheat produced on the farm less the amount of the farm marketing excess for the farm.

§ 728.759 *Farm marketing excess.* The farm marketing excess for the 1957 crop of wheat for any farm shall be the normal production of the wheat acreage on the farm in excess of the farm acreage allotment therefor: *Provided*, That the farm marketing excess for any crop shall not be larger than the amount by which the actual production of such crop of wheat on the farm exceeds the normal production of the farm wheat acreage allotment if the producer establishes such actual production to the satisfaction of the Secretary.

§ 728.760 *Notice of farm marketing excess.* Written notice of the farm marketing excess for a farm shall be mailed to the operator of each farm for which a farm marketing excess is determined. Notice so given shall constitute notice to each producer having an interest in the 1957 wheat crop produced or to be produced on the farm. A copy of such notice shall also be mailed on the same date to each other wheat producer on the farm. Each notice shall contain a brief statement of the procedure whereby application for a review of the farm marketing quota, farm marketing excess, or any determination made in connection therewith may be had in accordance with section 363 of the act. A record of each notice containing the date of mailing the notice to the operator of the farm shall be kept among the permanent records in the ASC county office and upon request a copy thereof shall be furnished without charge to any person who as operator, landlord, tenant, or sharecropper is interested in the wheat produced in 1957 on the farm for which the notice is given. Each notice shall contain the information necessary in each case to inform the producer as to the basis for the determination set forth in the notice and the effect thereof and shall be on Form MQ–93—Wheat.

§ 728.761 *Farms for which proper notice of 1957 farm marketing quota and farm marketing excess of wheat was not issued.* Where, for any reason, proper notice of the farm marketing quota and farm marketing excess and of the producer's right to obtain a downward adjustment in the farm marketing excess for his farm on account of actual production, and of his right to store or deliver to the Secretary the farm marketing excess of wheat established for the farm was not issued to the producer in sufficient time to allow him 30 days prior to the time in which he was required to make application for a downward adjustment, or to store or deliver to the Secretary the farm marketing excess, as prescribed by §§ 728.760, 728.762, 728.783 and 728.784, the producer shall be so notified by the county committee on Form MQ–93—Wheat and the producer may, within 30 days from the date such notice is mailed to him apply to the county committee for a downward adjustment in the amount of the farm marketing excess and may, within 30 days from the date such notice is mailed store or deliver to the Secretary the farm marketing excess as provided in §§ 728.762, 728.783 and 728.784. In the event application for downward adjustment in the farm marketing excess is made by the producer, a revised notice on Form MQ–93—Wheat with a copy of the determination of the county committee as provided in § 728.762 (b) shall be mailed to the operator of the farm, to the applicant if he is not such operator, and to all other interested producers.

§ 728.762 *Farm marketing excess adjustment*—(a) *Adjustment in the amount of the farm marketing excess.* Any producer having an interest in the wheat produced in 1957 on any farm for which there is a farm marketing excess may (1) within 60 days after the harvesting of wheat is normally substantially completed in the county or area in the county in which the farm is situated apply to the county office for a downward adjustment in the amount of the farm marketing excess on the basis of the amount of wheat produced in 1957 on the farm, or (2) apply to the county office at any time prior to the institution of court proceedings to collect the penalty for a determination that there was no farm marketing excess for the farm because the actual production on the farm was not in excess of the normal production of the acreage allotment. Notwithstanding the foregoing provisions of this paragraph, whenever the county committee determines that no wheat has been or will be produced in 1957 on a farm with a farm marketing excess, the county committee may adjust the farm marketing excess and notify the operator of such adjustment, as provided in paragraph (b) of this section. The date on which the harvesting of wheat is normally substantially completed in the county or area in the county shall be determined by the State committee with the approval of the Secretary, taking into consideration recommendations which the county committee may make and, unless application for an adjustment in the farm marketing excess is made prior to the expiration of 60 calendar days next succeeding that date, or unless prior to the institution of court proceedings to collect the penalty with respect to the farm it is determined that there was no farm marketing excess for the farm, the farm marketing excess for any farm in the county as determined on the basis of the normal production of the excess wheat acreage for the farm shall be final as to the producers on the farm. The producer must furnish satisfactory proof to the county committee of his actual production. The county office shall keep a record of each application so made and the date thereof. The county committee shall establish a time and place at which each application will be considered and shall notify the applicant of the time and place of the hearing. Insofar as practicable, applications shall be considered in the order in which made. The established dates on which wheat harvest is normally substantially completed have been determined as aforesaid as follows:

SPRING WHEAT

July 30, 1957: Goshen, Laramie, Platte.

August 20, 1957: Big Horn, Campbell, Converse, Crook, Fremont, Hot Springs, Johnson, Natrona, Niobrara, Park, Sheridan, Washakie, Weston.

September 1, 1957: Albany, Carbon, Lincoln, Sublette, Sweetwater, Teton, Uinta.

(b) *Procedure in connection with an application for an adjustment in the farm marketing excess.* The county committee shall consider each application on the basis of facts known by or made available to it and on the basis of such evidence as may be presented to it by the applicant. The actual production of any farm shall be determined on the basis of the relevant facts, including past production on the farm; the actual yields during the same year of other farms in the community; the actual and normal yields of other farms in the community which are similar with regard to farming practices followed, type of soil, and productivity; the harvesting, processing, and sales of the commodity produced on the farm; farming practices followed on the farm; and weather and other factors affecting the production of wheat on the farm and in the locality in which the farm is situated. In the consideration of any application for an adjustment in the farm marketing excess, the producer shall have the burden of proof. The evidence presented by the applicant may be in the form of written statements or other documentary evidence or of oral testimony in a hearing before the county committee during its consideration of the application. In order to expedite the consideration of applications, the county committee shall receive, in advance of the time fixed for consideration of the application, any written statement or documentary evidence offered by or on behalf of the applicant, and the application may be disposed of upon the basis of such statement or evidence, together with other information bearing on or establishing the facts which is available to the county committee, unless the applicant appears before the county committee at the time fixed for considering the application and requests a hearing for the purpose of offering documentary evidence or oral testimony in support of the application. Every such hearing shall be open to the public. The county committee shall make its determination in connection with each application not later than five calendar days next succeeding the day on which the consideration of the application was concluded. The determination of the county

committee shall be in writing and shall contain (1) a concise statement of the grounds upon which the applicant sought an adjustment in the amount of the farm marketing excess, (2) a concise statement of the findings of the county committee upon the questions of fact, and (3) the determination of the county committee as to the farm marketing quota and farm marketing excess. A revised notice on Form MQ–93—Wheat with a copy of the determination made as aforesaid shall be mailed to the operator of the farm, to the applicant if he is not such operator, and to all other interested producers. All county committee determinations made in connection with applications for adjustment in the farm marketing excess shall be subject to review and revision by the State committee or on behalf of the State committee by the State administrative officer, program specialist, or farmer fieldman. No notice of the determination shall be mailed to the operator until the determination has been approved by or on behalf of the State committee.

§ 728.763 *Publication of the farm acreage allotments, marketing quotas, and marketing excesses.* A record of the farm acreage allotments, farm marketing quotas, and farm marketing excesses established for farms in the county shall be made and kept freely available for public inspection in the ASC county office.

§ 728.764 *Marketing quotas not transferable.* A farm marketing quota established for a farm may not be assigned or otherwise transferred in whole or in part to any other farm.

§ 728.765 *Successors in interest.* Any person who succeeds to the interest of a producer in a farm or in a wheat crop produced on a farm for which a farm marketing quota and farm marketing excess were established, shall, to the same extent as his predecessor, be entitled to all the rights and privileges incident to such marketing quota and marketing excess and be subject to the restrictions on the marketing of wheat. However, a successor to a deceased producer shall not be personally liable for an unpaid marketing quota penalty incurred by the producer prior to his death, but a suit may be brought to enforce the lien for the penalty against the wheat. If a successor in interest should acquire from a deceased producer wheat subject to the lien for the penalty, no marketing card or marketing certificate shall be issued to permit the successor in interest to market the wheat penalty free until the penalty has been satisfied.

§ 728.766 *Review of quotas*—(a) *Right to review by a review committee.* Any producer who is dissatisfied with the farm acreage allotment, normal yield, farm marketing quota, farm marketing excess, or other determination for his farm in connection with marketing quotas may, within 15 calendar days after the notice thereof was mailed to him apply in writing for a review by a review committee of such acreage allotment, normal yield, farm marketing quota, farm marketing excess or other determination in connection therewith: *Provided*, That if a review hearing has been held and determination made by a review committee with respect to the acreage allotment, normal yield, farm marketing quota, farm marketing excess, or other determination in connection therewith, no application by a producer for further review by a review committee with respect to such determination may be filed. Unless application for review is made within such period, the acreage allotment, normal yield, farm marketing quota, farm marketing excess, or other determination, as the case may be, shall be final as to the producers on the farm. Application for review and the review committee proceedings shall be in accordance with the review regulations (21 F. R. 9365) as issued by the Secretary (Part 711 of this chapter).

(b) *Action by county committee prior to review hearing.* Action shall be taken by the county committee prior to the review hearing in accordance with § 711.14 of the review regulations (21 F. R. 9365).

(c) *Court review.* If a producer is dissatisfied with the determination of the review committee, he may, within 15 days after notice of such determination is mailed to him by registered mail, institute proceedings against the review committee to have the determination of the review committee reviewed by a court in accordance with section 365 of the act.

MARKETING CARDS AND MARKETING CERTIFICATES

§ 728.767 *Issuance of marketing cards*—(a) *Producers eligible to receive marketing cards.* The operator and all other producers on a farm shall be eligible to receive a marketing card (MQ–76—Wheat (1957)) if (1) no farm marketing excess is determined for the farm, (2) an amount equal to the penalty on the farm marketing excess has been received from the producer or any buyer as provided in § 728.778 or § 728.779, (3) the farm marketing excess is stored, as provided in § 728.783, or (4) the amount of the farm marketing excess has been delivered to the Secretary, as provided in § 728.784. Upon request a marketing card will be issued to any wheat producer for a farm outside the commercial wheat-producing area. Marketing cards will be delivered to producers at the office of the county committee, except that if the county committee determines that it would facilitate the effective administration of the Act marketing cards may be mailed to the producers entitled thereto. Each marketing card shall be serially numbered and shall show the names of the State and county and code number thereof and the serial number of the farm, the signature of the county office manager or his designee, the name and address of the producer to whom issued, and the countersignature of the producer to whom the card is issued, or his duly authorized agent, or a statement by the county office manager or his designee giving an explanation of the reason for which the countersignature cannot be made. The producers on a farm shall be ineligible to receive marketing cards if any producer on the farm owes any penalty for 1954, 1955, or 1956 excess wheat, or if determination of the 1957 wheat acreage has not been made and has been prevented by any producer on the farm. A producer shall not be considered to owe any penalty if he has avoided or postponed payment of the penalty through storage of excess wheat in accordance with applicable regulations.

(b) *Multiple farm producers eligible to receive marketing cards.* Any producer who is a wheat producer on more than one farm in a county shall not be eligible to receive a marketing card for any such farm in the county until, in accordance with the provisions of paragraph (a) of this section, he is eligible to receive a marketing card for each of such farms. However, only one wheat marketing card need be issued to a producer who has an interest in the wheat crop on more than one farm in the county, provided (1) the farm serial numbers of all such farms are entered on the marketing card, (2) the producer is eligible to receive a marketing card on each farm in the county in which he has an interest in the wheat crop, and (3) the producer's liability has not been reduced to a proportionate share of any such farm. The other producers on a farm for which the multiple farm producer would otherwise be eligible to receive a marketing card shall receive marketing cards with respect to the farm notwithstanding the ineligibility of the multiple farm producer. Where a producer is engaged in the production of wheat in more than one county (in the same State or in two or more States), the regulations outlined in this section for issuing marketing cards for multiple farms in a county shall be followed with respect to all such farms, wherever situated, if the county committees of the respective counties or if the State committee determines that the procedure would be necessary to enforce the provisions of the act. The State committee may require any multiple farm producer to file with it a list of all farms on which he is engaged in the production of wheat, together with any other information deemed necessary to enforce the act.

(c) *Use of marketing cards.* The serial number of the farm or farms for which a marketing card is issued shall be entered on the marketing card. A marketing card shall not be used to identify wheat produced on any farm the serial number of which is not entered on the card. A marketing card shall not be used to market any wheat which was not produced on a farm the serial number of which appears on the marketing card.

§ 728.768 *Issuance of marketing certificates.* The county office manager or his designee shall, upon request, issue a marketing certificate, Form MQ–76—Wheat, to any producer (a) who is eligible to receive a marketing card and who desires to market wheat by telegraph, telephone, mail, or by any means or method other than directly to and in the presence of the buyer or transferee, (b) whose liability has been reduced to a proportionate share of the entire penalty and discharge in accordance with the provisions of § 728.778 (c), (c) who

is ineligible to receive a marketing card solely because of penalties owed for 1954, 1955, or 1956 excess wheat, or (d) who is ineligible to receive a marketing card solely because of excess wheat produced on another farm as provided in § 728.767 (b). Upon request, a marketing certificate will be issued to any wheat producer outside the commercial wheat-producing area. Each marketing certificate shall show (1) the name and address of the producer to whom issued, (2) the names of the State and county and the code number thereof and the serial number for the farm, (3) the serial number of the marketing card assigned to the producer for the farm, (4) the signature of the county office manager or his designee, (5) the name of the buyer or transferee, (6) the number of bushels of wheat involved in the transaction, and (7) the signature of the producer. The original of the marketing certificate shall be issued to the producer for delivery to the buyer or transferee and the duplicate copy shall be retained in the ASC county office. A marketing certificate shall not be used to identify wheat produced on any farm the serial number of which is not entered on the certificate.

§ 728.769 *Lost, destroyed, or stolen marketing cards, marketing certificates, or soil bank delivery orders*—(a) *Report of loss, destruction, or theft.* In case a marketing card, marketing certificate, or producer's copy of soil bank delivery order (Form CCC–382 or CCC–103) delivered to a producer is lost, destroyed, or stolen, any person having knowledge thereof shall, insofar as he is able, immediately notify the ASC county office of the following: (1) the name of the operator of the farm for which such marketing card, marketing certificate, or soil bank delivery order was issued; (2) the name of the producer to whom the marketing card, marketing certificate, or soil bank delivery order was issued, if someone other than the operator; (3) the serial number of the marketing card, marketing certificate, or soil bank delivery order, and (4) whether in his knowledge or judgment it was lost, destroyed, or stolen and by whom.

(b) *Investigation and findings of county committee.* The county committee shall make or cause to be made a thorough investigation of the circumstances of such loss, destruction, or theft. If the county committee finds, on the basis of its investigation, that such marketing card, marketing certificate, or producer's copy of soil bank delivery order was in fact lost, destroyed, or stolen, it shall cause to be cancelled such marketing card, marketing certificate, or producer's copy of soil bank delivery order and instruct the county office manager to give notice to the producer to whom the marketing card, marketing certificate, or soil bank delivery order was issued that it is void and of no effect. The notice to that effect shall be in writing, addressed to the producer at his last-known address, and deposited in the United States mails. If the county committee also finds that there has been no collusion in connection therewith on the part of the producer to or for whom the marketing card, marketing certificate, or soil bank delivery order was issued, it shall cause to be issued to or for him a marketing card, marketing certificate, or producer's copy of soil bank delivery order to replace the lost, destroyed, or stolen marketing card, marketing certificate, or producer's copy of soil bank delivery order. Each marketing card, marketing certificate, or producer's copy of soil bank delivery order issued under this section shall bear across its face in bold letters the word "Duplicate." In case a marketing card, marketing certificate, or producer's copy of soil bank delivery order is cancelled, as provided in this section, the county office manager or his designee shall immediately notify the buyers, elevator operators, or warehousemen who serve the county, or the immediate vicinity of the farm, that the marketing card, marketing certificate, or producer's copy of soil bank delivery order is cancelled and of the issuance of any duplicate. Any person coming into possession of a cancelled marketing card, marketing certificate, or producer's copy of soil bank delivery order shall immediately return it to the ASC county office from which it was issued.

§ 728.770 *Cancellation of marketing cards and marketing certificates issued in error.* Any marketing card or marketing certificate erroneously issued shall, immediately upon discovery of the error, be cancelled by the county office manager. The producer to whom such marketing card or marketing certificate was issued shall be notified in the manner prescribed in § 728.769 (b) that the marketing card or marketing certificate is void and of no effect and that it shall be returned to the ASC county office. Upon the return of such marketing card or marketing certificate, the county office manager shall cause to be endorsed thereon the notation "cancelled." In the event that such marketing card or marketing certificate is not returned immediately, the county office manager shall immediately notify the elevator operators, warehousemen, and buyers who serve the county, or in the immediate vicinity, that the marketing card or marketing certificate is cancelled. A copy of each notice provided for in this section, containing a notation thereon of the date of mailing shall be kept among the records of the ASC county office.

IDENTIFICATION OF WHEAT

§ 728.771 *Time and manner of identification.* Each producer of wheat and each intermediate buyer shall, at the time he markets any wheat, identify the wheat, including wheat in a mixture, to the buyer or transferee, in the manner hereinafter provided, as being subject to or not subject to the penalty or the lien for the penalty.

§ 728.772 *Identification by marketing card.* A marketing card (MQ–76—Wheat (1957)) shall, when presented to the buyer by the producer to whom it was issued, be evidence to the buyer that the wheat for which the marketing card was issued may be purchased without the payment of the penalty by him and that such wheat is not subject to the lien for the penalty.

§ 728.773 *Identification by marketing certificate.* A marketing certificate (MQ–94—Wheat), properly executed by the county office manager or his designee and the producer to whom it is issued, shall, when delivered to the buyer by the producer, be evidence that the amount of wheat shown thereon may be purchased without the payment of any penalty by him and that such wheat is not subject to the lien for penalty.

§ 728.774 *Identification by intermediate buyer's record and report.* The original and copy of an intermediate buyer's record and report (MQ–95—Wheat), properly executed by the first intermediate buyer and the producer of the wheat and any subsequent buyer in the manner outlined in §§ 728.787 (d) and 728.788 shall be evidence to any buyer that the wheat covered thereby is not subject to the lien for penalty and may be purchased by him without payment of any penalty in the event either (a) the MQ–95—Wheat shows the serial number of the marketing card, marketing certificate, or soil bank delivery order by which the wheat was identified and the signatures of the producer and intermediate buyer, or (b) the original MQ–95—Wheat bears the endorsement "Penalty Satisfied" and the signature and title of a treasurer of a county committee and the date thereof.

§ 728.775 *Wheat identified as subject to the penalty and lien for the penalty.* All wheat marketed by a producer or by an intermediate buyer which is not identified in the manner prescribed in § 728.772, § 728.773, or § 728.774 shall be taken by the buyer thereof as wheat subject to penalty and the lien for the penalty and the buyer of such wheat shall pay the penalty thereon at the rate prescribed in § 728.776. A person other than a producer or intermediate buyer offering wheat sweepings or spillage for sale shall obtain a certification from the elevator opertor, warehouseman, feeder, or processor, or other grain dealer who conducts his business in a manner substantially the same as an elevator operator or warehouseman, stating that the wheat had previously been marketed to the person executing the certificate if such is the fact. Such certification shall be kept as part of the records of the buyer who buys the sweepings or spillage. Any person other than a producer or intermediate buyer offering wheat accumulated from samples taken for grading and testing purposes shall obtain a certification from the grader or tester certifying that the wheat was an accumulation of samples. Such certification shall be kept as part of the records of the buyer who buys the samples. The quantity of wheat obtained by a producer by redemption of Soil Bank Certificates, Form CCC 379, if offered for sale, shall be taken by the buyer as penalty free if identified by the producer's copy of the soil bank delivery order, Form CCC–382 or Form CCC–103 completely filled in by the county committee.

PENALTY

§ 728.776 *Rate of penalty.* The rate of penalty shall be 45 percent of the parity price of wheat as of May 1, 1957.

§ 728.777 *Lien for penalty.* The entire amount of wheat produced in 1957 on any farm for which a farm marketing excess is determined shall be subject to a lien in favor of the United States for the amount of the penalty until the producers on the farm, in accordance with § 728.783, § 728.784, § 728.778, or § 728.779, store the farm marketing excess or deliver it to the Secretary, or until the amount of the penalty is paid.

§ 728.778 *Payment of penalties by producers*—(a) *Producers liable for payment of penalties.* Each producer having an interest in the wheat produced in 1957 on any farm for which a farm marketing excess is determined shall be liable to pay the amount of the penalty on the farm marketing excess as provided in this section. The amount of the penalty which any producer shall pay shall nevertheless be reduced by the amount of the penalty which is paid by another producer or a buyer of wheat produced on the farm.

(b) *Time when penalties become due.* The farm marketing excess for any farm shall be regarded as available for marketing and the penalty thereon shall become due at the time any wheat produced on the farm is harvested. Notwithstanding the foregoing, in any event, the amount of the penalty with respect to the farm marketing excess shall become due and be remitted not later than 60 calendar days after the date on which the harvesting of wheat is normally substantially completed in the county or area in the county in which the farm is situated, as determined in accordance with § 728.762 (a), or not later than 30 calendar days after notice of the farm marketing excess of wheat is mailed to the producer as provided in § 728.761: *Provided, however,* That the penalty on that amount of the farm marketing excess delivered to the Secretary pursuant to § 728.784 or § 728.761 shall not be remitted: *And provided further,* That the penalty on that amount of the farm marketing excess which is stored pursuant to § 728.783 or § 728.761 shall not be remitted until the time, and to the extent, of any depletion in the amount of wheat so stored not authorized as provided in § 728.783 (g).

(c) *Apportionment of the penalty.* The county committee may, upon application of any producer made (1) within 60 days after the harvesting of wheat is normally substantially completed in the county or area in the county in which the farm is situated (as established in § 728.762 (a)) or (2) in the case of a delayed notice of the farm marketing excess within 30 days from the date such notice is mailed to him determine his proportionate share of the penalty on the farm marketing excess, if pursuant to the application, the producer establishes the fact that he is unable to arrange with the other producers on the farm for the payment of the penalty on the entire farm marketing excess in accordance with § 728.783 or § 728.784, that his share of the wheat crop produced on the farm is marketed or disposed of by him separately and that he exercises no control over the marketing or disposition of the shares of the other producers in the wheat crop. The producer's proportionate share of the penalty on the farm marketing excess shall be that proportion of the entire penalty on the farm marketing excess which his share in the wheat produced in 1957 on the farm bears to the total amount of wheat produced in 1957 on the farm. When the producer pays his proportionate share of the penalty, or, in accordance with § 728.783 or § 728.784, stores or delivers to the Secretary the number of bushels required to postpone or avoid the payment of the penalty on his proportionate share, he shall not be liable for the remainder of the penalty on the farm marketing excess and he shall be entitled to receive marketing certificates issued in accordance with § 728.768 to be used by him only in the marketing of his proportionate share of the wheat crop produced in 1957 on the farm.

§ 728.779 *Payment of penalties by buyer*—(a) *Buyers liable for payment of penalties.* Each person within the United States who buys from the producer any wheat subject to the lien for the penalty shall be liable for and shall pay the penalty thereon. Wheat shall be taken as subject to the lien for the penalty unless the producer presents to the buyer a marketing card (MQ–76—Wheat (1957)), marketing certificate (MQ–94—Wheat), or a completed producer's copy of the soil bank delivery order, Form CCC–382 or CCC–103, as prescribed in §§ 728.772, 728.773 and 728.775, except that buyers whose places of business are outside the commercial wheat-producing area need not require identification as aforesaid of wheat produced outside the commercial wheat-producing area. In all cases where such buyer is not satisfied that the wheat was produced outside the commercial wheat-producing area, he should obtain the identification required herein.

(b) *Payment of penalties on account of the lien for the penalty.* Each person within the United States who buys wheat which is subject to the lien for the penalty shall pay the amount of the penalty on each bushel thereof in satisfaction of the lien thereon. Wheat purchased from any intermediate buyer shall be taken as subject to the lien for the penalty unless, at the time of sale, the intermediate buyer delivers to the purchaser the original and a copy of an intermediate buyer's record and report, MQ–95—Wheat, properly executed by the producer of the wheat and the first intermediate buyer, which show (1) the serial number of marketing card, marketing certificate, or soil bank delivery order by which the wheat covered thereby was identified when marketed, or (2) on the reverse side the statement "Penalty satisfied" and the signature and title of a treasurer of the county committee and the date thereof.

(c) *Time when penalties become due.* The penalty to be paid by any buyer pursuant to paragraph (a) or (b) of this section shall be due at the time the wheat is purchased and shall be remitted not later than 15 calendar days thereafter.

(d) *Manner of deducting penalties and issuance of receipts.* The buyer may deduct from the price paid for any wheat an amount equivalent to the amount of the penalty to be paid by the buyer pursuant to paragraph (a) or (b) of this section. Any buyer who deducts an amount equivalent to the penalty shall issue to the person from whom the wheat was purchased a receipt for the amount so deducted which shall be, in the case of wheat purchased from the producer by an intermediate buyer, on MQ–95—Wheat, and, in all other cases, on MQ–81—Wheat.

§ 728.780 *Remittance of penalties to the treasurer of the county committee.* The penalty shall be delivered or mailed to the county committee. The penalty shall be remitted only in legal tender, or by check, draft, or money order drawn payable to the order of the Commodity Stabilization Service. All checks, drafts, and money orders tendered in payment of the penalty shall be received by the treasurer of the county committee subject to collection and payment at par. If the penalty is remitted by an intermediate buyer, the treasurer of the county committee shall show that the penalty is paid by entering on the reverse side of the original and first copy of the intermediate buyer's record and report, MQ–95—Wheat, the statement "Penalty satisfied" and his signature and title and the date thereof.

§ 728.781 *Deposit of funds.* All funds received in the office of the county committee in connection with penalties for wheat shall be scheduled and transmitted by the treasurer of the county committee on the day received or not later than the next succeeding business day, to the State committee, which shall cause such funds to be deposited to the credit of a special deposit account with the Treasurer of the United States in the name of the Chief Disbursing Officer of the Treasury Department (herein referred to as "special deposit account") to be held in escrow. In the event the funds so received are in the form of cash, the treasurer of the county committee shall deposit such funds in the ASC county committee bank account and issue a check in the amount thereof, payable to the order of the Commodity Stabilization Service. The treasurer of the county committee shall make and keep a record of each amount received in the county office, showing the name of the person who remitted the funds, the identification of the farm or farms in connection with which the funds were received, and the name of the person who marketed the wheat in connection with which the funds were remitted.

§ 728.782 *Refunds of money in excess of the penalty*—(a) *Determination of refunds.* The county committee and the treasurer of the county committee upon their own motion or upon the request of any interested person shall review the amount of money received in connection with the penalty for any farm to determine for each producer the amount thereof, if any, which is in excess of the security required for stored excess wheat or the penalty due. Any excess amount shall be refunded. Any refund shall be made only to persons who bore the burden of the payment and who have not been reimbursed therefor. The excess amount shall first be applied, insofar as the sum will permit, so as to make refunds to eligible persons other than producers and the remainder, if any shall be applied so as to make refunds to the eligible producers. The amount to be refunded to each producer shall be either (1) the amount determined by apportioning the excess amount among the producers on the farm in the proportion that each contributed toward the payment, avoidance, or security of the penalty on the farm marketing excess, or (2) the amount which is in excess of the security required for stored excess wheat and the penalty due on that portion of the farm marketing excess for which the producer is separately liable. No refund shall be made to any buyer or transferee of any amount which he collected from the producer or another, deducted from the price or consideration paid for the wheat, or for which he was liable.

(b) *Certification of refunds.* The county office manager or the treasurer of the county committee shall notify the State committee of the amount which the county committee and its treasurer determine may be refunded to each person with respect to the farm, and the State committee shall cause to be certified to the Chief Disbursing Officer of the Treasury Department for payment such amounts as are approved by it. No refund of money shall be certified under this section unless the money has been remitted to the county committee and transmitted by the treasurer of the county committee to the State committee.

§ 728.783 *Storage of farm marketing excess*—(a) *Amount of wheat to be stored.* The number of bushels of wheat in connection with any farm which may be stored in order to postpone the payment of the penalty or with a view to avoiding such penalty shall be that portion of the farm marketing excess which has not been delivered to the Secretary or on which the penalty has not been paid. The amount of the farm marketing excess for the purpose of storage shall be the amount of the farm marketing excess as determined, at the time of storage, under § 728.759 or § 728.762, whichever is applicable.

(b) *Kinds of storage—commingling and substitution.* Excess wheat shall be stored either in an elevator or warehouse duly licensed and authorized to issue warehouse receipts under Federal or State laws, hereinafter referred to as "licensed storage," or in any other place adapted to the storage of wheat, hereinafter referred to as "non-licensed storage." Commingling and substitution shall be permissible in the case of licensed storage. In the case of non-licensed storage excess wheat for 1957 or any prior year may with the prior written approval of the county committee be commingled with stored excess wheat from any other year and any or all stored excess wheat of a prior year may be replaced by wheat produced by the same producer in 1957 on the same or any other farm if (1) the county committee gives prior written approval of such replacements; (2) the county committee determines that the 1957 wheat crop is of a quality equal to or better than the wheat of the prior year in storage and for which substitution is to be made; (3) the stored excess of the prior year which is removed from storage is replaced by an equivalent amount of the 1957 crop wheat within 30 days after such removal; and (4) the requirements of this section with respect to furnishing a bond or depositing funds in escrow are complied with. The removal of stored excess wheat of a prior crop from storage without compliance with all conditions precedent or subsequent to such removal shall constitute unauthorized depletion of the storage amount and shall be subject to penalty as provided in § 728.783 (g). Wheat in which the producer has an interest produced on any farm may be stored in any location to postpone the penalty on any excess wheat in which the same producer has an interest, provided the wheat so stored is determined by the county committee, to be of a quality equal to or better than the wheat produced on the farm with the excess. The storage of wheat in non-licensed storage shall be effective only if the producer submits a written statement showing the exact location of the stored wheat by quarter section or other comparable descriptive location in areas where description is not by quarter sections. Excess wheat for any year which was properly stored in non-licensed storage in order to postpone the payment of a penalty or with a view to avoiding such penalty may be moved to licensed storage if, prior to the movement of the wheat, a written request to do so is filed with the county committee and approval of such committee is granted in writing and if the wheat is moved and stored in licensed storage in accordance with paragraph (c) of this section within 15 days after approval is granted. When all requirements for licensed storage have been met in accordance with the foregoing provisions the bond or escrow funds held in connection with the non-licensed storage may be released. The penalty on any stored wheat removed from non-licensed storage without the prior written authorization from the county committee shall be due on such removal. Wheat stored in non-licensed storage shall be subject to inspection at all times by officers or employees of the Department, or members, officers or employees of the appropriate State or county committee.

(c) *Licensed storage; deposit of warehouse receipts in escrow.* The storage of excess wheat in licensed storage in order to postpone the payment of the penalty or with a view to avoiding such penalty shall be effective for such purposes only when a warehouse receipt covering the amount of wheat so stored is deposited with the treasurer of the county committee to be held in escrow. The warehouse receipt shall be an endorsed negotiable receipt or a non-negotiable receipt as to which the warehouseman or elevator operator has been notified in writing by the owner of such receipt and the treasurer of the county committee that it is being so deposited in escrow and that delivery of the wheat covered thereby is to be made under the terms of the deposit in escrow while such receipt remains so deposited. Any warehouse receipt so deposited shall be accepted only upon the condition that the producers by or for whom the wheat is stored shall be and shall remain liable for all charges incident to the storage of the wheat and that the county committee and the United States in no way shall be liable for such charges. Whenever the penalty with respect to wheat covered by the warehouse receipts is paid or otherwise satisfied in accordance with law, the warehouse receipt shall be returned to the person who deposited it.

(d) *Non-licensed storage bonds.* The storage of excess wheat in non-licensed storage in order to postpone the payment of the penalty or with a view to avoiding such penalty shall be effective only when a good and sufficient bond of indemnity, on a form prescribed for the purpose, is executed and filed with the treasurer of the county committee in an amount not less than the amount of the penalty on that portion of the farm marketing excess so stored, or funds are deposited in escrow as hereinafter provided. Each bond given pursuant to this paragraph shall be executed as principal by the producer storing the wheat and either by two persons as sureties who are not producers on the farm and who own real property with an unencumbered value of double the principal sum of the bond, exclusive of homestead exemptions, or by a corporate surety authorized to do business in the State in which the farm is situated and listed by the Secretary of the Treasury of the United States as an acceptable surety on bonds to the United States. Each bond of indemnity shall be subject to the conditions that the penalty on the amount of wheat stored shall be paid at the time, and to the extent, of the depletion of any amount stored which is not authorized under these regulations, and that if at any time any producer on the farm prevents the inspection of any wheat so stored the penalty on the entire amount stored shall be paid forthwith. Whenever the penalties secured by the bond of indemnity are paid or reduced for any cause, the treasurer of the county committee shall furnish the principal and the sureties with a written statement to that effect. A new bond covering all excess wheat of the producer stored in non-licensed storage and not covered by funds in escrow shall be required as a condition for commingling wheat or permitting substitution of 1957 wheat for stored excess wheat of prior years. In such case upon approval and acceptance of the new bond the old bond may be released. The bond of indemnity provided for in this paragraph may be waived by the county committee with the approval of the State committee if the excess was produced by a State or State institution or other agency of a State or by a Federal institution or Federal agency: *Provided,* That as a condition of the waiver the head of the State or Federal institution or State or Federal agency shall agree in writing to comply with all the other provisions of these regulations with respect to stored farm marketing excess.

(e) *Non-licensed storage; deposit of funds in escrow.* The storage of excess wheat in non-licensed storage in order to postpone the payment of the penalty or with a view to avoiding such penalty, if a bond is not furnished in compliance with §§ 728.750 to 728.798, shall be effective for such purpose only when an amount of money equal to the penalty on that portion of the farm marketing excess so stored is deposited with the Treasurer of the United States to be held in escrow to secure the payment of such penalty and the right of inspection during the period of storage. The treasurer of the county committee shall receive all checks, drafts, and money orders subject to collection and payment at par. Funds in escrow shall be subject to the condition that the penalty on the amount of wheat stored shall be paid at the time, and to the extent, of any depletion of the amount stored which is not authorized and that if at any time any producer on the farm prevents inspection of any wheat so stored, the penalty on the entire amount stored shall be paid forthwith. In case approval is granted to commingle wheat or to substitute 1957 wheat for wheat of prior years there shall be on deposit in escrow, pursuant to the provisions of this paragraph, funds which cover all excess wheat for any year stored by the producer in non-licensed storage pursuant to this section which is not covered by a bond given pursuant to paragraph (d) of this section. Whenever the penalty with respect to wheat covered by funds in escrow is paid or otherwise satisfied in accordance with law the amount of funds covering such wheat shall be released to the person who made the escrow deposit.

(f) *Time of storage.* Storage of wheat in connection with any farm in order to postpone the payment of the penalty or with a view to avoiding such penalty shall not be effective unless the provisions of paragraphs (a) and (b) and (c), (d) or (e) of this section are complied with prior to the expiration of the period allowed, in accordance with § 728.778 (b), or § 728.761, for the remittance of the penalty with respect to the farm marketing excess for the farm.

(g) *Depletion of stored excess wheat.* The penalty on the amount of excess wheat stored shall be paid by the producers on the farm at the time and to the extent of any depletion in the amount of wheat stored except as provided in paragraphs (h) and (i) of this section and except to the extent of the following: (1) The amount by which the stored excess wheat exceeds the farm marketing excess for the farm as determined in accordance with § 728.762, (2) the amount by which the stored excess wheat exceeds the amount of the farm marketing excess as determined by a review committee or as a result of a court review of the review committee determination, (3) the amount of any wheat destroyed by fire, weather conditions, theft, or any other cause beyond the control of the producer, provided the producer shows beyond a reasonable doubt that the depletion resulted from such cause and not from his negligence nor from any affirmative act done or caused to be done by him, and (4) the amount of any wheat delivered to the Secretary under the provisions of § 728.784. The penalty on the amount of any unauthorized depletion in the storage amount shall be at the rate applicable to the marketing year in which the stored excess wheat was produced, except that if the storage amounts of two or more crops are commingled or if the storage amount of one crop is replaced by wheat of another crop, as provided in paragraph (b) of this section, the penalty shall be computed first at the rate applicable to the marketing year for the oldest crop involved in the storage amount until the entire penalty for the storage amount of such crop is satisfied and thereafter in turn at the rate applicable to the marketing year for each of the next oldest crops involved in the storage amount until the entire penalty for the storage amount of each such crop is satisfied.

(h) *Underplanting the farm acreage allotment for a subsequent crop.* Whenever the wheat acreage on any farm for the 1958 or subsequent crop of wheat is less than the farm acreage allotment therefor, the producers on the farm who stored excess wheat in accordance with the foregoing provisions of this section shall, upon application made by them to the county committee, be entitled to remove from storage without penalty any wheat so stored by them, whether produced in a prior year on the farm or another farm, to the extent of the normal production of the number of acres by which the acreage planted to wheat is less than the farm acreage allotment. The amount of wheat which would otherwise be authorized to be removed from storage in connection with the farm under this paragraph shall be reduced to the extent that stored excess wheat from any other crop is authorized to be removed from storage in connection with the farm. The amount of wheat authorized to be removed from storage shall be apportioned among the several producers on the farm who have stored excess wheat to the extent of their need therefor in accordance with their shares in the acreage which was or could have been planted to wheat or in accordance with their agreement as to the apportionment to be made. A producer shall not be entitled to remove wheat from storage under this paragraph in connection with any farm unless, at the time the determination is made under this paragraph, the wheat is stored and owned by the producer and, at the end of the wheat seeding season for the crop for the area in which the farm is situated, the producer is entitled to share in the wheat crop which was or could have been planted on the farm. For the purpose of this paragraph the acreage planted to wheat shall be the wheat acreage on the farm plus the acreage diverted from the production of wheat under the Soil Bank acreage reserve program.

(i) *Producing a subsequent crop which is less than the normal production of the farm acreage allotment.* Whenever the actual production of wheat in 1958 or any subsequent year on any farm is less than the normal production of the farm acreage allotment therefor, the producers on the farm who stored excess wheat in accordance with the foregoing provisions of this section shall, upon application made by them to the ASC county office, be entitled to remove from storage without penalty, any wheat so stored by them, whether produced in the prior year on the farm or another farm, to the extent of the amount by which the normal production of the farm acreage allotment, less the normal production of the underplanted acreage for the farm which was or could have been determined under paragraph (h) of this section exceeds the amount of wheat produced on the farm in that year. The actual production of wheat on the farm shall include in addition to the wheat actually produced on the farm the production of wheat attributed to the Soil Bank acreage reserve for the farm on the basis of the yield used or which could have been used for determining the rate of payment per acre for the acreage reserve program. The amount of wheat which would otherwise be authorized to be removed from storage in connection with the farm under this paragraph shall be reduced to the extent that stored excess wheat from any other crop is authorized to be removed from storage in connection with the farm. The amount of wheat which is authorized to be removed from storage shall be apportioned among the several producers on the farm who have stored excess wheat to the extent of their need therefor in accordance with their proportionate shares in the wheat crop planted on the farm or in accordance with their agreement as to the apportionment to be made. The determination of the amount of wheat produced on the farm shall be made in accordance with the marketing quota regulations applicable to the crop. A producer shall not be entitled to remove wheat from storage under this paragraph for any farm unless, at the time the determination is made under this paragraph, the wheat is stored and owned by the producer and, at the time of harvest, the producer is entitled to a share in the wheat crop on the farm.

§ 728.784 *Delivery of the farm marketing excess to the Secretary—(a) Amount of wheat to be delivered.* The amount of wheat delivered to the Secretary in order to avoid the payment of the penalty in connection with any farm shall not exceed the amount of the farm marketing excess as determined, at the time of delivery, in accordance with § 728.759 or § 728.762, whichever is applicable.

(b) *Conditions and methods of delivery.* For and on behalf of the Secretary, the treasurer of the county committee for the county in which the farm for which the marketing excess is determined is situated shall accept the delivery of any wheat tendered to avoid the payment of the penalty. The delivery of the wheat for this purpose shall be effective only when the producers having an interest in the wheat to be so delivered convey to the Secretary all right, title, and interest in and to the wheat by executing a form provided for this purpose, and (1) deliver the wheat to a wheat elevator or warehouse and tender to the treasurer of the county committee, the elevator or warehouse receipts for the amount of the wheat, or (2) if the producer shows to the satisfaction of the county committee that it is impracticable to deliver the wheat to an elevator or warehouse and receive an elevator or warehouse receipt therefor, deliver the wheat at a point within the county or nearby and within such time or times as may be designated by the county office manager. None of the wheat so delivered shall be returned to the producer. Insofar as practicable, the wheat so delivered shall be delivered to the Commodity Credit Corporation of the United States Department of Agriculture, and any wheat which it is impracticable to deliver to such Corporation shall be distributed to such one or more of the following classes of agencies or organizations as the State committee selects, which delivery the Secretary hereby determines will divert it from the normal channels of trade and commerce: Any Federal relief organization, the American Red Cross, State or municipal relief organization, Federal or State wildlife refuge project, or any voluntary relief organization registered with the Advisory Committee on Voluntary Foreign Aid of the International Cooperation Administration for the shipment for relief overseas.

(c) *Time of delivery.* Excess wheat may be delivered to the Secretary at any time within 60 calendar days after the date on which the harvesting of wheat is normally substantially completed in the county as determined in accordance with § 728.762 (a), or pursuant to § 728.761. Excess wheat may be delivered to the Secretary after such period only if the excess wheat was stored in accordance with the provisions of § 728.783 (a) through (f) and the wheat has not gone out of condition through any fault of the producer.

§ 728.785 *Refund of penalty, erroneously, illegally, or wrongfully collected.* Whenever, pursuant to a claim filed with the Secretary within two calendar years after payment to him of the penalty collected from any person, pursuant to the act, the Secretary finds that the penalty was erroneously, illegally, or wrongfully collected, and the claimant bore the burden of such penalty, he shall certify to the Secretary of the Treasury of the United States for payment to the claimant, in accordance with regulations prescribed by the Secretary of the Treasury of the United States, such amount as the claimant is entitled to receive as a refund of all or a portion of the penalty. Any claim filed pursuant to this section shall be made in accordance with regulations prescribed by the Secretary.

§ 728.786 *Report of violations and court proceedings to collect penalty.* It shall be the duty of the county office manager to report in writing to the State administrative officer each case of failure or refusal to pay the penalty or to remit the same as provided in §§ 728.778 through 728.780. It shall be the duty of the State administrative officer to report each such case in writing to the Office of the General Counsel of the Department, which shall have authority to refer such cases for the institution of proceedings by the United States Attorney for the appropriate district, under the direction of the Attorney General of the United States, to collect the penalties, as provided in section 376 of the act.

RECORDS AND REPORTS

§ 728.787 *Records to be kept and reports to be made by warehousemen, elevator operators, feeders, or processors, and buyers other than intermediate buyers—(a) Necessity for records and reports.* Each warehouseman, elevator operator, feeder, or processor, and each buyer other than an intermediate buyer, who buys, acquires, or receives wheat from the producer or intermediate buyer thereof shall in conformity with section 373 (a) of the act, keep the records and make the reports prescribed by this section, which the Secretary hereby finds to be necessary to enable him to carry out with respect to wheat the provisions of the act: *Provided*, That a warehouseman, elevator operator, feeder, or processor, or buyer other than an intermediate buyer, whose place of business is outside the commercial wheat-producing area need not keep records of the identification of wheat produced outside the commercial wheat-producing area.

(b) *Nature and availability of records.* Each warehouseman, elevator operator, feeder, or processor, and each buyer other than an intermediate buyer, shall keep, as a part of or in addition to the records maintained by him in the conduct of his business, a record which shall show with respect to the wheat purchased, acquired, or received by him from the producers or the intermediate buyers thereof the following information: (1) The name and address of the producer of the wheat or the name and address of the person who acquired the wheat through redemption of a soil bank certificate, (2) the date of the transaction, (3) the amount of the wheat, (4) the serial number of the marketing card (MQ–76—Wheat (1957)), marketing certificate (MQ–94—Wheat), intermediate buyer's record and report (MQ–95—Wheat), or soil bank delivery order (CCC–382 or CCC–103) by which the wheat was identified, or the report and penalty receipt (MQ–81—Wheat), and (5) the amount of any lien for the penalty or of any penalty incurred in connection with the wheat purchased, acquired, or received by him. The record so made and all business records of such person required to keep such records shall be kept available for examination by the county office manager or any authorized representative of the State administrative officer or investigators and accountants (special agents) or other authorized representatives of the Director, Compliance and Investigation Division, Commodity Stabilization Service, United States Department of Agriculture, for two calendar years beyond the calendar year in which the marketing year ends. Such records shall include relevant books, papers, records, accounts, correspondence, contracts, documents, and memoranda, but shall be examined only for the purpose of ascertaining the correctness of any report made or record kept pursuant to the regulations in this subpart, or of obtaining the information required to be furnished in this subpart but not so furnished. The county office manager shall furnish, without cost, blank copies of MQ–97—Wheat which may be used for the purpose of keeping the record required under this section.

(c) *Records and reports in connection with wheat subject to penalty.* Each warehouseman, elevator operator, feeder, or processor, and each buyer other than an intermediate buyer, who purchases any wheat from the producer or intermediate buyer thereof which is not identified at the time the wheat is purchased in the manner provided in §§ 728.772, 728.773, 728.744 and 728.775 shall, with respect to each such transaction, execute the report and penalty receipt on MQ–81—Wheat and report to the treasurer of the county committee the following information: (1) The name and address of the producer or intermediate buyer from whom the wheat was purchased or acquired, (2) the date of the transaction, (3) the amount of the wheat, and (4) the amount of the penalty incurred in connection with the transaction, and whether an amount equivalent to penalty was deducted from the price or consideration paid for the wheat. Each record and report on MQ–81—Wheat shall be executed in triplicate. The person who executes MQ–81—Wheat shall retain one copy, give the original to the producer or intermediate buyer, as the case may be, which shall be the receipt to him for the amount of the penalty in connection with wheat, and mail or deliver the remaining copy to the treasurer of the county committee. It shall be presumed that wheat was not identified by MQ–76—Wheat (1957) as provided in § 728.772, or MQ–94—Wheat as provided in § 728.773, or MQ–95—Wheat as provided in § 728.774, or CCC–382 or CCC–103 as provided in § 728.775 if the serial number of the marketing card, marketing certificate, intermediate buyer's record and report, or soil bank delivery order does not appear on the records required to be kept pursuant to paragraph (b) of this section.

(d) *Records and reports in connection with wheat identified by intermediate buyer's records and reports and soil bank delivery orders.* Whenever wheat is identified by the intermediate buyer's record and report (MQ–95—Wheat) executed in accordance with § 728.788, the warehouseman, elevator operator, feeder, or processor, or the buyer other than an intermediate buyer, who purchases or acquires the wheat covered thereby shall retain the first copy as a record of the transaction and forward the original to the treasurer of the county committee as a report on the transaction in every case where he purchases or acquires all or the remainder of the wheat covered by the record and report. In all other cases, where the warehouseman, elevator operator, feeder or processor, or the buyer other than an intermediate buyer, purchases or acquires only a portion of the wheat covered by the intermediate buyer's record and report, he shall make a record and report of the transaction by endorsing on the reverse side of both the original and first copy his name and

signature, the amount of wheat purchased or acquired, and the date of the transaction and return the forms so endorsed to the intermediate buyer to be delivered to the person who finally purchases or acquires the remainder of the wheat. The provisions of this paragraph for endorsing the intermediate buyer's record and report when only a portion of the wheat covered by the report is purchased shall also be followed when only a portion of the wheat covered by a soil bank delivery order is purchased.

(e) *Records in connection with wheat identified by marketing certificates.* Whenever wheat is identified by a marketing certificate (MQ–94—Wheat), the warehouseman, elevator operator, feeder, or processor, or the buyer other than an intermediate buyer, who purchases the wheat so identified shall retain the marketing certificate as a record of the transaction.

(f) *Time and place of submitting reports.* Each report required by this section shall be submitted not later than 15 calendar days next succeeding the day on which the wheat was marketed to a warehouseman, elevator operator, feeder, or processor, or a buyer other than an intermediate buyer, to the treasurer of the county committee for the county in which the wheat was produced.

§ 728.788 *Records to be kept and reports to be made by intermediate buyers*—(a) *Necessity for records and reports.* Each intermediate buyer shall, in conformity with section 373 (a) of the act, keep the records and make the reports prescribed by this section, which the Secretary hereby finds to be necessary to enable him to carry out, with respect to wheat, the provisions of the act.

(b) *Form of record and report in connection with wheat purchased or acquired from producers.* Each intermediate buyer who purchases or acquires any wheat from the producer thereof shall, with respect to each such transaction, keep a record and make a report on the intermediate buyer's record and report (MQ–95–Wheat) of the following information: (1) The name and address of the producer from whom the wheat was purchased or acquired (2) the names of the county and State in which the wheat was produced, (3) the date of the transaction, (4) the number of bushels of wheat, (5) the serial number of the marketing card, marketing certificate or soil bank delivery order by which the producer identified the wheat at the time it was marketed, or if the wheat is not so identified, the amount of the penalty, and whether an amount equivalent to the penalty was collected or deducted from the price or consideration paid for the wheat, and (6) the year in which the wheat was harvested. The record and report shall be executed in quadruplicate and, after the entries described above are made, the intermediate buyer and producer shall certify to the correctness of the entries by signing the MQ–95—Wheat. One copy of MQ–95—Wheat so executed shall be retained by the producer as a record of the transaction and as a receipt for the amount equivalent to the penalty, if any, which was deducted from the price or consideration paid for the wheat. One copy of MQ–95—Wheat so executed shall be retained by the intermediate buyer as his record in connection with the transaction. Whenever wheat is identified by a marketing certificate (MQ–94—Wheat), the intermediate buyer shall attach the original of the marketing certificate to the first copy of MQ–95—Wheat to be delivered to the warehouseman, elevator operator, feeder, or processor, or buyer other than an intermediate buyer, who finally acquires the wheat covered by MQ–95—Wheat and marketing certificate MQ–94—Wheat. Whenever the intermediate buyer markets or delivers a portion of the wheat covered by a single MQ–95—Wheat to another and retains a portion of the wheat, the intermediate buyer shall obtain from the person to whom the portion of the wheat is marketed or delivered an endorsement on the reverse side of both the original and first copy of MQ–95—Wheat showing the name and signature of the person, the number of bushels of wheat marketed or delivered to him, and the date of the transaction.

(c) *Manner of making reports.* The intermediate buyer shall deliver the original and copy of the intermediate buyer's record and report MQ–95—Wheat to the warehouseman, elevator operator, feeder, or processor, or the buyer other than an intermediate buyer, to whom all of the remaining of the wheat covered thereby is marketed. When wheat is marketed or delivered by one intermediate buyer to another intermediate buyer, the original and first copy of MQ–95—Wheat shall be transmitted by one intermediate buyer to another and the last intermediate buyer shall deliver them to the warehouseman, elevator operator, feeder, or processor, or buyer other than an intermediate buyer. If all or the remainder of the wheat is not marketed or delivered to a warehouseman, elevator operator, feeder, or processor, or buyer other than an intermediate buyer, the last intermediate buyer shall within 15 days mail or deliver the original and first copy of the intermediate buyer's record and report to the treasurer of the county committee.

(d) *Reports to the treasurer of the county committee.* Each intermediate buyer shall, within 15 days after all Forms MQ–95—Wheat contained in a book have been executed or on December 31, 1957, whichever is the earlier, mail or deliver to the treasurer of the county committee from whom the book was obtained the executed copies and unexecuted sets of Form MQ–95—Wheat which were retained by him. Books of Form MQ–95—Wheat shall be reissued to any intermediate buyer upon request after December 31, 1957. In the event that the county committee or State committee has reason to do so, any or all intermediate buyers to whom books of Form MQ–95—Wheat were issued after December 31, 1957, may be requested to mail or deliver on or before June 30, 1958, to the treasurer of the county committee from whom the book was obtained, the executed copies and unexecuted sets of Form MQ–95—Wheat.

§ 728.789 *Buyer's special reports.* In the event that the county committee or State committee has reason to believe that any buyer has failed or refused to comply with these regulations, the buyer shall within 15 days after a written request therefor made by the county committee or State committee and deposited in the United States mails, registered and addressed to him at his last-known address, make a report verified as true and correct by affidavit, on MQ–97—Wheat to such committee with respect to all wheat purchased or acquired by him during the period of time as specified in the request. The report shall include the following information for each lot of wheat purchased or acquired from the persons specified or during the period specified: (a) The name and address of the producer of the wheat, (b) the date of the transaction, (c) the amount of wheat, (d) the serial number of the marketing card (MQ–76—Wheat (1957), marketing certificate (MQ–94—Wheat), soil bank delivery order CCC–382 or CCC–103), intermediate buyer's record and report (M–95—Wheat), or the report and penalty receipt (MQ–81—Wheat), and (e) the amount of the lien for the penalty or the amount of penalty incurred in conection with the wheat purchased or acquired.

§ 728.790 *Penalty for failure or refusal to keep records and make reports.* Any person required to keep the records or make the reports specified in § 728.787, § 728.788, or § 728.789 and who fails to keep any such record or make any such report or who makes any false report or keeps any false record shall, as provided in section 373 (a) of the act, be deemed guilty of a misdemeanor and, upon conviction thereof, shall be subject to a fine of not more than $500 for each such offense.

§ 728.791 *Records to be kept and reports to be made by producers.* Each producer with respect to the 1957 wheat crop shall keep the records and make the reports prescribed by this section, which the Secretary hereby finds to be necessary to enable him to carry out with respect to wheat the provisions of the act. Upon written requests of the county committee any producer shall, within 15 days from the date the request was mailed to him file with the treasurer of the county committee for the county in which the farm is situated a farm operator's report on MQ–98—Wheat showing for the farm the following information: (a) The total number of bushels of wheat produced thereon in 1957, (b) the name and address of each buyer or transferee of any wheat, (c) the amount of the wheat sold to each buyer, (d) the amount equivalent to the penalty which was deducted from the price or consideration for the wheat, (e) the amount of wheat of the 1957 crop disposed of other than by sale and the manner of disposition, (f) the amount of wheat of the 1957 crop on hand, and (g) wheat acreage for 1957.

§ 728.792 *Data to be kept confidential.* Except as otherwise provided herein, all data reported to or acquired by the Secretary pursuant to and in the manner provided in the regulations in this subpart shall be kept confidential by all officers and employees of the United States Department of Agriculture, members of county committees, other local committees, and State committees, county agents, and officers and employees of such committees or county agents' offices, and shall not be disclosed to anyone not having an interest in or responsibility for any wheat, farm, or transaction covered by the particular data, such as records, reports, forms, or other information, and only such data so reported or acquired as the Secretary deems relevant shall be disclosed by them to anyone not having such an interest or not being employed in the administration of the act and then only in a suit or administrative hearing under Title III of the act.

§ 728.793 *Enforcement.* It shall be the duty of the county office manager to report in writing to the State administrative officer forthwith each case of failure or refusal to make any report or keep any record as required by §§ 728.789 through 728.791, and to so report each case of making any false report or record. It shall be the duty of the State administrative officer to report each such case in writing, in quintuplicate, to the Office of the General Counsel of the Department, which shall have authority to refer such cases for the institution of proceedings by the United States Attorney for the appropriate district, under the direction of the Attorney General of the United States, to enforce the provisions of the act.

SPECIAL PROVISIONS AND EXEMPTIONS

§ 728.794 *Farms on which the wheat acreage is not in excess of 15 acres or on which the normal production of the wheat acreage is less than 200 bushels*—(a) *Conditions of exemption.* A farm marketing quota for wheat for the 1957 crop shall not be applicable to any farm on which the wheat acreage for the 1957 crop is not in excess of 15 acres, or on which the normal production of the 1957 wheat acreage is less than 200 bushels.

(b) *Issuing marketing cards.* The county office manager or his designee shall, for each farm to which the provisions of this section are applicable, issue marketing cards and marketing certificates to the producers on the farm in the manner and subject to the conditions specified in §§ 728.767 to 728.770, inclusive.

§ 728.795 *Experimental wheat farms*—(a) *Conditions of exemption.* The penalty shall not apply to the marketing of any wheat of the 1957 crop grown for experimental purposes only on land owned or leased by any publicly owned agricultural experiment station and produced at public expense by employees of the experiment station, or to wheat produced for experimental purposes only by farmers pursuant to an agreement with a publicly owned experiment station whereby the experiment station bears the costs and risks incident to the production of the wheat and the proceeds from the crop inure to the benefit of the experiment station: *Provided*, That such agreement is approved by the State committee prior to the issuance of a marketing card for the farm. The production of foundation, registered or certified seed wheat will not be considered produced for experimental purposes only.

(b) *Issuing marketing cards.* The county office manager shall, upon the written application of a responsible executive officer of any publicly owned agricultural experiment station to which the exemption referred to in paragraph (a) of this section is applicable, issue a marketing card for the experiment station in the manner and subject to the conditions specified in §§ 728.767 to 728.770, inclusive.

§ 728.796 *Wildlife refuge farms.* The penalty shall not apply to the wheat produced on any farm operated by any Federal or State wildlife refuge farm where all the wheat on the farm is produced solely for wildlife feed or seed for the production of wildlife feed on such wildlife refuge farm. No marketing card or marketing certificate shall be issued to any producer on any such farm except under the provisions of §§ 728.767 and 728.768, 728. 794 and 728.795 but the exemption from penalty shall be granted by the county office manager upon the written application of the operator or responsible executive officer on any such farm stating that all the wheat produced on the farm will be used solely for wildlife feed and for seed for the production of wildlife feed on such wildlife refuge farm.

§ 728.797 *Erroneous notice of wheat acreage allotment.* In any case where through error in a county or State office the producer was officially notified in writing of a wheat acreage allotment for the 1957 crop larger than the finally approved acreage allotment and the State and county committees find that the producer, acting solely on the information contained in the erroneous notice, planted an acreage to wheat in excess of the finally approved acreage allotment, the producer will not be considered to have exceeded the acreage allotment unless he overplanted the allotment shown on the erroneous notice. The farm marketing quota and the farm marketing excess for the farm under the foregoing circumstances will be based on the acreage allotment contained in the erroneous notice, and if the acreage planted to wheat on the farm is adjusted to the allotment contained in the erroneous notice within the time limits for utilization of excess acreage as provided for in § 728.751 (r) or (u) (3) the farm will not be considered to be overplanted. Before a producer can be said to have relied upon the erroneous notice, the circumstances must have been such that the producer had no cause to believe that the acreage allotment notice was in error. To determine this fact, the date of any corrected notice in relation to the time of planting; the size of the farm; the amount of wheat customarily planted; and all other pertinent facts should be taken into consideration. If the county committee determines that the producer was justified in relying on the erroneous notice of wheat acreage allotment for the farm, such determination shall be subject to review and approval by the State committee before the erroneous allotment is used by the county committee to determine the farm marketing quota and farm marketing excess for the farm.

§ 728.798 *Redelegation of authority.* Any authority delegated to the State committee by §§ 728.750 to 728.798 may be redelegated by the State committee.

Issued this 28th day of February 1957.

[SEAL] TRUE D. MORSE,
Acting Secretary of Agriculture.

[F. R. Doc. 57–1676; Filed, Mar. 5, 1957; 8:51 a. m.]

Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders), Department of Agriculture

PART 945—TOMATOES GROWN IN FLORIDA

INTERPRETATIVE RULE WITH RESPECT TO MEANING OF "PRODUCER"

Pursuant to the provisions of Marketing Agreement No. 125 and Order No. 45 (7 CFR Part 945) regulating the handling of tomatoes grown in Florida, effective pursuant to the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.; 68 Stat. 906, 1047), hereinafter referred to as the "order," it is hereby found and determined that the issuance of the following interpretative rule for use in determining who shall be eligible to serve as a member or alternate member or to vote in the meetings held for the purpose of electing nominees for member and alternate member positions on the Florida Tomato Committee, the administrative agency for the operation of this program, will tend to effectuate the declared policy of the aforesaid act.

Such rule is as follows:

Interpretative rule with respect to the meaning of "producer". The term "producer" is defined in § 945.8 of the order as being any person engaged in a proprietary capacity in the production of tomatoes for market. Under the definition of "tomatoes" in § 945.5 of the order, such production must have been in the production area. Section 945.22 of the order provides that each person selected as a committee member or alternate must be a producer, or an officer or an employee of a corporate producer. Section 945.27 of the order provides that producers may vote for nominees for members and alternates on the Florida Tomato Committee, the administrative agency established pursuant to said marketing agreement and order.

Section 945.8 of the order defines a person as an individual, partnership, corporation, association, or other business unit. The term "person" is construed to mean the business unit which produces the tomatoes for market.

The prevailing principle which shall apply to the determination of "producer" is who or which interest as a unit, whether an individual, partnership, corporation, association, or any other business unit, has the authority to pass title to the tomatoes grown and made a part of the marketable supply of tomatoes. In other words, the terms shall be limited to those who have an ownership in tomatoes produced in the production area.

"Producer" means any person, as above defined: (1) Who or which owns and farms land resulting in his or its ownership of the tomatoes produced thereon; (2) who or which rents or farms land, resulting in his or its ownership of all or a portion of the

tomatoes produced thereon; or (3) who or which owns land which he or it does not farm and, as rental for such land, obtains the ownership of a portion of the tomatoes produced thereon.

The term "partnership" shall be deemed to include a husband and wife with respect to land, the title to which, or leasehold interest in which, is vested in them as tenants in common, joint tenants, tenants by entirety, or, under community property laws, as community property. The term "partnership" shall also be deemed include individuals, partnerships or corporations which join together by agreement, informal or otherwise, for the purpose of growing tomatoes and which, as a unit, have authority to transfer title to such tomatoes at the time they are harvested or subsequent thereto. The term "partnership" shall also include so-called "joint ventures," wherein one or more parties to the arrangement contributes capital and others contribute labor, management, equipment, or other services, or any variation of such contributions by two or more parties, so that it results in the growing of tomatoes and the authority to transfer title to the tomatoes so produced from that business unit to some other parties in the marketing chain.

Each legal entity, whether an individual, a partnership, a "joint venture," or a corporation, so engaged in the production of tomatoes for market shall have one vote for each position which is to be filled for the district for which he or it is eligible to vote. In the case of a partnership or a "joint venture," such vote shall not be accepted in the absence of unanimous agreement of the respective members. In the case of a corporation, such vote shall be cast pursuant to the authorization of its board of directors.

In the case of a person who owns land which he or it does not farm but, as rental for such land, obtains the ownership of a portion of the tomatoes produced thereon, such person shall be regarded as the producer of that portion and entitled to one vote, and the tenant on such land shall be regarded as the producer of the remaining portion produced on such land and also entitled to one vote.

In order to insure that a person is a "producer" eligible to vote, he must have produced tomatoes for market in a proprietary capacity in the production area during the then current fiscal period, i. e., between August 1 of the previous year and July 31 of the then current year.

It is hereby found that it is unnecessary, impracticable, and contrary to the public interest to give preliminary notice, engage in public rule making procedure, or to postpone the effective date of this document later than the date of its publication in the FEDERAL REGISTER (see 5 U. S. C. 1001 et seq.) for the reason that the necessary information for the formulation of this rule did not become available until February 25, 1957, and said rule is necessary for use and application in nomination meetings to elect nominees for member and alternate member positions on the Florida Tomato Committee to be held on or about March 13, 1957.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: March 1, 1957, to become effective as of the date of the publication of this document in the FEDERAL REGISTER.

[SEAL] ROY W. LENNARTSON,
Deputy Administrator,
Marketing Services.

[945.303, Amdt. 3]

PART 945—TOMATOES GROWN IN FLORIDA

LIMITATION OF SHIPMENTS

Findings. (a) Pursuant to Marketing Agreement No. 125 and Order No. 45 (7 CFR Part 945) regulating the handling of tomatoes grown in Florida, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.; 68 Stat. 906, 1047), and upon the basis of the recommendation and information submitted by the Florida Tomato Committee, established pursuant to said marketing agreement and order, and upon other available information, it is hereby found that the amendment to the limitation of shipments, as hereinafter provided, will tend to effectuate the declared policy of the act.

(b) It is hereby found that it is impractical, unnecessary, and contrary to the public interest to give preliminary notice, engage in public rule making procedures, and postpone the effective date of this amendment later than March 6, 1957, (5 U. S. C. 1001 et seq.) in that: (i) The time intervening between the date when information upon which this amendment is based became available and the time when this amendment must become effective in order to effectuate the declared policy of the act is insufficient, (ii) more orderly marketing in the public interest, than would otherwise prevail, will be promoted by regulating the shipment of tomatoes, in the manner set forth below, on and after the effective date of this amendment; (iii) compliance with this amendment will not require any special preparation on the part of handlers which cannot be completed by the effective date; (iv) reasonable time is permitted, under the circumstances, for such preparation; (v) information regarding the committee's recommendations has been made available to producers and handlers in the production area; and (vi) this amendment relieves restrictions on the handling of tomatoes grown in the production area during the period from the effective date hereof until March 9, 1957.

Order, as amended. The provisions of subparagraph (1) of paragraph (b) of § 945.303 (22 F. R. 757, 812, 885, 925) are hereby amended to read as follows:

(1) During the period from March 6, 1957, through June 30, 1957, no person shall handle any tomatoes for shipment outside the production area unless such tomatoes are of a diameter not less than 1⅞ inches (size 7 x 8 and larger).

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: March 5, 1957.

[SEAL] S. R. SMITH,
Director,
Fruit and Vegetable Division.

[F. R. Doc. 57-1747; Filed, Mar. 5, 1957; 11:18 a. m.]

[Tomato Reg., Amdt. 2]

PART 1065—TOMATOES

IMPORT RESTRICTIONS

Pursuant to the requirement contained in section 8e of the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.; 68 Stat. 906, 1047), § 1065.2 *Tomato Regulation No. 2*, as amended (22 F. R. 811, 946), is hereby further amended as follows:

1. Amend paragraph (a) *Import restrictions* to read as follows:

(a) *Import restrictions.* During the period from March 6, 1957, through June 30, 1957, and subject to Part 1060 of this chapter applicable to the importation of listed commodities and the requirements of this section, no person shall import any tomatoes unless such tomatoes are of a diameter not less than 1⅞ inches.

2. Delete subparagraph (6) of paragraph (d) and paragraph (e).

It is hereby found that it is impracticable, unnecessary, and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this amendatory regulation beyond that herein specified (5 U. S. C. 1001 et seq.) in that (i) the requirements established by this amendment import regulation are issued pursuant to section 8e of the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.; 68 State. 906, 1047, which makes such amended regulation mandatory; (ii) the same regulations will be in effect on domestic shipments of tomatoes under Marketing Agreement No. 125 and Order No. 45 (7 CFR 945.303; 22 F. R. 757, 812, 925, F. R. Doc. 57-1747, *supra*); (iii) compliance with this tomato import regulation should not require any special preparation by importers which cannot be completed by the effective date; (iv) during the period from the effective date hereof until March 9, 1957, this amendment would impose less severe restrictions on the importation of tomatoes than would be imposed by § 1065.2 Tomato Regulation No. 2 (22 F. R. 811, 946) if it were not amended; (v) the regulations hereby established for tomatoes that may be imported into the United States are equivalent or comparable to those imposed upon domestic tomatoes under the aforesaid marketing agreement and order; and (vi) in fixing the effective time of this amended regulation, due consideration and allowance has been given to the time required, in the case of imports of tomatoes, for their transportation and entry into the United States after picking.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c. Interprets or applies Sec. 401, 68 Stat. 906, 1047; 7 U. S. C. 608e)

Dated: March 5, 1957.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[F. R. Doc. 57-1748; Filed, Mar. 5, 1957; 11:18 a. m.]

4. Footnote 4 to § 545.7 (c) is redesignated footnote 5 and amended to read:

⁵ See footnote 4.

5. Section 545.9 is amended to read:

§ 545.9 *Minimum piece rates prescribed by the Administrator.* Pursuant to the provisions of section 6 (a) (2) of the act, each homeworker shall be paid in lieu of the applicable hourly rate established by the wage orders for the fabric and leather glove industry; the handkerchief, square scarf, and art linen industry; the children's dress and related products industry; the women's and children's underwear industry; and the needlework and fabricated textile products industry, not less than the piece rates prescribed in § 545.13 for the operations described therein.

6. Delete footnote 5 to § 545.10 (a).

7. Section 545.13 is amended to read:

§ 545.13 *Piece rates established in accordance with § 545.9.*

SCHEDULE A—PIECE RATES SCHEDULE FOR THE WOMEN'S AND CHILDREN'S UNDERWEAR INDUSTRY, THE CHILDREN'S DRESS AND RELATED PRODUCTS INDUSTRY, AND THE BLOUSE AND NECKWEAR CLASSIFICATION OF THE NEEDLEWORK AND FABRICATED TEXTILE PRODUCTS INDUSTRY IN PUERTO RICO [1]

No.	Operation	Women's and children's underwear industry		Children's dress and related products industry	Blouse and neckwear classification, needlework and fabricated textile products industry	Unit of payment

30	Feather stitch cord	12.28	11.06	12.28	14.03	Do.
31	Flat fell seams, first seam by machine	[2] 13.67	[2] 12.30	19.51	22.42	Do.
32	Flat roll	[2] 10.62	[2] 9.53	15.14	18.17	Do.

See footnotes at end of table.

No.	Operation	Piece rate	Unit of payment
172	After first thread (for example, for hemstitching)	For second and third threads, 20 percent of rate for first thread; for additional threads, 15 percent of rate for first thread.	
177	After first thread (for example, for hemstitching)	For second and third threads, 20 percent of rate for first thread; for additional threads, 15 percent of rate for first thread.	

As so revised, the proposed amendment to Part 545 is adopted as set forth below.

Signed at Washington, D. C., this 1st day of March 1957.

NEWELL BROWN,
Administrator.

1. The caption of Part 545 is amended to read: "Part 545—Homeworkers in the Fabric and Leather Glove Industry; the Handkerchief, Square Scarf, and Art Linen Industry; the Children's Dress and Related Products Industry; the Women's and Children's Underwear Industry; and the Needlework and Fabricated Textile Products Industry in Puerto Rico."

2. Section 545.1 is amended to read:

§ 545.1 *Applicability.* The provisions of this part shall apply to persons in activities relating to homeworkers engaged in commerce or in the production of goods for commerce in the fabric and leather glove industry; the handkerchief, square scarf, and art linen industry; the children's dress and related products industry; the women's and children's underwear industry; and the needlework and fabricated textile products industry in Puerto Rico as defined in Parts 715, 716, 717, 718, and 719 of this chapter.

3. Footnote 2 to § 545.3 (a) is amended to read:

² See § 545.13 for the schedule of piece rates prescribed in accordance with § 545.9. As an example of how to state the piece rate schedule designation, if "plain scallops" are to be made on articles in the "children's dress and related products industry," the full piece rate schedule designation would be "Operation 74, Col. 3."

[1] Persons engaged in activities relating to homeworkers in other industries in Puerto Rico are subject to Part 681 of this chapter.

TITLE 29—LABOR

Chapter V—Wage and Hour Division, Department of Labor

PART 545—HOMEWORKERS IN THE FABRIC AND LEATHER GLOVE INDUSTRY; THE HANDKERCHIEF, SQUARE SCARF, AND ART LINEN INDUSTRY; THE CHILDREN'S DRESS AND RELATED PRODUCTS INDUSTRY; THE WOMEN'S AND CHILDREN'S UNDERWEAR INDUSTRY; AND THE NEEDLEWORK AND FABRICATED TEXTILE PRODUCTS INDUSTRY IN PUERTO RICO

MISCELLANEOUS AMENDMENTS

Notice was published in the FEDERAL REGISTER (22 F. R. 432-436) on January 23, 1957, that the Administrator of the Wage and Hour Division, United States Department of Labor, proposed to amend Part 545, Code of Federal Regulations (29 CFR Part 545). Interested persons were given 30 days in which to submit views, arguments or data on the proposal.

Several comments have been received from interested persons. After consideration of all relevant matter presented, I conclude that the proposal should be adopted except for two items in schedule B numbered 172 and 177, which are revised to read as follows:

SCHEDULE A—PIECE RATES SCHEDULE FOR THE WOMEN'S AND CHILDREN'S UNDERWEAR INDUSTRY, THE CHILDREN'S DRESS AND RELATED PRODUCTS INDUSTRY, AND THE BLOUSE AND NECKWEAR CLASSIFICATION OF THE NEEDLEWORK AND FABRICATED TEXTILE PRODUCTS INDUSTRY IN PUERTO RICO [1]—Continued

160	Randa, Mexican, tied at center only, thread drawing not included	2.50	Do.
161	Randa, simple, not stitched at either side, thread drawing not included	1.89	Do.
162	Rose buds, worm stitch, 4 worms, 2 colors or tones	7.42	Per dozen.
163	Scallops, plain, cutting included	8.39	Per dozen inches.
164	Shadow stitch, up to ⅜" wide	16.11	Do.
165	Spiders, 4 legs	5.00	Per dozen.
166	Spiders, 8 legs	9.78	Do.

[1] For definitions of "hand embroidery" and "other operations" and current minimum wage rates, see applicable section of wage order.
[2] These piece rates have been set on the basis of O. N. T. thread No. 5, corded, which average 28 stitches per inch of solid cord. If corded threads are used which are not so thick, the rate should be increased in proportion to the increase in the number of stitches per inch. If corded thread No. 11 is used, 15 percent must be added to the piece rates established for thread No. 5.
[3] For each additional count of 100, add 1 cent.

SCHEDULE B—PIECE RATE SCHEDULE FOR THE HANDKERCHIEF, SQUARE SCARF, AND ART LINEN INDUSTRY IN PUERTO RICO[1]

No.	Operation	Piece rate (cents)	Unit of payment
	SCALLOP CUTTING		
	Hand-cutting machine-embroidered, shallow, curved scallops on handkerchiefs or square scarves:		
187.4	Small, measuring from 3/16" up to, but not including 5/16", along outside edge.	0.26	Per dozen scallops.
187.5	Medium, measuring from 5/16" up to, but not including 7/16", along outside edge.	.33	Do.
187.6	Large, measuring from 7/16" to, and inclusive of, 1¼", along outside edge.	.49	Do.
	NEEDLEPOINT OPERATIONS[1]		
200	Compact florals, figures and landscapes	26.00	Per 1,000 stitches.
201	Scattered florals	28.00	Do.
202	Scattered florals consisting of borders or garlands only	30.00	Do.
203	Combinations of compact center and scattered borders in which the compact portion totals 45 percent or more of the total design.	28.00	Do.
204	Combinations of compact center and scattered borders in which the compact portion totals less than 45 percent of the entire design.	30.00	Do.
205	Two cents (2.0¢) must be added to the above piece rates to cover thumbtack mounting on frame for each piece of canvas. Employers using other methods must set individual rates for mounting and removing canvas in accordance with § 545.10.		

[1] For definitions of "hand embroidery" and "other operations" and current minimum wage rates, see applicable section of wage order.

[1] *Exceptions.* These piece rates do not apply to the following types of needlepoint. For these, and all other varieties of needlepoint not covered by the schedule and definitions, piece rates must be set by employers in accordance with Regulations 545.10.

1. Florals having more than 10,000 stitches.
2. Florals having more than 36 color tones.
3. Figures and landscapes having more than 3,000 stitches.
4. Figures and landscapes having more than 25 color tones.
5. Petit point.
6. Stamped grospoint.

Definitions. 1. A scattered design is one in which 50 percent or more of the component parts, when finished, are separated by spaces of unsewn canvas.

2. A compact design is one in which 50 percent or more of the finished piece contains no spaces of unsewn canvas.

(Sec. 6, 38 Stat. 721; 15 U. S. C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; 15 U. S. C. 45) [Cease and desist order, Arrow Metal Products Corporation (Haskell, N. J.) et al., Docket 6471, Feb. 20, 1957]

In the Matter of Arrow Metal Products Corporation, a Corporation, and Awnair Corporation of America, a Corporation, and Alex Levine, James V. Cosman, and Wm. N. Gurtman, Individually and as Officers of Each of Said Corporations

This proceeding was heard by a hearing examiner on the complaint of the Commission charging two corporate manufacturers, with places of business at Haskell and Wayne, N. J., with using the term "Porcenamel" to describe the organic plastic resin finish or coating of their metal awnings, component parts for metal awnings, or enamel-coated metal strips and pieces.

Following hearings in due course, the hearing examiner made his initial decision, including findings of fact, conclusions of law and order to cease and desist, from which respondents appealed. The Commission, having heard the matter, on February 20 rendered its decision denying the appeal and adopting the findings, conclusions, and order contained in the initial decision.

The order to cease and desist is as follows:

It is ordered, That respondents Arrow Metal Products Corporation, a corporation, its officers, Awnair Corporation of America, a corporation, its officers, and Alex Levine, James V. Cosman and Wm. N. Gurtman, individually and as officers of said corporations, and their agents, representatives and employees, directly or through any corporate or other device, in connection with the offering for sale, sale or distribution of metal awnings, component parts for metal awnings, or enamel coated metal strips and pieces in commerce, as "commerce" is defined in the act, do forthwith cease and desist from:

Using the term "Porcenamel," or any other word, phrase or term of similar import or meaning implying porcelain enamel, to describe the finish or coating of the aforesaid products or of any other products which are not in fact finished or coated with porcelain enamel.

By "Final Order", report of compliance was required as follows:

It is ordered, That the respondents shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with the order contained in said initial decision.

Issued: February 20, 1957.

By the Commission.

[SEAL] ROBERT M. PARRISH,
Secretary.

TITLE 6—AGRICULTURAL CREDIT

Chapter IV—Commodity Stabilization Service and Commodity Credit Corporation, Department of Agriculture

Subchapter D—Regulations Under Soil Bank Act

PART 485—SOIL BANK

SUBPART—ACREAGE RESERVE PROGRAM

SUPPLEMENT I

The regulations governing the 1957 acreage reserve part of the Soil Bank Program, 21 F. R. 10449, as amended in 22 F. R. 494, 971 and 973 are hereby supplemented as follows:

In the case of tobacco, except cigar binder tobacco types 51 and 52, the maximum acreage limitations specified in § 485.211 (a) (2) (v) are hereby removed and acreage up to 100 percent of the farm allotment may be placed in the acreage reserve: *Provided,* That the acreage limitations specified in § 485.211 (a) (2) (v) shall remain applicable in a county with respect to any type of tobacco for which the total of the farm allotments in the county exceeds 2,000 acres if the State and county committees determine that the total acreage likely to be placed in the acreage reserve would exceed 45 percent of the total of such farm allotments and that the placing of such acreage in the acreage reserve

would have a serious adverse effect on the county's farm economy.

(Sec. 124, Pub. Law 540, 84th Cong.)

Issued at Washington, D. C., this 28th day of February 1957.

TRUE D. MORSE,
Acting Secretary.

[F. R. Doc. 57-1675; Filed, Mar. 5, 1957; 8:51 a. m.]

TITLE 25—INDIANS

Chapter I—Bureau of Indian Affairs, Department of the Interior

PART 130—OPERATION AND MAINTENANCE CHARGES

WIND RIVER IRRIGATION PROJECT, WYOMING

Pursuant to section 4 (a) of the Administrative Procedure Act of June 11, 1946 (Public Law 404—79th Congress, 60 Stat. 238) and authority contained in the acts of Congress approved August 1, 1914; May 18, 1916; and March 7, 1928, (38 Stat. 583; 25 U. S. C. 383; 39 Stat. 142; and 45 Stat. 210; 25, U. S. C. 387) and by virtue of authority delegated by the Secretary of the Interior to the Commissioner of Indian Affairs to the Area Director (Bureau Order No. 351, Amendment No. 1; 16 F. R. 5454-7), notice was given of the intention to modify Section 130.95 of Title 25, Code of Federal Regulations dealing with irrigable lands of the Wind River Indian Irrigation Project to read as follows:

§ 130.95 *Charges.* In compliance with the provisions of the Acts of August 1, 1914 and March 7, 1928 (38 Stat. 583, 25 U. S. C. 385; 45 Stat. 210, 25 U. S. C. 387) the operation and maintenance charges for the lands under the Wind River Irrigation Project, Wyoming, for the calendar year 1957 and subsequent years until further notice, are hereby fixed at $2.60 per acre for the assessable area under the constructed works on the diminished Wind River Project and at $2.50 per acre on the Ceded Wind River Project; except in the case of all irrigable trust patent Indian land which lies within the Ceded Reservation and which is benefited by the Big Bend Drainage District where an additional assessment of $0.45 (45 cents) per acre is hereby fixed.

(Secs. 1, 3, 36 Stat. 270, 272, as amended; 25 U. S. C. 385)

Interested persons were thereby given opportunity to participate in the preparation of this modification by submitting their views or arguments, in writing, to the Area Director within 44 days from the date of publication of said notice. A number of objections having been received and after full consideration on the merits having been overruled, the said section is hereby amended and the rate fixed, for the season of 1957 and thereafter until further notice, as stated above.

PERCY E. MELIS,
Area Director.

[F. R. Doc. 57-1656; Filed, Mar. 5, 1957; 8:46 a. m.]

PART 130—OPERATION AND MAINTENANCE CHARGES

MISCELLANEOUS INDIAN IRRIGATION PROJECTS

Order fixing operation and maintenance charges on miscellaneous Indian Irrigation Projects (San Carlos Reservation and San Xavier, Arizona; Miscellaneous Navajo Units, Arizona and New Mexico; Tongue River, Montana; Duck Valley and Pyramid Lake, Nevada; Warm Springs, Oregon).

On December 13, 1956 there was published in the FEDERAL REGISTER (Vol. 21, No. 241, page 9950) a revised notice of intention to amend § 130.105 *Charges*, of Title 25, Code of Federal Reglations, Chapter I, Subchapter L, Part 130, dealing with operation and maintenance assessments against irrigable lands of Miscellaneous Indian Irrigation Projects, by establishing the basic water charge for the Burns Indian Village, Warm Springs Agency, at $12.65 per acre per annum.

Interested persons desiring to participate in formulating the amendment were thereby given opportunity to participate by submitting data or argument within thirty days from the date of publication of the notice to the Area Director, Portland, Oregon. No written or oral communications were received within the period specified. Therefore, § 130.105 is amended to read as follows:

§ 130.105 *Charges.* Pursuant to the acts of August 1, 1914 and March 7, 1928 (38 Stat. 583, 45 Stat. 210; 25 U. S. C. 385, 387), a part of the reimbursable cost of operating and maintaining the irrigation projects named in this section is apportioned on a per-acre basis against the irrigable lands of the respective projects for the calendar year 1957 and for each succeeding calendar year until further order, in the amounts designated below for each project, and there is assessed against each acre of irrigable land to which water can be delivered through the constructed works of the respective projects, the amounts designated for each project, to be applied in the reimbursement of such apportionments:

Project and agency	*Per acre (per annum)*
Duck Valley, Western Shoshone	$3.60
Miscellaneous Units, Navajo	.50
Pyramid Lake Unit, Carson	5.15
San Carlos Reservation Unit, San Carlos	.50
San Xavier Unit, Sells	1.00
Tongue River Unit, Tongue River	.35
Warm Springs Unit, Warm Springs	2.00
Burns Indian Village, Warm Springs	12.65

(Secs: 1, 3, 36 Stat. 270, 272, as amended; 25 U. S. C. 385)

GLENN L. EMMONS,
Commissioner.

FEBRUARY 28, 1957.

[F. R. Doc. 57-1657; Filed, Mar. 5, 1957; 8:46 a. m.]

TITLE 14—CIVIL AVIATION

Chapter II—Civil Aeronautics Administration, Department of Commerce

[Amdt. 188]

PART 608—RESTRICTED AREAS

ALTERATION; TEMPORARY RESTRICTED AREA, SLEDGE HAMMER, LA.

The restricted area alteration appearing hereinafter has been coordinated with the civil operators involved, the Army, the Navy and the Air Force, through the Air Coordinating Committee, Airspace Panel and is adopted to become effective when indicated in order to promote safety of the flying public. Since a military function of the United States is involved, compliance with the notice, procedure and effective date provisions of section 4 of the Administrative Procedure Act is not required.

Part 608 is amended as follows:

In § 608.26, the Sledge Hammer, Temporary Restricted Area, Louisiana, is added to read:

Name and location (chart)	Description by geographical coordinates	Designated altitudes	Time of designation	Controlling agency
Sledge hammer, La., temporary restricted area (Beaumont and Shreveport).	"Beginning at latitude 31°47'30", longitude 93°24'30", which is the north boundary of Civil Airway Red 30; thence northeast to latitude 32°01'00", longitude 92°49'30"; thence north-northwest to latitude 32°14'30", longitude 92°53'30"; thence north-northeast to latitude 32°26'30", longitude 92°50'00"; thence easterly along the southern boundary of Civil Airway Red 10 to latitude 32°25'15", longitude 92°29'30"; thence south-southwest to latitude 32°15'00", longitude 92°32'30"; thence south-southeast to latitude 31°51'00", longitude 92°25'00"; thence west-southwest to latitude 31°37'00", longitude 93°02'30", which is the northern boundary of Civil Airway Red 30, thence along the northern boundary of Red 30 to the point of beginning".	Surface to 3,000 feet mean sea level.	Continuous...	Maneuver Director, Camp Polk, La.

(Sec. 205, 52 Stat. 984, as amended; 49 U. S. C. 425. Interprets or applies sec. 601, 52 Stat. 1007, as amended; 49 U. S. C. 551)

This amendment shall be effective from May 20, 1957, through May 24, 1957.

[SEAL] S. A. KEMP,
Acting Administrator of Civil Aeronautics.

[F. R. Doc. 57-1653; Filed, Mar. 5, 1957; 8:45 a. m.]

TITLE 38—PENSIONS, BONUSES, AND VETERANS' RELIEF

Chapter I—Veterans Administration

PART 4—DEPENDENTS AND BENEFICIARIES CLAIMS

DEPENDENCY AND INDEMNITY COMPENSATION

Correction

In Federal Register Document 57-1200, published at page 951 of the issue for Friday, February 15, 1957, the first sentence of paragraph (a) of § 4.431a should read: "Evidence received in the Social Security Administration in support of a claim filed on or after January 1, 1957, for benefits under Title II of the Social Security Act will be considered to have been received in the Veterans Administration as of the date of receipt in Social Security Administration."

TITLE 46—SHIPPING

Chapter I—Coast Guard, Department of the Treasury

Subchapter B—Merchant Marine Officers and Seamen

[CGFR 57-10]

PART 10—LICENSING OF OFFICERS AND MOTORBOAT OPERATORS AND REGISTRATION OF STAFF OFFICERS

LICENSE AS MASTER OF RIVER STEAM OR MOTOR VESSELS

The description of service requirements for a license as a master of river steam or motor vessels in 46 CFR 10.05-17 describes the license issued by the United States Coast Guard as an "original" license. Since it is impossible for a license as master of river steam or motor vessels to be on "original" license as defined in 46 CFR 10.02-3, the amendment in this document to 46 CFR 10.05-17 changes the term "original license" to "license."

Because this amendment to 46 CFR 10.05-17 is editorial in nature, it is hereby found that compliance with the Administrative Procedure Act respecting notice of proposed rule making, public rule making procedures thereon, and effective date requirements thereof, is unnecessary.

By virtue of the authority vested in me as Commandant, United States Coast Guard, by Treasury Department Order No. 120, dated July 31, 1950 (15 F. R. 6521), and Treasury Department Order No. 167-14, dated November 26, 1954 (19 F. R. 8026), to promulgate regulations in accordance with the statutes cited with the regulations below, the following amendment to § 10.05-17 is prescribed and shall become effective upon the date of publication of this document in the FEDERAL REGISTER:

§ 10.05-17 *Master of river steam or motor vessels.* The minimum service required to qualify an applicant for a license as master of steam or motor vessels navigating rivers exclusively is at least 3 years' service in the deck department of steam or motor vessels: *Provided*, That, 1 year of such service shall have been as licensed mate or pilot of steam or motor vessels, and, 1 year shall have been on river steam or motor vessels.

(R. S. 4405, as amended, 4462, as amended; 46 U. S. C. 375, 416. Interprets or applies R. S. 4417a, as amended, 4426, as amended, 4427, as amended, 4438, as amended, 4439, as amended, 4445, as amended, 4447, as amended, sec. 2, 29 Stat. 188, sec. 1, 34 Stat. 1411, secs. 1, 2, 3, 49 Stat. 1544, as amended, sec. 3, 54 Stat. 346, as amended, secs. 2, 68 Stat. 484, 675; 46 U. S. C. 391a, 404, 405, 224, 226, 231, 233, 225, 237, 367, 1333, 239b, 198)

Dated: February 28, 1957.

[SEAL] A. C. RICHMOND,
Vice Admiral, U. S. Coast Guard, Commandant.

[F. R. Doc. 57-1660; Filed, Mar. 5, 1957; 8:47 a. m.]

TITLE 50—WILDLIFE

Chapter I—Fish and Wildlife Service, Department of the Interior

Subchapter F—Alaska Commercial Fisheries

MISCELLANEOUS AMENDMENTS

Basis and purposes. On the basis of information developed at a series of public hearings held throughout Alaska and in Seattle, Washington, written briefs submitted by the public, scientific data secured by United States Fish and Wildlife Service personnel, and in compliance with the Notice of Intention to Adopt Amendments issued by the Secretary of the Interior on July 12, 1956 (21 F. R. 5375, July 18, 1956) it has been determined that the amendments herein adopted are necessary to permit maximum utilization of the resources, consistent with sound conservation. These provisions shall become effective 30 days after their publication in the FEDERAL REGISTER.

PART 101—DEFINITIONS

1. A new section designated 101.20 is added to read as follows:

§ 101.20 *Depth of net.* The perpendicular distance between cork line and lead line expressed as either linear units of measurement or as a number of meshes, including all of the web of which the net is composed.

2. A new section designated 101.21 is added to read as follows:

§ 101.21 *Trolling.* Taking or attempting to take fish by means of a lure or baited hook attached to a line drawn through the water.

PART 102—GENERAL PROVISIONS

1. Section 102.8 is amended to read as follows:

§ 102.8 *Registration of fishing boats and gear.* Except as hereinafter provided, no boat nor unit of fishing gear shall be used in commercial fishing unless and until it shall have been properly registered with a local representative of the United States Fish and Wildlife Service for the initial registration area of intended operation (as hereinafter defined) in accordance with provisions of this section. Any person desiring to register any boat or unit of fishing gear shall furnish to the said local representative full and complete information as to the size, type, and identity of boat, number of fishermen in crew, description of gear, and the fishery (salmon, herring, crab, etc.) in which such gear and boat is intended to be used. A United States Fish and Wildlife Service registration number shall be assigned to each boat and unit of fishing gear.

(a) Each salmon fishing net, and each boat intended to be used with such net shall be registered not later than 30 calendar days prior to the opening of the fishing season. No salmon fishing net registered for one registration area may thereafter be used in any other registration area during that calendar year, nor may any boat registered to fish for salmon with a net or nets in one registration area be used to fish for salmon with a net or nets in any other registration area during that calendar year: *Provided*, That late registration or transfer of registered nets or boats to another registration area may be permitted by the Administrator of Alaska Commercial Fisheries upon a determination that (1) conservation of the salmon runs will result therefrom, or (2) conservation of the salmon runs will not be adversely affected and such transfer is justified upon the grounds of hardship or for other valid reasons.

(b) All other fishing gear and boats shall be registered for the calendar year at any time prior to use in commercial fishing in the registration area of intended operation. Prior to transfer to another registration area, intention to transfer shall be reported to the area representative of the United States Fish and Wildlife Service: *Provided*, That this section shall not apply to fishing gear or boats used solely in fishing for halibut.

(c) Each registration area shall be assigned a code letter. Registration areas are defined as follows:

Code letter:	*Registration area*
A	Southeastern Alaska area.
D	Yakutat area and Yakataga District of the Bering River-Yakataga area.
E	Prince William Sound area; Copper River area; Bering River-Yakataga area.
H	Cook Inlet area; Resurrection Bay area.
K	Kodiak area.
M	Aleutian Islands area; Alaska Peninsula area; Chignik area.
T	Bristol Bay area; and after July 31, the Northeast district of the Alaska Peninsula area.
Y	Yukon district of the Kotzebue-Yukon-Kuskokwim area.

(d) Evidence of proper registration shall be kept immediately available at all times during fishing operations and shall be shown upon request to any authorized representative of the United States Fish and Wildlife Service or the United States Coast Guard.

(e) Registration plates, when furnished, shall be displayed in a prominent place on the port side of the boat or on the face of the trap.

2. Section 102.9 is amended in text by deleting "a distinctive number, letter or name which shall identify each particular stake net, set net, trap net, pound

net, or fish wheel, such letters and" and substituting in lieu thereof, "the permanently assigned United States Fish and Wildlife Service registration number."

3. Section 102.36a is amended in paragraph (b) by deleting, "except that this requirement shall not apply to tangle nets prior to January 1, 1955."

PART 103—KOTZEBUE-YUKON-KUSKOKWIM AREA

1. Section 103.5 is amended to read as follows:

§ 103.5 *Gear restrictions.* Fishing is prohibited except with gill nets: *Provided*, That in the Yukon district such nets may not have mesh less than 8½ inches stretched measure, and: *Provided further*, That fish wheels may be used in the Yukon and Kuskokwim districts.

PART 104—BRISTOL BAY AREA

1. Section 104.3 is amended in paragraphs (a), (b), (c), (d), and (e) by deleting the last sentence of each paragraph.

2. Section 104.5 is amended in paragraph (a) and the first sentence of text in paragraph (b) to read as follows:

(a) In the period June 24 to July 26, the statutory weekly closed period of 36 hours is extended so as to limit fishing to the number of days per week set out in the following table, wherein the number of days of fishing is governed by the total number of units of gear registered for fishing in the respective districts as of 6 o'clock postmeridian of the Friday immediately preceding the week in which fishing is permitted.

Units of gear by district				Days of fishing per week
Naknek-Kvichak	Nushagak	Egegik	Ugashik	
534	534	227	113	1
382–533	382–533	162–226	83–112	1.5
267–381	267–381	114–161	60–82	2.0
229–266	229–266	97–113	53–59	2.5
191–228	191–228	81–96	45–52	3.0
153–190	153–190	65–80	37–44	3.5
133–152	133–152	57–64	34–36	4.0
132	132	56	33	5.0

(b) "For the purposes of this section, a unit a gear is considered to be one 150-fathom drift gill net as fished from a two-man boat."

3. Section 104.9 is amended in text by deleting "the initials of the operator" and substituting in lieu thereof "the permanent United States Fish and Wildlife Service registration number."

4. Section 104.10 is amended in text by deleting "June 25" and substituting in lieu thereof "June 24" wherever it appears.

5. A new section designated 104.11a is added to read as follows:

§ 104.11a *Operation of salmon gill nets.* In the period from June 24 to July 25: (a) No gill net registered as a set gill net may be used as a drift gill net, nor may any gill net registered as a drift gill net be used as a set net; (b) No fisherman licensed to operate or assist in operating a drift gill net shall operate a set gill net; and no fisherman licensed to operate a set gill net shall operate or assist in operating a drift gill net; (c) During any weekly open fishing period the picking of any gill net shall be deemed to be a part of the fishing operation and shall be performed only on a registered net by the fishermen licensed to operate a particular legal limit of gear.

6. Section 104.50 is amended in text by deleting "June 23" and substituting in lieu thereof "June 22."

PART 105—ALASKA PENINSULA AREA

1. Section 105.2 is amended in paragraphs (d), (e), (f), and (g) to read as follows:

(d) Northwestern: All waters on the north side of the Alaska Peninsula between Lagoon Point and Unimak Pass, excluding Bechevin Bay.

(e) Southwestern: All waters on the south side of the Alaska Peninsula between Cape Pankof light and Kenmore Head, including Bechevin Bay.

(f) Southcentral: All waters south of the Alaska Peninsula between Kenmore Head and the south side of Cape Aliaksin at 160 degrees 45 minutes west longitude, including all of the Shumigan Islands, except Korovin Island.

(g) Southeastern: All waters on the south side of the Alaska Peninsula from a point at 160 degrees 45 minutes west longitude on the south side of Cape Aliaksin to Andronica Island light, thence to the eastern boundary of the area.

2. Section 105.3a is amended to read as follows:

§ 105.3a *Open seasons and gear.* Fishing is prohibited except:

(a) Northeastern district: (1) From 6 o'clock postmeridian September 13 west of the northern entrance to Port Heiden at 57 degrees north latitude, and (2) From August 1 to September 13 with gill nets only, east of the northern entrance to Port Heiden at 57 degrees north latitude.

(b) Bear River district: From 6 o'clock antemeridian June 24 to 6 o'clock postmeridian September 13.

(c) Port Moller district: From 6 o'clock antemeridian June 21 to 6 o'clock postmeridian September 13.

(d) Northwestern district: From 6 o'clock antemeridian May 27 to 6 o'clock postmeridian July 26.

(e) Southwestern district: From 6 o'clock antemeridian May 27 to 6 o'clock postmeridian August 2, and from 6 o'clock antemeridian August 14 to 6 o'clock postmeridian September 13.

(f) Southcentral district: From 6 o'clock antemeridian May 27 to 6 o'clock postmeridian August 2, and from 6 o'clock antemeridian August 14 to 6 o'clock postmeridian September 13.

(g) Southeastern district: From 6 o'clock antemeridian May 27 to 6 o'clock postmeridian August 2, and from 6 o'clock antemeridian August 14 to 6 o'clock postmeridian August 23.

(h) Unimak district: From 6 o'clock antemeridian May 27 to 6 o'clock postmeridian August 2, and from 6 o'clock antemeridian August 14 to 6 o'clock postmeridian September 13.

3. Section 105.5 is amended in paragraph (a) to read as follows:

(a) Bear River district: Over and above the provisions of section 102.4, fishing is prohibited in the Bear River district with any unit of gear unless and until it has been registered with a local representative of the United States Fish and Wildlife Service. In the period from June 24 through August 9, fishing shall be governed according to the following table wherein the number of days of fishing is controlled by the number of units of gear registered for fishing in the Bear River district prior to June 20. A fishing day is designated as beginning at 6 o'clock antemeridian of each day and ending at 6 o'clock postmeridian of the same day.

BEAR RIVER TABLE OF EFFORT AND DAYS OF ALLOWABLE FISHING TIME PER WEEK

Fishing days:	*Units of gear*
1	100 and over.
2	80–99.
3	70–79.
4	60–69.
5	Less than 60.

For the purposes of this section, one drift gill net of not more than 200 fathoms in length shall equal 1 unit of gear and one purse seine shall equal 2.9 units of gear. When the allowable fishing time per week is less than 2 days, fishing will commence on Monday at 6 o'clock antemeridian and will be continuous for the entire period. If the allowable fishing time is 2 days to 5 days per week, fishing will begin at 6 o'clock antemeridian Monday and 6 o'clock antemeridian Thursday and continue for one-half of the total time allowed.

4. Section 105.15 is deleted.

5. Section 105.19 is amended in sections (e), (f), (g), and (h), and by adding a new paragraph designated (n) to read as follows:

(e) Canoe Bay, tributary to Pavlof Bay, in the inner bay at all times and in the outer bay after July 16.

(f) All waters of Ozinski (Orzenoi) Bay within 1,000 yards of any salmon stream.

(g) Balboa Bay: All waters of the bay (1) North of a line extending due west from Reef Point, and (2) inside a line in Left Hand Bay from a point at 55 degrees 31 minutes 36 seconds north latitude, 160 degrees 42 minutes 54 seconds west longitude to a point at 55 degrees 33 minutes 12 seconds north latitude, 160 degrees 42 minutes 6 seconds west longitude, after August 2.

(h) Ivanof Bay: Within 1,000 yards of any salmon stream north and east of Road Island.

• • • • •

(n) Clark and Grub Gulch Bays; and Dorenoi Bay inside a line from a point at 55 degrees 38 minutes north latitude, 160 degrees 24 minutes 6 seconds west longitude to a point at 55 degrees 37 minutes 18 seconds north latitude, 160 degrees 22 minutes 30 seconds west longitude, after August 2.

PART 107—CHIGNIK AREA

1. Section 107.1 is amended in text to read as follows: "The Chignik Area is hereby defined to include all waters of Alaska on the south side of the Alaska Peninsula between the southern entrance to Imuya Bay near Kilokak Rocks, and the western point at the entrance to Kuiukta Bay, including adjacent islands."

2. Section 107.2 is amended in paragraphs (a), (b), and (c) to read as follows:

(a) Western district: From 6 o'clock antemeridian July 1 to 6 o'clock postmeridian August 2; and from 6 o'clock antemeridian August 14 to 6 o'clock postmeridian August 23.

(b) Chignik Bay district: From 6 o'clock antemeridian June 17 to 6 o'clock postmeridian August 30.

(c) Eastern district: From 6 o'clock antemeridian July 1 to 6 o'clock postmeridian August 2.

3. Section 107.3 is amended in paragraph (b) to read as follows:

(b) Chignik Bay district: From 6 o'clock postmeridian Monday to 6 o'clock antemeridian Wednesday; from 6 o'clock postmeridian Wednesday to 6 o'clock antemeridian Friday; and from 6 o'clock postmeridian Friday to 6 o'clock antemeridian Monday.

4. Section 107.6 is amended in paragraph (b) to read as follows:

(b) The use of purse seines is prohibited except in the Western district, and in the Eastern district east of Cape Kumnik.

5. Sections 107.13 and 107.14 are suspended through December 31, 1957.

6. Section 107.15 is amended in paragraphs (a) and (b), and by adding paragraphs (c), (d), and (e) to read as follows:

(a) Chignik Lagoon: (1) Within a line from a point on the mainland at 56 degrees 18 minutes 00 seconds north latitude, 158 degrees 36 minutes 42 seconds west longitude, to a point on the north side of Chignik Island at approximately 56 degrees 17 minutes 30 seconds north latitude, 158 degrees 34 minutes 54 seconds west longitude, thence to a point on the east side of Chignik Island at 56 degrees 16 minutes 48 seconds north latitude, 158 degrees 34 minutes 38 seconds west longitude, thence to Green Point on the mainland at 56 degrees 16 minutes 44 seconds north latitude, 158 degrees 33 minutes 52 seconds west longitude, and (2) all waters of Mallard Duck Bay inside a line from Green Point to Chignik Island; both effective in 1957 only.

(b) Aniakchak Lagoon: All waters of the lagoon and within 500 yards of the entrance.

(c) Yantarni Lagoon: All waters of the lagoon and within 500 yards of the entrance.

(d) Nakalilok Lagoon: All waters of the lagoon and within 500 yards of the entrance.

(e) Kujulik Bay: All waters in the southwest end of the bay inside a line from a point at approximately 56 degrees 35 minutes 52 seconds north latitude, 157 degrees 59 minutes 00 seconds west longitude, to a point at 56 degrees 34 minutes 00 seconds north latitude, 157 degrees 57 minutes 30 seconds west longitude.

PART 108—KODIAK AREA

1. Section 108.1 is amended in text to read as follows:

§ 108.1 *Definition.* The Kodiak area is hereby defined to include all waters of Alaska from the southern entrance to Imuya Bay near Kilokak Rocks, to Cape Douglas, including Kodiak, Afognak, and adjacent islands.

2. Section 108.2 is amended in headnote to read: "§ 108.2 *Definitions, fishing districts and sections,*" and is also amended in paragraphs (a), (b), and (c), and by adding a new paragraph designated (b–1) to read as follows:

(a) Alitak district: All waters between Cape Trinity and Low Cape.

(1) Moser-Olga Bay section; inside a line from the southernmost point of Miller Island to the southernmost point of High Rock.

(2) Alitak Bay section; all other waters of the district.

(b) Red River district: All waters from Low Cape to Sturgeon Head.

(b–1) Sturgeon River district: All waters from Sturgeon Head to Cape Karluk.

(c) Karluk district: All waters from Cape Karluk to Broken Point.

(1) Inner Karluk section; all waters from Cape Karluk to Cape Uyak.

(2) Uyak Bay section; all waters inside a line from Cape Kuliuk to the Uyak Postoffice.

(3) Outer section; all other waters of the district.

3. Section 108.3 is amended to read as follows:

§ 108.3 *Open seasons, Karluk district.* Fishing is prohibited except from 6 o'clock antemeridian June 3 to 6 o'clock postmeridian August 13, and from 6 o'clock antemeridian September 5 to 6 o'clock postmeridian September 28: *Provided*, That fishing is prohibited, (1) Prior to 6 o'clock antemeridian July 8 in the Uyak section, and (2) from 6 o'clock postmeridian July 19 to 6 o'clock antemeridian July 29 in the Inner Karluk section.

4. Section 108.3a is amended to read as follows:

§ 108.3a *Open seasons, Mainland district.* Fishing is prohibited except from 6 o'clock antemeridian July 8 to 6 o'clock postmeridian August 13, and from 6 o'clock antemeridian September 5 to 6 o'clock postmeridian September 28.

5. Section 108.3b is amended to read as follows:

§ 108.3b *Open seasons, Afognak district.* Fishing is prohibited except from 6 o'clock antemeridian July 8 to 6 o'clock postmeridian August 13, and from 6 o'clock antemeridian September 5 to 6 o'clock postmeridian September 28.

6. Section 108.3c is amended to read as follows:

§ 108.3c *Open seasons, General district.* Fishing is prohibited except from 6 o'clock antemeridian July 8 to 6 o'clock postmeridian August 13, and from 6 o'clock antemeridian September 5 to 6 o'clock postmeridian September 28.

7. Section 108.4 is amended to read as follows:

§ 108.4 *Open season, Red River district.* Fishing is prohibited except from 6 o'clock antemeridian July 8 to 6 o'clock postmeridian August 13, and from 6 o'clock antemeridian September 5 to 6 o'clock postmeridian September 28.

8. A new section designated 108.4a is added to read as follows:

§ 108.4a *Open seasons, Sturgeon River district.* Fishing is prohibited except from 6 o'clock antemeridian June 3 to 6 o'clock postmeridian August 13, and from 6 o'clock antemeridian September 5 to 6 o'clock postmeridian September 28.

9. Section 108.5 is amended to read as follows:

§ 108.5 *Open seasons, Alitak district.* Fishing is prohibited except from 6 o'clock antemeridian July 1 to 6 o'clock postmeridian August 13, and from 6 o'clock antemeridian September 5 to 6 o'clock postmeridian September 28; *Provided*, That in the Alitak Bay section fishing is prohibited prior to 6 o'clock antemeridian July 8.

10. Section 108.5a is amended to read as follows:

§ 108.5a *Open seasons, Uganik district.* Fishing is prohibited except from 6 o'clock antemeridian July 8, to 6 o'clock postmeridian August 13, and from 6 o'clock antemeridian September 5 to 6 o'clock postmeridian September 28.

11. Section 108.5b is amended to read as follows:

§ 108.5b *Weekly closed period.* Prior to September 5, the weekly closed period is extended to include the period from 6 o'clock postmeridian Friday to 6 o'clock antemeridian Monday: *Provided*, That after August 1 in the Moser-Olga Bay section of the Alitak district, the weekly closed period is further extended to include the period from 6 o'clock postmeridian Tuesday to 6 o'clock antemeridian Thursday.

12. Section 108.10 is amended to read as follows:

§ 108.10 *Fishing limited, Olga and Moser Bays.* Fishing is prohibited (a) in Olga Bay, except with set or anchored gill nets along the south shore from the latitude of Stockholm Point to a point at 57 degrees 4 minutes 23 seconds north latitude, 154 degrees 6 minutes 38 seconds west longitude, and along the eastern shore from a point at 57 degrees 4 minutes 23 seconds north latitude, 154 degrees 5 minutes 2 seconds west longitude, to a point at 154 degrees west longitude, and along the north shore from a point at 154 degrees 3 minutes west longitude to the latitude of Stockholm Point; and (b) in Moser Bay except with set or anchored gill nets south of a line from 57 degrees 0 minutes 11 seconds north latitude, 154 de-

grees 7 minutes 58 seconds west longitude, to 57 degrees 1 minute 27 seconds north latitude, 154 degrees 8 minutes 32 seconds west longitude.

13. A new section designated 108.16a is added to read as follows:

§ 108.16a *Gear, Sturgeon River district.* Fishing is prohibited in the Sturgeon River district except by purse seines and set or anchored gill nets.

14. Section 108.24 is amended in paragraphs (i) and (s) to read as follows:

(i) Terror Bay: All waters within the bay south of 57 degrees 44 minutes 41 seconds north latitude.

* * * * *

(s) Barling Bay: All waters of the bay.

PART 109—COOK INLET AREA

1. Section 109.2 is amended in text to read as follows:

§ 109.2 *Open seasons.* (a) Northern and North Central districts: (1) From 9 o'clock antemeridian May 27 to 9 o'clock antemeridian June 24 with gill nets only, of which no legal limit shall have more than 35 fathoms of mesh less than 8½ inches stretched measure, (2) From 9 o'clock antemeridian June 24 to 9 o'clock postmeridian August 12, and (3) From 9 o'clock antemeridian August 19 to 9 o'clock postmeridian September 20 with gill nets only.

(b) South Central district: (1) From 9 o'clock antemeridian May 27 to 9 o'clock postmeridian August 12, and (2) From 9 o'clock antemeridian August 19 to 9 o'clock postmeridian September 20 with gill nets only.

(c) Southern district: (1) From 9 o'clock antemeridian May 27 to 9 o'clock postmeridian August 12, and (2) From 9 o'clock antemeridian September 2 to 9 o'clock postmeridian September 10.

(d) Outer district: (1) From 9 o'clock antemeridian July 11 to 9 o'clock antemeridian July 17, and (2) From 9 o'clock antemeridian July 25 to 9 o'clock antemeridian August 7.

2. Section 109.2a is amended in paragraph (a) to read as follows:

(a) (1) In the Northern, North Central, South Central, and Southern districts prior to July 1 from 9 o'clock antemeridian Friday to 9 o'clock antemeridian Monday and from 9 o'clock antemeridian Tuesday to 9 o'clock antemeridian Thursday. In the period July 1 to July 27 inclusive, the number of fishing days per week shall be governed by the total number of units of gear registered for fishing in these districts as of the preceding June 1 in accordance with the following table:

Units of gear:	*Days of fishing per week*
1540	1.0
1290–1539	1.5
1050–1289	2.0
880–1049	2.5
770–879	3.0
700–769	3.5
650–699	4.0
649	5.0

(2) For the purposes of this section, one set of set net gear shall equal 1 unit of gear; one drift gill net shall equal 2 units of gear; one hand trap shall equal 4 units of gear; and one pile trap shall equal 8.5 units of gear.

(3) When the allowable fishing time is one day per week, fishing will be permitted from 9 o'clock antemeridian Monday to 9 o'clock antemeridian Tuesday. When the allowable fishing time is more than one day and less than three days per week, fishing will commence at 9 o'clock antemeridian on Monday and 9 o'clock antemeridian on Thursday, and will be continuous thereafter for one-half of the total fishing time allowed. When the allowable fishing time is three or three and one-half days per week, the fishing time shall be divided into three equal parts starting at 9 o'clock antemeridian on each Monday, Wednesday and Friday. When the allowable fishing time is four days or more per week, fishing will commence at 9 o'clock antemeridian Monday and be continuous thereafter for the total fishing time allowed. As used in this section "day" refers to a period of twenty-four hours.

3. Section 109.6 is amended in the last sentence of text to read as follows: The use of drift gill nets is prohibited in the Northern, Southern and Outer districts.

4. A new section designated 109.7a is added to read as follows:

§ 109.7a *Use of gill nets restricted.* In the period from July 1 to July 27: (a) No gill net registered as a set gill net may be used as a drift gill net, nor may any gill net registered as a drift gill net be used as a set net; (b) No fisherman licensed to operate or assist in operating a drift gill net shall operate a set gill net; and no fisherman licensed to operate a set gill net shall operate or assist in operating a drift gill net; (c) During any weekly open fishing period the picking of any gill net shall be deemed to be a part of the fishing operation and shall be performed only on a registered net by fishermen licensed to operate a particular legal limit of gear.

5. Section 109.8 is amended in text to read as follows: "Each drift gill net in operation shall have a suitable bright red keg, buoy or cluster of floats at each end which shall be plainly and legibly marked with the permanent registration number of the United States Fish and Wildlife Service, as well as the initials of the operator, and bright red double floats shall be attached to the cork line at 25-fathom intervals."

6. Section 109.15e is amended as follows: By deleting from the proviso the words "6 o'clock antemeridian" and substituting in lieu thereof "9 o'clock antemeridian June 24"; by amending paragraph (c), (3) to read as follows:

(3) From 60 degrees 65 minutes 34 seconds north latitude, 150 degrees 44 minutes 13 seconds west longitude to the latitude of Birch Hill at approximately 60 degrees 14 minutes 00 seconds north latitude;

and by adding to paragraph (c) a new subparagraph (4) as follows:

(4) From the latitude of Gray Cliff to the southern boundary of the district at Boulder Point.

7. Section 109.15f is amended in the proviso by deleting "6 o'clock antemeridian June 25" and substituting in lieu thereof "9 o'clock antemeridian June 24", and in paragraph (a) subparagraph (2) to read as follows:

(2) From 60 degrees 45 minutes 55 seconds north latitude, 151 degrees 44 minutes 27 seconds west longitude, to 60 degrees 43 minutes 53 seconds north latitude, 151 degrees 48 minutes 30 seconds west longitude and, from 60 degrees 24 minutes 36 seconds north latitude, 152 degrees 16 minutes 35 seconds west longitude, to 60 degrees 24 minutes 14 seconds north latitude, 152 degrees 15 minutes 23 seconds west longitude.

8. Section 109.15g is revised in paragraphs (a) (1) and (b) (18), and by deleting subparagraphs (19), (20), and (21) of paragraph (b).

(a) * * *

(1) From 60 degrees 16 minutes 17 seconds north latitude, 152 degrees 20 minutes 54 seconds west longitude, to 60 degrees 14 minutes 14 seconds north latitude, 152 degrees 32 minutes 37 seconds west longitude and; from 60 degrees 13 minutes 25 seconds north latitude, 152 degrees 34 minutes 39 seconds west longitude to the latitude of Chisik Island Light.

* * * * *

(b) * * *

(18) From 60 degrees 04 minutes 51 seconds north latitude, 151 degrees 37 minutes 55 seconds west longitude to the latitude of the United States Fish and Wildlife Service marker marking the northern limit of the closed area at the mouth of Ninilchik River.

9. Section 109.15i is deleted.

10. Section 109.16 is amended in paragraph (c) to read as follows:

(c) Kamishak Bay: All waters within one statute mile of any salmon stream.

11. Section 109.25 is amended by adding a new paragraph designated (c) to read as follows:

(c) The float of each crab pot shall be plainly and legibly marked with the permanent United States Fish and Wildlife Service registration number and all pots fished under a single registration shall be consecutively numbered, starting with the number one.

12. Section 109.51a is amended in text to read as follows: "Personal use fishing shall be limited to a take of not to exceed 10 salmon per person per day by hook and line of which not more than two may exceed 16 inches in length."

PART 110—RESURRECTION BAY AREA

1. A new section designated 110.1a is added to read as follows:

§ 110.1a *Definitions, fishing districts.* (a) Eastern district: All waters east of 149 degrees 30 minutes west longitude.

(b) Western district: All waters west of 149 degrees 30 minutes west longitude.

2. Section 110.3 is amended to read as follows:

§ 110.3 *Open seasons.* Fishing is prohibited except (a) Eastern district, from 9 o'clock antemeridian August 1 to 6 o'clock postmeridian September 14, (b) Western district, from:

(1) 9 o'clock antemeridian July 1 to 9 o'clock antemeridian July 17, and

(2) from 9 o'clock antemeridian July 25 to 9 o'clock postmeridian August 8.

3. A new section designated 110.10a is added to read as follows:

§ 110.10a. *Size of beach seines.* No beach seine shall be less than 125 meshes in depth or less than 90 fathoms in length measured on the cork line. For the purpose of determining the depth of seines, measurements will be made on the basis of 3½ inches stretched measure between knots.

4. Section 110.50 is amended to read as follows:

§ 110.50 *Closed waters.* Fishing for, taking or molesting any salmon is prohibited in Bear Creek and Lake, Grouse Creek and Lake, and Salmon Creek, prior to 6 o'clock antemeridian August 15.

5. A new section designated 110.51 is added to read as follows:

§ 110.51 *Bag limit.* Personal use fishing shall be limited to a take of not to exceed 10 salmon per person per day with hook and line, of which not more than two shall exceed 16 inches in length.

PART 111—PRINCE WILLIAM SOUND AREA

1. Section 111.2 is amended to read as follows:

§ 111.2 *Open seasons.* Fishing, except trolling, is prohibited except in (a) Eshamy district from 6 o'clock antemeridian July 10 to 6 o'clock postmeridian August 22, (b) general district, from 6 o'clock antemeridian July 10 to 6 o'clock antemeridian August 10: *Provided*, That the number of purse seines registered prior to June 10 does not exceed 135. Should more than 135 purse seines be registered prior to June 10, the fishing season will be shortened according to the following table.

Number of purse seines:	*Season closing date (6 o'clock antemeridian)*
135 or less	August 10.
136–140	August 9.
141–145	August 8.
146–150	August 7.
151–155	August 6.
156–160	August 5.
161–165	August 3.
166–170	August 2.
171–180	August 1.

2. Section 111.11 is amended as follows: (Notice)—Effective only through December 31, 1957, § 111.11 is amended by deleting paragraphs (b), (f), (g), (h) (l), (i) (2), (j), (k), (n), (p), (q), (r), (s), (t), (u), (v), (w), (y), (aa) and (bb); and revising paragraphs (a), (d), and (z), so that §111.11 as changed reads as follows:

§ 111.11 *Areas open to traps.* (a) Knight Island: From a point on the southeast coast at 60 degrees 10 minutes north latitude southerly to Point Helen.

(c) Bainbridge Island: Within 2,500 feet of a point at 60 degrees 11 minutes 42 seconds north latitude, 148 degrees 2 minutes 32 seconds west longitude.

(d) Chenega Island: Along the southeastern coast from a point 2 statute miles north of Chenega Point to a point 1 statute mile north of Chenega Point.

(e) Mainland Coast within 2,500 feet westerly of a point at 60 degrees 24 minutes 58 seconds north latitude, 147 degrees 57 minutes 50 seconds west longitude.

(h) Western side of Valdez Arm: from 60 degrees 58 minutes 10 seconds north latitude, to 60 degrees 59 minutes 10 seconds north latitude.

(i) Southwest coast of Bligh Island: Within 2,500 feet of a point at 60 degrees 49 minutes 6 seconds north latitude, 146 degrees 48 minutes 55 seconds west longitude.

(l) Within ½ statute mile of Porcupine Point.

(m) Mainland coast, near Knowles Head: Within 2,500 feet of a point at 60 degrees 41 minutes 40 seconds north latitude, 146 degrees 39 minutes 54 seconds west longitude.

(o) From a point on the coast 1 statute mile northwestward of the light at Gravina Point to a point on the coast 2 statute miles northwestward of the light on Gravina Point, making an open area of 1 statute mile.

(x) Montague Island: Along the coast from a point on the south side of MacLeod Harbor at 59 degrees 52 minutes 20 seconds north latitude, 147 degrees, 50 minutes 32 seconds west longitude to a point at 59 degrees 52 minutes 10 seconds north latitude, 147 degrees 51 minutes 32 seconds west longitude.

(z) Western coast of Montague Island: From Point Bazil on the north side of the entrance to Hanning Bay northeasterly along the coast 1 statute mile.

3. Section 111.12 is amended: (1) By revising paragraphs (k) and (w); (2) By adding new paragraphs (aa), (bb), (cc), (dd), and (ee); and (3) By deleting paragraph (x).

(k) (1) Port Valdez: All waters east of 146 degrees 39 minutes 00 seconds west longitude.

(2) East side of Valdez Arm, Jack Bay: All waters east of 146 degrees 35 minutes 32 seconds west longitude, and within 1,000 yards of the terminuses of the two streams on the south shore of the bay.

(3) Valdez Arm, the bay locally known as Sawmill Bay: All waters within 1,000 yards of the terminus of the salmon stream on the west shore of the bay north of the lagoon.

* * * * *

(w) (1) Hinchinbrook Island, Anderson Bay: All waters at the heads of the two bays, inside lines drawn from a point at (1) 60 degrees 28 minutes 00 seconds north latitude, 146 degrees 32 minutes 45 seconds west longitude to a point at 60 degrees 27 minutes 54 seconds north latitude, 146 degrees 31 minutes 50 seconds west longitude, and (2) from a point at 60 degrees 27 minutes 45 seconds north latitude, 146 degrees 29 minutes 00 seconds west longitude to a point at 60 degrees 28 minutes 10 seconds north latitude, 146 degrees 27 minutes 00 seconds west longitude.

(2) Hinchinbrook Island, Hawkins Cutoff: All waters west of a line extending from a point at 60 degrees 27 minutes 15 seconds north latitude, 146 degrees 21 minutes 30 seconds west longitude to a point at 60 degrees 24 minutes 30 seconds north latitude, 146 degrees 19 minutes 30 seconds west longitude.

* * * * *

(aa) Port Gravina, Comfort Cove: All waters within 1,000 yards of the terminus of the stream at the head of the cove.

(bb) (1) Port Fidalgo, Two Moon Bay: All waters within 1,000 yards of the terminus of the stream at the head of the east arm.

(2) Port Fidalgo, Landlock Bay: All waters within 1,000 yards of the terminus of the stream at the head of the bay.

(cc) Wells Bay: All waters within 1,000 yards of the terminus of each of the two streams at the extreme head.

(dd) Port Nellie Juan: All waters within 1,000 yards of the terminuses of the following three streams located at approximately (1) 60 degrees 35 minutes 30 seconds north latitude, 148 degrees 15 minutes 00 seconds west longitude, (2) 60 degrees 34 minutes north latitude, 148 degrees 20 minutes 30 seconds west longitude, and (3) 60 degrees 35 minutes 40 seconds north latitude, 148 degrees 24 minutes west longitude.

(ee) (1) Montague Island, MacLeod Harbor: All waters within 1,000 yards of the terminus of all salmon streams at the head of the bay.

(2) Montague Island, Hanning Bay: All waters within 1,000 yards of the terminus of the stream at the head.

(3) Montague Island, Zaikof Bay: All waters within 1,000 yards of the terminus of the stream on the south shore nearest the head of the bay.

(4) Montague Island, Port Chalmers: All waters east of a line extending from a point at 60 degrees 14 minutes 20 seconds north latitude, 147 degrees 13 minutes 47 seconds west longitude, to a point at 60 degrees 15 minutes 25 seconds north latitude, 147 degrees 10 minutes 47 seconds west longitude.

PART 113—BERING RIVER-YAKATAGA AREA

1. Section 113.1 is amended in text after the word "waters" by adding "of Alaska".

2. Section 113.5 is amended to read as follows:

§ 113.5 *Weekly closed period.* Fishing is prohibited from 6 o'clock antemeridian Saturday to 6 o'clock antemeridian Monday, and from 6 o'clock antemeridian Wednesday to 6 o'clock postmeridian Thursday: *Provided*, That the mid-week closure shall not apply in the Bering River district after August 10.

3. Section 113.8 is amended in paragraph (b) by deleting from the text "or boat".

PART 114—YAKUTAT AREA

1. Section 114.2a is amended in paragraphs (a), (b), and (e) as follows: (a) by deleting "June 1" and substituting in lieu thereof "June 3", paragraph (b) is re-established to read as follows:

(b) Situk-Ahrnklin Inlet: From 6 o'clock antemeridian June 24 to 6 o'clock postmeridian September 30, (e) By deleting "June 17" and substituting in lieu thereof "June 15."

2. Section 114.2b is amended by deleting "March 15" and substituting in lieu thereof "April 15."

3. Section 114.4 is amended to read as follows:

§ 114.4 *Weekly closed periods.* The weekly closed period is extended as follows:

(a) Prior to August 11: From 6 o'clock postmeridian Thursday to 6 o'clock antemeridian Monday, except that the closure on the Alsek River shall be from 6 o'clock postmeridian Friday to 6 o'clock antemeridian Monday.

(b) After August 11: From 12 o'clock noon Saturday to 12 o'clock noon Monday.

PART 115—SOUTHEASTERN ALASKA AREA SALMON FISHERIES, GENERAL REGULATIONS

1. Section 115.4a is amended in text by deleting "and Burroughs Bay" and substituting in lieu thereof "Sumner Strait in the vicinity of Red and Salmon Bays, North Clarence Strait in the vicinity of Lake Bay, and the Portland Canal section of the Southern district."

2. Section 115.6d is amended in the headnote to read *"Closed season in outside waters, king salmon,"* and in text by deleting "March 15" and substituting in lieu thereof "April 15."

3. Section 115.6e is amended by deleting the final sentence of text.

4. Section 115.10 is amended in headnote to read *"Special season registration,"* and in text by inserting "or for drift gill net fishing along the northeast shore of Prince of Wales Island," immediately after the words "chum salmon fishing."

5. A new center heading is created designated "PERSONAL USE FISHERY" and a new section designated 115.50 is added thereunder to read as follows:

§ 115.50 *Restrictions on taking king salmon by hook and line.* The taking of king salmon in salt water by hook and line for sport or personal use shall be limited to:

(a) The use of not to exceed one line per person.

(b) A bag limit of fifty pounds and one fish.

(c) Fish over either: (1) 26 inches from tip of snout to fork of tail, or (2) six pounds dressed weight.

PART 116—SOUTHEASTERN ALASKA AREA FISHERIES OTHER THAN SALMON

Section 116.12 is deleted.

PART 117—SOUTHEASTERN ALASKA AREA, ICY STRAIT DISTRICT, SALMON FISHERIES

1. Section 117.3 is amended in headnote to read *"Open seasons and weekly closed periods,"* and in text by deleting "During these seasons" and substituting in lieu thereof "Except subsequent to August 1 in the Western section."

2. Effective only through December 31, 1957, § 117.11 is amended by deleting paragraphs (a), (b), (c), (g), (h), (i) (2), (j), (l) (1), and (m), and by revising paragraphs (f), (i) (1), (k), and (l) (2).

(f) Chichagof Island: Within 2,500 feet of a point at 58 degrees 16 minutes 26 seconds north latitude, 135 degrees 49 minutes 56 seconds west longitude.

• • • • • •

(i) Pleasant Island: (1) Within 2,500 feet of a point at 58 degrees 20 minutes 11 seconds north latitude, 135 degrees 41 minutes 20 seconds west longitude.

• • • • • •

(k) Mainland: Along the coast on the east side of Excursion Inlet (1) within 2,500 feet of a point at 58 degrees 15 minutes 24 seconds north latitude, 135 degrees 19 minutes 31 seconds west longitude; (2) within 2,500 feet of a point at 58 degrees 14 minutes 13 seconds north latitude, 135 degrees 17 minutes 34 seconds west longitude.

(l) Chichagof Island: Northeast Coast • • • (2) within 2,500 feet of a point at 58 degrees 5 minutes 43 seconds north latitude, 135 degrees 13 minutes 21 seconds west longitude • • •.

PART 118—SOUTHEASTERN ALASKA AREA, WESTERN DISTRICT, SALMON FISHERIES

1. Section 118.4 is amended in text by deleting "September 30" and substituting in lieu thereof "October 11."

2. Section 118.5 is amended in text (1) by deleting "August 18" and substituting in lieu thereof "August 17"; (2) by deleting "During this season" and substituting in lieu thereof "Prior to August 15"; and (3) in the proviso by deleting "September 1" and substituting in lieu thereof "September 2"; and by adding "prior to September 25" at the end.

3. Section 118.6 is amended in headnote to read *"Open seasons and weekly closed periods, central and southern sections,"* and in text (1) by deleting "August 18" and substituting in lieu thereof "August 17"; (2) by deleting "During this season" and substituting in lieu thereof "Prior to August 15"; and (3) by deleting "6 o'clock antemeridian" from the proviso and substituting in lieu thereof "12 o'clock noon."

4. A new section designated 118.6a is added to read as follows:

§ 118.6a *Open seasons and weekly closed periods, western section.* Fishing, other than trolling, is prohibited except from 6 o'clock antemeridian June 24 to 6 o'clock postmeridian August 24. Prior to August 20 the weekly closed period, except for trolling, is extended to include the period from 6 o'clock postmeridian Friday to 6 o'clock antemeridian Monday.

5. Effective only through December 31, 1957, § 118.16 is amended by deleting paragraphs (a), (b), (c), (d) (1) and (3), (e), (g), (j) (1), (l), (m) (1) and (2); and by revising paragraphs (i), (j) (2) and (5).

(i) Mansfield Peninsula: West coast (1) from 58 degrees 12 minutes north latitude to 58 degrees 10 minutes 45 seconds north latitude; (2) within 2,500 feet of a point at 58 degrees 7 minutes 13 seconds north latitude; and (3) from 58 degrees 9 minutes 30 seconds north latitude to 58 degrees 8 minutes north latitude.

(j) Admiralty Island: West coast • • • (2) within 2,500 feet of a point at 57 degrees 43 minutes 23 seconds north latitude, (5) from 58 degrees 1 minute north latitude to 57 degrees 58 minutes 10 seconds north latitude.

6. Section 118.17 is amended in text in paragraphs (v) and (w) by adding the following proviso: *"Provided,* That this shall not apply to trolling."

PART 119—SOUTHEASTERN ALASKA AREA, EASTERN DISTRICT, SALMON FISHERIES

1. Section 119.2a is amended in paragraph (c) to read as follows:

(c) Southern section: All waters south of a line from Point Ellis to Peterson Point.

2. Section 119.3 is amended in headnote to read: *"Open seasons and weekly closed periods,"* and in text in paragraph (a) in the second sentence by deleting (1) "During this season" and substituting in lieu thereof "Prior to September 25"; (2) by deleting "Thursday" and substituting in lieu thereof "Friday"; (3) in paragraph (b) by deleting "and southern"; (4) by deleting "August 18" and substituting in lieu thereof "August 17"; (5) by deleting "During this season", and substituting in lieu thereof "Prior to August 15"; (6) by deleting "6 o'clock antemeridian" from the proviso and substituting in lieu thereof "12 o'clock noon"; and is further amended by adding a new paragraph designated (c) to read as follows:

(c) Southern section: From 6 o'clock antemeridian June 24 to 6 o'clock postmeridian August 24. Prior to August 20 the weekly closed period, except for trolling, is extended to include the period from 6 o'clock postmeridian Friday to 6 o'clock antemeridian Monday.

3. A new section designated 119.3a is added to read as follows:

§ 119.3a *Closed area and season, trolling.* Trolling is prohibited during the month of May in Stephens Passage north of Midway Island and in Lynn Canal north of the latitude of Point Retreat and in all contiguous waters.

4. Effective only through December 31, 1957, § 119.9 is amended by deleting paragraphs (b), (c) (1), (e) (1), (f) (1), (2) and (4), (j), (k) (3); and by revising paragraphs (a), (d), (e) (2), (g), and (k) (2) and (4):

(a) Mainland, east side of Stephens Passage: Within 2,500 feet of a point at 57 degrees 35 minutes 49 seconds north latitude, 133 degrees 37 minutes 48 seconds west longitude.

• • • • • •

(d) Mainland, Frederick Sound: (1) Within 2,500 feet of a point at 57 degrees 11 minutes 32 seconds north latitude, 133 degrees 32 minutes 27 seconds west longitude; (2) within 2,500 feet of a point at 57 degrees 10 minutes 52 seconds north latitude, 133 degrees 32 minutes 44 seconds west longitude.

(e) Admiralty Island: Southeast coast • • • (2) within 2,500 feet of a point at 57 degrees 20 minutes 59 seconds north latitude, 133 degrees 52 minutes 53 seconds west longitude.

• • • • • •

(g) Admiralty Island: Southeast coast (1) within 2,500 feet of a point at 57 degrees 5 minutes 18 seconds north latitude, 134 degrees 22 minutes 54 seconds west longitude; (2) within 2,500 feet of a point at 57 degrees 4 minutes 2 seconds north latitude, 134 degrees 25 minutes 20 seconds west longitude; and (3) within 2,500 feet of a point at 57 degrees 3 minutes 38 seconds north latitude, 134 degrees 26 minutes 50 seconds west longitude.

• • • • • •

(k) Kulu Island: Northwest coast • • • (2) within 2,500 feet of a point at 56 degrees 45 minutes 51 seconds north latitude, 134 degrees 23 minutes 30 seconds west longitude; • • • and (4) within 2,500 feet of a point at 56 degrees 51 minutes 39 seconds north latitude, 134 degrees 23 minutes 30 seconds west longitude; and within 2,500 feet of a point at 56 degrees 50 minutes 27 seconds north latitude, 134 degrees 25 minutes 11 seconds west longitude.

5. Section 119.10 is amended in paragraph (a) by changing the period at the end of the text to a comma and adding "except for trolling." And in paragraph (p) to read as follows:

(p) Taku Inlet and River: All waters north of the latitude of the survey marker "Lip," which is approximately three-fourths of a mile south of Taku Point.

6. Section 119.11 is amended in paragraph (a) and by adding a new paragraph designated (e) to read as follows:

(a) Auke Creek, and within 500 yards outside its mouth.

• • • • • •

(e) Stephens Passage, north of Midway Island and in Lynn Canal north of the latitude of Point Retreat and all contiguous waters, exclusive of the Chilkat River and the Taku Inlet-Port Snettisham section during the month of May.

PART 120—SOUTHEASTERN ALASKA AREA, STIKINE DISTRICT, SALMON FISHERIES

1. Section 120.2 is amended by inserting "Hour Point" between "Chichagof Peak" and "Babbler Point."

2. Section 120.3a is amended to read as follows:

§ 120.3a *Weekly closed period.* From May 1 to September 24 inclusive, the weekly closed period is extended to include the period from 12 o'clock noon Thursday to 12 o'clock noon Monday.

PART 121—SOUTHEASTERN ALASKA AREA, SUMNER STRAIT DISTRICT, SALMON FISHERIES

1. Section 121.1 is amended by inserting "Hour Point," between "Babbler Point," and "Chichagof Peak."

2. A new section designated 121.2a is added to read as follows:

§121.2a *Definitions, fishing sections.* (a) Anan section: Ernest Sound, Bradfield Canal, and contiguous waters, excluding Zimovia Strait, northwest of a line from Thorns Point to an unnamed islet at approximately 56 degrees 06 minutes 10 seconds north latitude, 132 degrees 06 minutes west longitude.

(b) General section: All other waters of the district.

3. Section 121.3 is amended to read as follows:

§ 121.3 *Open season, Anan section.* Fishing, other than trolling, is prohibited except from 6 o'clock antemeridian July 15 to 6 o'clock postmeridian August 17. Prior to August 15 the weekly closed period, except for trolling, is extended to include the period from 6 o'clock postmeridian Friday to 6 o'clock antemeridian Monday.

4. Section 121.4 is amended to read as follows:

§ 121.4 *Open season, General section; exception.* Fishing, other than trolling, is prohibited except from 6 o'clock antemeridian July 22 to 6 o'clock postmeridian August 24. Prior to August 20 the weekly closed period, except for trolling, is extended to include the period from 6 o'clock postmeridian Friday to 6 o'clock antemeridian Monday: *Provided,* That the above prohibitions do not apply to drift gill nets between 125 and 300 fathoms in length with mesh not less than five and one-half inches stretched measure, from 6 o'clock antemeridian June 17 to 6 o'clock postmeridian July 19 in open fishing waters within two miles of the Prince of Wales Island shoreline lying between 56 degrees 16 minutes 30 seconds north latitude on the south and east, and 133 degrees 21 minutes 30 seconds west longitude on the north and west.

(b) General section: All other waters of the district.

5. Effective only through December 31, 1957, § 121.10 is amended by deleting paragraphs (b), (c), (d), (e) (1), (f), (g), and (j) (1); and by revising paragraph (e) (2):

(e) Prince of Wales Island: Northwest coast • • • (2) within 1,500 feet of a point at 56 degrees 20 minutes 41 seconds north latitude, 133 degrees 38 minutes 4 seconds west longitude.

6. Section 121.11 is amended in paragraph (t) by inserting "cutoff" after "Petersburg road."

PART 122—SOUTHEASTERN ALASKA AREA, CLARENCE STRAIT DISTRICT SALMON FISHERIES

1. Section 122.4 is amended in headnote by replacing the period with a semicolon and adding "exception." and by adding a proviso to read: *"Provided,* That the above prohibitions shall not apply to drift gill nets less than 125 fathoms and more than 300 fathoms in length with mesh not less than 5½ inches stretched measure, from 6 o'clock antemeridian June 17 to 6 o'clock postmeridian July 19 in open fishing waters of Kashevarof Passage and Whale Pass lying between Prince of Wales Island and a line extending from Coffman Island successively to Beck Island, Rose Island, the southwest shore of Blashke Island, and the southern extremity of West Island."

2. Section 122.5 is amended to read as follows:

§ 122.5 *Open seasons, Central section.* Fishing is prohibited, except (1) for trolling from 6 o'clock antemeridian April 15 to 6 o'clock postmeridian October 31 and (2) from 6 o'clock antemeridian July 22 to 6 o'clock postmeridian August 26. During the latter season the weekly closed period, except for trolling, is extended to include the period from 6 o'clock postmeridian Friday to 6 o'clock antemeridian Monday.

3. Section 122.5a is amended by deleting "August 29" and substituting in lieu thereof "August 30" and by deleting "6 o'clock antemeridian" from the proviso and substituting in lieu thereof "12 o'clock noon."

Section 122.5b is amended in text by deleting "During these seasons" and substituting in lieu thereof "Prior to August 20."

4. Section 122.6 is amended in text by deleting "Claude Point to Point Lees" and substituting in lieu thereof "Nose Point to Snail Point."

5. Effective only through December 31, 1957, § 122.8 is amended by deleting paragraphs (b), (g), (i), (k) (2), (m) (3), (n), (o), (r) (1) and (3), (t) (2), (u) (1), (w) (2), (cc), (dd), (ff), (ii), (jj), (kk), (ll), (mm), (oo), (pp), (qq), and (ss), and by revising paragraphs (a), (c), (d), (e), (h), (k) (1), (3), (4) and (5), (m) (2), (p), (x), (z), (bb), (ee), and (hh).

(a) Etolin Island: West coast within 2,500 feet of a point at 56 degrees 8 minutes 42 seconds north latitude, 132 degrees 43 minutes 8 seconds west longitude.

• • • • • •

(c) West coast of: (1) Marsh Island, and (2) the northwesternmost island of the Screen Islands group.

(d) East Island: East coast within 2,500 feet of a point at 56 degrees 10 minutes 6 seconds north latitude, 132 degrees 54 minutes 13 seconds west longitude.

(e) Prince of Wales Island: East coast within 2,500 feet of a point at 56 degrees 9 minutes 40 seconds north latitude, 132 degrees 53 minutes 31 seconds west longitude.

• • • • • •

(h) Onslow Island: West coast within 2,500 feet of a point at 55 degrees 52 minutes 27 seconds north latitude, 132 degrees 23 minutes 29 seconds west longitude.

(k) Cleveland Peninsula: West coast (1) within 2,500 feet of a point at 55 degrees 44 minutes 11 seconds north latitude, 132 degrees 15 minutes 45 seconds west longitude; • • • (3) within 2,500 feet of a point at 55 degrees 36 minutes 15 seconds north latitude, 132 degrees 11 minutes 38 seconds west longitude; (4) within (i) 2,500 feet of a point at 55 degrees 33 minutes 33 seconds north latitude, and (ii) within 2,500 feet of a point

at 55 degrees 33 minutes 1 second north latitude; and (5) within 2,500 feet of a point at 55 degrees 30 minutes 45 seconds north latitude, 132 degrees 0 minutes 55 seconds west longitude.

• • • • •

(m) Gravina Island: • • • (2) within (i) 2,500 feet of a point at 55 degrees 18 minutes 48 seconds north latitude, (ii) 2,500 feet of a point at 55 degrees 16 minutes 58 seconds north latitude, (iii) 2,500 feet of a point at 55 degrees 15 minutes 11 seconds north latitude, (iv) 2,500 feet of a point at 55 degrees 13 minutes 43 seconds north latitude, (v) 2,500 feet of a point at 55 degrees 10 minutes 48 seconds north latitude, (vi) 2,500 feet of a point at 55 degrees 10 minutes 0 seconds north latitude, and (vii) within 2,500 feet of a point at 55 degrees 9 minutes 10 seconds north latitude.

• • • • •

(p) Annette Island: Within (1) 2,500 feet of a point at 55 degrees 5 minutes 41 seconds north latitude, and (2) 2,500 feet of a point at 55 degrees 0 minutes 45 seconds north latitude.

• • • • •

(x) Prince of Wales Island: East coast including adjacent rocks, within 2,500 feet of a point at 54 degrees 57 minutes 19 seconds north latitude.

• • • • •

(z) Prince of Wales Island: East coast within 2,500 feet of a point at 54 degrees 50 minutes 8 seconds north latitude, 131 degrees 57 minutes 39 seconds west longitude.

• • • • •

(bb) Prince of Wales Island: East coast within 2,500 feet of a point at 54 degrees 42 minutes 57 seconds north latitude, 132 degrees 0 minutes 38 seconds west longitude.

• • • • •

(ee) Prince of Wales Island: South coast within 2,500 feet of a point at 54 degrees 41 minutes 50 seconds north latitude, 132 degrees 10 minutes west longitude.

• • • • •

(hh) Cleveland Peninsula: Within 2,500 feet of a point at 55 degrees 32 minutes 43 seconds north latitude, 131 degrees 56 minutes 17 seconds west longitude.

6. Section 122.9 is amended

(1) In paragraph (a) by adding the following proviso: "*Provided*, That these closures shall not apply to fishing for chum salmon during any fall season."

(2) In paragraph (c) to read:

(c) Cholmondeley Sound: (1) Kitkun Bay, (2) the canal entering Dora Bay from the south, and (3) all waters west of and including Sunny Cove: *Provided*, That this closure shall not apply to trolling, nor to fishing for chum salmon during any fall season.

(3) By deleting paragraph (f).

(4) In paragraph (t) by adding "except during any fall chum salmon season.

(5) In paragraph (u) by deleting "the latitude of Snail Point" and substituting in lieu thereof "a line from Nose Point to Snail Point".

(6) By deleting paragraph (w).

PART 123—SOUTHEASTERN ALASKA AREA, SOUTH PRINCE OF WALES ISLAND DISTRICT SALMON FISHERIES

1. Section 123.3 is amended in the proviso by deleting "6 o'clock antemeridian" and substituting in lieu thereof "12 o'clock noon."

2. Effective only through December 31, 1957, § 123.6 is amended by deleting paragraphs (a), (g), (i), (k), (p), (u) and (v); and by revising paragraphs (d), h), (l), (m), (o), (1), (q), and (t).

(d) San Fernando Island: Northern coast within 2,500 feet of a point at 55 degrees 34 minutes 12 seconds north latitude, 133 degrees 24 minutes 39 seconds west longitude.

• • • • •

(h) Prince of Wales Island: San Christoval Channel within 2,500 feet of a point at 55 degrees 36 minutes 28 seconds north latitude, 133 degrees 21 minutes 30 seconds west longitude.

• • • • •

(l) Prince of Wales Island: Within 2,500 feet of a point at 55 degrees 22 minutes 59 seconds north latitude, 133 degrees 13 minutes 28 seconds west longitude.

(m) Dall Island: Within 1,000 feet of a point at 54 degrees 41 minutes 3 seconds north latitude, 132 degrees 41 minutes 12 seconds west longitude.

• • • • •

(o) Sukwan Island: Southwestern coast (1) within 2,500 feet of a point at 55 degrees 2 minutes 12 seconds north latitude, 132 degrees 53 minutes 28 seconds west longitude;

• • • • •

(q) Prince of Wales Island: South of Point Webster within (1) 2,500 feet of a point at 54 degrees 56 minutes 33 seconds north latitude, 132 degrees 34 minutes 37 seconds west longitude; and (2) within 2,500 feet of a point at 54 degrees 56 minutes north latitude, 132 degrees 33 minutes 11 seconds west longitude.

• • • • •

(t) Heceta Island: Western and southern coast (1) within 2,500 feet of a point at 55 degrees 41 minutes 38 seconds north latitude, 133 degrees 32 minutes 5 seconds west longitude; and (2) within 2,500 feet of a point at 55 degrees 42 minutes 32 seconds north latitude, 133 degrees 35 minutes 28 seconds west longitude.

3. Section 123.7 is amended

(1) In paragraph (a) to read as follows:

(a) Klawak Inlet: All waters east of Klawak and Peratrovich Islands and north of a line connecting the northern extremities of Peratrovich and Wadleigh Islands, including Big Salt Lake.

(2) By deleting paragraph (b).

(3) By creating a new paragraph designated (w) to read as follows:

(w) Shinaku Inlet: All waters north of the latitude of Point Ildefonso.

PART 124—SOUTHEASTERN ALASKA AREA, SOUTHERN DISTRICT, SALMON FISHERIES

1. A new section designated 124.2a is added to read as follows:

§ 124.2a *Definitions, fishing sections.* (a) Portland Canal section: Portland and Pearse Canals and contiguous waters lying between the Canadian boundary and a line from Akeku Point successively through Male Point, Dark Point, High Point, Tongass Reef light, Kataku Point and Garnet Point and the longitude of Garnet Point.

(b) General section: All waters of the district not included in the Portland Canal section.

2. Section 124.3 is amended to read as follows:

§ 124.3 *Open seasons and weekly closed periods; exceptions.* Fishing, other than trolling, is prohibited except from 6 o'clock antemeridian July 13 to 6 o'clock postmeridian August 17: *Provided*, That drift gill nets may be used (a) in all open waters of the Portland Canal section from 12 o'clock noon June 17 to 6 o'clock antemeridian July 11 and from 6 o'clock antemeridian September 2 to 6 o'clock postmeridian September 30 and (b) north of the latitude of Hidden Point in Portland Canal from 6 o'clock antemeridian July 11 to 6 o'clock postmeridian August 30. During these seasons the weekly closed period, except for trolling and except subsequent to August 14 in the General section, is extended to include the period from 6 o'clock postmeridian Friday to 6 o'clock antemeridian Monday.

3. Section 124.4 is amended to read as follows:

§ 124.4 *Closed season for trolling, South Arm of Behm Canal.* Trolling is prohibited in Behm Canal between a line from Point Sykes to Point Alava, and a line from Point Eva to Cactus Point from 6 o'clock postmeridian April 30 to 6 o'clock antemeridian July 15.

4. Section 124.7a is amended to read as follows:

§ 124.7a *Size of gill nets, Portland Canal Section.* No gill net shall exceed 200 fathoms in length or 60 meshes in depth.

5. Effective only through December 31, 1957, § 124.8 is amended by deleting paragraphs (b) (1), (d), (2), (e), (f), (g), and (q), and by revising paragraphs (c), (d), (1), (g) (2) and (3), and (p).

(c) Revillagigedo Island: Within (1) 2,500 feet of a point at 55 degrees 11 minutes 28 seconds north latitude, 131 degrees 11 minutes 01 second west longitude; (2) 2,500 feet of a point at 55 degrees 12 minutes north latitude, 131 degrees 14 minutes 22 seconds west longitude; (3) 2,500 feet of a point at 55 degrees 13 minutes 34 seconds north latitude, 131 degrees 17 minutes 19 seconds west longitude; (4) 2,500 feet of a point at 55 degrees 14 minutes 45 seconds north latitude, 131 degrees 19 minutes 32 seconds west longitude; and (5) 2,500 feet of a point at 55 degrees 11 minutes 21 seconds north latitude, 131 degrees 12 minutes 44 seconds west longitude.

(d) Mainland Peninsula between Smeaton Bay and Boca de Quadra: Along the coast (1) within 2,500 feet of a point at 55 degrees 11 minutes 15 seconds north latitude, 131 degrees 5 minutes 26 seconds west longitude.

• • • • •

(g) Mainland south of Foggy Bay: • • • (2) within 2,500 feet of a point at 54 degrees 52 minutes 43 seconds north latitude, 130 degrees 57 minutes 19 seconds west longitude; and (3) within 1,000 feet of a point at 54 degrees 47 minutes 32 seconds north latitude, 130 degrees 54 minutes 53 seconds west longitude.

• • • • •

(p) Kanaganut Island: West coast within 2,500 feet of a point at 54 degrees 44 minutes 16 seconds north latitude, 130 degrees 42 minutes 57 seconds west longitude.

6. Section 124.9 is amended by adding the following paragraphs designated (p), (q), and (r) to read as follows:

(p) Ward Cove: All waters within the cove.

(q) South Behm Canal: All waters north of a line from Point Eva to Cactus Point.

(r) Tombstone Bay: All waters within 1,000 yards of the mouth of the stream entering the bay from the northwest.

7. A new center heading designated "Personal Use Fishery" is created and two new sections designated 124.50 and 124.51 are added thereunder to read as follows:

§ 124.50 *Restricted waters.* The taking of salmon for sport, or personal use, shall not exceed a bag limit of two fish and shall be only by means of hook and line, spear or gaff in the waters of:

(a) Ward Cove, Lake and Creek.

(b) Ketchikan Creek and Thomas Basin.

§ 124.51 *Closed waters.* All fishing for sport or personal use is prohibited in salt water in Behm Canal and contiguous bays north of a line from Point Eva to Cactus Point.

Notice. The notice terminating certain closed areas in parts 115 through 124 on December 31, 1956, as published in the FEDERAL REGISTER on March 19, 1956 (21 F. R. 1780), is amended by deleting "1956" and substituting in lieu thereof "1957."

(Sec. 1, 43 Stat. 464, as amended; 48 U. S. C. 221)

HATFIELD CHILSON,
Acting Secretary of the Interior.

FEBRUARY 28, 1957.

[F. R. Doc. 57-1659; Filed, Mar. 5, 1957; 8:47 a. m.]

• • • • [Sec. 1.] section 27 of the Merchant Marine Act, 1920, as amended (U. S. C., 1952 edition, title 46, sec. 883), is further amended by inserting the following new proviso at the end of the first proviso thereof: "*Provided further*, That no vessel of more than five hundred gross tons which has acquired the lawful right to engage in the coastwise trade, either by virtue of having been built in or documented under the laws of the United States, and which has later been rebuilt outside the United States, its Territories (not including trust territories), or its possessions shall have the right thereafter to engage in the coastwise trade." • • •

Sec. 4. This act shall be effective from the date of enactment hereof: *Provided, however*, That no vessel shall be deemed to have lost its coastwise privileges hereunder if it is rebuilt under a contract entered into before such date of enactment and if the work of rebuilding is commenced not later than six months after such date of enactment. (Secs. 1 and 4 of the act of July 14, 1956 (secs. 1, 4, 70 Stat. 544; T. D. 54178; 46 U. S. C. 883).)

4. Section 3.28 is amended as follows:

a. Paragraphs (a) and (b) are amended to read as follows:

(a) A vessel may be deemed to be a new vessel in a case in which it has been built entirely of new materials or in a case in which it has been built in whole or in part of old materials taken from another vessel provided no considerable part of the old material used has been left undisturbed or intact without being taken up, refitted, and reset. A vessel may be deemed to have been rebuilt if any considerable part of the hull in its intact condition without having been broken up is built upon or substantially altered.

(b) When a new vessel is constructed in whole or in part of material taken from an old vessel; when an existing vessel is rebuilt; when, in the case of a vessel of more than 500 gross tons, the vessel has been so altered in a foreign shipyard as to lose its privileges as a vessel of the United States (§ 3.29 (a)) or has otherwise been so altered in such a yard as to give rise to a reasonable belief that the vessel may have been rebuilt; or when it is desired, in the case of an unrigged wooden vessel, other than a foreign-built vessel (class 9), that a notation be made in the publication, Merchant Vessels of the United States, as to rebuilding, the owner of the vessel shall submit through the collector at the port where the vessel then is or next arrives thereafter to the Commissioner of Customs a certificate of specifications outlining the work performed on the vessel and describing the extent to which old materials used were taken up, refitted, and reset, or, the extent to which parts of the old hull in its intact condition were used or built upon. The certificate shall be accompanied by accurate sketches or blueprints illustrating the extent of the work performed when such sketches or blueprints are available. Such certificates shall also be accompanied by a certificate of the builder, which shall be on customs Form 1261 if the vessel is claimed to be new. In the case of an unrigged wooden vessel, the shipbuilder, in addition to certifying that the vessel is rebuilt and the date of completion and place of such rebuilding, shall certify that the vessel is sound

PROPOSED RULE MAKING

DEPARTMENT OF THE TREASURY

Bureau of Customs

[19 CFR Parts 3, 4]

DOCUMENTATION AND USE OF VESSELS REBUILT ABROAD, REPORTS OF SUCH REBUILDING UPON ENTRY

PROPOSED AMENDMENT OF CUSTOMS REGULATIONS RELATING TO DOCUMENTATION AND USE OF VESSELS REBUILT ABROAD AND REPORTS OF SUCH REBUILDING UPON ENTRY

Notice is hereby given pursuant to section 4 of the Administrative Procedure Act (5 U. S. C. 1003), that, under the authority cited below, it is proposed to amend §§ 3.2, 3.28, 3.29, 3.30, 3.43, and 4.7 of the Customs regulations, relating to the documentation and use of new and rebuilt vessels and reports upon entry. The proposed amendments are designed to give effect to and to carry out the purposes of the provisions of the act of July 14, 1956 (70 Stat. 544; 46 U. S. C. 883, 883a, 883b; T. D. 54178).

The proposed amendments, in tentative form, are as follows:

1. Section 3.2 is amended by deleting everything in paragraph (c), Class 1, following the footnote reference at the end of the first sentence, so that paragraph (c), Class 1, as amended will read:

Class 1. Any vessel built in the United States and wholly owned by a citizen. [2]

2. Section 3.2 is further amended by deleting the parenthetical matter at the end of paragraph (d), and by inserting a new paragraph (e) reading as follows:

(e) No vessel of classes 1 through 8 above which has acquired the lawful right to engage in the coastwise trade, either by virtue of having been built in or documented under the laws of the United States, and which has thereafter been sold or transferred foreign in whole or in part or placed under foreign registry (§ 3.43) or which, if of more than 500 gross tons, has been rebuilt outside the United States, its territories (not including trust territories), or its possessions after July 13, 1956, or which being of more than 500 gross tons, has been so rebuilt under a contract entered into on or before that date if the work of rebuilding was not commenced within 6 months after July 14, 1956 (§ 3.28),[3] shall have the right thereafter to engage in the coastwise trade. Any document issued to such a vessel shall bear the following notation: As amended by section 27 of the Merchant Marine Act of June 5, 1920, as amended. This vessel shall not engage in the coastwise trade.

(R. S. 4132, as amended, sec. 22, 41 Stat. 977, R. S. 4136, as amended, 4214, as amended, secs. 2, 9, 39 Stat. 729, as amended, 730, as amended, sec. 27, 41 Stat. 999, as amended, secs. 2, 3, 70 Stat. 544; 46 U. S. C. 11, 13, 14, 103, 802, 808, 883, 883a, 883b)

3. A footnote is appended to § 3.2 (e) reading as follows:

and free from rotten or doted wood in its structural parts; that it is properly fastened and calked; and that it is as good as new in strength and seaworthiness. The Commissioner of Customs shall decide whether or not the vessel is to be considered to be new or rebuilt and, if either, that decision shall be reflected on the vessel's marine document.

b. Footnote 17, appended to § 3.28 (b), is deleted.

c. Paragraph (c) is amended by deleting the parenthetical matter at the end thereof. A new paragraph (d) is added reading as following:

(d) No vessel of more than 500 gross tons which has been rebuilt within the meaning of this section outside the United States, its territories (not including trust territories), or its possessions, after July 13, 1956, or which has been so rebuilt under a contract entered into on or before that date if the work of rebuilding was commenced later than 6 months after July 14, 1956, shall be documented for nor engage in the coastwise trade.

(R. S. 4155, as amended, 4179, 37 Stat. 189, R. S. 4319, as amended, sec. 27, 41 Stat. 999, as amended, secs. 2, 3, 70 Stat. 544; 46 U. S. C. 25, 50, 63, 259, 883, 883a, 883b)

6. Section 3.29 (a) is amended by adding the following at the end thereof: "Every such alteration of a vessel of more than 500 gross tons which is effected in a foreign shipyard shall be reported to the collector of customs at the port where the vessel first arrives in the United States in accordance with the provisions of § 3.28 (b) and the master shall submit the statement required by § 4.7 of this chapter."

7. Section 3.30 (b) is amended by deleting the parenthetical matter at the end of the first sentence and by inserting in lieu thereof the following: "(See §§ 3.2, 3.28, 3.42, and 3.43.)"

8. Section 3.43 (f) is amended by substituting "under § 3.2 (e)" for "under Class 1 of § 3.2 (c)."

(R. S. 161, secs. 2, 3, 23 Stat. 118, as amended, 119, as amended, sec. 27, 41 Stat. 999, as amended, secs. 2, 3, 70 Stat. 544; 5 U. S. C. 22, 46 U. S. C. 2, 3, 883, 883a, 883b)

9. Section 4.7 (b) is amended as follows:

a. Subparagraph (2) is amended by inserting the following new sentence before the last sentence thereof: "If the vessel is of more than 500 gross tons, the declaration shall include a statement that no work in the nature of an alteration or rebuilding within the meaning of the Act of July 14, 1956 (70 Stat. 544), has been effected in any foreign port or place which has not been reported."

b. A new subparagraph (3) is added reading as follows:

(3) The master of every American vessel of more than 500 gross tons which is rebuilt outside the United States, its territories (not including trust territories), or its possessions shall upon the first entry of the vessel at a port of the United States thereafter report the facts and circumstances of the rebuilding of the vessel to the collector of customs at the port of entry. The report shall be accompanied by the papers required under section 3.28 of these regulations. If any such papers are not available at the time such report is made, they shall be produced to the collector concerned as soon thereafter as may be practicable but if they are not presented within 30 days, and if the delay is not explained to the satisfaction of the collector, appropriate penalty action shall be taken charging violations of the provisions of the act of July 14, 1956 (70 Stat. 544)."

10. A footnote is appended to § 4.7 (b) (3) reading as follows:

"• • • [Sec. 1] section 27 of the Merchant Marine Act, 1920, as amended (U. S. C., 1952 edition, title 46, sec. 883), is further amended by inserting the following new proviso at the end of the first proviso thereof: *"Provided further*, That no vessel of more than five hundred gross tons which has acquired the lawful right to engage in the coastwise trade, either by virtue of having been built in or documented under the laws of the United States, and which has later been rebuilt outside the United States, its Territories (not including trust territories), or its possessions shall have the right thereafter to engage in the coastwise trade."

Sec. 2. If any vessel of more than five hundred gross tons documented under the laws of the United States, or last documented under such laws, is rebuilt outside the United States, its Territories (not including trust territories), or its possessions, a report of the circumstances of such rebuilding shall be made to the Secretary of the Treasury upon the first arrival of the vessel thereafter at a port within the customs territory of the United States in accordance with such regulations as the Secretary may prescribe. If the required report is not made, the vessel, together with its tackle, apparel, equipment, and furniture, shall be forfeited, and the master and owner shall each be liable to a penalty of $200. Any penalty or forfeiture incurred under this Act may be remitted or mitigated by the Secretary under the provisions of section 5294 of the Revised Statutes of the United States, as amended (U. S. C., 1952 edition, title 46, sec. 7).

Sec. 3. The Secretary of the Treasury shall prescribe such regulations as may be necessary to carry out the purposes of this act.

Sec. 4. This act shall be effective from the date of enactment hereof: *Provided, however*, That no vessel shall be deemed to have lost its coastwise privileges hereunder if it is rebuilt under a contract entered into before such date of enactment and if the work of rebuilding is commenced not later than six months after such date of enactment. (Secs. 1–4, Act of July 14, 1956 (Secs. 1–4, 70 Stat. 544; T. D. 54178; 46 U. S. C. 883, 883a, 883b).)

(R. S. 161, 251, secs. 2, 3, 23 Stat. 118, as amended, 119, as amended, sec. 27, 41 Stat. 999, as amended, sec. 624, 46 Stat. 759, secs. 2, 3, 70 Stat. 544; 5 U. S. C. 22, 19 U. S. C. 66, 1624, 46 U. S. C. 2, 3, 883, 883a, 883b)

Prior to the issuance of the proposed amendments, consideration will be given to any relevant data, views, or arguments pertaining thereto which are submitted to the Commissioner of Customs, Bureau of Customs, Washington 25, D. C., and received not later than 30 days from the date of publication of this notice in the FEDERAL REGISTER. No hearing will be held.

[SEAL] RALPH KELLY,
Commissioner of Customs.

Approved: February 26, 1957.

DAVID W. KENDALL,
Acting Secretary of the Treasury.

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

[50 CFR Part 102]

ALASKA COMMERCIAL FISHERIES

NOTICE OF PROPOSED RULE MAKING

On the basis of experience gained since adoption of the regulations in 1956 governing the movements of salmon net fishing effort, it has been determined that the movement of salmon net fishermen must be controlled separately from that of boats and nets. Accordingly, notice is hereby given that the Assistant Secretary of the Interior proposes to recommend to the Secretary that he adopt, in conformity with section 4 of the Administrative Procedures Act of June 11, 1946 (5 U. S. C. 1003), the regulations as set forth in tentative form below:

1. A new section designated § 102.8a is added to read as follows:

§ 102.8a *License required of salmon net fishermen.* (a) No person shall fish for, assist in fishing for, or be a member of a crew fishing for salmon, for commercial purposes, with any form of net in any of the waters of Alaska without first having obtained a license from a local representative of the United States Fish and Wildlife Service, or any person designated by the Administrator of Alaska Commercial Fisheries to perform specific functions of that Service. Such license shall be valid:

(1) Upon completion of an application on a form furnished for that purpose, and payment of a $5.00 fee.

(2) For the calendar year of issuance.

(3) Within any single registration area (as set forth in § 102.8) of his choice, the code letter of which shall appear on the face of the license, and for no other: *Provided*, That upon request, the Administrator of Alaska Commercial Fisheries may permit the license to be transferred without fee to another registration area for good cause shown, but only after a determination by him, in each case, that such transfer will not jeopardize proper conservation of the salmon runs in the second area. Such transfer, when granted, shall automatically invalidate the license in the previously designated area.

(b) Not more than one license shall be issued to any person during any given calendar year.

(c) Licenses shall be kept immediately available at all times during fishing operations and shall be shown upon request to any authorized representative of the United States Fish and Wildlife Service or of the United States Coast Guard.

NOTE: The above prescribed license is not in lieu of, but is required in addition to, any license required by the Territory of Alaska.

2. Interested persons are invited to participate in this proposed rule making by presenting their views and arguments in writing to the Acting Director of the Bureau of Commercial Fisheries, United States Fish and Wildlife Service, Washington 25, D. C., within 20 days after publication of this notice in the FEDERAL REGISTER.

(Act of June 18, 1926, (44 Stat.) 752; 48 U. S. C. 221 et seq.)

HATFIELD CHILSON,
Acting Secretary of the Interior.

FEBRUARY 28, 1957.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 909]

[Docket No. AO 214–A1]

ALMONDS GROWN IN CALIFORNIA

DECISION WITH RESPECT TO PROPOSED AMENDMENTS TO MARKETING AGREEMENT AND ORDER

Pursuant to the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.) (hereinafter referred to as the "act"), and the rules of practice and procedure governing proceedings to formulate marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held at Sacramento, California, June 5 and 6, 1956, on proposed amendments to the marketing agreement and order (7 CFR Part 909) regulating the handling of almonds grown in California. Said marketing agreement and order are effective pursuant to the provisions of the act.

Upon the basis of the evidence adduced at the aforementioned hearing and the record thereof, the Deputy Administrator, Marketing Services, Agricultural Marketing Service, United States Department of Agriculture, filed with the Hearing Clerk, United States Department of Agriculture, his recommended decision in this proceeding. Notice of such recommended decision, and opportunity to file written exceptions with respect thereto, was published in the FEDERAL REGISTER of December 4, 1956 (21 F. R. 9569). Certain exceptions to the proposed amended marketing agreement and order were filed by the California Almond Growers Exchange. The last day for filing such exceptions has expired and no other exceptions have been received.

Ruling on exceptions. All exceptions have been considered carefully and fully in conjunction with the hearing record evidence pertaining thereto in arriving at the findings and conclusions hereinafter set forth. To the extent that the findings and conclusions are at variance with any such exception not otherwise specifically ruled upon, such exception is denied.

Findings and conclusions. The material issues and the findings and conclusions of the aforesaid recommended decision (F. R. Doc. 56–9920; 21 F. R. 9569–9581) are hereby approved and adopted as the material issues and the findings and conclusions of this decision as if set forth in full herein, except for the corrections set forth below, and except as they are modified by the findings and conclusions in connection with the exceptions which are hereinafter set forth.

The corrections, which relate to the proposed amended marketing agreement and order, are as follows: 21 F. R. 9575, sixth line of the definition of "Secretary" (§ 909.1), change, "perfom" to "perform"; 21 F. R. 9575, sixth line of the definition of "trade demand," change "salting trade" to "salting trades"; 21 F. R. 9576, seventh line of paragraph (d) "right of the Secretary" of § 909.40, insert a comma between "order" and "regulation" so that the phrase will read "Each and every order, regulation," etc.; 21 F. R. 9580, twentieth and twenty-fourth lines of § 909.68 (a) change "August 1" to "September 1"; and 21 F. R. 9581, seventeenth line of § 909.81 (b) "refunds" change "begining" to "beginning."

The exceptions, and the rulings thereon, are as follows:

(1) In § 909.32 of the proposed amended marketing agreement and order, reference is made to mailing ballots and all necessary voting information to handlers and growers, other than cooperative. It is further provided that the growers should also be mailed the names of persons proposed for nomination on petitions filed with the Board. Since it is intended that names submitted by petition, as well as the ballots and other information, should go only to growers other than those belonging to a cooperative and not to all growers, the word "such," rather than the word "the," should be used in the second word of the phrase "to the growers the name of any person proposed for nomination in a petition signed by 15 such growers," so that it will read "to such growers the name of any person proposed for nomination in a petition signed by 15 such growers." The exception in this connection is hereby granted.

(2) In § 909.40 (c) of the proposed marketing agreement and order it is provided that, when any proposition is submitted for voting by mail or telegram, one dissenting vote or failure to vote shall prevent its adoption by that method. The corresponding provision in this connection which was set forth in the Notice of Hearing, merely provided that such a result would accrue only in the case of an actual dissenting vote. It was testified at the hearing by both of the witnesses who testified in this regard that failure to vote in such a situation should be considered as a dissenting vote. In response to questions as to what would be the situation in case the particular member should be unavailable for voting by mail, such as by reason of absence from home at the time, it was testified that it would be the responsibility of the program manager to get in touch with the respective member's alternate in such a situation with a view to having the alternate member vote. The exception on behalf of the proponent, the California Almond Growers Exchange, is to the effect that, after having given further consideration to this aspect, the failure to vote should not be considered as a negative vote. In view of the fact that the testimony of all witnesses unanimously supported such inclusion in the proposal, it is considered necessary to include such provision in § 909.40. The exception is, therefore, denied.

(3) It is provided in § 909.65 of the proposed amended marketing agreement and order that the containers of almonds withheld as surplus by handlers shall be identified by appropriate seals, stamps, or tags affixed thereto, and that such identification shall not be removed except under the supervision of the Board. The exception filed in this connection was to the effect that there should also be included a prohibition against unauthorized alteration of such an identification. It was testified at the hearing that the prohibition against such alteration should be included in the provisions and the failure to do so was inadvertent. The exception is, therefore, granted and the third sentence of proposed new § 909.50 is reworded to read as follows: "such identification shall not be altered or removed except under the supervision of the Board."

(4) Provision is made in § 909.66 (e) of the proposed amended marketing agreement and order for extending the time for surplus disposition to a date later than September 1. It is necessary and intended that conforming changes be provided for in proposed new §§ 909.67 (disposition by handlers) and 909.68 (disposition by Board) to cover any such extension of time. As suggested in an exception, the following should be added to an appropriate place in proposed § 909.67: "If the date of September 1 specified in § 909.66 (e) is extended, the date of September 1 shall be extended correspondingly." Likewise the following should be added at an appropriate place in proposed § 909.68: "If the date of September 1 specified in § 909.66 (e) is extended, the dates of August 31 and September 1 shall be extended correspondingly."

(5) In § 909.81 (a) of the proposed amended order, provision is made to establish such assessment rate per pound of almonds received by each handler for his own account as the Secretary finds is necessary to provide funds to meet the authorized board expenses and establishes for the crop year. The Secretary would establish the rate by dividing the amount of the approved budget by the estimated size of the crop and rounding the resulting figure for convenient use of handlers and the Board. An exception has been made to this proposal advocating a limit of $\frac{7}{10}$ of a cent per pound on any initial assessment rate but permitting a higher rate if subsequent determination indicates it to be necessary. It was testified by the exceptors that their interest was primarily to limit the budget and implying that the assessment rate limit would accomplish that objective. Exceptor implied that the limitation on the initial assessment rate is important to the Board avoiding pressures for expanded programs involving substantial additional expense when recommending its budget. However, on the basis of past experience in operating the order, budgets could be expanded by 50 to 100 percent within the proposed limitation. It would appear that the suggested rate limit would be unnecessary for future normal crop years. However, it could force reduction of expenditures below prudent

limits in years when the crop is small or could prevent budgeting necessary expenditures in future years under conditions not now fully predictable.

It was agreed in testimony at the hearing that, in practice the assessment rate is fixed after the budget is approved by the Secretary, and in an amount that will produce the income necessary to meet such budgeted expenses. An assessment rate limit should not be established which would preclude adoption of a realistic budget based on variable production levels and the necessary costs of program administration in future years. The Secretary should be free to establish annual budgets necessary and appropriate to carry out the program and to fix such assessment rates, under section 10 of the act. Therefore, the exception is denied.

Marketing agreement and order. Annexed hereto, and made a part hereof, are two documents entitled, respectively, "Marketing Agreement, as amended, Regulating the Handling of Almonds Grown in California" and "Order, as amended, Regulating the Handling of Almonds Grown in California," which have been decided upon as the appropriate and detailed means of effectuating the foregoing conclusions. The marketing agreement, as amended, and the order, as amended, shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure governing proceedings to formulate marketing agreements and marketing orders have been met.

It is hereby ordered, That all of this decision, except the annexed marketing agreement, as amended, be published in the FEDERAL REGISTER. The regulatory provisions of said agreement, as amended, are identical with those contained in the attached order, as amended, which will be published with this decision.

Dated: March 1, 1957.

[SEAL] EARL L. BUTZ,
Assistant Secretary.

Order, as Amended,[1] *Regulating the Handling of Almonds Grown in California*

Sec.
909.0 General findings.

DEFINITIONS

909.1 Secretary.
909.2 Act.
909.3 Person.
909.4 Almonds.
909.5 Unshelled almonds.
909.6 Shelled almonds.
909.7 Edible kernel.
909.8 Inedible kernel.
909.9 Kernel weight.
909.10 Almonds received for his own account.
909.11 Area of production.
909.12 Grower.
909.13 Handler.
909.14 Cooperative handler.
909.15 Almond product.
909.16 To handle.
909.17 Inspection agency.
909.18 Settlement weight.
909.19 Crop year.
909.20 Handler carryover.
909.21 Trade demand.
909.22 Control Board.
909.23 Part and subpart.

ALMOND CONTROL BOARD

909.30 Establishment.
909.31 Membership representation.
909.32 Nominations.
909.33 Selection and term of office.
909.34 Qualification.
909.35 Alternates.
909.36 Vacancy.
909.37 Expenses.
909.38 Powers.
909.39 Duties.
909.40 Procedure.

SURPLUS CONTROL

909.45 General.
909.46 Withholding surplus.
909.47 Method of establishing salable and surplus percentages.
909.48 Increase of salable percentage.
909.49 Board estimates and recommendations.
909.50 Requirement for withholding surplus.
909.51 Requirements for surplus.
909.52 Inspection and certification of surplus.
909.53 Deferment of time for withholding surplus and procedure.
909.54 Payment to handlers for services rendered.
909.55 Interhandler transfers.
909.56 Assistance of Control Board in accounting for surplus.
909.57 Application of salable and surplus percentages after end of crop year.
909.58 Exchange of surplus almonds.
909.59 Adjustment upon increase of salable percentage.
909.60 Determination of kernel weight.
909.61 Redetermination of kernel weight.
909.62 Varietal shelling ratios for unshelled almonds.

DISPOSITION OF SURPLUS

909.65 Prohibition on the handling of surplus.
909.66 Conditions governing disposition of surplus.
909.67 Disposition by handler.
909.68 Disposition by the Board.

RECORDS AND REPORTS

909.70 Records and verification.
909.71 Record of receipts.
909.72 Report of receipts.

909.74 Other reports.
909.75 Confidential nature of records and reports.

EXPENSES AND ASSESSMENTS

909.80 Expenses.
909.81 Assessment.

MISCELLANEOUS PROVISIONS

909.85 Personal liability.
909.86 Separability.
909.87 Derogation.
909.88 Duration of immunities.
909.89 Agents.
909.90 Effective time, suspension, or termination.
909.91 Effect of termination or amendment.
909.92 Amendments.

AUTHORITY: §§ 909.0 to 909.92 issued under sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c.

§ 909.0 *General findings.* (a) The findings hereinafter set forth are supplementary, and in addition, to the findings and determinations which were previously made in connection with the original issuance (15 F. R. 4993) of this marketing agreement and order, and all of said previous findings and determinations are hereby ratified and confirmed, except insofar as such findings and determinations may be in conflict with the findings set forth herein;

(b) The marketing order, as hereby proposed to be amended and all of the terms and conditions thereof will tend to effectuate the declared policy of the act;

(c) The marketing order, as hereby proposed to be amended, will be applicable only to persons in the respective classes of industrial and commercial activities specified or necessarily included in the proposals upon which the amendment hearing has been held; and

(d) There are no differences in the production and marketing of almonds in the production area covered by this marketing order, as hereby proposed to be amended, which make necessary different terms applicable to different parts of such area.

It is therefore, ordered, That, on and after the effective date hereof, the handling of almonds grown in California shall be in conformity to, and in compliance with, the terms and conditions of this amended order which are as follows.

DEFINITIONS

§ 909.1 *Secretary.* "Secretary" means the Secretary of Agriculture of the United States, or any other officer or employee of the United States Department of Agriculture who is, or who may be, authorized to perform the duties under this part of the Secretary of Agriculture of the United States.

§ 909.2 *Act.* "Act" means Public Act No. 10, 73d Congress, as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 62 Stat. 1247; 63 Stat. 282, 1051; 7 U. S. C. 601 et seq.).

§ 909.3 *Person.* "Person" means an individual, partnership, corporation, association, or any other business unit.

§ 909.4 *Almonds.* "Almonds" means (unless otherwise specified) all varieties of almonds (except bitter almonds), either shelled or unshelled, grown in the State of California.

§ 909.5 *Unshelled almonds.* "Unshelled almonds" means almonds the kernels of which are contained in the shell.

§ 909.6 *Shelled almonds.* "Shelled almonds" means raw or roasted almonds after the shells are removed and includes blanched, diced, sliced, slivered, cut, halved, or broken almonds, or any combination thereof. Additional almond products may be included by the Secretary from time to time upon consideration of a recommendation from the Control Board or other pertinent information.

§ 909.7 *Edible kernel.* "Edible kernel" means a kernel, piece, or particle of almond kernel which is free from serious damage as defined in the effective United States Standards for Shelled Almonds. The specifications for "serious damage" as set forth in said standards may be modified by the Secretary after consideration of a recommendation from the Control Board or other pertinent information.

§ 909.8 *Inedible kernel.* "Inedible kernel" means a kernel, piece, or particle of almond kernel which is not an edible kernel.

§ 909.9 *Kernel weight.* "Kernel weight" means the weight of kernels, including pieces and particles, regardless of whether edible or inedible, contained in any lot of almonds, unshelled or shelled.

§ 909.10 *Almonds received for his own account.* "Almonds received for his own account" means all almonds which are received by a handler (including all almonds of his own production), except those which are received by him for storage or processing for the account of any other person and with respect to which such handler performs no handling function.

§ 909.11 *Area of production.* "Area of production" means the State of California.

§ 909.12 *Grower.* "Grower" is synonymous with "producer" and means any person engaging, in a proprietary capacity, in the commercial production of almonds.

§ 909.13 *Handler.* "Handler" means any person handling almonds during any crop year, except that such term shall not include a grower who sells only almonds of his own production at retail at a roadside stand operated by him.

§ 909.14 *Cooperative handler.* "Cooperative handler" means any handler which is a cooperative marketing association of growers regardless of where or under what laws it may be organized.

§ 909.15 *Almond product.* "Almond product" means any edible preparation other than those included under the definition of "shelled almonds," manufactured entirely or partially from raw shelled almonds, and nut mixtures containing shelled or unshelled almonds.

§ 909.16 *To handle.* "To handle" means to sell, consign, transport, ship (except as a common carrier of almonds owned by another person), or in any other way to put into the channels of trade either within the area of production or from such area to points outside thereof, except that such sales or deliveries by growers to a handler within the area of production shall not be considered as handling.

§ 909.17 *Inspection agency.* "Inspection agency" means the Federal-State Inspection Service or, when specifically designated, the Federal Inspection Service.

§ 909.18 *Settlement weight.* "Settlement weight" means the actual gross weight of any lot of almonds received for his own account by any handler, less adjustments as follows:

(a) For weight of containers,

(b) For excess moisture, and

(c) For trash or other foreign material of any kind.

§ 909.19 *Crop year.* "Crop year" means the 12 months from July 1 to the following June 30 inclusive.

§ 909.20 *Handler carryover.* "Handler carryover" as of any given date means all almonds (except those held as certified surplus) wherever located, then held by handlers for their own accounts (whether or not sold) but not including any almond products.

§ 909.21 *Trade demand.* "Trade demand" means the quantity of almonds (kernel weight basis) which commercial distributors and users such as the wholesale, chain store, confectionery, bakery, ice cream, and nut salting trades will acquire from all handlers during a crop year for distribution in continental United States, Alaska, Hawaii, Puerto Rico, and the Canal Zone.

§ 909.22 *Control Board.* "Control Board" is synonymous with "Board" and means the Almond Control Board established by this subpart.

§ 909.23 *Part and subpart.* "Part" means the order regulating the handling of almonds grown in the State of California, and all rules, regulations, and supplementary orders issued thereunder, and the aforesaid order shall be a "subpart" of such part.

ALMOND CONTROL BOARD

§ 909.30 *Establishment.* A Control Board of ten members, with an alternate member for each such member, is hereby established.

§ 909.31 *Membership representation.* Two members and an alternate for each member shall be selected from nominees submitted by each of the following groups designated in paragraphs (a) through (d) of this section, or from among other qualified persons belonging to such groups; and one member and an alternate member shall be selected from nominees submitted by each of the following groups designated in paragraphs (e) and (f) of this section, or from among other qualified persons belonging to such groups:

(a) The cooperative handlers;

(b) All handlers, other than cooperative handlers;

(c) Those growers who market their almonds through cooperative handlers;

(d) Those growers who market their almonds through other than cooperative handlers;

(e) The group of cooperative handlers or the group of handlers other than cooperative handlers whichever during that part of the then current crop year through March 31 received for their own account more than 50 percent of the almonds delivered by growers, and

(f) Those growers whose almonds were marketed during that period of the then current crop year through March 31, through the handler group specified in paragraph (e) of this section.

§ 909.32 *Nominations.*—(a) *Method.* Nominees for the respective member and alternate member positions shall be chosen by ballot delivered to the Control Board. Nominees chosen as provided herein shall be submitted by the Control Board to the Secretary on or before May 20 of each year together with such related information as he may require. If a nomination for any board member or alternate is not received by the Secretary on or before May 20, he may select such member or alternate from persons belonging to the group to be represented, without nomination. The Control Board shall mail to all handlers and growers, other than cooperative, of record, the required ballots with all necessary voting information, including the names of incumbents willing to accept renomination, and, to such growers the name of any person proposed for nomination in a petition signed by at least 15 such growers and filed with the Board on or before April 20. Distribution of ballots shall be announced by press releases, furnishing pertinent information on balloting, issued by the Control Board through newspapers and other publications having general circulation in the almond producing areas.

(b) *Voting.* (1) Nominees for each member and alternate member position shall be voted upon separately by the group proposing them. The handler or grower group which is determined to be eligible for additional representation pursuant to § 909.31 (e) and (f), respectively, shall nominate such representatives in the same manner prescribed for choosing other nominees.

(2) Each handler may vote for a nominee for each position representing the group to which he belongs. Each handler vote shall be weighted by the quantity of almonds (kernel weight basis computed to the nearest whole ton) handled for his own account through March 31 of the crop year in which nominations are made. The nominee for each position shall be the person receiving the highest weighted vote for the position.

(3) Growers who market their almonds through cooperative handlers shall vote through their respective organizations. Each cooperative shall cast a vote for nominees for each position representing the cooperative grower group and such ballots shall be weighted by the number of growers who are members of, or under contract with, such cooperative. The nominee for each position shall be the person receiving the highest weighted vote for that position.

(4) Growers who market their almonds through other than cooperative handlers shall each have one equal vote. The nominees for each position representing such grower group shall be the person receiving the highest number of votes for that position.

§ 909.33 *Selection and term of office.* Members and their respective alternates shall be selected annually for each group from nominees submitted for that group or from among other qualified persons by the Secretary for a term of one year beginning June 10 and shall serve until their respective successors are selected and qualified.

§ 909.34 *Qualification.* Any person selected as a member or alternate of the

[1] This amended order shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure governing proceedings to formulate marketing orders have been met.

Control Board, shall qualify by filing a written acceptance of his appointment with the Secretary or his designated representative. Any member or alternate who, at the time of his selection, was a member of or employed by a member of the group which nominated him shall, upon ceasing to be such member or employee, become disqualified to serve further and his position on the Control Board shall be deemed vacant.

§ 909.35 *Alternates.* An alternate for a member of the Control Board shall act in the place and stead of such member (a) in his absence, or (b) in the event of his death, removal, resignation or disqualification, until a successor for his unexpired term has been selected and has qualified.

§ 909.36 *Vacancy.* To fill any vacancy occasioned by the death, removal, resignation, or disqualification of any member or alternate of the Control Board, a successor for his unexpired term shall be selected by the Secretary after consideration of recommendations which may be submitted by members of the group for which such vacancy exists, unless such selection is deemed unnecessary by the Secretary.

§ 909.37 *Expenses.* The members of the Control Board shall serve without compensation, but shall be allowed their necessary expenses.

§ 909.38 *Powers.* The Control Board shall have the following powers:

(a) To administer the provisions of this part in accordance with its terms;

(b) To make rules and regulations to effectuate the terms and provisions of this part;

(c) To receive, investigate and report to the Secretary complaints of violations of this part; and

(d) To recommend to the Secretary amendments to this part.

§ 909.39 *Duties.* The Control Board shall have, among other things, the following duties:

(a) To act as intermediary between the Secretary and any handler or grower;

(b) To keep minute books and records which will clearly reflect all of its acts and transactions, and such minute books and records shall be subject to examination by the Secretary at any time;

(c) To investigate the growing, shipping, and marketing conditions with respect to almonds and to assemble data in connection therewith;

(d) To furnish to the Secretary such available information as may be deemed pertinent or as he may request;

(e) To appoint such employees as it may deem necessary and to determine the salaries, define the duties and fix the bonds of such employees; and

(f) To cause the books of the Control Board to be audited by one or more competent certified public accountants at least once for each crop year, and at such other times as the Control Board may deem necessary or as the Secretary may request; and the report of each such audit shall show, among other things, the receipt and expenditure of funds pursuant hereto; and to file with the Secretary three copies of all audit reports made.

§ 909.40 *Procedure*—(a) *Organization and rules.* The members of the Control Board shall select a chairman from their membership. The Board shall select such other officers and adopt such rules for the conduct of its business as it may deem advisable. The Board shall give to the Secretary or his designated agent and representatives the same notice of meetings of the Control Board as is given to members of the Board.

(b) *Quorum.* All decisions of the Control Board, except where otherwise specifically provided, shall be by a majority vote of the members present. The presence of six members shall be required to constitute a quorum.

(c) *Voting by mail or telegram.* The Control Board may vote by mail or telegram upon written notice to all members, or alternates acting in their place, including in the notice a statement of a reasonable time not to exceed 10 days in which a vote by mail or telegram must be received by the board manager for counting: *Provided,* That voting by mail or telegram shall not be permitted at any assembled meeting of the Board. When any proposition is submitted for voting by mail or telegram, one dissenting vote or failure to vote shall prevent its adoption by that method.

(d) *Right of the Secretary.* The members of the Control Board (including successors or alternates), and any agent or employee appointed or employed by the Control Board, shall be subject to removal or suspension by the Secretary at any time. Each and every order, regulation, decision, determination, or other act of the Control Board shall be subject to the continuing right of the Secretary to disapprove of the same at any time, and, upon such disapproval, shall be deemed null and void except as to acts done in reliance thereon or in compliance therewith.

SURPLUS CONTROL

§ 909.45 *General.* In order to effectuate the declared policy of the act, no handler shall handle almonds except in accordance with the terms and conditions of this part.

§ 909.46 *Withholding surplus.* When a surplus percentage has been fixed for any crop year, as hereinafter provided, no handler shall handle almonds except on condition that he comply with the requirements in respect to withholding surplus almonds and the prescribed disposition thereof.

§ 909.47 *Method of establishing salable and surplus percentages.* Whenever the Secretary finds, from the recommendations and supporting information supplied by the Control Board or from any other available information, that to designate the percentages of almonds during any crop year which shall be salable almonds and surplus almonds would tend to effectuate the declared policy of the act, he shall designate such percentages. Except as provided in § 909.50 the salable and surplus percentages shall each be applied to the kernel weight of almonds received by a handler for his own account during the crop year. In establishing such salable and surplus percentages, the Secretary shall give consideration to the ratio of estimated trade demand (minus the handler carryover at the beginning of the crop year plus the desirable handler carryover at the end of the crop year) to the estimated production of almonds (all expressed in terms of kernel weight); the recommendation submitted to him by the Control Board; and such other information as he deems appropriate. The total of the salable and surplus percentages established each crop year shall equal 100 percent.

§ 909.48 *Increase of salable percentage.* Upon request filed prior to May 15 by the Control Board or, if the Board should fail to request, by two or more handlers who have handled at least 15 percent of all almonds handled in the preceding crop year, and after findings of fact (based upon a revision of the estimates required under § 909.49 and other pertinent information) that the quantity of salable almonds is not sufficient to satisfy trade demand and desirable carryover requirements for the crop year, the Secretary may increase the salable percentage. Such findings shall be made in the manner specified in § 909.47.

§ 909.49 *Board estimates and recommendations.* To aid the Secretary in fixing the salable and surplus percentages, the Board shall furnish to the Secretary, not later than August 1, the following estimates (kernel weight basis) and recommendations for the crop year, each of which shall be adopted by the affirmative vote of at least six members:

(a) The quantity of almonds to be produced;

(b) The handler carryover as of July 1;

(c) The desirable handler carryover at the end of the crop year;

(d) The trade demand, taking into consideration anticipated imports, economic conditions and the anticipated market price (within the limitations of the act); and

(e) The recommended salable and surplus percentages to be established.

The Board shall also furnish to the Secretary a complete report of the proceedings of the Board meeting at which the recommended salable and surplus percentages were considered. If, for any reason, the Board fails to make these estimates or to recommend to the Secretary salable and surplus percentages as required hereby, reports representing the views of members with respect to such matters may be submitted to the Secretary who may act on the basis of such reports or other information available to him.

§ 909.50 *Requirement for withholding surplus.* Except as otherwise provided in §§ 909.51 and 909.55, every handler shall withhold from handling a quantity of almonds having a certified surplus kernel weight equal to the surplus percentage of the kernal weight of all almonds such handler receives for his own account during the crop year:

Provided, That any quantity of almonds disposed of in outlets such as animal feed or crushing into oil, in a manner permitting accountability to the Board, and which is not certified surplus, shall not be included in such receipts. Almonds which are withheld in satisfaction of a surplus withholding obligation shall be in suitable containers which may be prescribed by the Control Board, be inspected and certified as required § 909.52, and be identified by appropriate seals or stamps or tags to be furnished by the Board and to be affixed to the containers by the handlers under the direction and supervision of the inspectors or the Control Board. Such identification shall not be altered or removed except under the supervision of the Board. Almonds so withheld shall be set aside and kept for the account of the Control Board and, from the date of withholding and at all times thereafter, shall be kept by the handler available for inspection by the Board or its agents. Such almonds shall be stored in such manner as to maintain them in the same condition as when certified as surplus except for loss through fire, acts of God, acts of war, riot or other conditions beyond the handler's control. Upon demand of the Control Board they shall be delivered to the Board f. o. b. handler's warehouse or point of storage, except that the Control Board shall not make such demand upon a handler with respect to surplus almonds for which the time for withholding has been deferred pursuant to § 909.53. The quantity of almonds hereby required to be withheld shall constitute, and may be referred to as, the "surplus" or "surplus obligation" of a handler. The almonds handled by any handler in accordance with the provisions of this part shall be deemed to be that handler's quota fixed by the Secretary within the meaning of section 8 (a) (5) of the act.

§ 909.51 *Requirements for surplus.* A lot of almonds to be eligible for use in satisfying the surplus obligation of a handler must meet the following requirements, and the weight to be certified and credited as surplus shall be the kernel weight less any inedible kernel weight in excess of three percent of its edible kernel content: (a) The almonds in such lots shall be dry and properly cured and shall not vary widely in grade factors; (b) lots of unshelled almonds shall not have more than 10 percent of the almonds by count affected by adhering hulls (where more than 10 percent of the surface is affected), shall not contain more than 5 percent by weight of loose shells, hulls and other foreign material and shall not contain inedible kernels in excess of 40 percent of the kernel weight; and (c) lots of shelled almonds shall not contain, in the aggregate, more than 15 percent by weight of unshelled almonds and shells, loose hulls, and other foreign material and not more than 40 percent inedible kernels. The kernel content of unshelled almonds shall be included in determining edible and inedible kernel weight. The Secretary upon the recommendation of the Board may modify these requirements or establish additional requirements, including grade requirements for lots of surplus for export or disposition into outlets for human consumption as kernels.

§ 909.52 *Inspection and certification of surplus.* Each handler shall cause an inspection to be made of all almonds withheld by him in satisfaction of his surplus obligation, as soon as practicable after withholding or at such time as the Board may require, to determine that such almonds meet the requirements specified in § 909.51 and to ascertain the kernel weight to be certified. Each handler shall obtain an inspection certificate from the inspection agency and cause a copy of such certificate to be furnished to the Board. The handler shall bear the costs of the inspection and the certificate. The inspection certificate shall show, in addition to such other requirements as the Board may specify, the identity of the handler, the kind and number of containers in the lot and any brands or labels, whether the lot is shelled or unshelled, the variety of almonds in unshelled lots, the certified kernel weight contained in the lot and that it meets the requirements for surplus. Certified lots shall be identified as prescribed in § 909.50. Provisions of this section may be modified by the Secretary upon recommendation of the Board.

§ 909.53 *Deferment of time for withholding surplus and procedure*—(a) *Deferment of time.* Compliance by any handler with the requirements of § 909.50 for withholding surplus shall be deferred to any date desired by the handler, but not later than May 15 of the crop year, upon the voluntary execution and delivery by such handler to the Control Board of a written undertaking that on or prior to the desired date he will have fully satisfied his surplus withholding obligation. Such undertaking shall be secured either by almonds owned by the applying handler and pledged to the Control Board or by a bond or bonds to be filed with and acceptable to the Control Board in the amount or amounts hereinafter specified, conditioned upon full compliance with such undertaking.

(b) *Procedure when almonds are offered as security.* If the applying handler desires to pledge almonds as security, such almonds shall be owned by him free and clear of any and all liens or encumbrances and shall be of a quantity equal to or in excess of the quantity for which deferment is desired, such quantity to be determined pursuant to rules and regulations prescribed by the Control Board with the approval of the Secretary. The applying handler shall execute and deliver to the Control Board appropriate instruments which shall authorize the Board, in case of default, to sell the pledged almonds up to the quantity on which default occurs, as soon as practicable, in the most favorable surplus outlets available, and to remit the proceeds, less board expenses in connection therewith, to the defaulting handler. Pledged almonds in excess of the quantity represented by the default shall be returned to the defaulting handler, who shall be charged with any Board expenses in connection with such excess quantity. The applying handler, in pledging almonds to the Board, shall agree in writing that he will: Store the pledged almonds in bulk storage bins or other containers regularly used by almond handlers, separate and apart from all other almonds; permit inspection of such almonds by the Board or the inspection agency at any time; maintain such almonds insofar as is reasonably practicable in the same condition as when offered as security; store such almonds in a manner that they can be readily identified, weighed, measured, and sampled; and place or cause to be placed on the bins or other containers seals, tags, stamps or other means of identification prescribed by the Control Board, and not remove or permit to be removed such identification except under supervision or direction of the Board.

(c) *Procedure when a bond is offered as security.* (1) If the applying handler desires to furnish a bond as security, such bond shall be provided at the handler's expense, shall be acceptable to the Control Board, with a surety or sureties acceptable to the Board, and shall be in an amount computed by multiplying the pounds of almonds, kernel weight basis, for which deferment is desired by the bonding rate. Such bonding rate shall be computed by the manager of the Control Board and shall be the average (to the nearest half cent) of the current season's opening prices per pound for shelled almonds known as Nonpareil shelled count-to-the-ounce almonds 20/22, 23/25, and 27/30, f. o. b. shipping point, in sacks, of any handler or handlers who during the preceding crop year handled 51 percent of the almonds handled by all handlers. Such handler or handlers shall be selected in order of volume handled in the preceding crop year, using the minimum number of handlers to represent a volume of 51 percent of the total volume handled. If the prices of one handler only are involved such average shall be a simple average of such prices. If the prices of two or more handlers are involved for the designated almonds, the simple average price of each such handler shall be weighted by the total quantity of almonds handled by him during the preceding crop year. Handlers whose prices are to be used as aforesaid shall furnish the Board with information necessary to compute the bonding rate. Until the bonding rate can be computed in any new crop year, the bonding rate to be used shall be computed as herein provided on the basis of the most recent price lists of such handlers. In the event the average price so computed from current prices varies by 5 percent or more, from the then current bonding rate, the bonding rate shall be such current average price and the amount of the handler's bond shall be adjusted on the basis of such revised bonding rate. This method of establishing and adjusting the bonding rate may be modified by the Secretary after consideration of a board recommendation.

(2) In case a handler defaults in meeting his deferred surplus obligation, any funds collected by the Board from the bonding company through such default shall be used by the Control Board to purchase from handlers a quantity of almonds, kernel weight basis, up to but not exceeding the quantity on which the

default occurred. Purchases shall be made from almonds with respect to which the surplus obligation has been met, and shall be of grades, varieties or sizes, and in such containers as the Board specifies in consideration of available surplus outlets. Purchases shall be at the lowest prices at which such almonds are offered and if more almonds are offered than required by the Board, it shall make the purchases from various handlers as nearly as practicable in proportion to the quantity of their respective offerings at the same price. The Control Board shall dispose of the almonds acquired as soon as practicable in the most favorable surplus outlets and shall remit the proceeds from such sales, less board expenses in connection with such transaction, to the defaulting handler.

(3) If any balance of funds collected should remain, after purchases and dispositions are made pursuant to the provision of this subsection in a quantity equal to the defaulted obligation, such balance shall be remitted to the defaulting handler. If for any reason the Board is unable to purchase a quantity of almonds as large as the quantity of surplus in default by the handler, any remaining balance of funds received because of the default less expenses of the Board, shall be remitted to all handlers, other than the defaulting handler, in proportion to the ratio of each such handler's surplus obligation to the total surplus obligation of all such other handlers for the crop years with reference to which the default occurred.

(d) *Effect of satisfaction.* A handler who has defaulted on his bond shall be credited on his surplus obligation with that quantity of almonds represented by the sums collected divided by the bonding rate.

§ 909.54 *Payment to handlers for services rendered.* The Control Board may pay handlers for necessary services rendered by them in connection with almonds eventually disposed of directly by the Board as surplus including but not limited to storing, shelling, sorting, bleaching, grading, packaging, fumigating, and other services in accordance with such schedule of payments and under such conditions as may be established by the Secretary after recommendation of the Control Board.

§ 909.55 *Interhandler transfers.* Any handler may, upon notice to and under the supervision and direction of the Board, transfer almonds or surplus credits to another handler. Any such transfers shall be accounted for in such manner that the surplus obligation and assessments on the combined transactions of the participating handlers shall be fully met and such surplus withholding obligation and assessments may be divided between such handlers in accordance with their arrangements subject to approval of the Control Board.

§ 909.56 *Assistance of Control Board in accounting for surplus.* The Control Board, on written request, may assist handlers in accounting for their surplus obligations and may aid any handler in acquiring almonds to meet any deficiency in his surplus.

§ 909.57 *Application of salable and surplus percentages after end of crop year.* The salable and surplus percentages established for any crop year shall continue in effect with respect to all almonds for which the surplus obligation has not been previously met, which are received for his own account or handled by any handler after the end of such crop year and before salable and surplus percentages are established for the succeeding crop year. After such percentages are established for the new crop year, the withholding requirements for all such almonds theretofore received for his own account or handled during that crop year shall be adjusted to the newly established percentages.

§ 909.58 *Exchange of surplus almonds.* Any handler who has withheld surplus almonds pursuant to the requirements of § 909.50 and has had the same certified as surplus almonds may exchange therefor, to the extent that such almonds have not been disposed of, a certified kernel weight of other almonds, which he has on hand or which he has acquired, equal to or more than the weight of the almonds withdrawn. Any excess weight may be certified to the handler as additional surplus withheld. Any such exchange shall be made under the supervision and direction of the Control Board with appropriate inspection and certification of the almonds involved.

§ 909.59 *Adjustment upon increase of salable percentage.* (a) Upon any increase in the salable percentage and corresponding decrease in the surplus percentage, the surplus obligation of each handler for the entire crop year to the effective date of such action shall be computed in accordance with such revised salable and surplus percentages. From the surplus almonds that may have been withheld by him and not yet disposed of, any handler authorized to act and acting as agent of the Board in disposing of surplus pursuant to § 909.66 shall be permitted to select, under the supervision and direction of the Control Board, the particular surplus almonds to be restored to his salable percentage, and such restoration shall be deemed to fulfill the obligation of the Board with respect to such increase.

(b) In the case of handlers who have not been authorized to dispose of their own surpluses, and handlers who have terminated their agencies to dispose of their own surpluses, prior to an increase in the salable percentage, insofar as practicable each such handler shall be permitted to select almonds from his own surplus to be restored to his salable quantity. In the event there are not sufficient surplus almonds held by the Board at the time the salable percentage is increased, to make full restoration, as represented by the increase in the salable percentage, to all such handlers, the restoration to the salable quantities of the respective handlers shall be pro rata on the basis of certified kernel weight poundage of surplus contributed by said handlers during the crop year to the date of increase of the salable percentage: *Provided*, That restoration shall be made in a manner that will result, to the extent practicable, in a comparable percentage of surplus disposition for each such handler and that no handler shall receive almonds in excess of his contribution. Such restoration to the salable quantity shall be deemed to fulfill the obligation of the Board with respect to the increase in the salable percentage.

§ 909.60 *Determination of kernel weight*—(a) *Almonds for which settlement is made on kernel weight.* All lots of almonds, whether shelled or unshelled, for which settlement is made on the basis of kernel weight shall be included in the total kernel weight for any handler at the settlement weight.

(b) *Almonds for which settlement is made on unshelled weight.* Any unshelled almonds for which settlement is made on the basis of unshelled weight shall be included in the total kernel weight for any handler at the settlement weight of such unshelled almonds multiplied by the applicable shelling ratio in accordance with § 909.62.

§ 909.61 *Redetermination of kernel weight.* The Control Board, on the basis of reports by handlers, shall redetermine the kernel weight of almonds received by each handler for his own account during each crop year through each of the following dates: December 31, March 31, and June 30. Such redetermined kernel weight for each handler shall be the basis for computing his surplus obligation for the crop year through such dates, except that adjustment shall be made for almonds on which the obligation has been assumed by another handler. The redetermined kernel weight for each handler as of any date during the crop year shall be his carryover as of that date, plus deliveries of salable almonds (except deliveries, other than certified surplus, to oil mills or animal feed under the supervision of the Board), plus certified surplus for such crop year to that date (whether or not disposed of), minus his carryover at the beginning of the crop year, minus any almonds on which the surplus obligation has been assumed by a previous handler. Weights used in such computation for various classifications of almonds shall be: (a) For unshelled almonds, other than certified surplus, the kernel weight computed by application of shelling ratios authorized pursuant to § 909.62; (b) for unshelled certified as surplus, the certified kernel weight; (c) for shelled almonds other than certified surplus, the net weight; (d) for shelled almonds certified as surplus, the certified kernel weight; and (e) for shelled almonds used in production of almond products, the weight of such almonds.

§ 909.62 *Varietal shelling ratios for unshelled almonds.* (a) The varietal shelling ratios applicable to unshelled almonds for determination of kernel weight are as follows:

Major varieties:	Percent
Nonpareil	60
Jordanolo	60
Ne Plus Ultra	50
IXL	50
Mission	40

Major varieties—Continued	Percent
Drake	40
Peerless	35
Minor varieties:	
King	60
California (California Papershell)	60
Princess	60
Bigelow	55
Harparell	55
Rivers	55
Eureka	54
Klondike	54
Baker	53
Trembath	53
Oakley	52

Grosse Tender	32
Hardshell	30
Almendro	30
Bidwell	30
Jordan	30
King George	30

(b) Lots of unshelled almonds designated by a handler as unknown or unnamed varieties, or varieties of a name not listed in this section, also lots of mixed varieties (lots containing more than 10 percent by weight of unshelled almonds which differ materially in shape or appearance from the predominant variety in the lot) shall be converted to kernel weight at 60 percent, unless the handler, at his expense, furnishes an inspection certificate applicable to the lot, issued by the inspection agency, showing the kernel weight of the lot. The shelling ratios in this section may be changed by the Secretary, and shelling ratios for other varieties may be specified by him, upon consideration of a Control Board recommendation and other available data.

DISPOSITION OF SURPLUS

§ 909.65 *Prohibition on the handling of surplus.* Except as provided in §§ 909.66 and 909.67 surplus almonds withheld pursuant to the requirements of § 909.50 shall not be handled by any person.

§ 909.66 *Conditions governing disposition of surplus*—(a) *General.* The Control Board shall have power and authority to sell or dispose of any and all surplus almonds withheld upon the best terms and at the highest return obtainable consistent with the ultimate complete disposition of surplus, subject to all conditions of this section.

(b) *Disposition of surplus for export.* Sales of surplus almonds for export to destinations outside the continental United States, Alaska, Hawaii, Puerto Rico, and the Canal Zone shall be made only on execution of an agreement to prevent sale within or reimportation into the United States; and in case of export to Canada or Mexico, such almonds shall be sold only on the basis of a delivered price, duty paid.

(c) *Exclusion from domestic normal trade channels.* No surplus almonds shall be sold in the United States, Alaska, Hawaii, Puerto Rico, and the Canal Zone other than to governmental agencies or to charitable institutions for charitable purposes, except for diversion into almond oil, almond butter, poultry or animal feed, or into other channels which the Control Board finds are noncompetitive with existing normal markets for almonds, and with proper safeguards in each case to prevent such almonds thereafter entering the channels of trade in such normal markets.

(d) *Time restriction on disposition.* The Control Board shall not dispose of, or authorize the disposition of, more than 50 percent of the surplus almonds prior to May 15 of any crop year unless disposition in excess of 50 percent is made pursuant to paragraph (b) of this section or unless the salable percentage is increased pursuant to § 909.48.

(e) *Disposition after September 1.* Any surplus almonds remaining unsold as of September 1 shall be disposed of by the Board as soon as practicable through the most readily available surplus outlets. The date of September 1 herein specified may be extended to a later date by the Secretary, upon recommendation of the Board or other information.

§ 909.67 *Disposition by handler.* Upon request of a handler, made prior to the delivery by him of any surplus to the Board in any crop year, the Board shall authorize such handler to act as agent of the Board, upon such reasonable terms and conditions as the Board may specify and subject to the conditions of § 909.66 in disposing of the surplus contributed by such handler for that crop year. Any handler who is authorized to dispose of his surplus may, through arrangement with another handler, dispose of such surplus through such other handler or, in lieu of disposition, may acquire credits for surplus disposition from another handler. In the first instance, the second handler shall also be subject to the conditions of § 909.66. It shall be the obligation of any handler authorized to dispose of such surplus to effect disposition thereof in accordance with all applicable requirements and conditions. The proceeds of such disposition shall be retained by the handler making the disposition, except that, in case he disposes of the surplus of another handler, the proceeds from that disposition shall be divided between the two handlers on the basis of a mutual agreement. Such authorization shall expire as of September 1 of the next crop year, and any surplus then remaining undisposed of by the handler shall be returned to the Board. If the date of September 1 specified in § 909.66 (e) is extended, the date of September 1 shall be extended correspondingly. Any handler who has been authorized to act as agent of the Board in disposing of his surplus may terminate such agency as of April 1 of the particular crop year by giving written notice to the Board to that effect not later than the previous March 20, in which event such handler shall return to the Board, for disposition by it, all surplus almonds remaining in his possession. In case a handler does not terminate his agency as of April 1, he shall be required to continue to serve as such agent until September 1 of the next crop year. The Board shall not terminate such an agency prior to September 1 unless the agent violates the terms and conditions specified by the Board or other provisions of the order. During the period of such agency the Board, as principal, shall not dispose of the surplus contributed by said agent. The Board, with the approval of the Secretary, may prescribe such rules and regulations as are necessary to regulate disposition of surplus almonds including methods for crediting as surplus any salable almonds sold and delivered to surplus outlets.

§ 909.68 *Disposition by the Board*—(a) *Pools.* Surplus from almonds received by handlers for their own accounts during any crop year, other than surplus disposed of by handlers as agents of the Board as authorized in § 909.67, shall be disposed of by the Control Board in three pools as follows: Pool No. 1—surplus delivered to the Board during a crop year up to April 1 and disposed of during that period; Pool No. 2—surplus delivered to the Board from April 1 to August 31, inclusive, and disposed of during that period, including, in addition to deliveries by handlers not acting as agents, deliveries by handlers who terminate their agencies as of April 1, and also any surplus from Pool No. 1 which was not disposed of prior to April 1, but which is disposed of prior to September 1; and Pool No. 3—all surplus held unsold by the Board on September 1, including, in addition to any surplus turned over to it by handlers whose agencies expired on September 1, any surplus from Pool No. 1 and Pool No. 2 which was not disposed of by the Board prior to September 1. If the date of September 1 specified in § 909.66 (e) is extended, the dates of August 31 and September 1 shall be extended correspondingly.

(b) *Expenses.* Direct expenses incurred by the Control Board in the maintenance and disposition of surplus almonds in each respective pool shall be charged against the proceeds of sales of the almonds in that pool.

(c) *Distribution to handlers.* Net proceeds from the disposition of surplus almonds in each of the three pools shall be distributed by the Board to each handler having an interest in that pool in proportion to his relative contribution thereto in terms of certified kernel

weight. In the case of a carryover from one pool to another pool, the Board shall allocate the interests of the appropriate handlers therein on the basis of their respective total deliveries of almonds, in terms of certified kernel weight, to the Board during the pool period in connection with which such carryover first originated.

RECORDS AND REPORTS

§ 909.70 *Records and verification.* Each handler shall keep records which will clearly show the details of his receipts of almonds, withholdings, sales, shipments, inventories, surplus disposition and other pertinent information in respect to his operations pursuant to the provisions of this part. Such records shall be retained by the handler for two years after the end of the crop year to which they apply. Each handler's premises shall be accessible to authorized representatives of the Board and the Secretary for examination and audit of the aforesaid records and for inspection and observation of almonds. The Board shall make such checks of almonds or audits of each handler's records as it deems appropriate or are requested by the Secretary to insure that accurate information as required in this part is being furnished by handlers.

§ 909.71 *Record of receipts.* For the purpose of establishing the surplus obligation and furnishing statistical information to the Control Board necessary for the conduct of its operations, each handler, on receiving almonds for his own account, shall issue to the person from whom so received a receipt therefor. At least two duplicates thereof shall be made at the time of issuance, one of which shall be retained by the handler as a part of his records and the other submitted to the Control Board as hereinafter provided. Such receipts shall be serially numbered and shall accurately show for each lot received, the identity of the handler, the name and address of the person from whom received, the number of containers in the lot, the variety, whether shelled or unshelled, and the settlement weight for each such variety. The character and amount of all adjustments deducted from the gross weight shall be shown with the gross weight on the receipt issued by the handler.

§ 909.72 *Report of receipts.* Each handler receiving almonds for his own account shall tabulate such receipts by varieties and shall submit reports thereof to the Control Board in such form and at such intervals as the Board may prescribe for all receipts issued by him. Such reports shall be accompanied by duplicate copies of the receipts issued pursuant to the provisions of § 909.71 for all almonds included in such report. The Control Board, after checking such reports in such manner as it deems desirable, shall determine in the manner specified in § 909.60 the kernel weight of the almonds so received.

§ 909.73 *Periodic reports.* On or before January 15, and April 15, and July 15 of each crop year, each handler shall file with the Control Board a written report, certified to the Board and to the Secretary by such handler as to its completeness and correctness, showing as of the close of business on December 31, March 31, and June 30, respectively, such information as may be prescribed by the Board for use in redetermination of kernel weight and marketing policy considerations.

§ 909.74 *Other reports.* Upon the request of the Control Board, made with the approval of the Secretary, every handler shall furnish to the Control Board in such manner and at such times as it prescribes (in addition to such other reports as are specifically provided for in this part) such other information as will enable the Control Board to perform its duties and exercise its powers hereunder.

§ 909.75 *Confidential nature of records and reports.* All information contained in handler records made available to the Board or the Secretary, or in reports to the Board, constituting a trade secret or disclosing the trade position, financial condition, or business operations of any handler shall be considered as confidential information. Such information received by the Board, shall be kept in the custody and under the control of one or more employees of the Board, who shall disclose such information to no person except the Secretary.

EXPENSES AND ASSESSMENTS

§ 909.80 *Expenses.* The Control Board is authorized to incur such expenses as the Secretary may find are reasonable and likely to be incurred by it during each crop year, for the maintenance and functioning of the Control Board and for such purposes as the Secretary may, pursuant to the provisions of this part, determine to be appropriate. The recommendation of the Control Board as to the expenses for each such year, together with all data supporting such recommendation, shall be submitted to the Secretary on or before August 1 of the crop year in connection with which such recommendation is made.

§ 909.81 *Assessment*—(a) *Requirement for payment.* Each handler shall pay to the Control Board on demand by the Board, from time to time, such sum, based on such rate per pound of almonds, kernel weight basis, received by him for his own account (except as to receipts from other handlers on which assessments have been paid) as the Secretary finds is necessary to provide funds to meet the authorized board expenses and establishes for the crop year. Upon redetermination of the kernel weight of almonds received by handlers for their own account as provided in § 909.61, such redetermined kernel weight for each handler, adjusted for receipts on which assessments have been paid, shall be the basis upon which he shall pay assessments. At any time during or after a crop year, the Secretary may increase the rate of assessments to apply to all such almonds during such crop year to secure sufficient funds to cover the expenses authorized by § 909.80 or by any later finding by the Secretary relative to the expenses of the Control Board, and such additional assessments shall be paid to the Control Board by each handler on demand.

(b) *Refunds.* Any money collected as assessments during any crop year and not expended in connection with the respective crop year's operations under this part may be used and shall be refunded by the Control Board in accordance with the provisions of this part. Such excess funds may be used by the Control Board during the period of four months subsequent to such crop year in paying the expenses of the Control Board incurred in connection with the new crop year. The Control Board shall, however, from funds on hand, including assessments collected during the new crop year, distribute or make available, within five months after the beginning of the new crop year, the aforesaid excess to each handler from whom an assessment was collected, as aforesaid, in the proportion that the amount of the assessment paid by the respective handler bears to the total amount of assessments paid by all handlers during said crop year.

(c) *Disposition of funds upon termination.* Any money collected from assessments hereunder and remaining unexpended in possession of the Control Board upon the termination of this part shall be distributed in such manner as the Secretary may direct.

MISCELLANEOUS PROVISIONS

§ 909.85 *Personal liability.* No member or alternate member of the Control Board, or any employee or agent thereof, shall be held personally responsible, either individually or jointly with others, in any way whatsoever, to any handler or any other person for errors in judgment, mistakes, or other acts either of commission or omission, as such member, alternate member, agent, or employee, except for acts of dishonesty.

§ 909.86 *Separability.* If any provision of this part is declared invalid, or the applicability thereof to any person, circumstance, or thing is held invalid, the validity of the remainder hereof or the applicability thereof to any other person, circumstance, or thing shall not be affected thereby.

§ 909.87 *Derogation.* Nothing contained in this part is, or shall be construed to be, in derogation or in modification of the rights of the Secretary or of the United States to exercise any powers granted by the act or otherwise, or, in accordance with such powers, to act in the premises whenever such action is deemed advisable.

§ 909.88 *Duration of immunities.* The benefits, privileges, and immunities conferred upon any person by virtue of this subpart shall cease upon its termination except with respect to acts done under and during its existence.

§ 909.89 *Agents.* The Secretary may, by a designation in writing, name any person, including any officer or employee of the United States Government, or name any bureau or division of the United States Department of Agriculture, to act as his agent or representative in connection with any of the provisions of this part.

§ 909.90 *Effective time, suspension, or termination*—(a) *Effective time.* The provisions of this part, as well as any amendments to this part, shall become effective at such time as the Secretary may declare, and shall continue in force until terminated or suspended in one of the ways hereinafter specified in this section.

(b) *Suspension or termination*—(1) *Failure to effectuate policy of act.* The Secretary shall terminate or suspend the operation of any or all of the provisions of this part, whenever he finds that such provisions do not tend to effectuate the declared policy of the act.

(2) *When favored by growers.* The Secretary shall terminate the provisions of this part at the end of any crop year whenever he finds that such termination is favored by a majority of the growers of almonds who during the crop year have been engaged in the production for market of almonds in the State of California: *Provided,* That such majority have during such period produced for market more than 50 percent of the volume of such almonds produced for market within said State; but such termination shall be effected only if announced on or before June 1 of the then current crop year.

(3) *If enabling legislation is terminated.* The provisions of this part shall, in any event, terminate whenever the provisions of the act authorizing them cease to be in effect.

(c) *Proceedings after termination*—(1) *Designation of trustees.* Upon the termination of the provisions of this part, the members of the Control Board then functioning shall continue as joint trustees, for the purpose of liquidating the affairs of the Control Board, of all funds and property then in the possession or under the control of the Board, including claims for any funds unpaid or property not delivered at the time of such termination. Action by said trusteeship shall require the concurrence of a majority of the said trustees.

(2) *Duties of trustees.* Said trustees shall continue in such capacity until discharged by the Secretary; shall, from time to time, account for all receipts and disbursements and deliver all property on hand, together with all books and records of the Control Board and the joint trustees, to such person as the Secretary may direct; and shall, upon request of the Secretary, execute such assignments or other instruments necessary or appropriate to vest in such person full title and right to all of the funds, property, and claims vested in the Control Board or the joint trustees pursuant thereto.

(3) *Obligations of persons other than board members and trustees.* Any person to whom funds, property, or claims have been transferred or delivered by the Control Board or its members, pursuant to this section, shall be subject to the same obligations imposed upon the members of the said Board and upon the said joint trustees.

§ 909.91 *Effect of termination or amendment.* Unless otherwise expressly provided by the Secretary, the termination of this part or of any regulation issued pursuant to this part, or the issuance of any amendment to either thereof, shall not (a) affect or waive any right, duty, obligation, or liability which shall have arisen or which may thereafter arise in connection with any provision of this part or any regulation issued under this part, or (b) release or extinguish any violation hereof or of any regulation issued under this part, or (c) affect or impair any rights or remedies of the Secretary or of any other person, with respect to any such violation.

§ 909.92 *Amendments.* Amendments to this part may be proposed, from time to time, by any person or by the Control Board.

Order Directing That Referendum Be Conducted Among Producers of Almonds in California; Designating Agents To Conduct Referendum; and Determining the Representative Period

Pursuant to the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.), it is hereby directed that a referendum be conducted among producers who, during the period July 1, 1956 through March 31, 1957 (which is hereby determined to be the representative period for the purpose of this referendum), were engaged, in the State of California in growing almonds for market, to determine whether such producers approve or favor the issuance of an amended order regulating the handling of almonds grown in California. Said order, as proposed to be amended, is annexed to the decision of the Secretary of Agriculture filed simultaneously herewith. Said referendum shall be conducted as soon as is reasonably practicable after March 31, 1957.

The procedure applicable to this referendum shall be the "Procedure for the Conduct of Referenda Among Producers in Connection with Marketing Orders (Except those Applicable to Milk and its Products) to Become Effective Pursuant to the Agricultural Marketing Agreement Act of 1937, as Amended" (15 F. R. 5176; 19 F. R. 35), except that subparagraph (5) of paragraph (c) is hereby amended to read: "(5) Make available to cooperative marketing associations and to all producers, except those belonging to cooperative marketing associations which elect to vote for their members, copies of the text of the proposed order on amendments, instructions on voting, and appropriate ballots and other necessary forms," and subparagraph (6) of paragraph (c) is hereby amended by changing the period at the end to a comma and adding immediately thereafter the following: "except those producers belonging to a cooperative association which elects to vote in their stead."

Oscar H. Chapin, Harry J. Krade, and Dehard B. Johnson of the Fruit and Vegetable Division, Agricultural Marketing Service, United States Department of Agriculture, are hereby designated as agents of the Secretary to conduct said referendum jointly or severally.

Copies of the text of the aforesaid amended order may be obtained or examined in: the Office of the Hearing Clerk, Room 112, Administration Building, United States Department of Agriculture, Washington 25, D. C.; and the Western Marketing Field Office, Fruit and Vegetable Division, Agricultural Marketing Service, United States Department of Agriculture, 701 K Street, Sacramento, California. Additional ballots and other necessary forms and instructions may also be obtained at the aforementioned field office.

[F. R. Doc. 57-1686; Filed, Mar. 5, 1957; 8:54 a. m.]

[7 CFR Part 921]

[Docket No. AO-222-A8]

MILK IN OZARKS MARKETING AREA

NOTICE OF RECOMMENDED DECISION AND OPPORTUNITY TO FILE WRITTEN EXCEPTIONS THERETO RESPECT TO PROPOSED MARKETING AGREEMENT AND PROPOSED AMENDMENTS TO ORDER, AS AMENDED

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), hereinafter referred to as the act, and the applicable rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and marketing orders (7 CFR Part 900), notice is hereby given of the filing with the Hearing Clerk of the recommended decision of the Deputy Administrator, Agricultural Marketing Service, United States Department of Agriculture, with respect to a proposed marketing agreement and proposed amendments to the order, as amended, regulating the handling of milk in the Ozarks marketing area. Interested parties may file written exceptions to the decision with the Hearing Clerk, United States Department of Agriculture, Washington 25, D. C., not later than the close of business on the 7th day after publication of this decision in the FEDERAL REGISTER. Exceptions should be filed in quadruplicate.

Preliminary statement. The hearing on the record of which the proposed marketing agreement and order were formulated was conducted at Springfield, Missouri, on September 24 and 25, 1956, pursuant to notice thereof which was issued September 5, 1956 (21 F. R. 6830). The material issues of record related to:

1. Reduction in extent of the marketing area;
2. Modification of the distribution of pooled returns to producers supplying pool plants located in Arkansas by raising the location adjustment and providing a separate utilization adjustment;
3. Limitation on the privilege of diverting milk to nonpool plants;
4. Providing for diversion of bulk milk to other handlers;
5. Modification of the pool plant standards;
6. Redefinition of producer-handler;
7. Prorating shrinkage on transfers of milk in bulk;
8. Revision of the classification of inventory changes;

9. Modification of the class II price; and

10. Administrative changes, involving:

(a) Interest charges on payments due the producer-settlement fund and set-off between accounts.

(b) Clarification of the definition of "other source milk";

(c) Clarification of the classification of reconstituted products,

(d) Class II transfers, and

(e) Reinstatement of the permanent Class I price provisions for the months of April, May, and June.

Findings and conclusions. The following findings and conclusions are based on the evidence received at the hearing and the record thereof:

1. *Marketing area.* A handler whose plant is located at Harrison, Arkansas, in Boone County, proposed that that county be deleted from the marketing area.

It is apparent, however, that the procurement and distribution of milk in Boone County has become increasingly competitive since this county was included in the marketing area in August 1954. The increased competition includes additional sales by handlers regulated under the Ozarks and Central Arkansas marketing areas, the purchase of supplemental bulk milk by this handler from other handlers regulated under the Ozarks order, and competition in the procurement of milk both from other Ozarks handlers and from handlers regulated under the Central Arkansas order. It is concluded that Boone County should not be deleted from the marketing area.

2. *Distribution of pooled proceeds to Arkansas producers.* The Ozarks Milk Producers Association, a newly formed cooperative representing the majority of Grade A producers delivering to handlers located in the northwest Arkansas counties of the marketing area made several proposals relating to the handling of milk in these four Arkansas counties. At the hearing the Association abandoned its support of the application of these proposals to Boone and Marion Counties and limited its testimony to the two remaining Arkansas counties of Benton and Washington. Since there was no additional testimony by any other interested parties concerning the original proposals as made by the Association, this decision relative to the proposals of the Association shall apply only to Benton and Washington Counties.

One proposal made by the Association would increase the Class I differential for handlers located in Benton and Washington Counties from 15 to 25 cents per hundredweight.

The present 15-cent Class I differential was originally provided to reflect the transportation costs of moving milk from Springfield to Arkansas markets. Approximately one-third of the total Class I sales in the Arkansas section of the marketing area is supplied by regulated handlers located in Springfield. It was contended that the differential is no longer sufficient to offset the transportation cost of so moving milk thus placing Springfield handlers at a competitive disadvantage in the Arkansas section of the marketing area. In adjusting this differential, however, care must be exercised to prevent its being set at too high a level, thus placing Arkansas handlers at a disadvantage.

According to the Dairyland Transport Company's schedule of rates which was submitted in evidence, the cost of transporting bulk milk from Springfield to Fayetteville (the major city in Northwest Arkansas) is 22 cents per hundredweight plus 3 percent Federal tax. However, this hauling rate reflects only the transportation cost of spot shipments of bulk milk. It does not adequately reflect the actual cost of hauling packaged milk on a regularly scheduled basis when the hauling equipment is owned and the activities of the driver controlled by the shipping handler. The cost of hauling milk in this instance would probably be less than the 22 cents as contained in the rate schedule particularly if the handler controlling the hauling facilities considered only the variable cost factors such as fuel and labor and did not associate any of the fixed cost factors such as management to the operation.

By far the greater share of milk moved by Springfield handlers to Arkansas is in packaged form. There was no evidence submitted by proponents of the increased Class I differential to indicate that the 25-cent differential would better serve to reflect the transportation cost of packaged milk. To increase the location differential without substantial evidence that such an increase is warranted would place Arkansas handlers at a competitive disadvantage relative to order handlers located in Springfield, Missouri. It is, therefore, concluded that the present differential should be maintained.

The Arkansas producers also proposed that payments to those producers supplying the plants located in Benton and Washington Counties, Arkansas, be computed on the utilization of milk by these handlers instead of being computed at the marketwide utilization of milk.

The Ozarks order provides for the marketwide pooling of payments by handlers and the payment of a uniform blend price to producers. The usual alternative is to provide for individual-handler pooling, under which the producers supplying milk to each individual handler receive a blend price based on that particular handler's utilization of milk. An important element in deciding whether to adopt marketwide or individual-handler pooling in any market is the degree to which handlers have become specialized in caring for the daily and seasonal reserve of milk. Such specialization has occurred to a major extent in the Ozarks area where a cooperative association of producers manufactures a large volume of the reserve milk and where some handlers receive only such quantities as are needed for bottling purposes. In such circumstances a marketwide pool serves to equalize returns between those producers delivering to high-utilization plants and those delivering to plants which care for the reserve milk. There was no proposal or testimony at the hearing relative to changing from marketwide to individual-handler pooling in the Ozarks market.

In two major respects the marketing of milk in Benton and Washington Counties remains closely interrelated with the marketing of milk in the Missouri portions of the area. Slightly over one-third of the total Class I sales in these counties are made by handlers whose plants are located outside of these counties, the bulk of them by handlers located at Springfield, Missouri. Also, the handlers located in the two Arkansas Counties specialized in bottling to the extent of depending upon other Ozarks handlers for supplementary supplies in the months of lowest production. These facts support the inclusion of Benton and Washington Counties in the Ozarks marketing area. A proposal by one of the Arkansas handlers to delete these counties from the marketing area was not supported at the hearing. The specialization of the Benton and Washington County plants also supports the continuance of marketwide pooling.

The Arkansas producers' request for a utilization differential was based principally on the competition of other markets for locally produced milk. The competitive markets include Tulsa, Oklahoma, and Dallas, Texas. However, this same competition and that from additional markets is active in the Ozarks market as a whole. The Producers Creamery Company operates a supply plant for the Dallas market at Monette and supply plants for the St. Louis market at Lebanon and Cabool and has a substantial number of members who ship directly to Kansas City plants. The Monette plant is also currently receiving milk from approximately 148 shippers located in Northwest Arkansas who are not members of Producers Creamery Company. These competitive markets have not so far jeopardized the adequacy of the supply of milk for the Ozarks market as a whole, nor is there any noticeable downward trend in the supply-sales relationship at the plants located in Penton and Washington Counties.

It is concluded that sales proceeds throughout the entire Ozarks marketing area should continue to be pooled on a marketwide basis.

3. *Diversion of milk to nonpool plants.* The order presently imposes no limits on the time or extent to which producer milk may be diverted to a nonpool plant for the account of any handler (including a cooperative association).

It was proposed by a cooperative association which operates a supply plant that the diversion privilege be limited during the low production months of September through January to not more than 10 days in any of these calendar months. They pointed out that the diversion privilege is primarily intended to promote efficiency in the marketing of milk not needed at the pool plants for bottling purposes. It is frequently possible for excess milk to be hauled directly from the farms to a nonpool plant for manufacturing instead of being physically received at the pool plant and then transferred to a manufacturing plant. Most commonly, these movements occur during the months of flush production. However, diversions may occasionally be necessary during the months of low production to accommodate excess milk during holiday periods or on weekends.

Representatives of bargaining associations which do not operate plant facilities pointed out that they have a special problem in this regard. They wish to be in a position to market their members' milk even during times of temporarily reduced demand. Such associations may need to market their members' milk by diversion to nonpool plants even during the five months of lowest production in the event of nonacceptance by the handler, labor disputes involving the hauling, processing or delivery of milk, or unseasonably high rates of milk production due to abnormal weather or other causes.

It is concluded that the diversion privilege should be limited to 10 days in any of the months of September through January. The 10-day period is sufficiently long to accommodate the types of movement to nonpool plants cited by certain cooperative associations. On the other hand, it will accomplish a desirable limitation of the privilege. The 10 days refers to 10 days' production of milk; bulk tank milk is commonly picked up from farms only on an every-other-day schedule and 10 days' production is included in five deliveries. If more than 10 days' milk is diverted, the dairy farmer would lose his status as a producer during the entire delivery month.

4. *Diversion to other handlers.* One proposal considered at the hearing was designed to accommodate efficiencies resulting from the system of collecting milk from farms in bulk tank trucks.

One cooperative association owns and operates insulated tank trucks in which the milk of producers who have bulk cooling tanks on the farm is picked up and transported to the distributing plants of handlers. Recently there has been a very rapid expansion in the number of bulk cooling tanks being installed on the farms and in the number of tank trucks acquired by the cooperative to transport such milk. It is extremely likely that the trend in this direction will continue at a very rapid rate. Other cooperative associations may also become involved in this type of operation.

The transportation of milk from farm to market in insulated tank trucks owned or operated by or under contract to the cooperative association has created a problem with respect to the determination of the responsibility to the individual producers. When milk comes to the market in cans, the milk of the individual producers is dumped, weighed, and a sample taken for butterfat testing by an employee of the plant where the milk is utilized. The operator of the plant is fixed with the responsibility for paying the individual producer for the pounds of milk received at the determined butterfat test.

When milk moves to market in a tank truck, the weight of the milk is checked and a sample for butterfat testing is taken at the farm. The milk of several producers is intermingled in the tank truck. When the tank trucks are owned or operated by or under contract to the cooperative association, the weight of each producer's milk is checked by, and a sample of the milk for butterfat testing is taken by, a person who is an employee of or directly responsible to the cooperative association. The handler who receives the milk of several producers intermingled in the tank has no way of knowing the weight or the butterfat test of the milk of the individual producers whose deliveries made up the load, except as such information may be reported to him by the association. In some instances, particularly in the case of supplemental loads, the handler may not even know the identity of the producers whose milk he receives.

Under these circumstances, it is not proper to make the plant operator responsible for the payment to a producer for a given quantity of milk at a particular test when he has no means of verifying such weights and tests. Rather any cooperative association which qualifies as such under § 921.5 of the order should be made the handler for such milk and should be required to account to the pool for it. The cooperative association would be required to charge the class prices to the plant operator for such milk. The cooperative association in turn would be required to make the monthly reports with respect to such milk and to settle with the producer-settlement fund for it.

With respect to milk received from producers' farms in cans or in tank trucks owned or operated by the distributing plant, the operator of such plant would continue to be the handler for such milk and would be required to account to the market administrator for it. For such milk the handler would make payment to the producer or the cooperative association at the applicable uniform prices.

5. *Modification of the pool plant standards.* It was proposed that the pool plant definitions be amended. The present order provides that an approved plant may be a pool plant if it disposes of at least five percent of producer receipts during the month as Class I in the marketing area; and that a supply plant may be a pool plant if it ships any milk to an approved plant which is a pool plant, and, during specified months has made its milk available to other handlers for Class I disposition.

It was testified that tighter requirements would remove the possibility of plants not normally associated with the Ozarks market from becoming pool plants via token shipments in the case of supply plants or a relatively small sales volume within the area in the case of approved plants.

It is concluded that the present definitions do not adequately define the plants which constitute the regular and dependable supply of fluid milk for the Ozarks market. Only those plants which are operated in such a fashion as to be regular suppliers and distributors should be subject to regulation and entitled to participate in the marketwide pool.

The pool plant definitions should be redrawn to specify in more detail the standards which determine a regular, dependable supply. The standards should recognize the functional differences between the two major types of plants which serve the market. The approved plants from which milk is distributed directly on routes in the marketing area differ substantially in their operations from supply plants which assemble milk and ship it in bulk to approved plants.

An association of producers proposed that higher shipping requirements be required of supply plants new to the market than those required of plants presently associated with the market. However, the standards should, so far as possible, measure a plant's current service to the market rather than past association with it. The standards for new and old plants should be as nearly comparable as possible. The only appropriate variation in the shipping requirements is that they be moderately higher in the flush production months of April, May, and June than in other months of the year.

It is concluded, therefore, that a supply plant may be pooled if it ships 25 percent of its producer receipts during any of the months of April, May, or June, and 20 percent during any other month to an approved plant: *Provided,* That if such plant ships as much as 20 percent of its producer receipts to approved plants during each of the months of September, October, November, and December it shall be a pool plant through the following August.

The 20 percent represents a comparatively small degree of association with the market. The slightly higher, 25 percent, requirement for plants qualifying in April, May, or June reflects the fact that milk supplies at plants primarily associated with other markets in the region are also at a peak in these months. These plants should not be encouraged to join the Ozarks market on a purely temporary basis for the purpose of participating in the equalization account.

A new supply plant desiring to become a permanent part of the Ozarks market would, of course, be most likely to start shipments during the normally short period, and would maintain its status as a pool plant through the following August if it shipped as much as 20 percent of producer receipts to the market during each of the months of September, October, November and December. However, a new supply plant may come on the market in any of the relatively long supply months by shipping the stated percentages to distributing plants.

Producers proposed that the order language which requires a supply plant to inform the market administrator that producer milk is available for Class I distribution in order to assure pool status in all months of the year should be incorporated in the new supply plant provisions. It appears that these offers may have helped to identify a supply plant with the Ozarks market under the present order which enables a supply plant to become a pool plant as a result of shipping "any" milk to the market. However, the new minimum shipping requirements as contained in this decision will serve more specifically to identify a supply plant and hence the offers need not be continued.

The recommended changes in the standards under which supply plants can qualify as pool plants require consideration of corresponding changes in those applying to distributing plants, defined in the order as "approved" plants. Such plants should also demonstrate a significant association with the market and plants which operate primarily as supply plants should not be permitted to qualify by the distribution of a minor sales volume. These objectives can be accomplished by requiring that approved plants must have not less than fifteen percent of producer receipts disposed of as Class I milk within the marketing area in order to qualify as pool plants. There is no evidence that any approved plant under the present order will experience difficulty meeting the new fifteen percent requirement.

6. *Producer-handler.* Under the terms of the present order, a producer-handler is exempt from the pricing and payment provisions. He does not pay the administrative assessment, nor is his own production included in the marketwide utilization pool.

The simplest form of producer-handler, as described at the hearing, is a person who sells only the milk produced on his own farm. Other operations may be carried on by producer-handlers, and the orders should be made more specific with regard to the types of activities which can be followed without terminating a person's status as a producer-handler.

The proponents were particularly concerned that a producer-handler not be allowed to utilize other source milk for Class I purposes. Conceivably, a producer-handler could rely primarily on other source milk, including reconstituted solids, and thereby avoid the pricing and payment provisions of the marketing order. This should not be permitted. It was pointed out at the hearing, however, that a producer-handler should be permitted to purchase Class II products from unregulated sources for distribution on his routes. This permission should be extended to the purchase of other source milk, as well as products, for manufacturing uses.

The producer-handler definition should, therefore, be amended to provide that milk be received from no other dairy farm than the farm(s) of the producer-handler, that he distribute milk in the marketing area, and that he may purchase supplemental milk from Class I use only from regulated handlers.

7. *Shrinkage.* The order presently in effect allows the originally receiving handler a maximum of 2 percent shrinkage prorated between producer receipts and other source receipts. It does not allow any shrinkage to the handler who may receive milk by transfer from the handler who originally received the milk.

A cooperative association proposed that the order be amended to recognize that milk incurs relatively little shrinkage in its receipt and relatively much more in its processing, bottling, and distribution. Testimony indicated that receiving plants experience approximately one-half percent shrinkage on that milk received and transferred to another plant for processing and bottling.

It is concluded that the order should be amended to recognize that the greatest amount of shrinkage occurs in the processing and bottling phase of milk distribution. One-half of one percent shrinkage should be allowed on that milk which is received at one plant and transferred to another plant for bottling and distribution. The bottling plant will be allowed up to one and one-half percent shrinkage on that milk received in bulk from another plant.

The same association also proposed that 2 percent of milk received in form other than milk, skim milk, or cream and disposed of in some form other than milk, skim milk, or cream be included as allowable shrinkage. This would allow shrinkage on the reprocessing or conversion of manufactured products. However there was no evidence in the record as to actual loss experience on such operations. It is concluded, therefore, that this aspect of the proposal should be denied.

8. *Classification of inventory.* The present order provides that inventory variation of milk, skim milk, cream, or any Class I product be considered a Class II utilization. It was proposed that such inventories on hand at the end of the month be classified as Class II, subject to reclassification if utilized in Class I the following month. This proposal should be adopted.

It is essential that some system of classification and allocation be applied to milk in inventory so as to determine the obligation of handlers for producer milk received during the month, but not yet utilized. The order should provide that producer milk from the previous month's closing inventory, which was classified as Class II, have prior claim over other source milk on the Class I utilization for the current month. This can be accomplished in the accounting procedure by considering the opening inventory as a receipt. Under the allocation provisions, the opening inventory would be subtracted from Class II skim milk and butterfat after the subtraction of receipts from other sources. A reclassification charge should be made at the difference between the Class II price in the previous month and the Class I price in the current month if opening inventory is allocated to Class I and there was an equivalent amount of skim milk and butterfat in producer milk classified in Class II milk the previous month after allocating other source milk and shrinkage. Handled in this manner, milk from inventory will be priced to handlers identically with milk derived from current receipts of producer milk during the month.

9. *Class II price.* An operating cooperative association proposed to reduce the butter-powder formula component of the Class II price 6 cents for the flush production months of March through July. At the hearing the proponent expanded his original proposal and requested that the formula be reduced 6 cents during all months. A bargaining cooperative supported the proposal as contained in the notice of hearing but opposed the lowering of the Class II price during the low production period of August through February.

In determining the level of a Class II price, two rough measures set the upper and lower limits of such price. The price should not be so low as to encourage handlers to add Grade A production for manufacturing use. On the other extreme, the price should not be so high as to discourage handlers from processing the normal reserve supply of the market.

Exhibits introduced at the hearing indicate that there has been a steady increase in the volume of Class II milk since the promulgation of the order. Thus it is obvious that the Class II price is not so high as to discourage handlers from accepting the normal surplus of the market. However, the bargaining association testified that in the past it sometimes had difficulty obtaining the order Class II price in flush production months but had not experienced such difficulty in the shorter production months.

In the Ozarks marketing area average daily production in the flush month of this year was approximately 166 percent of the average daily production in the previous short month. Production in the flush month of 1955 was about 161 percent of production in the previous short month. Producers supplying the St. Louis market, however, in the flush months of the same years produced approximately 145 and 150 percent of production in the previous short production month.

The greater flush of milk which must be manufactured in the Ozarks area supports the request that the Ozarks Class II price be reduced to the St. Louis level, at least during the heavier production months. The close alignment between the Ozarks and the St. Louis Class II prices in these months is necessitated by the close proximity of St. Louis supply plants which compete directly with Ozarks handlers for the supplies of milk and in the marketing of manufactured dairy products.

During the shorter production months, however, when the St. Louis market has very little surplus the competitive value of the Ozarks surplus is increased. The testimony of the bargaining cooperative supports this conclusion.

It is therefore concluded that the butter-powder component of the Class II price should be reduced by 6 cents to the same level as is provided in the St. Louis order for the flush months of March through July but should remain at the same level as now contained in the order for the period of August through February.

10. *Administrative provisions*—(a) *Interest and set-off.* The proposal to add one-half of one percent of any amount due the producer settlement fund for each month or any portion thereof that such payment is overdue should be allowed. This interest rate is not a penalty but represents a fair price for the use of producers' money. Charging interest will avoid giving a handler any incentive to retain money temporarily for use in his business after the date on which it is due the fund.

A cooperative association proposed that the market administrator be allowed to deduct from payments due handlers out of the producer-settlement fund, any amounts such handler may owe the market administrator as an adjustment of accounts for marketing services or for expense of administration.

There had been instances during the past year when handlers had received payment from the producer-settlement fund while having balances due the market administrator for marketing services or administration expense. To the extent that a handler is successful in such practices, the market administrator is denied payment for services performed. It is not the intent of the order to guarantee payment to a handler from an account trusted by the administrator when such handler is overdue in his payments to the administrator. It is therefore concluded that the order should be amended to prevent the occurrence of this inequity in the future.

(b) *Other source milk.* The definition of other source milk should be clarified to require accounting for receipts of Class II products only if they are used in a handler's plant to produce another product rather than on the basis of whether or not such receipts are in fluid form. The entire definition should also be rephrased to conform to that in the St. Louis order, since the two orders involve some of the same handlers. No changes in the cost of milk to handlers are involved in these modifications.

(c) *Reconstituted fluid milk products.* The order should provide more specifically for computing all the nonfat solids in Class I items on the basis of skim milk equivalent. This can be accomplished by specifying that the skim milk equivalent of reconstituted fluid milk products be defined as Class I utilization. One type of "reconstituted product" is made by adding condensed skim milk or nonfat dry milk to such Class I items as fluid skim milk, buttermilk, and chocolate drinks. Since such products compete directly with producer milk, the skim milk equivalent should be classified as Class I and has been so considered by the market administrator. Reconstitution of solids in the manufacture of Class II products, such as ice cream, can also affect the quantity of milk in Class I through the allocation process, and solids so used should also be converted to the skim milk equivalent.

(d) *Class II transfers.* Producers proposed that the transfer provisions should be amended to allow under certain conditions Class II transfer or diversion of bulk milk to a nonpool plant located not more than 100 miles from the marketing area. The present order classifies bulk milk so moved to a nonpool plant located more than 50 miles from the area as Class I.

Producers testified that with the advent of bulk milk, it is sometimes more economical to divert producer milk during flush production periods to manufacturing plants which are outside the 50 mile zone but which are nearer to producers' farms than are plants within the fifty-mile zone. Also, finding number 9 of this decision indicates the severe competition between Ozarks and St. Louis order producers for the disposal of surplus milk. Therefore, it is concluded that this proposal should be allowed.

(e) *Class I price.* Effective April 1, 1956, the Class I price was related to the St. Louis Class I price for the months of April, May, and June, instead of being based on a differential over the basic formula price. The phrasing of the amendment inadvertently deleted all reference to Class I prices for these months in the years following 1956. The Class I price provisions for the months of April, May, and June which were in effect prior to April 1, 1956, should be reinstated.

General findings. (a) The proposed marketing agreement and the order, as amended, and as hereby proposed to be further amended, and all of the terms and conditions thereof will tend to effectuate the declared policy of the act;

(b) The parity prices of milk as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds and other economic conditions which affect market supply and demand for milk in the marketing area and the minimum prices specified in the proposed marketing agreement and the order, as amended, and as hereby proposed to be further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(c) The proposed order, as amended, and as hereby proposed to be further amended, will regulate the handling of milk in the same manner as, and will be applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which a hearing has been held.

Rulings on proposed findings and conclusions. Briefs were filed on behalf of interested parties in the market. The briefs contained suggested findings of fact, conclusions, and argument with respect to the proposals discussed at the hearing. Every point covered in the briefs was carefully considered along with the evidence in the record in making the findings and reaching the conclusions herein set forth. To the extent that such suggested findings and conclusions contained in the briefs are inconsistent with the findings and conclusions contained herein, the request to make such findings or to reach such conclusions is denied.

Recommended marketing agreement and amendment to the order. The following order amending the order, as amended, regulating the handling of milk in the Ozarks marketing area is recommended as the detailed and appropriate means by which the foregoing conclusions may be carried out. The proposed marketing agreement is not included in this decision because the regulatory provisions thereof would be the same as those contained in the order, as amended, and as proposed here to be further amended.

1. Amend § 921.7 by deleting the words following the semicolon in (b) "which milk is delivered from the farm to a pool plant or diverted from a pool plant to a nonpool plant for the account of a handler" and substituting therefor the following: "which milk is (1) delivered from the farm to a pool plant, or (2) diverted during any of the months of February through August, or to the extent of not more than 10 days' production during any of the months of September through January, by a handler from a pool plant to a nonpool plant for the account of a handler."

2. Revise § 921.8 to read as follows:

§ 921.8 *Handler.* "Handler" means:

(a) Any person in his capacity as the operator of an approved plant or a pool plant;

(b) A cooperative association, with respect to the milk of its member producers which is delivered to the pool plant of another handler in a tank truck owned or operated by or under contract to such cooperative association for the account of such cooperative association (such milk shall be considered as having been received by such cooperative association at the plant to which it is delivered); or

(c) Any cooperative association with respect to the milk from any producer member of such association which is diverted from a pool plant to a nonpool plant by such cooperative association for its account.

3. Amend § 921.11 to read as follows:

§ 921.11 *Pool plant.* "Pool plant" means:

(a) An approved plant from which not less than 15 percent of its receipts of producer milk during the month is disposed of as Class I milk in the marketing area to wholesale or retail outlets (including sales through vendors or plant stores);

(b) A supply plant from which a quantity of milk equal to at least 25 percent of its supply of milk from producers and from other pool plants is shipped to an approved plant during any of the months of April, May, or June, or 20 percent in any other month: *Provided,* That if such plant shall ship 20 percent or more of such supply to an approved plant during each of the months of September, October, November and December, such plant shall be designated as a pool plant during each of the subsequent months through the following August, unless such plant requests nonpool designation by means of written application to the market administrator; or

(c) Any supply plant which ships any milk to an approved plant which is a pool plant in any month during the period from the effective date hereof through August 31, 1957: *Provided,* That such supply plant shall not be a pool plant for the months of April, May, June, or July, unless such plant makes its milk available to other handlers for distribution as Class I milk in the marketing area. Such milk shall be considered to have been made available if the operator of such plant files with the market administrator on or before the first day of each of the preceding months of August through March a statement offering milk for sale and specifying terms and conditions of sale, including the price or han-

dling charge above the Class I price; such offer to be posted in the market administrator's office.

4. Amend § 921.14 to read as follows:

§ 921.14 *Other source milk.* "Other source milk" means all skim milk and butterfat contained in: (a) receipts during the month in the form of products designated as Class I milk pursuant to § 921.41 (a), except (1) such products approved by the appropriate health authority for distribution as Class I milk in the marketing area which are received from pool plants, or (2) producer milk; and (b) products designated as Class II milk pursuant to § 921.41 (b) (1) from any source (including those from a plant's own production) which are reprocessed or converted to another product in the plant during the month.

5. Amend § 921.15 to read as follows:

§ 921.15 *Producer-handler.* "Producer-handler" means a person who operates both a dairy farm(s) and a milk processing or bottling plant at which each of the following conditions is met during the month:

(a) Milk is received from the dairy farm(s) of such person but from no other dairy farm;

(b) Fluid milk products are disposed of on routes or through a plant store to retail or wholesale outlets in the marketing area; and

(c) The butterfat or skim milk disposed of in the form of a product designated as Class I milk pursuant to § 921.41 (a) does not exceed the butterfat or skim milk, respectively, received in the form of milk from the dairy farm(s) of such person and in the form of a product designated as Class I milk pursuant to § 921.41 (a) from pool plants of other handlers.

6. Amend § 921.41 (b) to read as follows:

(b) Class II milk shall be all skim milk and butterfat:

(1) used to produce any product other than those specified as Class I in paragraph (a) of this section;

(2) in inventory of products designated as Class I milk in § 921.41 (a) on hand at the end of the month;

(3) in shrinkage allocated to receipts of producer milk but not in excess of 2 percent of receipts of skim milk and butterfat, respectively, directly from producers (except producer milk diverted in producer cans to a nonpool plant pursuant to § 921.7) and pursuant to § 921.8 (b) from cooperative associations, plus 1.5 percent of receipts of skim milk and butterfat, respectively, transferred in bulk tanks from pool plants of other handlers, less 1.5 percent of skim milk and butterfat, respectively, disposed of in bulk tank lots to the pool plants of other handlers; and

(4) in shrinkage allocated to receipts of other source milk.

7. Amend § 921.42 (b) to read as follows:

(b) Prorate the resulting amounts between the receipts of skim milk and butterfat in the net quantity of producer milk specified in § 921.41 (b) (3) and in other source milk.

8. Amend § 921.45 to read as follows:

§ 921.45 *Computation of skim milk and butterfat in each class.* For each month, the market administrator shall correct for mathematical and other obvious errors the reports submitted by each handler and compute the total pounds of skim milk and butterfat, respectively, in Class I milk and Class II milk for such handler: *Provided*, That if any of the water contained in the milk from which a product is made is removed, the pounds of skim milk used or disposed of in such product shall be considered to be an amount equivalent to the nonfat milk solids contained in such product, plus all the water originally associated with such solids.

9. Amend § 921.44 (d) by deleting "50" and substituting therefor "100".

10. Amend § 921.46 (a) by renumbering subparagraphs "(5)", "(6)" and "(7)" as "(6)", "(7)" and "(8)", respectively, and adding a new subparagraph (5) as follows:

(5) Subtract from pounds of skim milk remaining in Class II milk the pounds of skim milk contained in inventory of products designated as Class I milk in § 921.41 (a) on hand at the beginning of the month: *Provided*, That if the pounds of milk in such inventory shall exceed the remaining pounds of skim milk in Class II, the balance shall be subtracted from the pounds of skim milk remaining in Class I.

11. Amend § 921.51 (a) to read as follows:

(a) *Class I milk.* For each of the months of July through March the Class I price shall be the Class I price announced for such month under Order No. 3, as amended, regulating the handling of milk in the St. Louis marketing area, minus 27 cents, and for the months of April, May and June the price for Class I milk shall be the basic formula price for the preceding month plus 63 cents: *Provided*, That 15 cents shall be added to the price for Class I milk at pool plants located in Benton and Washington Counties, Arkansas.

12. Amend § 921.51 (b) (3) to read as follows:

(b) *Class II milk.* * * *

(3) From the sum of the result arrived at under subparagraphs (1) and (2) of this paragraph subtract 81 cents.

13. Amend § 921.70 by deleting paragraph (c) and adding new paragraphs (c) and (d) as follows:

(c) Add an amount computed by multiplying the difference between the Class II price for the preceding month and the Class I price for the current month by the hundredweight of producer milk classified as Class II milk (other than as shrinkage) during the preceding month or the hundredweight of milk subtracted from Class I milk pursuant to § 921.46 (a) (5) and the corresponding step of § 921.46 (b), whichever is less; and

(d) Add the amounts computed by multiplying the pounds of overage deducted from each class pursuant to § 921.46 (a) (8) and (b) by the applicable class prices.

14. Amend § 921.80 (a) (2) by deleting the words "pursuant to § 921.89" and substituting therefor the words "pursuant to § 921.87".

15. Amend § 921.84 to read as follows:

§ 921.84 *Payments to the producer-settlement fund.* On or before the twelfth day after the end of each month, each handler shall pay to the market administrator the amount by which the value of the milk received by such handler, as determined pursuant to § 921.76, is greater than the amount computed by multiplying the hundredweight of such handler's milk by the uniform price adjusted by the producer butterfat and location differentials: *Provided*, That to this amount shall be added one-half of one percent of any amount due the market administrator pursuant to this section for each month or any portion thereof that such payment is overdue. Such payment shall be considered to be overdue on the 15th day after the end of the month in which the obligation occurs.

16. Amend § 921.85 by changing the last period to a colon and adding the following proviso: "*And provided further*, That the market administrator may deduct from payments due handlers pursuant to this section any unpaid balance due the market administrator from such handler pursuant to §§ 921.84, 921.86, 921.87 (a) and 921.88."

Issued at Washington, D. C., this 1st day of March 1957.

[SEAL] F. R. BURKE,
Acting Deputy Administrator.

[F. R. Doc. 57-1685; Filed, Mar. 5, 1957; 8:53 a. m.]

[7 CFR Part 943]

[Docket No. AO-231-A9]

MILK IN NORTH TEXAS MARKETING AREA

NOTICE OF HEARING ON PROPOSED AMENDMENTS TO TENTATIVE MARKETING AGREEMENT AND ORDER, AS AMENDED

Pursuant to the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.) and in accordance with the applicable rules of practice and procedure, as amended (7 CFR Part 900), notice is hereby given of a public hearing to be held in the Junior Ballroom, Dallas Hotel, 312 South Houston Street, Dallas, Texas, beginning at 10:00 a. m., c. s. t., on March 19, 1957.

Subjects and issues involved in the Hearing. This public hearing is for the purpose of receiving evidence with respect to economic and marketing conditions which relate to the handling of milk in the North Texas marketing area and to the provisions specified in the proposals set forth below or to appropriate modifications thereof. Consideration will also be given to whether there exists a threat to orderly marketing conditions

that requires emergency action with respect to the proposals concerning Class I pricing and the issuance of an emergency decision on this matter prior to the issuance of a decision on the other proposals contained herein. These proposals have not received the approval of the Secretary of Agriculture.

The amendments of the order (No. 43), as amended, were proposed as follows:

A. Proposed by the North Texas Producers Association:

1. Amend § 943.10 (c) (1) by changing the provision "75 percent" outlined therein to "50 percent".

2. Amend the proviso of § 943.13 to read as follows: "*Provided*, That if such milk is diverted by a handler for his account from a pool to a nonpool plant any day during the months of January through July and on not more than half of the days of delivery during any other month, the milk so diverted shall be deemed to have been received by the diverting handler at a pool plant at the location of the plant from which it was diverted. "Producer" shall not include any such person during periods of temporary degrading by such health authority if such health authority notifies the operator of the pool plant or the market administrator in writing of the effective date or dates of such action and subsequent reapproval."

3. Amend § 943.17 to read as follows:

§ 943.17 *Producer-handler.* "Producer-handler" means any person who:

(a) Produces milk and operates a distributing plant;

(b) Receives no milk from producers; and

(c) Receives no other source milk, or disposes of less than 100,000 pounds of Class I milk per month to persons other than handlers.

4. Amend § 943.18 to read as follows:

§ 943.18 *Base milk.* "Base milk" means producer milk received by a handler during any of the months of March through June of each year which is not in excess of each producer's daily average base computed pursuant to § 943.80 multiplied by the number of days in such month.

5. Delete § 943.41 (b) (2).

6. Amend § 943.41 (b) (5) and (6) to read as follows:

(5) In shrinkage of producer milk assigned to Class II milk pursuant to § 943.42;

(6) In shrinkage of other source milk assigned to Class II milk pursuant to § 943.42;

7. Delete § 943.42 (b) and substitute therefor the following:

(b) Multiply the pounds of skim milk and butterfat in producer milk and other source milk by 0.02;

(c) Multiply the pounds of butterfat and skim milk, respectively, determined pursuant to paragraph (a) or (b) of this section, whichever is less, by the percentage of butterfat and skim milk classified pursuant to § 943.41 (a) and (b) (1), (2), (3), (4) and (7) which is in Class II milk. The resulting amounts of skim milk and butterfat shall be classified as Class II milk; and

(d) Assign the shrinkage of skim milk and butterfat classified as Class II milk pro rata to producer milk and other source milk.

8. Delete § 943.46 (a) (3) and substitute therefor the following:

(3) Subtract from the remaining pounds of skim milk in each class, in series beginning in Class II milk, the pounds of skim milk in other source milk received during the month in a form other than fluid milk products.

9. Renumber subparagraphs (4), (5), (6), (7), (8), (9) and (10) of § 943.46 (a) as subparagraphs (5), (6), (7), (8), (9), (10) and (11), respectively.

10. Add a new subparagraph in § 943.46 (a) to read as follows:

(4) Subtract from the remaining pounds of skim milk in each class, in series beginning with Class II milk, the pounds of skim milk received during the month in the form of fluid milk products which were not subject to the Class I pricing and payment provisions of another order issued pursuant to the act;

11. Amend § 943.51 (a) (1) and (2) to read as follows:

(1) For each month calculate a utilization percentage (to the nearest whole percentage) by dividing the total pounds of milk received from all producers as defined in the orders, as amended, regulating the handling of milk in the Austin-Waco, Central West Texas, Corpus Christi, North Texas, San Antonio, Shreveport, and Texas Panhandle marketing areas during the 12 months ending with the second preceding month by the total pounds of Class I milk (adjusted to eliminate duplications due to interhandler or intermarket transfers) disposed of from plants subject to the pricing and payment provisions of such aforesaid orders during any month of such 12-month period; and

(2) For each percentage that the utilization percentage is less than 120 the Class I price shall be increased 3 cents, and for each percentage that the utilization percentage is more than 120 the Class I price shall be decreased 3 cents.

12. Amend § 943.51 (b) to read as follows:

(b) *Class II milk.* For each of the months of April, May and June the price computed pursuant to § 943.50 (b) less 18 cents or the price computed pursuant to § 943.50 (c), whichever is higher; and for each of the other months of the year, the higher of the prices computed pursuant to § 943.50 (b) or (c); rounded in each case to the nearest one-tenth cent.

13. Delete § 943.70 (c) and substitute therefor the following:

(c) Add the amount computed by multiplying the difference between the applicable Class II price for the preceding month and the applicable Class I price for the current month by the hundredweight of skim milk and butterfat subtracted from Class I milk pursuant to § 943.46 (a) (9) and the corresponding step of paragraph (b); and

14. Add a new paragraph in § 943.70 to read as follows:

(d) Add the amount computed by multiplying the difference between the applicable Class II price and the applicable Class I price by the hundredweight of skim milk and butterfat subtracted from Class I milk pursuant to § 943.46 (a) (3) and the corresponding step of paragraph (b); and

15. Add a new paragraph in § 943.70 to read as follows:

(e) Add the amount computed by multiplying the hundredweight of skim milk and butterfat subtracted from Class I milk pursuant to § 943.46 (a) (4) and the corresponding step of paragraph (b) by the difference between the applicable Class II price and the Class I price adjusted by the differentials set forth in § 943.52 (a) and § 943.53: *Provided*, That for the purposes of calculating such location differential, if such handler has received other source milk in the form of fluid milk products from two or more nonpool plants, the amount of such skim milk and butterfat so allocated to Class I milk shall be considered to have been received in the plants in sequence according to the smallest location differential applicable.

16. Amend § 943.97 (b) to read as follows:

(b) Milk from producers (including such handler's own production) which is allocated to Class I milk pursuant to § 943.46 (a) and (b).

17. Amend § 943.53 by changing the provision "(7)" contained therein to read "(8)".

18. Amend § 943.70 (b) by changing the reference "§ 943.46 (a) (10)" therein to "§ 943.46 (a) (11)".

B. Proposed by the Producers Creamery Company:

19. Delete all of § 943.51 (a) and substitute in lieu thereof the following:

(a) *Class I milk.* The basic formula price for the preceding month (rounded to the nearest one-tenth cent) plus $2.00 for the months of March through June and plus $2.20 for all other months subject to a supply-demand adjustment of not more than 46 cents computed as follows:

(1) For each month compute a forecast utilization percentage as follows:

(i) Combine into one total the receipts of producer milk in the North Texas, Central West Texas, Austin-Waco, Corpus Christi, and San Antonio marketing orders for the second and third preceding months,

(ii) Combine into one total the gross volume of Class I milk (excluding interhandler transfers, sales by producer-handlers and any intermarket transfers or transactions that would result in the same milk being accounted for as Class I a second time) in the North Texas, Central West Texas, Austin-Waco, Corpus Christi and San Antonio marketing orders for the second and third preceding months, and

(iii) Divide the total arrived at in subdivision (i) of the subparagraph by the total arrived at in subdivision (ii) of

this subparagraph and multiply the result by 100 and round to the nearest whole number. The result shall be known as the forecast utilization percentage.

(2) Compute a trend utilization percentage as follows:

(i) Combine into one total the receipts of producer milk in the North Texas, Central West Texas, Austin-Waco, Corpus Christi and San Antonio marketing orders for the 12-month period ending with the beginning of the preceding month,

(ii) Combine into one total the gross volume of Class I milk (excluding interhandler transfers, sales by producer-handlers and any intermarket transfer or transaction that would result in the same milk being accounted for as Class I a second time) in the North Texas, Central West Texas, Austin-Waco, Corpus Christi and San Antonio marketing orders for the 12-month period ending with the beginning of the preceeding month, and

(iii) Divide the total arrived at in subdivision (i) of this subparagraph by the total arrived at in subdivision (ii) of this subparagraph and multiply by 100 and round to the nearest whole number. The result shall be known as the trend utilization percentage.

(3) Any amount by which the forecast utilization percentage exceeds or is less than the standard forecast utilization percentage specified below, shall be known as plus forecast deviation or minus forecast deviation, respectively.

Delivery period for which calculation applies	Delivery periods used in computation	Percentages	
		Minimum	Maximum
January	October-November	108	110
February	November-December	109	111
March	December-January	113	115
April	January-February	115	118
May	February-March	120	122
June	March-April	124	126
July	April-May	128	130
August	May-June	126	128
September	June-July	118	120
October	July-August	112	114
November	August-September	106	109
December	September-October	105	107

(4) Any amount by which the trend utilization percentage exceeds or is less than 114 percent shall be known as plus trend deviation or minus trend deviation, respectively.

(5) The following amounts shall be added to or subtracted from the Class I price:

(i) For each percentage point of plus forecast deviation subtract 1 cent per hundredweight;

(ii) For each percentage point of minus forecast deviation add 1 cent per hundredweight;

(iii) For each percentage point of plus trend deviation subtract 3 cents per hundredweight; and

(iv) For each percentage point of minus trend deviation add 3 cents per hundredweight.

20. Delete all of § 943.91 (b) and substitute in lieu thereof the following:

(b) In making payments to producers pursuant to § 943.90 (a) or (c) the applicable uniform price pursuant to § 943.72 and the applicable base price pursuant to § 943.73 to be paid for producer milk received at a pool plant located 110 miles or more from the City Hall of Dallas, Texas, by the shortest hard-surfaced highway distance as determined by the market administrator shall be reduced 1.5 cents for each 10 miles or fraction thereof that such plant is located from the Dallas City Hall.

(c) The location adjustment applicable with respect to excess milk shall be computed as follows:

(1) Subtract from the total volume of Class I milk allocated to producer milk pursuant to § 943.46 the total volume of base milk received by all handlers;

(2) Divide the result by the total volume of excess milk received by all handlers; and

(3) Multiply by the rate of location adjustment applicable for base milk received at the same location and round to the nearest cent.

c. Proposed by the Dairy Division:

21. Consider amendment to § 943.32 to provide a separate report by each handler with respect to inventory on hand at the end of the month.

22. Amend § 943.71 (b) by deleting the phrase "not less than one-half of the cash balance on hand in the producer-settlement fund," and substitute therefor "not less than one-fourth of the cash balance on hand in the producer-settlement fund,".

Copies of this notice of hearing may be procured from the Market Administrator at P. O. Box 35225, Airlawn Station, Dallas, Texas, or from the Hearing Clerk, Room 112, Administration Building, United States Department of Agriculture, Washington 25, D. C., or may be there inspected.

Dated: March 1, 1957.

[SEAL] F. R. BURKE,
Acting Deputy Administrator.

[F. R. Doc. 57-1684; Filed, Mar. 5, 1957; 8:53 a. m.]

[7 CFR Part 1020]

[Docket No. AO-290]

APRICOTS GROWN IN DESIGNATED COUNTIES IN WASHINGTON

NOTICE OF RECOMMENDED DECISION AND OPPORTUNITY TO FILE WRITTEN EXCEPTIONS WITH RESPECT TO A PROPOSED MARKETING AGREEMENT AND ORDER

Pursuant to the rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and marketing orders (7 CFR Part 900), notice is hereby given of the filing with the Hearing Clerk of the recommended decision of the Deputy Administrator, Agricultural Marketing Service, United States Department of Agriculture, with respect to a proposed marketing agreement and order regulating the handling of apricots grown in designated counties in Washington, to be effective pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.; 68 Stat. 906, 1047), hereinafter referred to as the "act." Interested parties may file written exceptions to this recommended decision with the Hearing Clerk, United States Department of Agriculture, Room 112, Administration Building, Washington 25, D. C., not later than the close of business of the fifteenth day after publication of this recommended decision in the FEDERAL REGISTER. Exceptions should be filed in quadruplicate.

Preliminary statement. The public hearing, on the record of which the proposed marketing agreement and order (hereinafter referred to collectively as the "order") were formulated, was held at Wenatchee, Washington, on January 9–10, 1957, pursuant to a notice thereof which was published December 11, 1956, in the FEDERAL REGISTER (21 F. R. 9774). Such notice set forth a proposed marketing agreement and order which had been presented to the Department of Agriculture by the Apricot Advisory Committee, Washington State Fruit Commission, with a petition for a hearing thereon.

Material issues. The material issues presented on the record of the hearing are as follows:

(1) The existence of the right to exercise Federal jurisdiction in this instance;

(2) The need for the proposed regulatory program to effectuate the declared purposes of the act;

(3) The definition of the commodity and determination of the production area to be affected by the order;

(4) The identity of the persons and transactions to be regulated; and

(5) The specific terms and provisions of the order including:

(a) Definition of terms used therein which are necessary and incidental to attain the declared objectives of the act, and including all those set forth in the notice of hearing, among which are those applicable to the following additional terms and provisions;

(b) The establishment, maintenance, composition, powers, duties, and operation of a committee which shall be the administrative agency for assisting the Secretary in administration of the program;

(c) The incurring of expenses and the levying of assessments;

(d) Authority to establish apricot marketing research and development projects;

(e) The method for regulating shipments of apricots grown in the production area;

(f) The granting of exemptions and the establishment of special regulations for apricots handled in certain types of shipments or for certain specified purposes;

(g) The requirement for inspection and certification of apricots handled;

(h) The establishment of reporting requirements for handlers;

(i) The requirement of compliance with all provisions of the order and with regulations issued pursuant thereto; and

(j) Additional terms and conditions as set forth in §§ 1020.62 through 1020.71 and published in FEDERAL REGISTER (21 F. R. 9774) on December 11, 1956, which

are common to marketing agreements and orders, and certain other terms and conditions as set forth in §§ 1020.72 through 1020.74, and also published in the said issue of the FEDERAL REGISTER, which are common to marketing agreements only.

Findings and conclusions. The findings and conclusions on the aforementioned material issues, all of which are based on the evidence adduced at the hearing and the record thereof, are as follows:

(1) The major part of the crop of apricots produced in the designated counties of Washington comprising the "production area" is shipped in fresh market channels. The bulk of such production moves into the markets of the Midwestern and Northeastern States. Among the more important volume markets are Minneapolis, St. Paul, St. Louis, Chicago, Kansas City, New York, and Detroit. Smaller volumes, but nonetheless important, are marketed on the West Coast. Canada is the most important export market for Washington apricots.

Four States, other than Washington, produce apricots in commercially significant volume. These States are California, Utah, Colorado, and Idaho. During the 10-year period 1945–54, California alone produced approximately 90 percent of total volume, while Washington produced approximately 7.5 percent. During this same period, however, Washington accounted for 31.5 percent of total fresh apricot shipments, and in 1955 for 37.7 percent of such shipments. Ninety percent or more of the California production is commercially processed. The principal Washington variety, the Moorpark, has not proved satisfactory for commercial processing.

Shipment of fresh Washington apricots takes place in July and August. There is an overlapping of shipments from California and Washington during early July, and during most of July and early August apricots from Utah, Colorado, and Idaho compete in the markets with apricots from Washington. Throughout this period, however, Washington apricots constitute about 75 percent to 80 percent of the total supply. About one-fourth of the Washington movement occurs during the latter part of August after shipment from the other apricot producing States has been completed.

Any handling of Washington apricots in fresh market channels exerts an influence on all other handling of such apricots in fresh form. Sellers of such apricots, as of other commodities, endeavor to transact their business so as to secure the highest possible return for the quantities of apricots they have for sale. In effecting these transactions, the seller continually surveys all accessible markets in order to take advantage of the best opportunity to market the fruit. Markets within the State of Washington provide opportunities to dispose of apricots in the same manner as markets within other States, or for export; and the sale of a quantity of Washington apricots in a market within the State of Washington exerts the same influence on all other sales of such apricots as a like quantity sold in a market within another State.

The principal intrastate markets for Washington apricots are located in the cities of Seattle, Tacoma, and Spokane outside the production area. These markets take approximately 20 percent of the apricots marketed fresh each season. If shipments of apricots to markets outside the State of Washington were regulated, while those within the State of Washington were unregulated, growers and handlers would attempt to market within the State all the lower quality apricots which could not be shipped under regulation. Because of such large quantity of low quality apricots sold in markets within the State, prices for apricots in such markets would be depressed below those prevailing in markets outside the State.

The existence of a lower price level for apricots marketed within the State of Washington would tend to depress the prices for apricots sold in interstate markets. Buyers generally have ready access to market information; and knowledge of lower prices in one market is used in bargaining for apricots to be shipped into other markets, including those outside the State of Washington. As a case in point, there are business concerns who control retail outlets in Seattle, and also in Minneapolis, Minnesota, and these concerns are well aware of the price situation in both markets. Furthermore, with large quantities of poor quality apricots available for sale in markets within the State of Washington, there would be little opportunity to sell in such markets apricots meeting the requirements of the regulations established. The larger quantity of apricots, which would be required to be sold in interstate markets under such circumstances, would also tend to lower the level of prices in the interstate markets.

Itinerant truckers move substantial quantities of apricots mainly to intrastate markets. However, it is normal practice for such persons to sell apricots in the markets where prices are most favorable. It is more than probable that below-grade shipments destined for the Seattle-Tacoma area or to Spokane would be diverted to Portland, Oregon, or to other markets outside the State if prices were more favorable there than in markets within the State of Washington. In fact, it is a customary practice to ship fruit from the production area to Spokane and reship it from there to Idaho, Montana, or to Canada. Under these circumstances, it would be virtually impossible to effect compliance with regulations governing interstate shipments if shipments to markets within the State were unregulated.

Hence, it is concluded that the movement and sale of Washington apricots, whether to a market within the State of Washington or outside thereof, affect prices of all apricots grown in the production area. Therefore, it is hereby found that all handling of such apricots grown in the production area are either in the current of interstate or foreign commerce or directly burdens, obstructs, or affects such commerce. However, the quantity of apricots handled for consumption within the production area is relatively inconsequential when compared with the total quantity handled; and because of the nearness to the source of supply, it would be administratively impracticable to regulate the handling of apricots for consumption within such area. With this one exception, and except as hereinafter otherwise provided, all handling of apricots grown in the production area should be subject to the authority of the act and of the order.

(2) The production of Washington apricots, though varying considerably from year to year, ranged steadily upward during the 20-year period ending with the 1949 season. During the 5-year periods ending 1934, 1939, 1944, and 1949, average annual production was 5,600, 11,520, 18,080, and 24,900 tons, respectively. In 1950 the trees were severely damaged by cold weather and the crop was only 1,600 tons, and for the 5-year period ending 1954, average annual production was 8,740 tons. By 1955 the orchards had recovered, and 21,000 tons were produced.

Reflecting the wartime demand for food, average on-tree prices per ton for Washington apricots for fresh market in 1943, 1944, and 1945 were $157.00, $95.40, and $96.90, respectively. In 1946, 1947, and 1948, such prices were $64.30, $49.30, and $25.40. In 1949 such price was a minus $8.90 per ton. With the reduction of the crop during the 5-year period ending in 1954, prices increased and prices during such period averaged $88.20 per ton. In 1955 with a crop of 21,000 tons, on-tree returns to growers dropped to $7.00 per ton. This was less than 10 percent of the season average on-tree parity price for Washington apricots.

Some of the recent decline in demand, and consequent difficulty experienced in the marketing of Washington apricots is believed to be due to the post World War II decline in home canning, principally in the Midwest. The principal variety, the Moorpark, has proved to be acceptable for home canning, and for this purpose such apricots were shipped somewhat less mature than would be desirable for eating fresh. With the decline in the demand for apricots for home canning, it is necessary to create increased demand for apricots for fresh consumption. In order to do so it is necessary to place on the market apricots suitable for this purpose.

The importance of the apricot in the economy of the production area was stressed. The economy depends almost entirely on the production and handling of fruits. Pruning, thinning, harvesting, and packing of apricots occur at times when labor and facilities are not being utilized for other fruit crops, and thus the apricot is important to the efficient use of such factors in the total fruit industry.

Prices for apricots generally are high at the beginning of the season, and producers and handlers are anxious to start shipping in order to take advantage of such prices. Under such circumstances, apricots in early shipments often have not been sufficiently mature to give con-

sumers' satisfaction, and it is believed that consumers' dissatisfaction stemming from purchase and consumption of such apricots curtails demand for apricots throughout the remainder of the season. In 1953 the industry was instrumental in having a State maturity law enacted, under which all apricots must move under a permit, issued by the State Inspection Service, certifying that such apricots meet minimum maturity standards. However, it was alleged that this law had not stopped the shipment of immature apricots. No State requirements have been established with respect to uniformity of grade, size, quality, or containers. Handlers who have made a conscientious effort to ship only good quality apricots in an effort to get a fair return for apricots often find that other handlers have shipped apricots of poor grades and smaller sizes and have so depressed the market that fair returns were impossible to obtain. At times, handlers have shipped good quality apricots early in the season while the bulk of the crop was being harvested in the portion of the production area which they serve and have held in storage apricots of less desirable quality and shipped them later to the detriment of the later portions of the production area.

Handlers also have varied the dimensions of containers presumably in order to gain a competitive advantage over others. One of the results of this is that a container with a capacity of 12 pounds net, has displaced, for shipment to distant domestic markets, a 14-pound net container, which is more suitable for packing larger fruit of certain varieties. Under Canadian law the 14-pound container is the only container which may be used in shipping apricots to Canada. Numerous sizes of containers known as "Gypo" containers are used mainly for shipping apricots to nearby markets, including some in Oregon. The difference in dimensions of such containers may be so slight that a smaller container may be substituted for a larger one without customers being aware that it contains 2 or 3 pounds less fruit. The lack of standardized grade, size, quality, and containers has resulted in lack of stability in the marketing of Washington apricots and has tended to alienate buyers and hence to reduce demand and market prices received for Washington apricots.

Prices of Washington apricots and total returns to the growers of such fruit could be augmented by restricting shipments in fresh market channels to apricots of desirable maturity, grade, size, and quality and limiting the containers used in making such shipments. When supplies of apricots are heavy, fruit of inferior grades and qualities, or of undesirable maturity or size, may be sold only at discounts, and, since competition in the marketing of apricots is based to a considerable extent on price, such discount sales tend to depress prices for all apricots being marketed. Restrictions on the shipment of such discounted fruit would, therefore, tend to increase prices for good quality apricots. Moreover, shipments of apricots which are of inferior grade or quality, or of undesirable size or maturity, often do not sell at prices covering even the cash costs of harvesting and marketing. Restrictions on the shipment of such fruit would not only improve the grade, size, and quality of apricots marketed and promote buyer confidence in Washington apricots, but would also improve the average returns to growers by preventing losses incurred through shipment of undesirable fruit. Moreover, the shipment of very poor quality apricots, including culls, immature fruit, extremely small sizes, and deteriorated fruit is rarely ever in the interest of consumers or producers. Apricots of such poor quality are not a value to the consumer because of poor flavor and excessive waste. Shipment of such apricots results in consumer dissatisfaction and destruction of the reputation of quality for Washington apricots. Even when the season average price is above the parity level it is not in the public interest to ship such poor quality apricots.

Restrictions on the size, capacity, dimensions, and pack of containers used in the marketing of Washington apricots would enable buyers and handlers alike to know the exact quantity of apricots covered by prices quoted and thereby tend to increase trade confidence and stability in the marketing of the fruit.

Therefore, it is concluded that the establishment of the order, providing for the regulation of maturity, grade, size, and quality of shipments of Washington apricots, and for the establishment of uniform containers to be used for such shipments, is necessary to effectuate the declared purposes of the act. Also, the establishment and maintenance in effect of minimum standards of quality and maturity, when prices are above the parity level, will effectuate such orderly marketing of Washington apricots as will be in the public interest. The objective under such order is the tailoring of the supply of apricots available for sale in fresh market channels to the demand in such outlet so that the fruit thus made available to buyers will be packaged uniformly and be of desirable maturity, grade, size, and quality. Such limitations on shipments of Washington apricots should contribute to the establishment of more orderly marketing conditions for such fruit and tend to increase the demand therefor.

(3) The term "apricots" should be defined in the order to identify the commodity to be regulated thereunder. Such term, as used in the order, refers to all varieties of apricots, as hereinafter defined, classified botanically as Prunus armeniaca. Apricots are readily distinguished from other fruits, and the term has a specific meaning to all producers and handlers of the commodity in the production area and to those who purchase and distribute in the receiving markets apricots grown in the production area.

The term "varieties" should be defined in the order, as hereinafter set forth, since it is proposed to provide authority in the order for issuance of separate regulations for different varieties. The principal varieties of apricots grown in the production area are Moorpark, Tilton, Blenheim, Riland, Perfection, and Phelps. Each variety of apricots is a classification or subdivision of Prunus armeniaca and possesses definitive characteristics which serve to distinguish it. Recognition of different varieties of apricots is common throughout the production area and the distributing trade, and there is little likelihood that one variety would be confused with another.

A definition of the term "production area" should be incorporated into the order as a means of delineating the area within which apricots must be grown for the handling thereof to be subject to regulation. Such term should embrace all of the territory within the boundaries of the Counties of Okanogan, Chelan, Douglas, Grant, Yakima, Benton, and Klickitat within the State of Washington. Such area includes the Wenatchee and Yakima valleys within which practically all of the commercial crop of Washington apricots is produced. The apricots produced for market within this area are of the same varieties and are marketed at approximately the same time and compete with each other in the markets. All the apricots shipped to market from the production area are prepared for market in packing facilities located within such area. There are no apricots produced outside the production area and brought into such area for preparation for market. To exclude any portion of the production area as defined would tend to defeat the purposes of the order, in that apricots from any such excluded portion which do not meet regulations applicable to regulated fruit could then be marketed free from regulations and thereby depress the prices of the regulated apricots grown in the remainder of such area. Moreover, apricots produced in such excluded portion would probably have to be brought into the regulated area for preparation for market and this would lead to confusion and difficulty in enforcing regulations. Hence, it is concluded that the production area as hereinafter defined is the smallest regional production area that is practicable, consistently with carrying out the declared policy of the act.

(4) The term "handler" should be defined as being synonymous with "shipper" and to identify the persons who handle apricots in the manner described and set forth in the definition of "handle," because such persons are to be subject to the order and regulations authorized thereunder. A handler should include any individual, partnership, corporation, association, or any other business unit which handles apricots. Such persons are responsible, among other things, for the grade, size, quality, and maturity of the apricots they place, or cause to be placed, in the current of commerce between the production area and any point outside thereof whether by delivery to transportation agencies or to the consignees or purchasers of the fruit, or which are transported to market or sold; and such persons should therefore be considered as handlers. However, common or contract carriers of apricots they do not own should not be considered as handlers, even though they transport apricots, for the reason that these agencies transport apricots for a monetary consideration and do not have a proprietary interest in the commodity or any control over the grade, size, quality, or maturity thereof.

The definition of the term "handler" should apply to any person, including a producer, when such person performs any handling activities within the scope of the term "handle." It should include not only the first handler, but each succeeding handler who performs any such handling activities, so as to assure that all such handling of apricots will be in accordance with the order and regulations thereunder. With respect to handlers who conduct their businesses other than as individuals (e. g., firms that have sales managers or packinghouse managers), any handing activities engaged in by employees or officers of such handlers should be construed as handling caused by the principal company, as "handler." Hence, the term "handler" would cover the owner of a firm even though such person does not personally negotiate the sale or transport the apricots.

Such term should also include, in addition to the owner and officers, any other individual of a firm handling apricots who, in a supervisory capacity, is directly responsible for, and consequently causes, the sale or transportation of the commodity. Therefore, a handler would mean any person (except a common or contract carrier of apricots owned by another person) who handles apricots or causes apricots to be handled. In other words, the term "handler" should include not only persons who themselves sell or transport apricots but also those persons who, although they do not themselves sell or transport apricots, nevertheless cause their sale or transportation. All persons coming within the meaning of such term should be responsible for complying with the obligations imposed by or pursuant to the order so as to assure that all apricots will be properly handled.

The term "handle" should be defined to identify those activities which it is necessary to regulate in order to effectuate the declared policy of the act. Such activities include all phases of selling and transporting which place or continue apricots in commerce from any point in the production area to any point outside thereof. Handling of apricots under the order would begin after the apricots have been removed from the tree and include each of the successive selling or transporting activities. The performance of any one or more of these activities, such as selling, consigning, delivering, or transporting, by any person either directly or through others, should constitute handling. In order to effectuate the declared policy of the act, each such person should be required to limit such handling of apricots to fruit which conforms to the applicable regulations established under the order.

It is common practice for growers to deliver their apricots to persons having facilities for packing and otherwise preparing the fruit for market. The grower, in such instances, properly relies on the person preparing the apricots for market to see that the fruit which is thereafter shipped meets all applicable requirements for marketing. Movement within the production area from the orchard to the place within the production area where the apricots will be prepared for market and activity in connection with such preparation should not be covered as handling subject to regulation. These actions, whenever they are performed, are, of necessity, preliminary to the handling, i. e., selling, consigning, delivering, and transporting of apricots. It would unnecessarily complicate the administration of the program to require persons engaged in the preparation of apricots for market to meet the requirements of regulations prior to such preparation. Therefore, such activties should not be included within the definition of handle.

The record shows that some apricots are sold at the orchard and at packinghouses to persons—itinerant truckers and others—who transport the apricots from such points to markets outside the production area. The selling or delivery of apricots to such persons, and the subsequent movement to points outside the production area, whether within or outside the State, are handling transactions. Any person who engages in any such transaction, whether a grower, packinghouse operator, trucker, or otherwise, should therefore be considered as a handler under the order by virtue of such transaction and subject to any rules and regulations pursuant thereto. Each such person should have the responsibility for assuring himself that the apricots he so handles meet all applicable regulations in effect at the time of handling and that the apricots have been inspected and certified as required under the order. Compliance with regulations which are authorized by the order can readily be determined by the person who is grading or preparing the apricots for market. The primary responsibility for determining that apricots in any shipment conform to applicable regulations should rest with the person who places, or causes to be placed, the apricots in the current of commerce between the production area and any point outside thereof. In most cases, such person will be the one who graded, or at least was responsible for grading or preparing such apricots for market. Of course, all subsequent handlers should also have the responsibility for seeing that any maturity, grade, size, quality, and any other regulations pertaining to such apricots are met at the time such persons handle the apricots. A very small quantity of apricots is handled for consumption within the production area. Such handling directly burdens, obstructs, or affects interstate commerce, as hereinbefore noted. However, the quantity is so small, and the difficulty of enforcing regulations for apricots so marketed would be so great, that such handling of apricots should not be regulated. As all handling of apricots, except as indicated herein and except for the handling of apricots specifically exempted from regulation under the act or the order, directly burdens, obstructs, or affects interstate commerce, it is concluded that the handling of all such apricots, with the exceptions hereinbefore noted, should be subject to the order and any regulations issued pursuant thereto.

(5) (a) Certain terms applying to specific individuals, agencies, legislation, concepts, or things are used throughout the order. These terms should be defined for the purpose of designating specifically their applicability and establishing appropriate limitations on their respective meanings wherever they are used.

The definition of "Secretary" should include not only the Secretary of Agriculture of the United States, the official charged by law with the responsibility for programs of this nature, but also, in order to recognize the fact that it is physically impossible for him to perform personally all functions and duties imposed upon him by law, any other officer or employee of the United States Department of Agriculture who is, or who may hereafter be, authorized to act in his stead.

The definition of "act" provides the correct legal citations for the statute pursuant to which the proposed regulatory program is to be operative and avoids the need for referring to these citations.

The definition of "person" follows the definition of that term as set forth in the act, and will insure that it will have the same meaning as it has in the act.

The term "fiscal period" should be defined to set forth the period with respect to which financial records of the Washington Apricot Marketing Committee—the agency which will administer the program locally—are to be maintained. At the present time it is desirable to establish a 12-month period ending March 31 as a fiscal period. Such a period would fix the end of one fiscal period and the beginning of the next at a time of inactivity in the marketing of apricots. This would facilitate fixing the term of office of members and alternates to coincide with such period as it would allow sufficient time prior to the time shipments begin for the committee to organize and develop information necessary to its functioning during the ensuing year, and would still insure that a minimum of expense would be incurred during a fiscal period prior to the time assessment income is available to defray such expenses. However, it was testified that for reasons not now apparent it may be desirable at some future time to establish a fiscal period other than one ending March 31, and that authority should be included in the order to provide for such establishment subject to approval of the Secretary pursuant to recommendations of the committee. Therefore, it is concluded that such term should be defined as hereinafter set forth to provide this flexibility.

A definition of "committee" should be incorporated in the order to identify the administrative agency established under the provisions of the program. Such committee is authorized by the act and the definition thereof, as hereinafter set forth, is merely to avoid the necessity of

repeating its full name each time it is referred to.

Definitions of "grade" and "size" should be incorporated in the order to provide a basis for expressing grade and size limitations thereunder, and thus to enable persons affected thereby to ascertain the extent and application of grade and size limitations. "Grade" should be defined as any one or more of the established grades of apricots as defined and set forth in (1) "United States Standards for Apricots," issued by the United States Department of Agriculture, effective May 25, 1928, which standards were published in the FEDERAL REGISTER (21 F. R. 9935), or (2) Standards for Apricots issued by the State of Washington, or (3) amendments to any grades set forth in either of such standards, or modifications thereof, or variations based thereon. Such definition would provide the flexibility necessary to cope with the possible variations in apricots due to detrimental effects of weather or other possible hazards affecting the crop. The United States Standards and the Washington State Standards have been used by the Washington apricot industry for a number of years and therefore provide appropriate bases for describing grade limitations.

Sizes of apricots are commonly referred to in the production area by row count, i. e., the number of apricots necessary to pack row-faced across a 10½ inch inside width wooden box or lug. Hence, a 7-row apricot is one having a diameter of 1½ inches measured at right angles to a line drawn from the stem to the blossom end of the fruit. However, it was testified that due to the fact that apricots are shipped other than row-faced in containers, and it is possible to vary the arrangement of the apricots within the row-face of the container, a regulation based on a row-count size would not be as meaningful as one based on minimum diameter. Therefore, it is concluded that the term "size" should be defined in terms of diameter or such other specifications as may be recommended by the committee and approved by the Secretary.

The term "pack" is commonly used throughout the apricot trade and refers to a combination of factors relating to the grade, size, quality, and quantity of apricots in a particular type and size of container and to the arrangement of the apricots within that container. For example, "U. S. No. 1, 6-row, 14-pound faced pack" is considered by the apricot trade as a specific pack. "U. S. No. 1" describes the grade, "6-row" the size, and "14-pound faced," the container, quantity of apricots, and the arrangement of the apricots within the container. Under certain circumstances, it may be desirable to regulate shipments of apricots on the basis of particular grades or sizes, or both, that may be shipped in a specific container or containers and to specify the arrangement of the fruit within the container. Hence, it is concluded that "pack" should be defined as follows: "Pack" means the specific arrangement, size, weight, count, or grade of a quantity of apricots in a particular type and size of container.

The term "grower" should be synonymous with "producer" and should be defined to include, with the exceptions hereinafter noted, any person who is engaged, within the production area, in the production of apricots for market and who has a proprietary interest therein. A definition of the term grower is necessary for such determinations as eligibility to vote for, and to serve as, a grower or alternate grower member on the Washington Apricot Marketing Committee and for other reasons. In this connection, it was testified that in order to preserve the predominant grower character of the committee it would be necessary to require that any grower who handles apricots shall have produced not less than 51 percent of the apricots handled by him during the previous season to be eligible to vote for grower nominees or to serve as a grower member or grower alternate member of the committee. Each business unit (such as a corporation, partnership, or community property arrangement) engaged in the production of apricots for market should, when voting for nominees for membership on the committee, be entitled to only one vote. The term "grower" should, therefore, be defined in accordance with the foregoing.

"District" should be defined as set forth in the order to provide a basis for the nomination and selection of committee members. The districts (i. e., the geographical divisions of the production area as established and as set forth in the order) represent the best basis which could be devised at this time for providing a fair, adequate, and equitable representation on the committee. The provision for redistricting is desirable because it allows the committee and the Secretary to consider, from time to time, whether the basis for representation on the committee should be improved.

"Export" should be defined in the order as any shipment of apricots beyond the boundaries of the continental United States. Shipments of apricots to points outside of the continental United States may be of different grades, sizes or qualities than those shipped to domestic markets. This results from different market demands as between domestic and other markets. Different or special regulations, or even no regulations, could, therefore, be made effective when warranted, with respect to such shipments out of the United States.

The term "container" should be defined in the order to mean a box, bag, crate, lug, basket, carton, package, or any other type of receptacle used in the packaging, or handling of apricots. The definition of the term is needed to serve as a basis for differentiation among the various shipping receptacles, in which apricots are sold or moved to market, for which different regulations could be applicable.

(b) It is necessary to establish an agency to administer the order locally under and pursuant to the act, as an aid to the Secretary in carrying out the declared policy of the act. The term "Washington Apricot Marketing Committee" is a proper identification of the agency and reflects the character thereof. It should be composed of 12 members, of whom 8 should represent producers and 4 should represent handlers. Alternate members should be provided to act in the place and stead of the members. Such a committee would be large enough to provide representation to all segments of the industry. At the same time, it is of such size that it can operate effectively and efficiently. The foregoing division of the members between producers and handlers would provide suitable producer representation and handler experience and information. A majority of the committee should consist of producers because the program is designed to benefit producers. The provision for handler members tends to give balance to the committee by providing the handler experience and marketing information necessary to the development of economically sound regulation of apricot shipments. Each handler member should be either a handler, an officer, or an employee of a handler, as handlers often are corporations and would be precluded from having representation on the committee unless persons were authorized to serve as members of the committee. There are also growers in the production area which are corporations and their officers and employees should be similarly eligible for membership on the committee. Two handler members and 4 grower members should represent each of the two districts. Although volume of production of apricots in District 2 is somewhat greater than in District 1, equal representation on State industry committee is usually provided. Provision to reapportion membership on the committee among districts should be provided so that, if it becomes apparent that through shifts in production, reestablishment of districts, or other reasons such representation is inappropriate, the Secretary may, upon recommendation of the committee, make such reapportionment as he finds necessary.

Each producer or handler member of the committee, and his alternate, should be a producer or handler (or officer or employee of a corporate grower or handler), as the case may be, of apricots in the district for which selected. A person with such qualifications should be intimately acquainted with the problems of producing or marketing apricots grown in such district and may be expected to present accurately the problems incident to the production or handling of apricots grown in that district. The main interest of grower members and alternates should be growing. A grower who also is a handler of apricots should have grown not less than 51 percent of the apricots handled by him during the previous season to be eligible to serve as a grower member or a grower alternate member of the committee. Such provision is necessary to assure that the interests of the majority of the committee are primarily the growing of apricots.

The term of office of committee members and alternates under the proposed program should be for two years beginning on the first day of April and continuing until March 31. This will establish an orderly procedure for changing the membership of the committee.

The term of office should be for two years so that members and alternates will have adequate time to familiarize themselves with the operation of the program and thus be in a position to render the most effective service assisting the Secretary to carry out the declared policy of the act. The beginning of each term of office will occur during a period prior to the commencement of a marketing season and hence allow adequate time for the committee to organize and start operating.

Provision is made in the order for staggered terms of office of committee members and alternates. Under this provision one-half of the committee in office on March 31 of each year will continue in office until the next year. The establishment of such staggered terms will provide for more efficient administration of the program, in that members and alternates constituting the new half of the committee membership will benefit from the guidance of experienced members who carry over. The experienced members will help insure continuity of the policies and procedures relating to the administration of the proposed order; and continuity should contribute materially to the successful administration of the marketing program. However, the terms of office of one-half of the initial committee members and alternates should be from the time of appointment until the following March 31 and of the other half from the time of appointment until the second following March 31. Committee members and alternates should serve during the term of office for which selected, and until their successors are selected and have qualified to insure continuity of committee operations.

A procedure for the election by growers and handlers of nominees for membership on the committee should be prescribed in the order to assist the Secretary in his selection of members and alternate members of the committee. It is recognized that the Secretary is vested with authority under the act to select the committee members; and the nomination of prospective members and alternate members at meetings of growers and handlers in the respective districts is a practical method of providing the Secretary with the names of the persons which the industry desires to serve on the committee.

Nomination meetings for the purpose of electing nominees for members of the committee and their alternates should be held or caused to be held by the committee on or before March 1 of each year. Such date is approximately 4 weeks prior to the end of the fiscal period. By having such nomination meetings not later than March 1 each year, the committee will be in a position to prepare and submit nomination lists to the Secretary in time for the Secretary to select the members and alternate members of the new committee prior to the expiration of the terms of office of the existing committee members. The notice of hearing proposed that nomination meetings be held not later than March 15 of each year. However, it was testified that such nomination meetings should be held in sufficient time to assure that the names of nominees would be before the Secretary in time for him to make his selection of members and alternates prior to the beginning of the new term of office, beginning on April 1. Inasmuch as March 15 would allow approximately only 2 weeks for the committee to prepare and submit nomination lists and for the Secretary to review such nominations and make his selection, it is concluded that such nomination meetings should be held not later than March 1.

As the administrative committee will not be in a position to act until after the selection by the Secretary of its initial members, the order should provide a procedure for the selection of the initial members. The Secretary may appropriately select the initial grower and handler committee members and alternates from nominations which may be made by growers and handlers, respectively, or appropriate groups thereof, or from other eligible persons; and the order should so provide. In order that the initial membership of the committee may be selected as soon as possible after the approval of the program, it should be required that such nominations be submitted not later than the effective date thereof.

The order should provide that only growers who are present at the nomination meetings, or corporate growers who are represented at such meetings by duly authorized agents, may participate in designating nominees for grower members and alternates, and only handlers present at nomination meetings or corporate handlers represented at such meetings by duly authorized agents may participate in the nomination of handler members and alternates. It should be further provided that any grower who handles apricots may not participate in the selection of grower members and alternates if he did not produce at least 51 percent of the apricots handled by him during the previous season. These restrictions are necessary in order to insure that the interests of each group are properly safeguarded and that the nominee truly reflects the views of the group which he is selected to represent. With respect to the restriction on "grower-handlers" it was testified that such restriction was necessary in order to preserve the predominant grower character of the committee.

It was testified that each grower and handler should have a similar and equitable voice in the election of nominees. Hence, if a person is qualified to vote either as a grower or a handler, he may select the group with which he wishes to participate. Such persons may not vote both as a grower and as a handler because this would enable him to participate in nominations to a greater degree than persons who are growers only or handlers only. Also, each grower and handler should be limited to one vote on behalf of himself, his partners, agents, subsidiaries, affiliates, and representatives, in designating nominees for committee members and alternates regardless of the size of any such person's operation or the number of districts in which he produces or handles apricots. If a grower or handler could cast more than one vote by reason of operating in more than one district, such grower or handler would have an advantage in selecting nominees over growers or handlers operating in only one district. Also, if more than one vote was permitted, there is a possibility that large growers or handlers could dominate the elections by means of their partners, agents, subsidiaries, affiliates, and representatives, and nominate growers and handlers not favored by a majority of growers or of handlers. An eligible grower's or handler's privilege of casting only one vote should be construed to mean that one vote may be cast for each applicable position to be filled.

A grower who produces apricots in both districts should be permitted to select the district in which he will vote. He will thus be able to vote for nominees where he believes his best interest lies. Similarly, a handler, who handles apricots both in District 1 and District 2 of the production area, should be permitted to select either one of such districts in which to vote for nominees.

In order that there will be an administrative agency in existence at all times to administer the order, the Secretary should be authorized to select committee members and alternates without regard to nomination if, for any reason, nominations are not submitted to him in conformance with the procedure prescribed herein. Such selection should, of course, be on the basis of the representation provided in the order so that the composition of the committee will at all times continue as prescribed in the order.

Each person selected by the Secretary as a committee member or alternate should qualify by filing with the Secretary a written acceptance of his willingness and intention to serve in such capacity. This requirement is necessary so that the Secretary will know whether or not the position has been filled. Such acceptance should be filed promptly after the notification of appointment so that the composition of the committee will not be delayed unduly.

Provisions should be made as set forth in the order for the filling of any vacancies on the committee, including selection by the Secretary without regard to nominations where such nominations are not made as prescribed, in order to provide for maintaining a full membership on the committee.

The committee should be given those specific powers which are set forth in section 8c (7) (C) of the act. Such powers are necessary to enable an administrative agency of this character to function.

The committee's duties, as set forth in the order, are necessary for the discharge of its responsibilities. These duties are generally similar to those specified for administrative agencies under other programs of this character. It is intended that any activities undertaken by the members of the committee will be confined to those which reasonably are necessary for the committee to carry out its responsibilities as prescribed in the program. It should be recognized that these specified duties are not necessarily all inclusive, in that it may develop that

there are other duties which the committee may need to perform.

With respect to the provision set forth in § 1020.31 (m) providing for redistricting and reapportionment of membership on the committee, such provision is necessary to enable the committee and the Secretary to consider from time to time whether the basis for representation has changed or could be improved and how such improvement should be made. The division of the production area into the two districts set forth in the order is a logical one at the present time from the standpoint of production, and this is the division commonly made by growers, handlers, and State agencies. However, shifts or other changes which may take place in the future due to increased or decreased production cannot be foreseen. Additional land suitable for apricot production is being made available within the production area through irrigation. Decreased acreage may result from damage caused by weather hazards. Therefore it is desirable to provide flexibility of operation so that if it should be in the best interests of the administration of the order to change the boundaries of districts, change the number of districts, or reapportion the representation on the committee among districts, the committee may so recommend, and the Secretary may take such action.

At least 8 members of the committee, or alternates acting for members, should be present at any meeting in order for the committee to make any decisions; and all decisions of the committee should require a minimum of 7 concurring votes, except when two-thirds of the number of members present is greater than 7, such requirement should be two-thirds of the number of members present. These provisions will assure that all actions of the committee will be considered by at least two-thirds of its membership and approved by a majority of the committee. The order should provide that in the event neither member nor his alternate is unable to attend a meeting, such member or the committee may designate any other alternate member from the same district and group who is not acting as a member to serve in such member's place and stead.

In addition to meetings held where the committee is assembled together in one place, the committee should be authorized to hold simultaneous meetings of its members assembled at two or more designated places wherein provision has been made for communication between all such groups and loud speaker receivers made available so that each member may participate in the discussion and other actions the same as if the committee were assembled in one place. This should encourage attendance at meetings and may possibly facilitate some savings in expense through reduced travel time and distance. Such meeting should be considered as an assembled meeting. The committee should be authorized to vote by telephone, telegraph, or other means of communication when a matter to be considered is so routine that it would be unreasonable to call an assembled meeting or when rapid action is necessary because of an emergency. Any votes cast in this fashion should be confirmed promptly in writing to provide a written record of the votes so cast. In case of an assembled meeting, however, all votes should be cast in person.

It is appropriate that the members and alternates of the committee may receive compensation for the time spent in attending committee meetings. The order authorizes a maximum of $10.00 per day for this purpose, since the time so spent is usually at financial sacrifice to their personal businesses. While the payment of an amount not to exceed $10.00 per day will not in most cases fully compensate for the time such members and alternates spend away from their personal businesses, there are producers and handlers in the production area who are willing to represent the industry by serving on the committee regardless of the personal sacrifice involved. The order should also provide for reimbursement of actual out-of-pocket reasonable expenses incurred on committee business since it would be unfair to request the members and alternates to pay for such expenses incurred in the interest of all apricot growers and handlers in the production area.

In order for an alternate to adequately represent his district at any committee meeting in place of an absent member, it may be desirable that he should have attended previous meetings along with the member, so as to have a full understanding of all background discussions leading up to action that may be taken at the meeting. Also, an alternate may, in future years, be selected as a member on the committee; and to this extent, attendance at meetings by alternate members could be helpful. Although only committee members, and alternates acting as members, have authority to vote on actions taken by the committee, it is often important for the committee to obtain as wide a representation as practical of producer and handler attitudes toward a proposed regulation or other matter. Therefore, the order should provide that the committee, at its discretion, may request the attendance of alternate members at any or all meetings, notwithstanding the expected or actual presence of the respective members, when a situation so warrants. The same compensation and reimbursement that are available to members should also be made available to alternate members when they are so requested and attend such meetings as alternates.

Provision should be made in the order whereby each committee will prepare an annual report prior to the end of each fiscal period. Such reports would provide committee members, the industry, and the Secretary with a record of the annual operations of the program and would provide a means for evaluation of the program and the need for any changes therein.

(c) The committee should be authorized to incur such expenses as the Secretary finds are reasonable and likely to be incurred by it during each fiscal period for its maintenance and functioning and for such other purposes as the Secretary May, pursuant to the provisions of the order, determine to be appropriate. The funds to cover the expenses of the committee should be obtained through the levying of assessments on handlers. The act specifically authorizes the Secretary to approve the incurring of such expenses by an administrative agency, such as the Washington Apricot Marketing Committee, and requires that each marketing program of this nature contain provisions requiring handlers to pay pro rata the necessary expenses. Moreover, in order to assure the continuance of the committee, the payment of assessments should be required even if particular provisions of the order are suspended or become inoperative.

Each handler should pay to the committee upon demand with respect to all apricots handled by him as the first handler thereof his pro rata share of such expenses which the Secretary finds are reasonable and likely to be incurred by the committee during each fiscal period. Each handler's share of such expenses should be equal to the ratio between the total quantity of apricots handled by him as the first handler thereof during the applicable fiscal period and the total quantity of apricots so handled by all handlers during the same fiscal period. In this way, payments by handlers of assessments would be proportionate to the respective quantities of apricots handled by each handler and assessments would be levied on the same apricots only once.

In order to provide funds for the administration of this program prior to the time assessment income becomes available during the fiscal period, the committee should be authorized to accept advance payments of assessments from handlers and also, when such action is deemed to be desirable, to borrow money for such purpose. The provision for the acceptance by the administrative agency of advance assessment payments is included in other marketing agreements and orders, and has been found to be a satisfactory and desirable method of providing funds to cover costs of operation prior to the time when assessment collections are being made in an appreciable amount. There was no objection offered at the hearing to indicate that any person was opposed to the proposal for the committee to borrow a limited sum of money each fiscal period. During years of normal growing conditions, revenue available to the committee from assessments would provide the means for the repayment of any such loan. In addition, as hereinafter set forth, provision should be made for increasing the rate of assessment in the event it should develop that due to some unforeseen circumstances the assessment income under the then prevailing rate is not sufficient to cover the expenses incurred.

The committee should be required to prepare a budget at the beginning of each fiscal period, and as often as may be necessary thereafter, showing estimates of income and expenditures necessary for the administration of the proposed order for such period. Each such budget should be presented to the Secretary with an analysis of its components and explanation thereof in the form of a report on such budget. It is desirable that the committee should recommend a rate of assessment to the Secretary which should be designed to bring in during each fiscal period sufficient income to cover authorized expenses incured by the committee.

The rate of assessment should be established by the Secretary on the basis of the committee's recommendation, or other available information, so as to assure the imposition of such assessments as are consistent with the act. Such rate should be fixed on a fair and equitable unit basis, such as a container, ton, or other quantity measurement.

The Secretary should have the authority, at any time during a fiscal period, or thereafter, to increase the rate of assessment when necessary to obtain sufficent funds to cover any later finding by the Secretary relative to the expenses of the committee applicable to such period. Since the act requires that administrative expenses shall be paid by all handlers pro rata, it is necessary that any increased rate apply retroactively against all apricots handled during the particular fiscal period.

Handlers should be entitled to a proportionate refund of any excess assessments which remain at the end of a fiscal period. Such refund should be credited to each such handler against the operations of the following fiscal period so as to provide the committee with operating funds prior to the start of the ensuing shipping season; but, if a handler should demand payment of any such credit, the proportionate refund should be paid to him.

However, good business practice requires that any such refund may be applied by the committee first to any outstanding obligations due the committee from any person who has paid in excess of his pro rata share of expenses.

The notice of hearing set forth a proposal to authorize the Secretary, upon recommendation of the committee, to establish a reserve fund from excess assessments remaining at the end of a fiscal period. Such fund would be carried over into following periods and used upon termination of the order to liquidate the affairs of the committee. However, it was testified at the hearing that in view of the weather hazards to which production of apricots is subject, as well as the fact that a large proportion of the committee's expenses in any fiscal period will be incurred prior to the time assessment income is available to cover such expense, that the authority for establishment and use of such a reserve fund should be broadened to cover expenses during deficit collection periods such as the pre-season shipping period and during periods of crop failure or near crop failure.

In most years shipment of apricots begins about the middle of July and is completed by the end of August. The fiscal period starts on April 1, and, therefore, the committee must operate during April, May, June, and the first half of July with no current assessment income. The period just prior to the shipping season will be the period of greatest activity as the committee will be surveying the crop and marketing situation, holding meetings to develop a marketing policy and to develop recommendations for regulations. This means that in all probability at least one-half the committee's expenses will ordinarily be incurred before any current fiscal period income is collected.

An operating reserve is an important instrument for the continued effective operation of the order over a period of years. The production area is very susceptible to hail storms just prior to and during the harvesting period, and to frost damage at the time of bloom and fruit set. Severe freezes during the winter often damage trees and reduce the crop in succeeding years. The assessment rates under the program are set at the beginning of the season for a crop of an estimated volume of shipments. Should crop failure or partial crop failure reduce the crop so that assessment income falls below expenses, it would be necessary for handlers in light of the reduced crop to cover the deficit. When consignee handlers have already made returns to growers, it would be very difficult for them to obtain from such growers the additional funds required to meet the increase in assessment that would be necessary. It would also constitute an extra burden on the industry to increase the assessment rate after disasters such as these have occurred.

Because of the hazards incident to the production of apricots, and the difficulties thus expected to be encountered in financing operations of the program during some years, it would be desirable to establish an operating reserve for use during any such year. Evidence presented at the hearing was to the effect that nearly all of the production of apricots is marketed year after year by the same handlers and that it would be equitable to all handlers, and far less burdensome to them, to contribute to the establishment of such an operating reserve during years of normal production rather than to be required to pay a high rate of assessment occasioned by a deficit during a year when the crop is materially reduced. It was testified that the proposed reserve fund should be built up to the desirable amount as rapidly as possible, since a material reduction of the crop could occur at any time. Discretion should be used, however, so as not to impose excessively high assessments. It was indicated that it would be appropriate, and in keeping with the desires of the industry, to include in the annual budget a specific amount for the reserve fund as well as to use any other excess assessment funds available at the end of a fiscal period for this purpose. In order that such reserve funds not be accumulated beyond a reasonable amount, it was proposed that a limit of approximately one fiscal period's expense be provided. It was shown that such an amount should be sufficient to cover any foreseeable need since some income from assessment may be expected during any year. After the reserve has been built up to that amount, excess assessment income should thereafter be returned to the handlers entitled to refunds in accordance with the provisions of the order. However, in keeping with the need for the reserve fund, whenever any portion of it is used, the full amount withdrawn should be returned to the reserve as soon as assessment income is available for this purpose.

The reserve fund should be used, with the approval of the Secretary, to cover costs of liquidation of the program in the event the order is terminated, as well as to cover necessary operational costs, such as for salaries and other necessary expenses, during any period when the order, or any of its provisions, should be suspended. It is possible, of course, that the program may be terminated at the end of a fiscal period, or during a year when the production of apricots is relatively light. In such circumstances, it would be burdensome to handlers to require payment of an assessment to cover the liquidation costs. All handlers receive benefits from the program's operation; and, even if a handler ceases handling apricots before the full time of its operation has expired, it would be appropriate and equitable for such handler to share in the expense of liquidation. Should the order provisions be suspended, it is likely such suspension would occur during a period when apricot production has been seriously curtailed. It would seem reasonable and proper, therefore, to use the reserve funds to defray any expense of liquidation or any necessary cost of operation during a period of suspension. It is anticipated, of course, that the committee will endeavor to minimize costs in this regard as far as reasonably practicable consistent with the efficient performance of its responsibilities.

Upon termination of the order, any funds in the reserve which are not used to defray the necessary expenses of liquidation should, to the extent practicable, be returned to the handlers from whom such funds were collected. It is apparent, from the evidence of record, that it may not be possible to make an exact distribution of any such funds. Should the order be terminated after many years of operation, and there have been several withdrawals and redeposits in the reserve, the precise equities of handlers may be difficult to ascertain and any requirement that there be a precise accounting of the remaining funds could involve such costs as to nearly equal the monies to be distributed. Therefore, it would be desirable and necessary to permit the unexpended reserve funds to be disposed of in any manner that the Secretary may determine to be appropriate in such circumstances. In view of the foregoing, it is, therefore, concluded that authority should be provided, as hereinafter set forth, to permit the establishment and use of a reserve fund in the manner heretofore described.

Funds received by the committee pursuant to the levying of assesments should be used solely for the purposes of the order. The committee should be required, as a matter of good business practice, to maintain books and records clearly reflecting the true, up-to-date operation of its affairs so that its administration could be subject to inspection at any time by the Secretary. The committee should provide the Secretary

with periodic reports at appropriate times, such as at the end of each marketing season or at such other times as may be necessary, to enable him to maintain appropriate supervision and control over the committee's activities and operations. Each member and each alternate, as well as employees, agents, or other persons working for or on behalf of the committee, should be required to account for all receipts and disbursements, funds, property, and records for which they are responsible, should the Secretary at any time ask for such an accounting. Also, whenever any person ceases to be a member or alternate of the committee, he should similarly be required to account for all funds, property, and other committee assets for which he is responsible and to deliver such funds, property, and other assets to such successor as the Secretary may designate. Such person should also be required to execute assignments and such other instruments which may be appropriate to vest in the successor the right to all such funds and property and all claims vested in such person. This is a matter of good business practice.

(d) The order should provide, as hereinafter set forth, authority for the establishment of marketing research and development projects designed to assist, improve, or promote the marketing, distribution, and consumption of apricots.

Through the medium of research investigation, the committee should be able to assemble and evaluate data on growing, harvesting, shipping, marketing, and other factors with respect to apricots which would be of value in determining what regulations should be established, in accordance with the act and the order, for the benefit of the apricot industry in the production area. As the committee becomes more aware of the value and need for marketing research and development, other projects will undoubtedly be initiated, the need for which may not have been foreseen during the course of the hearing.

The committee should be empowered to engage in such projects (except advertising and sales and trade promotion projects which are not permitted by the act), to spend assessments funds for them, and to consult and cooperate with appropriate agencies with regard to their establishment. The committee may be limited by the lack of facilities and trained technicians in carrying out any such projects; and it should be authorized to enter into contracts for their development with qualified agencies such as State universities, and public and private agencies. Prior to engaging in any such activities, the committee should, of course, submit to the Secretary for his approval the plans for each project. Such plans should set forth the details, including the cost and the objectives to be accomplished, so as to insure, among other things, that the projects are within the purview of the act. The cost of any such project should be included in the budget for approval, and such cost should be defrayed by the use of assessment funds as authorized by the act.

(e) The declared policy of the act is to establish and maintain such orderly marketing conditions for apricots, among other commodities, and will tend to establish parity prices therefor, and to establish and maintain such minimum standards of quality and maturity and such grading and inspection requirement as will be in the public interest. The regulation of apricot shipments by maturity, grade, size, or quality, or any combination thereof, as authorized in the order, provides a means of carrying out such policy.

In order to facilitate the operation of the program, the committee should each year, and prior to recommending regulation of apricot shipments, prepare and adopt a marketing policy for the ensuing marketing season. A report on such policy should be submitted to the Secretary and made available to growers and handlers of apricots. The policy so established would serve to inform the Secretary and persons in the industry, in advance of the marketing of the crop, of the committee's plans for regulation and the basis therefor. Handlers and growers could then plan their operations in accordance therewith. The policy also would be useful to the committee and the Secretary when specific regulatory actions are being considered, since it would provide basic information necessary to the evaluation of such regulation.

In preparing its marketing policy, the committee should give consideration to the supply and demand factors, hereinafter set forth in the order, affecting marketing conditions for apricots since consideration of such factors is essential to the development of an economically sound and practical marketing policy.

The committee should be permitted to revise its marketing policy so as to give appropriate recognition to the latest known conditions when changes in such conditions since the beginning of the season are sufficiently marked to warrant modification of such policy. Such action is necessary if the marketing policy is to appropriately reflect the probable regulatory proposals of the committee and be of maximum benefit to all persons concerned. A report of each revised marketing policy should be submitted to the Secretary and made available to growers and handlers, together with the data considered by the committee in making the revision.

The committee should, as the local administrative agency under the order, be authorized to recommend such maturity, grade, size, and quality regulations, as well as any other regulations and amendments thereto authorized by the order, as will tend to effectuate the declared policy of the act. It is the key to successful operation of the order that the committee should have such responsibility. The Secretary should look to the committee, as the agency reflecting the thinking of the industry, for its views and recommendations for promoting more orderly marketing conditions and increased growers' returns for apricots. The committee should, therefore, have authority to recommend such regulations as are authorized by the order whenever such regulations will, in the judgment of the committee, tend to promote more orderly marketing conditions and effectuate the declared policy of the act.

When conditions change so that the then current regulations do not appear to the committee to be carrying out the declared policy of the act, the committee should have the authority to recommend the amendment, modification, suspension, or termination of such regulations, as the situation warrants.

The order should authorize the Secretary, on the basis of committee recommendations or other available information, to issue various grade, size, quality, and other appropriate regulations which tend to improve growers' returns and to establish more orderly marketing conditions for apricots. The Secretary should not be precluded from using such information as he may have, and which may or may not be available to the committee for consideration, in issuing such regulations, or amendments or modifications thereof, as may be necessary to effectuate the declared policy of the act. Also, when he determines that any regulation does not tend to effectuate such policy, he should have authority to suspend or terminate the regulation, in accordance with the requirements of the act.

The maturity, grade, size, and quality of apricots which are shipped at any particular time have a direct effect on returns to growers. It is a fact that poorer grades, and less desirable sizes, of apricots marketed return lower prices than do better grades and sizes. A restriction, under the order, of the shipment of apricots of low grade should result in higher returns for the better grades marketed by eliminating the price depressing effect of poor quality apricots.

Evidence presented at the hearing shows that handlers often have shipped in fresh fruit channels immature apricots and apricots of poor grade and quality and of undesirable size. Such apricots may be sold only at discounts, and the returns from such sales often do not cover the cash costs of harvesting and marketing. In addition, such sales have tended to depress the prices for the entire crop, for the particular year, below the level which otherwise would have existed if only apricots of suitable maturity, grade, size, and quality, considering the supply and demand conditions for such fruit, had been available in the markets.

The demand for particular grades, sizes, and qualities of apricots varies depending upon the volume of supplies available, the grade, size, and quality composition of such supplies, the availability of competing commodities, and other factors such as the trend and level of consumer income. The supply conditions for apricots are subject to substantial changes during a particular season as the result of weather conditions affecting the volume and quality of the crop.

The grade, size, and quality composition of the apricot crop, and the volume of the available supply for the season as a whole and for any particular period during the season, are important factors which must be considered in establishing regulations. There is generally a sufficient volume of apricots harvested in the production area so that the shipment of only the better grades, sizes, and qualities of apricots to fresh market could fill market demands. Proper maturity is an important factor determining consumer acceptance. Prices for apricots in the production area generally start each season at a high level. This is usually followed by a rapid decline. It was testified that haste to take advantage of high prices early in the season had frequently caused the shipment of immature, excessively small, and poor quality apricots which had resulted in dissatisfaction of consumers; and that such consumer dissatisfaction has been reflected in reduced demand and lowered returns to growers. Therefore, the order should provide for the establishment by the Secretary of regulations by maturity, grade, size, quality, or combinations thereof, based upon limitations recommended by the committee or other available information; and such regulations should cover such period or periods as it is determined is warranted by the anticipated supply and demand conditions. In making its recommendations for such regulations, the committee should consider the heretofore enumerated supply and demand factors. The committee, because of the knowledge and experience of its members, will be well qualified to evaluate such factors and to develop economically sound and practical recommendations for regulations and to advise the Secretary with respect to the supply and demand conditions under which the apricot crop will be marketed.

Several different varieties of apricots are grown in the production area. Principal varieties are the Moorpark, Tilton, Blenheim, Riland, Perfection, and Phelps. Each variety of apricots has certain characteristics which serve to distinguish it from other varieties. The differences in characteristics, such as shape, size, color, and maturing characteristics, may make it undesirable to apply the same regulations to all varieties in that under certain circumstances a given regulation may eliminate an excessive proportion of certain varieties from the market. Also, it was testified that differences in demand exist for certain varieties which may make it desirable to recognize such differences in the establishment of regulations. The order should, therefore, provide authority for the issuance of different regulations for different varieties.

The evidence in the record shows that the most practical basis for issuing regulations covering any portion of the production area, other than the entire production area, would be on a district basis. District 1, the Wenatchee area, and District 2, the Yakima area, are separated by a range of mountains, and the centers—i. e., the cities of Wenatchee and Yakima—of the two areas are about 125 miles apart. Apricots produced in each of the districts are prepared for market in the district where produced. Weather conditions vary between the two areas, and detrimental weather may adversely affect the apricot crop in one district while the crop in the other district may not be so affected. Because of these circumstances, and in order to provide equity among growers and handlers, authority should be provided in the order to permit establishment of different regulations in different districts of the production area. It was stated in the notice of hearing and proposed at the hearing that authority should be included to regulate differently for any or all portions of the production area. It was pointed out, however, that such regulations, if established, would be most difficult to enforce, and the primary example given of the need for such regulation was to provide relief for hail damage. Since only those persons who have fruit affected by such damage would have any of such fruit, a regulation could be issued providing increased hail damage tolerance for an entire district even though only portions of such district were affected. Hence, it is concluded that authority to regulate by districts would permit the establishment of such different regulations as are likely to be necessary with respect to apricots produced in different portions of the production area, and such regulations would be more practical from an enforcement standpoint.

It is important that the order provide authority for the committee to recommend and the Secretary to fix the size, weight, capacity, dimensions, or pack of the containers which may be used in the packaging or handling of apricots. Some of the containers used in the shipment of apricots are 12- and 14-pound wooden boxes or lugs, with inside dimensions 10½ x 3⅜ x 15 inches and 10½ x 4⅛ x 15 inches, respectively; a four-basket crate with inside dimensions of 16 x 4¾ x 16 inches holding 22 to 24 pounds of fruit net; and a 28-pound lug with inside dimensions 11½ x 7 x 17⅞ inches. The trend in container development has been to smaller and smaller containers. The 12-pound container developed as a variation of the 14-pound container, and a host of containers has developed as variations of the 28-pound lug. Such containers, commonly known in the apricot trade as "Gypo" containers, presumably developed in an attempt to gain a competitive advantage, cause considerable confusion in the buying and selling of apricots. The multiplicity of such containers, and the fact that in many instances they vary so slightly from each other in size and capacity that customers do not realize that the apparent price advantage for a seemingly identical container merely reflects the smaller quantity of fruit, result in disorderly marketing conditions. Standardization of containers to those most suitable for the packing and handling of apricots, and prescribing the use of containers of sizes and capacities which can readily be distinguished from each other, would tend to establish more orderly marketing conditions and increase growers' returns.

The exercise of the authority to regulate containers, however, should not be used to close the door on experimenting with new containers or to prevent the commercial use of any new or superior containers which may be developed.

The order also should contain authority to regulate the packs of containers. This would assist the apricot industry in the production area in its merchandising efforts to provide the most acceptable packs to enhance trade reputation. Neither the United States grades nor the Washington State grades make any requirement with respect to uniformity of size within containers unless the numerical count is used to describe the apricots in a container. Apricots are generally not sold by numerical count. Most of the apricots for distant shipment are packed row-faced in 12-pound lugs. The number of rows imply the size of apricots, but in the absence of any minimum size or pack requirement there is no guarantee of uniformity of size or pack. Loose packs are generally unlidded containers of apricots of random sizes, which in the absence of requirements as to uniformity of contents, are difficult to describe, cause confusion, and contribute to disorderly marketing conditions. It may be necessary to limit the shipment of apricots to export markets to grades, sizes, packs, or containers which are different from those permitted to be shipped to the domestic market. For example, Canada specifies the containers in which apricots must be packed to be admitted into that country. Moreover, it was testified that the export market has sometimes accepted apricots of sizes which, at the time, it was not profitable to ship to domestic markets.

Under certain circumstances it may be desirable to regulate shipments of apricots differently for containers of different capacities on the basis of the particular grades and sizes which may be packed in such containers. Authority for such flexibility in regulations, included in the order, would tend to effectuate the declared policy of the act.

It is not in the public interest to cease regulation when the season average price of apricots exceeds parity. The committee should be authorized to recommend, and the Secretary to establish, such minimum standards of quality and maturity, in terms of grades or sizes, or both, and such grading and inspection requirements, during any and all periods when the season average price for apricots may be above parity, as well effectuate such orderly marketing of apricots as will be in the public interest. Some apricots do not give consumer satisfaction regardless of the price level. Immature apricots, deteriorated apricots, and apricots of very small sizes are examples of the type of fruit that is wasteful and does not represent a value to the consumer and should not be shipped.

The shipment of insufficiently mature apricots or fruit lacking in the quality necessary to assure delivery in satisfactory condition would cause an adverse buyer reaction and would tend to demoralize the market for later shipments of such fruit. Such undesirable fruit has been marketed in the past and undoubtedly would again be marketed in the absence of regulation when the season average price is above parity. Hence, the discontinuance of regulations during season when the average price exceeds parity could adversely affect consumers and also result in dissipation of all benefits from the prior operation of the program.

Adverse growing conditions and weather factors may cause some fruit to develop abnormally, or so affect the quality that it would not be in the public interest to permit its shipment. The possible development depends on the conditions in the particular season. It is necessary, therefore, that the provisions of the order contain the flexibility needed to reflect such conditions. Hence, the specific minimum standards of quality and maturity that may be made applicable during a particular year should be established by the Secretary upon the basis of the recommendations of the committee, made after review of the existing conditions that year, or other available information.

(f) The order should provide for the exemption from its provisions of such handling of apricots which it is not necessary to regulate in order to effectuate the declared purposes of the act. Insofar as practicable, such exempted handling should be stated explicitly in the order so that handlers will have knowledge of such handling as is not subject to the provisions of the program.

Apricots which are handled for consumption by charitable institutions, for distribution by relief agencies, or for commercial processing into products have little influence on the level of prices for apricots sold in the domestic and export markets. Hence, apricots handled for such purposes should be exempted from compliance with the regulations issued under the order.

In addition, provision should be made to authorize the committee, with the approval of the Secretary, to exempt the handling of apricots, in such specified small quantities, or types of shipments, or shipments made for such specified purposes as it is not necessary to regulate in order to effectuate the declared purposes of the act. Such authorization is necessary to enable the exemption of such handling as may be determined necessary to facilitate the conduct of research, and handling which is found not feasible administratively to regulate and which does not materially affect marketing conditions in commercial channels. It would be impractical to set forth these exemptions in detail in the order, because to do so would destroy the flexibility which is necessary to reflect conditions affecting the handling of apricots in the production area. Therefore, it should be discretionary with the committee, subject to the approval of the Secretary, whether small quantities or types of shipments, or shipments made for specified purposes, should be exempted from regulation, inspection, and assessments and the period during which such exemptions should be in effect.

The allowance of such exemptions may be found to result in avenues of escape from regulation which, if they are found to exist, should be closed. Hence, the committee should be authorized to prescribe, with the approval of the Secretary, such rules, regulations, and safeguards as are necessary to prevent apricots handled for any of the exempted purposes from entering into regulated channels of trade and thereby tend to defeat the objective of the program. For example, should it be found that a portion of the apricots moving to commercial processors was being diverted to fresh fruit markets, it may be necessary for the committee to establish procedures to govern the movement of fruit for processing even though such apricots do not have to comply with grade, size, quality, and other requirements. These procedures might include such requirements as filing applications for authorization to move apricots in exempted channels and certification by the receiver that such apricots would be used only for the purpose indicated, if it is found that such requirements are necessary to the effective enforcement of the program regulations.

(g) Provision should be made in the order requiring all apricots handled, during any period when handling limitations are effective, to be inspected by the Federal-State Inspection Service and certified as meeting the requirements of the applicable regulation. Inspection and certification of all apricots handled during periods of regulation are essential to the effective supervision of the regulations. Evidence of compliance with regulations issued under the program can be ascertained only through inspection and certification of all apricots handled during the effective period of such regulations. As the handler of apricots is the person responsible for compliance with such regulations, it is reasonable and necessary to require handlers to submit each lot of apricots handled for inspection and certification and to file a copy of the certificate of inspection with the committee. It was testified that handlers are familiar with the Federal-State Inspection Service and the certification of apricots in the production area, and the use of such inspection agency under this program is desired by the industry.

Responsibility for obtaining inspection and certification should fall on each person who handles apricots. In this way, not only will the handler who first ships or handles apricots be required to obtain inspection and certification thereof, but also no subsequent handler may handle apricots unless a properly issued inspection certificate, valid pursuant to the terms of the order and applicable regulations thereunder, applies to the shipment. Each handler must bear responsibility for determining that each of his shipments is so inspected and certified.

In instances where any lot of apricots previously inspected is regarded, resorted, repackaged, or in any other way subjected to further preparation for market, such apricots should be required to be inspected following such preparation, and certified as meeting the requirements of the applicable regulations before such apricots are handled, since the identity of the lot is lost in such preparation and the validity of the prior inspection certificate and the information shown thereon destroyed.

(h) The committee should have the authority, with the approval of the Secretary, to require that handlers submit to the committee such reports and information as may be needed to perform such agency's functions under the order. Handlers have such necessary information in their possession, and the requirement that they furnish such information to the committee in the form of reports would not constitute an undue burden. Moreover, since handlers are the only persons subject to regulation under the program, they are the only persons who could be required to furnish such information. It was testified at the hearing that is was anticipated that most of the information needed by the committee to carry out its functions could be obtained from the required inspection certificates.

However, it was pointed out that it is difficult to anticipate every type or report or kind of information which the committee may find necessary in the conduct of its operations under the order. Therefore, the committee should have the authority to request with approval of the Secretary, reports and information as needed, of the type set forth in the order, and at such times and in such manner as may be necessary.

The Secretary should retain the right to approve, change, or rescind any requests by the committee for information in order to protect handlers from unreasonable requests for reports. Any reports and records submitted for committee use by handlers should remain under protective classification and be disclosed to none other than the Secretary and persons authorized by the Secretary. Under certain circumstances, the release of information with respect to apricot shipments may be helpful to the committee and the industry generally in planning for operations under the order during the marketing season. However, none of such reported information may be released other than on a composite basis, and no such release of information should disclose either the identity of handlers or their operations. This is necessary to prevent the disclosure of information which may affect detrimentally the trade or financial position, or the business operations of individual handlers.

Since it is possible that a question could arise with respect to compliance, handlers should be required to maintain for each fiscal period complete records on their receipts, handling, and dispositions of apricots. Such records should be retained for not less than two succeeding years.

(i) Except as provided in the order, no handler should be permitted to handle apricots, the handling of which is prohibited pursuant to the order; and no handler should be permitted to handle apricots except in conformity with the order. If the program is to operate effectively, compliance therewith is essential; and, hence, no handler should be permitted to evade any of its provisions. Any such evasion on the part of even one handler could be demoralizing to the handlers who are in compliance and would tend, thereby, to impair the effective operation of the program.

(j) The provisions of §§ 1020.62 through 1020.71, as hereinafter set forth, are similar to those which are included in other marketing agreements and orders now operating. The provisions of §§ 1020.72 through 1020.74, as hereinafter set forth, are also included in other marketing agreements now operating. All such provisions are incidental to and not inconsistent with the act and are necessary to effectuate the other provisions of the recommended marketing agreement and order and to effectuate the declared policy of the act. Testimony at the hearing supports the inclusion of each such provision.

Those provisions which are applicable to both the proposed marketing agreement and the proposed order, identified by section number and heading, are as follows: § 1020.62 *Right of the secretary;* § 1020.63 *Effective time;* § 1020.64 *Termination;* § 1020.65 *Proceedings after termination;* § 1020.66 *Effect of termination or amendment;* § 1020.67 *Duration of immunities;* § 1020.68 *Agents;* § 1020.69 *Derogation;* § 1020.70 *Personal liability;* and § 1020.71 *Separability.*

Those provisions which are applicable to the proposed marketing agreement only, identified by section number and heading, are as follows: § 1020.72 *Counterparts;* § 1020.73 *Additional parties;* and § 1020.74 *Order with marketing agreement.*

Rulings on proposed findings and conclusions. January 17, 1957, was set by the Presiding Officer at the hearing as the latest date by which briefs would have to be filed by interested parties with respect to facts presented in evidence at the hearing and the conclusions which should be drawn therefrom. No such brief was filed.

General findings. Upon the basis of the evidence introduced at such hearing, and the record thereof, it is found that:

(1) The marketing agreement and order, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(2) The said marketing agreement and order regulate the handling of apricots grown in the production area in same manner as, and are applicable only to persons in the respective classes of commercial and industrial activity specified in a proposed marketing agreement and order upon which a hearing has been held;

(3) The said marketing agreement and order are limited in their application to the smallest regional production area which is practicable, consistently with carrying out the declared policy of the act, and the issuance of several orders applicable to subdivisions of the production area would not effectively carry out the declared policy of the act;

(4) The said marketing agreement and order prescribe, so far as practicable, such different terms applicable to different parts of the production area as are necessary to give due recognition to the difference in the production and marketing of apricots grown in the production area; and

(5) All handling of apricots grown in the production area as defined in said marketing agreement and order is in the current of interstate or foreign commerce or directly burdens, obstructs, or affects such commerce.

Recommended marketing agreement and order. The following marketing agreement and order[1] are recommended as the detailed means by which the foregoing conclusions may be carried out:

DEFINITIONS

§ 1020.1 *Secretary.* "Secretary" means the Secretary of Agriculture of the United States, or any officer or employee of the Department to whom authority has heretofore been delegated, or to whom authority may hereafter be delegated, to act in his stead.

§ 1020.2 *Act.* "Act" means Public Act No. 10, 73d Congress (May 12, 1933), as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.; 68 Stat. 906, 1047).

§ 1020.3 *Person.* "Person" means an individual, partnership, corporation, association, or any other business unit.

§ 1020.4 *Production area.* "Production area" means all of the territory included within the Counties of Okanogan, Chelan, Douglas, Grant, Yakima, Benton, and Klickitat within the State of Washington.

§ 1020.5 *Apricots.* "Apricots" means all varities of apricots, grown in the production area, classified botanically as Prunus armeniaca.

§ 1020.6 *Varieties.* "Varieties" means and includes all classifications or subdivisions of Prunus armeniaca.

§ 1020.7 *Fiscal period.* "Fiscal period" is synonymous with fiscal year and means the 12-month period ending on March 31 of each year or such other period that may be approved by the Secretary pursuant to recommendations by the committee.

§ 1020.8 *Committee.* "Committee" means the Washington Apricot Marketing Committee established pursuant to § 1020.20.

§ 1020.9 *Grade.* "Grade" means any one of the officially established grades of apricots as defined and set forth in:

(a) United States Standards for Apricots (21 F. R. 9935) or amendments thereto, or modifications thereof, or variations based thereon;

(b) Standards for apricots issued by the State of Washington or amendments thereto, or modifications thereof, or variations based thereon.

§ 1020.10 *Size.* "Size" means the greatest diameter, measured through the center of the apricot, at right angles to a line running from the stem to the blossom end, or such other specification as may be established by the committee with the approval of the Secretary.

§ 1020.11 *Grower.* "Grower" is synonymous with producer and means any person who produces apricots for market and who has a proprietary interest therein: *Provided*, That a grower who is also a handler must have produced not less than 51 percent of the apricots handled by him during the previous season in order to qualify as a grower under §§ 1020.20, 1020.22, and 1020.23.

§ 1020.12 *Handler.* "Handler" is synonymous with shipper and means any person (except a common or contract carrier transporting apricots owned by another person) who handles apricots.

§ 1020.13 *Handle.* "Handle" and "ship" are synonymous and mean to sell, consign, deliver, or transport apricots or cause the sale, consignment, delivery, or transportation of apricots or in any other way to place apricots, or cause apricots to be placed, in the current of commerce from any point within the production area to any point outside thereof: *Provided*, That the term "handle" shall not include the transportation within the production area of apricots from the orchard where grown to a packing facility located within such area for preparation for market, or the delivery of such apricots to such packing facility for such preparation.

§ 1020.14 *District.* "District" means the applicable one of the following described subdivisions of the production area, or such other subdivisions as may be prescribed pursuant to § 1020.31 (m):

(a) "District 1" shall include the Counties of Chelan, Okanogan, Douglas, and Grant.

(b) "District 2" shall include the Counties of Yakima, Benton, and Klickitat.

§ 1020.15 *Export.* "Export" means to ship apricots beyond the continental boundaries of the United States.

§ 1020.16 *Pack.* "Pack" means the specific arrangement, size, weight, count, or grade of a quantity of apricots in a particular type and size of container, or any combination thereof.

§ 1020.17 *Container.* "Container" means a box, bag, crate, lug, basket, carton, package, or any other type of receptacle used in the packaging or handling of apricots.

ADMINISTRATIVE BODY

§ 1020.20 *Establishment and membership.* There is hereby established a Washington Apricot Marketing Committee consisting of twelve members, each of whom shall have an alternate who shall have the same qualifications as the member for whom he is an alternate. Eight of the members and their respective alternates shall be growers or officers or employees of corporate growers. Four of the members and their respective alternates shall be handlers, or officers or employees of corporate handlers. The eight members of the committee who are growers or employees or officers of corporate growers are hereinafter referred to as "grower members" of the committee; and the four members of the committee who shall be handlers, or officers or employees of corporate handlers, are hereinafter referred to as "handler members" of the committee. Four of the grower members and their respective alternates shall be producers of apricots in District 1, and four of the grower members and their respective alternates

[1] The provisions identified with asterisks (***) apply only to the proposed marketing agreement and not to the proposed order.

shall be producers of apricots in District 2. Two of the handler members and their respective alternates shall be handlers of apricots in District 1, and two of the handler members with their respective alternates shall be handlers of apricots in District 2.

§ 1020.21 *Term of office.* The term of office of each member and alternate member of the committee shall be for 2 years beginning April 1 and ending March 31: *Provided*, That the terms of office of one-half the initial members and alternates shall end March 31, 1958. Members and alternate members shall serve in such capacities for the portion of the term of office for which they are selected and have qualified and until their respective successors are selected and have qualified. The terms of office of successor members and alternates shall be so determined that one-half of the total committee membership ends each March 31.

§ 1020.22 *Nomination—(a) Initial members.* Nominations for each of the eight initial grower members and four initial handler members of the committee, together with nominations for the initial alternate members for each position, may be submitted to the Secretary by individual growers and handlers. Such nominations may be made by means of group meetings of the growers and handlers concerned in each district. Such nominations, if made, shall be filed with the Secretary no later than the effective date of this part. In the event nominations for initial members and alternate members of the committee are not filed pursuant to, and within the time specified, in this section, the Secretary may select such initial members and alternate members without regard to nominations, but selections shall be on the basis of the representation provided for in § 1020.20.

(b) *Successor members.* (1) The committee shall hold or cause to be held, not later than March 1 of each year, a meeting or meetings of growers and handlers in each district for the purpose of designating nominees for successor members and alternate members of the committee. At each such meeting a chairman and a secretary shall be selected by the growers and handlers eligible to participate therein. The chairman shall announce at the meeting the number of votes cast for each person nominated for member or alternate member and shall submit promptly to the committee a complete report concerning such meeting. The committee shall, in turn, promptly submit a copy of each such report to the Secretary.

(2) Only growers, including duly authorized officers or employees of corporate growers, who are present at such nomination meetings may participate in the nomination and election of nominees for grower members and their alternates. Each grower shall be entitled to cast only one vote for each nominee to be elected in the district in which he produces apricots. No grower shall participate in the election of nominees in more than one district in any one fiscal year. If qualified, a person may vote either as a grower or as a handler but not as both.

(3) Only handlers, including duly authorized officers or employees of corporate handlers, who are present at such nomination meetings, may participate in the nomination and election of nominees for handler members and their alternates. Each handler shall be entitled to cast only one vote for each nominee to be elected in the district in which he handles apricots. No handler shall participate in the election of nominees in more than one district in any one fiscal year. If qualified, a person may vote either as a grower or as a handler but not as both.

§ 1020.23 *Selection.* From the nominations made pursuant to § 1020.22, or from other qualified persons, the Secretary shall select the eight grower members of the committee, the four handler members of the committee, and an alternate for each such member.

§ 1020.24 *Failure to nominate.* If nominations are not made within the time and in the manner prescribed in § 1020.22, the Secretary may, without regard to nominations, select the members and alternate members of the committee on the basis of the representation provided for in § 1020.20.

§ 1020.25 *Acceptance.* Any person selected by the Secretary as a member or as an alternate member of the committee shall qualify by filing a written acceptance with the Secretary promptly after being notified of such selection.

§ 1020.26 *Vacancies.* To fill any vacancy occasioned by the failure of any person selected as a member or as an alternate member of the committee to qualify, or in the event of the death, removal, resignation, or disqualification of any member or alternate member of the committee, a successor for the unexpired term of such member or alternate member of the committee shall be nominated and selected in the manner specified in §§ 1020.22 and 1020.23. If the names of nominees to fill any such vacancy are not made available to the Secretary within a reasonable time after such vacancy occurs, the Secretary may fill such vacancy without regard to nominations, which selection shall be made on the basis of representation provided for in § 1020.20.

§ 1020.27 *Alternate members.* An alternate member of the committee, during the absence or at the request of the member for whom he is an alternate, shall act in the place and stead of such member and perform such other duties as assigned. In the event of the death, removal, resignation, or disqualification of a member, his alternate shall act for him until a successor for such member is selected and has qualified. In the event both a member of the committee and his alternate are unable to attend a committee meeting, the member or the committee may designate any other alternate member from the same district and group (handler or grower) to serve in such member's place and stead.

§ 1020.30 *Powers.* The committee shall have the following powers:

(a) To administer the provisions of this part in accordance with its terms;

(b) To receive, investigate, and report to the Secretary complaints of violations of the provisions of this part;

(c) To make and adopt rules and regulations to effectuate the terms and provisions of this part; and

(d) To recommend to the Secretary amendments to this part.

§ 1020.31 *Duties.* The committee shall have, among others, the following duties:

(a) To select a chairman and such other officers as may be necessary, and to define the duties of such officers;

(b) To appoint such employees, agents, and representatives as it may deem necessary, and to determine the duties of each;

(c) To submit to the Secretary as soon as practicable after the beginning of each fiscal period a budget for such fiscal period, including a report in explanation of the items appearing therein and a recommendation as to the rate of assessment for such period;

(d) To keep minutes, books, and records which will reflect all of the acts and transactions of the committee and which shall be subject to examination by the Secretary;

(e) To prepare periodic statements of the financial operations of the committee and to make copies of each such statement available to growers and handlers for examination at the office of the committee;

(f) To cause its books to be audited by a competent accountant at least once each fiscal year and at such times as the Secretary may request;

(g) To act as intermediary between the Secretary and any grower or handler;

(h) To investigate and assemble data on the growing, handling, and marketing conditions with respect to apricots;

(i) To submit to the Secretary such available information as he may request;

(j) To notify producers and handlers of all meetings of the committee to consider recommendations for regulations;

(k) To give the Secretary the same notice of meetings of the committee as is given to its members;

(l) To investigate compliance with the provisions of this part;

(m) With the approval of the Secretary, to redefine the districts into which the production area is divided, and to reapportion the representation of any district on the committee: *Provided*, That any such changes shall reflect, insofar as practicable, shifts in apricot production within the districts and the production area.

§ 1020.32 *Procedure.* (a) Eight members of the committee, including alternates acting for members, shall constitute a quorum; and any action of the committee shall require the concurring vote of at least 7 members: *Provided*, That when two-thirds of the membership present is greater than 7, such requirement shall be two-thirds of such membership.

(b) The committee may provide for simultaneous meetings of groups of its members assembled at two or more designated places: *Provided*, That such meetings shall be subject to the establishment of communication between all

such groups and the availability of loud speaker receivers for each group so that each member may participate in the discussions and other actions the same as if the committee were assembled in one place. Any such meeting shall be considered as an assembled meeting.

(c) The committee may vote by telegraph, telephone, or other means of communication, and any votes so cast shall be confirmed promptly in writing: *Provided*, That if an assembled meeting is held, all votes shall be cast in person.

§ 1020.33 *Expenses and compensation.* The members of the committee, and alternates when acting as members, shall be reimbursed for expenses necessarily incurred by them in the performance of their duties under this part and may also receive compensation, as determined by the committee, which shall not exceed $10 per day or portion thereof spent in performing such duties: *Provided*, That at its discretion the committee may request the attendance of one or more alternates at any or all meetings, notwithstanding the expected or actual presence of the respective members, and may pay expenses and compensation, as aforesaid.

§ 1020.34 *Annual report.* The committee shall, prior to the last day of each fiscal period, prepare and mail an annual report to the Secretary and make a copy available to each handler and grower who requests a copy of the report. This annual report shall contain at least: (a) A complete review of the regulatory operations during the fiscal period; (b) an appraisal of the effect of such regulatory operations upon the apricot industry; and (c) any recommendations for changes in the program.

EXPENSES AND ASSESSMENTS

§ 1020.40 *Expenses.* The committee is authorized to incur such expenses as the Secretary finds are reasonable and likely to be incurred by the committee to enable it to exercise its powers and perform its duties in accordance with the provisions of this part during each fiscal period. The funds to cover such expenses shall be acquired by the levying of assessments as prescribed in § 1020.41.

§ 1020.41 *Assessments.* (a) Each person who first handles apricots shall, with respect to the apricots so handled by him, pay to the committee upon demand such person's pro rata share of the expenses which the Secretary finds will be incurred by the committee during each fiscal period. Each such person's share of such expenses shall be equal to the ratio between the total quantity of apricots handled by him as the first handler thereof during the applicable fiscal period and the total quantity of apricots so handled by all persons during the same fiscal period. The payment of assessments for the maintenance and functioning of the committee may be required under this part throughout the period it is in effect irrespective of whether particular provisions thereof are suspended or become inoperative.

(b) The Secretary shall fix the rate of assessment to be paid by each such person. At any time during or after the fiscal period, the Secretary may increase the rate of assessment in order to secure sufficient funds to cover any later finding by the Secretary relative to the expenses which may be incurred. Such increase shall be applied to all apricots handled during the applicable fiscal period. In order to provide funds for the administration of the provisions of this part during the first part of a fiscal period before sufficient operating income is available from assessments on the current year's shipments, the committee may accept the payment of assessments in advance, and may also borrow money for such purpose.

§ 1020.42 *Accounting.* (a) If, at the end of a fiscal period, the assessments collected are in excess of expenses incurred, such excess shall be accounted for as follows:

(1) Except as provided in subparagraph (2) of this section, each person entitled to a proportionate refund of any excess assessment shall be credited with such refund against the operation of the following fiscal period unless such person demands repayment thereof, in which event it shall be paid to him: *Provided*, That any sum paid by a person in excess of his pro rata share of the expenses during any fiscal period may be applied by the committee at the end of such fiscal period to any outstanding obligations due the committee from such person.

(2) The Secretary, upon recommendation of the committee, may determine that it is appropriate for the maintenance and functioning of the committee that the funds remaining at the end of a fiscal period which are in excess of the expenses necessary for committee operations during such period may be carried over into following periods as a reserve. Such reserve may be established at an amount not to exceed approximately one fiscal period's operational expenses; and such reserve may be used to cover the necessary expenses of liquidation, in the event of termination of this part, and to cover the expenses incurred for the maintenance and functioning of the committee during any fiscal period when there is a crop failure, or during any period of suspension of any or all of the provisions of this part. Such reserve may also be used by the committee to finance its operations, during any fiscal period, prior to the time that assessment income is sufficient to cover such expenses; but any of the reserve funds so used shall be returned to the reserve as soon as assessment income is available for this purpose. Upon termination of this part, any funds not required to defray the necessary expenses of liquidation shall be disposed of in such manner as the Secretary may determine to be appropriate: *Provided*, That to the extent practical, such funds shall be returned pro rata to the persons from whom such funds were collected.

(b) All funds received by the committee pursuant to the provisions of this part shall be used solely for the purposes specified in this part and shall be accounted for in the manner provided in this part. The Secretary may at any time require the committee and its members to account for all receipts and disbursements.

(c) Upon the removal or expiration of the term of office of any member of the committee, such member shall account for all receipts and disbursements and deliver all property and funds in his possession to his successor in office, and shall execute such assignments and other instruments as may be necessary or appropriate to vest in such successor full title to all of the property, funds, and claims vested in such member pursuant to this part.

RESEARCH

§ 1020.45 *Marketing research and development.* The committee, with the approval of the Secretary, may establish or provide for the establishment of marketing research and development projects designed to assist, improve, or promote the marketing, distribution, and consumption of apricots. The expense of such projects shall be paid from funds collected pursuant to § 1020.41.

REGULATIONS

§ 1020.50 *Marketing policy.* (a) Each season prior to making any recommendations pursuant to § 1020.51, the committee shall submit to the Secretary a report setting forth its marketing policy for the ensuing season. Such marketing policy report shall contain information relative to:

(1) The estimated total production of apricots within the production area;

(2) The expected general quality and size of apricots in the production area and in other areas;

(3) The expected demand conditions for apricots in different market outlets;

(4) The expected shipments of apricots produced in the production area and in areas outside the production area;

(5) Supplies of competing commodities;

(6) Trend and level of consumer income;

(7) Other factors having a bearing on the marketing of apricots; and

(8) The type of regulations expected to be recommended during the season.

(b) In the event it becomes advisable, because of changes in the supply and demand situation for apricots, to modify substantially such marketing policy, the committee shall submit to the Secretary a revised marketing policy report setting forth the information prescribed in this section. The committee shall publicly announce the contents of each marketing policy report, including each revised marketing policy report, and copies thereof shall be maintained in the office of the committee where they shall be available for examination by growers and handlers.

§ 1020.51 *Recommendations for regulation.* (a) Whenever the committee deems it advisable to regulate the handling of any variety or varieties of apricots in the manner provided in § 1020.52, it shall so recommend to the Secretary.

(b) In arriving at its recommendations for regulation pursuant to paragraph (a) of this section, the committee shall give consideration to current information with respect to the factors affecting the supply and demand for apricots during the period or periods

when it is proposed that such regulation should be made effective. With each such recommendation for regulation, the committee shall submit to the Secretary the data and information on which such recommendation is predicated and such other available information as the Secretary may request.

§ 1020.52 *Issuance of regulations.* (a) The Secretary shall regulate, in the manner specified in this section, the handling of apricots whenever he finds, from the recommendations and information submitted by the committee, or from other available information, that such regulations will tend to effectuate the declared policy of the act. Such regulations may:

(1) Limit, during any period or periods, the shipment of any particular grade, size, quality, maturity, or pack, or any combination thereof, of any variety or varieties of apricots grown in any district or districts of the production area;

(2) Limit the shipment of apricots by establishing, in terms of grades, sizes, or both, minimum standards of quality and maturity during any period when season average prices are expected to exceed the parity level;

(3) Fix the size, capacity, weight, dimensions, or pack of the container, or containers, which may be used in the packaging or handling of apricots.

(b) The committee shall be informed immediately of any such regulation issued by the Secretary, and the committee shall promptly give notice thereof to growers and handlers.

§ 1020.53 *Modification, suspension, or termination of regulations.* (a) In the event the committee at any time finds that, by reason of changed conditions, any regulations issued pursuant to § 1020.52 should be modified, suspended, or terminated, it shall so recommend to the Secretary.

(b) Whenever the Secretary finds, from the recommendations and information submitted by the committee or from other available information, that a regulation should be modified, suspended, or terminated with respect to any or all shipments of apricots in order to effectuate the declared policy of the act, he shall modify, suspend, or terminate such regulation. On the same basis and in like manner the Secretary may terminate any such modification or suspension. If the Secretary finds that a regulation obstructs or does not tend to effectuate the declared policy of the act, he shall suspend or terminate such regulation. On the same basis and in like manner the Secretary may terminate any such modification or suspension.

§ 1020.54 *Special purpose shipments.* (a) Except as otherwise provided in this section, any person may, without regard to the provisions of §§ 1020.41, 1020.52, and 1020.55, and the regulations issued thereunder, handle apricots (1) for consumption by charitable institutions; (2) for distribution by relief agencies; or (3) for commercial processing into products.

(b) Upon the basis of recommendations and information submitted by the committee, or from other available information, the Secretary may relieve from any or all requirements under or established pursuant to §§ 1020.41, 1020.52, or 1020.55 with respect to the handling of apricots in such minimum quantities, or types of shipments, or for such specified purposes (including shipments to facilitate the conduct of marketing research and development projects established pursuant to § 1020.45), as the committee, with approval of the Secretary, may prescribe.

(c) The committee shall, with the approval of the Secretary, prescribe such rules, regulations, and safeguards as it may deem necessary to prevent apricots handled under the provisions of this section from entering the channels of trade for other than the specific purposes authorized by this section. Such rules, regulations, and safeguards may include the requirements that handlers shall file applications and receive approval from the committee for authorization to handle apricots pursuant to this section, and that such applications be accompanied by a certification by the intended purchaser or receiver that the apricots will not be used for any purpose not authorized by this section.

§ 1020.55 *Inspection and certification.* Whenever the handling of any variety of apricots is regulated pursuant to § 1020.52, each handler who handles apricots shall, prior thereto, cause such apricots to be inspected by the Federal-State Inspection Service and certified by it as meeting the applicable requirements of such regulation: *Provided*, That inspection and certification shall be required for apricots which previously have been so inspected and certified only if such apricots have been regraded, resorted, repackaged, or in any other way further prepared for market. Promptly after inspection and certification, each such handler shall submit, or cause to be submitted, to the committee a copy of the certificate of inspection issued with respect to such apricots.

REPORTS

§ 1020.60 *Reports.* (a) Upon request of the committee, made with approval of the Secretary, each handler shall furnish to the committee, in such manner and at such time as it may prescribe, such reports and other information as may be necessary for the committee to perform its duties under this part. Such reports may include, but are not necessarily limited to, the following: (1) The quantities of each variety of apricots received by a handler; (2) the quantities disposed of by him, segregated as to the respective quantities subject to regulation and not subject to regulation; (3) the date of each such disposition and the identification of the carrier transporting such apricots, and (4) the destination of each such shipment.

(b) All such reports shall be held under appropriate protective classification and custody by the committee, or duly appointed employees thereof, so that the information contained therein which may adversely affect the competitive position of any handler in relation to other handlers will not be disclosed. Compilations of general reports from data submitted by handlers is authorized, subject to the prohibition of disclosure of individual handler's identities or operations.

(c) Each handler shall maintain for at least two succeeding years such records of the apricots received, and of apricots disposed of, by such handler as may be necessary to verify reports pursuant to this section.

MISCELLANEOUS PROVISIONS

§ 1020.61 *Compliance.* Except as provided herein, no person shall handle apricots, the shipment of which has been prohibited by the Secretary in accordance with the provisions of this part; and no person shall handle apricots except in conformity with the provisions of this part.

§ 1020.62 *Right of the secretary.* The members of the committee (including successors and alternates), and any agents, employees, or representatives thereof, shall be subject to removal or suspension by the Secretary at any time. Each and every regulation, decision, determination, or other act of the committee shall be subject to the continuing right of the Secretary to disapprove of the same at any time. Upon such disapproval, the disapproved action of the committee shall be deemed null and void, except as to acts done in reliance thereon or in accordance therewith prior to such disapproval by the Secretary.

§ 1020.63 *Effective time.* The provisions of this part, and of any amendment thereto, shall become effective at such time as the Secretary may declare above his signature to this part, and shall continue in force until terminated in one of the ways specified in § 1020.64.

§ 1020.64 *Termination.* (a) The Secretary may at any time terminate the provisions of this part by giving at least one day's notice by means of a press release or in any other manner in which he may determine.

(b) The Secretary shall terminate or suspend the operation of any and all of the provisions of this part whenever he finds that such provisions do not tend to effectuate the declared policy of the act.

(c) The Secretary shall terminate the provisions of this part at the end of any fiscal period whenever he finds that continuance is not favored by the majority of producers who, during a representative period determined by the Secretary, were engaged in the production area in the production of apricots for market: *Provided*, That such majority has produced for market during such period more than 50 percent of the volume of apricots produced for market in the production area; but such termination shall be effective only if announced on or before March 31 of the then current fiscal period.

(d) The provisions of this part shall, in any event, terminate whenever the provisions of the act authorizing them cease to be in effect.

§ 1020.65 *Proceedings after termination.* (a) Upon the termination of the provisions of this part, the committee shall, for the purpose of liquidating the affairs of the committee, continue as trustees of all the funds and property then in its possession, or under its control, including claims for any funds unpaid or property not delivered at the time of such termination.

(b) The said trustees shall (1) continue in such capacity until discharged by the Secretary; (2) from time to time account for all receipts and disbursements and deliver all property on hand, together with all books and records of the committee and of the trustees, to such persons as the Secretary may direct; and (3) upon the request of the Secretary, execute such assignments or other instruments necessary or appropriate to vest in such person, full title and right to all of the funds, property, and claims vested in the committee or the trustees pursuant thereto.

(c) Any person to whom funds, property, or claims have been transferred or delivered pursuant to this section shall be subject to the same obligation imposed upon the committee and upon the trustees.

§ 1020.66 *Effect of termination or amendment.* Unless otherwise expressly provided by the Secretary, the termination of this subpart or of any regulation issued pursuant to this subpart, or the issuance of any amendment to either thereof, shall not (a) effect or waive any right, duty, obligation, or liability which shall have arisen or which may thereafter arise in connection with any provision of this subpart or any regulation issued under this subpart, or (b) release or extinguish any violation of this subpart or of any regulation issued under this subpart, or (c) affect or impair any rights or remedies of the Secretary or of any other person with respect to any such violation.

§ 1020.67 *Duration of immunities.* The benefits, privileges, and immunities conferred upon any person by virtue of this subpart shall cease upon the termination of this subpart, except with respect to acts done under and during the existence of this subpart.

§ 1020.68 *Agents.* The Secretary may, by designation in writing, name any officer or employee of the United States, or name any agency or division in the United States Department of Agriculture, to act as his agent or representative in connection with any of the provisions of this part.

§ 1020.69 *Derogation.* Nothing contained in the provisions of this part is, or shall be construed to be, in derogation or in modification of the rights of the Secretary or of the United States (a) to exercise any powers granted by the act or otherwise, or (b) in accordance with such powers, to act in the premises whenever such action is deemed advisable.

§ 1020.70 *Personal liability.* No member or alternate member of the committee and no employee or agent of the committee shall be held personally responsible, either individually or jointly with others, in any way whatsoever, to any person for errors in judgment, mistakes, or other act, either of commission or omission, as such member, alternate, employee, or agent, except for acts of dishonesty, willful misconduct, or gross negligence.

§ 1020.71 *Separability.* If any provision of this part is declared invalid, or the applicability thereof to any person, circumstance, or thing is held invalid, the validity of the remainder of this part or the applicability thereof to any other person, circumstance, or thing shall not be affected thereby.

§ 1020.72 *Counterparts.* This agreement may be executed in multiple counterparts, and when one counterpart is signed by the Secretary, all such counterparts shall constitute, when taken together, one and the same instrument as if all signatures were contained in one original. • • •

§ 1020.73 *Additional parties.* After the effective date of this marketing agreement, any handler may become a party to such agreement if a counterpart is executed by him and delivered to the Secretary. This agreement shall take effect as to such new contracting party at the time such counterpart is delivered to the Secretary, and the benefits, privileges, and immunities conferred by this agreement shall then be effective as to such new contracting party. • • •

§ 1020.74 *Order with marketing agreement.* Each signatory handler hereby requests the Secretary to issue, pursuant to the act, an order providing for the regulating of the handling of apricots in the same manner as is provided for in this agreement. • • •

Dated: March 1, 1957.

[SEAL] F. R. BURKE,
Acting Deputy Administrator,
Marketing Services.

NOTICES

DEPARTMENT OF COMMERCE

Federal Maritime Board

STONE FORWARDING CO. AND LUIGI SERRA, INC.

NOTICE OF AGREEMENT FILED FOR APPROVAL

Notice is hereby given that the following described agreement has been filed with the Board for approval pursuant to section 15, Shipping Act, 1916 (39 Stat. 733; 46 U. S. C. 814):

Agreement No. 8208 between Stone Forwarding Co., Inc., Houston, Texas, and Luigi Serra Inc., New York, New York, is a cooperative working arrangement between the parties under which they perform freight forwarding services for each other.

Interested parties may inspect this agreement and obtain copies thereof at the Regulation Office, Federal Maritime Board, Washington, D. C., and may submit, within 20 days after publication of this notice in the FEDERAL REGISTER, written statements with reference to the agreement, and their position as to approval, disapproval, or modification, together with request for hearing should such hearing be desired.

Dated: February 28, 1957.

By order of the Federal Maritime Board.

JAMES L. PIMPER,
Secretary.

[F. R. Doc. 57-1654; Filed, Mar. 5, 1957; 8:45 a. m.]

Office of the Secretary

TEMPORARY DELEGATIONS OF AUTHORITY UNDER REORGANIZATION PLAN NO. 5 OF 1950

REVOCATION OF ORDER

The Secretary of Commerce has now prescribed, in the Manual of Orders, the organization and functions of all primary organization units of the Department affected by Reorganization Plan No. 5 of 1950 together with related delegations of authority. The provisions of Department Order No. 115 (published in 15 F. R. 3198) therefore serve no useful purpose and this order is hereby revoked.

Dated: February 27, 1957.

[SEAL] SINCLAIR WEEKS,
Secretary of Commerce.

ATOMIC ENERGY COMMISSION

[Docket No. F-13]

BABCOCK & WILCOX CO.

NOTICE OF PROPOSED ISSUANCE OF FACILITY LICENSE

Please take notice that the Atomic Energy Commission proposes to issue a facility license to Babcock & Wilcox Company substantially in the form set forth below as Annex "A" unless within fifteen (15) days after filing of this notice in the FEDERAL REGISTER a request for a formal hearing is filed with the Commission in the manner prescribed by § 2.102 (b) of the Commission's rules of practice (10 CFR Part 2). There is included and set forth below as Annex "B"

a memorandum submitted by the Division of Civilian Application which summarizes the principal features of the facility and the principal factors considered in reviewing the application for a license. A construction permit authorizing Babcock & Wilcox Company to construct the facility was issued by the Commission on December 9, 1955. For further details see the application for license at the Commission's Public Document Room, 1717 H Street NW., Washington, D. C.

Dated at Washington this 1st day of March 1957.

For the Atomic Energy Commission.

H. L PRICE,
Director,
Division of Civilian Application.

ANNEX "A"

LICENSE

1. Subject to the conditions and requirements incorporated herein, the Atomic Energy Commission (hereinafter "the Commission") hereby licenses the Babcock & Wilcox Company (hereinafter "B&W").

a. Pursuant to Section 104c of the Atomic Energy Act of 1954 (hereinafter referred to as "the Act"), and Title 10, CFR, Chapter 1, Part 50, "Licensing of Production and Utilization Facilities", to possess and operate as a utilization facility the critical experiments facility (hereinafter referred to as "the facility") designated below;

b. Pursuant to the Act and Title 10, CFR, Chapter 1, Part 70, "Special Nuclear Material", to use in operation of the facility the special nuclear material covered by License No. SNM–32 issued to B&W on August 26, 1956.

c. Pursuant to the Act and Title 10, CFR, Chapter 1, Part 30, "Licensing of By-Product Material", to possess, but not to separate from the fuel, such special nuclear and by-product material as may be produced from operation of the facility.

2. This license applies to the facility which is owned by B&W and located in Lynchburg, Virginia, and described in B&W's application filed October 27, 1955, and amendments thereto filed on February 23, 1956, and August 20, 1956. The original application together with said amendments is hereinafter referred to as "the application".

3. This license shall be deemed to contain and be subject to the conditions specified in § 50.54 of Part 50 and § 70.32 of Part 70; is subject to all applicable provisions of the Act and rules, regulations and orders of the Commission now or hereafter in effect; and is subject to any additional conditions specified or incorporated below.

4. B&W shall not conduct any critical experiments in the facility until a description of the experiments and a Hazards Summary Report shall have been submitted to the Commission and the Commission shall have specifically authorized the experimental activity under this license.

5. The conditions and requirements contained in Appendix "A", attached hereto, are a part of this license.

6. This license is effective as of the date of issuance and shall expire at midnight, December 9, 1955, unless sooner terminated.

For the Atomic Energy Commission.

Director,
Division of Civilian Application.

Date of Issuance----------

APPENDIX "A"

I. *Experiments.*

B&W is authorized to perform the critical experiments described in the application, which are related to the Consolidated Edison Company power reactor. Any changes in the experiments as described in the application must be authorized by the Commission.

II. *Operating Restrictions.*

a. B&W shall operate the facility in accordance with the procedures described in the application.

b. B&W shall not by-pass any control mechanism during the operation of the facility.

c. Prior to the performance of the critical experiments described in the application, B&W shall provide an interlock in the facility control system to prevent withdrawal of control rods concurrently with the addition of water moderator to the core tank containing the fuel assemblies.

III. *Records.*

In addition to those otherwise required under this license, B&W shall keep the following records:

a. Facility operating records.

b. Records containing a description, procedures, and results for each critical experiment performed.

c. Records showing radioactivity released or discharged into the air or water beyond the effective control of B&W as measured at the point of such release or discharge.

d. Records of emergency scrams, including reasons for emergency shutdowns.

IV. *Reports.*

B&W shall make a prompt report to the Commission of any unusual operating incident of the facility.

ANNEX "B"

MEMORANDUM

Introduction. The Babcock & Wilcox Company filed on October 27, 1955, an application for a Class 104 license to construct, possess and operate a critical experiment facility to be located near Lynchburg, Virginia. On December 9, 1955, a construction permit was issued to the Babcock & Wilcox Company authorizing construction of the critical experiment facility. On January 15, 1957, representatives of the Commission inspected the facility and determined that it was constructed substantially in accord with the design set forth in the license application.

The Babcock & Wilcox Company filed, as part of its license application, a "Hazards Summary Report" (February 1956) and "Amendments to the Critical Experiments Facility Hazards Evaluation" (August 1956) containing information on the facility as it had been constructed and on the initial critical experiments. There is set forth below our considerations on this information and our analysis of the hazards associated with operation of the facility.

Description of the facility. The Critical Experiment Facility is located approximately 3½ miles east of the outskirts of Lynchburg, Virginia, on a 520-acre tract in Campbell County, Va. It is situated within a loop of the James River, which encloses the site to the southwest, northwest and northeast. The Chesapeake and Ohio Railroad lies between the site and the James River and is 440' distant from the critical facility building at its nearest point. The B&W Fuel Element Fabrication Plant is on the same site and is located 1,200 ft. east of the critical facility.

Prevailing winds generally are toward a quadrant facing directly eastward. Located in this quadrant there are two dwellings within 0.5 mile, seven from 0.5 to 1.0 mile and fifteen from 1.0 to 1.5 miles. Hydrology, geology and seismology introduce no unusual problems.

The critical facility structure comprises a high reinforced concrete bay and a lower wing of conventional construction. The high bay houses the critical assembly, while the low wing houses the vault, sub-assembly room shops, laboratory and offices. The bay area is 35 feet x 25 feet x 45 feet high (10 feet below grade). On three sides the walls are 3 feet thick from ground level to 10 feet above ground level, and on the control room side the wall is 3 feet thick to 20 feet above ground level. For the rest of the height, the walls are 2 feet thick. The roof is 1 foot thick reinforced concrete. Access to the assembly bay is through a 5 foot wide labyrinth corridor. The door in this corridor and the large shielded equipment access door leading to the outside are not designed to be pressure tight, but the entire bay construction is said to permit a leakage of only 2 percent of the bay contents per 24 hours under normal barometric pressure fluctuations.

Description of initial experiments. Experiments to be performed in this facility, for which a license is now sought, are related to and comprise an investigation of the proposed fuel assembly or core of the Consolidated Edison Power Reactor. A total of approximately 275 kilograms of U–235 (contained in uranium enriched to 90 percent U–235) will be used in the experiments The uranium in the form of U_3O_8 will be embedded in polyethylene. Structural members will be of aluminum. The assemblies will normally be operated at fractions of a watt, with occasional operation in the 1 watt and (rarely) in the 1,000 watt range (for short intervals).

Each fuel bundle or element will contain ten plates, each made up of a central plate of aluminum with a plate of thorium bonded to one side and a uranium oxide impregnated polyethylene film bonded to the other. There will be about 480 such bundles in the fully loaded core.

Two safety rods of boron stainless steel, each possessing a 2 percent reactivity value, will be cocked for scram insertion during all operations except when water moderator is being added (see below). There are also two shim rods, 2 percent reactivity each, used to determine rod worth and for other compensation. When water is being circulated or added to the core tank, all four rods will be in the ready position, i. e., with the bottom of each rod more than two feet above the bottom of the core. A fifth rod, possessing a 0.3 percent reactivity value, will serve as a control rod. In no experiments will there be an amount of net excess reactivity greater than 3 percent, hence there will always be enough reactivity available in the four safety and shim rods (total of 8 percent) to scram the reactor even if two of the rods fail to be inserted. In some experiments an additional 17 percent reactivity will be built into the core, and compensated by poison rods permanently bolted in place.

The five safety, shim and control rods are activated by individual hydraulic systems. The maximum withdrawal speed of one rod is 1 ft./min. If more than one rod is withdrawn, the speed of all rods is automatically decreased to the point where if all five rods were to be withdrawn simultaneously, the maximum speed of each rod would be 0.2 ft./min. This withdrawal rate corresponds to a reactivity addition of 0.0004 delta k/k per sec.

One phase of the experimental program is to include determination of critical mass, control rod worth, axial and radial flux traverses, nuclear properties of Th–232, temperature coefficients, Doppler coefficient and void coefficients. Other experiments will be based on the fully loaded and poisoned core, and will include the effect of control rod pattern on flux distribution, search for hot spots, and danger coefficient measurements with actual fuel elements.

Hazards evaluation. For the critical experiments applied for in this facility, no unusual precautions appear necessary with regard to earthquake, storm or flood. Failure of the electrical system will automatically close down operations. No hazards are expected to result from normal operations.

A number of possible minor mishaps and associated hazards were considered by the applicant but it was concluded in each case that the consequences would be less than those from a maximum credible accident which, in turn, was shown to have acceptable consequences of hazard insofar as safety of the public is concerned. Hence, primary attention was devoted to this case.

The maximum credible accident was assumed by the applicant to result from an instantaneous addition of 2 percent excess reactivity, leading to the liberation of 87 Mw-sec of energy. Upon insertion of this amount of excess reactivity, the power would rise until the reactivity is self-compensated by gas formation in the plastic, which would result in creation of voids in the plastic and expulsion of water from the core. This would terminate the incident. The applicant calculated that 4×10^5 curies of fission product activity would be produced as a result of such a nuclear excursion.

We concur in the assumption that no credible accident would exceed the one in which instantaneous addition of 2 percent excess reactivity to the reactor is assumed, and agree that the energy release from such an accident could reasonably be expected to be no more than 87 Mw-sec. We further agree that gas formation and subsequent expulsion of water from the reactor would cause the excursion to terminate and that the order of 4×10^5 curies of fission product activity could be generated by such an incident. We do not believe that the reinforced concrete building housing the critical assembly would be damaged, as a result of the postulated accident, to the extent of decreasing the ability of the building to contain fission products.

The applicant's calculation, in which we concur, has shown that, if none of the fission products were retained by the plastic fuel strips and water in the critical assembly (a more pessimistic assumption), all of the fission products were uniformly dispersed in the atmosphere of the assembly room as gases or non-settling suspensions (an even more unrealistic assumption), if the fission products were released from the building at the rate of 2 percent per 24 hours, and if the weather were such that a steady wind of one meter/sec. were to blow in the direction of the nearest boundary for a period of 50 days during which entire time inversion conditions were to maintain, a person located at the nearest site boundary for this full period of 50 days would receive an integrated dose from the passing cloud of only 86 milliroentgens. It is felt highly unlikely that the several conditions listed above would occur, but the calculations have shown that even if they should, personnel exposure would not exceed that allowed by the Commission's regulation (10 CFR Part 20) for continuous operation.

Pursuant to a review of the applicant's operating procedures we consider it necessary that one change be made in the instrumentation. Namely, that an interlock be provided which prevents withdrawal of control rods concurrently with addition of water moderator to the assembly.

Conclusion. From our review of the applicant's analysis of the hazard aspects of the actual experimental program to be conducted in the facility as constructed; based on our evaluation of the reasonableness of the assumptions made by the applicant in his calculations of maximum potential exposure to the public; and taking into account the various mechanical and operational controls which have been incorporated in the design and operating procedure to decrease the probability of any incident to an acceptably low level; we have concluded that, with the change in instrumentation noted above, there is reasonable assurance that the critical experiments described by the applicant can be conducted in this facility without undue hazard to the health and safety of the public.

Dated: March 1, 1957.

For the Division of Civilian Application.

H. L. PRICE,
Director.

FEDERAL POWER COMMISSION

[Docket Nos. G–9277, G–9280]

CHAMPLIN OIL & REFINING CO.

ORDER ENLARGING INVESTIGATION AND CONVENING HEARING

FEBRUARY 28, 1957.

By order issued January 27, 1956, under the style "In the Matter of The Chicago Corporation, Docket No. G–9277, The Chicago Corporation, Gulf Plains Corporation, Docket No. G–9280,"[1] the Commission, upon its own motions, instituted investigations under the provisions of the Natural Gas Act, to determine whether with respect to any transportation or sale of natural gas, subject to the jurisdiction of the Commission, made or proposed to be made by those named respondents, any of the rates, charges, or classifications demanded, observed, charged, or collected, or any rules, regulations, practices, or contracts affecting such rates, charges, or classifications are unjust, unreasonable, unduly discriminatory, or preferential. That order further provided that a hearing be held in these proceedings upon a date to be fixed by further order.

As of the close of business on December 31, 1956, The Chicago Corporation and its wholly-owned subsidiary Champlin Refining Company were merged and concurrently therewith The Chicago Corporation, the surviving corporation, changed its name to Champlin Oil & Refining Co. All of the rate schedules heretofore filed with the Commission by Champlin Refining Company have been adopted, ratified and made its own by Champlin Oil & Refining Co., effective at the close of business on December 31, 1956.

Under the circumstances it is appropriate that Champlin Oil & Refining Co. be substituted as respondent for The Chicago Corporation. It is also necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the investigations instituted in the above dockets be enlarged to include the rates, charges, and classifications of the former Champlin Refining Company for or in connection with the sale or transportation of natural gas subject to the jurisdiction of the Commission, to the same extent as if Champlin Refining Company had been separately named as a respondent in the order issued January 27, 1956, herein.

[1] By order issued May 28, 1956, amending the order issued January 27, 1956, Gulf Plains Corporation was deleted as respondent in Docket No. G–9280, and the investigation with respect to that company was terminated, for the reasons stated in that amending order.

The proceedings in these dockets as first instituted are two of sixteen complaint cases simultaneously filed under the provisions of section 5 (a) of the Natural Gas Act. In each such proceeding, by order issued January 27, 1956, the Commission initiated a general investigation of the jurisdictional rates of the respective respondent.

Actual field investigations in these cases have been commenced by the staff. To aid in expediting and supplementing these investigations, some of the respondents in these sixteen proceedings, including respondent here, entered into a cooperative effort at the suggestion of the staff to brief and analyze all independent producer rate schedules on file with the Commission through June 30, 1956, covering all areas in the United States, except the Appalachian area, where the coverage will be representative but not complete. The objective of this cooperative effort is to make field-price data available for verification and sponsorship by the staff and other parties in interest.

The task of compiling such data has been under way for some time, but its proportions are such as to make it now appear that it cannot be concluded until around April 1, 1957. It is manifestly desirable that these data be available to all parties, including the staff, before the staff completes its presentation in this case. It is likewise desirable that all of these cases go forward as expeditiously as circumstances permit. Since the status of the staff investigation here will permit it, we have, therefore, determined to order the commencement of hearings in these proceedings at this time to enable the staff to present its evidence with respect to cost of service and to form and level of rates, and to permit cross-examination with respect thereto. Further hearings to afford the staff an opportunity to present field-price evidence and to afford respondents and other parties hereto an opportunity to present evidence shall be deferred pending further order of the Commission.

The Commission orders:

(A) Champlin Oil & Refining Co., which is the new name of The Chicago Corporation as survivor corporation after the merger with Champlin Refining Company, hereby is substituted for The Chicago Corporation as respondent in these dockets.

(B) The investigation instituted by our order issued January 27, 1956, in these dockets, hereby is enlarged to include the rates, charges, and classifications of the former Champlin Refining Company for or in connection with the sale or transportation of natural gas subject to the jurisdiction of the Commission, to the same extent as if Champlin Refining Company had been separately named as a respondent in the order issued January 27, 1956, in these dockets.

(C) A public hearing be held commencing April 17, 1957, at 10:00 a. m., e. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved and the issues presented

in these proceedings as more particularly set forth in the order instituting investigations issued on January 27, 1956, in these dockets, and as further set forth hereinabove.

(D) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.37 (f)).

By the Commission.

[SEAL] JOSEPH H. GUTRIDE, *Secretary.*

[F. R. Doc. 57-1664; Filed, Mar. 5, 1957; 8:48 a. m.]

[Project No. 2009]

VIRGINIA ELECTRIC AND POWER CO.

NOTICE OF APPLICATION FOR AMENDMENT OF LICENSE (MAJOR)

FEBRUARY 23, 1957.

Public notice is hereby given that Virginia Electric and Power Company, Licensee for major Project No. 2009 has filed Exhibit K for Commission approval and inclusion in the license. The exhibit shows as project works, transmission facilities located entirely within the project boundaries, which consist of the 110 KV transformers at the plant and the two 110 KV transmission lines extending 1.6 miles to the Roanoke Rapids Substation.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure of the Commission (18 CFR 1.8 or 1.10). The last date upon which protests or petitions may be filed is April 5, 1957. The application is on file with the Commission for public inspection.

[SEAL] JOSEPH H. GUTRIDE, *Secretary.*

[F. R. Doc. 57-1665; Filed, Mar. 5, 1957; 8:48 a. m.]

[Docket Nos. G-10054, G-10055]

PHILLIPS PETROLEUM CO.

NOTICE OF APPLICATIONS AND DATE OF HEARING

FEBRUARY 27, 1957.

Take notice that Phillips Petroleum Company (Applicant), a Delaware corporation with its principal place of business in Bartlesville, Oklahoma, filed on March 5, 1956, applications for permission and approval to abandon service, pursuant to section 7 (b) of the Natural Gas Act, as hereinafter described, subject to the jurisdiction of the Commission all as more fully represented in the applications on file with the Commission, and open to public inspection.

Applicant seeks to abandon the sale of natural gas in interstate commerce to Shamrock Oil and Gas Corporation (Shamrock) for resale from its Luca Lease, Hutchinson County, Texas in docket No. G-10054 and from its Walters Lease, Hutchinson County, and its Ray Ebling Lease, Moore and Hutchinson Counties, Texas in docket No. G-10055. Such sales were authorized covering the Luca and Walters Leases, and its Ray Ebling Lease, in docket Nos. G-3369 and G-3370, respectively, by the Commission's order of September 28, 1956, issued in docket No. G-2605, et al.

Applicant states that the above leases are dedicated to El Paso Natural Gas Company (El Paso) under a contract dated October 13, 1945, but deliveries to El Paso were not effectuated since Applicant's field lines had not been extended thereto at the time said contract was negotiated. Applicant therefore negotiated two short term (three year) contracts with Shamrock dated April 15, 1953, with respect to the sale of gas from the aforementioned leases pending such extension of Applicant's field lines. Applicant further states that the short term contracts with Shamrock have now expired and that deliveries can now be made to El Paso. Applicant seeks herein, permission to abandon the sale to Shamrock under the short term contracts and continue its sale to El Paso under the contract dated October 13, 1945, which has been authorized in Docket No. G-2619 by the Commission's Order issued September 28, 1956, in Docket Nos. G-2605, et al.

These related matters should be heard on a consolidated record and disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on April 8, 1957, at 9:30 a. m., e. s. t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such applications: *Provided, however,* That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of § 1.30 (c) (1) or (2) of the Commission's rules of practice and procedure, under the procedure herein provided for, unless otherwise advised, it will be unnecessary for applicant to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before March 21, 1957. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

[SEAL] JOSEPH H. GUTRIDE, *Secretary.*

[Project No. 733]

WESTERN COLORADO POWER CO.

NOTICE OF APPLICATION FOR NEW LICENSE

FEBRUARY 27, 1957.

Notice is hereby given that application has been filed under the Federal Power Act (16 U. S. C. 791a–825r) by The Western Colorado Power Company, licensee for Project No. 733, for annual license for constructed minor-part project, known as the Ouray power plant, consisting of a rubble masonry diversion dam 71.5 feet high and 70 feet long; a settling tank; steel and wood-stave pipelines with aggregate length of about 6,120 feet; a signal circuit line extending about 6,035 feet between dam and powerhouse; and a powerhouse with installed hydraulic capacity of 1,000 horsepower.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure of the Commission (18 CFR 1.8 or 1.10). The last day upon which protests or petitions may be filed is March 29, 1957. The application is on file with the Commission for public inspection.

[Docket No. G-3895 etc.]

GENERAL AMERICAN OIL COMPANY OF TEXAS AND CRESCENT CORP.

NOTICE OF AMENDMENTS TO APPLICATIONS, SEVERANCE AND DATE OF HEARING

FEBRUARY 28, 1957.

In the matters of General American Oil Company of Texas, Docket No. G-3895; Crescent Corporation,[1] Docket No. G-6126; Crescent Corporation, Docket No. G-9297.

Take notice that:

General American Oil Company of Texas (General American), a Delaware corporation with principal place of business in the Meadows Building, Dallas, Texas, filed on January 17, 1957, in Docket No. G-3895, a first amendment to amended application for certificate of public convenience and necessity and motion for severance, requesting that portions of its amended application, filed November 14, 1955, be withdrawn or severed, as hereinafter indicated. General American had previously substituted the afore-mentioned amended application for a certificate of public convenience and necessity for: (1) Its original application for a certificate of public convenience and necessity filed in Docket No. G-3895 on October 1, 1954, and (2) its first amendments of the original application filed in Docket No. G-3895 on May 27, 1955. The amended application and first amendment thereto seek a certificate of public convenience and necessity, pursuant to section 7 (c) of the Natural Gas Act, authorizing General American to sell natural gas, as hereinafter tabulated, in interstate commerce from production of certain units, leases or acreage located as hereinafter designated to the purchasers indicated for resale, subject to the jurisdiction of the Commission, all as more fully represented in the amended application and first amendment thereto which are on file with the Commission and open for public inspection.

Crescent Corporation (Crescent), a Delaware corporation with principal place of business at P. O. Box 412, Tulsa 1, Oklahoma, filed on January 11, 1957, in Docket No. G-6126, an amendment of application requesting that portions of its originial application, filed November 26, 1954, be withdrawn as hereinafter indicated. Crescent's application, as amended, seeks a certificate of public convenience and necessity, pursuant to section 7 (c) of the Natural Gas Act, authorizing Crescent to sell natural gas as hereinafter tabulated, in interstate commerce from production of certain leases, units or acreage located as hereinafter designated to the purchasers indicated for resale, subject to the jurisdiction of the Commission, all as more fully represented in the application and amendment thereto which are on file with the Commission and open for public inspection.

On July 1, 1954, Crescent sold its interest in the properties listed in the certificate application in Docket No. G-6126 to General American, and thereafter, on September 2, 1955, Crescent filed, in Docket No. G-9297, an application for permission to abandon, as hereinafter tabulated, the sales and service being rendered as described in Docket No. G-6126, pursuant to section 7 (b) of the Natural Gas Act.

General American's amended certificate application and first amendment thereto in Docket No. G-3895 cover, inter alia, all the sales from the properties acquired from Crescent by General American for which a certificate of public convenience and necessity is required.

Prior to General American's filing of its first amendment to its amended application on January 17, 1957, and Crescent's filing of its amendment to its application on January 11, 1957, due notice of the previous filings by General American and Crescent in Docket Nos. G-3895, G-6126 and G-9297 was given including publication thereof in the FEDERAL REGISTER on December 11, 1956 (21 F. R. 9781–82). Said notice scheduled a hearing in Docket Nos. G-3895, et al., for January 3, 1957. Afterwards, by due notice including publication thereof in the FEDERAL REGISTER on December 15, 1956 (21 F. R. 9999), the hearing to be held on January 3, 1957, was postponed to a date to be fixed thereafter by further notice.

Upon the motion to sever of General American made in its first amendment to its amended application, notice is hereby given that so much of General American's amended application in Docket No. G-3895, particularly subsection 8 of section V thereof, as pertains to a certificate of public convenience and necessity authorizing General American to sell natural gas from the Cotton Valley Field, Webster Parish, Louisiana, to Louisiana Nevada Transit Company and United Gas Pipe Line Company, is hereby severed from the remainder of the amended application in Docket No. G-3895 and postponed to a date to be hereafter fixed by further notice.

The footnotes to the following tabulation indicate those portions of General American's amended application and those portions of Crescent's original application which were withdrawn by the respective amendments filed herein.

---

[1] Formerly Deep Rock Oil Corporation, the corporate name having been changed on July 13, 1955.

[2] All references in this tabulation to General American's application in Docket No. G-3895 relate to the amended application, filed November 14, 1955, as amended by General American's first amendment to amended application, filed January 17, 1957.

[3] Section III, pages 3 and 4 of General American's first amendment to its amended application, filed January 17, 1957, indicates that General American purchased all the assets of North American Oil Consolidated, prior to 1954, and, therefore, sells natural gas to United Gas Pipe Line Company under a contract between North American Oil Consolidated and United Gas Pipe Line Company, executed March 27, 1944.

[4] Section IV, pages 5 and 6 of General American's first amendment to its amended application, filed January 17, 1957, indicates that General American purchased, prior to 1954, this property in Wheeler County, Texas, from San Juan Oil Company which had previously acquired such property from Mudge Oil Company, and, therefore, General American sells gas to Lone Star Gas Company under contracts between Mudge Oil Company and Lone Star Gas Company, executed February 13, 1935 and March 24, 1936.

[5] All references in this tabulation to Crescent's application in Docket No. G-6126 relate to the application as amended on January 11, 1957.

[6] Crescent, by amendment of application, filed Jauary 11, 1957, withdrew its request for a certificate of public convenience and necessity authorizing the sale of natural gas produced from Light Field, Beaver County, Oklahoma, to Panhandle Eastern Pipe Line Company.

[7] Crescent, by amendment of application, filed January 11, 1957, withdrew its request for a certificate of public convenience and necessity authorizing the sale of natural gas produced from West Edmond Pool, Oklahoma County, Oklahoma, to Oklahoma Natural Gas Company.

[8] General American, by first amendment to its amended application, filed January 17, 1957, withdrew its request for a certificate of public convenience and necessity authorizing the sale of natural gas produced from West Edmond Pool, Oklahoma County, Oklahoma, to Cities Service Gas Company.

[9] Crescent, by amendment of application, filed January 11, 1957, withdrew its request for a certificate of public convenience and necessity authorizing the sale of natural gas produced from Wasson Pool, Gaines and Yoakum Counties, Texas, to Shell Oil Company and Coltexo Corporation.

Texas: Shell Oil Company and Coltexo Corporation.

[Docket Nos. G-5929, G-10366]

SOHIO PETROLEUM CO.

NOTICE OF APPLICATION [1] CONSOLIDATING PROCEEDINGS AND DATE OF HEARING

FEBRUARY 28, 1957.

Take notice that Sohio Petroleum Company (Applicant) an Ohio Corporation with its principal place of business at Cleveland, Ohio, filed on May 7, 1956, an application in Docket No. G-10366 for permission and approval to abandon the service for which it seeks authorization to continue, in its application filed on June 2, 1955, in Docket No. G-5929, as hereinafter described subject to the jurisdiction of the Commission, all as more fully represented in the Applications now on file with the Commission and open to public inspection.

Applicant seeks to abandon the sale of natural gas in interstate commerce to Transcontinental Gas Pipe Line Corporation (Transco) for resale from the Washington Field, St. Landry Parish, Louisiana.

Applicant in its application in Docket No. G-10366 states that due to a conservation order of the Department of Conservation of the State of Louisiana, it has ceased deliveries of gas to Transco and that its wells are shut-in for recycling operations.

These related matters should be heard on a consolidated record and disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on April 8, 1957, at 9:30 a. m., e. s. t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such applications: *Provided, however*, That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of § 1.30 (c) (1) or (2) of the Commission's rules of practice and procedure under the procedure herein provided for, unless otherwise advised it will be unnecessary for Applicant to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before March 21, 1957. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

FEDERAL CIVIL DEFENSE ADMINISTRATION

EXECUTIVE ASSISTANT ADMINISTRATOR ET AL.

DELEGATION OF AUTHORITY WITH RESPECT TO DETERMINATIONS CONCERNING FEDERAL SURPLUS PROPERTY

To determine property not appearing in the "Basic Requirements List" to be usable and necessary for civil defense purposes, and to modify or revise the FCDA "Basic Requirements List".

Pursuant to the authority vested in me by section 203 (j), Federal Property and Administrative Services Act of 1949, as amended (40 U. S. C. 484 (j)); and the Federal Civil Defense Act of 1950, as amended, (50 U. S. C. App. 2251 et seq.), the following described individuals (or their designees) of the Federal Civil Defense Administration are hereby delegated the authority to determine property not appearing in the "Basic Requirements List" under FCDA Advisory Bulletin 202 to be usable and necessary for civil defense purposes, in accordance with the provisions of section 203 (j) of the Federal Property and Administrative Services Act of 1949, as amended:

1. Executive Assistant Administrator:

(a) Determinations involving unit acquisition costs of $250,000 or more.

2. Assistant Administrator, Operations Control Services:

(a) Determinations involving unit acquisition costs from $50,000 to $250,000, and to modify or revise the FCDA "Basic Requirements List" of FCDA Advisory Bulletin 202. This authority may not be redelegated.

(b) Determinations involving unit acquisition costs from $2,500 to $50,000. This authority may be redelegated.

3. Regional Administrators:

(a) Determinations involving unit acquisition costs under $2,500.

The foregoing delegations of authority shall be exercised in accordance with FCDA administrative issuances and regulations governing the Surplus Property Program.

This delegation of authority is effective upon publication in the FEDERAL REGISTER.

SECURITIES AND EXCHANGE COMMISSION

[File No. 70-3547]

GEORGIA POWER CO.

ORDER APPROVING ACQUISITION OF UTILITY ASSETS, ASSUMPTION OF MORTGAGE INDEBTEDNESS THEREON, AND BANK BORROWINGS TO RAISE BALANCE OF PURCHASE PRICE

FEBRUARY 27, 1957.

Georgia Power Company ("Georgia"), a public utility subsidiary of The Southern Company ("Southern"), a registered holding company, having filed an application pursuant to sections 6 (b) and 10 of the Public Utility Holding Company Act of 1935 ("act") and an amendment thereto requesting approval of its acquisition of all the assets, properties and business of Georgia Power and Light Company ("Light") and also a 47.46-mile transmission line ("Tifton line") owned by Light's parent Florida Power Corporation, and in connection therewith, the assumption of the mortgage indebtedness on Light's properties, amounting to $7,705,000, and the issuance and sale of short-term notes to certain banks to raise the balance of the required consideration, estimated at not over $11,000,000; and

A public hearing having been held after appropriate notice, and the Commission having considered the record and having this day issued its Findings and Opinion herein, on the basis of such Findings and Opinion:

It is ordered, That said application as amended be, and hereby is, granted effective forthwith, subject to the terms and conditions prescribed in rule U-24.

It is further ordered, That jurisdiction be, and hereby is, reserved with respect to the fees and expenses of all counsel.

By the Commission.

[File No. 70-3462]

STANDARD SHARES, INC.

ORDER AUTHORIZING BANK LOAN AND ACQUISITION OF COMMON STOCK OF SUBSIDIARY

FEBRUARY 28, 1957.

Standard Shares, Inc. ("Standard Shares"), a registered holding company which was formerly named Standard Power and Light Corporation and which is in process of transformation into an investment company, has filed an application-declaration with this Commission, pursuant to sections 6 (a), 7, 9, 10 and 12 (f) of the Public Utility Holding Company Act of 1935 ("act") and rule U-43 of the rules and regulations promulgated thereunder, regarding the following proposed transactions:

Standard Shares owns 986,000 shares (45.59 percent) of the outstanding common stock of Standard Gas and Electric Company ("Standard Gas") which in turn owns all of the outstanding common stock of Philadelphia Company ("Philadelphia") which in turn owns 547,678 shares (50.9 percent) of the outstanding common stock of Pittsburgh Railways Company ("Pittsburgh"). Standard Gas and Philadelphia are also registered holding companies and have heretofore been ordered by this Commission to liquidate and dissolve. Pittsburgh is a non-utility subsidiary company engaged in the public transportation service in the City of Pittsburgh and its environs.

The Commission has approved an application filed by Standard Gas under section 11 (e) of the act which proposes certain amendments to Step IV of its plan previously filed with the Commission under said section (Holding Company Act Release No. 13376). Under said Step IV, as amended, Philadelphia, in partial liquidation, will distribute to Standard Gas the 547,678 shares of common stock of Pittsburgh and Standard Gas will distribute to its stockholders warrants to purchase 540,651.75 shares of such stock through a rights offering.

The subscription price for the Pittsburgh common stock will be $6 per share less any dividends paid thereon after October 19, 1956. Standard Shares has agreed to exercise the subscription rights to which it will be entitled under said Step IV and to purchase from Standard Gas at the subscription price any shares not subscribed for or purchased by others during the subscription period. In addition, Standard Shares will purchase at the subscription price the 7,026.25 remaining common shares of Pittsburgh not covered by the subscription offer.

Standard Shares further desires to make such additional purchases of common shares of Pittsburgh, through the purchase and exercise of warrants or otherwise, as may be necessary to increase its holdings thereof to an amount not exceeding approximately 51 percent of the outstanding common stock of Pittsburgh. It will be necessary for Standard Shares to expend approximately $1,500,000 in order to exercise the warrants it will receive on account of its holdings of Standard Gas stock and to acquire from Standard Gas the shares of Pittsburgh common stock not covered by the subscription offer. In addition, Standard Shares' obligation under its agreement to purchase at the subscription price all unsubscribed shares of Pittsburgh stock may require an expenditure of up to $1,765,000. Furthermore, if it becomes necessary for Standard Shares to acquire and exercise warrants or to purchase Pittsburgh stock on the market, a larger sum may have to be expended. The cash necessary to purchase the shares of Pittsburgh common stock will be derived through the issuance of a promissory note in an amount not to exceed $3,500,000 maturing nine months from the issue date and bearing interest at the prime rate of interest for short term commercial loans on the date of issuance. The note is prepayable, without premium, in whole or in part, or at any time and from time to time at the option of Standard Shares, provided such repayment is not made from funds obtained by future borrowings from any other lender. Standard Shares has agreed to pay a commitment fee at the rate of ¼ of 1 percent per annum for a period beginning with the date of this order and ending three months thereafter or the issue date of said note or May 15, 1957, whichever is earlier.

No State commission or Federal commission, other than this Commission, has jurisdiction over the transactions proposed by Standard Shares and the miscellaneous expenses, including printing, postage, telephone and traveling, in connection with the proposed transactions are estimated not to exceed $1,000. The record is incomplete with respect to fees and expenses of all counsel in connection with the application-declaration and jurisdiction will be reserved with respect thereto.

It is requested that the Commission's order herein become effective upon issuance thereof.

Due notice having been given of the filing of said application-declaration (Holding Company Act Release No. 13168) and a hearing not having been requested of or ordered by the Commission; and the Commission finding that the applicable provisions of the act and the rules promulgated thereunder are satisfied, and deeming it appropriate in the public interest and in the interest of investors and consumers that the application-declaration, as amended, be granted and permitted to become effective forthwith:

It is ordered, Pursuant to rule U-23 and the applicable provisions of the act, that said application-declaration, as amended, be, and the same hereby is, granted and permitted to become effective forthwith, subject to the terms and conditions prescribed in rule U-24 and to the following reservation of jurisdiction.

It is further ordered, That jurisdiction be, and the same hereby is, reserved over the payment of fees and expenses of all counsel in connection with the proposed transactions.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[File No. 812-1068]

ADAMS EXPRESS CO. AND AMERICAN INTERNATIONAL CORP.

NOTICE OF FILING OF APPLICATION FOR ORDER EXEMPTING PURCHASE OF SECURITIES FROM AFFILIATES DURING EXISTENCE OF UNDERWRITING SYNDICATE

FEBRUARY 28, 1957.

Notice is hereby given that Adams Express Company ("Adams") and American International Corporation ("American"), affiliated registered closed-end diversified management companies, have filed an application pursuant to section 10 (f) and, as to American, pursuant to section 17 (b) of the Investment Company Act of 1940 ("act"), for an order of the Commission exempting from the

provisions of sections 10 (f) and 17 (a) the proposed purchase by Adams and American from Adamex Securities Corporation ("Adamex"), of convertible Subordinated Debentures due March 1, 1977 ("Debentures"), of Daystrom, Incorporated ("Daystrom"), a New Jersey corporation. Adams owns approximately 70 percent of the outstanding voting securities of American.

The application states that on February 5, 1957, Daystrom filed a registration statement (File No. 2-13069) under the Securities Act of 1933 covering a proposed issue of $8,000,000 of Debentures. The Debentures are to be dated March 1, 1957, with interest payable semi-annually. Among the principal underwriters named or to be named in such registration statement are Adamex, Hallgarten and Co. ("Hallgarten") and R. W. Pressprich and Co. ("Pressprich"). Adamex is a wholly-owned subsidiary of Adams, primarily engaged in the business of underwriting and distributing securities issued by other persons. Maurice Newton, a partner in Hallgarten, and Clinton S. Lutkins, a partner in Pressprich, are members of the Board of Managers of Adams and of the Board of Directors of American. By definition under the Act, Messrs. Newton and Lutkins are affiliated persons of Hallgarten and Pressprich, respectively, and both are affiliated persons of Adams and American. Adamex is also by definition an affiliated person of Adams and American.

Adams, which had total assets as of September 30, 1956 of $95,944,961, may determine to purchase from Adamex not to exceed a principal amount of $180,000 of the Debentures, which is 2.25 percent of the total issue, and American, which had total assets as of September 30, 1956 of $41,613,500, may determine to purchase not to exceed a principal amount of $120,000 of the Debentures, which is 1.5 percent of the total issue. Such purchases will not be made until after Daystrom's registration statement has become effective and the price and other terms of such offering have been made public.

Section 10 (f) of the act provides, among other things, that no registered investment company shall knowingly purchase or otherwise acquire, during the existence of any underwriting or selling syndicate, any security (except a security of which such company is the issuer) a principal underwriter of which is an officer or director of such registered company or is a person of which any such officer or director is an affiliated person. The Commission may exempt a transaction from this prohibition if and to the extent that such exemptiton is consistent with the protection of investors. Since partners of Hallgarten and Pressprich, members of the principal underwriting group, are a manager of Adams and a director for American, respectively, and since Adamex is an affiliate of American, the proposed purchase is prohibited by the provisions of section 10 (f) unless the Commission finds that the proposed acquisition of securities is consistent with the protection of investors.

Section 17 (a) of the act, among other things, prohibits an affiliated person of a registered investment company, or any affiliated person of such a person, from selling to such registered investment company any securities or property, subject to certain exceptions not pertinent here. The Commission upon application pursuant to section 17 (b) may grant an exemption from the prohibitions of section 17 (a) if it finds that the terms of the proposed transaction, including the consideration to be paid or received, are reasonable and fair and do not involve overreaching on the part of any person concerned, that the proposed transaction is consistent with the policy of the registered investment company concerned, as recited in its registration statement and reports filed under the act, and is consistent with the general purposes of the act.

Adams and American state in their application that the decision by either of them to purchase any of the debentures, if made, will be based upon the opinion of its management that the purchase of such debentures, at the public offering price, will constitute a good investment for such applicant. The application states that Adams presently owns 3,000 shares (0.41 percent) and American 2,500 shares (0.28 percent) of the common stock of Daystrom. The application also states that Adams and American believe that the requested exemption is consistent with the protection of investors as required by section 10 (f) of the act. American further believes that all the requirements of section 17 (b) of the act are met.

Notice is further given that any interested person may, not later than March 12, 1957, at 5:30 p. m., submit to the Commission in writing any facts bearing upon the desirability of a hearing on the matter and may request that a hearing be held, such request stating the nature of his interest, the reasons for such request and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such communication or request should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D. C. At any time after said date, the application may be granted as provided in rule N-5 of the rules and regulations promulgated under the act.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

FEDERAL REGISTER

VOLUME 22 NUMBER 45

Washington, Thursday, March 7, 1957

THE NATIONAL ARCHIVES OF THE UNITED STATES 1934

UNIVERSITY OF MICHIGAN MAR 11 1957 MAIN READING ROOM

TITLE 3—THE PRESIDENT

PROCLAMATION 3172

ARMED FORCES DAY

BY THE PRESIDENT OF THE UNITED STATES OF AMERICA

A PROCLAMATION

WHEREAS the armed forces of the United States manifest our strength and our determination to maintain our national freedom and security; and

WHEREAS members of the active and reserve components of the armed forces of the United States are engaged in programs designed to demonstrate to all the peoples of the world our purpose to uphold and defend the free way of life; and

WHEREAS the year 1957 marks the tenth anniversary of the unification of our armed forces under the National Security Act of 1947; and

WHEREAS it is appropriate that we dedicate one day each year to paying special tribute to the members of our armed forces, and that on such day the armed forces demonstrate to the people of the Nation their operations and capabilities; and

WHEREAS it is also appropriate that the public be invited to visit on that day, within the limits permitted by security requirements, the posts, camps, stations, bases, vessels, armories, reserve centers, and other facilities:

NOW, THEREFORE, I, DWIGHT D. EISENHOWER, President of the United States of America and Commander in Chief of the armed forces of the United States, do hereby proclaim the third Saturday of May in 1957 and the third Saturday of May in each succeeding year as Armed Forces Day; and I direct the Secretary of Defense on behalf of the Army, the Navy, and the Air Force, and the Secretary of the Treasury on behalf of the Coast Guard, to mark that day each year with appropriate ceremonies, to arrange for demonstrations and displays at armed-forces installations, to invite participation by representatives of all religious faiths in such ceremonies, in order that the interdependence of the deep and abiding religious faith of Americans and our security may be recognized, and to work hand in hand with civil authorities in arranging other supporting activities. I further direct the Secretary of Defense, as my personal representative, to assume the responsibility for initiating, formulating, and supervising policies and procedures in keeping with this proclamation.

I also invite the Governors of the States, Territories, and possessions of the United States to provide for the observance of Armed Forces Day each year in such manner as will afford an opportunity for the people of the United States to become better acquainted with their armed forces, both active and reserve.

And I call upon my fellow citizens to display the flag of the United States on Armed Forces Day, in recognition of the sacrifice and devotion to duty of the members of the armed forces.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the Seal of the United States of America to be affixed.

DONE at the City of Washington this fifth day of March in the year of our Lord nineteen hundred and [SEAL] fifty-seven, and of the Independence of the United States of America the one hundred and eighty-first.

DWIGHT D. EISENHOWER

By the President:

JOHN FOSTER DULLES, *Secretary of State.*

Subchapter B—Food and Food Products

PART 37—FISH; DEFINITIONS AND STANDARDS OF IDENTITY; STANDARDS OF FILL OF CONTAINER

ORDER EXTENDING TIME IN WHICH TO FILE OBJECTIONS TO ORDER ACTING ON PROPOSAL TO ADOPT DEFINITION AND STANDARD OF IDENTITY AND STANDARDS OF FILL OF CONTAINER FOR CANNED TUNA FISH

A request has been received requesting a 60-day extension of time in which to file objections to the order promulgating a definition and standard of identity and standards of fill of container for canned tuna fish which was published in the FEDERAL REGISTER of February 13, 1957 (22 F. R. 892, 979). The request sets forth reasonable grounds for such extension.

In exercise of the authority vested in the Secretary of Health, Education, and Welfare by the Federal Food, Drug, and Cosmetic Act (secs. 401, 701, 52 Stat. 1046, 1055, as amended 70 Stat. 919; 21 U. S. C. 341, 371) and in accordance with the authority delegated to him by the Secretary (22 F. R. 1045), the Commissioner of Food and Drugs hereby extends until May 13, 1957, the time for filing objections to the order promulgating a definition and standard of identity and standards of fill of container for canned tuna fish.

Dated: February 28, 1957.

[SEAL] GEO. P. LARRICK, *Commissioner of Food and Drugs.*

TITLE 25—INDIANS

Chapter I—Bureau of Indian Affairs, Department of the Interior

Subchapter R—Leases and Sale of Minerals, Restricted Indian Lands

PART 186—LEASING OF TRIBAL LANDS FOR MINING

PART 195—LEASING OF LANDS IN CROW INDIAN RESERVATION, MONTANA, FOR MINING

ACREAGE LIMITATION

1. Section 186.9 is amended to read as follows:

§ 186.9 *Acreage limitation.* A lessee may acquire more than one lease but no single lease shall be granted for mining purposes on Indian tribal or restricted Indian lands, exclusive of Osage and Quapaw lands, in excess of the following acreage except where the rule of approximation applies:

(a) For oil and gas and all other minerals, except coal, 2,560 acres.

(b) (1) For coal, a lease shall dinarily be limited to 2,560 acres. The

Commissioner may, however, upon application, approve the combining of leases held by one or more lessees, or approve the issuance of a single lease for more than 2,560 acres in a reasonably compact form, if he shall find that the approval of such larger acreage is in the interest of the lessor and is necessary to permit the establishment or construction of thermal electric power plants or other industrial facilities on or near the reservation. He may prescribe provisions in such larger leases to require relinquishment of acreage in the event of failure to construct facilities, or may require advance rental or minimum royalty payments on a part of the acreage as a condition for combining leases or issuance of a single lease in excess of 2,560 acres.

(2) The Commissioner, with the consent of the lessor, may alter, change, or modify the development and producing requirements of the several leases and provide that operations and production on one lease shall be deemed to satisfy the development and producing requirements as to each lease combined.

2. Section 195.10 is amended to read as follows:

§ 195.10 *Lease acreage.* The provisions of § 186.9 of this subchapter, or as hereafter amended, are applicable to leases under this part.

(Secs. 16, 17, 48 Stat. 987, 988, sec. 9, 49 Stat. 1968, sec. 4, 52 Stat. 348; 25 U. S. C. 396d, 476, 477, 509)

HATFIELD CHILSON,
Acting Secretary of the Interior.

Chapter I—Coast Guard, Department of the Treasury

Subchapter K—Security of Vessels

[CGFR 57-6]

PART 121—SPECIAL VALIDATION ENDORSEMENT FOR EMERGENCY SERVICE FOR MERCHANT MARINE PERSONNEL

HOLDERS OF SPECIAL VALIDATION ENDORSEMENT

It is hereby found that compliance with the notice of proposed rule making, public rule making procedures thereon, and effective date requirements of the Administrative Procedure Act is contrary to the public interest since this amendment of 33 CFR Part 121 is to give effect to Executive Order 10173, as amended, and in the public interest should be placed in effect as soon as possible.

By virtue of the authority vested in me as Commandant, United States Coast Guard, by Executive Order 10173, as amended, § 121.09 (b) is amended to read as follows:

(b) If the holder refuses or fails to submit complete replies within 30 days after receipt of the request, the Commandant may issue the written notice provided for in §121.11 (a).

This amendment shall become effective upon the date of publication in the FEDERAL REGISTER.

(40 Stat. 220, as amended; 50 U. S. C. 191, E. O. 10173, 15 F. R. 7005, 3 CFR, 1950 Supp., E. O. 10277, 16 F. R. 7537, 3 CFR, 1951 Supp., E. O. 10352, 17 F. R. 4607, 3 CFR, 1952 Supp.)

Dated: February 18, 1957.

[SEAL] A. C. RICHMOND,
Vice Admiral, U. S. Coast Guard, Commandant.

Chapter I—National Park Service, Department of the Interior

PART 20—SPECIAL REGULATIONS

GRAND TETON NATIONAL PARK; FISHING

1. Subparagraph (4) of paragraph (b) *Fishing*, of § 20.22, *Grand Teton National Park*, is amended to read as follows:

(4) The use or possession of fish eggs or fish for bait is prohibited in all Park waters, except that it shall be permissible to use and have in possession dead fish for use as bait on or along the shores of Jackson Lake. Authorized dealers in bait fish may retain such fish in live condition in containers removed from any fishing waters, but such fish must be dead when sold.

(Sec. 3, 39 Stat. 535, as amended; 16 U. S. C. 3)

Issued this first day of February 1957.

FRANK R. OBERHANSLEY,
Superintendent, Grand Teton National Park.

TITLE 39—POSTAL SERVICE

Chapter I—Post Office Department

PART 4—INFORMATION ON POSTAL MATTERS

PART 46—RURAL SERVICE

PART 61—MONEY ORDERS

PART 100—POSTAL UNION ARTICLES

MISCELLANEOUS AMENDMENTS

1. Section 4.2 *General postal publications*, is amended to read as follows:

§ 4.2 *General postal publications.* The following postal publications are available from the Superintendent of Documents, Government Printing Office, Washington 25, D. C.:

(a) The Postal Manual contains the regulations and internal instructions governing the operation of the Postal Service. Chapter 1 contains the regulations governing domestic mail service intended to assist the mailing public in obtaining maximum use of this service. Chapter 2 contains corresponding regulations governing the international mail service. ($2 for chapters 1 and 2, together with periodic looseleaf supplements for approximately 1 year.)

(b) Directory of Post Offices contains (1) a list of postal delivery zone offices, (2) an alphabetical list of post offices, (3) a list of post offices arranged alphabetically by States, and (4) a list of Army and Air Force installations. ($8 with binder; $5 without binder. Prices include subscription to looseleaf amendments for an indefinite period.)

(c) Directory of International Mail contains rates and other conditions in detail governing mail to foreign countries, but excludes the information covered in general for all countries in chapter 2 of the Postal Manual. ($5 with binder; $2.50 without binder. Prices include subscription to looseleaf amendments for an indefinite period.)

(d) The Postal Bulletin is issued once a week to transmit timely or transitional instructions and information relating to the Postal service, including philatelic, air mail, money order, parcel post, etc. ($2.25 a year.)

(e) Post Offices by Counties lists all post offices alphabetically by counties within States, post offices where county seat courthouses are located, the number of rural mail boxes served from the various post offices within each county, the number of star route boxes served, and the number of boxes at those post offices which do not have city carrier service. (60 cents a copy.)

(f) Receipts and Classes of Post Offices lists all post offices alphabetically by States and gives their receipts and their class and the salary level of the postmaster. ($1.00 a copy.)

(g) First-Class Post Offices with Named Stations and Branches lists all first-class post offices with branches and named stations arranged alphabetically by States. It includes post office unit numbers and has been prepared for use in mailing parcel post under readjusted size and weight limits. (35 cents a copy.)

(h) Postal Laws is a compilation of all the laws affecting the Post Office Department. It contains all of title 39 of the U. S. Code, as well as pertinent parts of titles 5, 6, 10, 16, 18, 28, 31, and 41. ($1.00 a copy.)

(i) Postage Stamps of the United States, 1847-1955, lists all issues of stamps from the first adhesive stamp, issued in 1847, through the Andrew Mellon Stamp, issued December 20, 1955. It contains an illustration of each stamp and gives detailed information on each stamp as well as miscellaneous historical information on stamps. (75 cents a copy.)

(j) United States Domestic Postage Rates 1789-1956 contains a compilation of United States domestic rates, fees, and charges from March 4, 1789, to September 1, 1956. (45 cents a copy.)

(R. S. 161, 396, as amended; 5 U. S. C. 22, 369)

2. In § 46.5 *Rural boxes* (21 F. R. 8395), add the following to paragraph (c): "For the purpose of this regulation the name of the publication on the receptacle will not be considered advertising."

(R. S. 161, 396, as amended; sec. 1, 39 Stat. 423; 5 U. S. C. 22, 369, 39 U. S. C. 191, 192)

3. In § 61.4 *Lost or damaged money orders* (21 F. R. 8106), amend paragraph (d) to read as follows:

(d) *Payment of duplicate orders.* A duplicate money order is payable only to the payee named thereon or to his endorsee.

(R. S. 161, 396, as amended, 4027; 5 U. S. C. 22, 369, 39 U. S. C. 711)

4. In § 100.1 *Services available and air mail rates*, amend the table of countries as follows:

Opposite "Libya (United Kingdom of)" and under "Special delivery" change X to V.

(R. S. 161, 396, as amended, 398, as amended; 5 U. S. C. 22, 369, 372)

[SEAL] ABE MCGREGOR GOFF,
General Counsel.

[F. R. Doc. 57-1716; Filed, Mar. 6, 1957; 8:50 a. m.]

TITLE 43—PUBLIC LANDS: INTERIOR

Chapter I—Bureau of Land Management, Department of the Interior

Subchapter A—Alaska

[Circular 1971]

PART 65—HOMESTEADS IN ALASKA

MISCELLANEOUS AMENDMENTS

On pages 9995-9996, inclusive, of the FEDERAL REGISTER of December 15, 1956, there was published a notice of proposed rule making allowing a homesteader settling on unsurveyed public lands in Alaska to make single final proof prior to survey of the lands. Interested persons were given 30 days within which to submit written comments, suggestions or objections with respect to the proposed regulations. No comments or suggestions were submitted within the 30-day period. Consequently, the proposed regulations are hereby adopted without change and are set forth below.

HATFIELD CHILSON,
Acting Secretary of the Interior.

FEBRUARY 28, 1957.

Part 65 is amended as indicated below:

1. Footnote 1 is amended to read as follows:

[1] The homestead laws were extended to Alaska by the act of May 14, 1898 (30 Stat. 409; 48 U. S. C. 371), which was amended by the acts of March 3, 1903 (32 Stat. 1028; 48 U. S. C. 371), July 8, 1916 (39 Stat. 352; 48 U. S. C. 373-375, 378), June 28, 1918 (40 Stat. 632; 48 U. S. C. 373-375, 378), April 13, 1926 (44 Stat. 243; 48 U. S. C. 379, 380, 380a), and July 11, 1956 (70 Stat. 528; 48 U. S. C. 371c and 375).

2. Section 65.3b is revised to read as follows:

§ 65.3b *Failure to file notice.* Unless a notice of the claim is filed within the time prescribed in § 65.3, no credit shall be given for residence and cultivation had prior to the filing of notice or application to make entry, whichever is earliest.

3. The title and text of § 65.8 are amended to read as follows:

§ 65.8 *Applications for entry.* (a) A homestead application must describe the lands desired, if surveyed, according to legal subdivisions as shown by the plat of survey, and, excepting that it must thus conform and that the lands must be contiguous, there is no restriction as to the shape of the tract which may be entered. Where a settlement was made and a location notice posted and filed for record before the extension of the surveys, the application should make reference thereto; it should be stated also to what extent the land applied for is different from that covered by the notice; and the settler may not abandon all of the subdivisions covered by the location unless a showing is made which would justify amendment of his claim.

(b) A homestead application must describe the lands desired, if unsurveyed, by metes and bounds with relation to some natural or permanent monuments, and give the approximate latitude and longitude and otherwise with as much certainty as possible without actual survey. Reference should be made to the serial number of the notice of settlement previously filed. If there has been any material deviation made in the description of the land claimed, a full explanation must be given of the reason for such deviation. A homestead application for unsurveyed lands must be accompanied by the settler's final or commutation homestead proof.

4. Section 65.20 is amended to read as follows:

§ 65.20 *Survey without expense to settler.* The land included in a settlement claim may be surveyed without expense to the settler, provided he submits, within five years from the date of the filing of notice of settlement claim in the land office, an application to enter on Form 4-007 and acceptable final or commuted homestead proof as required by § 65.23.

5. Section 65.21 is amended to read as follows:

§ 65.21 *Survey at expense of settler.* A settler who wishes to secure earlier action in the matter of survey may have a survey made at his own expense by a deputy surveyor appointed by the authorized officer of the Bureau of Land Management.

6. Section 65.22 is amended to read as follows:

§ 65.22 *Application to enter land included in special survey.* After a special survey has been made, in accordance with § 65.21, application to enter should be made as in the case of other settlements on surveyed lands.

7. Paragraph (a) of § 65.23 is amended to read as follows:

§ 65.23 *Submission of proof.* (a) Proof may be submitted without previous notice of intention by publication.

8. Paragraph (a) of § 65.25 is amended to read as follows:

§ 65.25 *Publication and posting.* (a) Where a special survey has been made, the notice of proof must give the survey number of the land, and other information required by § 60.3 of this chapter, and it must be published once a week for nine consecutive weeks, in accordance with § 106.14 of this chapter, at the expense of the applicant, in a newspaper designated by the manager as being one of general circulation nearest the land. Moreover, during the period of publication the entryman must keep a copy of the plat, and of his notice of having made proof, posted in a conspicuous place on the land.

(R. S. 2478, sec. 1, 30 Stat. 409, as amended; 43 U. S. C. 1201, 48 U. S. C. 371)

Appendix—Public Land Orders

[Public Land Order 1393]

[71797]

ARIZONA AND NEW MEXICO

PARTIALLY REVOKING DEPARTMENTAL ORDERS OF NOVEMBER 26, 1906, JANUARY 15, 1908, AND JUNE 11, 1908, WHICH RESERVED LANDS FOR USE OF FOREST SERVICE AS ADMINISTRATIVE SITES

By virtue of the authority vested in the President and pursuant to Executive Order No. 10355 of May 26, 1952, it is ordered as follows:

1. The orders described below, withdrawing public lands in Arizona and New Mexico for use of the Forest Service, Department of Agriculture, as administra-

tive sites, are hereby revoked so far as they affect the lands described:

ARIZONA

(a) The departmental order of January 15, 1908, reserving the following-described lands as the Base Line Administrative Site:

GILA AND SALT RIVER MERIDIAN

T. 1 S., R. 31 E.,
Sec. 8, an irregular tract comprising 6.07 acres.

(b) The departmental order of June 11, 1908, reserving the following described lands as the Pine Flat Administrative Site:

GILA AND SALT RIVER MERIDIAN

T. 1 S., R. 29 E.,
Secs. 3, 4, 9, and 10, an irregular tract comprising 80 acres.

NEW MEXICO

(c) The departmental order of November 26, 1906, reserving the following-described lands as Ranger Stations Nos. 31 and 55:

NEW MEXICO PRINCIPAL MERIDIAN

STATION NO. 31

T. 11 S., R. 20 W.,
Sec. 23, lots 6 and 9 (formerly E½SE¼).

The areas described aggregate 80 acres.

STATION NO. 55

T. 15 S., R. 16 W.,
Sec. 7, lots 1 and 2.

The areas described aggregate 80.93 acres.

2. Lots 1 and 2, sec. 7, T. 15 S., R. 16 W., N. M. P. M., New Mexico, are within Power Site Reserve No. 759 created by the Executive order of November 22, 1924. These lands shall be opened to mining location pursuant to the act of August 11, 1955 (69 Stat. 683; 30 U. S. C. 621) on April 5, 1957. Lots 6 and 9, sec. 23, T. 11 S., R. 20 W., N. M. P. M., New Mexico were withdrawn by Public Land Order No. 1119 of April 12, 1955, for use of the Forest Service as the South Western Baptist Association, Inc., Organization Camp (recreation area).

3. The remaining lands, aggregating approximately 86.07 acres, are within the Gila National Forest, Arizona, and shall be opened, subject to any valid existing rights and the requirements of applicable law, to such applications, selections, and locations as are permitted on national forest lands effective at 10:00 a. m. on February 28, 1957.

HATFIELD CHILSON,
Acting Secretary of the Interior.

[F. R. Doc. 57-1696; Filed, Mar. 6. 1957; 8:46 a. m.]

[Public Land Order 1394]

ALASKA

WITHDRAWING PUBLIC LANDS FOR RECREATIONAL PURPOSES; PARTIALLY REVOKING PUBLIC LAND ORDERS NO. 802 OF FEBRUARY 5, 1952 AND NO. 891 OF APRIL 15, 1953

By virtue of the authority vested in the President and pursuant to Executive Order No. 10355 of May 26, 1952, it is ordered as follows:

Subject to valid existing rights, the following-described public lands in Alaska, which have been classified as chiefly valuable for recreational purposes, are hereby withdrawn from all forms of appropriation under the public land laws, including the mining but not the mineral-leasing laws nor the act of July 31, 1947 (61 Stat. 681; 69 Stat. 367; 30 U. S. C. 601–604) as amended, and reserved for administration or transfer in accordance with the provisions of the act of May 4, 1956 (70 Stat. 130):

[Fairbanks 012679]

LAKE MINCHUMINA

Lot 1, U. S. Survey No. 3315.

The tract described contains 2.04 acres.

[Anchorage 026810]

NANCY LAKE AREA—SEWARD MERIDIAN

T. 19 N., R. 4 W.,
Sec. 34, lots 4 and 19, S½SW¼NE¼.

The areas described aggregate approximately 63.14 acres.

[Anchorage 026981]

PETER'S CREEK—SEWARD MERIDIAN

T. 15 N., R. 1 W.,
Sec. 5, lots 68, 78 and 79;
Sec. 9, lots 10, 14, NE¼NE¼SE¼, N½SE¼NE¼SE¼, W½SW¼SE¼NE¼SE¼, N½NW¼SE¼SE¼, W½NW¼NE¼SE¼SE¼.

The areas described contain approximately 49.08 acres.

[Anchorage 027659]

TALKEETNA LAKE—SEWARD MERIDIAN

T. 26 N., R. 4 W.,
Sec. 29, that portion of lot 1 which would be described in terms of normal subdivision as NW¼NW¼NW¼ and N½SW¼NW¼NW¼;
Sec. 30, that portion of lot 8 which would be described in terms of normal subdivision as NE¼SE¼NE¼.

The areas described contain approximately 15 acres.

Public Land Orders No. 802 of February 5, 1952 and No. 891 of April 15, 1953, which reserved lands for classification, are hereby revoked so far as they affect lots 68, 78 and 79, sec. 5 and lots 10, 14, NE¼NE¼SE¼, N½SE¼NE¼SE¼, W½SW¼SE¼NE¼SE¼, N½NW¼SE¼SE¼, W½NW¼NE¼SE¼SE¼, sec. 9, T. 15 N., R. 1 W.

HATFIELD CHILSON,
Acting Secretary of the Interior.

FEBRUARY 28, 1957.

[Public Land Order 1395]

[71181]

IDAHO

POWER SITE RESTORATION NO. 521; PARTIALLY REVOKING THE EXECUTIVE ORDER OF NOVEMBER 21, 1916, WHICH CREATED POWER SITE RESERVE NO. 565

By virtue of the authority vested in the President by section 1 of the act of June 25, 1910, c. 421 (36 Stat. 847; 43 U. S. C. 141) and pursuant to Executive Order No. 10355 of May 26, 1952, it is ordered as follows:

1. The Executive order of November 21, 1916, creating Power Site Reserve No. 565, as construed by Departmental Interpretation No. 13 of April 22, 1922, is hereby revoked so far as it affects the following-described lands:

BOISE MERIDIAN

T. 9 S., R. 17 E.,
Sec. 34, lots 7, 8, and 9;
Sec. 35, N½N½.

The areas described aggregate 279.19 acres.

2. The lands are located about three miles northerly from Twin Falls, Idaho, on the north side of the Snake River Canyon. They lie in and are adjacent to a fairly large block of Federal land which extends several miles to the west, north, and east. U. S. Highway 93 crosses the lands at approximately the subdivision line between lots 8 and 9. The topography is generally undulating to rolling and beset with numerous large lava outcrops. The vegetation consists mainly of cheat grass and mustard with minor quantities of other annual weeds and grasses. The land is unsuitable for farming because of adverse topography and rock.

3. No application for the lands may be allowed under the homestead, desert-land, small tract, or any other nonmineral public-land law unless the lands have already been classified as valuable or suitable for such type of application, or shall be so classified upon the consideration of an application. Any application that is filed will be considered on its merits. The lands will not be subject to occupancy or disposition until they have been classified.

4. Subject to any valid existing rights and the requirements of applicable law, the lands are hereby opened to filing of applications, selections, and locations in accordance with the following:

a. Applications and selections under the nonmineral public-land laws may be presented to the Manager mentioned below, beginning on the date of this order. Such applications and selections will be considered as filed on the hour and respective dates shown for the various classes enumerated in the following paragraphs:

(1) Applications by persons having prior existing valid settlement rights, preference rights conferred by existing laws or equitable claims subject to allowance and confirmation will be adjudicated on the facts presented in support of each claim or right. All applications presented by persons other than those referred to in this paragraph will be subject to the applications and claims mentioned in this paragraph.

(2) All valid applications under the Homestead, Desert Land, and Small Tract Laws by qualified veterans of World War II or of the Korean Conflict, and by others entitled to preference rights under the act of September 27, 1944 (58 Stat. 747; 43 U. S. C. 279–284 as amended), presented prior to 10:00 a. m., on April 6, 1957, will be considered as simultaneously filed at that hour. Rights under such preference right applications filed after that hour and before 10:00 a. m., on July 6, 1957, will be governed by the time of filing.

(3) All valid applications and selections under the non-mineral public-land laws, other than those coming under paragraphs (1) and (2) above, presented prior to 10:00 a. m., on July 6, 1957, will be considered as simultaneously filed at that hour. Rights under such application and selections filed after that hour will be governed by the time of filing.

b. The lands have been open to applications and offers under the mineral-leasing laws. They also have been open to location under the U. S. mining laws pursuant to the provisions of the act of August 11, 1955 (69 Stat. 683; 30 U. S. C. 621).

5. Persons claiming veterans preference rights must enclose with their applications proper evidence of military or naval service, preferably a complete photostatic copy of the certificate of honorable discharge. Persons claiming preference rights based upon valid settlement, statutory preference, or equitable claims must enclose properly corroborated statements in support of their claims. Detailed rules and regulations governing applications which may be filed pursuant to this notice can be found in Title 43 of the Code of Federal Regulations.

6. The lands released from withdrawal by this order shall be subject, until 10:00 a. m., on July 5, 1957, to application by the State of Idaho, under any statute or regulation applicable thereto, for rights-of-way for public highways or as a source of material for the construction and maintenance of such highways pursuant to section 24 of the Federal Power Act of June 10, 1920 (41 Stat. 1075; 16 U. S. C. 818) as amended.

Inquiries concerning the lands shall be addressed to the Manager, Land Office, Bureau of Land Management, Boise, Idaho.

HATFIELD CHILSON,
Acting Secretary of the Interior.

MARCH 1, 1957.

[F. R. Doc. 57-1698; Filed, Mar. 6, 1957; 8:47 a. m.]

TITLE 45—PUBLIC WELFARE

Chapter I—Office of Education, Department of Health, Education, and Welfare

PART 130—FEDERAL ASSISTANCE UNDER THE LIBRARY SERVICES ACT, PUBLIC LAW 597, 84TH CONGRESS, 2D SESSION, TO PROMOTE THE FURTHER EXTENSION BY THE SEVERAL STATES OF PUBLIC LIBRARY SERVICES TO RURAL AREAS WITHOUT SUCH SERVICES OR WITH INADEQUATE SERVICES

REQUIREMENTS FOR PAYMENT

Paragraph (b) of § 130.16 (21 F. R. 9651) is hereby amended so as to modify the requirements of subparagraph (2) thereof as applied to cases where, under the initial State plan, the program for the fiscal year covers a period of less than 12 months.

Section 130.16 (b) as so amended reads as follows:

(b) There will be available for expenditure (1) for all public library services, from State and local sources, in the geographic areas covered by the plan, an amount which will be not less than the total amount spent for such services from such sources in such areas during the fiscal year which ended June 30, 1956, and (2) for public library services under the plan, from State and local sources, in the geographic areas covered by the plan, an amount which will be not less than the total amount spent from such sources in such areas for services of the same type during the fiscal year which ended June 30, 1956: *Provided*, That in any case where payments are being made for the first time under the initial State plan, and the program for the fiscal year in question covers a period of less than 12 months, the requirements of subparagraph (2) of this paragraph may be met if the amounts available for expenditure under the plan are not less than an equivalent fractional portion of the amounts spent during the fiscal year ending June 30, 1956.

(Sec. 8, Pub. Law 597, 84th Cong., sec. 8, 70 Stat. 295)

Dated: February 12, 1957.

[SEAL] L. G. DERTHICK,
United States Commissioner of Education.

Approved: March 1, 1957.

M. B. FOLSOM,
Secretary of Health, Education, and Welfare.

PROPOSED RULE MAKING

DEPARTMENT OF THE TREASURY

United States Coast Guard

[46 CFR Parts 10, 12, 25, 31–33, 51, 52, 54–57, 61, 70–76, 78, 90, 91, 94, 95, 97, 144, 146, 147, 160]

[CGFR 57-5]

NAVIGATION AND VESSEL INSPECTION REGULATIONS

PUBLIC HEARING ON PROPOSED CHANGES

The Merchant Marine Council will hold a public hearing on Tuesday, May 7, 1957, commencing at 9:30 a. m., in Room 4120, Coast Guard Headquarters, Thirteenth and E Streets NW., Washington, D. C., for the purpose of receiving comments, views, and data on certain proposed changes in the navigation and vessel inspection regulations as generally described in Items I to XVI, inclusive, below.

The proposed changes in the navigation and vessel inspection regulations, together with the statutory authority for making such changes, are generally described by subjects in this document. The Merchant Marine Council Public Hearing Agenda (CG–249), dated May 1957, has been prepared. The specific changes proposed and where possible the present and proposed regulations are set forth in comparison form, together with reasons for the changes where necessary, in this Agenda. Copies of this Agenda are mailed to persons and organizations who have expressed a continued interest in the subjects under consideration and have requested that copies be furnished them. Copies of the Agenda will be furnished so long as they are available and requests should be addressed to the Commandant (CMC), United States Coast Guard, Washington 25, D. C. After the extra copies for distribution are exhausted, copies will be available for reading purposes only in Room 4104, Coast Guard Headquarters, or at the offices of the various Coast Guard District Commanders.

Comments on the proposed regulations are invited. Written comments containing constructive criticisms, suggestions, or views are welcomed; however, acknowledgment of the comments received or reasons why the suggested changes were or were not adopted cannot be furnished since personnel is not available to handle the necessary correspondence involved. Each oral or written comment is considered and evaluated. If it is believed the comment, view, or suggestion clarifies or improves the proposed regulation or amendment, it is changed accordingly and after adoption by the Commandant the regulation is published in the FEDERAL REGISTER. Each person who desires to submit written comments, data, or views, in connection with the proposed regulations set forth in the Merchant Marine Council Public Hearing Agenda should submit them so that they will be received prior to April 20, 1957, by the Commandant (CMC), United States Coast Guard Headquarters, Washington, D. C. Comments, data, or views may be presented orally or in writing at the hearing before the Merchant Marine Council on April 23, 1957. In order to insure consideration of comments and to facilitate checking and recording, it is essential that each comment regarding a section or paragraph of the proposed regulations shall be submitted on Form CG–3287, showing the item number, the section number, the proposed change, the reason or basis (if any), and the name, business firm or organization (if any), and the address of the submitter. A small quantity of Form CG–3287 is at-

tached to the Agenda. Additional copies may be obtained upon request from the Commandant (CMC), or from any Coast Guard District Commander.

ITEM I—DECK LICENSES AS MASTER AND CHIEF MATE FOR VESSELS ENGAGED IN OFFSHORE MINERAL AND OIL INDUSTRY

It is proposed to add new requirements to 46 CFR 10.05–5, 10.05–27, and 10.05–45 in order to establish suitable licenses for masters and chief mates of vessels engaged in the offshore mineral and oil industry on the Continental Shelf of the United States. Since 1948 it has been an administrative practice to issue a special limited license as master or chief mate of motor vessels of not more than 300 gross tons engaged in the offshore mineral and oil industry. Basically the requirements are the same as for coastwise licenses which at present are limited to 35 miles offshore. No celestial navigation other than an azimuth of the sun, has been required for this license. The administrative standards established in 1948 for these special deck licenses as master and chief mate were discussed with representatives of the industry through the special 8th Coast Guard District Oil Industry Panel. The proposals are basically those administratively followed since 1948 with certain modifications.

Considerable concern has been shown regarding the professional examination required to obtain these special deck licenses as master and chief mate for motor vessels engaged in the offshore mineral and oil industry. While the terminology used in the proposed regulations may appear to indicate a complex professional examination, this is not necessarily true. The Coast Guard uses a Deck Examination Card File consisting of many questions for the lower grades of licenses which deal with the fundamentals of the subjects listed and which are suitable for examining prospective officers for vessels of less than 300 gross tons. In order to set up equitable and fair standards for these special licenses, it is necessary to take into consideration the present requirements for licenses as master and mate of uninspected motor vessels that have been in effect for the past 15 years. Reasonable standards for these special licenses for inspected vessels engaged in one industry, which will carry freight and passengers for hire, are proposed and are equivalent to the examination standards required for licenses as masters and mates of uninspected towing vessels and fishing vessels. Except for the celestial navigation required for licenses as masters and mates of uninspected vessels, the examinations for officers' licenses for uninspected vessels and the special licenses proposed for masters and chief mates of vessels engaged in offshore mineral and oil vessels are comparable.

The authority to issue regulations with respect to licensing masters and chief mates of vessels engaged in offshore mineral and oil industry is in R. S. 4405, as amended, and 4462, as amended (46 U. S. C. 375, 416). These regulations interpret or apply R. S. 4417a, as amended, 4426, as amended, 4427, as amended, 4438–4440, as amended, 4445, as amended, 4447, as amended, sec. 2, 29 Stat. 188, as amended, sec. 1, 3 Stat. 1411, as amended, secs. 7, 17, 54 Stat. 165, 166, as amended, sec. 3, 54 Stat. 346, as amended, sec. 2, 68 Stat. 484, and sec. 3, 68 Stat. 675; 46 U. S. C. 391a, 404, 405, 224, 224a, 226, 228, 231, 233, 225, 237, 526f, 526p, 1133, 239b, and 50 U. S. C. 198.

ITEM II—LIFEBOATMEN, EXAMINATION AND DEMONSTRATION OF ABILITY

The provisions in R. S. 4488, as amended (46 U. S. C. 481), require lifeboats on all vessels to be commanded by a licensed officer or able seaman and certificated lifeboatmen are required in such numbers as the size of the boat warranted. The primary statutory duty of certificated lifeboatmen is to act as skilled members of the lifeboat's crew. The International Convention for Safety of Life at Sea, 1948, provides that certificated lifeboatmen may be in command of lifeboats. Therefore, the Coast Guard regulations were amended to permit, on vessels engaged in ocean service only, licensed deck officers, able seamen, and certificated lifeboatmen to be in command of lifeboats as provided by the 1948 Safety Convention.

It is proposed to revise 46 CFR 12.10–5 so that the examination syllabus for lifeboatmen will require the applicant to demonstrate his proficiency in command of a lifeboat, as well as being a skilled member of the lifeboat's crew. This change is to insure that all prospective candidates for endorsements as lifeboatmen can perform the functions authorized by their certificates. It is not intended to require present holders of certificates as lifeboatmen or special endorsements on Merchant Mariner's Documents as lifeboatmen to take this examination.

The authority to issue regulations with respect to certificating lifeboatmen is in R. S. 4405, as amended, and 4462, as amended, 46 U. S. C. 375, 416. These regulations interpret or apply R. S. 4417a, as amended, 4488, as amended, secs. 1, 2, 49 Stat. 1544, as amended, sec. 3, 54 Stat. 346, as amended, and sec. 3, 68 Stat. 675; 46 U. S. C. 391a, 481, 367, 1333, and 50 U. S. C. 198.

ITEM III—LICENSE AS FIRST ASSISTANT ENGINEER OF STEAM AND MOTOR VESSELS OF NOT OVER 1,000 HORSEPOWER

It is proposed to amend 46 CFR 10.10–13 and 10.10–15 to permit third assistant engineers with unlimited licenses, who are 21 years of age or over, to be eligible for an examination as first assistant engineer of steam and motor vessels having not over 1,000 horsepower.

The authority to issue regulations with respect to licensing of engineers is in R. S. 4405, as amended, and 4462, as amended, 46 U. S. C. 375, 416. These regulations interpret or apply R. S. 4417a, as amended, 4426, as amended, 4427, as amended, 4488, as amended, 4441, as amended, 4445, as amended, 4447, as amended, sec. 2, Stat. 188, as amended, sec. 1, 34 Stat. 1411, as amended, secs. 1, 2, 49 Stat. 1544, as amended, sec. 3, 54 Stat. 346, as amended, and sec. 3, 68 Stat. 675; 46 U. S. C. 391a, 404, 405, 224, 224a, 225, 229, 231, 233, 225, 237, 367, 247, 1133, and 50 U. S. C. 198.

ITEM IV—DRYDOCKING OF PASSENGER, TANK, CARGO, AND MISCELLANEOUS VESSELS

The present regulations provide that vessels shall be placed in drydock or on a slip-way or hauled out for examination, depending upon their service and type of water in which operated. The present wording permits extensive maximum intervals to occur between the drydockings. Vessels operating in salt waters more than six months in each calendar year are required to be drydocked once in each calendar year, thus permitting nearly two calendar years between drydockings. Vessels operating in salt waters six months or less each calendar year are required to be drydocked once in each two calendar years, thus permitting a singular maximum interval of almost four years. Vessels operating exclusively in fresh water are required to be drydocked at least once in every five calendar years, thus permitting a singular maximum interval of almost ten years. The American Bureau of Shipping requirements for maintenance of class is more restrictive than the present Coast Guard requirements. In order to eliminate the possibility of an unduly long interval between drydocking, it is proposed to amend 46 CFR 31.10–20, 71.50–1, and 91.40–1 so that the maximum interval between any two drydockings shall not exceed 18 months for vessels operating in salt water service for more than six months in a calendar year, or a maximum interval not to exceed three years for vessels operating in salt water service six months or less in a calendar year, and a maximum interval not to exceed five years when the vessel's operations are confined exclusively to fresh water.

The authority for regulations regarding drydocking of passenger, tank, cargo, and miscellaneous vessels is in R. S. 4405, as amended, and 4462, as amended. The tank vessel regulations interpret or apply R. S. 4417a, sec. 3, 68 Stat. 675, 46 U. S. C. 391a, and 50 U. S. C. 198, and E. O. 10402, 17 F. R. 9917, 3 CFR 1952 Supp. The passenger, cargo, and miscellaneous vessel regulations interpret or apply R. S. 4399, as amended, 4400, as amended, 4417, as amended, 4418, as amended, 4421, as amended, 4423, as amended, 4426, as amended, 4428–4430, 4433, 4434, 4453, as amended, sec. 14, 29 Stat. 690, secs. 10, 11, 35 Stat. 428, 41 Stat. 305, as amended, secs. 1, 2, 49 Stat. 1544, as amended, 49 Stat. 1935, as amended, sec. 3, 54 Stat. 346, as amended, sec. 3, 68 Stat. 675; 46 U. S. C. 361, 362, 391, 392, 399, 400, 404, 406–408, 411, 412, 435, 366, 395, 396, 363, 367, 1333, 50 U. S. C. 196; E. O. 10402, 17 F. R. 9917; 3 CFR 1952 Supp.

ITEM V—CREW ACCOMMODATIONS ON TANK SHIPS

The requirements for crew accommodations for passenger vessels and cargo and miscellaneous vessels were revised in 1947 so that in computing the number of berths required in the hospital space, persons quartered in rooms for single occupancy were to be excluded. This policy has been applied to tank vessels, but the tank vessel regulations were not amended to reflect this policy. It is, therefore, proposed to amend 46 CFR 32.40–1 so that requirements for hospital accommodations will be identical with similar requirements for passenger vessels and for cargo and miscellaneous vessels. This proposed amendment does not impose any new requirements but rather serves as a relaxation in computing the number of hospital berths required or the number of total crew which may be carried with a given number of installed hospital berths.

The authority for regulations regarding crew accommodations on tank ships is in R. S. 4405, as amended, 4417a, as amended, and 4462, as amended, 46 U. S. C. 375, 391a, 416. These regulations also interpret or apply sec. 3, 68 Stat. 675, 50 U. S. C. 198; E. O. 10402, 17 F. R. 9917, 3 CFR 1952 Supp.

ITEM VI—MARINE ENGINEERING REGULATIONS AND MATERIAL SPECIFICATIONS; MISCELLANEOUS AMENDMENTS

The material specifications prescribed in Part 51 refer to standard specifications issued by the American Society for Testing Materials. It is proposed to amend 46 CFR 51.04–1, 51.07–1, 51.25–1, 51.34–1, 51.46–1, 51.49–1, 51.58–1, 51.61–1, 51.73–1, 51.79–1, so that reference to ASTM specifications which have been superseded will have substituted therefor the new standards issued. The proposed amendment to 46 CFR 51.34–1 will also include the ASTM Specification A106–55T for grade C pipe material for use in marine boilers. This material has been accepted by the ASME Boiler and Pressure Vessel Code Committee for use in construction of boilers and pressure vessels under their code. This pipe material is a special product not normally carried in stock and usually is supplied only on agreement between the manufacturer and the purchaser. The material has limited ductility due to high carbon content and high tensile strength. However, it is felt the material may be safely used in marine boiler design provided its use is limited to the construction of super-heater and economizer headers. Where welding fabrication is employed a preheat of at least 300 degrees F. will be required. To accomplish these changes it is proposed to also amend 46 CFR 52.05–10 and 55.07–1 by adding new requirements governing the use of ASTM Specification A106, grade C pipe material. It is also proposed to amend 46 CFR 52.05–10 by revising Table 52.05–10 (a) by deleting the minimum temperatures of minus 20 degrees F. indicated in the ambient metal temperature range of minus 20 to 650 degrees F., the seventh column heading, and to substitute 650 degrees F. therefor because of the susceptibility of carbon steel to brittle failures when subjected to subzero temperatures.

The current regulations require plan approval of jacket water and lube oil coolers designed for pressures exceeding 15 pounds per square inch. Since these unfired pressure vessels operate at low pressures and temperatures, it is felt that the manufacturer's standard construction may be safely accepted for such services. It is, therefore, proposed to amend 46 CFR 54.01–1 by adding to the classes of unfired pressure vessels not subject to plan approval or inspection, jacket water coolers and lubricating oil coolers containing mediums at or below the pressures and temperatures specified in Table 54.01–1 (c).

It is proposed to eliminate the submission of certain plans which are not considered necessary to the Coast Guard in determining basic safety features of the vessel. The proposed amendment to 46 CFR 55.01–10 regarding plan approval will permit diagrams of enumerated piping systems to be submitted for approval instead of arrangement plans.

The use of plastic pipe and flexible hose on merchant vessels has been requested. This has been permitted by administrative action. It is proposed to amend 46 CFR 55.07–1 by adding requirements regarding plastic pipe and flexible hose. The proposals are intended to be a guide for the industry and the Coast Guard marine inspector in determining the limitations to be imposed on these items.

The present design formulas for piping contained in the marine engineering regulations do not provide for a corrosion allowance for steel or wrought iron pipe. The American Standards Association's Code for Pressure Piping and the American Society for Mechanical Engineers' Power Boiler Code require a corrosion allowance to be added to the minimum pape wall thickness. The American Bureau of Shipping is currently proposing a change in their rules to provide for a corrosion allowance for steel or wrought iron pipe. It is proposed to amend 46 CFR 55.07–5 regarding maximum allowable stresses for piping so that an allowance for corrosion will be considered. It is also proposed to revise this section in order to bring the multiplier factor "M" in Table 55.07–5 (a) into agreement with the American Standards Association's Code for Pressure Piping (B31.1) and the American Society for Mechanical Engineers' Boiler and Unfired Pressure Vessel Code, as well as the rules of the American Bureau of Shipping. The proposed factors will provide a smoother transition from the elastic range to the plastic range. Since the proposed values in the multiplier factor will be lower the minimum required wall thicknesses for piping will be increased slightly although not sufficiently to affect current design of main steam piping. For the range of pipe sizes, pressures and temperatures now being used for marine piping, the increase in wall thickness will be in the order of 1 to 3 percent.

It is proposed to amend 46 CFR 55.07–6 regarding expansion and flexibility of piping, in order to bring the regulations into agreement with the new provisions in the American Standards Association's Code for Pressure Piping covering expansion and flexibility of main steam piping. The proposed regulations will be similar to this Code except that the allowable stresses will be limited to 80 percent of those permitted by the Code. This proposal is consistent with Coast Guard practices followed in connection with the design of main steam piping. It is felt that bending stresses in marine piping may be more severe than that encountered in stationary power plants. The proposed calculations for determining the flexibility in the piping system are based on the stress range concept, i. e., the sum of the hot and cold stresses in the piping system during any one cycle will remain substantially constant.

The markings for certain fittings, such as butt-welding fittings are not being furnished in conformance with Coast Guard marking requirements, but are rather complying with the standards for the valves and fittings industry published by the Manufacturers Standardization Society of the Valves and Fittings Industry in their Specification MSS Standard SP–25. It is proposed to revise the Coast Guard requirements in 46 CFR 55.07–10 governing valves and fittings, by eliminating the special Coast Guard marking requirements and to adopt and require the markings on valves, flanges, and fittings to be in conformance with the standard marking system normally used by the industry, as described in MSS Standard SP–25–1954.

Some misunderstanding has arisen in the use of slip-on flanges for class I or II piping. Since there is no difference in the limitations imposed, it is proposed to amend the text of the regulations referring to Figure 55.07–15 (f3) by removing specific references to classes I and II piping and to have limitations based on diameter size of pipe.

Several fires have occurred on merchant vessels when leaking oil was sprayed or dripped on hot surfaces. It is proposed to amend 46 CFR 55.07–25 by adding a new requirement that piping conveying oil shall be run well away from hot surfaces wherever possible. It is hoped this action will eliminate the cause of fires which have occurred in the past.

The design pressure of shore steam connections and piping is normally based upon the pressure from the normal facility which furnishes the steam. These pressures, however, vary depending upon the source of supply which may be from a shore installation or another vessel. It is, therefore, not possible to determine the maximum pressure to which the shore connections may be subjected. In order to prevent steam pressures exceeding design pressures of the shore steam line by a connection to a vessel, it is proposed to amend 46 CFR 55.10–1 to require the shore steam connection to be fitted with a relief valve set at a pressure not exceeding the design pressure of the piping.

It is proposed to amend 46 CFR 55.10–40 regarding fuel-oil service systems so that only one fuel-oil service pump and one fuel-oil heater will be required for auxiliary boilers having a generating capacity in excess of 3,000 pounds per hour when such boilers are used for non-vital service, such as heating, etc. The pumps for such boilers need not be fitted with discharge strainers.

Objections have been raised against the present requirement prohibiting drains or any openings in the bottom of gasoline fuel tanks. The difficulties in keeping the tank clear of water, rust, and sediment are recognized. It is, there-

fore, proposed to amend 46 CFR 55.10–45 so that openings fitted with threaded plugs or caps may be permitted in gasoline tanks. These openings are for cleaning purposes only.

Misunderstandings concerning the requirements for bilge and ballast piping run through deep tanks have arisen. It is, therefore, proposed to amend 46 CFR 55.07–25 so that the installation requirements will agree with the American Bureau of Shipping rules for similar installations and in order to clarify the intent of the regulations.

The 1948 Convention for the Safety of Life at Sea contains requirements for emergency bilge pump installations for passenger vessels which apply only to passenger vessels engaged on international voyages. The Coast Guard regulations need to be clarified with respect to requirements for passenger vessels having a criterion numeral of 30 or more. It is, therefore, proposed to amend 46 CFR 55.10–30 and Table 55.10–30 (a) so that all passenger vessels on international voyages having a criterion numeral of 30 or more will have one of the power bilge pumps available at all times for use under emergency conditions in which a vessel may be flooded at sea. The reference to requirements for determination of a criterion numeral is corrected to show it is in 46 CFR Part 73 (Passenger Vessels) rather than in 46 CFR Part 46 (Load Lines).

It is proposed to revise the regulations applicable to the ballasting of Great Lakes dry cargo vessels to recognize a long standing industrial practice followed in the operation of those vessels. It is proposed to amend 46 CFR 55.10–65 to permit Great Lakes dry cargo vessels to use hinged covers on the ballast water sounding pipes in lieu of the screw cap or plug required by the present regulations. It is not proposed to change the requirements for vessels operating in other types of waters.

At present the manufacturers of fabricated butt-welded fittings, i. e., fittings with longitudinal welded joints, do not hydrostatically test fittings to insure that the longitudinal welds are of acceptable quality. Therefore, it is proposed to establish standards of quality control under which fabricated welded fittings may be accepted by adding a new regulation designated 46 CFR 56.01–85.

A fabricator of unfired pressure vessels has requested permission to weld separate test plates for longitudinal joints on class I and II pressure vessels. The present requirements state test plates shall be a continuation of and a duplication of the corresponding edges of the longitudinal joint. The current American Society of Mechanical Engineers' Boiler Code allows detached test plates as an alternate method of welding the test plates required for power boiler construction. It is, therefore, proposed to amend 46 CFR 56.05–1 regarding test plates, to permit this alternate method for providing test plates when the same welding procedures are used.

A suggestion has been received regarding vessels having power steering gear to be provided at both the forward and after steering stations with full follow up. This proposal is to avoid confusing the helmsman who may steer the vessel from either station. Similar requirements are contained in paragraph (5) of section 5 of the American Bureau of Shipping Rules. It is, therefore, proposed to amend 46 CFR 57.25–35 to require full follow-up devices on vessels having power steering gear provided at both the forward and after steering stations. It is also proposed to amend 46 CFR 57.25–45 so as to permit steering to be effected from the after steering station by mechanical, electrical, hydraulic, or other approved means. It is proposed to add a new regulation designated 46 CFR 57.25–47 to clarify the requirements regarding the controls to be provided and to clarify the requirements regarding the location of shafting, piping, or electrical cables from the steering stations to the steering gear. It is proposed to amend 46 CFR 57.25–55 regarding special steering apparatus by changing the word "emergency" to the word "auxiliary" when describing special steering apparatus.

A number of explosions have occurred on merchant vessels where separate gas passages to the atmosphere from each boiler were not provided. It is, therefore, proposed to amend 46 CFR 61.05–15 to require that all main and auxiliary boilers shall be fitted with separate gas passages from each boiler.

It is proposed to amend 46 CFR 61.30–5 regarding shop tests on valves and pipe fittings to require welded pipe fittings fabricated with longitudinal joints to be tested as specified in the proposed regulation designated 46 CFR 56.01–85. This change will provide new standards for quality control and shop testing of fabricated pipe fittings.

The regulations with respect to marine engineering and material specifications are issued under R. S. 4405, as amended, and 4462, as amended, 46 U. S. C. 375, 416. These regulations interpret or apply R. S. 4399, 4400, 4417, 4417a, 4418, 4421, 4426–4431, 4433, 4434, 4453, 4491, as amended, sec. 14, 29 Stat. 690, as amended, 41 Stat. 305, as amended, secs. 1, 2, 49 Stat. 1544, as amended, sec. 17, 54 Stat. 166, as amended, sec. 3, 54 Stat. 346, as amended, sec. 2, 54 Stat. 1028, as amended, sec. 3, 68 Stat. 675; 46 U. S. C. 361, 362, 391, 391a, 392, 399, 404–409, 411, 412, 435, 489, 366, 363, 367, 526p, 1333, 463a, 50 U. S. C. 198; E. O. 10402, 17 F. R. 9917; 3 CFR, 1952 Supp.

ITEM VII—CORK AND BALSA WOOD LIFE PRESERVERS; WITHDRAWAL OF SPECIFICATIONS AND TERMINATIONS OF APPROVALS TO MANUFACTURER

The presently approved types of cork and balsa wood life preservers do not possess equivalent buoyancy or self-righting characteristics, nor are they as comfortable to wear and adjust to the bodies of various wearers as are the other types of approved life preservers filled with kapok or fibrous glass. Persons wearing cork or balsa wood life preservers are more likely to be injured when jumping from a vessel than those wearing kapok or fibrous glass life preservers. Because of the poor self-righting characteristics of the cork and balsa wood types of life preservers and their inability to turn a person seemingly unconscious from a face downward to a face upward position as the kapok and fibrous glass life preservers will do in most cases, there is a reasonable doubt that cork and balsa wood life preservers comply with the requirements in paragraph (b) of Regulation 17, Chapter III, International Convention for Safety of Life at Sea, 1948, which, among other things requires a life jacket shall not be approved by an administration subscribing to the Convention unless "it shall be capable of holding up the head of an unconscious person in the water." The Coast Guard has been aware of the poor performance characteristics of the cork and balsa wood life preservers for a long time. Considerable funds and effort have been expended in attempts to redesign these life preservers to bring their performance up to the level of the approved kapok and fibrous glass types of life preservers. These efforts have not produced the desired results.

It is, therefore, proposed to delete from the regulations the references to specifications for cork and balsa wood life preservers and to cancel the specifications covering the manufacture of these life preservers. All approvals for cork and balsa wood life preservers granted to manufacturers will be terminated as of October 1, 1957. However, existing life preservers approved before this date may be continued in service so long as they are maintained in good condition.

It is proposed to amend 46 CFR 25.25–5, 33.35–15, 75.40–5, and 94.40–5 by deleting references to cork and balsa wood life preserver specifications in 46 CFR Subparts 160.003 and 160.004. Effective October 1, 1957, it is also proposed to cancel the specification in 46 CFR 160.003–1 to 160.003–7, inclusive, for cork life preservers and the specification in 46 CFR 160.004–1 to 160.004–7, inclusive, for balsa wood life preservers.

The authority to issue regulations with respect to life preservers is in R. S. 4405, as amended, and 4462, as amended, 46 U. S. C. 375, 416. These regulations interpret or apply R. S. 4417a, as amended, 4426, as amended, 4481, as amended, 4482, as amended, 4488, as amended, 4491, as amended, 4492, as amended, sec. 11, 38 Stat. 428, as amended, secs. 1, 2, 49 Stat. 1544, as amended, secs. 6, 17, 54 Stat. 164, 166, as amended, sec. 3, 54 Stat. 346, as amended, and sec. 3, 68 Stat. 676; 46 U. S. C. 391a, 404, 474, 475, 481, 489, 490, 396, 367, 526e, 526p, 1333, 50 U. S. C. 198; E. O. 10402, 17 F. R. 9917, 3 CFR, 1952 Supp.

ITEM VIII—STRUCTURAL FIRE PROTECTION FOR PASSENGER VESSELS

It is proposed to modify and classify the requirements relating to structural fire protection for passenger vessels. It is proposed to amend 46 CFR 72.02–5 so as to make the structural fire protection requirements applicable to certain spaces that were formerly exempted on the basis of being "open decks." This requirement will not be made retroactive in effect. The reason for this proposal is that partially enclosed spaces can contain the same amount of combustibles as completely enclosed spaces. In addition, the air supply in these partially enclosed spaces cannot be controlled so fire fighting becomes more difficult and the chance of the fire spreading to adjacent spaces is increased. It is also proposed to amend 46 CFR 72.02–5 so as to define the extent to which balconies will be permitted. The reason for the proposal is that present requirements give no indication of the extent to which balconies may be used, which has caused some misunderstandings. These requirements will not be retroactive in effect.

It is proposed to amend 46 CFR 72.05–10 (e) by revising Table 72.05–10 (e) relating to the class of bulkheads required between various spaces. This proposal is a clarification of the intent of the regulations and to show present administrative practice. It is also proposed to revise requirements in 46 CFR 72.05–10 relating to the method of construction of class "B" bulkheads. This change is merely a clarification of the intent of the regulations and to reflect present administrative practice.

It is proposed to amend 46 CFR 72.05–15 relating to the use of combustible veneers so as to remove a contradiction between paragraph (b) and paragraph (d) as presently written. Combustible veneers may not be used in the hidden space above a ceiling.

It is proposed to amend 46 CFR 72.05–30 relating to the requirements for windows to clarify the intent of the regulations and to describe in regulations the administrative practices followed.

It is proposed to amend 46 CFR 72.05–40 regarding heat and refrigeration insulation so as to minimize the amount of combustibles permitted particularly in the hidden spaces above ceilings. The proposed requirements will be more consistent with other requirements dealing with the amount of combustibles permitted in various types of spaces.

It is proposed to amend 46 CFR 72.05–50 regarding automatic fire dampers for main vertical zone bulkhead penetrations so that these requirements will reflect the present administrative practice. It is also intended as a clarification of requirements.

The authority to issue regulations with respect to fire protection for passenger vessels is in R. S. 4405, as amended, and 4462, as amended, 46 U. S. C. 375, 416. These regulations interpret or apply R. S. 4417, as amended, 4418, as amended, 4426, as amended, 4490, as amended, sec. 3, 24 Stat. 129, as amended, 41 Stat. 305, as amended, secs. 1, 2, 49 Stat. 1384, as amended, sec. 3, 54 Stat. 346, as amended, sec. 2, 54 Stat. 1028, as amended, and sec. 3, 68 Stat. 675; 46 U. S. C. 391, 392, 404, 482, 483, 363, 369, 367, 1333, 463a, 50 U. S. C. 198; E. O. 10402, 17 F. R. 9917, 3 CFR, 1952 Supp.

ITEM IX—RECESSED BULKHEADS FOR PASSENGER VESSELS

The inboard damage penetration which has occurred to vessels in several recent casualty cases was in excess of the minimum provided for by the present regulations. Considering the tendency of vessels toward higher speeds, it is reasonable to expect that collisions, when they occur, are certainly not likely to become less severe. Depending upon the arrangement of a vessel's tanks, the extent of damage penetration may or may not be critical in determining the amount of initial GM necessary to prevent excessive heel. It is possible that a vessel designed under present regulations and fully maintaining the GM required thereby would still heel excessively as a result of damage penetration in excess of B/5. It is proposed to provide a more realistic assessment of possible collision penetration than that provided by the present requirements. The proposals are also intended to encourage the avoidance of basically hazardous arrangements of tanks and spaces. It is, therefore, proposed to amend 46 CFR 73.10–45, 73.15–25, and Table 74.10–15 (c) (4) in 46 CFR 74.10–15, by revising requirements regarding damage penetration.

The authority for regulations regarding recessed bulkheads for passenger vessels is in 4405, as amended, and 4462, as amended, 46 U. S. C. 375, 416. These regulations interpret or apply R. S. 4417, as amended, 4418, as amended, 4426, as amended, 4490, as amended, sec. 3, 24 Stat. 129, as amended, 41 Stat. 305, as amended, sec. 2, 45 Stat. 1493, as amended, sec. 2, 49 Stat. 888, as amended, sec. 5, 49 Stat. 1384, as amended, secs. 1, 2, 49 Stat. 1544, as amended, sec. 3, 54 Stat. 346, as amended, and sec. 3, 68 Stat. 675; 46 U. S. C. 391, 392, 404, 482, 483, 363, 85a, 88a, 369, 367, 1333, 50 U. S. C. 198; E. O. 10402, 17 F. R. 9917, 3 CFR, 1952 Supp.

ITEM X—FIXED FIRE PROTECTION FOR BARGES

The present regulations exempt barges from fire main and fixed extinguishing requirements because barges up to now normally carried too few persons to effectively man a fire-fighting system and/or were towed by a propelled vessel having sufficient fire-fighting equipment to protect the barge. However, recent practices are to have barges used for hotel purposes and housing many people. For such barges it has been an administrative policy to require adequate fire main and fixed fire extinguishing systems. Some of these barges, in addition to the hotel function, are also equipped with varying amounts of machinery which often are equivalent to or in excess of that installed on propelled vessels. Since such barges are intended to be used in locations which may not be adjacent to adequate fire-fighting facilities, it is proposed to amend 46 CFR 76.05–15, 76.05–20, 95.05–5, and 95.05–10 to require adequate fire-fighting facilities on those barges which have accommodations for more than six persons. These barges have fire source potentials comparable to those found on propelled vessels and reasonable fire-fighting facilities are needed. It is also proposed to add a definition of the word "barge" in sections designated 46 CFR 70.10–2 and 90.10–2.

The authority to issue regulations with respect to fixed fire protection requirements for barges is in R. S. 4405, as amended, and 4462, as amended, 46 U. S. C. 375, 416. These regulations interpret or apply R. S. 4417, as amended, 4418, as amended, 4426, as amended, 4490, as amended, sec. 3, 24 Stat. 129, as amended, 41 Stat. 305, as amended, secs. 1, 2, 49 Stat. 1384, as amended, secs. 1, 2, 49 Stat. 1544, as amended, sec. 3, 54 Stat. 346, as amended, sec. 2, 54 Stat. 1028, as amended, and sec. 3, 68 Stat. 675; 46 U. S. C. 391, 392, 404, 482, 483, 363, 369, 367, 1333, 463a, 50 U. S. C. 198; E. O. 10402, 17 F. R. 9917, 3 CFR, 1952 Supp.

ITEM XI—FIRE PROTECTION EQUIPMENT FOR PASSENGER, CARGO, AND MISCELLANEOUS VESSELS

It is proposed to modify the requirements for carbon dioxide extinguishing systems in 46 CFR Subpart 76.15 for passenger vessels and in 46 CFR Subpart 95.15 for cargo and miscellaneous vessels to permit the installation of the carbon dioxide cylinders in the space protected for small systems and to require warning alarms to be sounded prior to the admission of gas into the space. The proposed requirements are identical for both types of vessels. To accomplish these changes it is proposed to amend 46 CFR 76.15–10, 76.15–20, 76.15–30, 95.15–10, 95.15–20, and 95.15–30.

It is also proposed to amend Table 76.05–1 (a) in 46 CFR 76.05–1 relating to requirements for fixed fire extinguishing systems on passenger vessels in order to permit the omission of sprinkling systems from vehicular decks where the overhead does not exceed 30 feet. The reason for this change is that at present the regulations require a sprinkling system for vehicular deck spaces with overhead regardless of length. It is recognized that with a short overhead the sprinkling system may be of doubtful value.

The authority to issue regulations with respect to fire protection equipment for passenger, cargo, and miscellaneous vessels is in R. S. 4405, as amended, and 4462, as amended, 46 U. S. C. 375, 416. These regulations interpret or apply R. S. 4417, as amended, 4418, as amended, 4426, as amended, 4490, as amended, sec. 3, 24 Stat. 129, as amended, 41 Stat. 305, as amended, sec. 5, 49 Stat. 1384, as amended, secs. 1, 2, 49 Stat. 1544, as amended, sec. 3, 54 Stat. 346, as amended, sec. 2, 54 Stat. 1028, as amended, and sec. 3, 68 Stat. 675; 46 U. S. C. 391, 392, 404, 482, 483, 363, 369, 367, 1333, 463a, 50 U. S. C. 198; E. O. 10402, 17 F. R. 9917, 3 CFR, 1952 Supp.

ITEM XII—MARKINGS ON LIFEBOAT RELEASE GEAR LEVER

One of the major hazards with respect to the handling of lifeboats is the fact that on occasions the release gear lever is accidentally raised with the result that the lifeboat is dropped on the dock or in the water. The accidental dropping of a lifeboat can cause serious injury or death to any person who may be in the lifeboat at the time. The present regulations require that the lifeboat release gear lever shall have a sign reading "Danger—Lever Releases Hooks." A suggestion has been received that a more realistic sign would be "Danger—Lever Drops Boat." It is, therefore, proposed

to revise the specification for mechanical disengaging apparatus to require in the future that the sign on the release gear lever shall read "Danger—Lever Drops Boat" and to amend the various regulations for lifeboats on passenger, cargo, and miscellaneous vessels to have the sign on the lifeboat release gear lever either "Danger—Lever Drops Boat" or "Danger—Lever Releases Hooks." To accomplish these changes it is proposed to amend 46 CFR 78.47–60, 97.37–37, and 160.033–3.

The authority for regulations regarding markings on lifeboat release gear lever is in R. S. 4405, as amended, and 4462, as amended, 46 U. S. C. 375, 416. These regulations interpret or apply R. S. 4417a, as amended, 4426, as amended, 4488, as amended, 4491, as amended, secs. 1 and 2, 49 Stat. 1544, as amended, sec. 3, 54 Stat. 346, as amended, and sec. 3 (c), 68 Stat. 676; 46 U. S. C. 391a, 404, 481, 489, 367, 1333; 50 U. S. C. 198; E. O. 10402, 17 F. R. 9917, 3 CFR, 1952 Supp.

ITEM XIII—STOWAGE OF HEAVY GRAIN IN BULK; VESSELS PARTIALLY LOADED AND SHIFTING TO OTHER PORTS

It is proposed to amend 46 CFR 144.20–40, regarding location of stowage for heavy grain in bulk, by deleting the adjective "grain" in describing cargo so that the location of stowage for heavy grain in bulk will be based on the weight of the total cargo below deck rather than only the total weight of grain cargo below deck.

It is proposed to amend 46 CFR 144.30–1, regarding vessels shifting ports, in order to facilitate the handling of bulk grain cargo between San Francisco, Los Angeles Harbor, and San Diego. It is felt that for such vessels in this area no greater degree of hazard than presently exists will arise by permitting the established practice of permitting partially loaded vessels in certain other ports to carry bulk grain without securing the grain if the grain is covered with dunnage boards placed fore and aft and athwartship.

The authority for the regulations regarding bulk grain cargoes is in R. S. 4405, as amended, and 4462, as amended, 46 U. S. C. 375, 416. These regulations interpret or apply R. S. 4417, as amended, sec. 1, 49 Stat. 1544, as amended, and sec. 3, 68 Stat. 675; 46 U. S. C. 391, 367, 50 U. S. C. 198; E. O. 10402, 17 F. R. 9917, 3 CFR, 1952 Supp.

ITEM XIV—STOWAGE OF BULK ORES ON GENERAL CARGO VESSELS

At the public hearing held on April 24, 1956, the Merchant Marine Council considered as a part of Item IX the proposal regarding establishment of minimum standards for the proper stowage of bulk ore and similar cargoes when carried on general cargo vessels. Considerable controversy arose regarding this proposal and an announcement was published in the FEDERAL REGISTER dated September 6, 1956, that this proposal was withdrawn for further studies. After considering the comments received and other data and statistics available on this subject, it was felt that the proposed regulation considered at the April 24, 1956, public hearing should be presented again. It is, therefore, proposed to add a new regulation designated 46 CFR 97.12–1 which will establish minimum standards for the proper stowage of bulk ore and similar cargoes when carried on general cargo vessels. This proposal is based on casualties which indicate a need for proper stowage of bulk materials.

The authority to issue regulations respecting cargo and miscellaneous vessels is in R. S. 4405, as amended, and 4462, as amended, 46 U. S. C. 375, 416. The regulations interpret or apply R. S. 4417, as amended, 4418, as amended, 4426, as amended, secs. 1, 2, 49 Stat. 1544, as amended, sec. 3, 68 Stat. 675; 46 U. S. C. 391, 392, 404, 367, 463a, 50 U. S. C. 198; E. O. 10402, 17 F. R. 9917, 3 CFR, 1952 Supp.

ITEM XV—INSPECTION OF CARGO GEAR ON PASSENGER, CARGO, AND MISCELLANEOUS VESSELS

In recent months problems have arisen with respect to foreign countries accepting the American Bureau of Shipping certificates relating to cargo gear. At the present time the Coast Guard's administrative acceptance of the American Bureau of Shipping certificates of its surveys of cargo gear has not been described formally in the regulations. It is considered highly desirable that this current administrative practice be recognized officially and that the standards applied by the Coast Guard will be understood and be made available for the guidance of all concerned. It is, therefore, proposed to amend 46 CFR 71.25–25 and 91.25–25 by adding a statement that American Bureau of Shipping certificates relating to tests and surveys of cargo gear may be accepted as prima facie evidence of the construction and suitability of such gear. The standards established by the American Bureau of Shipping for cargo gear shall be used.

These regulations regarding inspection of cargo gear on passenger, cargo, and miscellaneous vessels is in R. S. 4405, as amended, and 4462, as amended, 46 U. S. C. 375, 416. These regulations interpret or apply R. S. 4399, 4400, 4417, 4418, 4421, 4423, 4426, 4428–4430, 4433, 4434, 4453, as amended, sec. 14, 29 Stat. 690, secs. 10, 11, 35 Stat. 428, 41 Stat. 305, 49 Stat. 1544, 1935, sec. 3, 54 Stat. 346, as amended, sec. 3, 68 Stat. 675; 46 U. S. C. 361, 362, 391, 392, 399, 400, 404, 406–408, 411, 412, 435, 366, 395, 396, 363, 367, 660a, 1333, 50 U. S. C. 198; E. O. 10402, 17 F. R. 9917; 3 CFR, 1952 Supp.

ITEM XVI—DANGEROUS CARGO REGULATIONS; MISCELLANEOUS AMENDMENTS

The provisions of R. S. 4472, as amended (46 U. S. C. 170), require that the Coast Guard accept and adopt in its Dangerous Cargo Regulations in 46 CFR Part 146, such definitions, descriptions, descriptive names, classifications, specifications of containers, packing, marking, labeling, and certification of explosives or other dangerous articles or substances to the extent such requirements are or may be established from time to time by the Interstate Commerce Commission insofar as such requirements apply to shippers by common carriers engaged in interstate and foreign commerce by water. The various amendments proposed to the Dangerous Cargo Regulations in 46 CFR Part 146 have been necessitated by corresponding changes made in the regulations of the Interstate Commerce Commission governing land transportation of the same commodities. The provisions of 46 CFR 146.02–19 make these Dangerous Cargo Regulations applicable to all types of carriers. Therefore, proposed amendments applying only to shippers' requirements, upon which the Interstate Commerce Commission has already prescribed regulations in compliance with the Administrative Procedure Act, are not included in this Agenda but will be published as a separate document in the FEDERAL REGISTER. The proposed amendments to 46 CFR Part 146 and 147 contain those provisions for water shipment of new articles of commerce, editorial changes to existing regulations, and revisions to regulations containing other than shippers' requirements.

It is proposed to amend 46 CFR 146.04–5, which is a list of explosives and other dangerous articles and combustible liquids, by adding the shipping names of new articles of commerce and by deleting or editing those items which are no longer in use or have been changed.

The proposed amendment to 46 CFR 146.09–2, regarding the construction of magazines, will authorize the use of ¾" plywood for side and end bulkheads for explosives magazines.

The proposed amendment to 46 CFR 146.10–4, regarding car floats, will provide for transfer of highway vehicles loaded with dangerous material from shore side to an explosive anchorage.

The proposed amendments to the detailed regulations governing explosives clarify requirements pertaining to stowage and dunnaging of containers of explosives and new items are added to the stowage chart and tables. The proposed amendment to 46 CFR 146.20–11, regarding Class C explosives, revises the requirements for Cordeau detonant fuse and by adding new requirements regarding cigarette loads and trick matches, smoke candles, smoke pots, smoke signals, and signal devices, Very signal cartridges and highway or railway fuses designed to produce visible effects for signal purposes and explosive release devices. The proposed amendment to 46 CFR 146.20–27 revises the general requirements for stowage and dunnaging of containers of explosives. The proposed amendment to 46 CFR 146.20–90, changes the stowage and storage chart of explosives and certain dangerous articles by revising the descriptive terminology of Items 2, 7, 9 and 14 of the vertical and horizontal columns.

It is proposed to amend 46 CFR 146.20–100 by adding new requirements regarding initiating explosives to Table A—Classified: Class A; Dangerous Explosives. The proposed amendment to 46 CFR 146.20–200 will add requirements regarding starter cartridges, jet engine, Class B explosives, to Table B—Classification: Class B; less dangerous explosives. It is proposed to amend 46 CFR 146.20–300 by revising the requirements for explosive auto alarms, Cordeau detonant fuse, explosive cable cutters, and common fireworks (hand ship distress signals), in Table C—Classification: Class C; relatively safe explosives.

It is proposed to amend the detailed regulations governing inflammable liquids by revising 46 CFR 146.21–100 to provide for shipment of new materials, such as aluminum triethyl, aluminum trimethyl, methyl dichlorosilane, and pyroforic fuel, which requirements will be added to the Table D—Classification: Inflammable liquids.

It is proposed to amend the detailed regulations governing inflammable solids and oxidizing materials to provide for shipment of chlorate and borate mixtures of less than 28 percent chlorate and to provide for certain exemptions for charcoal. The proposed revision will be made in Table E—Classification: Inflammable solids and oxidizing materials in 46 CFR 146.22–100.

It is proposed to amend 46 CFR 146.23–100, which is Table F—Classification: Corrosive liquids, by adding requirements for new materials, such as chromyl chloride, sodium aluminate, liquid and monochloroacetic acid.

The proposed amendment to the detailed regulations governing compressed gases provide for shipment by water of new materials. It is proposed to amend 46 CFR 146.24–100, which is Table G—Classification: Compresses gases, by adding requirements for new materials, such as pressurized liquid argon, mixtures of dichlorodifluoromethane, pressurized liquid nitrogen, pressurized liquid oxygen and N. O. S. refrigerant gas.

The proposed amendments to the detailed regulations governing hazardous articles will permit shipment of calcium carbide in fiberboard boxes and will provide new requirements for certain metal scrap which has proved hazardous in water transportation. The proposed amendment to 46 CFR 146.27–100, which is Table K—Classification: Hazardous articles, revises stowage requirements for calcium carbide, and adds new requirements for metal borings, shavings, turnings, and cuttings.

It is proposed to amend the regulations governing use of dangerous articles as ships' stores and supplies on board vessels to provide for the carriage of engine starting fluid packaged in containers other than metal cartridges. The proposed amendment to 46 CFR 147.06–3, which is Table S—Classification: Ships' Stores and Supplies of a dangerous nature, changes the requirements for starting fluid, inflammable, in metal containers.

The authority for dangerous cargo regulations in 46 CFR Parts 146 and 147 is in R. S. 4405, as amended, 4462, as amended, and 4472, as amended; 46 U. S. C. 375, 416, 170. These regulations interpret or apply sec. 3, 68 Stat. 675; 50 U. S. C. 198; E. O. 10402, 17 F. R. 9917, 3 CFR, 1952 Supp.

Dated: February 27, 1957.

[SEAL] A. C. RICHMOND,
Vice Admiral, U. S. Coast Guard,
Commandant.

[F. R. Doc. 57–1726; Filed, Mar. 6, 1957; 8:53 a. m.]

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 903]

[Docket No. AO–10–A22]

MILK IN ST. LOUIS, MISSOURI, MARKETING AREA

NOTICE OF HEARING ON PROPOSED AMENDMENTS TO TENTATIVE MARKETING AGREEMENT AND ORDER, AS AMENDED

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), notice is hereby given of a public hearing to be held at the Melbourne Hotel, Grand Avenue and Lindell Blvd., St. Louis, Missouri, beginning at 10:00 a. m., on March 12, 1957, with respect to proposed amendments to the tentative marketing agreement and order, as amended, regulating the handling of milk in the St. Louis, Missouri, marketing area.

The public hearing is for the purpose of receiving evidence with respect to the economic and marketing conditions which relate to the proposed amendments, hereinafter set forth, and any appropriate modifications thereof, to the tentative marketing agreement and order, as amended.

Proposals numbers 5, 6, 7, and 8 refer to standards under which country plants may qualify as pool plants. Any consideration of changes in these provisions may involve corresponding changes in the standards under which city plants may qualify as pool plants. Accordingly, the hearing will be open to the consideration of all portions of the definition of pool plants and to such corollary provisions as the definitions of handler, producer, approved milk and other source milk; and the reporting, classification, pricing and payment provisions relating thereto.

The proposed amendments, set forth below, have not received the approval of the Secretary of Agriculture.

By Sanitary Milk Producers Association and Producers Creamery Company.

1. Delete § 903.6 (a) and (b) and substitute in lieu thereof the following:

(a) Diverted by a qualified cooperative association for the account of such association from a pool plant to a non-pool plant: *Provided*, That milk so diverted shall be deemed received by the cooperative association at a pool plant at the location of the plant from which diverted: *And provided further*, That before the cooperative can divert milk to a non-pool plant it must offer such milk for sale to handlers in the market for Class I purposes by a written notice stating the terms and conditions of sale.

By Square Deal Milk Producers Association.

2. Delete paragraph (b) of § 903.6 and substitute therefor the following:

(b) Diverted by cooperative association to a non-pool plant for the account of the cooperative association: *Provided*, That any such milk so diverted shall be deemed to have been received by the cooperative association at a pool plant at the location of the plant from which diverted.

3. Consider the definition of producer with respect to deliveries through the bulk tank system and make provision for circumstances where milk in a farm tank pickup truck is delivered to more than one milk plant.

By Sanitary Milk Producers Association and Producers Creamery Company.

4. Delete § 903.8 *Country plant* and substitute in lieu thereof the following:

§ 903.8 *Country plant.* "Country plant" means a plant except a city plant which is qualified as a pool plant pursuant to the proviso in § 903.9 (b) or a plant from which milk or skim milk which may be distributed in the marketing area under a Grade "A" label, is supplied during the month to a plant qualified pursuant to § 903.9 (a). Such plant shall have the building, machinery and equipment necessary for receiving, cooling and storing milk and producer milk must be physically received.

5. Delete all of § 903.9 (b) "pool plant" and substitute in lieu thereof the following:

(b) A city plant or country plant from which no less than 50 percent of its approved milk during the month is shipped to pool plants or distributed on routes to retail or wholesale outlets (including plant stores but not including pool plants or non-pool plants) located in the marketing area: *Provided*, That if a country plant ships to pool plants approved milk equal to at least 75 percent of its producer milk in the months of October and November, and 50 percent in the months of August, September, December and January, such plant shall upon a written application to the Market Administrator on or before January 31st of any year be designated as a pool plant until the end of any month during the succeeding August through January period in which the milk of such plant is disposed of in such a way that it becomes impossible for the plant to re-establish its qualifications under the terms of this proviso: *And provided further*, That a country plant operated by a qualified milk proocessing cooperative association or by a qualified milk processing cooperative association under an agreement with another qualified milk processing cooperative association may become a pool plant during any month if deliveries to other pool plants equals at least 75 percent of the total milk production of the producer members of the association or associations during October and November and at least 50 percent during December through September.

6. Delete § 903.10.

By Prairie Farms of Southern Illinois.

7. Delete paragraph (b) of § 903.9 and substitute therefor the following:

(b) A country plant from which no less than 50 percent of its approved milk, during the month, is shipped to pool plants or distributed on routes to retail or wholesale outlets (including plant stores, but not including pool plants or nonpool plants) located in the

marketing area: *Provided*, That if a country plant ships to pool plants, approved milk equal to at least 75 percent of its producer milk in October and November and at least 35 percent of such milk in three additional months during the months of August through January, inclusive, such plant shall, upon written application to the market administrator on or before January 31 of any year, be designated as a pool plant until the end of any month during the succeeding August through January period in which the milk of such plant is disposed of in such a way that it becomes impossible for the plant to re-establish its qualification under the terms of this proviso.

8. Delete § 903.10.

By Sanitary Milk Producers Association and Producers Creamery Company.

9. Delete all of § 903.12 and substitute in lieu thereof the following:

§ 903.12 *Handler.* "Handler" means:

(a) Any person in his capacity as an operator of a city plant or a country plant.

(b) A producer handler.

(c) A qualified cooperative association with respect to milk producers diverted for the account of such association from a pool plant to a non-pool plant.

(d) A qualified cooperative association with respect to milk from any member producer as defined in § 903.6 of such association which is transferred from a pool plant to another pool plant by such association for its account: *Provided, however*, That such cooperative association shall notify the Market Administrator in writing of their intentions of becoming the handler for such milk and shall be deemed to be the handler for such milk for the full delivery period. *Provided*, That a cooperative association to become the handler for such milk must otherwise be a handler under this part.

By Prairie Farms of Southern Illinois.

10. Add a new § 903.17 to read as follows:

§ 903.17 *Cooperative association.* "Cooperative association" means any cooperative association of producers, bona fide engaged in marketing producer milk covered by this part or in rendering services for or advancing the interests of the producers of such producer milk.

By Producers Creamery Company.

11. Add the following definition to the section of the order dealing with definitions.

§ 903.__ *Qualified cooperative association.* "Qualified cooperative association" means any cooperative association of producers which the Secretary determines:

(a) To be qualified under the provisions of the Act of Congress of February 18, 1922, known as the Capper Volstead Act;

(b) To be governed by the principles of one member one vote so as to have its entire activities under the complete control of its members; and

(c) To have and to exercise full authority in the sale of the milk of its members consistent with good marketing practices which will bring about the highest possible utilization of its members' milk.

By Sanitary Milk Producers Association and Producers Creamery Company.

12. Add a new definition as follows:

§ 903.__ *Qualified milk processing cooperative association.* "Qualified milk processing cooperative association" means a qualified cooperative association which operates facilities for receiving, weighing, cooling and shipping Class I milk and for processing milk into Class II products.

13. Add a new definition as follows:

§ 903.__ *Dairy farmers for other markets.* "Dairy farmers for other markets" means any dairy farmer whose milk is received by a handler at a pool plant during March through July from a farm from which the handler, or an affiliate of a handler, or any person who controls or is controlled by the handler, received non-pool milk during any of the preceding months of August through February, except the term shall not include any person who was a producer handler during such August through February period.

14. It is proposed that the following sections of Federal Order No. 3 be changed so that closing inventory of Class I products can be classified as Class II and that the allocation and computation of value sections be revised to conform with such changes.

(a) Section 903.41 (b) (2) be deleted as now written and replaced by the following:

(2) In inventory of milk and milk products designated as Class I milk pursuant to paragraph (a) (1) and (2) of this section on hand at the end of the month.

(b) Section 903.45 (a) (5) be revised as follows:

(5) Subtract from the pounds of skim milk remaining in Class II milk the pounds of skim milk contained in inventory of products designated as Class I milk in § 903.41 (a) (1) and (2) on hand at the beginning of the month: *Provided*, That if the pounds of milk in such inventory exceed the remaining pounds of skim milk in Class II milk, the balance shall be subtracted from the pounds of milk remaining in Class I milk.

(c) Propose that the numbering of present subparagraphs (5), (6) and (7) of § 903.45 (a) be changed to (6), (7) and (8).

(d) Section 903.70 be changed by adding (d) as follows:

(d) Add the amount computed by multiplying the difference between the appropriate Class II price for the preceding month and the appropriate Class I price for the current month by the hundredweight of skim milk and butterfat remaining in Class II after the calculations pursuant to § 903.45 (a) (7) and (b) less amount deducted pursuant to § 903.45 (a) (1) and (b) for the preceding month or the hundredweight of skim milk and butterfat subtracted from Class I pursuant to § 903.45 (a) (5) and (b) for the current month, whichever is less.

(The subparagraph numbers referred to above are as proposed to be revised herein.)

By the Dairy Division.

15. It is proposed that § 903.44 be revised so as to make the order more specific in the handling of receipts and utilization of milk products from which some or all of the water has been removed.

By Sanitary Milk Producers Association and Producers Creamery Company.

16. Amend § 903.43 transfers by adding a subparagraph (5) under (c) to read as follows:

(5) Unless the non-pool plant is not packaging Class I products and the non-pool plant is not disposing of bulk milk to other plants having packaging facilities: *Provided*, That this shall not result in the classification of producer milk to Class I in excess of the total amount of Class I distribution or disposition to other plants having packaging facilities from said non-pool plant.

By Prairie Farms of Southern Illinois.

17. Delete § 903.43 and substitute therefore the following:

§ 903.43 *Transfers.* (a) Skim milk and butterfat disposed of from a pool plant to the pool plant of another handler in the form of milk, skim milk or cream shall be Class I milk unless Class II milk is indicated by the operators of both plants in their reports submitted pursuant to § 903.30: *Provided*, That in no event shall the amount so classified as Class II be greater than the amount of producer milk used in such class in the pool plant(s) of the transferee handler after allocating other source milk in such plant(s) in series beginning with the lowest price utilization.

(b) Skim milk and butterfat disposed of in the form of milk, skim milk or cream by transfer or diversion from a pool plant to a non-pool plant shall be Class I milk unless:

(1) The product is transferred or diverted in bulk form or in producer cans;

(2) The transferee-plant is located within 150 airline miles from the City Hall in St. Louis, Missouri, and Class II milk is indicated by the operator of the pool plant in his report submitted pursuant to § 903.30;

(3) The operator of the non-pool plant maintains books and records which are made available for examination upon request by the Market Administrator and which are adequate for the verification of Class II utilization; and

(4) Equivalent amounts of skim milk and butterfat, respectively, were actually utilized in the non-pool plant during the month in the use reported: *Provided*, That if less than equivalent amounts of skim milk and butterfat, respectively, were actually used as reported, the difference shall be classified as Class I milk.

(c) Skim milk and butterfat disposed of in the form of milk, skim milk, or cream, from a pool plant to retail establishments shall be classified as Class I milk; *Provided*, That milk and butterfat contained in milk, skim milk, or cream so disposed of in bulk to retail establishments which, under applicable health regulations, are permitted to receive milk, skim milk, or cream, other than of Grade A quality for Class II uses, shall be classified as Class II milk if so used or disposed of: *And provided further*, That the market administrator is allowed to verify such use or disposition in the retail establishment.

(d) Skim milk and butterfat disposed of in the form of milk, skim milk, or cream by transfer or diversion from a pool plant to a producer-handler shall be classified as Class I milk.

By Co-operative Milk Producers of Missouri.

18. Consider amending § 903.51 (a) (1) by making changes in seasonal premiums to make it more attractive for the producer to level his supply of milk.

By Square Deal Milk Producers Association.

19. In § 903.51 (a) (1), consider the fixing of a Class I price in relation to competing markets and consider changes in the seasonal differentials so as to encourage production more in alignment with the needs of the market.

20. In § 903.51 (a) (2), consider changes in the basic utilization percentage and other supply-demand factors.

By Prairie Farms of Southern Illinois.

21. In § 903.51 (b), change the Class II milk price to an amount equal to the basic formula price less 6 cents for the months of September through February, and compute the Class II price for all other months as follows:

(1) Multiply by 4.2 the simple average, as computed by the market administrator, of the daily wholesale selling prices (using the midpoint of any price range as one price) of 92-score bulk creamery butter per pound at Chicago, as reported by the Department during the month;

(2) Multiply by 8.2 the weighted average of carlot prices per pound of roller process nonfat dry milk solids, for human consumption, f. o. b. manufacturing plants in the Chicago area, as published for the period from the 26th day of the immediately preceeding month through the 25th day of the current month by the Department; and

(3) From the sum of the results arrived at under subparagraphs (1) and (2) of this paragraph subtract 81 cents.

By Co-operative Milk Producers of Missouri.

22. Consider amending § 903.51 (b) to provide a more realistic approach to the price for Class II milk.

By Sanitary Milk Producers Association and Producers Creamery Company.

23. Delete all of § 903.52 location differential to handlers and substitute in lieu thereof the following:

§ 903.52 *Location differential to handlers.* With respect to skim milk and butterfat contained in milk received from producers at a pool plant outside the marketing area which is classified as Class I the price per hundredweight shall be reduced by the amount set forth in the following schedule according to the shortest hard surface road distance from the plant where the milk is received from producers, or the plant from which the milk is diverted to the City Hall in St. Louis.

Mileage:	Allowance (cents)
More than 70 but less than 80 miles	16
More than 80 but less than 90 miles	18
More than 90 but less than 100 miles	20
More than 100 but less than 110 miles	22
For each additional 15 miles or fraction thereof an additional	1

Provided, That for the purpose of calculating such location differentials with respect to approved milk transferred between pool plants, the Class II approved milk remaining in the transferee plant (except skim milk or butterfat in such plant which was subtracted pursuant to § 903.43 (a) (1) and (b)) after deducting therefrom the amount of such milk or an amount equivalent to 0.05 times the approved milk at such plant, whichever is less, shall be assigned to approved milk from other plants in sequence according to the location differential applicable at each plant from which approved milk was received, beginning with the plant having the largest differential, and then to producer milk: *And provided further*, That any approved milk transferred between city plants as Class II milk, which is to be assigned to receipts of approved milk from other plants pursuant to this section, shall be assigned to approved milk received from such other plants by either city plant so as to yield the greatest return to producers.

By the Dairy Division.

4. Add a new provision as follows:

§ 903.54 *Use of equivalent price.* If for any reason a price quotation required by this part for computing class prices or for any other purpose is not available in the manner described, the market administrator shall use a price determined by the Secretary to be equivalent to the price which is required.

By Square Deal Milk Producers Association.

25. Amend the order so as to provide that all sales made by handlers in other Federal order areas and classified as Class I under Order No. 3 shall be at the Class I price under Order No. 3 or under such other Federal order, whichever is higher.

By Prairie Farms of Southern Illinois.

26. Delete § 903.62 and substitute therefor the following:

§ 903.62 *Handlers operating nonpool plants.* None of the provisions from §§ 903.42 through 903.46, inclusive, or from §§ 903.70 through 903.85, inclusive, shall apply in the case of a handler in his capacity as an operator of a nonpool plant, except that such handler shall, on or before the 25th day after the end of each month pay to the market administrator for deposit into the producer-settlement fund any amount resulting from the following computation:

(a) Compute an amount equal to the value of milk which would be computed pursuant to § 903.70 for milk received from dairy farmers at such plant for such month if such handler operated a pool plant;

(b) Deduct the gross payments, inclusive of any premium but exclusive of deductions, made by the handler to dairy farmers with respect to the milk for which a value is computed pursuant to paragraph (a) of this section:

(c) Divide the remainder, if any, by the number of hundredweights of milk received from such dairy farmers and classified as Class I milk: *Provided*, That in no event shall the resulting amount per hundredweight exceed the difference between the Class I price adjusted by the Class I butterfat and location differentials and the uniform price adjusted by the Class I location differential and by a butterfat differential calculated by multiplying the total volume of producer butterfat in each class during the month by the butterfat differential for each class, dividing the results by the total butterfat in producer milk and rounding the resultant figure to the nearest one-tenth cent.

(d) Multiply the amount per hundredweight determined pursuant to paragraph (c) of this section by the number of hundredweights of Class I milk disposed of from such plant in the marketing area.

By Midwest Dairy Products.

27. Amend § 903.62. Handlers operating non-pool plants, to provide for payment into the producer Settlement Fund, whichever is the lesser amount.

(a) The product of the quantity of milk served by such handlers which was disposed of in the marketing area on routes as Class I milk during the month multiplied by the difference between Class I and Class II price pursuant to the order during April through July and the difference between the price for Class I milk and the uniform price pursuant to the order during August through March, after giving consideration to location differential.

(b) Any plus amount resulting from the following computation; Divide an amount equal to the net pool obligation which would be computed pursuant to § 903.70 for such handler for such month if such handler operated a pool plant by the hundredweight of milk received from approved dairy farmers; deduct the payments per hundredweight of milk made by such handler to approved dairy farmers for milk received during such month: *Provided*, That if such handler has paid dairy farmers by more than one rate, the payments to approved dairy farmers shall be computed at the lowest rates paid for a volume of milk equal to the volume disposed of in the marketing area.

28. Amend § 903.70 (b) (1) deleting "March" and substituting therefor "April"; and § 903.70 (b) (2) deleting "February" and substituting therefor "March".

By Sanitary Milk Producers Association and Producers Creamery Company.

29. Amend § 903.80 *Time and method of payment for producer milk* by amending paragraph (b) and adding a new subparagraph (3) to paragraph (b) as follows:

(b) In the case of a qualified cooperative association which has so requested

any handler in writing, such handler shall make payment to the qualified cooperative association for milk received during the month from the producer members as designated by the Market Administrator of such association as follows:

* * * * *

(3) That to these amounts shall be added one-half of one percent of any amount due the qualified cooperative association or producer pursuant to this section for each month or any portion thereof that such payment is overdue.

30. Amend § 903.82 *Location differentials to producers* by substituting conforming language so that it will provide for the same changes as were proposed for § 903.52 *Location differentials to handlers.*

31. Delete all of § 903.88 *Marketing services* and substitute in lieu thereof the following:

§ 903.88 *Marketing services.* (a) Each handler in making payments to producers pursuant to § 903.80 shall deduct 5 cents per hundredweight or such lesser amount at the Secretary may prescribe with respect to all milk received by such handlers (excluding such handler's own production) from producers during the month and shall pay such deductions to the Market Administrator on or before the 15th day after the end of each month provided that such deduction shall not apply to members of qualified cooperatives, pursuant to this section.

(b) Such monies shall be used by the Market Administrator to verify weights, samples and tests of milk received from such producers and to provide them with market information. Such services shall be performed in whole or in part by the Market Administrator or by an agent engaged by and responsible to him.

By Prairie Farms of Southern Illinois.

32. Make conforming changes throughout the order so that all references to a cooperative association pursuant to § 903.88 (b), such as appears in § 903.12, shall refer in lieu thereof, to § 903.17.

By Square Deal Milk Producers Association.

33. Make such other changes as may be necessary or desirable or required to make the marketing agreement and order for the St. Louis marketing area conform with the amendments thereto that may result from the hearing.

Copies of this notice of hearing and the order, as amended, may be procured from the Market Administrator, 4030 Chouteau Avenue, St. Louis 10, Missouri, or from the Hearing Clerk, Room 112, Administration Building, United States Department of Agriculture, Washington 25, D. C., or may be there inspected.

Issued at Washington, D. C., this 1st day of March 1957.

[SEAL] F. R. BURKE,
Acting Deputy Administrator,

[F. R. Doc. 57-1722; Filed, Mar. 6, 1957; 8:52 a. m.]

[7 CFR Part 969]

[Docket No. AO-254-A2]

AVOCADOS GROWN IN SOUTH FLORIDA

NOTICE OF RECOMMENDED DECISION AND OPPORTUNITY TO FILE WRITTEN EXCEPTIONS WITH RESPECT TO PROPOSED AMENDMENTS TO AMENDED MARKETING AGREEMENT AND ORDER REGULATING HANDLING

Pursuant to the rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and marketing orders (7 CFR Part 900), notice is hereby given of the filing with the Hearing Clerk of this recommended decision of the Deputy Administrator, Agricultural Marketing Service, United States Department of Agriculture, with respect to proposed amendments to the marketing agreement, as amended, and Order No. 69, as amended (7 CFR Part 969), hereinafter referred to as the "order," regulating the handling of avocados grown in South Florida, to be made effective pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.; 68 Stat. 906, 1047), hereinafter referred to as the "act." Interested parties may file written exceptions to this recommended decision with the Hearing Clerk, United States Department of Agriculture, Room 112, Administration Building, Washington 25, D. C., not later than the close of business of the tenth day after publication thereof in the FEDERAL REGISTER. Exceptions should be filed in quadruplicate.

Preliminary statement. The public hearing, on the record of which the proposed amendments to the marketing agreement and order are formulated, was initiated by the Agricultural Marketing Service as a result of proposals submitted by the Avocado Administrative Committee, the administrative agency established pursuant to the order. In accordance with the applicable provisions of the aforesaid rules of practice and procedure, a notice that such public hearing would be held on December 11, 1956, in the Auditorium, Redlands Farm Labor Camp, Homestead (Modello), Florida, was published in the FEDERAL REGISTER (21 F. R. 9383) on November 30, 1956.

Material issues. The material issues presented on the record of the hearing were concerned with amending the marketing agreement and order to:

(1) Permit only a grower or producer having a proprietary interest in 10 or more bearing avocado trees to participate in nominations of grower members and alternate members of the committee;

(2) Permit only growers who reside outside the production area to be represented by duly authorized agents in nomination meetings;

(3) Authorize the committee to hold simultaneous meetings of groups of its members at two or more places through the use of appropriate telephone communication with loud speaker receivers;

(4) Change the time for the preparation and mailing of the annual report to read "as soon as practicable after the close of each fiscal year";

(5) Change the provisions pertaining to assessments and accounting to permit the carryover of surplus assessment funds for use as a reserve to finance certain order operations;

(6) Authorize the committee, when necessary, to exempt from the regulatory, assessment, and inspection provisions of the order, shipments of avocados made in furtherance of a marketing research project of the committee;

(7) Authorize the establishment of pack specifications, and of regulations requiring all avocados handled to be packed in accordance with such specifications and for the containers to be identified by labels, stamps, or other appropriate means;

(8) Authorize the establishment of regulations with respect to avocados shipped to destinations within the production area different from those applicable to avocados shipped to destinations outside of such area.

Findings and conclusions. The findings and conclusions on the material issues, all of which are based upon the evidence adduced at the hearing and the record thereof, are as follows:

(1) The current definition of "grower" defines such term as any person who produces avocados for market and who has a proprietary interest therein. It was proposed to amend the current definition of grower to permit only a grower or producer having a proprietary interest in 10 or more bearing avocado trees to participate in the nomination of grower members and alternate members of the committee.

It is concluded from the evidence that it would be in the best interest of commercial growers or producers of Florida avocados to amend § 969.8 *Grower,* of the order, as hereinafter set forth.

It is apparent from the testimony that the industry intends that the local administration of the order primarily should be by the growers who are engaged in the production on a commercial scale of avocados for market. It was pointed out that there are thousands of homes in the general area of South Miami and Homestead, Florida, many of which are located on lots subdivided from former avocado groves. These homes usually have a few avocado trees remaining as backyard plantings, and there are many other homes in both urban and rural areas in Southern Florida where the owners have planted a few avocado trees and other subtropical fruit trees in the backyards for ornamental or aesthetic purposes, and for home use of the fruit.

Under the present definition of grower, thousands of these home owners qualify as producers of avocados and may participate in nomination meetings if they desire. They far outnumber the recognized commercial producers of avocados in the production area. The production of avocados by these home owners, however, is insignificant when compared to the total production of avocados by all producers. Such home owners have little, if any, financial interest in the commercial production of avocados, and, therefore, they are affected very little by the provisions of the order. Nevertheless, they could, if they should so desire, dominate the program by outvoting recognized commercial avocado producers in nomination meetings.

It is not usually the intent of the owners of these so-called "backyard trees" to produce avocados for market. This can reasonably be concluded from the fact that a few trees will only yield a small number of bushels of avocados a year (estimated in the case of "backyard growers" to be about 1 to 3 bushels per tree per year). Also, the nature of the avocado is such that all the avocados on a particular tree do not mature at the same time, and the fruit itself matures gradually. Avocados may be held on the tree from 3 to 6 weeks after they reach a stage where they are considered mature enough to be harvested. Furthermore, there are a great number of different varieties of avocados, which bear at different times of the season. It was testified that most homeowners, with a few avocado trees, have more than one variety, so they can have the fruit several months of the year. Moreover, the owners of these "backyard trees" usually do not cultivate, fertilize, spray, or perform other cultural practices that would be necessary to produce avocados of a desired marketable quality. The avocado production of the "backyard grower" is intended primarily for home use and possibly occasional gifts to friends.

Furthermore, should the owner of a few avocado trees desire to market avocados from such trees, he could normally do so free from assessment, regulation, and inspection under the provisions of the order. Any person is now permitted to handle not in excess of 1 bushel of avocados to any other person during any one day, with a maximum of 10 bushels per week, free from such restrictions. In view of the relatively small production of 9 trees, the fact that most are intended for home use, and the further fact that avocados can be held on the tree from 3 to 6 weeks after they reach maturity, there should seldom be occasion for commercial sales, and such sales should normally be in quantities of a bushel or less. Thus, a "backyard" grower should usually be able to sell from his production, such as to a retailer, free from any of the indicated restrictions, insofar as he is concerned. Of course, sale by any person in excess of the exempted quantities would be subject to regulation.

There was considerable discussion at the hearing as to whether the proposed restricted definition of "grower," insofar as participation in nominations is concerned, should also be made applicable to eligibility for grower member or alternate member representation on the committee. In other words, whether avocado growers should be precluded from nominating and the Secretary from selecting, a "backyard" grower to represent them. It was testified, without opposition, that such preclusion need not and should not be extended to such a point. It was stated that such a happening would not normally be expected to occur, but there was a possibility that there might arise a situation of a "backyard" grower who had such outstanding qualifications that his selection to the committee might be most desirable and the growers should not be precluded from nominating him to a position on the committee in that event. It was further testified that the potentially objectionable situation arising from the present definition should be obviated by the proposed restriction with respect to participating in nominations.

Therefore it is concluded that in view of the foregoing circumstances, it would be in keeping with the best interests of producers and consumers of avocados, if producers of 10 or more bearing avocado trees only were permitted to participate in nomination meetings.

(2) The present provisions (§ 969.22 (b) (2)) of the order pertaining to nomination meetings permit growers who are present at such nomination meetings, or who are represented at such meetings by duly authorized agents, to participate in the nomination and election of nominees for grower members and their alternates.

It was proposed, at the hearing, that only growers who reside outside the production area should be permitted to be represented in nomination meetings by agents. It was testified that the authority for growers to be represented at nomination meetings by agents, or the so-called "proxy voting" authority, was intended for owners of avocado groves who qualify as growers and who reside outside the production area. It was estimated that as much as 40 percent of the total production of avocados is owned by persons residing outside the production area, many residing in cities such as Detroit, Cleveland, and New York. It is usually impossible for such owners, because of the great distances from the production area, to attend nomination meetings. Such persons usually place their avocado groves under the care of a grove manager who usually performs all the cultural practices associated with growing avocados and also usually harvests and markets the crop, depositing the returns from the sale of the crop to the account of the owners. These absentee owners have a great financial interest in the Florida avocado industry and, therefore, should be permitted to be represented in nomination meetings.

However, it was testified that the presently permitted voting arrangement was not desirable for the most effective operation of the order, since growers who reside in the production area also are permitted to be represented in nomination meetings by duly authorized agents. This has tended to concentrate the votes in the hands of a few people and has discouraged individual growers with only one vote from attending nomination meetings. In a marketing program of this type, where operations of the order affect the entire Florida avocado industry, it is highly desirable to have as large a representation as possible at such meetings. Therefore, it is concluded that it may not be in the best interests of avocado growers to permit those growers who reside in the production area to be represented by agents in nomination meetings.

It was testified that the majority of avocado growers who reside in the production area probably would have to travel no more than 30 miles to 40 miles to attend nomination meetings, and that most of the growers could attend the meetings if they desire. One witness testified that there are a number of persons who reside in the production area but who have other businesses which either take them away from the area temporarily or keep them busy, so that they may not be able to attend nomination meetings themselves. He stated that many of such persons have an arrangement with a grove manager, who takes care of their avocado planting, similar to the arrangements between managers and persons who reside a great distance from the production area, and he believed that they also should be permitted to be represented by agents in nomination meetings. However, this witness stated that he had no answer as to how the authority to be represented in nomination meetings could be limited only to certain classes of growers residing in the production area.

In view of the foregoing circumstances and the fact that production area growers may attend nomination meetings without hardship, in most instances, it is concluded that § 969.22 (b) (2) (relating to representation at nomination meetings) of the order should be amended as hereinafter set forth.

(3) The present provisions (§ 969.30 (b)) of the order pertaining to procedure for holding meetings authorize the committee, in addition to voting at assembled meetings, to vote by telegraph, telephone, or other means of communication, provided, that votes cast in such manner are confirmed promptly in writing. The authority to vote by telephone is necessary to make administratively feasible the operation of the order for Florida avocados. The production of avocados in Florida is concentrated in two separate districts which are a considerable distance apart. Up to this time, assembled meetings have generally been held at the committee headquarters at Homestead in District 1, which district has seven of the nine members of the committee. This has entailed a considerable hardship on the two members from District 2 in attending such meetings and has, at times, resulted in delay in taking needed actions. The avocado industry, like other fresh produce industries, is a dynamic one where climatic, marketing, and other conditions often change or fluctuate rapidly. In order to contribute to orderly marketing and to serve the best interests of avocado producers, it must, therefore, be possible for the committee to take prompt action on its regulatory and other functions under this marketing program. Since travel between the two districts for the attendance of meetings requires a great deal of time, telephone voting is particularly necessary after emergency situations such as hurricanes, high winds, or frost damage. Telephone voting also could be beneficial at times when matters, such as the original issuance or modification of

quality or maturity regulations, have to be disposed of between regular assembled meetings of the committee, which are usually held about once a month. The situation is such that telephone meetings of the presently proposed nature should be permitted to be held when the committee deems such type of meetings to be desirable.

It was testified that the present procedure of the committee for telephone voting is inadequate, since it does not permit discussions of, or the modifications of, any proposal that is put to vote. It was proposed that loud speaker receivers be used with telephones, to permit committee members to meet in two or more designated places, so that each member may participate in discussions and take into consideration any information that other committee members may wish to make known to the entire committee. Such procedure would also permit greater participation of the industry where prompt action by the committee is required, since industry representatives could attend the group meetings and make known to the committee their respective thoughts concerning the matters under consideration. This is, of course, not possible where the present telephone vote is used. In view of the foregoing circumstances, it is concluded that the provisions of the order pertaining to meetings should be amended as hereinafter set forth.

(4) The present provisions (§ 969.32) of the order require that the committee shall, prior to March 31 of each fiscal year, prepare and mail an annual report to the Secretary and to each handler and grower who requests a copy. The provisions further stipulate that the annual report shall contain at least: (a) A complete review of the regulatory operations during the fiscal year; (b) an appraisal of the effect of such regulatory operations; and (c) any recommendations for changes in the program.

It was testified that since the fiscal year also ends on March 31, in order for the committee to comply with the present deadline, it is forced to include only minimum requirements, and some analyses included are necessarily based upon incomplete information and estimates. This is necessitated because avocados are shipped during approximately 10 months of the year, and some avocados are still being shipped during March. The committee must depend also on other agencies in the State of Florida for data on shipments and other statistical data, and, therefore, such information is not immediately available to the committee. A complete summary of shipments and other data are not available to the committee until a time later than the close of the fiscal year. It is, therefore, impossible for the committee to prepare and submit a complete report on its functions before the close of the fiscal year.

It is, therefore, concluded that the provisions of the order should be amended as hereinafter set forth to require that annual reports be submitted as soon as practicable after the close of each fiscal year.

(5) Present provisions (§ 969.42) of the order provide that if, at the end of a fiscal year, the assessments collected are in excess of the expenses incurred, each person entitled to a proportionate refund of the excess assessment shall be credited with such refund against the operations of the following fiscal year, and that any handler may demand payment of such a refund, and the refund shall be paid him. Since handlers may demand and receive payment of excess committee funds at the end of each year, the committee cannot build up a normal operating reserve or contingency fund from which it may draw during periods when income is not adequate to cover expenses.

Although some avocados may be picked during any month of the year, except April and May, the peak avocado production and shipment occurs in the late fall and winter. The fiscal year starts on April 1, and, therefore, the committee must operate during April, May, June, July, and August on very little assessment income. This means that, for all practical purposes, the committee incurs nearly one-half of its yearly expenses before any substantial income is received.

The present provisions of the order authorize the committee to borrow funds not in excess of 10 percent of its estimated yearly expenses and to accept from handlers the payment of assessments in advance. However, the authorization for borrowing is inadequate in view of the expenditures that may be necessary before income is obtained. An operating reserve is an important instrument for the continued effective operation of the order over a period of years. The State of Florida is very susceptible to hurricanes at a time before the major portion of the crop is harvested and to frost damage at the time of bloom and fruit set. The anticipated avocado crop for any year may be reduced also by such other factors as high winds not amounting to a hurricane and by drought. The assessment rates under the program are set at the beginning of the season for a crop of an estimated volume of shipments. Should crop failure or partial crop failure reduce the crop so that assessment income falls below expenses, it would be necessary for handlers in light of the reduced crop to cover the deficit. When the handlers have already made returns to growers, it would be very difficult for them to obtain from such growers the additional funds required to meet the increase in assessment that would be necessary. It also would constitute an extra burden on the industry to increase the assessment rate after disasters such as these have occurred.

Because of the hazards incident to the production of avocados, and the difficulties thus expected to be encountered in financing operations of the program during some years, it would be desirable to establish an operating reserve for use during any such year. Evidence presented at the hearing was to the effect that nearly all of the production of avocados is marketed year after year by the same handlers and that it would be equitable to all handlers, and far less burdensome to them, to contribute to the establishment of such an operating reserve during years of normal production rather than to be required to pay a high rate of assessment occasioned by a deficit during a year when the crop is materially reduced. It was testified that the proposed reserve fund should be built up to the desirable amount as rapidly as possible, since a material reduction of the crop could occur at any time. Discretion should be used, however, so as not to impose excessively high assessments. It was indicated that it would be appropriate, and in keeping with the desires of the industry, to include in the annual budget a specific amount for the reserve fund as well as to use any other excess assessment funds available at the end of a fiscal year for this purpose. In order that such reserve funds not be accumulated beyond a reasonable amount, it was proposed that a limit of approximately one fiscal year's expense be provided. It was shown that such an amount should be sufficient to cover any foreseeable need since some income from assessment may be expected during any year. After the reserve has been built up to that amount, excess assessment income should thereafter be returned to the handlers entitled to refunds in accordance with the current provisions of the order. However, in keeping with the need for the reserve fund, whenever any portion of it is used, the full amount withdrawn should be returned to the reserve as soon as assessment income is available for this purpose.

It was testified also that, in addition to the aforementioned uses, the reserve fund should be used, with the approval of the Secretary, to cover costs of liquidation of the program in the event the order is terminated, as well as to cover necessary operational costs, such as for salaries and other necessary expenses, during any period when the order, or any of its provisions, should be suspended. It is possible, of course, that the program may be terminated at the end of a fiscal year, or during a year when the production of avocados is relatively light. In such circumstances, it would be burdensome to handlers to require payment of an assessment to cover the liquidation costs. It was advanced at the hearing that all handlers receive benefits from the program's operation, and, even if a handler ceases handling avocados before the full period of its operation, it would be appropriate and equitable for such handler to share in the expense of liquidation. Should the order provisions be suspended, it is likely such suspension would occur during a period when avocado production has been seriously curtailed. It would seem reasonable and proper, therefore, to use the reserve funds to defray any expense of liquidation or any necessary cost of operation during a period of suspension. It is anticipated, of course, that the committee will endeavor to minimize costs in this regard so far as reasonably practicable consistent with the efficient performance of its responsibilities.

Upon termination of the order, any funds in the reserve which are not used to defray the necessary expenses of liquidation should, to the extent practicable, be returned to the handlers from whom such funds were collected. It is apparent, from the evidence of record, that it may not be possible to make an exact

distribution of any such funds. Should the order be terminated after many years of operation, and there have been several withdrawals and redeposits in the reserve, the precise equities of handlers may be difficult to ascertain, and any requirement that there be a precise accounting of the remaining funds could involve such costs as to nearly equal the monies to be distributed. Therefore, it would be desirable and necessary to permit the unexpended reserve funds to be disposed of in any manner that the Secretary may determine to be appropriate in such circumstances.

A proposal, incident to the establishment of a reserve, would eliminate the committee's authority to borrow up to 10 percent of estimated expenses and to accept advance payments of assessments from handlers of avocados. However, the industry desires to retain the authority to accept advance payments as a supplementary source of operating funds to cover operating expenses during the early portion of a marketing year. Advances by handlers are entirely voluntary, and the amounts are credited against the subsequent assessment obligations which accrue against them. It is concluded from the testimony introduced in the hearing that the industry does not desire to retain the committee's authority to borrow funds not to exceed 10 percent of the estimated yearly expenses. It was testified, as heretofore explained, that the borrowing of funds is an inadequate method of financing the committee because of the low limitation and the length of time the committee must function before assessment income is sufficient to cover the costs of operating the program.

In view of the foregoing circumstances, it is, therefore, concluded that the committee's authority to borrow funds should be deleted from the marketing agreement and order and that § 969.42 thereof should be amended as hereinafter set forth to permit excess assessment to be placed in a reserve and used in the manner heretofore described.

(6) The present provisions (§ 969.45) of the order provide for the establishment of marketing research and development projects designed to assist, improve or promote the marketing, distribution, and consumption of avocados. Present provisions also require that any person who handles avocados shall pay the committee his pro rata share of the expenses of the committee based upon the quantity of avocados he handles during the fiscal year, that all avocados handled shall meet the requirements of regulations applicable to avocados in effect at the time of handling, and that each handler who handles avocados shall cause each lot of avocados to be inspected by the Federal-State Inspection Service and to be certified as meeting applicable requirements of regulations then in effect.

It was testified that the types of marketing research that the committee may desire to engage in in the future probably would involve the experimental handling of avocados, and avocados handled in such manner because of the nature of the study may not meet the requirements of regulations in effect. The committee presently has no authority to issue exemptions from regulations for marketing research purposes, and, therefore, if the committee desires to engage in a study such as testing various avocado shipping containers not permitted to be used under the container regulation then in effect, such regulation would have to be amended to authorize such shipments. The committee may well desire to engage in other experimental shipments of avocados such as shipping avocados of various stages of maturity or of various grades and packs, some of which may differ from regulation requirements.

Since the avocados shipped for experimental purposes may not meet regulation requirements, it was further testified that the committee should have authority also to exempt such shipments from the inspection requirements, when necessary. The certification that avocados meet all applicable requirements of regulations in effect obviously could not be obtained for some types of avocado shipments under research projects similar to those mentioned. On the other hand, authority to require some types of experimental shipments to meet regulation and inspection requirements is needed since such requirements would, when desirable and necessary, serve as a control, in that the grade, size, quality, or maturity of all avocados shipped in connection with the research projects may thereby be held comparable, and the effects of some other variable such as container could be more accurately measured.

Authority should be provided also to exempt, when necessary, shipments of avocados from the assessment provisions of the program. It was testified that the committee itself may desire to become a handler of avocados shipped for test purposes, and, in such instance, it would merely be a case of "taking money from one pocket and placing it in another." Also, research projects may require considerable cooperation and expense on the part of those handlers cooperating in such studies, and, therefore, the committee does not feel that, in every instance, test shipments should be subject to assessments.

It is, therefore, concluded that the order should be amended, as hereinafter set forth, to permit the committee to exempt shipments of avocados for research purposes from any or all of the provisions of §§ 969.41 (relating to assessments), 969.51 (relating to regulation), and 969.54 (relating to inspection and certification). Such authority should be limited, so that such exemptions would be available only when necessary to carry out the particular research project in connection with which the exempted shipment would be made.

(7) The present provisions (§ 969.51) of the order, with respect to the issuance of regulations, provide that the Secretary may, upon recommendation of the committee, regulate essentially in the manner hereinafter specified, the handling of avocados. Such regulations may: (1) Prohibit, prior to such time as shall be specified, the handling of any size or variety of avocados grown in the production area; (2) prohibit the handling of any variety of avocados which do not meet such quality and maturity standards as shall be prescribed; and (3) fix the size, capacity, weight, dimensions, or pack of containers used in the handling of avocados.

It was testified that the Secretary, upon recommendation of the committee, should have the additional authority to establish and prescribe pack specifications; and, as an incident to such specifications, the authority to prescribe the grade and designation thereof, type of pack, packing arrangement, and sizes of avocados, including tolerances, and require that all avocados handled shall be packed in accordance with such pack specifications and shall be identified by appropriate labels, seals, stamps, tags, or other appropriate means of identification (with such specifications marked thereon) affixed to or imprinted on the containers by the handler under the supervision of the committee or an inspector of the Federal-State Inspection Service.

Evidence presented at the hearing shows that, prior to the time the order was made effective, it was the general practice of most shippers of avocados to pack and ship, under separate house labels, several qualities of avocados. That is, the avocados handled by a particular shipper were graded and packed according to house grades which he had adopted as his standards of quality. It was customary to identify the containers of avocados so graded with an appropriate label showing designations such as "Extra Fancy," "Fancy," "No. 1," "No. 2," "Choice," or with other meaningful terms. After the order became effective, the shippers of avocados generally discontinued the practice of using house specifications for the grading and packing of avocados. While this result was not intended under the program operations, the majority of shippers presently grade and pack avocados only so as to meet the minimum requirements of regulations effective under the order. Most shippers request inspection from the Federal-State Inspection Service to show only that their avocados meet the minimum requirements of the regulations. The pack may contain avocados of a "No. 1" or "Combination" grade, but if the minimum requirement of the regulation is "No. 2," the inspection certificate in the majority of cases will show only that the avocados meet the minimum requirements of the regulation, because that is the type of inspection generally requested.

Because of the type of inspection requested by avocado shippers, the buyers and receivers in the trade are dependent on shippers to inform them as to the grade or quality of avocados they purchase. Moverover, even if inspection certificates show the correct grade of each lot of avocados, such certificates are not generally available to buyers and receivers because of the size of most avocado orders and the method of shipment. A particular lot of avocados may be delivered to a number of different dealers located in a number of cities, and it is impossible for one inspection certificate to be available to all the dealers. Because of the lack of evidence as to the quality of avocados offered for sale, a handler may represent to a prospective

buyer a quality different than is actually the case. In view of the confusion as to the grade of avocados the shippers are quoting for sale, buyers often use the lowest price offered in order to obtain lower prices from shippers they are dealing with. Buyers may state that they can purchase avocados meeting regulation requirements at, for example, 25 cents per package cheaper from another shipper, although that shipper may be offering avocados which, while meeting the minimum requirements of the regulation, are of a poorer quality. The result is that competition in the marketing of avocados has deteriorated to the point that price often has become the major competitive factor. Since shippers now normally are not selling by grade and, therefore, have no incentive to pay producers according to the quality of avocados they deliver, the growers who produce good quality avocados are forced to take the same market price as that obtained for poorer quality fruit. It is probable that the long-run effect of such practice on the avocado industry will be a lessening of efforts to produce premium quality avocados which would adversely affect demand; and growers' returns will tend to be lower than they would be with the proper designation of grades, sizes, and packs, so as to build up the confidence of buyers and the trade.

It was advanced at the hearing that under the present practices, without pack specifications and compulsory labeling, the growers' share of the final selling price of avocados may be reduced in another manner. It was alleged that some buyers, under the present conditions, for example, may buy avocados equivalent to a "Combination" grade from shippers and represent such avocados as being of "No. 1" quality in selling them to retailers. Therefore, the buyer is collecting the price differential for quality that normally should go to the producer. Pack specifications, with labeling as to grades and sizes of avocados, also should contribute to enforcement of the regulatory provisions of the order. It should make it much easier for the committee to ascertain whether certain lots of avocados are of the required grade or size if they are required to be labeled.

It was testified that if authorization is provided to establish the pack specification regulations, it should not work any hardship on the handlers of avocados to comply with such requirements. Handlers should incur, at the most, the expense of printing new labels or the cost of having pack specifications printed on present supplies of labels. The proponents of the pack specification regulations contemplate that such regulations may be effected by handlers registering with the committee, in accordance with rules and regulations prescribed by it, a label for each pack specification that is prescribed. This would enable handlers to comply with the regulation without any change in the labels currently in use. It was emphasized, however, that this would be in the nature of an experiment and that the purposes of the regulation may not be accomplished through the proposed registration of labels. Thus, authority should be provided to require handlers to identify on such labels the particular pack specification of each lot of avocados handled. If this authority were not available, some handlers may attempt to mark their packs of avocados with minimum regulation requirements only. This might result in a situation whereby such handlers may claim that the packs are of better quality than marked and force down prices on packs marked with a better grade. Also, the possibility exists under such circumstances that some handlers might offer the better quality as an inducement to purchasers to buy from them. However, in such situations, the producer would receive only the returns for the minimum grade marked on the container, when he actually should receive returns for the better quality.

In view of the foregoing circumstances, it is, therefore, concluded that the amendment of the order, as hereinafter set forth to provide for the establishment of pack specification regulations, with corresponding labeling, should tend to establish and maintain orderly marketing conditions for avocados.

(8) The present provisions of the order pertaining to the issuance of regulations do not authorize the establishment of regulations for avocados shipped to destinations within the production area different from those applicable to avocados shipped to destinations outside of such area. It was proposed that the order be amended to authorize the committee to prescribe requirements applicable to the handling of avocados of any variety to destinations within the production area which are different from those applicable to the handling of the same variety to destinations outside the production area.

It was testified, in support of this proposal, that present-day merchandising practices, where a large portion of food is sold in self-service stores, make it necessary for the industry generally to market avocados which have a good external appearance, because avocados must sell themselves. It was contended, however, that this was particularly applicable to the out-of-production area markets and that in the production area, where consumers are more familiar with avocados, they are not so concerned with minor blemishes and scars as they are concerned with internal quality. It was stated that should the regulations permit the marketing of No. 3 grade avocados within the production area only, the other markets could be maintained and growers would obtain some return for about 10 percent to 15 percent of their crop which they otherwise would be unable to market since there are presently no outlets for avocados which do not meet regulation requirements. It was testified further that a much smaller volume of avocados is moving through some of the larger production area markets this season than was moved through such markets in previous seasons. This reduction in volume was alleged to have resulted from the container regulation currently in effect, and, therefore, the handling of avocados in any type of container should be permitted for markets within the production area.

Conversely, it was contended that, before the industry had a marketing order for avocados, it had gone through a period of considerable difficulty in marketing avocados. Handlers many times had been able to sell only a portion of the No. 3 grade avocados available and at a top price of 50 cents to 75 cents per bushel. Since the bushel basket container, when supplied by the handler, costs handlers approximately 40 cents to 50 cents, and since there were also packing and handling costs and the handler's selling charge to deduct, the grower, in such instances, received little or no return for the No. 3 grade avocados the handler was able to sell. Furthermore, it was stated that the practice of marketing large quantities of poorer grade avocados in production area markets such as Miami hurt the grower's income in other ways. The poorer grades displaced some of the better grades of avocados from production area markets, and, therefore, growers lost good local markets for some of their better avocados. Also, those merchants who purchased the poorer grades were able, at times, to offer them at 1 cent to 5 cents each, whereas others purchasing the better quality avocados would have to sell them for at least 10 cents each. The result was that some of the larger chains and produce merchants quit handling avocados in volume, or at least did not push their sale, because they were unwilling to handle poorer quality avocados and, therefore, could not meet the price of some other merchants. The Florida avocado industry, therefore, got lower returns for the avocados sold in local markets, and the local markets did not take as large a volume of avocados as they were potentially able to sell. It was not until after the order was made effective that many of the chains and merchants in the area again resumed the handling of avocados in volume. As to the reduction this season in the volume of avocados being marketed in the production area markets, it was indicated that this has largely resulted from other factors. Avocado production this season is not as great as during the immediately preceding seasons, and, comparatively, prices are relatively high which has tended to hold down purchases somewhat. Also, the crop of avocados this season generally contains more small avocados than is normal. Since the local markets usually prefer the larger sized fruit, there are not as many large avocados available for these markets as in some previous seasons.

It was stated further that should authority be provided to permit the use of any type of container for shipping avocados within the production area, it would be much more difficult to enforce compliance with the regulations applicable to out-of-production area shipments of avocados. Even though the committee in the course of investigations should find a trucker within the production area, but obviously headed out of the area, with avocados in prohibited containers, it would be necessary to follow the truck out of the production area before any enforcement action was undertaken.

It, therefore, is concluded that it would not be in the best interests of the avocado growers to include in the order the authority for the establishment of regulations for avocados shipped to destinations within the production area different from those applicable to avocados shipped to destinations outside of such area, and that this proposed amendment should not be adopted.

General findings. (1) The marketing agreement, as amended, and as hereby proposed to be amended, and the order, as amended, and as hereby proposed to be amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(2) The marketing agreement, as amended, and as hereby proposed to be amended, and the order, as amended, and as hereby proposed to be amended, will regulate the handling of avocados grown in South Florida in the same manner as, and are applicable only to persons in the respective classes of commercial and industrial activities specified in, the marketing agreement and order upon which hearings have been held;

(3) The marketing agreement, as amended, and as hereby proposed to be amended, and the order, as amended, and as hereby proposed to be amended, are limited in their application to the smallest regional production area that is practicable consistently with carrying out the declared policy of the act;

(4) The marketing agreement, as amended, and as hereby proposed to be amended, and the order, as amended, and as hereby proposed to be amended, prescribe, so far as practicable, such different terms, applicable to different parts of the production area, as are necessary to give due recognition to differences in the production and marketing of the avocados covered thereby.

Rulings on proposed findings and conclusions. January 2, 1957, was fixed as the latest date for the filing of briefs with respect to the facts presented in evidence at the hearing and the conclusions which should be drawn therefrom. No such documents were filed within the prescribed time.

Recommended amendments to the marketing agreement and order. The following amendments to the marketing agreement and order are recommended as the detailed means by which the aforesaid conclusions may be carried out:

1. Change the period at the end of § 969.8 *Grower* to a colon and add the following proviso: "*Provided*, That as used in § 969.22 the term grower shall include only those who have a proprietary interest in the production of 10 or more bearing avocado trees."

2. Delete the first sentence of § 969.22 (b) (2) and substitute therefor the following: "Only growers who are present at such nomination meetings, or who reside outside the production area and are represented at such nomination meetings by duly authorized agents, shall participate in the nomination and election of nominees for grower members and their alternates."

3. Delete paragraph (b) of § 969.30 *Procedure* and substitute therefor the following:

(b) The committee may provide for simultaneous meetings of groups of its members assembled at two or more designated places: *Provided*, That such meetings shall be subject to the establishment of telephone communication between all such groups and the availability of loud speaker receivers for each group so that each member may participate in the discussions and other actions the same as if the committee were assembled in one place.

4. Delete from § 969.32 *Annual report* the words "prior to March 31 of each fiscal year" and substitute therefor the words "as soon as practicable after the close of each fiscal year."

5. Delete the last sentence in paragraph (b) of § 969.41 *Assessments* and substitute therefor the following: "In order to provide funds for the administration of the provisions of this part, the committee may accept the payment of assessments in advance."

6. Delete paragraph (a) of § 969.42 *Accounting* and insert, in lieu thereof, the following:

(a) If, at the end of a fiscal year, the assessments collected are in excess of expenses incurred, such excess shall be accounted for as follows:

(1) Except as provided in subparagraph (2) of this paragraph, each person entitled to a proportionate refund of the excess assessment shall be credited with such refund against the operation of the following fiscal year unless such person demands repayment thereof, in which event it shall be paid to him: *Provided*, That any sum paid by a person in excess of his pro rata share of the expenses during any fiscal year may be applied by the committee at the end of such fiscal year to any outstanding obligations due the committee from such person.

(2) The Secretary, upon recommendation of the committee, may determine that it is appropriate for the maintenance and functioning of the committee that the funds remaining a the end of a fiscal year which are in excess of the expenses necessary for committee operations during such period may be carried over into following periods as a reserve. Such reserve may be established at an amount not to exceed approximately one fiscal year's operational expenses; and such reserve may be used to cover the necessary expenses of liquidation, in the event of termination of this part, and to cover the expenses incurred for the maintenance and functioning of the committee during any fiscal year when there is a crop failure, or during any period of suspension of any or all of the provisions of this part. Such reserve may also be used by the committee to finance its operations, during any fiscal year, prior to the time that assessment income is sufficient to cover such expenses; but any of the reserve funds so used shall be returned to the reserve as soon as assessment income is available for this purpose. Upon termination of this part, any funds not required to defray the necessary expenses of liquidation shall be disposed of in such manner as the Secretary may determine to be appropriate: *Provided*, That to the extent practicable, such funds shall be returned pro rata to the persons from whom such funds were collected.

7. Add, after the first sentence in § 969.45 *Marketing research and development*, the following: "The committee may, to the extent necessary to carry out the projects established pursuant to this section, exempt the handling of avocados from any or all of the requirements contained in, or issued pursuant to, §§ 969.41, 969.51, and 969.54."

8. Add, after subparagraph (3) of paragraph (a) of § 969.51 *Issuance of regulations*, the following:

(4) Establish and prescribe pack specifications for the grading and packing of any variety or varieties of avocados and require that all avocados handled shall be packed in accordance with such pack specifications, and shall be identified by appropriate labels, seals, stamps, or tags, affixed to the containers by the handler under the supervision of the committee or an inspector of the Federal-State Inspection Service, showing the particular pack specifications of the lot.

Dated: March 1, 1957.

[SEAL] F. R. BURKE,
Acting Deputy Administrator,
Marketing Services.

[F. R. Doc. 57-1721; Filed, Mar. 6, 1957; 8:52 a. m.]

[7 CFR Part 1001]

[Docket No. AO-267-A1]

LIMES GROWN IN FLORIDA

DECISION WITH RESPECT TO PROPOSED AMENDMENTS TO THE MARKETING AGREEMENT AND ORDER

Pursuant to the rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held at Homestead (Modello), Florida, on December 10, 1956, after notice thereof was published in the FEDERAL REGISTER (21 F. R. 9328), on proposed amendments to the marketing agreement and Order No. 101 (7 CFR Part 1001), hereinafter referred to as the "marketing agreement" and "order," respectively, regulating the handling of limes grown in Florida, to be made effective pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.; 68 Stat. 906, 1047).

On the basis of the evidence introduced at the hearing, and the record thereof, the Deputy Administrator, Agricultural Marketing Service, on February 13, 1957, filed with the Hearing Clerk, United States Department of Agriculture, his

recommended decision in this proceeding. The notice of the filing of such recommended decision, affording opportunity to file written exceptions thereto, was published in the FEDERAL REGISTER (F. R. Doc. 57-1255; 22 F. R. 981). No exception to said recommended decision was filed.

The material issues, findings and conclusions, and the general findings of the recommended decision set forth in the FEDERAL REGISTER (F. R. Doc. 57-1255; 22 F. R. 981) are hereby approved and adopted as the material issues, findings and conclusions, and general findings of this decision as if set forth in full herein, except for the following change: line 5 of proposed new § 1001.42 (a) (2) (22 F. R. 981), change "some of the funds" to read "the funds."

Marketing agreement and order. Annexed hereto and made a part hereof are two documents entitled, respectively, "Agreement Amending the Marketing Agreement Regulating the Handling of Limes Grown in Florida" and "Order Amending the Order Regulating the Handling of Limes Grown in Florida" which have been decided upon as the appropriate and detailed means of effecting the foregoing conclusions. These documents shall not become effective unless and until the requirements of § 900.14 of the aforesaid rules of practice and procedure, governing proceedings to formulate marketing agreements and marketing orders, have been met.

It is hereby ordered, That all of this decision, except the attached agreement amending the marketing agreement, be published in the FEDERAL REGISTER. The regulatory provisions of the said agreement amending the marketing agreement are identical with those contained in the attached order amending the order which will be published with this decision.

Dated: March 4, 1957.

[SEAL] EARL L. BUTZ,
Assistant Secretary.

Order[1] Amending the Order Regulating the Handling of Limes Grown in Florida

§ 1001.0 *Findings and determinations.* The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations made in connection with the issuance of this order; and all of said previous findings and determinations are hereby ratified and affirmed except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to Public Act No. 10, 73d Congress (May 12, 1933), as amended and as re-enacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.; 68 Stat. 906, 1047), and the applicable rules of practice and procedure governing proceedings to formulate marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held at Homestead (Modello), Florida, on December 10, 1956, upon proposed amendments to the Marketing Agreement No. 126 and Order No. 101 (7 CFR Part 1001), regulating the handling of limes grown in Florida. Upon the basis of evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order, as hereby amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(2) The said order, as hereby amended, regulates the handling of limes grown in Florida in the same manner as, and is applicable only to persons in the respective classes of industrial and commercial activities specified in, the marketing agreement and order upon which hearings have been held;

(3) The said order, as hereby amended, is limited in its application to the smallest regional production area that is practicable, consistently with carrying out the declared policy of the act;

(4) There are no differences in the production and marketing of limes grown in the production area covered by the said order, as hereby amended, that make necessary different terms and provisions applicable to different parts of such areas; and

(5) All handling of limes, as defined in said order, as hereby amended, is in the current of interstate or foreign commerce, or directly burdens, obstructs, or affects such commerce.

It is, therefore, ordered, That, on and after the effective date hereof, all handling of limes grown in the production area shall be in conformity to, and in compliance with, the terms and conditions of the aforesaid order, as hereby amended, as follows:

1. Change the period at the end of § 1001.8 *Grower* to a colon and add the following proviso: "*Provided*, That as used in § 1001.22 the term grower shall include only those who have a proprietary interest in the production of 10 or more bearing lime trees."

2. Delete paragraph (b) of § 1001.30 *Procedure* and substitute therefor the following:

(b) The committee may provide for simultaneous meetings of groups of its members assembled at two or more designated places: *Provided*, That such meetings shall be subject to the establishment of telephone communication between all such groups and the availability of loud speaker receivers for each group so that each member may participate in the discussions and other actions the same as if the committee were assembled in one place.

3. Delete from § 1001.32 *Annual report* the words "prior to March 31 of each fiscal year" and substitute therefor the words "as soon as practicable after the close of each fiscal year."

4. Delete the last sentence in paragraph (b) of § 1001.41 *Assessments* and substitute therefor the following: "In order to provide funds for the administration of the provisions of this part, the committee may accept the payment of assessments in advance."

5. Delete paragraph (a) of § 1001.43 *Accounting* and insert, in lieu thereof, the following:

(a) If, at the end of a fiscal year, the assessments collected are in excess of expenses incurred, such excess shall be accounted for as follows:

(1) Except as provided in subparagraph (2) of this paragraph, each person entitled to a proportionate refund of the excess assessment shall be credited with such refund against the operation of the following fiscal year unless such person demands repayment thereof, in which event it shall be paid to him: *Provided*, That any sum paid by a person in excess of his pro rata share of the expenses during any fiscal year may be applied by the committee at the end of such fiscal year to any outstanding obligations due the committee from such person.

(2) The Secretary, upon recommendation of the committee, may determine that it is appropriate for the maintenance and functioning of the committee that the funds remaining at the end of a fiscal year which are in excess of the expenses necessary for committee operations during such period may be carried over into following periods as a reserve. Such reserve may be established at an amount not to exceed approximately one fiscal year's operational expenses; and such reserve may be used to cover the necessary expenses of liquidation, in the event of termination of this part, and to cover the expenses incurred for the maintenance and functioning of the committee during any fiscal year when there is a crop failure, or during any period of suspension of any or all of the provisions of this part. Such reserve may also be used by the committee to finance its operations, during any fiscal year, prior to the time that assessment income is sufficient to cover such expenses; but any of the reserve funds so used shall be returned to the reserve as soon as assessment income is available for this purpose. Upon termination of this part, any funds not required to defray the necessary expenses of liquidation shall be disposed of in such manner as the Secretary may determine to be appropriate: *Provided*, That to the extent practical, such funds shall be returned pro rata to the persons from whom such funds were collected.

6. Add, after the first sentence in § 1001.45 *Marketing research and development*, the following: "The committee may, to the extent necessary to carry out the projects established pursuant to this section, exempt the handling of limes from any or all of the requirements contained in, or issued pursuant to, §§ 1001.41, 1001.52, and 1001.55."

7. Add, after subparagraph (3) of paragraph (a) of § 1001.52 *Issuance of regulations*, the following:

(4) Establish and prescribe pack specifications for the grading and packing of any variety or varieties of limes and require that all limes handled shall be packed in accordance with such pack specifications, and shall be identified by appropriate labels, seals, stamps, or tags, affixed to the containers by the handler under the supervision of the committee or an inspector of the Federal-State Inspection Service, showing the particular pack specifications of the lot.

8. Amend subparagraph (3) of paragraph (a) of § 1001.60 *Reports* to read as follows:

(3) The date of each such disposition, the destination, by State, zone, or market area, of each lot of limes handled, and identification of the carrier transporting such fruit;

Order Directing That a Referendum Be Conducted; Designation of Referendum Agents To Conduct Such Referendum; and Determination of Representative Period

Pursuant to the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.; 68 Stat. 906, 1047), it is hereby directed that a referendum be conducted among the producers who, during the period April 1, 1956, through January 31, 1957 (which period is hereby determined to be a representative period for the purpose of such referendum), were engaged, in the State of Florida, excluding the area west of the Suwannee River, in the production of limes for market, to ascertain whether such producers favor the issuance of an order amending Order No. 101 (7 CFR Part 1001), regulating the handling of limes grown in Florida; and said amendatory order is filed simultaneously herewith. M. F. Miller and W. R. Cleveland, Fruit and Vegetable Division, Agricultural Marketing Service, United States Department of Agriculture, are hereby designated agents of the Secretary to conduct said referendum severally or jointly.

The procedure applicable to this referendum shall be the "Procedure for the Conduct of Referenda Among Producers in Connection with Marketing Orders (Except Those Applicable to Milk and its Products) to Become Effective Pursuant to the Agricultural Marketing Agreement Act of 1937, as amended" (15 F. R. 5176).

Copies of the aforesaid annexed order, of Order No. 101, of the aforesaid referendum procedure (15 F. R. 5176), and of this order may be examined in the Office of the Hearing Clerk, United States Department of Agriculture, Room 112, Administration Building, Washington, D. C.

Ballots to be cast in the referendum, and other necessary forms and instructions, may be obtained at the said office, or from any appointee hereunder.

[F. R. Doc. 57-1744; Filed, Mar. 6, 1957; 8:55 a. m.]

[1] This order shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure governing proceedings to formulate marketing agreements and orders have been met.

DEPARTMENT OF LABOR

Wage and Hour Division

[29 CFR Parts 688, 702, 705, 707, 708, 709]

[Administrative Order 476]

BUTTON, JEWELRY, AND LAPIDARY WORK INDUSTRY; ARTIFICIAL FLOWER, DECORATION, AND PARTY FAVOR INDUSTRY; STRAW, HAIR, AND RELATED PRODUCTS INDUSTRY

APPOINTMENTS TO INVESTIGATE CONDITIONS AND RECOMMEND MINIMUM WAGES, NOTICE OF HEARING

Pursuant to authority under the Fair Labor Standards Act of 1938 (52 Stat. 1060, as amended; 29 U. S. C. 201, et seq.), and Reorganization Plan No. 6 of 1950 (5 U. S. C. 611), I hereby appoint, convene, and give notice of the hearings of Industry Committee No. 29-A for the button, jewelry, and lapidary work industry in Puerto Rico, Industry Committee No. 29-B for the artificial flower, decoration, and party favor industry in Puerto Rico and Industry Committee No. 29-C for the straw, hair, and related products industry in Puerto Rico.

Industry Committee No. 29-A is composed of the following representatives:

For the public:
John Perry Horlacher, Chairman, Philadelphia, Pennsylvania.
Mortimer H. Gavin, St. Louis, Missouri.
David M. Helfeld, Rio Piedras, Puerto Rico.
For the employees:
Alex Ball, New York, New York.
Seymour Brandwein, Washington, D. C.
Hipolito Marcano, San Juan, Puerto Rico.
For the employers:
George N. Frankovich, Providence, Rhode Island.
Jose A. Franceschini, San Juan, Puerto Rico.
Max Wolfeld, Guaynabo, Puerto Rico.

For the purpose of this order the button, jewelry, and lapidary work industry in Puerto Rico is defined as follows:

The manufacture from any material of buttons, buckles, jewelry (including rosaries), jewelry findings (including beads), and hair ornaments and accessories; and the processing of natural or synthetic stones for jewelry or industrial use.

Industry Committee No. 29-B is composed of the following representatives:

For the public:
John Perry Horlacher, Chairman, Philadelphia, Pennsylvania.
Mortimer H. Gavin, St. Louis, Missouri.
David M. Helfeld, Rio Piedras, Puerto Rico.
For the employees:
Alex Ball, New York, New York.
Seymour Brandwein, Washington, D. C.
Hipolito Marcano, San Juan, Puerto Rico.
For the employers:
George R. Frankovich, Providence, Rhode Island.
Jose A. Franceschini, San Juan, Puerto Rico.
Samuel S. Berger, Naranjito, Puerto Rico.

For the purpose of this order the artificial flower, decoration, and party favor industry in Puerto Rico is defined as follows:

The manufacture of artificial flowers, buds, berries, foliage, leaves, fruits, plants, stems, and branches, and the manufacture of party favors, and ornaments and decorations for holidays, except those made of molded plastic or metal other than metallic chenille, foil, or tinsel.

Industry Committee No. 29-C is composed of the following representatives:

For the public:
John Perry Horlacher, Chairman, Philadelphia, Pennsylvania.
Mortimer H. Gavin, St. Louis, Missouri.
David M. Helfeld, Rio Piedras, Puerto Rico.
For the employees:
Alex Ball, New York, New York.
Seymour Brandwein, Washington, D. C.
Hipolito Marcano, San Juan, Puerto Rico.
For the employers:
George R. Frankovich, Providence, Rhode Island.
Jose A. Franceschini, San Juan, Puerto Rico.
Fredrick Schultz, Arecibo, Puerto Rico.

For the purpose of this order the straw, hair, and related products industry in Puerto Rico is defined as follows:

The manufacture of all products made wholly or chiefly of straw, raffia, sisal, maguey, palm leaves, rushes, grasses, hair, hair bristles, feathers, and similar materials: *Provided, however*, That the definition shall not cover products or activities included in the men's and boys' clothing and related products industry, or the children's dress and related products industry as defined in the wage orders for those industries; or in the textile and textile products industry, or the leather, leather goods, shoe, and related products industry as defined in Administrative Order No. 475; or in the artificial flower, decoration, and party favor industry, or the button, jewelry, and lapidary work industry, as defined in Administrative Order No. 476.

I hereby refer to each of the above mentioned industry committees the question of the minimum wage rate or rates to be fixed under section 6 (c) of the act for its industry. Each such industry committee shall investigate conditions in its industry, and the committee, or any authorized subcommittee thereof, shall hear such witnesses and receive such evidence as may be necessary or appropriate to enable the committee to perform its duties and functions under the act.

Industry Committee No. 29-A shall commence its hearings on April 8, 1957, at 2:00 p. m., in the offices of the Wage and Hour Division, United States Department of Labor, New York Department Store Building, Fortaleza and San Jose Streets, San Juan, Puerto Rico. Consecutively, at the same place, after the hearings of Industry Committee No. 29-A, Industry Committees Nos. 29-B, and 29-C shall hold their hearings in that order.

Each committee will meet at the same place before its hearing to make its investigation and appropriate decisions concerning its hearing. Industry Committee No. 29-A will meet at 10:00 a. m., on April 8, 1957, and Industry Committees Nos. 29-B, and 29-C, will meet at an

hour to be designated by the committee chairman.

In order to reach as rapidly as is economically feasible the objective of the minimum wage prescribed in paragraph (1) of section 6 (a) of the act, each industry committee shall recommend to the Administrator the highest minimum wage rate or rates for the industry which it determines, having due regard to economic and competitive conditions, will not substantially curtail employment in the industry and will not give any industry in Puerto Rico a competitive advantage over any industry in the United States outside of Puerto Rico. Where an industry committee finds that a higher minimum wage may be determined for employees engaged in certain activities or in the manufacture of certain products in the industry, the industry committee shall recommend such reasonable classifications within the industry as it determines to be necessary for the purpose of fixing for each classification the highest minimum wage rate that can be determined for it under the principles set out here which will not substantially curtail employment in such classification and will not give a competitive advantage to any group in the industry. No classification shall be made, however, and no minimum wage shall be fixed solely on a regional basis or on the basis of age or sex. In determining whether there should be classifications within the industry, in making such classifications, and in determining the minimum wage rates for such classifications, the committee shall consider, among other relevant factors, the following: (1) Competitive conditions as affected by transportation, living, and production costs; (2) the wages established for work of like or comparable character by collective labor agreements negotiated between employers and employees by representatives of their own choosing; and (3) the wages paid for work of like or comparable character by employers who voluntarily maintain minimum wage standards in the industry.

The Administrator shall prepare an economic report containing such data as he is able to assemble pertinent to the matters herein referred to each committee. Copies of these reports may be obtained at the national and Puerto Rican offices of the United States Department of Labor as soon as they are completed and prior to the hearings. Each committee will take official notice of the facts stated in the economic report to the extent they are not refuted at the hearings.

The procedure of these industry committees will be governed by Title 29 of the Code of Federal Regulations, Part 511, as revised and amended on November 4, 1955 (20 F. R. 8285) and May 30, 1956, (21 F. R. 3678), and October 6, 1956 (21 F. R. 7669). As a prerequisite to participation as witnesses or parties these regulations require, among other things, that interested persons in the present matters shall file a prehearing statement containing certain specified data, not later than March 29, 1957.

Signed at Washington, D. C., this 2d day of March 1957.

JAMES P. MITCHELL,
Secretary of Labor.

TOLERANCES AND EXEMPTIONS FROM TOLERANCES FOR PESTICIDE CHEMICALS IN OR ON RAW AGRICULTURAL COMMODITIES

NOTICE OF FILING OF PETITION FOR ESTABLISHMENT OF TOLERANCES FOR RESIDUES OF 2,3-DICHLORO-1,4-NAPHTHOQUINONE

Pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (sec. 408 (d) (1), 68 Stat. 512; 21 U. S. C. 346a (d) (1)), the following notice is issued:

A petition has been filed by United States Rubber Company, c/o Arthur Dry, and Dole, 1230 Sixth Avenue, New York, New York, proposing the establishment of a tolerance of 3 parts per million for residues of 2,3-dichloro-1,4-naphthoquinone in or on the following raw agricultural commodities: Apples, peaches.

The analytical method proposed in the petition for determining residues of 2,3-dichloro-1,4-naphthoquinone is a modification of the method proposed by McNew in Phytopathology, Volume [illegible], page 665 (1948).

Dated: February 28, 1957.

[SEAL] GEO. P. LARRICK,
Commissioner of Food and Drugs.

TOLERANCES AND EXEMPTIONS FROM TOLERANCES FOR PESTICIDE CHEMICALS IN OR ON RAW AGRICULTURAL COMMODITIES

NOTICE OF FILING OF PETITION FOR ESTABLISHMENT OF TOLERANCES FOR RESIDUES OF ETHYLENE DIBROMIDE

Pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (sec. 408 (d) (1), 68 Stat. 512; 21 U. S. C. 346a (d) (1)), the following notice is issued:

A petition has been filed by the Dow Chemical Company, Midland, Michigan, requesting the establishment of the following tolerances for residues that result from the use of ethylene dibromide to fumigate soil in connection with the production of the following raw agricultural commodities:

Raw agricultural commodity:	*Proposed tolerance (inorganic bromide (parts per million)*
Beans (green)	[illegible]
Broccoli	[illegible]
Cabbage	[illegible]
Celery	[illegible]
Cucumbers	[illegible]
Eggplant	[illegible]
Lettuce	[illegible]
Melons	[illegible]
Peppers	[illegible]
Potatoes (Irish)	[illegible]
Summer squash	[illegible]
Sweet corn (with or without forage)	[illegible]
Tomatoes	[illegible]

The analytical method set out in the petition is reported in Analytical Edition of Industrial and Engineering Chemistry, Volume 14, pages 1–4, January 15, 1942.

Dated: February 28, 1957.

[SEAL] GEO. P. LARRICK,

NOTICES

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[Serial No. Idaho 07970]

IDAHO

ORDER PROVIDING FOR OPENING OF PUBLIC LANDS

FEBRUARY 28, 1957.

In an exchange of lands made in accordance with the terms and provisions of the act of March 20, 1922 (42 Stat. 465), as amended by the act of February 28, 1925 (43 Stat. 1090) the following described lands have been reconveyed to the United States:

BOISE MERIDIAN, IDAHO

T. 12 N., R. 36 E.,
Sec. 35, SW¼NW¼.

These lands total 40 acres.

The land lies within Grazing District No. 3, three miles south of Spencer, Idaho, at approximately 5,500 foot elevation. The topography is rolling to level and the lands are non-mineral in character. The soil is sandy loam of igneous origin, generally shallow, containing some rocks and is considered submarginal for crop production. About 20 acres of these lands have been cleared and are covered with cheatgrass and some Russian thistle, the remainder is covered by sagebrush, rabbit brush and wheat grass. There is no known source of water or irrigation water available to these lands.

The land is primarily valuable for grazing and is recommended for retention by the United States in order that it may be used in connection with the stock driveway which serves the surrounding Federal range.

No application for these lands will be allowed under the homestead, desert land, small tract or any other non-mineral public land law, unless the lands have already been classified as valuable, or suitable for such type of application, or shall be so classified upon consideration of an application. Any application that is filed will be considered on its merits. The lands will not be subject to occupancy or disposition until they have been classified.

Subject to any valid existing rights and the requirements of applicable law, the lands described herein, are hereby open to filing of applications, selections and locations in accordance with the following:

a. Applications and selections under the non-mineral public land laws may be presented to the manager mentioned below, beginning on the date of this order. Such applications, selections and offers will be considered as filed under the hour and respective dates shown for the various classes enumerated in the following paragraphs:

(1) Applications by persons having prior existing valid settlement rights, preference rights conferred by existing laws, or equitable claims, subject to allowance and confirmation, will be adjudicated on the facts presented in support of each claim or right. All applications presented by persons other than those referred to in this paragraph will be subject to the applications and claims mentioned in this paragraph.

(2) All valid applications under the homestead, desert land and small tract laws by qualified veterans of World War II and, or, the Korean conflict, and by others entitled to preference rights under the act of September 27, 1944 (58 Stat. 747; 43 U. S. C. 279 through 284, as amended), presented prior to 10:00 a. m. on March 5, 1957, will be considered as simultaneously filed at that hour. Rights under such preference right applications filed after that hour and before 10:00 a. m. on July 5, 1957, will be governed by the time of filing.

(3) All valid applications and selections under the non-mineral public land laws, other than those coming under paragraph (1) and (2) above, and applications and offers under the mineral-leasing laws, presented prior to 10:00 a. m. on July 5, 1957, will be considered as simultaneously filed at that hour. Rights under such applications and selections filed after that hour will be governed by the time of filing.

b. The lands will be open to location under the United States mining laws, beginning at 10:00 a. m., on July 5, 1957.

Persons claiming veterans preference rights under paragraph a (2) above, must enclose with their application proper evidence of military or naval service, preferably a complete photostatic copy of the certificate of honorable discharge.

Persons claiming preference rights based upon valid settlement, statutory preference or equitable claims must enclose properly corroborated statements in support of their applications, setting forth all facts relevant to their claims. Detailed rules and regulations governing applications which may be filed pursuant to this notice, can be found in Title 43 of the Code of Federal Regulations.

Inquiries and applications concerning the above lands shall be addressed to the Regional Forester, U. S. Forest Service, Federal Building, Missoula, Montana.

J. R. PENNY,
State Supervisor.

[F. R. Doc. 57-1701; Filed, Mar. 6, 1957; 8:47 a. m.]

IDAHO

NOTICE OF FILING OF PLAT OF SURVEY

FEBRUARY 28, 1957.

A plat of survey of the lands described below will be officially filed in the Land Office, Boise, Idaho, effective at 10:00 a. m. on April 5, 1957.

BOISE MERIDIAN

T. 21 N., R. 22 E.,
Sec. 6, Lots 15, 16;
Sec. 7, Lots 6, 7.

The areas described aggregate 65.14 acres.

The above lands are comprised of islands locally known as City Park Island, Sterling Price Island, and unnamed islands in section 7, within or adjacent to the city limits of Salmon, Idaho. The Sterling Price Island and the unnamed islands are low islands subject to overflow during high water. The City Park Island is used by the city of Salmon for park purposes.

No application for these lands will be allowed under the homestead, desert-land, small-tract, or any other non-mineral public-land law, unless the lands have already been classified as valuable, or suitable for such type of application, or shall be so classified upon consideration of an application. Any application that is filed will be considered on its merits. The lands will not be subject to occupancy or disposition until they have been classified.

Subject to any existing valid rights and the requirements of applicable law, the lands described in paragraph 2 hereof, are hereby opened to filing of applications, selections, and locations in accordance with the following:

a. Applications and selections under the nonmineral public land laws and applications and offers under the mineral leasing laws may be presented to the Manager mentioned below, beginning on the date of this order. Such applications, selections, and offers will be considered as filed on the hour and respective dates shown for the various classes enumerated in the following paragraphs:

(1) Applications by persons having prior existing valid settlement rights, preference rights conferred by existing laws, or equitable claims subject to allowance and confirmation will be adjudicated on the facts presented in support of each claim or right. All applications presented by persons other than those referred to in this paragraph will be subject to the applications and claims mentioned in this paragraph.

(2) All valid applications under the Homestead, Desert Land, and Small Tract Laws by qualified veterans of World War II or of the Korean Conflict, and by others entitled to preference rights under the act of September 27, 1944 (58 Stat. 747; 43 U. S. C. 279–284 as amended), presented prior to 10:00 a. m. on April 5, 1957, will be considered as simultaneously filed at that hour. Rights under such preference right applications filed after that hour and before 10:00 a. m. on July 5, 1957, will be governed by the time of filing.

(3) All valid applications and selections under the nonmineral public land laws, other than those coming under paragraphs (1) and (2) above, and applications and offers under the mineral leasing laws, presented prior to 10:00 a. m. on July 5, 1957, will be considered as simultaneously filed at that hour. Rights under such applications and selections filed after that hour will be governed by the time of filing.

b. The lands will be open to location under the United States mining laws, beginning 10:00 a. m. on July 5, 1957.

Persons claiming veteran's preference rights under paragraph a (2) above must enclose with their applications proper evidence of military or naval service, preferably a complete photostatic copy of the certificate of honorable discharge. Persons claiming preference rights based upon valid settlement, statutory preference, or equitable claims must enclose properly corroborated statements in support of their applications, setting forth all facts relevant to their claims. Detailed rules and regulations governing applications which may be filed pursuant to this notice can be found in Title 43 of the Code of Federal Regulations.

Inquiries concerning these lands shall be addressed to the Manager, Land Office, Bureau of Land Management, P. O. Box 2237, Boise, Idaho.

NOLAN F. KEIL,
Manager, Land Office.

[F. R. Doc. 57-1702; Filed, Mar. 6, 1957; 8:47 a. m.]

OREGON

ORDER PROVIDING FOR RESTORATION OF PUBLIC LANDS FROM POWER SITE CLASSIFICATION

FEBRUARY 25, 1957.

Pursuant to determination DA-442 Oregon, of the Federal Power Commission, and in accordance with Order No. 541, § 2.5 of the Director, Bureau of Land Management, approved April 21, 1954 (19 F. R. 2473–2476), it is ordered as follows:

The lands hereinafter described, so far as they are withdrawn and reserved for power purposes, are hereby restored to disposition under the public land laws, subject to the provisions of section 24, of the Federal Power Act of June 10, 1920, (41 Stat. 1075; 16 U. S. C. 818), as amended.

WILLAMETTE MERIDIAN, OREGON

T. 26 S., R. 2 W.,
Sec. 14: SW¼.

160.00 acres

The lands released from this withdrawal by this order shall not become subject to the initiation of any rights or to any disposition under the public land laws until it is so provided by an order of classification to be issued by an authorized officer opening the lands to application under the Small Tract Act of June 1, 1938 (52 Stat. 609; 43 U. S. C. 682a), as amended, with a ninety-one day preference right period for filing such applications by veterans of World War II and other qualified persons entitled to preference under the act of September 27, 1944 (58 Stat. 497; 43 U. S. C. 279–284) as amended.

The lands described shall be subject to application by the State of Oregon for a period of 90 days from the date of the publication of this order in the FEDERAL REGISTER for right of way for public highways or as a source of material for construction and maintenance of such highways, in accordance with and subject to the provisions of section 24, of the Federal Power Act, as amended.

VIRGIL T. HEATH,
State Supervisor.

FEBRUARY 25, 1957.

[F. R. Doc. 57-1700; Filed, Mar. 6, 1957; 8:47 a. m.]

[Serial W-047696]

WYOMING

ORDER PROVIDING FOR OPENING OF PUBLIC LANDS

FEBRUARY 28, 1957.

In accordance with order of the Acting Director, Geological Survey, of March 23, 1956, entitled "Power Site Cancellation No. 110" (21 F. R. 2128), which canceled in part Power Site Classification No. 375 approved August 25, 1945, and pursuant to authority delegated to me by the Wyoming State Supervisor, Bureau of Land Management, under Part II of Order of Delegation filed November 21, 1956 (21 F. R. 9147) the following described public lands are hereby restored to disposition under the applicable public land laws as hereinafter indicated:

SIXTH PRINCIPAL MERIDIAN, WYOMING

T. 37 N., R. 94 W.,
Sec. 5, Lots 3, 4, S½NW¼, SW¼, NW¼SE¼;
Sec. 6, Lots 1, 2, 3, 4;
Sec. 29, W½NE¼, SE¼NE¼, NE¼SW¼, NW¼SE¼.
T. 38 N., R. 94 W.,
Sec. 3, W½SW¼;
Sec. 4, Lot 4, SW¼NW¼, NW¼SW¼, NE¼SE¼;
Sec. 5, Lots 1, 2, 3, SE¼NE¼, NE¼SE¼;
Sec. 10, SE¼NE¼, S½NW¼;
Sec. 27, SE¼SW¼, SW¼SE¼;
Sec. 29, SW¼NW¼, N½SW¼;
Sec. 30, Lots 1, 2;
Sec. 31, Lots 3, 4;
Sec. 33, N½N½, SW¼NE¼.
T. 39 N., R. 94 W.,
Sec. 5, S½NE¼;
Sec. 9, SW¼;
Sec. 21, NE¼, N½SE¼, SE¼SE¼;
Sec. 22, SW¼, W½SE¼, NW¼NW¼;
Sec. 27, W½NW¼;
Sec. 28, NE¼NE¼, S½NE¼, SE¼NW¼, NE¼SW¼, S½SW¼, W½SE¼;
Sec. 29, S½SE¼;
Sec. 32, NE¼, SW¼, N½SE¼, SW¼SE¼.
T. 40 N., R. 94 W.,
Sec. 31, Lot 1;
Sec. 32, SE¼SW¼.

The areas described total approximately 3535.47 acres of public lands.

1. This land is located one to two miles east of the Boysen Reservoir in the vicinity of Shoshoni, Wyoming. It consists of fair to poor grazing land without available stock water. Both topography and soils are widely varied, and are unsuitable for the production of domestic crops. The vegetation is primarily native grasses, sagebrush, and rabbit brush, with some value for grazing by range livestock.

2. No applications for these lands will be allowed under the homestead, desert land, small tract, or any other nonmineral public land law unless the lands have already been classified as valuable or suitable for such type of application, or shall be so classified upon consideration of an application. Any application that is filed will be considered on its merits. The lands will not be subject to occupancy or disposition until they have been classified.

3. The lands described shall be subject to application by the State of Wyoming for a period of 90 days from the date of publication of this order in the FEDERAL REGISTER for rights-of-way for public highways or as a source of material for construction and maintenance of such highways.

4. Subject to any valid existing rights and the requirements of applicable law, the lands described above are hereby opened to filing of applications, selections, and locations in accordance with the following:

a. Applications and selections under the non-mineral public land laws may be presented to the Manager mentioned below, beginning on the date of this order. Such applications and selections, will be considered as filed on the hour and respective dates shown for the various classes enumerated in the following paragraphs:

(1) Applications by persons having prior existing valid settlement rights, preference rights conferred by existing laws, or equitable claims subject to allowance and confirmation will be adjudicated on the facts presented in support of each claim or right. All applications presented by persons other than those referred to in this paragraph will be subject to the applications and claims mentioned in this paragraph.

(2) All valid applications under the Homestead, Desert Land and Small Tract Laws by qualified veterans of World War II or of the Korean Conflict, and by others entitled to preference rights under the act of September 27, 1944 (48 Stat. 747; 43 U. S. C. 279–284, as amended) presented prior to 10:00 a. m., local time, on April 5, 1957, will be considered simultaneously filed at that hour. Rights under such preference right applications filed after that hour and before 10:00 a. m., local time, on July 5, 1957, will be governed by the time of filing.

(3) All valid applications and selections under the non-mineral public land laws, other than those coming under paragraphs (1) and (2) above, presented prior to 10:00 a. m., local time, on July 5, 1957 will be considered as simultaneously filed that hour. Rights under such applications and selections filed after that hour will be governed by the time of filing.

5. Persons claiming veterans' preference rights under paragraph a. (2) above must enclose with their applications proper evidence of military or naval service, preferably a complete photostatic copy of the certificate of honorable discharge. Persons claiming preference rights based upon valid settlement, statutory perference, or equitable claims must enclose properly corroborated statements in support of their applications setting forth all facts relevant to their claims. Detailed rules and regulations governing applications which may be filed pursuant to this notice can be found in Title 43 of the Code of Federal Regulations.

6. The lands hereinafter described, also included in Power Site Cancellation No. 110, are restored so far as they are withdrawn and reserved for power purposes, but remain in withdrawn status under section 10 of the act of December 29, 1916 (39 Stat. 865; 43 U. S. C. 300) providing for the reservation of lands containing water holes or stock driveways.

SIXTH PRINCIPAL MERIDIAN, WYOMING

T. 38 N., R. 94 W.,
Sec. 28, SW¼SE¼, Public Water Reserve.
Sec. 34, NW¼NE¼, N½NW¼, Stock Driveway.

The areas described total 160 acres of public lands.

7. All of the lands described in this order have been subject to mining location under the act of August 11, 1955 (69 Stat. 681; 30 U. S. C. 621–625) and to applications and offers under the mineral leasing laws.

8. Inquiries concerning the lands described in this order shall be addressed to: Manager, Land Office, Bureau of Land Management, Post Office Box 928, Cheyenne, Wyoming.

EUGENE L. SCHMIDT,
Lands and Minerals Officer.

[F. R. Doc. 57-1703; Filed, Mar. 6, 1957; 8:47 a. m.]

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

ORGANIZATION, FUNCTIONS, AND DELEGATIONS OF AUTHORITY

Pursuant to authority (19 F. R. 74) delegated to the Administrator, Agricultural Marketing Service, the material appearing at 19 F. R. 35, 6169, and 6904, 20 F. R. 7740, and 21 F. R. 304 and 2678, is hereby revoked and the following is substituted therefor:

ORGANIZATION AND FUNCTIONS

SECTION 1. *General.* The Agricultural Marketing Service, hereinafter referred to as "AMS", was created by the Secretary's Memorandum No. 1320, Supplement 4, of November 2, 1953, under the authority of section 161, Revised Statutes (5 U. S. C. 22), Reorganization Plan No. 2 of 1953 (5 U. S. C. 133z–15), and related authorities. AMS is organized to aid in advancing the orderly and efficient marketing and the effective distribution of products from the Nation's farms. The marketing and distribution functions of the Department are centered in AMS. AMS is also responsible for the coordination of all statistical and related economic analysis work of the Department. The primary functions of AMS include marketing research and development programs relating to the assembly, transportation, storage, handling, packaging, distribution and pricing of farm products, and the structure, financing and organization of domestic markets; economic analysis and statistical programs relating to agricultural prices and income, commodity outlook and situation, food demand and consumption, farm population and rural life, and agricultural history; crop and livestock estimates and reporting programs relating to production, value and utilization of farm crops and livestock and livestock products, and prices received and paid by farmers; marketing services (market news, standardization, inspection, classing, grading) programs contributing to the efficient and orderly marketing of agricultural commodities; freight rate services to assist in obtaining and maintaining equitable transportation rates and services on farm supplies and products; marketing regulatory programs aimed at protecting farmers and others from financial loss resulting from deceptive, careless, and fraudulent marketing practices; school lunch program aimed at improving the health and well-being of the Nation's school children and broadening the market for agricultural food commodities; surplus removal of agricultural commodities and marketing agreement and order programs designed to maintain prices received by farmers and establish and maintain orderly marketing conditions; and assigned civil defense and defense mobilization activities involving planning for processing and distributing foods and fibers under emergency conditions. AMS has also been delegated authority for, and is called upon, to perform certain other services for Federal, State and private agencies, on a reimbursable or advance payment basis. These include, among others, the special school milk program, and administration of section 708 of the National Wool Act of 1954. The central office of AMS is located at Washington, D. C., but a large part of the program activity is carried on through various field offices of the several Washington commodity and functional divisions.

SEC. 2. *The Office of the Administrator*—(a) *The Administrator.* The Administrator is responsible for the general direction and supervision of programs and activities assigned to AMS. He reports to the Assistant Secretary for Marketing and Foreign Agriculture.

(b) *Deputy Administrator, Marketing Research and Statistics.* The Deputy Administrator for Marketing Research and Statistics is responsible for:

(1) Participating with the Administrator in the over-all planning and formulation of all policies, programs and activities of AMS, and

(2) Directing and coordinating the administration of the marketing research and development programs, economic analysis and statistical programs, crop and livestock estimates and reporting programs, assigned civil defense and defense mobilization activities, and other related programs and activities. These programs and activities are carried out by three functional Divisions, the Agricultural Economics, Agricultural Estimates, and Marketing Research Divisions, located at Washington, D. C., and by field State Statistical offices on agricultural estimates and reporting and functional field branch offices on marketing research and development.

(c) *Deputy Administrator, Marketing Services.* The Deputy Administrator for Marketing Services is responsible for:

(1) Participating with the Administrator in the over-all planning and formulation of all policies, programs and activities of AMS, and

(2) Directing and coordinating the administration of the marketing services, freight rate services, marketing regulatory, school lunch, surplus removal, marketing agreements and orders, special school milk, assigned civil defense and defense mobilization activities, and other related programs and activities. These programs and activities are carried out by seven commodity Divisions (Cotton, Dairy, Fruit and Vegetable, Grain, Livestock, Poultry and Tobacco), and two functional Divisions (Food Distribution and Special Services), located at Washington, D. C., and by functional field branch offices of these Divisions.

(d) *Assistant Administrator for Management.* The Assistant Administrator for Management under the direction and supervision of the Administrator is responsible for:

(1) Participating with the Administrator, Deputy Administrators, and other key staff members, in the over-all planning and formulation of all policies, programs and activities of AMS, with particular emphasis on the management aspects, and

(2) Directing and coordinating the administration and integration of the over-all management, budget, fiscal, personnel, and administrative services programs necessary to meet the requirements of the marketing and distribution programs and assigned civil defense and defense mobilization activities of AMS. These programs and activities are carried out by the Administrative Services, Budget and Finance, and Personnel Divisions located at Washington, D. C., and by field Area Administrative Divisions.

SEC. 3. *Staff Assistants and Staff Divisions*—(a) *Liaison, Matching Fund Program, State Departments of Agriculture.* This office under the direction and supervision of the Administrator is responsible for:

(1) Providing leadership and consulting services to assist States in the development and execution of matched-funds marketing service projects, under the provisions of the Agricultural Marketing Act of 1946, as amended, and coordinating similar lines of work between States, and

(2) Reviewing and approving such projects proposed by the State Departments of Agriculture, Bureaus of Markets, and similar State agencies.

(b) *Chairman, Outlook and Situation Board.* The Chairman of the Outlook and Situation Board under the direction and supervision of the Administrator is responsible for:

(1) Serving as Chairman of the Outlook and Situation Board, and

(2) Providing for the technical review and approval of all economic Outlook and Situation reports prepared within the Department.

(c) *Statistical Clearance and Standards.* This office under the direction and supervision of the Administrator is responsible for:

(1) Reviewing and clearing all survey plans, reporting requirements, and statistical forms originating in the Department and requiring approval of the Bureau of the Budget.

(2) Providing consulting services on statistical techniques within AMS and to agencies of the Department,

(3) Providing liaison for coordinating statistics within the Department and

(4) Evaluating the merits of alternative statistical methods, developing new methods, advising on the development of methods research projects undertaken within agencies of the Department, and promoting the adoption of improved methods.

(d) *Marketing Information Division.* The Marketing Information Division under the direction and supervision of the Administrator is responsible for planning and administering an information program involving all of the marketing and distribution programs and activities of AMS. In addition to the central office located at Washington, D. C., this program is carried on through area Information offices.

(e) *Program Appraisal and Audit Division.* The Program Appraisal and Audit Division under the direction and supervision of the Administrator is responsible for planning and administering the program appraisal and audit and investigatory services programs necessary to meet the requirements of the over-all programs and activities of AMS. In addition to the central office located at Washington, D. C., this program is carried on through area offices.

SEC. 4. *Marketing Research and Statistics.* The Agricultural Economics, Agricultural Estimates, and Marketing Research Divisions under the direction and supervision of the Deputy Administrator for Marketing Research and Statistics are responsible as follows:

(a) *Agricultural Economics Division.* The Agricultural Economics Division is responsible for:

(1) Planning and administering economic analysis and statistical research and service programs relating to farm prices, demand for and consumption of farm products, agricultural history; farm income, relationships between the farm economy and the national economy, and the economic forces affecting the general levels of demand, prices and income in agriculture; farm population, agricultural labor, levels and standards of living, rural organization, and other

rural problems and trends; and related activities; and

(2) Executing assigned civil defense and defense mobilization activities.

(b) *Agricultural Estimates Division.* The Agricultural Estimates Division is responsible for:

(1) Planning and administering crop and livestock estimates and reporting programs including estimates of acreages, yields, production, stocks, value and utilization of farm crops; numbers, production, value and utilization of livestock and livestock products; prices received by farmers for products sold and prices paid for commodities and services bought for living and production; farm employment and wage rates; quantities of various foodstuffs in cold storage; and other aspects of the agricultural economy,

(2) Computing the parity index and determining and publishing parity prices for agricultural commodities,

(3) Administering the Peanut Statistics Act and the Turpentine and Rosin Statistics Act, and

(4) Executing assigned civil defense and defense mobilization activities. The Division Director serves as Chairman of the Crop Reporting Board.

(c) *Marketing Research Division.* The Marketing Research Division is responsible for:

(1) Planning and administering, in cooperation with private, State, and other Federal agencies, agricultural marketing research and development programs authorized by the Agricultural Marketing Act of 1946, as amended, and other legislation, and

(2) Carrying out marketing research relating to distribution and merchandising of agricultural products with emphasis on products in abundant supply and requiring additional outlets; measurement, protection, and improvement of quality of agricultural products as they pass through the marketing system with emphasis on the physiological, biochemical, pathological and entomological problems encountered and on the physical and biological evaluation of quality factors; transportation, wholesaling and retailing, handling and facilities, and market facility planning for agricultural products with emphasis on economic and engineering research; and organization, structure and practices of commodity markets, and informational, statistical and other services needed for the management of market firms, with emphasis on economic and cost analysis research relating to the marketing of specific agricultural commodities; and related activities; and

(3) Executing assigned civil defense and defense mobilization activities.

SEC. 5. *Marketing Services.* The commodity Divisions, consisting of the Cotton, Dairy, Fruit and Vegetable, Grain, Livestock, Poultry, and Tobacco Divisions, and the Food Distribution and Special Services Divisions, under the direction and supervision of the Deputy Administrator for Marketing Services, are responsible as follows:

(a) *Cotton Division.* The Cotton Division is responsible for:

(1) Planning and administering marketing services (market news, standardization, classing, grading, and testing), surplus removal, expansion of market outlets, marketing regulatory, and related programs for cotton, cotton linters, cottonseed, cotton products, and other vegetable fibers and related commodities as authorized by Cotton futures provisions of Internal Revenue Code of 1954, U. S. Cotton Standards Act, as amended, Cotton Statistics and Estimates Act, as amended, Section 32 of the Agricultural Adjustment Act of August 24, 1935, as amended, Agricultural Marketing Act of 1946, as amended, and other authorities, and

(2) Executing assigned civil defense and defense mobilization activities.

(b) *Dairy Division.* The Dairy Division is responsible for:

(1) Planning and administering marketing services (market news, standardization, inspection, and grading), marketing agreements and orders, surplus removal, expansion of market outlets, and related programs for milk and dairy products as authorized by the Agricultural Marketing Agreement Act of 1937, as amended, section 32 of the Agricultural Adjustment Act of August 24, 1935, as amended, Agricultural Marketing Act of 1946, as amended, and other authorities.

(2) Directing market news services on poultry and poultry products, and domestic rabbits, and

(3) Executing assigned civil defense and defense mobilization activities.

(c) *Fruit and Vegetable Division.* The Fruit and Vegetable Division is responsible for:

(1) Planning and administering marketing services (market news, standardization, inspection, and grading), marketing agreements and orders, marketing regulatory, surplus removal, expansion of market outlets, and related programs for fruits and vegetables, their products and other assigned commodities as authorized by the Standard Container Acts of 1916 and 1928, as amended, Produce Agency Act, as amended, Perishable Agricultural Commodities Act, 1930, as amended, Export Apple and Pear Act, Agricultural Marketing Agreement Act of 1937, as amended, section 32 of the Agricultural Adjustment Act of August 24, 1935, as amended, section 8e of the Agricultural Adjustment Act of 1933, as added August 28, 1954, and amended, Agricultural Marketing Act of 1946, as amended, and other authorities, and

(2) Executing assigned civil defense and defense mobilization activities.

(d) *Grain Division.* The Grain Division is responsible for

(1) Planning and administering marketing services (market news, standardization, inspection, grading, and testing), marketing regulatory, surplus removal, expansion of market outlets, and related programs for grain, grain products, seeds, beans, peas, rice, hay and related commodities as authorized by the U. S. Grain Standards Act, as amended, Federal Seed Act, as amended, section 32 of the Agricultural Adjustment Act of August 24, 1935, as amended, Agricultural Marketing Act of 1946, as amended, and other authorities.

(2) Planning and administering market news services on molasses and sugar cane syrups, and

(3) Executing assigned civil defense and defense mobilization activities.

(e) *Livestock Division.* The Livestock Division is responsible for:

(1) Planning and administering marketing services (market news, standardization, inspection, grading), marketing regulatory, surplus removal, expansion of market outlets, and related programs for livestock, meat, meat products, wool, mohair, and related commodities as authorized by Packers and Stockyards Act, 1921, as amended, Wool Standards Act, Section 32 of the Agricultural Adjustment Act of August 24, 1935, as amended, Agricultural Marketing Act of 1946, as amended, and other authorities, and

(2) Executing assigned civil defense and defense mobilization activities.

(f) *Poultry Division.* The Poultry Division is responsible for:

(1) Planning and administering marketing services (standardization, inspection, and grading), surplus removal, expansion of market outlets, and related programs for poultry, poultry products, domestic rabbits, and related commodities as authorized by Section 32 of the Agricultural Adjustment Act of August 24, 1935, as amended, Agricultural Marketing Act of 1946, as amended, and other authorities,

(2) Formulating policies for market news service on poultry and poultry products, and domestic rabbits, which are administered by the Dairy Division, and

(3) Executing assigned civil defense and defense mobilization activities.

(g) *Tobacco Division.* The Tobacco Division is responsible for:

(1) Planning and administering marketing services (market news, standardization, inspection, and grading), marketing agreements and orders, marketing regulatory, surplus removal, expansion of market outlets, and related programs for tobacco, tobacco products and by-products, naval stores, and related commodities as authorized by Tobacco Stocks and Standards Act of 1929, as amended, Tobacco Inspection Act, as amended, Tobacco Plant and Seed Exportation Act, Naval Stores Act, Agricultural Marketing Agreement Act of 1937, as amended, section 32 of the Agricultural Adjustment Act of August 24, 1935, as amended, and other authorities, and

(2) Executing assigned civil defense and defense mobilization activities.

(h) *Food Distribution Division.* The Food Distribution Division is responsible for:

(1) Planning and administering food distribution programs including school lunch, special school milk, direct distribution, food trades, food preservation, and related programs as authorized by National School Lunch Act, as amended, section 32 of the Agricultural Adjustment Act of August 24, 1935, as amended, sections 201 (c) and 416 of the Agricultural Act of 1949, as amended, and other authorities, and

(2) Executing civil defense and defense mobilization activities which include acting as food claimant for U. S. civilians, and working with the Federal Civil Defense Administration on problems of emergency food supply and distribution.

(i) *Special Services Division.* The Special Services Division is responsible for:

(1) Administering the U. S. Warehouse Act, as amended.

(2) Administering provisions of Section 201 of the Agricultural Adjustment Act of 1938, Section 203 (j) of the Agricultural Marketing Act of 1946, and certain related authorities covering adjustment in freight rates and services for agricultural products and farm supplies.

(3) Acting for, or assisting on assignment from, the Office of the Administrator in directing and coordinating the planning activities and operations assigned AMS with respect to civil defense and defense mobilization, and

(4) Executing other marketing services programs and activities as assigned.

SEC. 6. *Management Services.* The Administrative Services, Budget and Finance, and Personnel Divisions, and the Area Administrative Divisions, under the direction and supervision of the Assistant Administrator for Management are responsible as follows:

(a) *Administrative Services Division.* The Administrative Services Division is responsible for:

(1) Planning and administering procurement, real and personal property, records, communications, procedure, forms, and related management services programs necessary to meet requirements of the over-all programs and activities of AMS, and

(2) Approving, for administrative feasibility and for conformance with governing rules and regulations, cooperative agreements and related documents, and contracts for research work under the Agricultural Marketing Act of 1946, as amended.

(b) *Budget and Finance Division.* The Budget and Finance Division is responsible for:

(1) Planning and administering the budget, fiscal, and related financial programs necessary to meet requirements of the over-all programs and activities of AMS,

(2) Developing and assisting in establishing required controls with respect to apportionments, obligations, and expenditures of available funds, and

(3) Developing, installing and revising accounting systems, methods and procedures for market administrators and control committees operating under marketing agreements and orders.

(c) *Personnel Division.* The Personnel Division is responsible for planning and administering the organization, classification, wages and salary, employment, employee relations, training, safety, and health phases of a personnel program to meet requirements of the over-all programs and activities of AMS.

(d) *Area Administrative Divisions.* Area Administrative Divisions are responsible for planning and carrying out administrative services, budget, fiscal, and personnel management, and related programs necessary to meet requirements of the over-all programs and activities of AMS within assigned geographic and functional areas.

DELEGATIONS OF AUTHORITY

SEC. 7. *Deputy Administrators.* Under the direction and supervision of the Administrator, the Deputy Administrator, Marketing Research and Statistics, and the Deputy Administrator, Marketing Services, are hereby delegated the authority, severally, to perform all the duties and to exercise all the functions and powers (including the power of redelegation except when specifically prohibited) which are now, or which may hereafter be, vested in the Administrator. The authority herein conferred upon each Deputy Administrator shall be exercised by each of such officers in connection with the programs and activities of AMS assigned now or hereafter to the direction and supervision of the respective Deputy Administrator.

SEC. 8. *Assistant Administrator for Management.* Under the direction and supervision of the Administrator, the Assistant Administrator for Management is hereby delegated the authority to perform all the duties and to exercise all the functions and powers (including the power of redelegation except when specifically prohibited) which are now, or which may hereafter be, vested in the Administrator, with respect to formulating, directing, coordinating, and integrating the over-all management, budget, fiscal, personnel, and administrative services programs and activities to meet the requirements of AMS.

SEC. 9. *Staff Assistants and Staff Divisions.* Under the direction and supervision of the Administrator, the officers in charge of the Liaison, Matching Fund Program, State Departments of Agriculture, and the Statistical Clearance and Standards offices, the Chairman, Outlook and Situation Board, and Directors of the Marketing Information and the Program Appraisal and Audit Divisions, are hereby delegated authority, in connection with the respective functions herein assigned to each of them, to perform all the duties and to exercise all the functions and powers (including the power of redelegation except when specifically prohibited) which are now, or which may hereafter be, vested in the Administrator.

SEC. 10. *Marketing Research and Statistics Divisions.* Under the direction and supervision of the Deputy Administrator, Marketing Research and Statistics, the Directors of the Agricultural Economics, the Agricultural Estimates, and the Marketing Research Divisions, are hereby delegated authority, in connection with the respective functions herein assigned to each of them, to perform all the duties and to exercise all the functions and powers (including the power of redelegation except when specifically prohibited) which are now, or which may hereafter be, vested in the Administrator.

SEC. 11. *Marketing Services Divisions.* Under the direction and supervision of the Deputy Administrator, Marketing Services, the Directors of the Cotton, Dairy, Fruit and Vegetable, Grain, Livestock, Poultry, Tobacco, Food Distribution, and the Special Services Divisions, are hereby delegated authority, in connection with the respective functions herein assigned to each of them, to perform all the duties and to exercise all the functions and powers (including the power of redelegation except when specifically prohibited) which are now, or which may hereafter be, vested in the Administrator.

SEC. 12. *Management services Divisions.* Under the direction and supervision of the Assistant Administrator for Management, the Directors of the Administrative Services Division, Budget and Finance Division, Personnel Division, and the Area Administrative Divisions, are hereby delegated authority, in connection with the respective functions herein assigned to each of them, to perform all the duties and to exercise all the functions and powers (including the power of redelegation except when specifically prohibited) which are now, or which may hereafter be, delegated or assigned to the Assistant Administrator for Management.

SEC. 13. *Concurrent authority and responsibility to the Administrator.* No delegation or authorization prescribed herein shall preclude the Administrator, either Deputy Administrator, or the Assistant Administrator for Management, from exercising any of the powers or functions or from performing any of the duties conferred herein, and any such delegation or authorization is subject at all times to withdrawal or amendment by the Administrator and, in their respective fields, by either Deputy Administrator, or the Assistant Administrator for Management. The officers to whom authority is delegated herein shall (a) maintain close working relationships with the officers to whom they report, (b) keep them advised with respect to major problems and developments, and (c) discuss with them proposed actions involving major policy questions or other important considerations or questions, including matters involving relationships with other Federal agencies, other agencies of the Department, other Divisions or Offices of AMS, or other Governmental or private organizations or groups.

SEC. 14. *Availability of information and records.* Any person desiring information or to make submittals or requests with respect to the programs and functions of AMS should address his request to: Administrator, Agricultural Marketing Service, U. S. Department of Agriculture, Washington 25, D. C. or to the Director of the particular Division or Office, Agricultural Marketing Service, U. S. Department of Agriculture, Washington 25, D. C. The availability of information and records of AMS and its Divisions and Offices is governed by the rules of the Secretary in Subpart A of Part 1, Title 7, Code of Federal Regulations.

SEC. 15. *Other authorizations and delegations.* All actions relating to any

programs or activities affected hereby, and previous delegations of authority with respect to such programs or activities shall remain in effect except as they are inconsistent herewith or are hereafter amended or revoked under proper authority; and nothing herein shall affect the validity of anything heretofore done under previous delegations of authority or assignment of functions. The delegations and authorizations prescribed herein to Divisions and Offices of AMS are subject to such delegations and authorizations as are granted by the AMS instructions and otherwise.

Issued at Washington, D. C., this 4th day of March, 1957 to become effective March 4, 1957.

[SEAL] ORIS V. WELLS,
Administrator.

[F. R. Doc. 57-1745; Filed, Mar. 6, 1957; 8:56 a. m.]

Office of the Secretary

NEBRASKA

DISASTER ASSISTANCE; DELINEATION OF DROUGHT AREA

Pursuant to Public Law 875, 81st Congress, the President determined on July 19, 1956, that a major disaster occasioned by drought existed in the State of Nebraska.

Pursuant to the authority delegated to me by the Administrator, Federal Civil Defense Administration (18 F. R. 4609; 19 F. R. 2148, 5364), and for the purposes of section 2 (d) of Public Law 38, 81st Congress, as amended by Public Law 115, 83d Congress, and section 301 of Public Law 480, 83d Congress, the following counties were determined on February 21, 1957, to be affected by the above-mentioned major disaster.

NEBRASKA

Pierce.
Wayne.

Done at Washington, D. C., this 1st day of March 1957.

[SEAL] TRUE D. MORSE,
Under Secretary.

DEPARTMENT OF COMMERCE

Federal Maritime Board

AMERICAN PRESIDENT LINES, LTD., ET AL.

NOTICE OF AGREEMENT FILED FOR APPROVAL

Notice is hereby given that the following described agreement has been filed with the Board for approval pursuant to section 15 of the Shipping Act, 1916 (39 Stat. 733, 46 U. S. C. 814):

Agreement No. 8061-1, between American President Lines, Ltd., Lykes Bros. Steamship Company, Inc., Mitsui Steamship Company, Ltd., Prince Line, Ltd., N. V. Stoomvaart Maatschappij "Nederland", Koninklyke Rotterdamsche Lloyd, N. V., N. V. Nederlandsch-Amerikaansche Stoomvaart Maatschappij "Holland-Amerika Lijn", the carriers comprising Barber Fern-Ville Lines, Blue Funnel Line, Hoegh Line, and A. P. Moller-Maersk Line joint services, Isthmian Lines, Inc., and Tri-Coast Steamship Company (formerly Isthmian Steamship Company), modifying approved Agreement No. 8061 to record Isthmian Lines, Inc., as a party in place of Isthmian Steamship Company (now Tri-Coast Steamship Company). Agreement No. 8061 covers an arrangement for the apportionment of the carriage of all rubber originating in Siam (excluding Bangkok local rubber) destined to the United States Atlantic and Gulf ports, whether loaded direct at Siam ports or transhipped by road, rail or otherwise, to vessels of the carriers at ports in Malaya, Kohsichang or Bangkok.

Interested parties may inspect this agreement and obtain copies thereof at the Regulation Office, Federal Maritime Board, Washington, D. C., and may submit, within 20 days after publication of this notice in the FEDERAL REGISTER, written statements with reference to the agreement and their position as to approval, disapproval, or modification, together with request for hearing should such hearing be desired.

Dated: March 4, 1957.

By order of the Federal Maritime Board.

GEO. A. VIEHMANN,
Assistant Secretary.

FEDERAL COMMUNICATIONS COMMISSION

[Docket No. 11288 etc.; FCC 57-190]

PONCE DE LEÓN BROADCASTING CO., INC., ET AL.

MEMORANDUM OPINION AND ORDER AMENDING ISSUES

In re applications of Ponce de Leon Broadcasting Co., Inc., of Puerto Rico, Mayaguez, Puerto Rico, Docket No. 11288, File No. BPCT-1906; Sucesion Luis Pirallo-Castellanos, Mayaguez, Puerto Rico, Docket No. 11811, File No. BPCT-2158; Department of Education of Puerto Rico, Mayaguez, Puerto Rico, Docket No. 11812, File No. BPCT-2159; for construction permits for new television stations.

1. The Commission has before it for consideration (1) a petition filed on October 1, 1956 by Department of Education of Puerto Rico requesting enlargement of issues in the above-entitled proceeding, (2) oppositions to the said petition filed by Ponce de Leon Broadcasting Co., Inc. of Puerto Rico, Sucesion Luis Pirallo-Castellanos, and the Commission's Broadcast Bureau, and (3) replies to the Oppositions filed by Department of Education of Puerto Rico.

2. By order released on September 11, 1956, the Commission designated the above-entitled applications for hearing in a comparative proceeding on issues specified therein, which included inter alia, the standard comparative issue. Petitioner here requests enlargement of this issue to include as subparagraph (d) the following: The areas and populations to be served by the stations proposed by the applicants herein.

Enlargement is also requested to include the following new issues:

(a) To determine whether a grant to Sucesion Luis Pirallo-Castellanos of authority to maintain main sudios outside Mayaguez would be consistent with the provisions of § 3.613 of the Commission's rules.

(b) To determine whether Sucesion Luis Pirallo-Castellanos is financially qualified to construct and operate a television station in Mayaguez as proposed by this applicant.

(c) To determine whether the proposal of Sucesion Luis Pirallo-Castellanos will have an adverse effect upon the operation of Station WAEL (AM) and, if so, the nature and extent thereof and whether, in the light thereof, the Sucesion application should be granted.

3. The request for inclusion of an issue relative to the studio proposal of Sucesion is predicated solely on the fact that the proposed location is 0.6 mile from the city limits and accordingly a waiver of § 3.613 of the Commission's rules has been requested. The proposed studios of the applicants may, under the present issues, be a matter of comparative consideration in this proceeding. Accordingly, petitioner may now introduce any probative evidence available relative to the adequacy, accessibility or other matters which would demonstrate that Sucesion's studio proposal is not consistent with the operation of its proposed station in the public interest. No useful purpose would therefore be served by inclusion of such issue.

4. The request for inclusion of an issue as to the effect upon the operation of Station WAEL (AM) is based on the fact that the Commission has stated that, in the event of a grant of the Sucesion application, it will be subject to the condition that the construction authorized shall have no adverse effect upon the operation of Station WAEL. Petitioner contends that the Commission being of the view that such condition is necessary, there is every reason to include an issue to determine whether such effect will occur and, if so, the extent thereof and whether Sucesion is willing to take steps to correct them. Petitioner however ignores the fact that Sucesion has stated it will accept a grant subject to such condition. The Commission is aware, as pointed out in Sucesion's opposition, that a number of television installations involving more critical engineering considerations in relation to existing AM stations are in operation than that here involved. At the time of determining Sucesion's technical qualifications it was determined that, provided proper steps were taken in installation of the proposed television station, the operation of Station WAEL would remain unaffected. The proposed condition therefore is only to give assurance of such installation by incorporating it as a part of the construction permit that would issue. It should be further noted that the WAEL antenna site is in fact located at a site 3.2 miles from the site proposed by Sucesion. It was the adjacent site to Sucesion's proposal originally specified by WAEL that led the Commission to adopt this condition. Petitioner has made no effort to demonstrate that it could produce probative evidence which would in any manner place in question our determination as to Sucesion's technical qualifications. No useful purpose would therefore be served by inclusion of such issue.

5. Petitioner also asserts that the application of Sucesion, on its face, demonstrates that this applicant is not financially qualified. It is therefore requested that its financial qualifications be placed in issue. Petitioner concedes that Sucesion will have cash available in the amount of $148,900. Total cash requirements for the first year would, as a maximum, be slightly under $220,000. Without regard to estimated revenues, Sucesion shows that it has, in addition to the said sum of $148,900 the following assets: loans and mortgages of approximately $50,000; unmortgaged real estate valued at $37,000; and stocks valued at $73,960 which valuation was accepted in 1952 by the Puerto Rico Government for estate tax purposes. Of the $229,000 total maximum cash requirements however, only $172,708 would be required for Sucesion to build its station and operate for an initial period before revenues could be expected. Thus from the above additional assets totaling $160,960 Sucesion would need only approximately $24,000 for construction and initial operation.

6. Petitioner contends however, that consideration cannot be given to the above additional assets of $160,960 as there has been no definite showing as to the exact amount receivable from the said mortgages and loans or that any of them would be due or callable; that the method of valuation of the $37,000 in real estate has not been shown and that it has not been shown that funds could be realized from the said stocks. Petitioner further contends that the Mayaguez market will not support a commercial television operations as the station presently operating in that city is virtually nothing more than a satellite of a San Juan station. It is therefore asserted that Sucesion cannot expect any substantial revenues after commencement of operations. No other facts are set forth in support of this contention.

7. As petitioner is aware, the Commission required the submission of additional evidence by Sucesion as to its financial qualifications prior to passing thereon. Upon the basis of the identical facts here submitted, it was found to be financially qualified. Nothing new has here been submitted other than an unsupported assertion that the Mayaguez area will not support a commercial television operation. Upon review of the financial showing of Sucesion we therefore adhere to our previous determination that it has shown itself to be financially qualified to construct and operate its proposed station. The request for inclusion of an issue relative to its financial qualifications will accordingly be denied.

8. In support of the request for enlargement of issue to permit a showing of comparative coverage, petitioner sets forth that its proposed station would operate with five times the power proposed by Ponce de Leon Broadcasting Co., would have a higher antenna height and that virtually identical transmitter sites are proposed. The differences in computed Grade A and Grade B contours are also set forth. Petitioner further states that it is prepared to introduce measurements on other television stations in areas of comparable terrain which will establish that there are substantial differences in the populations which would actually receive service from the proposed stations. A number of these measurements were submitted as exhibits.

9. Ponce de Leon Broadcasting Co. and Sucesion oppose inclusion of the proposed coverage issue on the ground that petitioner has not made a preliminary showing that it will be able to offer proof of more than tenuous validity which would overcome or account for the various error factors arising as result of the rough terrain involved. Ponce requests, however, that if such issue be included, the issues be further enlarged to include an overlap issue as to the Department's proposed station and its Station WIPR (formerly WUTV) at San Juan, Puerto Rico. In support of this request an engineering showing was made demonstrating that under computed contours, there would be overlap of the Grade B contours of Station WIPR and petitioner's proposed station. There would also be a very slight area of overlap between the Grade A contour of Station WIPR and the Grade B contour of petitioner's proposal.

10. Our position with reference to comparative coverage as a decisional factor in comparative television proceedings has frequently been set forth and need not here be repeated. In Louis Wasmer, 9 RR 713; Petersburg Television Corporation, 10 RR 537; In Midwestern Broadcasting Co., 13 RR 613. We have not foreclosed consideration of coverage differences. We have however required that petitioners make a preliminary showing that they will be able to offer proof which may overcome or account for the various error factors or that they will be able, by any means, to substantiate the accuracy of the coverage data to be introduced. In Appalachian Broadcasting Corp. et al., 22 FCC Reports 43, 55, we stated that our action there in no manner indicated any change in our views expressed In re Louis Wasmer, 9 RR 713, relative to predictions as to the precise location of field intensity contours of television stations. Neither is our action here to be so construed. We do believe however that petitioner has made a preliminary showing that it will be able to offer proof which may overcome or account for the various error factors and we therefore should afford the opportunity to do so for this limited purpose. The request for enlargement of issues to permit such showing will therefore be granted. We are in no way here determining the validity of the evidence which may thus be shown as a factor for comparative consideration.

11. No useful purpose however would be served by granting the request of Ponce to include an overlap issue as to petitioner's station and Station WIPR. The Department of Education of Puerto Rico here proposes to operate a non-commercial educational television station, although the channel involved is also available for commercial use. Its Station WIPR is a non-commercial educational station. Section 3.636 of the Commission's Rules relative to multiple ownership is specifically stated not to be applicable to non-commercial educational stations. Accordingly the operation proposed herein by Department could in no manner be deemed to be in possible violation of this section of our rules. We were of the view that exemption of non-commercial educational stations from this provision of our rules was in the public interest at the time of its adoption. Nothing has here been presented which would indicate, without regard to the limited extent of such overlap, that consideration should be given it in this proceeding as a factor adverse to grant of Department's application.

Accordingly, it is ordered, That the said petition of Department of Education of Puerto Rico for enlargement of issues is granted to the extent that enlargement of issues is requested to permit a showing of comparative coverage and is denied in all other respects and that the contingent request of Ponce de Leon Broadcasting Co., Inc., for enlargement of issues as requested in its opposition to the said petition is denied.

It is further ordered, That issue 3 set forth in the Commission's order released on September 11, 1956 (adopted on September 5, 1956) designating the above-entitled applications for hearing in a comparative proceeding, is amended to include as part (d) the following: The areas and populations to be served by the stations proposed by the applicants herein.

Adopted: February 27, 1957.

Released: March 4, 1957.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

[F. R. Doc. 57-1738; Filed, Mar. 6, 1957; 8:54 a. m.]

[Docket Nos. 11621, 11892; FCC 57M-171]

LAS VEGAS BROADCASTERS, INC. (KLAS), AND PALM SPRINGS BROADCASTING CORP. (KCMJ)

ORDER CONTINUING HEARING CONFERENCE

In re applications of Las Vegas Broadcasters, Inc. (KLAS), Las Vegas, Nevada, Docket No. 11621, File No. BP-8528; Palm Springs Broadcasting Corporation (KCMJ), Palm Springs, California, Docket No. 11892, File No. BP-10359; for construction permits.

The Hearing Examiner having under consideration a joint motion, filed on behalf of Palm Springs Broadcasting Cor-

poration and Las Vegas Broadcasters, Inc., applicants in the above-entitled proceeding, requesting that the prehearing conference therein now scheduled to be held on March 1, 1957, be continued for a period of thirty days; and

It appearing that sufficient "good cause" has been set forth in the said petition to warrant a grant of the relief requested therein; and that counsel for the Chief of the Commission's Broadcast Bureau has consented to immediate favorable action thereon;

It is ordered, This 28th day of February, 1957, that the above petition be, and it is hereby, granted, and that the prehearing conference in the above-entitled proceeding is hereby continued until 10:00 o'clock a. m., on Friday, March 29, 1957, in the offices of this Commission, Washington, D. C.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

[Docket No. 11786 etc.; FCC 57M-165]

WEST SHORE BROADCASTING CO. ET AL.

ORDER CONTINUING HEARING

In re applications of Samuel Babbit, Saul Dresner, Leonard Wechsler, Alfred Dresner, Fred Schottland and Robert Gessner, d/b as West Shore Broadcasting Company, Beacon, New York, Docket No. 11786, File No. BP-9821; The Westport Broadcasting Company, Westport, Connecticut, Docket No. 11787, File No. BP-9972; James W. Miller, Milford, Connecticut, Docket No. 11788, File No. BP-10500; for construction permits.

The Hearing Examiner having under consideration a "motion for continuance" filed by counsel for The Westport Broadcasting Company today;

It appearing that counsel for the other two applicants and the Broadcast Bureau have no objection to the relief requested in the motion;

It is ordered, This 27th day of February 1957, that the motion is granted, and that:

(1) The date for the exchange of data among the engineers (Tr. 17) is extended from February 26, 1957 to March 26, 1957.

(2) The date for the informal engineering conference (Tr. 17) is continued from March 13, 1957 to April 12, 1957.

(3) The date for the exchange of affirmative written cases is extended from March 25, 1957 to April 25, 1957.

(4) The date for the further conference is continued from April 3, 1957 to May 3, 1957.

(5) The date for the beginning of the evidentiary hearing is continued from April 22, 1957 to May 22, 1957.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

[F. R. Doc. 57-1740; Filed, Mar. 6. 1957; 8:55 a. m.]

[Docket No. 11866]

ALLOCATION OF CERTAIN FREQUENCIES

NOTICE OF HEARING PROCEDURES

In the matter of allocation of frequencies in the bands above 890 Mc; Docket No. 11866.

As indicated in the Preliminary Notice of Hearing, released on November 9, 1956, the Commission intends to conduct a fact finding hearing in this proceeding concerning service allocation needs in that portion of the spectrum above 890 Mc. In response to the Commission's notice, more than 150 parties have filed notices of intention to appear and present evidence at such hearing.

The Commission is, of course, desirous of receiving in evidence all testimony which will be of assistance in resolving the various issues which have been designated. However, the Commission wishes to avoid prolonging the hearing unduly and to prevent, insofar as is possible, the introduction of evidence which will be merely repetitious or cumulative. In order to accomplish this purpose the procedure set forth below will be followed.

All persons desiring to appear and present evidence at the fact finding hearing shall submit on or before March 29, 1957, the name of each proposed witness and a detailed statement setting forth the substance of the evidence, both oral and written, that each such witness proposes to present. The Commission wishes to emphasize that witnesses will not be permitted to testify concerning matters not included in these statements unless expressly requested by the Commission to do so.

Initially these statements will be for the use of the Commission counsel only and will not be made available to other parties to the proceeding. An original and four copies of each such statement should be served on the General Counsel of the Commission, and each should be plainly entitled "Statement of Proposed Evidence for Docket No. 11866."

Based upon these statements it will be determined which witnesses will be invited to testify and what testimony and exhibits they will be asked to present. The Commission wishes to urge that, wherever possible, all members of an industry group or association be represented by an industry spokesman or spokesmen. When an industry is to be represented by an industry spokesman, any member of that industry group who desires to present his own witnesses will be required to show in detail the reasons why such additional representation is necessary, and what the additional evidence will be.

As soon as practicable after March 29, 1957, the Commission will issue a notice designating a firm hearing date. A list of the witnesses selected to testify setting forth the approximate date on which they may expect to appear will also be issued. All such witnesses will be required to submit copies of the actual testimony and exhibits they will present at the hearing prior to the date on which they are scheduled to appear. Details concerning such submissions will be specified in a subsequent notice.

All parties participating in the hearing will be given an opportunity to submit to Commission counsel suggested questions which they desire to be asked of any of the witnesses at the hearing. However, the selection of questions and all of the questioning, will be by the Commission and Commission counsel. After all the evidence has been presented the Commission will determine what further proceedings, if any, will be held in this docket.

Dated: February 28, 1957.

Released: March 1, 1957.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

[F. R. Doc. 57-1741; Filed, Mar. 6, 1957; 8:55 a. m.]

[Docket Nos. 11915, 11916; FCC 57M-167]

JOHN S. CHAVEZ ET AL.

ORDER SCHEDULING PREHEARING CONFERENCE

In re applications of John S. Chavez, Raul G. Amaya, Guadalupe Caballero, Salvador Villareal and Gabriel S. Chavez, Ysleta, Texas, Docket No. 11915, File No. BP-10639; Robert L. Howsam, El Paso, Texas, Docket No. 11916, File No. BP-10681; for construction permits.

It is ordered, This 28th day of February 1957, that a prehearing conference in the above-entitled proceeding will be held in the Offices of the Commission, Washington, D. C., on Monday, March 11, 1957, commencing at 10:00 a. m.

Released: March 1, 1957.

[Docket No. 11927; FCC 57M-170]

Q BROADCASTING CO.

ORDER CONTINUING HEARING

In re application of Q Broadcasting Company, Phoenix, Arizona, docket No. 11927, file No. BP-10178; for construction permit.

The Hearing Examiner having under consideration a motion filed on February 28, 1957 by counsel for John Poole Broadcasting Company, Inc., requesting a continuance of the date on which the hearing in the above-entitled matter is to be held, from March 4, 1957 to March 15, 1957; and

It appearing that negotiations are being held among the principals and their attorneys which, if consummated, will result in the disposition of these proceedings without the necessity of a formal hearing; and

It further appearing that all parties have agreed to the above-requested continuance and have waived the requirements of § 1.745 of the Commission's rules:

It is ordered, This 28th day of February 1957, that the hearing in the above-entitled matter now scheduled for March 4, 1957, is continued to March 15, 1957.

FEDERAL POWER COMMISSION

[Docket No. G-12118]

ARKANSAS LOUISIANA GAS CO.

ORDER SUSPENDING PROPOSED REVISED TARIFF SHEETS AND PROVIDING FOR HEARING

MARCH 1, 1957.

Arkansas Louisiana Gas Company (Arkansas Louisiana) on February 1, 1957, tendered for filing Third Revised Sheet No. 60 to its FPC Gas Tariff, Original Volume No. 2, proposing an increase in rates of $8,300 annually for sales of residue gas in Ruston Field, Louisiana, to Southwest Gas Producing Company, Inc., (Southwest) under Rate Schedule XFS-3. The proposed increase is in addition to the increased rates of $8,300 in effect under the same rate schedule, subject to refund in Docket No. G-11431.

The proposed increase is based on a contract escalation provision providing that Arkansas Louisiana may apply for future increases if, as and when the prices at which Southwest resells the gas are increased and is related to Southwest's proposed increases to Texas Eastern Transmission Corporation (Texas Eastern) and others which were suspended in Docket Nos. G-11355 and G-11356 until April 1, 1957. Arkansas Louisiana also states that the increase sought is fair and reasonable because the purchaser who will be called on to pay it will have received the same amount of increase from the pipe line to which it resells the gas, and would thereby operate to keep Southwest's margin constant. The proposed increase is from 11.7369 cents per Mcf (which is the increased rate in effect subject to possible refund in Docket No. G-11431) to 11.9420 cents per Mcf, or .2051 cents per Mcf.

Arkansas Louisiana's proposed increases are entirely dependent upon and can be supported only by relying upon the effectiveness of the rate increases of its buyer, Southwest, and should therefore be suspended pending determination of said effectiveness. Upon consideration of the foregoing, and the data and statements submitted in support of the proposed tariff change, it appears that the increased rates proposed by Arkansas Louisiana in its tendered filing have not been shown to be justified and may be unjust, unreasonable, or otherwise unlawful.

The Commission finds: It is necessary and proper in the public interest, and to aid in the enforcement of the provisions of the Natural Gas Act, that the Commission enter upon a hearing concerning the lawfulness of the rates, charges, classifications, and services contained in Arkansas Louisiana's FPC Gas Tariff, Original Volume No. 2, as proposed to be amended by Third Revised Sheet No. 60, and that said proposed revised tariff sheet and the rates contained therein be suspended and the use thereof deferred as hereinafter provided.

The Commission orders:

(A) Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Commission by sections 4 and 15 of the Natural Gas Act, and the Commission's regulations under the Natural Gas Act, including rules of practice and procedure (18 CFR, Chapter I), a public hearing be held, at a time and date to be fixed by notice from the Secretary of this Commission, concerning the lawfulness of the rates, charges, classifications, and services, contained in Arkansas Louisiana's FPC Gas Tariff, Original Volume No. 2, as proposed to be amended by Third Revised Sheet No. 60.

(B) Pending such hearing and decision thereon, Arkansas Louisiana's proposed Third Revised Sheet No. 60 to its FPC Gas Tariff, Original Volume No. 2, hereby is suspended, and its use deferred until August 4, 1957, unless otherwise ordered by the Commission, and until such further time thereafter as it may be made effective in the manner prescribed by the Natural Gas Act.

(C) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.37 (f)).

By the Commission.

[SEAL] JOSEPH H. GUTRIDE,
Secretary.

[F. R. Doc. 57-1705; Filed, Mar. 6, 1957; 8:48 a. m.]

[Docket No. G-10200]

NORTHERN NATURAL GAS CO.

NOTICE OF APPLICATION AND DATE OF HEARING

MARCH 1, 1957.

Take notice that Northern Natural Gas Company (Applicant), a Delaware corporation with principal office at 2223 Dodge Street, Omaha, Nebraska, filed an application on April 4, 1956, pursuant to section 7 (b) of the Natural Gas Act, for permission and approval to abandon certain natural gas facilities as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in the application which is on file with the Commission and open for public inspection.

The facilities proposed to be abandoned by Applicant consist of approximately 16.03 miles of 6⅝ inch O. D. pipe line and appurtenances extending in a westerly direction from a point of connection with Applicant's existing 18 inch transmission line in Rice County, Minnesota, to a point of connection with Applicant's existing main 16 inch transmission line in Le Sueur County, Minnesota.

Applicant states that these facilities were constructed in 1934 as a part of Applicant's 6 inch St. Peter branch line system at an original cost of $74,070.33 for the purpose of providing service to the communities on this system; that the facilities sought to be abandoned are no longer required to render service to these or any other communities because of the construction of other facilities in the area by Applicant in 1939 which are now used to serve such communities and therefore, no abandonment of service will result from the abandonment of the facilities; that the estimated cost of removing and re-conditioning these facilities exceed their re-conditioned value and therefore, Applicant proposes to abandon these facilities in place; that Applicant will incur no removal costs nor realize any salvage value from such abandonment; and that such abandonment will result in savings in operating, maintenance costs and taxes.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on Monday, March 25, 1957, at 9:30 a. m., e. s. t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such application: *Provided, however*, That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of § 1.30 (c) (1) or (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before March 15, 1957. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

[SEAL] JOSEPH H. GUTRIDE,
Secretary.

[F. R. Doc. 57-1706; Filed, Mar. 6, 1957; 8:48 a. m.]

[Docket No. G-10975]

CITIES SERVICE GAS CO.

NOTICE OF APPLICATION AND DATE OF HEARING

MARCH 1, 1957.

Take notice that Cities Service Gas Company (Applicant) a Delaware cor-

poration with its principal place of business located in Oklahoma City, Oklahoma, filed on August 27, 1956, an application, as supplemented on September 4 and 17, 1956, for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing the construction and operation of facilities subject to the jurisdiction of the Commission, all as more fully represented in the application on file with the Commission and open for public inspection. The facilities are described as follows:

Approximately 1537 feet of 3" welded gas pipe line, meter setting and appurtenances in the SW¼ of Section 7-T.6S-R.21E, Atchison County, Kansas.

The application recites that the purchaser proposes to utilize the natural gas, to be delivered through the facilities proposed, in dehumidifier units necessary to certain operations of the Department of the Army in Atchison County, Kansas. The estimated peak day demands and annual requirements for the first three years are: peak day, summer 149.2 Mcf—winter 89.5 Mcf; annual 36,479 Mcf. The estimated cost of the proposed facilities is $4,377.00.

Temporary authorization for the construction and operation of the proposed facilities was granted by the Commission on December 14, 1956, without prejudice to final determination.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on April 16, 1957 at 9:30 a. m., e. s. t., in a Hearing Room of the Federal Power Commission, 441 G Street, NW., Washington, D. C., concerning the matters involved in and the issues presented by such application: *Provided, however*, That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of § 1.30 (c) (1) or (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before March 25, 1957. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request herefor is made.

[SEAL] JOSEPH H. GUTRIDE,
Secretary.

[F. R. Doc. 57-1707; Filed, Mar. 6, 1957; 8:48 a. m.]

[Docket No. G-10761]

TENNESSEE GAS TRANSMISSION CO.[1]

NOTICE OF APPLICATION AND DATE OF HEARING

MARCH 1, 1957.

Take notice that Tennessee Gas Transmission Company, Applicant, a Delaware corporation whose address is Commerce Building, Houston, Texas, as operator, filed on July 16, 1956, an application for certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing Applicant to render service as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in the application which is on file with the Commission and open for public inspection.

Applicant proposes to sell natural gas in interstate commerce for resale as indicated below:

(a) To Permian Basin Pipe Line Company (Permian) from the Ellen Weir Lease, Eumont Field, Lea County, New Mexico, pursuant to a 20-year gas sales contract dated January 3, 1955, between Permian and Tennessee Production Company (predecessor in interest to Applicant), et al.

(b) To Phillips Petroleum Company (Phillips) from the W. T. Ford Lease, Fuhrman Mascho Field, Andrews County, Texas pursuant to a 20-year gas sales contract dated February 17, 1956, between Phillips and Applicant.

(c) To Llano Grande Corporation (Llano) from the Gardner Lease, Levelland Field, Cochran County, Texas, pursuant to a contract dated August 1, 1955, between Llano and Applicant.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on April 9, 1957, at 9:30 a. m., e. s. t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such application: *Provided, however*, That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of § 1.30 (c) (1) or (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before March 21, 1957. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

[F. R. Doc. 57-1711; Filed, Mar. 6, 1957; 8:49 a. m.]

[Docket Nos. G-9073, G-9087]

NEW YORK STATE NATURAL GAS CORP. AND TENNESSEE GAS TRANSMISSION CO.

NOTICE OF APPLICATIONS AND DATE OF HEARING

FEBRUARY 28, 1957.

In the matters of New York State Natural Gas Corporation, Docket No. G-9073; Tennessee Gas Transmission Company, Docket No. G-9087.

Take notice that New York State Natural Gas Corporation (New York Natural), a New York corporation with principal place of business at 2 Gateway Center, Pittsburgh, Pennsylvania, and Tennessee Gas Transmission Company (Tennessee), a Delaware corporation with principal place of business at the Commerce Building, Houston, Texas, filed in Docket No. G-9073 on June 27, 1955 as amended July 11, 1955 and August 15, 1955 and in Docket No. G-9087 on June 29, 1955, respectively, separate applications for certificates of public convenience and necessity, pursuant to section 7 (c) of the Natural Gas Act, authorizing New York Natural and Tennessee (Applicants) to render service as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in the applications which are on file with the Commission and open for public inspection.

Tennessee proposes in Docket No. G-9087 to construct and operate a line tap together with a meter and regulator station on its main 24 inch Buffalo-Pittsfield (Mass.) pipe line near the Village of Brookview, New York (east of the Hudson River in the vicinity of Albany), for the purpose of providing a new and additional delivery point for presently authorized volumes of natural gas which are sold by Tennessee to New York Natural for resale. The estimated cost of these facilities is $20,000 which will be financed by Tennessee from cash on hand.

New York Natural proposes in Docket No. G-9073 to construct and operate approximately 8.8 miles of 12-inch transmission pipeline extending in a northerly direction from the above-described tap on Tennessee's line to a point of interconnection with the Albany-Troy distribution system of the Niagara Mohawk Power Corporation (Niagara Mohawk) near the Village of North Greenbush, New York, together with measuring stations at the northern and southern termini of said line.

These facilities will be used for the dual purpose of enabling Niagara Mohawk to receive gas on the east side of the Hudson River (1) for resale in Niagara Mohawk's Albany-Troy distribution area and (2) for distribution in Niagara Mohawk's plant in the City of Hudson, Columbia County, New York, via approximately 22 miles of new 10-inch line proposed to be constructed and operated by Niagara Mohawk at an estimated cost of $830,000 which will extend in a southerly direction from the aforesaid southernmost proposed measuring station of New York Natural to the City of Hudson for the purpose of enabling Niagara Mohawk to convert from the operations of distributing propane air gas to some 3,150 customers in Hudson to the distribution of straight natural gas and to serve an estimated 200 new customers located along its 10-inch line.

The estimated additional natural gas requirements of Niagara Mohawk, i. e., the annual and maximum day gas requirements of Hudson, New York in M. c. f. for the first 5 years of operation after conversion from propane air gas are as follows:

Year	Annual	Maximum day
1956	210,000	1,700
1957	260,000	2,200
1958	300,000	2,600
1959	350,000	3,100
1960	380,000	3,300

The estimated cost of New York Natural's proposed facilities is $414,000 which it proposes to finance out of available company funds and from funds obtained through the issuance of securities to its parent Consolidated Natural Gas Company.

These related matters should be heard on a consolidated record and disposed of as promptly as possible under the applicable rules and regulations and to that end.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on Monday, April 1, 1957, at 9:30 a. m., e. s. t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such applications: *Provided, however*, That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of § 1.30 (c) (1) or (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before March 20, 1957. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

[SEAL] JOSEPH H. GUTRIDE,
Secretary.

[F. R. Doc. 57-1712; Filed, Mar. 6, 1957; 8:49 a. m.]

[Docket No. G-12117]

SINCLAIR OIL & GAS CO.

ORDER SUSPENDING PROPOSED CHANGE IN RATES

FEBRUARY 28, 1957.

Sinclair Oil & Gas Company (Sinclair), on January 31, 1957, tendered for filing a proposed change in its presently effective rate schedule for a sale of natural gas subject to the jurisdiction of the Commission. The proposed change, which constitutes an increased rate and charge, is contained in the following designated filing:

Description: Notice of Change dated February 1, 1957.
Purchaser: Phillips Petroleum Company.
Rate schedule designation: Supplement No. 1 to Sinclair's FPC Gas Rate Schedule No. 109.
Effective date: [1] March 3, 1957.

In support of the increase, Sinclair cites the contract purportedly negotiated at arm's length bargaining and also states that, in its opinion, the proposed rate is below the minimum that may be determined as a just and reasonable rate and should be allowed to obtain a return commensurate with risks inherent in the production and gathering of natural gas.

The increased rate and charge so proposed has not been shown to be justified, and may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds: It is necessary and proper in the public interest, and to aid in the enforcement of the provisions of the Natural Gas Act, that the Commission enter upon a hearing concerning the lawfulness of the said proposed increased rate and charge, and that the above-designated supplement be suspended and the use thereof deferred as hereinafter ordered.

The Commission orders:

(A) Pursuant to the authority contained in sections 4 and 15 of the Natural Gas Act and the Commission's general rules and regulations thereunder (18 CFR, Chapter I), a public hearing be held upon a date to be fixed by notice from the Secretary concerning the lawfulness of said proposed increased rate and charge; and, pending such hearing and decision thereon, the above-designated supplement be, and it is hereby suspended and the use thereof deferred until August 3, 1957, and until such further time as it is made effective in the manner prescribed by the Natural Gas Act.

(B) Neither the supplement hereby suspended, nor the rate schedule sought to be altered thereby shall be changed until this proceeding has been disposed of or until the period of suspension has expired, unless otherwise ordered by the Commission.

(C) Interested state commissions may participate as provided by §§ 1.8 and 1.37 (f) of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.37 (f)).

By the Commission.[2]

[SEAL] JOSEPH H. GUTRIDE, *Secretary.*

[F. R. Doc. 57-1713; Filed, Mar. 6, 1957; 8:49 a. m.]

[1] The stated effective date is the first day after expiration of the required thirty days' notice, or the effective date proposed by Sinclair, if later.

[2] Commissioner Digby dissenting.

SECURITIES AND EXCHANGE COMMISSION

[File No. 1-2108]

CONSOLIDATED VIRGINIA MINING CO.

ORDER AND NOTICE OF HEARING

FEBRUARY 28, 1957.

I. Consolidated Virginia Mining Company (hereinafter called "registrant"), a corporation organized and incorporated under the laws of the State of Nevada, filed an application for registration of its common stock, $1 par value, with the San Francisco Mining Exchange ("the Exchange") on August 30, 1935, on Form 10, pursuant to section 12 of the Securities Exchange Act of 1934 ("the 1934 act") and the rules and regulations adopted by the Commission thereunder, and filed a duplicate original Form 10 with the Commission on that date. The registration of such securities on the Exchange became effective on June 1, 1936. On January 7, 1955 registrant reduced the par value of its common stock from $1 par value to ten cents ($.10) par value.

II. The Commission has reason to believe that the registrant has failed to comply with the provisions of section 13 of the 1934 act in the following regard:

The registrant has failed to file a current report on Form 8-K furnishing information with respect to the issuance of 12,474,375 shares of its common stock in exchange for substantially all of the 10,000,000 shares of outstanding stock of Hampton Mining Co., a corporation organized and incorporated under the laws of the State of Utah.

III. On June 18, 1956 the registrant filed with the Commission a proxy statement pursuant to Section 14 of the Act and Regulation X-14 adopted thereunder with respect to a special meeting of stockholders to be held July 9, 1956. The Commission has reason to believe that the said proxy statement was false and misleading in the following particulars:

1. In representing to stockholders in connection with soliciting authorization to increase the number of authorized shares from 7,500,000 to 30,000,000 that no particular transaction was pending for the issuance of any such additional authorized shares.

2. In omitting to state that negotiations were pending for the acquisition of Hampton Mining Co. in exchange for a large block of the to-be-authorized shares of registrant and omitting to state the nature and approximate amount of the assets of Hampton Mining Co.

IV. *It is ordered*, That a public hearing, pursuant to section 19 (a) (2) of the 1934 act, be held at 10:00 a. m., P. s. t., on Monday, March 18, 1957, at the offices of the Los Angeles Branch office of the Commission, Room 1737, U. S. Post Office and Court House, Los Angeles, California, to determine whether it is necessary or appropriate for the protection of investors to suspend for a period not exceeding twelve months, or to withdraw, the registration of the common stock of registrant on the San Francisco Mining Exchange for failure to comply with section 13 of the act and the rules and regulations adopted thereunder, as set forth in paragraph II above and for making false and misleading statements in a proxy statement filed with the Commission under section 14 of the act and the rules and regulations adopted thereunder, as set forth in paragraph III above.

It is further ordered, That Mr. William W. Swift is hereby designated and assigned as Hearing Officer in this proceeding and is authorized to exercise the powers and perform the duties specified in the rules of practice of the Commission and any other duties which he may be authorized to perform in accordance with law.

Notice of such hearing is hereby given to registrant, the San Francisco Mining Exchange and to any other person or persons whose participation in such proceeding may be necessary or appropriate in the public interest or for the protection of investors. Any such further persons desiring to be heard in such proceeding should file with the Hearing Officer or the Secretary of the Commission on or before March 11, 1957, his application therefore as provided by the rules of practice of the Commission, setting forth therein any of the above matters or issues of fact or law upon which he desires to be heard and any additional issues he deems raised by the aforesaid order.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[File No. 70-3501]

PUBLIC SERVICE COMPANY OF OKLAHOMA

ORDER PERMITTING SUPPLEMENTAL DECLARATION TO BECOME EFFECTIVE REGARDING PROPOSAL TO ENTER INTO GAS PURCHASE CONTRACT WITH A NONAFFILIATE

MARCH 1, 1957.

Public Service Company of Oklahoma ("Public Service"), a public utility subsidiary of Central and South West Corporation, a registered holding company, having filed, pursuant to section 7 of the Public Utility Holding Company Act of 1935 ("act"), a supplemental declaration and amendments thereto regarding the following transactions:

By order issued December 5, 1956 (Holding Company Act Release No. 13328), the Commission permitted a declaration, as amended, filed by Public Service, to become effective pursuant to section 7 of the act. The declaration, as amended, related to a proposal by Public Service to enter into a gas fuel purchase contract with Transok Pipe Line Company ("Transok"), a nonaffiliated intra-state natural gas pipe line company, which gas purchase contract was determined by the Commission to constitute a guaranty by Public Service of certain bonds of Transok.

The gas fuel purchase contract provided, among other things, (a) that upon the breach of any of the terms thereof, Public Service, at the election of, and upon the demand of, the trustee under Transok's bond indenture, was obligated to lease or purchase Transok's pipe line system (as defined in the contract), and, as full payment therefor, to pay, as rental or purchase price, an amount equal to all amounts then or thereafter payable for principal, interest, and otherwise, upon the then outstanding bonds of Transok, such payments to be made to the trustee when and as payable by the terms of the bonds; and (b) that, subject to its ability to make satisfactory financial arrangements, Transok was obligated, upon the request and approval of Public Service, to construct such additional pipe lines and related facilities connecting the pipe line system with Public Service's electric generating stations, or with additional sources of gas supply, as might be necessary to enable Transok to supply the requirements of Public Service's electric generating stations.

At the time of the issuance of the December 5, 1956 order, Transok had constructed its main pipe line system in connection with which it had issued $13,500,000 principal amount of bonds, and it then contemplated the immediate issuance of $1,550,000 principal amount of additional bonds to procure funds for the construction of a pipe line to connect its system with an additional gas supply in Hughes County, Oklahoma.

Subsequently, Public Service filed a supplemental declaration stating that (a) it is proposed to modify the gas fuel purchase contract to provide that, in the event it is required, because of a breach of contract, to purchase the Transok pipe line system, it shall pay the trustee under Transok's bond indenture, 90 days after demand by the trustee (or such earlier date as Public Service designates by a 35-day notice) an amount equal to the sum of the unpaid principal of the bonds (as defined in the contract) of Transok then outstanding, plus all premiums and all sums due as accrued interest to the date of payment; and (b) Transok presently contemplates the issuance and sale of $4,000,000 principal amount of additional bonds (including the $1,550,000 of bonds above mentioned) to provide funds for the construction of additional pipe lines and related facilities.

The declaration as supplemented further states that no State or Federal commission, other than this Commission, has jurisdiction over the proposed transactions.

Due notice of the filing of the supplemental declaration having been given

(Holding Company Act Release No. 13384, February 15, 1957) in the manner prescribed by Rule U-23 of the rules and regulations promulgated under the act, and no hearing in respect of the supplemental declaration having been requested of or ordered by the Commission; and

The Commission finding that the applicable provisions of the act and the rules promulgated thereunder are satisfied, observing no basis for adverse findings or the imposition of terms and conditions, and deeming it appropriate in the public interest and in the interest of investors and consumers that the supplemental declaration be permitted to become effective, forthwith:

It is ordered, Pursuant to Rule U-23 and the applicable provisions of the act, that the supplemental declaration be, and it hereby is, permitted to become effective forthwith, subject to the terms and conditions prescribed in Rule U-24.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

SMALL BUSINESS ADMINISTRATION

Office of the Administrator

[Delegation of Authority 30 (Rev. 3), Amdt. 1]

REGIONAL DIRECTORS

DELEGATION RELATING TO FINANCIAL ASSISTANCE INCLUDING DISASTER LOANS, PROCUREMENT AND TECHNICAL ASSISTANCE, AND ADMINISTRATION

Delegation of Authority No. 30 (Revision 3) is hereby amended by:

A. Deleting subsections 1, 2 and 3 of section IB in their entirety and substituting in lieu thereof:

1. To approve the following types of loans:

(a) Direct business loans in an amount not exceeding $20,000;

(b) Participation business loans in an amount not exceeding $100,000; and

(c) Disaster loans in an amount not exceeding $50,000.

2. To decline the following types of loans:

(a) Direct business loans;

(b) Participation business loans; and

(c) Disaster loans.

3. To approve or decline Limited Loan Participation loans.

B. Deleting the first and second sentences of Part II in their entirety and substituting in lieu thereof: "The specific authority delegated in subsections I B 1 (c) and 2 (c) (each limited to the approval or declination of disaster loans not in excess of $20,000), 3, 10, 27, 28, 29, 30, 32 (a) and 35 may be redelegated. The specific authority delegated in subsections I B 1 (a) and (b), 2 (a) and (b), 4 through 9, 11 through 26, 31, 32 (b), 33, 34, 36, 37, 38 and 39 may not be redelegated except that authority delegated in subsection I B 38 may be delegated to the Branch Offices located in Honolulu, Puerto Rico, and Alaska.

Dated: February 28, 1957.

WENDELL B. BARNES, *Administrator.*

INTERSTATE COMMERCE COMMISSION

[Notice 154]

MOTOR CARRIER APPLICATIONS

MARCH 1, 1957.

The following applications are governed by the Interstate Commerce Commission's special rules governing notice of filing of applications by motor carriers of property or passengers and by brokers under sections 206, 209, and 211 of the Interstate Commerce Act and certain other procedural matters with respect thereto. (FEDERAL REGISTER Volume 21, pages 7339, 7340, § 1.241, September 26, 1956.)

All hearings will be called at 9:30 o'clock a. m., United States standard time (or 9:30 o'clock a. m., local daylight saving time, if that time is observed), unless otherwise specified.

APPLICATIONS ASSIGNED FOR ORAL HEARING OR PRE-HEARING CONFERENCE

MOTOR CARRIERS OF PROPERTY

No. MC 1103 (Sub No. 11), filed January 21, 1957, EDWARD KOFMAN, MAX H. KOFMAN, FREDA KOFMAN GAINES, BENJAMIN KOFMAN, AND JOSEPH KOFMAN, doing business as KOFMAN'S, 130 Dumlap St., Bellefonte, Pa. For authority to operate as a common carrier, over irregular routes, transporting: (1) Brass bars and rods, and brass unfinished shapes, and aluminum bars, blanks, stampings, unfinished shapes, extensions, castings, forgings, moldings, rods, scrap, twinings and borings, from Bellefonte, Pa., and points within one mile thereof, to Reedsville, Preston County, and Morgantown, Monongalia County, W. Va. (2) *Brass scrap, copper scrap, rejected and refused brass products, aluminum billets, blooms, ingots, pigs, slabs, borings, scrap and twinings*, from Reedsville, Preston County, and Morgantown, Monongalia County, W. Va., to Bellefonte, Pa., and points within one mile thereof. (3) *Zinc slabs and scraps*, from Spelter, Harrison County, W. Va., to Bellefonte, Pa., and points within one mile thereof. (4) *Empty containers or other such incidental facilities* (not specified) used in transporting the commodities specified in this application from the above-specified destination points to the above-described origin points. Applicant is authorized to conduct similar operations in Connecticut, Delaware, Maryland, Massachusetts, Michigan, New Jersey, New York, Ohio, Pennsylvania, Rhode Island, and the District of Columbia.

HEARING: April 5, 1957, at the Offices of the Interstate Commerce Commission, Washington, D. C., before Examiner Bertram E. Stillwell.

No. MC 2754 (Sub No. 8), filed February 14, 1957, NEUENDORF TRANSPORTATION CO., a Corporation, 3244 Atwood Avenue, Madison, Wis. Applicant's representative: Adolph E. Solie, 715 First National Bank Bldg., Madison 3, Wis. For authority to operate as a *common carrier*, over irregular routes, transporting: *General commodities*, except those of unusual value, Class A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment, between Wausau, Wis., and Chicago, Ill. Applicant is authorized to conduct operations in Illinois, Indiana and Wisconsin.

NOTE: Applicant states: In response to the applicant's petition the Commission has opened its "grandfather" application in Docket No. MC-2754, to permit applicant an opportunity of presenting additional proof solely with respect to the operations between Wausau, Wis., and Chicago, Ill. This application is being filed out of an excess of caution, for the purpose of establishing public convenience and necessity with respect to said operation, in case the Commission should hold that applicant has not established its right to the Certificate claimed under the "grandfather" clause of the act.

HEARING: April 23, 1957, at the Wisconsin Public Service Commission, Madison, Wis., before Joint Board No. 17.

No. MC 3009 (Sub No. 21), filed February 20, 1957, WEST BROTHERS, INC., 706 East Pine St., Hattiesburg, Miss. Applicant's attorney: Dudley W. Conner, Conner Building, Hattiesburg, Miss. For authority to operate as a *common carrier*, over a regular route, transporting: *General commodities*, except those of unusual value, Class A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment, between Waynesboro, Miss., and Meridian, Miss., from Waynesboro over U. S. Highway 45 to Meridian, and return over the same route, serving no intermediate points, as an alternate route for operating convenience only, in connection with applicant's authorized regular route operations. Applicant is authorized to transport similar commodities in Mississippi, Louisiana and Alabama.

HEARING: April 17, 1957, at the Robert E. Lee Hotel, Jackson, Miss., before Joint Board No. 97, or, if the Joint Board waives its right to participate, before Examiner William J. Cave.

No. MC 4405 (Sub No. 286), filed February 15, 1957, DEALERS TRANSIT, INC., 12601 South Torrence Ave., Chicago 33, Ill. Applicant's attorney: James W. Wrape, Sterick Bldg., Memphis 3, Tenn. For authority to operate as a *common carrier*, over irregular routes, transporting: *Trailers* and *semi-trailers*, other than those designed to be drawn by passenger automobiles, and *trailer chassis*, in initial movements in truckaway and driveaway service, from Cambridge City, Ind. and points within 5 miles of Cambridge City, to points in the United States; *Tractors*, other than farm tractors, in secondary movements in driveaway service, but only when drawing trailers moving in initial movements in driveaway service, from Cambridge City, Ind., and points within 5 miles of Cambridge City, to points in Arizona, Nevada, Oregon and Vermont; and *Truck bodies* and *trailer bodies*, assembled or unassembled, from Cambridge City, Ind. and points within 5 miles of Cambridge City, to points in Alabama, Arkansas, Connecticut, Delaware, Florida, Georgia, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Michigan, Minnesota, Mississippi, Missouri, Nebraska, New Hampshire, New Jersey, New York, North Carolina, North Dakota, Ohio, Oklahoma, Pennsylvania, Rhode Island, South Carolina, South Dakota, Tennessee, Texas, Vermont, Virginia, West Virginia, Wisconsin, and the District of Columbia. Applicant is authorized to transport similar commodities throughout the United States.

HEARING: April 19, 1957, at the U. S. Court Rooms, Indianapolis, Ind., before Examiner Reece Harrison.

No. MC 19227 (Sub No. 61), filed January 17, 1957, LEONARD BROS. TRANSFER & STORAGE CO., INC., 2595 Northwest 20th St., Miami 42, Fla. Applicant's attorney: John W. Carlisle, 422 Perry Brooks Bldg., Austin 1, Tex. For authority to operate as a *common carrier*, over irregular routes, transporting: *Commodities which because of size or weight require the use of special equipment* between points in Utah, on the one hand, and, on the other, points in Texas, Alabama and Florida. Applicant is authorized to conduct operations in Florida, Alabama, Georgia, South Carolina, Connecticut, Delaware, Illinois, Indiana, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Michigan, Mississippi, Missouri, New Hampshire, New Jersey, New York, North Carolina, Ohio, Pennsylvania, Rhode Island, Tennessee, Texas, Vermont, Virginia, West Virginia, Wisconsin, and the District of Columbia.

HEARING: May 21, 1957, at the Baker Hotel, Dallas, Tex., before Examiner Walter R. Lee.

No. MC 35628 (Sub No. 204), filed January 22, 1957, INTERSTATE MOTOR FREIGHT SYSTEM, a Corporation 134 Grandville, S. W., Grand Rapids, Mich. Applicant's representative: Leonard D. Verdier, Jr., Michigan Trust Bldg., Grand Rapids 2, Mich. For authority to operate as a *common carrier*, transporting: *General commodities*, except those of unusual value, livestock, Class A and B explosives, household goods as defined by the Commission, commodities in bulk (except scrap metal in bulk), and those requiring special equipment, serving Owego, N. Y., as an off-route point in connection with applicant's authorized regular route operations between Westfield, N. Y., and New York, N. Y. over New York Highway 17, and between Syracuse, N. Y., and Binghamton, N. Y., over U. S. Highway 11.

HEARING: April 10, 1957, at the Sheraton-Cadillac Hotel, Detroit, Mich., before Examiner Reece Harrison.

No. MC 37716 (Sub No. 16), THE C & D MOTOR DELIVERY COMPANY, 1035 Flint Street, Cincinnati 14, Ohio. Applicant's attorney: Herbert Baker, 50 West Broad Street, Columbus 15, Ohio. (SUPPLEMENT)—By letter dated February 15, 1957, applicant's attorney requests that the application of the above-named carrier, filed December 11, 1956 and republished on Page 910 of the FEDERAL REGISTER, issue of February 13, 1957, be clarified to reflect the proposed routes as alternate routes for operating convenience only.

No. MC 39966 (Sub No. 5), filed January 14, 1957, WILLIAM EDWARD LEARY, doing business as LEARY TRANSPORT, Amston, Conn. Applicant's attorney: Hugh M. Joseloff, 410 Asylum Street, Hartford 3, Conn. For authority to operate as a *contract carrier*, over irregular routes, transporting: *Iron and steel articles*, as defined by the Commission, from Willimantic, Conn., to points in Connecticut, Massachusetts, New Hampshire, New York, Maine, Vermont and Rhode Island, and *empty containers or other such incidental facilities* (not specified) used in transporting the above commodities on return.

HEARING: April 8, 1957, at the Fulton Bldg., 101-115 Sixth Street, Pittsburgh, Pa., before Examiner Reece Harrison.

No. MC 44947 (Sub No. 13), filed February 20, 1957, DEIOMA TRUCKING CO., P. O. Box 11, East Sparta, Ohio. Applicant's attorney: Noel F. George, 44 East Broad St., Columbus 15, Ohio. For authority to operate as a *contract carrier*, over irregular routes, transporting: *Brick and clay products*, (1) from East Chicago, Hammond, Crawfordsville and Brazil, Ind., to points in Ohio; (2) from Hillsboro Township (Royce Station), N. J. to points in Ohio; (3) from Columbiana and Tuscarawas Counties, Ohio, to points in New Hampshire, Vermont, Maine, Massachusetts, Connecticut and Rhode Island, and *pallets, skids* and *empty containers* used in transporting the above commodities on return. Applicant is authorized to transport similar commodities in Ohio, New York, Michigan, Maryland, Pennsylvania, West Virginia, New Jersey, Delaware, Virginia, Indiana, and the District of Columbia.

HEARING: April 22, 1957, in Room 255, New Post Office Bldg., Columbus, Ohio, before Examiner Reece Harrison.

No. MC 46737 (Sub 31), filed February 14, 1957, GEO F. ALGER COMPANY, 3050 Lonyo Road, Detroit 9, Mich. Applicant's attorney: Walter N. Bieneman, Guardian Bldg., Detroit 26, Mich. For authority to operate as a *common carrier*, transporting: *General commodities*, except those of unusual value, Class A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment, serving the plant of General Motors Corporation, Euclid Division, on Ohio Highway 91 near Hudson, Ohio as an off-route point in connection with applicant's regular route operations between Cleveland, Ohio and Akron, Ohio. Applicant is authorized to transport similar commodities in Michigan, Illinois, Indiana, and Ohio.

HEARING: April 24, 1957, in Room 255, New Post Office Bldg., Columbus, Ohio, before Joint Board No. 117, or, if the Joint Board waives its right to participate, before Examiner Reece Harrison.

No. MC 49567 (Sub No. 5), filed February 15, 1957, ROY R. GOLDEN AND LEONARD E. GOLDEN, doing business as GOLDEN BROS., 224 E. McClure Street, Kewanee, Ill. Applicant's representative: George S. Mullins, 4704 W. Irving Park Road, Chicago 41, Ill. For authority to operate as a *contract carrier*, over irregular routes, transporting: *Coolers, heat exchangers* or *equalizers*, for air, gas or liquids, *feed water heaters*, or *feed water heaters and purifiers combined*, with or without metering attachments or installation accessories, between Kewanee, Ill., and points in Indiana, Iowa, Michigan, Minnesota, Missouri, Nebraska, New York, Ohio, Pennsylvania, and Wisconsin. Applicant is authorized to conduct operations in Illinois, Indiana, Iowa, Michigan, Minnesota, Missouri, Nebraska, Ohio, Pennsylvania, and Wisconsin.

HEARING: April 15, 1957, in Room 852, U. S. Custom House, 610 South Canal St., Chicago, Ill., before Examiner Richard H. Roberts.

No. MC 50069 (Sub No. 179), filed November 30, 1956, REFINERS TRANSPORT & TERMINAL CORPORATION, 2111 Woodward Ave., Detroit 1, Mich. For authority to operate as a *common carrier*, over irregular routes, transporting: *Vehicle body sealer or sound deadener compound*, (as more fully described in the application), in bulk, in tank vehicles, (1) from Wayne, Mich., to points in Georgia, Illionis, Indiana, Iowa, Kentucky, Maryland, Michigan, Minnesota, Missouri, Nebraska, New York, North Carolina, North Dakota, Ohio, Pennsylvania, South Carolina, South Dakota, Tennessee, Virginia, West Virginia and Wisconsin; (2) from points in Bristol Township, Bucks County, Pa., to points in Connecticut, Delaware, Florida, Georgia, Kentucky, Maryland, Maine, Massachusetts, New Hampshire, New Jersey, New York, North Carolina, Ohio, Rhode Island, South Carolina, Tennessee, Vermont, Virginia and West Virginia. Applicant is authorized to transport petroleum products in Ohio, Michigan, Illinois, Indiana, Pennsylvania, Kentucky, and West Virginia.

HEARING: April 10, 1957, at the Sheraton-Cadillac Hotel, Detroit, Mich., before Examiner Reece Harrison.

No. MC 54435 (Sub No. 28), filed February 14, 1957, MICHIGAN MOTOR FREIGHT LINES, INC., 4800 Oakman Blvd., Dearborn, Mich. Applicant's attorney: Walter N. Bieneman, Guardian Bldg., Detroit 26, Mich. For authority to operate as a *common carrier*, over regular routes, transporting: *General commodities*, except those of unusual value, Class A and B explosives, livestock, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment, over the following alternate routes for operating convenience only, with no service at intermediate or off-route points, and serving the termini for the purpose of joinder only: (1) between Bay City, Mich., and junction Michigan Highway 15 and U. S. Highway 10, over Michigan Highway 15; (2) between Saginaw, Mich., and junction Michigan Highway 46 and Michigan Highway 15, over Michigan Highway 46; (3) between junction U. S. Highway 24 and U. S. Highway 31, and junction U. S. Highway 24 and U. S. Highway 66, over U. S. Highway 24. Applicant is authorized to transport similar commodities in Michigan, Ohio, Illinois, Indiana, and Kentucky.

HEARING: April 15, 1957, at the Olds Hotel, Lansing, Mich., before Joint Board No. 76, or, if the Joint Board waives its right to participate, before Examiner Reece Harrison.

No. MC 59077 (Sub No. 31), filed January 22, 1957, INLAND MOTOR FREIGHT, a Corporation, South 110 Sheridan Street, Spokane, Wash. Applicant's attorney: William B. Adams, Pacific Building, Portland 4, Oreg. For authority to operate as a common carrier, over regular routes, transporting: *General commodities, including Class A, B, and C, explosives*, but excluding those of unusual value, household goods as defined by the Commission, commodities in bulk, and commodities requiring special equipment, other than those requiring specialized handling or rigging because of size or weight, between Spokane, Wash., and Ford, Wash., (1) from Spokane over U. S. Highway 195 to junction U. S. Highway 395, thence over U. S. Highway 395 to Springdale, Wash., thence over Washington Highway 3–J to Ford, and return over the same route, serving no intermediate points; and (2) from Spokane, over U. S. Highway 2 to Reardan, Wash., thence over unnumbered road to junction Washington Highway 3–J, thence over Washington Highway 3–J to Ford, and return over the same route, serving no intermediate points. Applicant is authorized to transport similar commodities in Idaho, Oregon, and Washington.

HEARING: April 16, 1957, at the Davenport Hotel, Spokane, Wash., before Joint Board No. 80.

No. MC 60508 (Sub No. 6), filed January 10, 1957, CLYDE H. SIZEMORE, doing business as SIZEMORE TRUCKING COMPANY, Clinton, N. C. Applicant's attorney: James E. Wilson, Continental Bldg., 14th at K, NW., Washington 5, D. C. For authority to operate as a *common carrier*, over irregular routes, transporting: *Lumber*, not including plywood and veneer, from Apex, N. C., and points in North Carolina within 100 miles of Apex, and points in Columbus and New Hanover Counties, N. C., to points in New York, New Jersey, Connecticut, Delaware, and those in Pennsylvania west of U. S. Highway 111 extending from the Maryland-Pennsylvania State line to Harrisburg, Pa., and thence from Harrisburg west of U. S. Highway 15 to the Pennsylvania-New York State line. Applicant is authorized to transport similar commodities in North Carolina, Virginia, West Virginia, Maryland, the District of Columbia, and Pennsylvania.

HEARING: April 8, 1957, at the North Carolina Utilities Commission, State Library Bldg., Morgan Street, Raleigh, N. C., before Examiner William J. Cave.

No. MC 60786 (Sub No. 31), filed January 28, 1957, RALPH G. SMITH, INC., 239 E. Market Street, West Chester, Pa. Applicant's representative: G. Donald Bullock, Box 146, Wyncote, Pa. For authority to operate as a *common carrier* over irregular routes, transporting: *Livestock*, other than ordinary livestock, and in connection therewith, *personal effects of their attendants*, and *supplies and equipment*, including *mascots*, incidental to the care, transportation and exhibition of such livestock, between points in Alabama, Arkansas, Connecticut, Delaware, Florida, Georgia, Illinois, Indiana, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Michigan, Mississippi, Missouri, New Hampshire, New Jersey, New York, North Carolina, Ohio, Pennsylvania, Rhode Island, South Carolina, Tennessee, Vermont, Virginia, West Virginia, and the District of Columbia. Applicant is authorized to transport similar commodities in the States of Connecticut, Delaware, Florida, Illinois, Kentucky, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, North Carolina, Ohio, Pennsylvania, Rhode Island, South Carolina, Vermont, Virginia, West Virginia, and the District of Columbia.

NOTE: Applicant states that no duplication of operating authority is sought.

HEARING: April 10, 1957, at the U. S. Court Rooms, Columbia, S. C., before Examiner William J. Cave.

No. MC 61825 (Sub No. 16), filed February 13, 1957, ROY STONE TRANSFER CORPORATION, P. O. Box 385, Collinsville, Va. Applicant's representative: Thaxton Richardson, P. O. Box 612, Greensboro, N. C. For authority to operate as a *common carrier*, over irregular routes, transporting: *Glass*, from Ford City, Creighton, Butler, Arnold, Jeannette, Elwood City and Frisco, Pa., to Bassett and Martinsville, Va. Applicant is authorized to transport glass in West Virginia, Virginia, Ohio, and Kentucky.

HEARING: April 25, 1957, at the U. S. Court Rooms, Greensboro, N. C., before Examiner William J. Cave.

No. MC 67111 (Sub No. 8), filed February 4, 1957, KAIN'S MOTOR SERVICE CORP., West End of Bates Street, Logansport, Ind. Applicant's representative: David M. Cook, 1006 Chamber of Commerce Bldg., Indianapolis 4, Ind. For authority to operate as a *common carrier*, over a regular route, transporting: *General commodities*, except those of unusual value, Class A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment, between Rochester, Ind., and junction U. S. Highway 31 and Indiana Highway 110, from Rochester over Indiana Highway 25 to junction Indiana Highway 110, thence over Indiana Highway 110 to junction U. S. Highway 31, and return over the same route, serving the intermediate point of Talma, Ind. Applicant is authorized to conduct operations in Illinois and Indiana.

HEARING: April 17, 1957, at the U. S. Court Rooms, Indianapolis, Ind., before Joint Board No. 72, or, if the Joint Board waives its right to participate, before Examiner Reece Harrison.

No. MC 76032 (Sub No. 108), filed January 14, 1957, NAVAJO FREIGHT LINES, INC., 1205 South Platte River Drive, Denver 23, Colo. Applicant's representative: O. Russell Jones, P. O. Box

1437, Santa Fe, N. Mex. Issues originally published in FEDERAL REGISTER of January 30, 1957.

PRE-HEARING CONFERENCE: March 18, 1957, at the Offices of the Interstate Commerce Commission, Washington, D. C., with Examiner Michael B. Driscoll presiding. At the pre-hearing conference it is contemplated that the following matters will be discussed; (1) The issues generally with a view to their simplification; (2) The possibility and desirability of agreeing upon special procedures to expedite and control the handling of these applications; (3) The practicability and desirability of consolidating all such applications for hearing on a single record; (4) The time and place or places of such hearing or hearings as may be agreed upon; (5) The general character of the evidence to be offered by the applicants and protestants; (6) The number of witnesses to be presented and the time required for such presentations by both applicants and protestants; (7) The practicability of both applicants and protestants submitting in written form their *direct* testimony with respect to: (a) Their present operating authorities, (b) Their corporate organizations if any, ownership, and control, (c) Their financial data, (d) Their equipment, terminals, and other facilities; (8) The practicability and desirability of all parties exchanging exhibits covering the immediately above-listed matters in advance of any hearing; (9) Any other matters by which the hearing or hearings and further handling of the applications can be expedited or simplified, or the Commission's handling thereof aided.

No. MC 76564 (Sub No. 58), filed January 22, 1957, HILL LINES, INC., 1300 Grant Street, Amarillo, Tex. For authority to operate as a *common carrier*, over regular routes, transporting: *General commodities*, including *Class A and B explosives* and *commodities in bulk*, but excluding articles of unusual value, household goods as defined by the Commission, and those requiring special equipment, (1) Between Tatum, N. Mex., and Dallas, Tex., as follows: From Tatum over U. S. Highway 380 to junction U. S. Highway 180, thence over U. S. Highway 180 to junction U. S. Highway 80, thence over U. S. Highway 80 to Dallas, and return over the same route, serving all intermediate points between Fort Worth, Tex., and Dallas, Tex., on U. S. Highway 80, and serving points in the Dallas, Tex., Commercial Zone as defined by the Commission and points in the Fort Worth, Tex., Commercial Zone as defined by the Commission, as intermediate and off-route points; (2) between Tatum, N. Mex., and Dallas, Tex., as follows: From Tatum over U. S. Highway 380 to junction Texas Highway 24, thence over Texas Highway 24 to junction Texas Highway 199, thence over Texas Highway 199 to junction U. S. Highway 80, thence over U. S. Highway 80 to Dallas, and return over the same route, serving all intermediate points between Fort Worth, Tex., and Dallas, Tex., on U. S. Highway 80, and serving points in the Dallas, Tex., Commercial Zone as defined by the Commission and points in the Fort Worth, Tex., Commercial Zone as defined by the Commission, as intermediate and off-route points; (3) Between Hobbs, N. Mex., and Dallas, Tex., as follows: From Hobbs over U. S. Highway 180 to junction U. S. Highway 80, thence over U. S. Highway 80 to Dallas, and return over the same route, serving all intermediate points between Fort Worth, Tex., and Dallas, Tex., on U. S. Highway 80, and serving points in the Dallas, Tex., Commercial Zone as defined by the Commission and points in the Fort Worth, Tex., Commercial Zone as defined by the Commission, as intermediate and off-route points; and (4) Between Fort Worth, Tex., and Dallas, Tex., over Texas Highway 183, serving all intermediate points, and serving points in the Dallas, Tex., Commercial Zone, as defined by the Commission and points in the Fort Worth, Tex., Commercial Zone as defined by the Commission, as intermediate and off-route points. Applicant is authorized to conduct operations in New Mexico and Texas.

NOTE: Applicant states that route (4) above is to be operated in conjunction with each of the routes described in (1), (2), and (3) above.

PRE-HEARING CONFERENCE: March 18, 1957, at the Offices of the Interstate Commerce Commission, Washington, D. C., with Examiner Michael B. Driscoll presiding. At the pre-hearing conference it is contemplated that the following matters will be discussed; (1) The issues generally with a view to their simplification; (2) The possibility and desirability of agreeing upon special procedures to expedite and control the handling of these applications; (3) The practicability and desirability of consolidating all such applications for hearing on a single record; (4) The time and place or places of such hearing or hearings as may be agreed upon; (5) The general character of the evidence to be offered by the applicants and protestants; (6) The number of witnesses to be presented and the time required for such presentations by both applicants and protestants; (7) The practicability of both applicants and protestants submitting in written form their *direct* testimony with respect to: (a) Their present operating authorities, (b) Their corporate organizations if any, ownership, and control, (c) Their financial data, (d) Their equipment, terminals, and other facilities; (8) The practicability and desirability of all parties exchanging exhibits covering the immediately above-listed matters in advance of any hearing; (9) Any other matters by which the hearing or hearings and further handling of the applications can be expedited or simplified, or the Commission's handling thereof aided.

No. MC 85934 (Sub No. 1), filed January 14, 1957, MICHIGAN TRANSPORTATION COMPANY, 1650 Waterman Avenue, Detroit, Mich. Applicant's attorney: Rex Eames, 2606 Guardian Bldg., Detroit 26, Mich. No. MC 112020 (Sub No. 27), filed January 30, 1957, COMMERCIAL OIL TRANSPORT, a corporation, 1030 Stayton St., Fort Worth, Tex. Applicant's attorney: Leroy Hallman, First Nat'l Bank Bldg., Dallas 2, Tex. For authority to operate as a *common carrier*, over irregular routes, transporting: *Oils*, other than petroleum, *paint and paint materials, resins*, and *products* and *blends* thereof, in bulk, in tank vehicles, between points in Texas, Louisiana, Minnesota, Iowa, Illinois, Alabama, Oklahoma, Colorado, Kansas, Missouri, Arkansas, Tennessee, and Mississippi, on the one hand, and, on the other, Dallas, Tex., and points within 20 miles thereof. Applicant is authorized to conduct operations in Arkansas, Iowa, Kansas, Louisiana, Missouri, Nebraska, Oklahoma, and Texas.

HEARING: May 23, 1957, at the Baker Hotel, Dallas, Tex., before Examiner Walter R. Lee.

No. MC 112020 (Sub No. 28), filed February 5, 1957, COMMERCIAL OIL TRANSPORT, 1030 Stayton St., Fort Worth, Tex. Applicant's attorney: Leroy Hallman, First Nat'l Bank Bldg., Dallas 2, Tex. For authority to operate as a *common carrier*, over irregular routes, transporting: *Animal and vegetable fats, oils, greases*, and *products and blends thereof*, in bulk, in tank vehicles, between Memphis, Tenn., on the one hand, and, on the other, points in Arkansas, Colorado, Delaware, District of Columbia, Florida, Maryland, Minnesota, Missouri, Nebraska, New Jersey, North Carolina, Ohio, Oklahoma, South Carolina, Texas, Virginia, West Virginia, Wisconsin, New York, Pennsylvania, Georgia, Kansas, South Dakota, Iowa, Louisiana, Mississippi, Alabama, Tennessee, Kentucky, Illinois, Indiana, and Michigan. Applicant is authorized to transport similar commodities in Louisiana, Arkansas, Oklahoma, Texas, Kansas, New York, Missouri, Nebraska, Iowa, Illinois, Indiana, Michigan, Mississippi, Ohio, and Wisconsin.

HEARING: April 18, 1957, at the U. S. District Court Rooms, Memphis, Tenn., before Examiner William J. Cave.

No. MC 112835 (Sub No. 4), filed February 14, 1957, MORRIS H. APPLEBAUM, 6206 North Bernard Street, Chicago 45, Ill. Applicant's attorney: Joseph M. Scanlan, 111 West Washington Street, Chicago 2, Ill. For authority to operate as a *contract carrier*, over irregular routes, transporting: *Television tubes, radio tubes and radio sets, television sets, phonographs and recording sets* and *combinations* thereof and *parts of and for such commodities*, between points in Illinois and Indiana, and Charlotte, Mich., on the one hand, and, on the other, points in Pennsylvania, New Jersey, New York, Massachusetts and Connecticut. RESTRICTION: Applied for authority to be restricted in each and every instance to operations performed through Charlotte, Mich. Applicant is authorized to transport similar commodities in Connecticut, Illinois, Massachusetts, Michigan, New Jersey, and New York.

HEARING: April 18, 1957, in Room 852, U. S. Custom House, 610 South Canal Street, Chicago, Ill., before Examiner Richard H. Roberts.

No. MC 113151 (Sub No. 4), filed January 25, 1957, ALPHONSE HINDERMANN, EDWIN HINDERMANN and VINCENT HINDERMANN, doing business as HINDERMANN BROTHERS, Dickeyville, Wis. Applicant's attorney: John T. Porter, 708 First Nat'l. Bank Bldg., Madison 3, Wis. For authority to operate as a *common carrier*, over irregular routes, transporting: *Livestock*, and *poultry feed*, from Dubuque and Iowa Falls, Iowa, to points in Crawford, Grant, Iowa and Richland Counties, Wis. Applicant is authorized to transport similar commodities in Iowa, Illinois, and Wisconsin.

NOTE: Applicant states that the proposed application is a duplication in part, of its rights in Certificate No. MC 113151 (Sub No. 1), and requests that such duplication be eliminated by the Commission in the event that part or all of the authority herein requested is granted.

HEARING: April 10, 1957, at the Wisconsin Public Service Commission, Madison, Wis., before Joint Board No. 111.

No. MC 113514 (Sub No. 22), filed January 2, 1957, SMITH TRANSIT, INC., (formerly CHEMICAL TRANSPORTS, INC.,) 305 Simons Bldg., 1528 Main St., Dallas, Tex. Applicant's attorney: W. D. White, 17th Floor Mercantile Bank Bldg., Dallas 1, Tex. For authority to operate as a *common carrier*, over irregular routes, transporting: *Liquid chemicals*, in bulk, in tank vehicles, from points in Nueces County, Tex., to points in Alabama, Arkansas, Kansas, Louisiana, Mississippi, Missouri, New Mexico and Oklahoma. Applicant is authorized to transport similar commodities in the States of Texas, Alabama, Arkansas, Kansas, Louisiana, Mississippi, Missouri, New Mexico, and Oklahoma.

NOTE: Applicant is under common control with Chemical Express (Texas corporation) who holds contract carrier authority in Permit No. 115135 (Sub No. 1) to transport cement from Maryneal, Tex., to points in New Mexico as more fully set forth in instant application. Section 210 (dual operations) may be involved.

HEARING: May 17, 1957, at the Federal Bldg., Corpus Christi, Tex., before Examiner Walter R. Lee.

No. MC 113779 (Sub No. 52), filed January 28, 1957, YORK INTERSTATE TRUCKING, INC., 9820 LaPorte Expressway, P. O. Box 12385, Houston 17, Tex. For authority to operate as a common carrier, over irregular routes, transporting: (1) *Acids* and *chemicals* (not restricted to those as defined by the Commission), in bulk, in manifolded cylinder trailers and tank vehicles, between points in Harris, Jefferson and Orange Counties, Texas, on the one hand, and, on the other, points in Alabama, Arizona, California, Colorado, Florida, Georgia, Illinois, Indiana, Iowa, Kansas, Kentucky, Minnesota, Missouri, Nebraska, Nevada, North Carolina, South Carolina, South Dakota, Tennessee (except Kingsport), Utah, Virginia, West Virginia, Wisconsin and Wyoming; and (2) *lubricating oils* and *petroleum wax*, in bulk, in tank vehicles, from points in Harris and Jefferson Counties, Texas, to points in Alabama, Arkansas, Florida, Georgia, Mississippi and Tennessee. Applicant is authorized to conduct operations in Arkansas, Louisiana, Mississippi, New Mexico, Oklahoma, and Texas. Any duplication with present authority should be eliminated.

NOTE: Where authority granted duplicates any authority granted in this application, applicant requests the previously granted authority be merged.

HEARING: May 8, 1957, at the Federal Office Bldg., Franklin & Fannin Sts., Houston, Tex., before Examiner Walter R. Lee.

No. MC 113917 (Sub No. 3), filed February 7, 1957, W. W. ORMOND, doing business as W. W. ORMOND TRANSFER CO., Rt. 2, Box 324–H, New Bern, N. C. For authority to operate as a *contract carrier*, over a regular route, transporting: *Meats, meat products* and *meat byproducts, dairy products* and *articles distributed by meat packinghouses*, from New Bern, N. C. to Camp LeJeune, N. C., from New Bern over U. S. Highway 17 to Jacksonville, thence over North Carolina Highway 24 to Camp LeJeune, serving the intermediate point of Jacksonville. Applicant is authorized to transport similar commodities in North Carolina.

HEARING: April 9, 1957, at the North Carolina Utilities Commission State Library Bldg., Morgan Street, Raleigh, N. C., before Joint Board No. 103, or, if the Joint Board waives its right to participate, before Examiner William J. Cave.

No. MC 113974 (Sub No. 6), filed February 19, 1957, PITTSBURGH & NEW ENGLAND TRUCKING CO., 211 Washington Ave., Dravosburg, Pa. Applicant's attorney: Leonard Boreman, 1124 Frick Bldg., Pittsburgh 19, Pa. For authority to operate as a *common carrier*, over irregular routes, transporting: *Steel* and *steel articles*, from Pittsburgh and Aliquippa, Pa., to points in Connecticut, Massachusetts, and Rhode Island.

NOTE: Applicant states that it is presently authorized to transport steel mill products from Pittsburgh and Aliquippa, Pa., to points in Connecticut, Massachusetts and Rhode Island. No new territory is sought and applicant desires to change its commodity description from steel mill products to steel and steel articles.

HEARING: April 15, 1957, at the Offices of the Interstate Commerce Commission, Washington, D. C., before Examiner Bertram E. Stillwell.

No. MC 114969 (Sub No. 8), filed January 31, 1957, PROPANE TRANSPORT, INC., 27 Water Street, Milford, Ohio. Applicant's representative: Leonard D. Slutz, 900 Tri-State Bldg., Cincinnati 2, Ohio. For authority to operate as a *common carrier*, over irregular routes, transporting: *Liquefied petroleum gas*, in bulk, in tank vehicles, from points in Douglas County, Ill., to points in Ohio south and west of a line extending from the Ohio-Indiana State line in an easterly direction along Ohio Highway 47 to Waldo, Ohio, thence south along U. S. Highway 23 to Columbus, Ohio, thence east along U. S. Highway 40 to Zanesville, Ohio, thence southeast along Ohio Highway 77 to the Ohio River at Marietta, Ohio, *except* points in Brown, Clermont, Darke, Franklin, Hamilton, Montgomery, Pike, Union, and Warren Counties, Ohio. Applicant is authorized to conduct operations in Illinois, Indiana, and Ohio.

NOTE: Applicant has authority in Certificate No. MC 114969, dated August 8, 1956, to transport *Liquefied petroleum gas*, in bulk, in tank vehicles, from Tuscola, Ill., and points in Illinois within five miles thereof, to points in Brown, Clermont, Darke, Franklin, Hamilton, Montgomery, Pike, Union, and Warren Counties, Ohio.

HEARING: April 18, 1957, at the U. S. Court Rooms, Indianapolis, Ind., before Joint Board No. 58, or, if the Joint Board waives its right to participate, before Examiner Reece Harrison.

No. MC 115471 (Sub No. 2), filed February 7, 1957, JOSEPH WALSH, doing business as NORTH AMERICAN TRANSPORT CO., 5216 Perkins Ave., Cleveland, Ohio. For authority to operate as a *contract carrier*, over irregular routes, transporting: *Compressed gas*, in government-owned tube trailers, from Lakehurst, N. J., to Cleveland, Ohio; *Empty government-owned tube trailers*, from Cleveland, Ohio, to Lakehurst, N. J.

HEARING: April 8, 1957, at the Offices of the Interstate Commerce Commission, Washington, D. C., before Examiner Paul Coyle.

No. MC 115491 (Sub No. 1), filed December 26, 1956, COMMERCIAL CARRIERS CORPORATION, 502 East Bridges Ave., Auburndale, Fla. Applicant's representative: William P. Tomasello, 120 East Davidson St., Bartow, Fla. J., thence over Springfield Ave. to junction East Broad St., and thence over East Broad St. to junction North Ave. in Westfield, and return over the same route, serving all intermediate points. Applicant is authorized to conduct similar operations in New York and New Jersey, and charter operations in New Jersey, New York, Pennsylvania, Maryland, and the District of Columbia.

HEARING: April 15, 1957, at the New Jersey Board of Public Utility Commissioners, State Office Bldg., Raymond Blvd., Newark, N. J., before Joint Board No. 119.

No. MC 3647 (Sub No. 210), filed January 31, 1957, PUBLIC SERVICE COORDINATED TRANSPORT, a corporation, 80 Park Place, Newark, N. J. Applicant's representative: Frederick M. Broadfoot, Assistant General Solicitor, Law Department, Public Service Coordinated Transport, Public Service Terminal, Newark, N. J. For authority to operate as a *common carrier*, over regular routes, transporting: *Passengers and their baggage*, and *express* and *newspapers*, in the same vehicle with passengers, in seasonal operations during the authorized racing season of each year, during the months of August, September, and October, at the Atlantic City Race Track, Hamilton Township, N. J., (1) between junction U. S. Highway 30 and Cologne Avenue, Galloway Township, near Germania, N. J., and the entrance of the Atlantic City Race Track in Hamilton Township, N. J., from junction U. S. Highway 30 and Cologne Avenue, Galloway Township over Cologne Avenue to junction Oak Street, thence over Oak Street to the entrance of the Atlantic City Race Track in Hamilton Township, and return over the same route, serving no intermediate points; (2) between junction U. S. Highway 30 and Tilton Road in Galloway Township, N. J., and the entrance of the Atlantic City Race Track in Hamilton Township, N. J., from junction U. S. Highway 30 and Tilton Road in Galloway Township, over Tilton Road to junction Leipzig Avenue, thence over Leipzig Avenue to the entrance of the Atlantic City Race Track in Hamilton Township, and return over the same route, serving no intermediate points; and (3) between junction Cologne Avenue and Oak Street, Galloway Township, N. J., and junction U. S. Highway 322 (Black Horse Pike), N. J., and Cologne Avenue, over Cologne Avenue, serving no intermediate points. Applicant is authorized to conduct similar operations in New Jersey and New York.

NOTE: Applicant states that the season of operation will be during the racing meet at the Atlantic City Race Track which is usually during the months of August, September, and October of each year. However, these dates do fluctuate because of the assignment of racing days to the three tracks in New Jersey. Applicant states that it is only their intention to operate during the racing season at the Atlantic City Race Track.

HEARING: April 12, 1957, at the New Jersey Board of Public Utility Commissioners, State Office Bldg., Raymond Blvd., Newark, N. J., before Joint Board No. 119.

No. MC 3647 (Sub No. 212), filed February 26, 1957, PUBLIC SERVICE COORDINATED TRANSPORT, a Corporation, 80 Park Place, Newark, N. J. Applicant's attorney: Frederick N. Broadfoot, Public Service Terminal, Newark 1, N. J. For authority to operate as a *common carrier*, over regular routes, transporting: *Passengers and their baggage*, and *express* and *newspapers* in the same vehicle with passengers, (1) from junction Garden State Parkway at Exit 143A over access road to Washington Ave., thence over Washington Ave. to junction Springfield Ave., and thence over Springfield Ave. to Irvington Bus Terminal, all within the Town of Irvington, N. J., serving all intermediate points; (2) from junction Millburn Ave. and Vaux Hall Road, Millburn, N. J., over Vaux Hall Road to junction U. S. Highway 22 in Union, N. J., and return over the same route, serving all intermediate points; (3) from junction U. S. Highway 22, Garden State Parkway and Morris Ave., Union, N. J., over access roads to Garden State Parkway, thence over Garden State Parkway to join with applicant's existing authority on Garden State Parkway at Exit and Entrance roads 143A in Irvington, N. J., and return over the same route, serving no intermediate points. Applicant is authorized to conduct passenger operations in New York, New Jersey, Washington, D. C., Mount Vernon, Va., and specified points in Pennsylvania.

HEARING: April 8, 1957, at the New Jersey Board of Public Utility Commissioners, State Office Bldg., Raymond Blvd., Newark, N. J., before Joint Board No. 119.

APPLICATIONS IN WHICH HANDLING WITHOUT ORAL HEARING IS REQUESTED

MOTOR CARRIERS OF PROPERTY

No. MC 936 (Sub No. 28), filed February 15, 1957, VALLEY MOTOR LINES, INC., 1107 "D" St., Fresno, Calif. For authority to operate as a *common carrier*, over regular and irregular routes, transporting: *General commodities*, except those of unusual value, Class A and B explosives, household goods as defined by the Commission, commodities in bulk, and commodities requiring special equipment, between points in California as follows: (1) between Bakersfield and Tulare over U. S. Highway 99; (2) between Famoso and Yettem, from Famoso over an unnumbered highway connecting with U. S. Highway 99 at or near Famoso to junction unnumbered highway and California Highway 65 at or near Ducor, thence over California Highway 65 to junction unnumbered county highway at or near Elderwood, and thence over unnumbered county highway to Yettem; (3) between Visalia and Woodlake, from Visalia over California Highway 198 to Lemoncove, thence approximately one mile to junction California Highway 198 and unnumbered highway, thence over said unnumbered highway to Woodlake; (4) between Tulare and Lindsay over unnumbered highway; (5) between junction of California Highway 198 with U. S. Highway 99 at or near Tipton and junction California Highway 190 and California Highway 65 at or near Porterville over California Highway 190; (6) between Pixley and Terra Bella over unnumbered highway; (7) between Earlimart and Ducor over unnumbered highway; (8) between the junction of unnumbered highway with U. S. Highway 99 approximately three (3) miles north of Delano and Richgrove over said unnumbered highway; (9) between Fresno and Reedley, from Fresno over California Highway 180 to Minkler and thence over Reed Avenue to Reedley; and return over the afore-described same routes, serving all intermediate points, and the off-route points of Oil City, Oildale, Rosedale, Shafter, Wasco, Plano, Porterville, Exeter, Ivanhoe, Farmersville, Woodville, and Sanger, and those points in a territory adjacent to Los Angeles and the Los Angeles Harbor Commercial Zone described as follows: Beginning at the point of the Ventura County-Los Angeles County boundary line intersects the Pacific Ocean; thence northeasterly along said county line to the point it intersects State Highway No. 118, approximately two miles west of Chatsworth; easterly along State Highway No. 118 to Sepulveda Blvd.; northerly along Sepulveda Blvd., to Chatsworth Drive; northeasterly along Chatsworth Drive to the corporate boundary of the City of San Fernando; westerly and northerly along said corporate boundary to McClay Avenue; northeasterly along McClay Avenue and its prolongation to the Angeles National Forest Boundary; southeasterly and easterly along the Angeles National Forest and San Bernardino National Forest boundary to the county road known as Mill Creek Road; westerly along Mill Creek Road to the county road 3.8 miles north of Yucaipa; southerly along said county road to and including the unincorporated community of Yucaipa; westerly along Redlands Blvd., to U. S. Highway No. 99; northwesterly along U. S. Highway No. 99 to the corporate boundary of the City of Redlands; westerly and northerly along said corporate boundary to Brookside Avenue; westerly along Brookside Avenue to Barton Avenue; westerly along Barton Avenue and its prolongation to Palm Avenue; westerly along Palm Avenue to La Cadena Drive; southwesterly along La Cadena Drive to Iowa Avenue; southerly along Iowa Avenue to U. S. Highway No. 60; southwesterly along U. S. Highways Nos. 60 and 395 to the county road approximately one mile north of Perris; easterly along said county road via Nuevo and Lakeview to the corporate boundary of the City of San Jacinto; easterly, southerly and westerly along said corporate boundary to San Jacinto Avenue; southerly along San Jacinto to State Highway No. 74; westerly along State Highway No. 74 to the corporate boundary of the City of Hemet; southerly, westerly and northerly along said corporate boundary to the right of way of The Atchison, Topeka & Santa Fe Railway Company; southwesterly along said right of way to Washington Avenue; southerly along Washington Avenue, through and including the unincorporated community of Winchester to Benton Road; westerly along Benton Road to the county road intersecting U. S. Highway No. 395, 2.1 miles north of the unincorporated community of Temecula; southerly along said county road to U. S. Highway No. 395; southeasterly along U. S. Highway No. 395 to the Riverside County-San Diego County boundary line; westerly along said boundary line to the Orange County-San Diego County boundary line; southerly along said boundary line to the Pacific Ocean; northwesterly along the shore line of the Pacific Ocean to point of beginning. Applicant is authorized to conduct operations in California.

NOTE: Applicant states that by this application it seeks a certificate of public convenience and necessity from this Commission in lieu of operations conducted under the second proviso of section 206 (a) (1), Interstate Commerce Act, authorized May 8, 1952 in No. MC 936 (Sub No. 23), and cancelled September 21, 1956, pursuant to proceedings in No. MC–F–5054 wherein Consolidated Copperstate Lines, Los Angeles, Calif., was granted control of VALLEY MOTOR LINES, INC.

No. MC 26120 (Sub No. 1), filed January 28, 1957, GEORGE L. HOOKER, Tuscorawas Road, Uhrichsville, Ohio. Applicant's representative: Richard H. Brandon, Hartman Bldg., Columbus 15, Ohio. For authority to operate as a *contract carrier*, over irregular routes, transporting. *Vitrified clay sewer pipe, vitrified clay sewer pipe fittings, clay products* (except ceramic tile, earthenware and pottery in containers) and *materials* used in the installation of all such commodities, from Uhrichsville, Ohio, and points within 5 miles of Uhrichsville, and from points in Palmyra Township, Portage County, Ohio, to points in Florida. Applicant is authorized to transport similar commodities in Ohio, Pennsylvania, and West Virginia.

No. MC 30605 (Sub No. 91), filed November 23, 1956, THE SANTA FE TRAIL TRANSPORTATION COMPANY, a corporation, Broadway and English Streets, Wichita, Kans. Applicant's representative: The Atchison, Topeka and Santa Fe Railway, R. S. Outlaw, Solicitor, 80 East Jackson Blvd., Chicago 4, Ill. For authority to operate as a *common carrier*, over regular routes, transporting: (1) *General commodities*, except those of unusual value, Class A and B explosives, household goods as defined by the Commission, commodities in bulk, commodities requiring special equipment and those injurious or contaminating to other lading, between Los Angeles, Calif., and Holbrook, Ariz., over U. S. Highway 66; and between Los Angeles, Calif., and Ash Fork, Ariz., from Los Angeles over U. S. Highway 60 to Wickenburg, Ariz., thence over U. S. Highway 89 to Ash Fork, and return over the same route (also from Los Angeles over U. S. Highway 99 to Indio, Calif., and return), serving all intermediate and off-route points which are stations on the rail lines of the Atchison, Topeka and Santa Fe Railway Company on U. S. Highway 66 between San Bernardino, Calif., including San Bernardino, and Holbrook, Ariz., and on U. S. Highway 60 and U. S. Highway 89 between Blythe, Calif., including Blythe, and Ash Fork, Ariz., except those points sought by applicants through application on Form BMC 44 filed jointly herewith for purchase of the operating rights of Meddock Truck Line, Los Angeles, Calif., under MC 67388 and MC 67388 (Sub Nos. 10 and 12); and (2) Class A and B explosives (except liquid nitroglycerine) between Los Angeles, Calif., and Holbrook, Ariz., over U. S. Highway 66; between Los Angeles, Calif., and Ash Fork, Ariz., from Los Angeles over U. S. Highway 60 to Wickenburg, Ariz., thence over U. S. Highway 89 to Ash Fork, and return over the same route (also from Los Angeles over U. S. Highway 99 to Indio, Calif., and return over the same route), serving all intermediate and off-route points which are stations on the rail lines of the Atchison, Topeka and Santa Fe Railway Company, on U. S. Highway 66 between San Bernardino, Calif., including San Bernardino, and Holbrook, Ariz., and on U. S. Highway 60 and U. S. Highway 89 between Blythe, Calif., including Blythe, and Ash Fork, and the following off-route points which are served by the Atchison, Topeka and Santa Fe Railway Company: Huntington Park, Los Angeles Harbor, Long Beach, Wilmington, San Pedro, Watson

and Arlington, Calif.; and those in the Los Angeles, Calif., commercial zone as defined by the Commission; between Williams, Ariz., and Grand Canyon, Ariz., over Arizona Highway 64, serving all intermediate and off-route points which are stations on the rail lines of The Atchison, Topeka and Santa Fe Railway Company; and between Aguila, Ariz., and Congress Junction, Ariz., over Arizona Highway 71, serving no intermediate points, as an *alternate route*, for operating convenience only, in connection with authority applied for herein between Los Angeles and Wickenburg, RESTRICTION: The service to be performed by the carrier in the transportation of Class A and B explosives to be limited to service which is auxiliary to, or supplemental of, rail service of the railway and carrier shall not serve, or interchange traffic at, any point not a station on a rail line of the railway.

NOTE: Applicant has filed an application on Form BMC 44 to acquire operating rights of Meddock Truck Line, and states the purpose of this application is to obtain authority to serve intermediate and off-route points along the routes of Meddock Truck Line which are stations on the Atchison, Topeka and Santa Fe Railway and which Meddock Truck Line is not authorized to serve. Applicant is authorized to conduct operations in Arkansas, Colorado, Kansas, Missouri, Nebraska, New Mexico, Oklahoma, and Texas.

No. MC 30887 (Sub No. 71), filed February 1, 1957, SHIPLEY TRANSFER, INC., 534 Main Street, Reisterstown, Md. For authority to operate as a *common carrier*, over irregular routes, transporting: *Asphalt*, in bulk, in tank vehicles, from Baltimore, Md., to Mansfield, Pa.

No. MC 78400 (Sub No. 8), filed February 12, 1957, JOHN MEYER, LEO FLOTTMANN, ROY FLOTTMANN, and OLIN FLOTTMANN, doing business as BEAUFORT TRANSFER CO., Gerald, Mo. Applicant's attorney: Joseph R. Nacy, 117 West High Street, Jefferson City, Mo. For authority to operate as a *common carrier*, over a regular route, transporting: *General commodities*, except those of unusual value, Class A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment, between the plant site of the Kingsford Charcoal Company, approximately six (6) miles southwest of Belle, Mo., and Kansas City, Kans., from the plant site of the Kingsford Charcoal Company, over unnumbered highway to junction Missouri Highway 28, thence over Missouri Highway 28 to junction U. S. Highway 50, thence over U. S. Highway 50 to Kansas City, and return over the same route, serving no intermediate points. Applicant is authorized to transport similar commodities in Illinois and Missouri.

NOTE: Applicants state that they do not, at this time, intend to tack or join the authority herein sought to any authority now held by them under this Commission. Duplication with present authority to be eliminated.

No. MC 94350 (Sub No. 11), filed February 19, 1957, TRANSIT HOMES, INC., 22644 Gratiot Avenue, Kaiser Bldg., East Detroit, Mich. Applicant's attorney: Harold G. Hernly, 1624 Eye Street, N. W., Washington 6, D. C. For authority to operate as a *common carrier*, over irregular routes, transporting: *Trailers*, designed to be drawn by passenger automobiles, in initial movements, by the truckaway method, from Boca Raton, Fla., to points in the United States. Applicant is authorized to conduct operations to all points in the United States.

No. MC 107002 (Sub No. 108), filed November 28, 1956, WALTER M. CHAMBERS, doing business as W. M. CHAMBERS TRUCK LINE, P. O. Box 687, 105 Giuffrias Ave., New Orleans 7, La. For authority to operate as a *common carrier*, over irregular routes, transporting: *Anhydrous ammonia*, in bulk, in tank vehicles, from New Iberia, La. to points in Mississippi. Applicant is authorized to conduct operations in Louisiana, Mississippi, Texas, Alabama, Georgia, and Tennessee.

No. MC 108158 (Sub No. 44), filed December 26, 1956, MID CONTINENT FREIGHT LINES, INC., 1313 W. Reno, P. O. Drawer 1438, Oklahoma City, Okla. Applicant's attorney: Max G. Morgan, 443–54 American National Building, Oklahoma City 2, Okla. For authority to operate as a *common carrier*, over a regular route, transporting: *General commodities*, except those of unusual value, Class A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment, between Chicago, Ill., and Mansfield, Ohio, from Chicago over U. S. Highway 41 to junction U. S. Highway 30, thence over U. S. Highway 30 to Delphos, Ohio, thence over U. S. Highway 30–N to Mansfield, and return over the same route, serving no intermediate points, but serving Mansfield, Ohio for joinder purposes only, as an alternate route for operating convenience only, in connection with applicant's authorized regular route operations. Applicant is authorized to conduct operations in Illinois, Indiana, Kansas, Minnesota, Missouri, Ohio, Oklahoma, Texas, and Wisconsin.

NOTE: Applicant states that in order to eliminate any question regarding "tacking" or the usage of highways, it is filing the instant application agreeing that it will surrender any duplication and/or that only a single right shall be received. Applicant further states that the granting of the above service will not change the type or character of service which it is presently rendering and will in no manner affect the competitive situation between the involved points; that a grant of the above route will merely enable it to continue an existing operation between authorized points by a somewhat shorter route and by better highways.

No. MC 109637 (Sub No. 42), filed February 14, 1957, GASOLINE TRANSPORT CO., 4500 Bells Lane, Louisville, Ky. Applicant's attorney: Charles W. Dobbins, 310 West Liberty Louisville, Ky. For authority to operate as a *common carrier*, over irregular routes, transporting: *Petroleum* and *petroleum products*, in bulk, in tank vehicles, from Lawrenceville, Ill., and points within 5 miles thereof, to Chattanooga, Tenn., and points within 10 miles thereof, including Lovell Field. Applicant is authorized to transport similar commodities in Kentucky, Indiana, Illinois and Tennessee.

MOTOR CARRIERS OF PASSENGERS

No. MC 1511 (Sub No. 112), filed February 25, 1957, PACIFIC GREYHOUND LINES, 371 Market St., San Francisco 5, Calif. Applicant's attorney: Earl A. Bagby, same address as applicant. For authority to operate as a *common carrier*, over a regular route, transporting: *Passengers and their baggage*, and *express*, in the same vehicle with passengers, between Bradshaw Road Junction, Calif., and Grant Line Road Junction, Calif., from junction Bradshaw Road and U. S. Highway 50 (Bradshaw Road Junction), over Bradshaw Road to Grant Line Road, thence over Grant Line Road to junction U. S. Highway 99 (Grant Line Road Junction), and return over the same route, serving no intermediate points, as an alternate route for operating convenience only, in connection with applicant's authorized regular route operations between Sacramento and Placerville, Calif., and between El Paso, Tex., and Portland, Oreg. Applicant is authorized to conduct operations in Texas, Oregon, California, New Mexico, Arizona, and Nevada.

No. MC 1511 (Sub No. 113), filed February 25, 1957, PACIFIC GREYHOUND LINES, 371 Market St., San Francisco 5, Calif. Applicant's attorney: Earl A. Bagby, same address as applicant. For authority to operate as a *common carrier*, over a regular route, transporting: *Passengers and their baggage*, and *express*, in the same vehicle with passengers, between Sacramento, Calif., and Ostrom, Calif., from Sacramento over Garden Highway to junction El Centro Blvd., thence over El Centro Blvd. to Rio Oso, thence over Bear River Road to Pleasant Grove Road to Forty-Mile Road to junction U. S. Highway 99E (Ostrom), and return over the same route, serving no intermediate points, as an alternate route for operating convenience only, in connection with applicant's authorized regular route operations between Sacramento, Calif., and Red Bluff, Calif., over U. S. Highways 99E and 40. Applicant is authorized to conduct operations in Texas, Oregon, California, New Mexico, Arizona, and Nevada.

No. MC 116397, filed January 24, 1957, ALFRED WALLEN, doing business as MISSOURI SOUTHERN COACHES, 215 East Wayne Street, Ironton, Mo. Applicant's attorney: Joseph R. Nacy, 117 West High Street, Jefferson City, Mo. For authority to operate as a *common carrier*, over a regular route, transporting: *Passengers and their baggage*, and *express, mail*, and *newspapers*, in the same vehicle with passengers, between St. Louis, Mo., and Van Buren, Mo., from St. Louis over U. S. Highway 67 to junction U. S. By-Pass 67, thence over U. S. By-Pass 67 to junction Missouri Highway 21 (Concord Village, formerly designated South Affton), thence over Missouri Highway 21 to junction Missouri Highway 110, thence over Missouri Highway 110 to De Soto, Mo., thence over Jefferson County Highway "N" to junction Missouri Highway 21, thence over Missouri Highway 21 via Ironton, Mo., to junction Missouri Highway 49, thence over Missouri Highway 49 to Piedmont, Mo., thence over Missouri Highway 34 to junction Missouri Highway 21, thence over Missouri Highway 21 to junction U. S. Highway 60, thence over U. S. Highway 60 to Van Buren, and return over the same route, serving intermediate points between Mehlville, Concord Village, West Mattese, Meramec River Bridge, Antonia Road and Missouri Highway 21, Hillsboro, De Soto, Vineland Road, Fertile Junction (Missouri Highways 104 and 21), junction Missouri Highways 47 and 21, Old Mines, Potosi, Caledonia, Belleview, Graniteville, Pilot Knob, Ironton, Arcadia, Hoga, Glover, Chloride, Sabula, Annapolis, Vulcan, Des Arc, Gads Hill, Piedmont, Leeper, Black River Bridge, Wayne and Reynolds County Line, Clearwater Dam Junction, Garwood, and junction Missouri Highway 21 and U. S. Highway 60, including the termini, EXCEPT that no service is sought to be authorized between St. Louis and Mehlville, Mo., or between Mehlville and Concord Village, Mo.

NOTE: Applicant states that he seeks charter coach authority from the above-described regular route points to all points in the United States in interstate commerce. This is not to be interpreted as an application for irregular route authority separately. Applicant intends only to avail himself of the charter coach provisions of section 208 (c) of the Interstate Commerce Act. Applicant further states that the matter was included in the application only for emphasis, and to align the application with the statements of witnesses appended thereto.

APPLICATIONS UNDER SECTIONS 5 AND 210A (B)

The following applications are governed by the Interstate Commerce Commission's special rules governing notice of filing of applications by motor carriers of property or passengers under sections 5 (2) and 210a (b) of the Interstate Commerce Act and certain other procedural matters with respect thereto. (FEDERAL REGISTER Volume 21, page 7339, § 1.240, September 26, 1956.)

MOTOR CARRIERS OF PROPERTY

No. MC–F 6501 (correction) published in the February 6, 1957, issue of the FEDERAL REGISTER on page 752. The following additional authority should have been included: *Used machinery, used store, office, and factory supplies and fixtures, used heating and plumbing equipment*, and *used lumber*, as a *common carrier* over irregular routes between points in Massachusetts, Rhode Island, and New Hampshire; *waste paper, rags, wool sweepings*, and *used metals*, from points in Providence County, R. I., and certain points in New Hampshire to Boston, Mass., and points within 15 miles of Boston; *dodgem boats*, between Amesbury, Mass., on the one hand, and, on the other, points in New York, Connecticut, New Jersey, New Hampshire, Vermont, Maine, Delaware, and Michigan.

No. MC–F 6522. Authority sought by CONSOLIDATED FREIGHTWAYS, INC., 2029 N. W. Quimby, Portland, Oreg., to merge the operating rights and property of BEARDMORE TRANSFER LINE, INC., 118 West Second Avenue, Spokane, Wash. Applicants' attorney: Donald A. Schafer, 803 Public Service Bldg., Portland, Oreg. Operating rights sought to be merged: *Structural steel, machinery* (except machinery used in or incidental to mining operations), *machine parts, articles of unusual size, weight, or bulk*, and *materials supplies*, and *equipment* used in or incidental to, road construction, and forestry operations, as a *common carrier*, over irregular routes, between points in Ferry, Stevens, Pend Oreille, Lincoln, Spokane, Adams, Whitman, Franklin, Walla Walla, Columbia, Garfield, and Asotin Counties, Wash., and those in Idaho, Lewis, Nez Perce, Letah, Clearwater, Shoshone, Benewah, Kootenai, Bonner, and boundary Counties, Idaho, on the one hand, and, on the other, points in Washington, Oregon, Idaho, and Montana; *machinery, materials, supplies*, and *equipment*, used in or incidental to mining operations, between points in Ferry, Stevens, Pend Oreille, Lincoln, Spokane, Adams, Whitman, Franklin, Walla Walla, Columbia, Garfield, and Asotin Counties, Wash., on the one hand, and, on the other, points in Washington, Oregon, Idaho, and Montana, between points in Idaho, Lewis, Nez Perce, Latch, Clearwater, Shoshone, Benewah, Kootenai, Bonner, and Boundary Counties, Idaho, on the one hand, and, on the other, points in Washington and Idaho; *machinery*, which by reason of size or weight requires special equipment, between points in Washington, Oregon, Idaho, and Montana. CONSOLIDATED FREIGHTWAYS, INC., is authorized to operate as a *common carrier* in Oregon, Washington, California, Idaho, Utah, Montana, North Dakota, Minnesota, Michigan, Wisconsin, Arizona, Nevada, Illinois, Wyoming and Iowa. Application has not been filed for temporary authority under section 210a (b).

No. MC–F 6523. Authority sought for control by HOWARD E. LeFEVRE, 171 Riverside Drive, Newark, Ohio, of SERVICE MOTOR FREIGHT, INC., 700 Clements Bridge Road, Barrington, N. J. Applicant's attorney: Clarence D. Todd, 1825 Jefferson Place, N. W., Washington, D. C. Operating Rights sought to be controlled: *Corrugated pulpboard containers and sheets*, flat, or folded flat, as a *contract carrier* over irregular routes from Trenton, N. J., to points in Maryland, those in New York, except New York City, and those in Delaware except Wilmington; *pulpboard paper*, from Garwood, N. J., to Baltimore, Md.; *building materials*, except lumber, structural steel, and hardware, between Chester, Pa., on the one hand, and, on the other, certain points in Maryland, certain points in Delaware, certain points in New York, and points in New Jersey and the District of Columbia, and between Philadelphia, Pa., and Camden, N. J., on the one hand, and, on the other, Baltimore Md., points in New Jersey and the District of Columbia, certain points in Pennsylvania, certain points in Delaware, certain points in Maryland, and certain points in New York. HOWARD E. LeFEVRE is not a motor carrier but is principal stockholder of (a) B & L MOTOR FREIGHT, INC., and (b) ATLAS FREIGHT LINES, INC., both *contract carriers* located in Newark, Ohio, which are authorized to operate in (a) Ohio, Pennsylvania, West Virginia, Indiana, Kentucky, New York, Maryland, Illinois, Michigan, Wisconsin, Missouri, Kansas, Delaware, New Jersey, Connecticut, Massachusetts, Rhode Island and the District of Columbia and (b) Ohio, Michigan, New York, Pennsylvania, West Virginia, Massachusetts, Rhode Island, Connecticut, New Jersey, Maryland, Delaware, Virginia, Indiana, Kentucky, Tennessee, Wisconsin, Illinois, Missouri and the District of Columbia. Application has not been filed for temporary authority under section 210a (b).

No. MC–F–6524. Authority sought for control and merger by BOWMAN TRANSPORTATION, INC., 1010 Stroud Avenue, East Gadsden, Ala., of the operating rights and property of FULLER MOTOR LINES, INC., 1200 Shull Street, West Columbia, S. C., and for acquisition by RALPH M. BOWMAN, also of East Gadsden, Ala., of control of such rights and property through the transaction. Applicants' attorneys: H. Charles Ephraim, 1001 15th St., N. W., Washington, D. C., and R. J. Reynolds, Jr., 1403 C & S Bank Bldg., Atlanta 3, Ga. Operating rights sought to be controlled and merged: *General commodities*, with certain exceptions including household goods and commodities in bulk, as a *common carrier*, over irregular routes, between points in South Carolina, on the one hand, and, on the other, points in North Carolina. BOWMAN TRANSPORTATION, INC., is authorized to operate as a *common carrier* in Alabama, Tennessee, Georgia, South Carolina, Virginia, Maryland, Florida, North Carolina, Mississippi, Arkansas, Kentucky, Louisiana, Delaware, and West Virginia. Application has been filed for temporary authority under section 210a (b).

No. MC–F 6525. Authority sought for purchase by THURSTON MOTOR LINES, INC., Pender Street Extension, Wilson, N. C., of a portion of the operating rights of UNION STORAGE & WAREHOUSE COMPANY, INC., doing business as NORTH SOUTH LINES, 2501 North Tryon Street, Charlotte, N. C., and for acquisition by D. J. THURSTON, JR., also of Wilson, N. C., of control of such rights through the purchase. Applicants' representative: D. J. Thurston, Jr., P. O. Box 390, Wilson, N. C. Operating rights sought to be transferred: *General commodities*, with certain exceptions including household goods and commodities in bulk, as a *common carrier* over irregular routes, between Charlotte, N. C., on the one hand, and, on the other, points in South Carolina; *household goods*, between Charlotte, N. C., on the one hand, and, on the other, points in South Carolina. Vendee is authorized to operate as a *common carrier* in North Carolina, Virginia, Florida, South Carolina, and Tennessee. Application has not been filed for temporary authority under section 210a (b).

No. MC–F–6526. Authority sought for purchase by THOMPSON BROS., INC., 1225 6th Street, San Francisco, Calif., of the operating rights and property of MARION GOPCEVIC and LURAH VOUTE, doing business as DODD WAREHOUSE and DRAYAGE COMPANY, 190 Lombard Street, San Francisco, Calif., and for acquisition by JOHN H. KEMP, JR., also of San Francisco, Calif., of control of such rights and property through the purchase. Applicants' attorneys: Edward M. Berol, 100 Bush Street, San Francisco 4, Calif., and John G. Lyons, Mills Tower, San Francisco 4, Calif. Operating rights sought to be transferred: (a) *Quicksilver*, as a *common carrier*, over regular routes, from New Almaden Quicksilver Mines (near Almaden, Calif.) over unnumbered highways to San Jose, Calif., thence over U. S. Highway 101 to San Francisco, Calif., also from San Jose over U. S. Highway 101 to San Francisco, and thence over U. S. Highway 50 to Oakland, Calif., serving the intermediate and off-route points of San Francisco and Alameda, Calif., from New Almaden Quicksilver Mines to San Jose, Calif., as specified above, thence over California Highway 17 to Oakland, Calif., and thence over U. S. Highway 50 to San Francisco, serving the intermediate and off-route points of Alameda and Oakland, Calif., from Sonoma Quicksilver mines, (near Guerneville, Calif., over unnumbered highways to Guerneville, Calif., thence over California Highway 12 via Sebastopol, Calif., to Santa Rosa, Calif., thence over U. S. Highway 101 via Cotati and San Rafael, Calif., to San Francisco, and thence over U. S. Highway 50 to Oakland, from Sonoma Quicksilver Mines to Sebastopol as specified above, thence over unnumbered highway to Cotati, and thence to San Francisco as specified above, serving the intermediate and off-route points of San Francisco and Alameda, and from Sonoma Quicksilver Mines to San Rafael, Calif., as specified above, thence over unnumbered highways and the Richmond-San Rafael Ferry to Richmond, Calif., and thence over U. S. Highway 40 to Oakland, Calif., serving the off-route point of Alameda, Calif.; *bar solder*, from Sacramento, Calif., to the port of San Francisco, Calif., serving no intermediate points; *wooden bed frames*, from Port Chicago, Calif., to the port of San Francisco, Calif., serving no intermediate points; *general commodities*, with certain exceptions including household goods and those requiring refrigeration, over irregular routes, between points in San Francisco County, Calif.; *pears*, in seasonal operation from the 1st day of July to the 31st day of October both inclusive, from Kelseyville and Finley, Calif., to San Francisco, Oakland, Hopland, and Ukiah, Calif.; and (b) operations under the Second Proviso of section 206a (1) in the transportation of *general commodities*, with certain exceptions, as a *common carrier*, in the San Francisco Bay Area as more specifically described in said statement. Vendee is authorized to operate as both a *common* and *contract* carrier in California, and also under the Second Proviso of section 206a (1) in the State of California. Application has been filed for temporary authority under section 210a (b).

By the Commission.

[SEAL] HAROLD D. McCOY, *Secretary.*

FOURTH SECTION APPLICATIONS FOR RELIEF

MARCH 4, 1957.

Protests to the granting of an application must be prepared in accordance with Rule 40 of the general rules of practice (49 CFR 1.40) and filed within 15 days from the date of publication of this notice in the FEDERAL REGISTER.

LONG-AND-SHORT HAUL

FSA No. 33329: *Elbows and pipe—Pacific Coast points to New Orleans, La.* Filed by W. J. Prueter, Agent, for interested rail carriers. Rates on elbows and pipe, furnace, aluminum, straight or mixed carloads, also flue or vent pipe, boiler, furnace, radiator, stove or water heater, double wall, steel and aluminum, with or without steel or steel and aluminum fittings, in straight or mixed carloads from Pacific coast and intermediate points taking origin rate basis 1 and 4 in tariff named below, to New Orleans, La.

Grounds for relief: Circuitous routes through higher-rated destination groups.

Tariff: Supplement 60 to Agent Prueter's tariff I. C. C. 1574.

FSA No. 33330: *Fruits and vegetables—Pacific coast to Louisiana, Mississippi, and Tennessee points.* Filed by W. J. Prueter, Agent, for interested rail carriers. Rates on fruits, including prunes, dried or evaporated, straight or mixed carloads; also fresh frozen berries, fruits and vegetables, in mixed carloads under refrigeration from Pacific coast points and points intermediate thereto taking origin rate basis 1 and 4 in tariff named below to Jackson, Miss., Memphis, Tenn., and New Orleans, La., on frozen berries, fruits and vegetables, and Memphis and New Orleans on dried fruits.

Grounds for relief: Circuitous routes through higher-rated destination groups.

Tariff: Supplement 60 to Agent Prueter's tariff I. C. C. 1574.

FSA No. 33331: *Soda ash—Solvay and Syracuse, N. Y., to Illinois and Missouri.* Filed by O. E. Schultz, Agent, for interested rail carriers. Rates on soda ash, in bulk in cars, carloads, from Solvay and Syracuse, N. Y., to Chicago, Chicago Heights, Joliet, Alton, Wood River, East St. Louis, Ill., and St. Louis, Mo.

Grounds for relief: Market competition and circuitous routes.

Tariff: Supplement 12 to Agent C. W. Boin's I. C. C. A–1116.

FSA No. 33333: *Iron and steel articles—Buffalo, N. Y., group to points in trunk line territory.* Filed by H. R. Hinsch, Agent, for interested rail carriers. Rates on iron and steel articles, carloads from Buffalo, Black Rock and Suspension Bridge, N. Y., to specified points in Virginia, West Virginia, and Washington, D. C.

Grounds for relief: Circuitous routes over the Chesapeake and Ohio Railway System.

Tariff: Supplement 267 to Agent Hinsch's tariff I. C. C. 3422.

FSA No. 33334: *Stone-College and Pikeville, Tenn., to St. Louis, Mo.* Filed by F. C. Kratzmeir, Agent, for interested rail carriers. Rates on stone, carloads from College and Pikeville, Tenn., to St. Louis, Mo.

Grounds for relief: Circuitous routes in part west of the Mississippi River.

FSA No. 33335: *Substituted service-motor-rail-motor-C. & N. W.* Filed by Midwest Haulers, Inc., for itself and the Chicago Great Western Railway Company and Masters Fast Freight, Inc. Rates on freight loaded in highway trailers and transported on railroad flat cars between St. Paul and Minneapolis, Minn., on the one hand, and points in central states, middle Atlantic states, New England and middle west territories, on the other.

Grounds for relief: Motor truck competition.

AGGREGATE-OF-INTERMEDIATES

FSA No. 33332: *Soda Ash-Solvay and Syracuse, N. Y., to Illinois and Missouri.* Filed by O. E. Schultz, Agent, for interested rail carriers. Rates on soda ash, (other than modified soda-ash), in bulk in cars, carloads from Solvay and Syracuse, N. Y., to Chicago, Chicago Heights, Joliet, Alton, Wood River, East St. Louis, Ill., and St. Louis, Mo.

Grounds for relief: Maintenance of depressed market competitive rates from and to above named points without their use in constructing combination rates to points beyond not faced with same competition.

Tariff: Supplement 12 to Agent C. W. Boin's tariff I. C. C. A–1116.

By the Commission.

[No. 32076]

ARIZONA INTRASTATE FREIGHT RATES AND CHARGES

NOTICE OF INVESTIGATION AND ASSIGNMENT OF HEARING

At a session of the Interstate Commerce Commission, Division 2, held at its office in Washington, D. C., on the 25th day of February A. D. 1957.

It appearing that a petition dated November 23, 1956, has been filed on behalf of The Atchison, Topeka and Santa Fe Railway Company and Southern Pacific Company; common carriers by railroad operating to, from, and between points in Arizona in intrastate and interstate commerce, averring that in Ex Parte No. 168, Increased Freight Rates, 1948, 272 I. C. C. 695; 276 I. C. C. 9; Ex Parte No. 175, Increased Freight Rates, 1951, 281 I. C. C. 557; 284 I. C. C. 589; 298 I. C. C. 395; and Ex Parte No. 196, Increased Freight Rates 1956, 298 I. C. C. 279, the Commission authorized carriers subject to the Interstate Commerce Act parties thereto to make certain increases in their freight rates and charges for interstate application throughout the United States; and that increases under such authorizations have been made;

It further appearing, that the petitioners allege that the Arizona Corporation Commission has refused to authorize or permit them to apply to the transportation of the following commodities moving intrastate by railroad in Arizona increases in freight rates and charges thereon corresponding to those approved for interstate application in the proceedings above cited:

Ores and concentrates.
Manganese ore.
Livestock.
Lime rock.
High explosives.
Cottonseed meal.
Cottonseed cake.

It further appearing, that the petitioners allege that such refusals cause and result in undue and unreasonable advantage, preference, and prejudice as between persons and localities in intrastate commerce, on the one hand, and interstate commerce, on the other hand, and in undue, unreasonable, and unjust discrimination against interstate commerce in violation of section 13 of the Interstate Commerce Act;

It further appearing that there have been brought in issue by the said petition rates and charges made or imposed by authority of the State of Arizona;

And it further appearing, that the Arizona Corporation Commission on January 9, 1957, filed a reply to said petition:

It is ordered, That in response to the said petition, an investigation be, and it is hereby, instituted, and that a hearing be held therein for the purpose of receiving evidence from the respondents hereinafter designated and any other interested persons to determine whether the rates and charges of the common carriers by railroad, or any of them, operating in the State of Arizona, for the intrastate transportation of property made or imposed by authority of the State of Arizona, cause or will cause, by reason of the failure of such rates and charges to include increases corresponding to those permitted by this Commission for interstate traffic in said Ex Parte Nos. 168, 175 and 196, *supra*, any undue or unreasonable advantage, preference, or prejudice as between persons or localities in intrastate commerce, on the one hand, and interstate or foreign commerce, on the other hand, or any undue, unreasonable, or unjust discrimination against interstate or foreign commerce, and to determine what rates and charges, if any, or what maximum, or minimum, or maximum and minimum rates and charges shall be prescribed to remove the unlawful advantage, preference, prejudice, or discrimination, if any, that may be found to exist;

It is further ordered, That all common carriers by railroad operating within the State of Arizona which are subject to the jurisdiction of this Commission be, and they are hereby, made respondents to this proceeding; that a copy of this order be served upon each of the said respondents; and that the State of Arizona be notified of the proceeding by sending copies of this order and of said petition by registered mail to the Governor of the said State and to the Arizona Corporation Commission at Phoenix, Ariz.;

It is further ordered, That notice of this proceeding be given to the public by depositing a copy of this order in the office of the Secretary of the Commission, at Washington, D. C., for public inspection, and by filing a copy with the Director, Division of the Federal Register, Washington, D. C.;

And it is further ordered, That this proceeding be, and the same is hereby, assigned for hearing on April 1, 1957, at 9:30 o'clock a. m., U. S. Standard Time, at the offices of the Arizona Corporation Commission, Phoenix, Arizona, before Examiner William J. Sweeney, Jr.

By the Commission, Division 2.

[SEAL] HAROLD D. McCOY, *Secretary.*

FOURTH SECTION APPLICATIONS FOR RELIEF

MARCH 1, 1957.

Protests to the granting of an application must be prepared in accordance with Rule 40 of the general rules of practice (49 CFR 1.40) and filed within 15 days from the date of publication of this notice in the FEDERAL REGISTER.

LONG-AND-SHORT HAUL

FSA No. 33323: *Less than carload volume class rates in Official Territory.* Filed by O. E. Schultz, Agent, for interested rail carriers. Rates on various commodities moving on less than carload volume class rates between points in official (including Illinois) territory in connection with the Indiana Harbor Belt Railroad Company.

Grounds for relief: Short-line distance formula and circuity.

Tariff: Supplement 18 to Agent C. W. Boin's tariff I. C. C. A–1051.

FSA No. 33324: *Gypsum products—From Akron and Wheatland, N. Y.* Filed by O. E. Schultz, Agent, for interested rail carriers. Rates on gypsum and plaster blocks, planks, slabs and tile, carloads from Akron and Wheatland, N. Y., to specified points in states in southwestern and western trunk-line territories.

Grounds for relief: Modified short-line distance formulas and circuitous routes.

Tariffs: Supplement 47 to Agent C. W. Boin's tariff I. C. C. A–1034 and four other tariffs.

FSA No. 33325: *Sugar (returned shipments) from and to points in Southern Territory.* Filed by O. W. South, Jr., Agent, for interested rail carriers. Rates on sugar, beet or cane, liquid or invert, tank-car loads, and sugar beet or cane in bulk moving in a self-clearing permanently enclosed car, as further described in the application from points in southern, official Illinois, Western trunk-line and southwestern territories to points in southern territory returned to original point of shipment.

Grounds for relief: Carrier competition and circuity.

Tariffs: Supplement 11 to Alternate Agent J. H. Marque's I. C. C. 445 and two other tariffs.

FSA No. 33326: *Fine coal—Southwestern mines to Aladdin and East Waterloo, Iowa.* Filed by F. C. Kratzmeir, Agent, for interested rail carriers. Rates on fine screened coal, carloads from specified points in Arkansas, Kansas, Missouri, and Oklahoma to Aladdin and East Waterloo, Iowa.

Grounds for relief: Market competition and circuity.

Tariff: Supplement 41 to Agent W. J. Prueter's I. C. C. A–3969. Supplement 141 to Agent F. C. Kratzmeir's I. C. C. 3920.

FSA No. 33327: *Gravel—Cayuga, Ind., to Neoga, Ill.* Filed by R. G. Raasch, Agent, for the New York, Chicago and St. Louis Railroad Company. Rates on gravel, road surfacing, screened, carloads from Cayuga, Ind., to Neoga, Ill.

Grounds for relief: Competition of motor carriers from wayside pits to job sites.

Tariff: Supplement 39 to New York, Chicago and St. Louis Railroad Company's tariff I. C. C. 6210.

FSA No. 33328: *Foreign woods—South Atlantic and Virginia ports to North Carolina.* Filed by O. W. South, Jr., Agent, for interested rail carriers. Rates on lumber, logs, built-up wood, flitches and piling, and veneer of foreign woods, carloads from Charleston, S. C.; Savannah and Port Wentworth, Ga., Morehead City and Wilmington, N. C., Norfolk, Newport News and Richmond, Va., to specified points in North Carolina.

Grounds for relief: Circuitous routes.

Tariff: Supplement 178 to Agent C. A. Spaninger's tariff I. C. C. 1369.

By the Commission.

[SEAL] HAROLD D. McCOY, *Secretary.*

PART 301—APPLICATIONS

SUBPART B—VETERANS' PREFERENCE

Subpart B in Part 301 of Title 6, Code of Federal Regulations (20 F. R. 2413) is revised to read as follows:

Sec.
301.21 General.
301.22 Persons entitled to veterans' preference.

AUTHORITY: §§ 301.21 and 301.22 issued under R. S. 161, sec. 41 (1), 60 Stat. 1066, sec. 6 (3), 50 Stat. 870, sec. 510 (g), 63 Stat. 493; 5 U. S. C. 22, 7 U. S. C. 1015 (i), 16 U. S. C. 590w, 42 U. S. C. 1480 (g). Interpret or apply sec. 1 (b) (2), 60 Stat. 1073, as amended, sec. 507, 63 Stat. 435, as amended; 7 U. S. C. 1001 (b) (2), 42 U. S. C. 1477.

§ 301.21 *General.* This subpart defines the types of individuals who are entitled to veterans' preference in connection with making Farm Ownership, Farm Housing, Soil and Water Conservation, and Operating loans.

§ 301.22 *Persons entitled to veterans' preference.* Veterans' preference will be extended to any person who applies for a Farm Ownership, Farm Housing, Soil and Water Conservation, or Operating loan, provided the applicant has been discharged or released from the active forces of the United States Army, Navy, Air Force, Marine Corps, or Coast Guard under conditions other than dishonorable, and served in any such forces during (a) the period April 6, 1917, through March 31, 1921, or (b) the period December 7, 1941, through January 31, 1955. For Farm Housing loans, the spouses and children of deceased servicemen also will be given preference. "Deceased servicemen" means men or women who died in service during one of the periods specified in this section.

Dated: March 1, 1957.

[SEAL] H. C. SMITH,
Acting Administrator,
Farmers Home Administration.

security or from the sale or rental of real estate security, will be distributed in accordance with the following principles:

(i) First, distribute to other than real estate loans an amount equivalent to any advances for the year's operating expenses.

(ii) Second, distribute to the real estate and other Farmers Home Administration loans in proportion to the approximate amounts due on each for the year. In determining the amounts due for the year on other than real estate loans, deduct an amount equivalent to any advances for the year's operating expenses.

(iii) Third, distribute to the real estate and other Farmers Home Administration loans in proportion to the delinquencies existing on each.

(iv) Fourth, distribute to the real estate and other Farmers Home Administration loans for making advance payments. In making such distribution take into consideration the principal balance outstanding on each, the relative security position of each type of loan, the borrower's wishes and other related circumstances.

(2) In individual cases in which the accounts are out of balance because of improper distribution of collections in the past or in which the interests of the Government cannot be properly protected by distribution of collections as provided above, distribution will be made so as to correct such improper distribution and to protect the Government's interest. However, collections received during the first five years of the Farm Housing loan from section 503 Farm Housing borrowers will be distributed in accordance with §§ 361.101 to 361.104.

(R. S. 161, sec. 6 (3), 50 Stat. 870, sec. 41 (1), 60 Stat. 1066, sec. 510 (g), 63 Stat. 438, sec. 4 (c), 64 Stat. 100, sec. 1 (4), 68 Stat. 735; 5 U. S. C. 22, 16 U. S. C. 590w (3), 7 U. S. C. 1016 (1), 42 U. S. C. 1480 (g), 40 U. S. C. 422 (c), 16 U. S. C. 590x–3 (a) (7))

Dated: March 4, 1957.

[SEAL] K. H. HANSEN,
Administrator,
Farmers Home Administration.

[F. R. Doc. 57–1765; Filed, Mar. 7, 1957; 8:49 a. m.]

TITLE 7—AGRICULTURE

Chapter III—Agricultural Research Service, Department of Agriculture

PART 354—OVERTIME SERVICES RELATING TO IMPORTS AND EXPORTS

AMENDMENT OF ADMINISTRATIVE INSTRUCTIONS PRESCRIBING COMMUTED TRAVEL TIME ALLOWANCES

Pursuant to the authority conferred upon the Director of the Plant Quarantine Division by § 354.1 of the regulations concerning overtime services relating to imports and exports, effective July 15, 1955 (7 CFR 354.1), administrative instructions (7 CFR 354.2; 21 F. R. 3865) effective June 6, 1956, prescribing the commuted travel time that shall be included in each period of overtime duty are hereby amended to add "Barbers Point Station, T. H. (when served from Barbers Point Station, T. H.)" to the "One Hour" list therein and to add "Barbers Point Station, T. H. (when served from Honolulu, T. H.)" to the "Two Hours" list therein.

These commuted travel time periods have been established as nearly as may be practicable to cover the time necessarily spent in reporting to and returning from the place at which the employee performs such overtime duty when such travel is performed solely on account of such overtime duty. Such establishment depends upon facts within the knowledge of the Plant Quarantine Division. It is to the benefit of the public that these instructions be made effective at the earliest practicable date. Accordingly, pursuant to the provisions of section 4 of the Administrative Procedure Act (5 U. S. C. 1003), it is found upon good cause that notice and public procedure on these instructions are impracticable, unnecessary, and contrary to the public interest, and good cause is found for making these instructions effective less than thirty days after publication in the FEDERAL REGISTER.

(64 Stat. 561, 5 U. S. C. 576)

This amendment shall be effective March 8, 1957.

Done at Washington, D. C., this 5th day of March 1957.

[SEAL] E. P. REAGAN,
Director,
Plant Quarantine Division.

[F. R. Doc. 57–1788; Filed, Mar. 7, 1957; 8:54 a. m.]

TITLE 8—ALIENS AND NATIONALITY

Chapter I—Immigration and Naturalization Service, Department of Justice

MISCELLANEOUS AMENDMENTS

The following amendments to Chapter I of Title 8 of the Code of Federal Regulations are hereby prescribed:

PART 212—DOCUMENTARY REQUIREMENTS FOR NONIMMIGRANTS; ADMISSION OF CERTAIN INADMISSIBLE ALIENS; PAROLE

1. Subparagraph (1) of paragraph (b) of § 212.3 *Nonimmigrants not required to present passports, visas, or border-crossing identification cars* is amended to read as follows:

(1) An alien who is being transported by bus, railroad, or air in immediate and continuous transit through the United States directly from one part of Canada to another or from one part of Mexico to another, without stopover, in accordance with the terms of a contract, including a bonding agreement, entered into by the transportation line and the Attorney General under the provisions of section 238 (d) of the act: *Provided*, That at all times such alien is in transit through the United States, and is not aboard an aircraft which is in flight through the United States, he shall be in the custody of an officer of the United States, or in such other custody as may be approved by the Attorney General.

2. Section 212.4 is added to read as follows:

§ 212.4 *Nonimmigrants required to present visas or border-crossing identification cards but not passports.* (a) The provisions of section 212 (a) (26) (A) of the act relating to the requirement of valid passports for nonimmigrants have been waived by the Secretary of State and the Attorney General, acting jointly, in pursuance of the authority contained in section 212 (d) (4) (A) of the act in the individual cases of aliens who fall within the following-described category, which is hereby declared to be an unforeseen emergency within the purview of that section:

(1) An alien who is described in section 212 (d) (8) of the act, and who is in possession of a travel document which is valid for at least 30 days from the date of his admission into the United States for his entry into a foreign country.

3. Paragraph (b) of § 212.5 *Nonimmigrants required to present passports but not visas or border-crossing identification cards* is amended by adding a new subparagraph (6) to read as follows:

(6) An alien who is a resident of Greenland and who makes application for admission into the United States.

PART 214k—ADMISSION OF AGRICULTURAL WORKERS UNDER SPECIAL LEGISLATION

Section 214k.3 is amended by adding a new paragraph (e) and redesignating existing paragraph (e) as (f) so that when taken with the introductory material paragraphs (e) and (f) will read as follows:

§ 214k.3 *Conditions of admission.* Any alien who applies for admission into the United States under the provisions of Title V of the Agricultural Act of 1949, as amended, and the provisions of this part must:

* * * * * *

(e) At all times carry with him and have in his personal possession the Form I–100 issued to him at the time of his admission, pursuant to § 214k.22 (a); and

(f) Establish to the satisfaction of the examining immigration officer that, if admitted, he will comply with all of the conditions of such admission.

PART 235a—PREEXAMINATION OF ALIENS WITHIN THE UNITED STATES

The first sentence of § 235a.1 *Application* is amended to read as follows: "Any alien, except a citizen of Canada, Mexico, or islands adjacent to the United States, who entered the United States prior to January 1, 1957, and has been continuously physically present in the United States since that date, shall apply for preexamination on Form I–63 if he intends to apply to a consular officer of the United States in Canada for an immigrant visa and he believes that he will be admissible to the United States under all the provisions of the immigration laws if in possession of an immigrant visa; that he will be able to obtain the prompt issuance of an immigrant visa, and that he is a person of good moral character."

PART 242—PROCEEDINGS TO DETERMINE DEPORTABILITY OF ALIENS IN THE UNITED STATES: APPREHENSION, CUSTODY, HEARING, AND APPEAL

1. The first sentence of paragraph (c) *Service* of § 242.1 *Order to show cause and notice of hearing* is amended to read as follows: "Service of the order to show cause shall be made by having a copy delivered to the respondent by an immigration officer or by mailing it to the respondent at his last known address by certified or registered mail, return receipt requested."

2. Paragraph (a) of § 242.17 *Decision of special inquiry officer* is amended to read as follows:

(a) *Contents.* The decision of the special inquiry officer may be oral or written. Except in cases where deportability is determined on the pleadings pursuant to § 242.16 (b), the decision shall include a summary of the evidence and shall set forth findings of fact and conclusions of law as to deportability. Adoption by the special inquiry officer of the factual allegations and charges in the order to show cause shall constitute the setting forth of findings of fact and conclusions of law within the meaning of this paragraph. The decision shall also contain a discussion of the evidence relating to the respondent's eligibility for any discretionary relief requested and the reasons for granting or denying the application. The decision shall be concluded with the order of the special inquiry officer.

PART 292—ENROLLMENT AND DISBARMENT OF ATTORNEYS AND REPRESENTATIVES

Section 292.12 is amended to read as follows:

§ 292.12 *Service of decision and other papers.* Except where specific provision is otherwise made in this chapter, whenever a decision, notice or other paper is required to be given or served, it shall be done by personal service, or certified or registered mail upon the person designated in § 292.11.

PART 332—PRELIMINARY INVESTIGATION OF APPLICANTS FOR NATURALIZATION AND WITNESSES

The third sentence of § 332.14 *Notice of proposed recommendation of denial; findings, conclusion, and recommendation* is amended to read as follows: "The notice and a copy of the memorandum shall be sent the petitioner by certified mail, return receipt requested, after review of the recommendation by the regional commissioner, if made, and at least thirty days prior to final hearing."

PART 335—PRELIMINARY EXAMINATION ON PETITIONS FOR NATURALIZATION

The second sentence of paragraph (a) *Recommendation that petition be denied* of § 335.13 *Notice of recommendation of designated examiner* is amended to read as follows: "The notice shall be sent by certified mail, with return receipt requested, after any review made by the regional commissioner and at least thirty days prior to final hearing."

PART 338—CERTIFICATE OF NATURALIZATION

The fifth sentence of § 338.16 *Correction of certificates* is amended to read as follows: "The district director shall forward such duplicate to the official Service file."

(Sec. 103, 66 Stat. 173)

This order shall become effective on the date of its publication in the FEDERAL REGISTER. Compliance with the provisions of section 4 of the Administrative Procedure Act (60 Stat. 238; 5 U. S. C. 1003) as to notice of proposed rule making and delayed effective date is unnecessary in this instance because the rules prescribed by the order, other than those which relieve restrictions and are clearly advantageous to persons affected thereby, relate to agency procedure.

Dated: February 27, 1957.

J. M. SWING,
Commissioner of Immigration and Naturalization.

[F. R. Doc. 57–1618; Filed, Mar. 7, 1957; 8:45 a. m.]

TITLE 22—FOREIGN RELATIONS

Chapter I—Department of State

[Dept. Reg. 108.311]

PART 41—VISAS: DOCUMENTATION OF NONIMMIGRANT ALIENS UNDER THE IMMIGRATION AND NATIONALITY ACT

NONIMMIGRANT DOCUMENTARY WAIVERS

Part 41, Chapter I, Title 22 of the Code of Federal Regulations, is amended in the following respects:

1. Subparagraph (1) of paragraph (b) of § 41.6 *Nonimmigrant not required to present passports, visas, or border crossing identification cards,* is amended to read as follows:

(1) An alien who is being transported by bus, railroad, or air in immediate and continuous transit through the United States directly from one part of Canada to another or from one part of Mexico to another, without stopover, in accordance with the terms of a contract, including a bonding agreement, entered into by the transportation line and the Attorney General under the provisions of section 238 (d) of the act: *Provided,* That at all times such alien is in transit through the United States, and is not aboard an aircraft which is in flight through the United States, he shall be in the custody of an officer of the United States, or in such other custody as may be approved by the Attorney General.

2. Paragraph (b) of § 41.7 *Nonimmigrants required to present passports but not visas or border crossing identification cards,* is amended by the addition of the following subparagraph at the end thereof:

(6) An alien who is a resident of Greenland and who makes application for admission into the United States.

3. Part 41 is further amended by redesignating § 41.8 *Nonimmigrants exempted by law or treaty from the requirement of passports, visas, and border crossing identification cards,* as § 41.22, and by the addition of a new section reading as follows:

§ 41.8 *Nonimmigrants required to present visas or border crossing identification cards but not passports.* The provisions of section 212 (a) (26) (A) of the act relating to the requirement of valid passports for nonimmigrants are waived by the Secretary of State and the Attorney General, acting jointly, in pursuance of the authority contained in section 212 (d) (4) (A) of the act, in the individual cases of aliens who fall within the following-described category, which is hereby declared to be an unforeseen emergency within the purview of that section:

(a) An alien who is described in section 212 (d) (8) of the act, and who is in possession of a travel document which is valid for at least thirty days from the date of his admission into the United States for his entry into a foreign country.

The regulation contained in this order shall become effective upon publication in the FEDERAL REGISTER. The provisions of section 4 of the Administrative Procedure Act (60 Stat. 238; 5 U. S. C. 1003) relative to notice of proposed rule making and delayed effective date are inapplicable to this order because the regulations contained therein involve foreign affairs functions of the United States.

(Sec. 104, 66 Stat. 174; 8 U. S. C. 1104)

Dated: February 20, 1957.

SCOTT MCLEOD,
Administrator, Bureau of Security and Consular Affairs, Department of State.

Dated: February 27, 1957.

J. M. SWING,
Commissioner of Immigration and Naturalization, Immigration and Naturalization Service, Department of Justice.

[F. R. Doc. 57–1749; Filed, Mar. 7, 1957; 8:45 a. m.]

TITLE 32A—NATIONAL DEFENSE, APPENDIX

Chapter I—Office of Defense Mobilization

[Defense Mobilization Order VII–7 (Revised)]

DMO VII–7—MAINTENANCE OF THE MOBILIZATION BASE (DEPARTMENT OF DEFENSE, ATOMIC ENERGY COMMISSION AND THE MARITIME ADMINISTRATION)

Pursuant to the authority vested in me by Executive Order 10480 of August 14, 1953, Defense Mobilization Order VII–7 as amended (19 F. R. 5395, 7350, 7641, 20 F. R. 5777 and 21 F. R. 197) is hereby revised to read as follows:

1. A sustained state of mobilization production readiness is necessary to place the United States in a defense posture which will enable the nation to defend itself against aggression in peripheral conflicts or general war involving nuclear attack on this country. Therefore, the facilities, machine tools, production equipment, and skilled workers necessary to produce the wartime requirements of the Department of Defense, Atomic Energy Commission, and the Maritime Administration shall be maintained in a state of readiness which will facilitate their immediate use or conversion in time of emergency, with especial emphasis on measures to maximize the probability of continued post-attack production of those items judged to be vital to survival and victory.

2. Selection of the mobilization base:

A. The Department of Defense shall select, for its mobilization base, facilities which produce or are capable of producing critically important military items or components (military class A components used entirely in the production, maintenance, or repair of military items) which meet one of the following:

(1) Those items which would be so urgent to the defense of this country that utmost effort must be exerted to produce them even in case of general war involving severe damage to the facilities necessary to produce these items and the components thereof.

(2) Those items essential to survival and retaliation, maintenance of health, or combat efficiency required to support peripheral war and which meet one or more of the following criteria:

a. Items requiring a long lead-time or long manufacturing cycle.

b. Items currently not in production or which are required in quantities far in excess of peacetime production.

c. Items requiring the conversion of an industry or a number of plants within an industry.

d. Items requiring materials or manufacturing processes essentially different from those in current use.

e. Items for which industry does not have production experience.

Subparagraph (2) above is inclusive of the Department of Defense Preferential Planning List of End Items.

B. In selecting facilities for the Department of Defense mobilization base, consideration shall be given to their vulnerability to nuclear attack, with particular attention to the possibility of (a) minimizing vulnerability of facilities producing "urgent" items under subparagraph (A) (1) above, including the need for dispersal, protective construction, and special security measures to safeguard against sabotage or clandestine attack, and (b) reducing concentration of uncommon critical production facilities so that a productive segment of each critical industry would be likely to survive a nuclear attack.

C. The Atomic Energy Commission and the Maritime Administration, in cooperation with the Office of Defense Mobilization, shall determine the items and facilities which meet the above criteria for their respective programs for maintaining the mobilization base.

3. Maintaining the mobilization base:

A. Facilities selected to produce "urgent" items shall be maintained within limits of existing procurement authority and funds available by the Department of Defense, The Atomic Energy Commission, and the Maritime Administration in the following manners to the maximum practical degree:

(1) Current procurement shall be placed in these facilities to the extent which will maintain them in a state of readiness compatible with the plans of the procuring agency.

(2) Machine tools and production equipment will be installed in these facilities to the extent found necessary by the procuring agency.

(3) Develop and maintain plans for alternate production capacity in case disaster destroys current facilities, such capacity to be located to the maximum extent possible away from highly concentrated industrial areas and major military installations.

B. Other facilities selected as part of the mobilization base, shall be maintained to the fullest extent possible.

(1) Procurement agencies shall integrate current procurement with their industrial mobilization plans to the greatest possible extent with the objective of supporting the mobilization base within authorities and funds available.

(2) Data assembled on essential mobilization suppliers by the industrial mobilization planning of these agencies shall be used in planning current procurement. The policy of using contractors and facilities essential to the mobilization base is considered to be in the best interest of the Government.

(3) Planned producers that are deemed to be a part of the mobilization base will be invited to participate in appropriate current procurement.

(4) Upon expiration of curent procurement contracts in a facility, the procuring agency shall take such of the following actions as are compatible with its plans for maintaining a state of readiness:

a. *Government-owned facilities and tools.* Within the limitations that may be imposed by Congressional appropriations, place government-owned facilities and tools in standby status and establish provisions for their adequate maintenance. This does not preclude the use of government-owned production equipment, on a loan basis, to enable the military departments to meet current production schedules, as provided in DMO–VII–4, Amendment 1.

b. *Privately-owned facilities and government-owned tools.* 1. Arrange with management of privately-owned facilities, wherever possible, to place government-owned tools and production equipment in the status provided by DMO–VII–4, as amended, taking into account the desirability of safe location.

2. Arrange with management, on a voluntary basis, to keep a group of key managers, engineers, and skilled workers familiar with the items planned for mobilization production.

3. Determine the gaps which exist in government-owned packages of tools and production equipment needed to produce mobilization requirements in privately-owned plants. Within the limit of fund availability, plan the procurement of such tools and equipment with priority being given to long lead-time tools and equipment or those not used in general manufacturing. These tools and equipment, when procured, should be placed in the status provided by DMO–VII–4, as amended, taking into account the desirability of safe locations.

4. Determine which government-owned tools and equipment have become obsolete, or which would not be used in event of mobilization, and plan for their disposal in accordance with the provisions of DMO–VII–4, as amended.

4. Achieving production readiness:

A. In order to achieve a capability for maximum production of "urgent" items during the initial phase of war, the following readiness measures shall be taken where advisable for facilities producing such items:

(1) Establishment of emergency production schedules.

(2) Development of a production capability which would function under widespread disruption and damage imposed by enemy attack, including, where necessary:

a. Maintenance of an increased inventory of finished components and related production supplies at assembly plants, or arrangements for alternative supply lines where increased inventories are not feasible.

b. A capability to carry on urgent production without dependence on additional personnel, external sources of power, fuel, and water, or on long-distance communications; with spare replacements for highly vulnerable or unreliable parts of production equipment.

c. Protection of production facilities from enemy sabotage through adequate physical security measures.

d. Protection of personnel from widespread radiological fallout through provisions for decontamination and shelter.

5. Retention of industrial facilities:

A. Industrial properties, owned by the Department of Defense, the Atomic Energy Commission, and the Maritime Administration, shall be retained in the Industrial reserves (National Industrial Reserve, Departmental Industrial Reserve for the Department of Defense)

of the department and agencies to the extent the capacity of said reserves is necessary for the production of defense or defense-supporting end items, materials or components in a mobilization period.

B. Each idle plant in the reserves shall be reviewed annually by the heads of the respective agencies to determine if the capacity of the plant continues necessary for mobilization purposes.

C. Upon the determination by the head of the agency that the capacity of a plant is excess to the mobilization requirements of the agency, immediate steps will be taken to dispose of the plant through existing government channels for surplus disposal. The Office of Defense Mobilization shall be informed by General Services Administration of each proposed surplus action prior to final determination.

6. Establishment of the Defense Facilities Maintenance Board:

A. To provide the necessary coordination and review of the execution of this program, there is hereby established a Defense Facilities Maintenance Board. This Board, under the Chairmanship of the Office of Defense Mobilization, shall be composed of representatives of the Department of Defense and each of the three services, the Department of Commerce, the Atomic Energy Commission, the General Services Administration, and the Small Business Administration, and will perform the following functions:

(1) Recommend to the Director of the Office of Defense Mobilization policy necessary to carry out the mobilization base maintenance program.

(2) Establish the interagency procedure necessary to assure and measure progress in implementing established policy, and advise the Director of the Office of Defense Mobilization on the status of the program.

(3) Make recommendations to the Director of the Office of Defense Mobilization as to additional methods and procedures beyong the authorities of the procuring agencies for assuring the maintenance of both government-owned and privately-owned facilities essential to the mobilization base.

B. The Board may at any time request the Director of the Office of Defense Mobilization to ask the heads of other departments and agencies to designate representatives to meet with the Board on specific problems.

7. The Department of Defense, Atomic Energy Commission, and Maritime Administration shall furnish the Director of the Office of Defense Mobilization with reports on items and facilities for programs under 2.A. and 2.C. above, and with such other periodic and special reports as he may require affecting the maintenance of the mobilization base.

8. This revised order shall take effect on March 6, 1957.

OFFICE OF DEFENSE MOBILIZATION
ARTHUR S. FLEMMING,
Director.

[F. R. Doc. 57-1812; Filed, Mar. 6, 1957; 12:59 p. m.]

TITLE 46—SHIPPING

Chapter I—Coast Guard, Department of the Treasury

Subchapter D—Tank Vessels

[CGFR 57-8]

PART 38—LIQUEFIED INFLAMMABLE GASES[1]

SCOPE OF REGULATIONS

Notices regarding proposed changes in the navigation and vessel inspection regulations were published in the FEDERAL REGISTER dated March 1, 1956 (21 F. R. 1350-1356), and March 28, 1956 (21 F. R. 1901, 1902), as Items I through XVIII of the Agenda to be considered by the Merchant Marine Council at a public hearing which was held on April 24, 1956, at Washington, D. C. This document is the seventh of a series covering the regulations considered at this public hearing. The first two documents contain dangerous cargo regulations. The third document contains miscellaneous amendments to the vessel inspection regulations. The fourth document contains miscellaneous amendments to the marine engineering and electrical regulations. The fifth document contains amendments to merchant marine personnel regulations. The sixth document deals with access to and release of information from marine safety records.

All the comments, views, and data submitted in connection with the items considered by the Merchant Marine Council at this public hearing have been very helpful to the Coast Guard and are very much appreciated. On the basis of the information received certain proposed regulations were revised and others rejected. With respect to Item III—Transportation of Liquefied Inflammable Gases, no change was made in the proposed regulations. The publication of the change in the FEDERAL REGISTER was delayed, however, until "Tentative Requirements for the Transportation of Liquefied Inflammable Gases at or Near Atmospheric Pressure" were available for public distribution upon request. The change in 46 CFR 38.01-1 will permit the development of initial proposals to permit the transportation of liquefied gases at atmospheric pressure in gravity type cargo tanks. The Commandant will exercise discretionary power to consider and evaluate different methods of shipment which may be proposed by the industry.

By virtue of the authority vested in me as Commandant, United States Coast Guard, by Treasury Department Order No. 120, dated July 31, 1950 (15 F. R. 6521), Treasury Department Order 167-14, dated November 26, 1954 (19 F. R. 8026), and Treasury Department Order CGFR 56-28, dated July 24, 1956 (21 F. R. 5659), to promulgate regulations in accordance with the statutes cited with the regulations below, the following amendment to § 38.01-1 is prescribed and shall become effective 90 days after the date of publication of this document in the FEDERAL REGISTER:

[1] This heading is amended by changing the word "petroleum" to "inflammable."

§ 38.01-1 *Scope of regulations—TB/ALL.* (a) The regulations in this part contain requirements for the transportation in fixed, independent, pressure-vessel type cargo tanks of liquefied inflammable gases in bulk, except as otherwise provided for in paragraph (b) of this section.

(b) When liquefied inflammable gases are to be transported at their boiling temperatures at or near atmospheric pressure, the Commandant may permit the use of alternate methods of storage if it is shown to his satisfaction that a degree of safety is obtained consistent with the minimum requirements of this part.

(c) The regulations covering the transportation in portable tanks of liquefied inflammable gases are contained in Parts 146 and 147 of Subchapter N (Explosives or Other Dangerous Articles on Board Vessels) of this chapter.

(R. S. 4405, as amended, 4417a, as amended, 4462, as amended; 46 U. S. C. 375, 391a, 416. Interprets or applies sec. 3, 68 Stat. 675; 80 U. S. C. 198; E. O. 10402, 17 F. R. 9917, 3 CFR 1952 Supp.)

Dated March 1, 1957.

[SEAL] A. C. RICHMOND,
Vice Admiral, U. S. Coast Guard, Commandant.

[F. R. Doc. 57-1781; Filed, Mar. 7, 1957; 8:52 a. m.]

TITLE 47—TELECOMMUNICATION

Chapter I—Federal Communications Commission

[Docket No. 11747; FCC 57-180]

[Rules Amdt. 3-55]

PART 3—RADIO BROADCAST SERVICES

TABLE OF ASSIGNMENTS, TELEVISION BROADCAST STATIONS

In the matter of amendment of § 3.606, Table of Assignments, Television Broadcast Stations (Springfield, Illinois-St. Louis, Missouri).

1. The Commission has before it for consideration the proposals set out in its Notice of Proposed Rule Making issued in this proceeding on June 26, 1956, and subsequent further Notices, for the reallocation of television channels in the Springfield, Illinois, and St. Louis, Missouri, areas. Interested parties have been afforded an opportunity to submit comments directed to the Commission's proposals and to advance counterproposals, and we are now in a position to issue our Report.

2. The Commission last June issued its Report and Order in the general television allocation proceeding in Docket No. 11532 outlining a long-range program designed to improve the television allocation structure. At the same time we considered what action might be taken to improve the opportunities for more effective competition among a greater number of stations in individual communities and areas pending a resolution of the long-range program, which will require some years to implement. In furtherance of this interim program a number of rule making proceedings such as the instant one have been initiated proposing channel changes for various communities.

3. With respect to Springfield, the Commission proposed to deintermix the area by shifting VHS Channel 2 from Springfield to St. Louis, Missouri, and to add UHF Channel 39 to Springfield, as follows:

City	Channel No.	
	Present	Proposed
Springfield, Ill.	2, 20, *66.	20, 39, *66.
St. Louis, Mo.	4, 5, *9, 11, 30, 36, 42.	2, 4, 5, *9, 11, 30, 36, 42.
Lincoln, Ill.	53.	49.

*Reserved for education.

On July 25, 1956, the Commission issued a Notice of Further Proposed Rule Making in the Springfield proceeding concluding that the public interest would be served by assigning an additional UHF channel to Springfield and proposing to add Channel 26 as a third commercial UHF outlet. Subsequently, on October 12, 1956, the Commission issued a second Notice of Further Proposed Rule Making noting that Channel 36 has been in operation at St. Louis for some time and that there are many TV sets in the hands of the public in the area between St. Louis and Springfield capable of receiving this channel, and inviting parties to comment on a proposal to assign Channel 36 to Springfield by deleting it from St. Louis instead of adding Channel 39 to Springfield. This proposal, it was pointed out, can be accomplished as follows:

City	Channel No.	
	Present	Proposed
Springfield, Ill.	2, 20, *66.	20, 26, 36, *66.
St. Louis, Mo.	4, 5, *9, 11, 30, 36, 42.	2, 4, 5, *9, 11, 20, 42.
Jacksonville, Ill.	29.	49.
Davenport, Iowa-Rock Island-Moline, Ill.	4, 6, *30, 36, 42.	4, 6, *30, 42, 68.

*Reserved for education.

Signal Hill Telecasting Corporation operates Station KFVI on Channel 36 in St. Louis, and the Commission advised that any additional proceedings which may be necessary in order to delete KTVI's present frequency would be instituted at a later date.

4. On November 6, 1956, the Commission issued a Memorandum Opinion and Order in this proceeding with respect to a petition filed by Plains Television Corporation seeking to amend the Commission's proposal to include the assignment of Channel 2 to Terre Haute, Indiana, in addition to St. Louis, as follows:

City	Channel No.	
	Present	Proposed
Terre Haute	10, *57, 63, 78.	2, 10, *57, 63, 78.

*Reserved for education.

The Commission stated that this request should be considered in conjunction with the subject proceeding and that there was no necessity for amending the Notice of Rule Making or for instituting further rule making to incorporate the Terre Haute proposal, and that Plains could fully prosecute the proposal to shift Channel 2 from Springfield to Terre Haute as well as to St. Louis as a counterproposal in the proceeding.

5. In addition to the foregoing proposals, Cape Girardeau Television Company submitted a counterproposal urging that Channel 2 be assigned to Cape Girardeau, Missouri, rather than St. Louis; and Wabash Valley Broadcasting Corporation, operator of Station WTHI-TV on Channel 10 in Terre Haute, submitted a counterproposal urging that Channel 2 be assigned to Salem, Illinois, and Salem, Missouri, instead of St. Louis and Terre Haute.

6. Comments have been filed by interested parties; Plains Television Corporation (WICS) on Channel 20 in Springfield; Prairie Television Company (WTVP) on Channel 17 in Decatur, Illinois; Signal Hill Telecasting Corporation (KTVI) on Channel 36 in St. Louis; Midwest Television, Inc. (WICA) on Channel 3 in Champaign-Urbana, Illinois; American Broadcasting Company; the Joint Council on Educational Television and the City of St. Louis, support the proposal to shift Channel 2 from Springfield to St. Louis. ABC also supports the assignment of Channel 2 to Terre Haute in addition to St. Louis. WMAY-TV, Incorporated, which holds a conditional grant on Channel 2 in Springfield;[1] Sangamon Valley Corporation, unsuccessful applicant for Channel 2, and Cape Girardeau Television Company oppose the Commission's proposal.[2] Cape Girardeau filed comments supporting its own counterproposal to assign Channel 2 to Cape Girardeau. Turner-Farrar Association (WSIL-TV) on Channel 22 in Harrisburg, Illinois, notes that the proposal to assign Channel 2 to Cape Girardeau conflicts with its pending petition to employ Channel 3 in Harrisburg. Reply comments were filed by Plains Television, Signal Hill, St. Louis Amusement Company and St. Louis Telecast, Inc., supporting the proposal to assign Channel 2 from Springfield to St. Louis. American Broadcasting Company filed reply comments supporting the counterproposal to assign Channel 2 to St. Louis and Terre Haute. Cape Girardeau Television Company filed reply comments supporting its proposal to assign Channel 2 to Cape Girardeau. Hirsch Broadcasting Company (KFVS-TV) on Channel 12 in Cape Girardeau filed reply comments opposing the Cape Girardeau counterproposal.

7. In our Report and Order issued last June outlining the proposals for interim action, we noted that because of the widely varying circumstances in individual markets and the numerous factors bearing on the choice of techniques in any individual community or area, it would not be possible to formulate rigid criteria to be supplied to individual cases in order to indicate the course that would best serve the public interest in each community. We did conclude, however, that certain considerations would have a bearing on our decisions in the individual communities, and that in markets with one or more commercial VHF channels, the merits of proposals to eliminate a VHF would depend, in large part, on such factors as:

(1) Whether significant numbers of people would lack service as a result of the elimination of the VHF channel.

(2) Whether one or more UHF stations are operating in the area.

(3) Whether a reasonably high proportion of the sets in use can receive UHF signals.

(4) Whether the terrain is reasonably favorable for UHF coverage.

(5) Whether, taking into account all the local circumstances, the elimination of a VHF channel would be consistent with the objective of improving the opportunities for effective competition not get service from any other station.

Similarly, we noted that the desirability of assigning additional VHF channels to communities would depend principally upon:

(1) Whether it is possible to locate the new transmitter so as to meet the minimum transmitter spacings.

(2) Whether, in cases where it is necessary to move the channel from another city, there is greater need for the channel in the area to which it is proposed to be assigned.

(3) Whether the addition of a new VHF assignment would be consistent with the objectives of improving the opportunities for effective competition among a greater number of stations.

The proposals to delete VHF Channel 2 from Springfield and to assign this frequency elsewhere must be considered in the light of these factors.

8. The Springfield area is predominantly UHF in the sense that a number of UHF stations are presently operating there and relatively little VHF service invades the area. Plains Television Corporation operates UHF Station WICS on Channel 20 in Springfield and Prairie Television Company operates UHF Station WTVP on Channel 17 in Decatur, Illinois, some 37 miles from Springfield. Other UHF stations operating in the general area are Station WBLN on Channel

[1] On June 29, 1956, after a comparative hearing, the Commission released a Final Decision granting the application of WMAY-TV, Inc., but providing that "* * * the Commission may without further proceedings, substitute for Channel 2 such other channel as may be assigned to Springfield instead of Channel 2 in the rule making proceedings now pending in Docket No. 11747 and subject to the further condition that no construction shall be commenced under the permit here granted until further order of the Commission to be issued subsequent to the conclusion of Docket No. 11747 by the Commission and the specification by the Commission of either Channel 2 or such other channel as may be substituted for it in Docket No. 11747 as the channel on which WMAY-TV shall operate." Sangamon Valley Television Corporation, 11 RR 783, 814.

[2] The Attorney General of the State of Illinois has also opposed the deletion of Channel 2 from Springfield.

15 in Bloomington, Ill., 56 miles distant,[2a] and WEEK-TV on Channel 43 and WTBH on Channel 17 in Peoria, Illinois, 58 miles away.[3] Midwest Television, Inc., operates VHF Station WICA on Channel 3 in Champaign, Illinois, about 78 miles from Springfield.

9. The UHF character of the Springfield area is further evidenced by the high percentage of TV sets in the area capable of receiving UHF transmissions. The parties agree that virtually all sets in the Springfield area are equipped for UHF. Data in the record for June 1956 indicates that 100 percent of the sets in the Springfield metropolitan area and 99 percent of the sets in Sangamon County, Springfield's home county, are equipped for UHF. Moreover, it appears that all sets now being sold in the Springfield area are equipped for UHF. The parties supporting deintermixture maintain that 87.1 percent of all television homes in the nine-county area surrounding Springfield can presently receive UHF.[4]

10. The flat terrain in the Springfield area is ideally suited for UHF propagation. This Central Illinois farmland contains few hills or other prominent features which might restrict UHF coverage, and we are convinced that UHF can deliver satisfactory service in this area.

11. No viewers will lose existing service by the deletion of Channel 2 from Springfield since no station is presently operating on this frequency. The question remains, however, whether any areas that would receive service from a station on Channel 2 in Springfield would not get service from any other station, i. e., the question of potential "white area." Plains Television, the Springfield UHF operator, submits that only an insignificant number of persons in a small area southeast of Springfield in Fayette and Effingham Counties would not be within the Grade B countour of at least one station if Channel 2 is deleted from Springfield. This "white area" can be estimated to vary from 160 to 350 square miles depending on the assumptions of power and antenna height employed; and the population within this area, centered about 60 miles southeast of Springfield, is estimated to vary from 4,000 to 8,000 persons. However, Plains submits data indicating that there is a 65 percent set saturation in the two counties in which the "white area" is situated. While we are unable to evaluate the quality of service obtained in this area or to determine the type of installation necessary to get service, it is probable that some service is now being provided. The parties supporting deintermixture argue, moreover, that no areas would lack service if the UHF stations employ the authorized maximum power of 5000 kw. They submit that the coverage afforded by UHF stations in the Springfield area operating with such power would be at least comparable to the coverage afforded by a station on Channel 2.

12. WMAY-TV, opposing deintermixture, submits no engineering showing with respect to possible loss of potential service by the deletion of Channel 2 from Springfield. Sangamon Valley refers to a document that it submitted in an earlier proceeding last April, which reaches the conclusion that a "white area" of 499 square miles would result if Channel 2 is not employed in Springfield.[5] Cape Girardeau computes the "white area" that would result from deletion of Channel 2 at 351 square miles, alleging that this area would contain a population of 12,243 persons.[6]

13. Since any computation of the area and population that might lose service by the deletion of Channel 2 from Springfield must be based on so many variables and intangibles and must assume antenna heights and powers to be employed in the future, no precise computation can be made. Moreover, the propagation curves presently available and methods of computation do not permit precise computations of coverage at specific locations. The predictions in the record as to the potential "white area" vary from zero to 499 square miles. Furthermore, it should be emphasized that we are dealing here with potential "white area" not with the deletion of an existing service; and as noted above, some service is presently being provided. In any event, it is expected that only a relatively small area and population would not receive any Grade B service if Channel 2 is not employed in Springfield.

14. The deintermixture proposal for the Springfield area does not contemplate the deletion of Channel 2 from Springfield without its employment elsewhere, and the question of "white area" in Springfield must also be examined from the standpoint of the use of the frequency that can be made in other communities and the areas and populations that might gain their only service from such new use. Although a number of proposals for the reassignment of Channel 2 would merely duplicate VHF channels already assigned, stations employing these frequencies in such communities as St. Louis and Terre Haute would be required to locate their transmitter some distance from the center of the community in order to meet minimum mileage requirements. Accordingly, the new channels would not merely duplicate the service of existing VHF stations but would provide service to areas and population presently not being served by the stations already in the community. The record indicates that if Channel 2 is employed in both St. Louis and Terre Haute, as proposed by some parties, an area of about 308 square miles containing almost 3,000 persons would receive a first Grade B service. If Channel 2 is employed in both Cape Girardeau and Terre Haute, as suggested by another party, an area of about 277 square miles containing 3,225 persons would be expected to receive a first Grade B service. Thus, although deletion of Channel 2 might result in a potential "white area" in the vicinity of Springfield, the use of Channel 2 that can be made in other communities would afford service to "white areas" in other localities.

15. We now turn to the possibilities for the employment of Channel 2 in the event this frequency is deleted from Springfield. The Commission initially proposed that Channel 2 be shifted to St. Louis, but it was later noted that Channel 2 could be employed in Terre Haute as well as St. Louis. Cape Girardeau Television suggests, in the alternative, that Channel 2 be assigned to Cape Girardeau, Missouri, and to Springfield, where it is now assigned, or to Terre Haute. Channel 2 cannot be employed in both St. Louis and Cape Girardeau. Finally, Wabash Valley, a VHF operator in Terre Haute, proposes that Channel 2 be assigned to the communities of Salem, Illinois, and Salem, Missouri.

16. One of the matters that the Commission indicated it would consider in the assignment of additional VHF channels is the possibility of employing the frequency in the new community so that all minimum mileage spacing requirements will be met. The record indicates that all of the proposals for the redeployment of Channel 2 from Springfield either meet the minimum assignment spacing requirements or that transmitter sites are available, in accordance with the Rules, to provide the necessary minimum spacings and afford a principal-city signal over the community to be served. All of the proposals, therefore, meet the Commission's technical requirements for the assignment of television channels.

17. St. Louis ranks as the 9th metropolitan area in the country with a 1950 population of 1,681,281. The population of the City is 856,796. Three commercial VHF channels are now assigned. Stations are operating on Channels 4 and 5 and Channel 11 is involved in a comparative proceeding. An educational station is operating on VHF Channel 9 reserved for the purpose. Three UHF channels are assigned. Station KTVI operates on Channel 36 and an application is pending for Channel 30. No Grade B or better television service from stations in other communities is received. The addition of Channel 2 would represent a fourth commercial VHF outlet. The parties supporting the assignment of Channel 2 to St. Louis submit that this city has a need for a wholly local programming service designed to serve the needs of the area, and contend that a fourth VHF station in St. Louis would provide the area with local program material and would be available for use by local advertisers. Conversely, they maintain that the operation of a VHF station in Springfield would merely eliminate or degrade the service of one or more UHF stations.

18. Terre Haute ranks as the 146th metropolitan area with a 1950 population of 105,160. The city population is 64,214. Three commercial channels, VHF Channel 10 and UHF Channels 63 and 73 are assigned. Wabash Valley operates Station WTHI-TV on Channel 10. No applications have been submitted for the UHF channels. Two VHF channels in other communities, Channel 4 in Bloomington, Indiana, and Channel 3 in Champaign, Illinois, provide Grade B service to the immediate vicinity of Terre Haute. The proposed station on Channel 13 in Indianapolis would provide Grade B service to a part of the city. One UHF station on Channel 24 in Danville, Illinois, also provides some Grade B service to Terre Haute. ABC supports the assignment of Channel 2 to Terre Haute.

19. The 1950 population of Cape Girardeau is 21,578 persons. Three channels are presently assigned, VHF Channel 12 and UHF Channels 18 and 69. Hirsch Broadcasting Company operates Station KFVS-TV on Channel 12. No applications have been filed for the UHF channels. A station on Channel 6 in Paducah, Kentucky would provide Grade B service to Cape Girardeau. Cape Girardeau Television Company urges that Channel 2 should be assigned to this community, pointing out that this assignment can be made by retaining Channel 2 in Springfield or shifting it to Terre Haute. Cape Girardeau submits that unless an additional VHF channel is assigned this community will continue indefinitely to be a one-station market since no use can be expected to be made of the UHF channels.

20. Salem, Illinois, has a 1950 population of 3,611 persons and Salem, Missouri, 6,159 persons. Wabash Valley Broadcasting Corporation, a VHF operator in Terre Haute, proposes that Channel 2 be assigned to both Salem, Illinois, and Salem, Missouri. This proposal would conflict with the assignment of Channel 2 in Terre Haute, St. Louis, and Cape Girardeau. Neither Salem, Illinois, nor Salem, Missouri, has a local television assignment nor receives Grade B service from any stations operating outside the community at this time. Service could be obtained from UHF channels assigned to nearby communities, however. Wabash Valley argues that there is a greater need for the service that would be afforded by stations on Channel 2 in the area surrounding Salem, Illinois, and Salem, Missouri, than in the St. Louis and Terre Haute areas. Wabash Valley alleges that there is no local television service within 70 miles of Salem, Illinois, or within 90 miles of Salem, Missouri; that both communities are situated in important rural areas presently without VHF outlets; that the circulation of VHF sets in the area is "notably high"; that few UHF receivers are presently in the area; and that neither town will receive local service unless VHF channels are assigned. Opponents to the assignment of Channel 2 to these communities argue that it is highly doubtful that any one would attempt to operate television stations in either of these small communities. They point out that other channels are available for this area to provide service, for example, channels are assigned in Centralia, Illinois, 12 miles from Salem, Illinois, and in Rolla, Missouri, 23 miles from Salem, Missouri, and contend that the establishment of stations in small communities such as these would do little to further the Commission's objective of stimulating competition among a greater number of stations.[7]

21. Coverage data for Channel 2 in various combinations is supplied by Cape Girardeau Television, as follows:

Cities	Within interference-free Grade B contour	
	Area in square miles	Population
St. Louis (site west of city)	10,525	1,970,270
Plus Terre Haute	7,542	471,346
Total	18,067	2,441,616
Cape Girardeau	11,100	544,527
Plus Terre Haute	7,723	476,755
Total	18,823	1,021,282
Cape Girardeau	10,000	497,962
Plus Springfield	8,525	535,549
Total	18,525	1,033,511

The foregoing tabulation demonstrates that the various combinations for the use of Channel 2 would all serve substantially the same amount of area. However, with Channel 2 assigned to St. Louis, a greater population would receive service. Cape Girardeau Television argues, however, that its proposal for the assignment of Channel 2 to Cape Girardeau instead of St. Louis would be more efficient since it would provide more service to areas with fewer VHF services. However, much of the area and population within a Cape Girardeau station's Grade B contour already receive service from one or more VHF stations, and the greater majority would receive service from two or more VHF stations.

22. The parties urging deintermixture submit that on the basis of their knowledge of local conditions and the experience encountered by UHF stations in other markets similarly situated, the establishment of a VHF station in Springfield would effectively destroy UHF television in both Springfield and Decatur. Prairie Television, the UHF operator in Decatur, submits in this connection, that the VHF operation on Channel 3 in Champaign has already impaired its ability to compete and to render service in both Decatur proper and other parts of its service area; and it maintains that UHF cannot survive competition from an additional VHF station in this area. The deintermixture proponents submit that if Channel 2 is deleted from Springfield, and Channel 8 from Peoria as proposed in Docket No. 11749, the bulk of the service areas of UHF stations in Springfield and immediate area will be free from VHF competition. Plains Television, the Springfield UHF operator, argues that if the Springfield-Decatur area is deintermixed, effective use can be made of assigned UHF channels, but if Channel 2 remains, the UHF frequencies will be wasted. It points out, on the other hand, that St. Louis and Terre Haute will derive no benefit from their UHF channels since their use is precluded by the operation of local VHF stations as well as VHF service from outside the city. The only practicable means for bringing additional service to these communities, Plains contends, is by the addition of VHF.

23. The opponents to deintermixture submit, on the other hand, that the Springfield area is not one in which UHF service is so clearly predominant that the mere deletion of Channel 2 can create a "UHF island". They argue that Springfield will continue to be an intermixed market since both Springfield and the surrounding area regularly receive VHF Station WCIA-TV on Channel 3 at Champaign and rely upon this station as much or more than UHF Station WICS in Springfield itself. They argue that so long as such a high proportion of Springfield viewers rely on a VHF station, even though situated in a different community, it would not be possible by deleting Channel 2 to create a healthy atmosphere for the growth and development of UHF. Plains Television replies, however, that while the Champaign VHF station does have a substantial audience in Springfield, the UHF station has a greater audience during larger portions of the time. It also argues that complete deintermixture in order to achieve a healthy situation under which UHF can thrive is not required since UHF can, in appropriate cases, compete with VHF signals originating outside the community. The success of UHF stations WICS and WTVP in the Springfield-Decatur area against competition from the single VHF station in Champaign is cited as an indication of the ability of UHF to compete with one outside VHF station in this area. Furthermore, it is noted that much of the service areas of the UHF stations will be free from VHF competition. The proponents of deintermixture assert that UHF has demonstrated that it can survive in the Springfield-Decatur area in competition with the existing VHF station in Champaign, but experience elsewhere makes it clear that UHF cannot survive against multiple VHF competition; and they argue that it is therefore essential that no additional VHF stations commence operation.

24. We have reviewed the record in this proceeding in the light of the factors listed in our Report and Order of last June, and have concluded that the public interest would be served by deleting Channel 2 from Springfield and making

[2a] The Commission was recently notified that WBLN had ceased operation on February 5, 1957, because of financial difficulties, but hoped to return to the air within a month.

[3] The Commission is today issuing a Report and Order in the Peoria TV reallocation proceeding (Doc. 11749) making Peoria an all-UHF community by shifting Channel 8 to Davenport-Rock Island-Moline and by adding UHF Channels 25 and 31 to Peoria.

[4] This high saturation of UHF receivers can be contrasted with the situation in St. Louis, where two VHF stations are operating in addition to one UHF station, and where it is estimated that only 40 percent of the sets are converted for UHF.

[5] This figure is based on the operating power and antenna height of existing stations and assumes a power a 500 kw at an antenna height of 900 feet for the UHF substitute for Channel 2. The propagation curves set out in the rules are employed.

[6] Cape Girardeau's figure is based on the methods set out in Appendix A to the Commission's Report and Order issued last June, as amended by suggestions of the AFCCE.

[7] In light of our conclusions rejecting Wabash Valley's proposal for Salem, as set out below, coverage data with respect to this proposal is not discussed in detail.

it available for assignment elsewhere. The Springfield-Decatur area is now predominantly UHF, the terrain is satisfactory for UHF propagation, the vast majority of sets in the area are capable of receiving UHF transmissions, and a number of UHF stations are actively engaged in providing service to the public. Additional UHF channels in the lower portion of the spectrum are available for assignment to this area, and we are convinced that UHF can provide satisfactory service here. Our experience indicates that the establishment of a VHF station in such an area would seriously detract from the ability of the UHF stations to continue to provide service. While multiple UHF stations will be able to compete effectively in this market, there is great danger that the addition of a VHF channel would destroy effective competition. Moreover, our decision here comports with our action in the Peoria deintermixture case (Docket No. 11749). In that proceeding we have concluded that the public interest would be served by deleting Channel 8 from Peoria. A station on this frequency in Peoria would have provided VHF service to parts of the service areas of UHF stations in the Springfield-Decatur area. Conversely a station on Channel 2 in Springfield would provide VHF service to portions of the area that will be served by UHF stations in Peoria, which the Commission has determined should be all-UHF. We conclude that the deletion of Channel 2 from the Springfied area will enhance the opportunities for more effective competition among a greater number of stations.

25. Furthermore, Channel 2 can be employed effectively in other communities upon its deletion from Springfield. Irrespective of the deintermixture considerations, we find compelling reasons under section 307 (b) of the Communications Act for making Channel 2 available for other communities. Deleting Channel 2 from Springfield makes possible a more effective and efficient utilization of the scarce VHF spectrum, releasing this channel for the purpose of providing multiple services in one larger community and another city of comparable size.

26. Of the various conflicting proposals advanced for the use of Channel 2 upon its deletion from Springfield, we find that the assignment of Channel 2 to both St. Louis and Terre Haute is to be preferred. Wabash Valley has urged that Channel 2 be assigned to Salem, Missouri, and Salem, Illinois, two very small communities presently without local outlets or service. Wabash Valley operates a VHF station in Terre Haute and the proposal for Salem would conflict with the proposal to employ Channel 2 in Terre Haute. No parties have indicated in this proceeding that they would apply for channels in Salem, Missouri, or Salem, Illinois; and there is no indication that communities of such small size can make effective use of these frequencies. We cannot find that the public interest would be served by assigning Channel 2 to these communities, even though they presently have no local outlets or service, especially in light of the need and demand for Channel 2 in other much larger cities.

27. We have left for consideration the proposal of Cape Girardeau Television for the assignment of Channel 2 in Cape Girardeau and Terre Haute and the conflicting proposal to assign Channel 2 to St. Louis and Terre Haute. The St. Louis metropolitan area, 9th in the nation, has over 1,000,000 persons. It now has 3 commercial VHF channels. Cape Girardeau has a population of only about 20,000 and now has one VHF station on the air. We feel that a 4th VHF commercial channel should be assigned to St. Louis before the relatively small city of Cape Girardeau is assigned a second VHF outlet. While a station on Channel 2 in Cape Girardeau would serve a relatively large audience, the great majority of its viewers would also receive service from 2 or more VHF stations. Therefore, in light of the size and importance of St. Louis, we believe the assignment of Channel 2 to this city is required under section 307 (b).

28. Moreover, we must not lose sight of our objective in undertaking the interim program to improve the opportunities for more effective competition among a greater number of stations. We believe this objective can be better achieved by assigning Channel 2 to St. Louis. Both St. Louis and Terre Haute are predominantly VHF areas. Two commercial VHF stations are already operating in St. Louis in addition to an educational VHF station, and a third commercial VHF station is expected to commence operation shortly. Although a UHF station is still operating in the area, this station supports the proposal to add a VHF channel, and indications are that the UHF station could not survive the advent of the third commercial VHF. We believe that more effective competition in St. Louis among a greater number of stations can be achieved by the addition of a VHF channel. In Terre Haute a VHF station is in operation and numerous additional VHF signals invade the area. No applications for the UHF channels assigned to this city are indicated. Making Channel 2 available in Terre Haute would enhance the opportunity for competition among a greater number of stations in Terre Haute as well.

29. We have proposed to substitute UHF Channel 26 and either UHF Channel 36 or 39 to replace Channel 2 in Springfield. We originally proposed Channel 39 but later suggested Channel 36, in light of the significant number of persons in the southern Illinois area between St. Louis and Springfield who had equipped their television sets to receive Channel 36 from St. Louis and would continue to be able to receive Channel 36 if operated in Springfield. Since the advent of an additional commercial VHF station in St. Louis will in all likelihood mean that a station will no longer operate on Channel 36 in St. Louis, the public interest would be served if this frequency could be employed in Springfield in order that some of the viewers who have strip tuners designed for this frequency will continue to get service. While it is not possible on the basis of the record to determine precisely how many viewers within the service area of a station on Channel 36 in Springfield already have receivers equipped for Channel 36, the record does indicate that it is probable that a significant number do have sets so equipped.[8] We find in view of the foregoing that the assignment of Channel 36 in Springfield is to be preferred to Channel 39, and we are therefore assigning Channels 26 and 36 to Springfield.

30. Signal Hill now operates Station KTVI on Channel 36 in St. Louis, and this frequency must be deleted in order to make it available for Springfield. While other UHF channels would be available in St. Louis on which Signal Hill could operate, this solution would require that viewers with strip tuners convert their sets merely for a temporary operation on a UHF channel. In light of our action adding VHF Channel 2 there is little likelihood that operation on UHF channels in St. Louis would be feasible on a regular basis for some time to come, and requiring Signal Hill to switch to another UHF channel would put the public to needless expense. Channel 2 is being added to St. Louis, and this frequency could be made available for Signal Hill, but the record indicates that several parties intend to file applications for Channel 2 in St. Louis; and under the doctrine of the Peoples and Zenith cases,[9] all parties submitting applications for the new frequency in St. Louis would be entitled to comparative consideration. The public interest would be served, however, by enabling Signal Hill to continue to provide a television service in St. Louis on a temporary basis on another frequency until it can be determined who will operate on Channel 2 on a regular basis. Channel 2 is the logical frequency on which Signal Hill should continue to afford St. Louis with a television service in the interim. Signal Hill, and any other interested parties, will be entitled to file applications for regular operation on Channel 2; in the meantime Signal Hill can continue to afford the viewers in the St. Louis area with a television service.

[8] Some of the parties, including WMAY-TV, support the proposed shift of Channel 36 from St. Louis to Springfield, urging that this channel may be assigned in conformity with the rules; that a television station operating on Channel 36 in Springfield would serve a large area which has heretofore been served by KTVI at St. Louis; and that sets which have been converted to receive this channel from St. Louis would be able to receive it at Springfield. The parties conclude that there would be substantial overlap of the existing Grade B contour of KTVI, operating with 417 kw and an antenna height of 590 feet with the Grade B contour of a proposed station in Springfield operating with 1000 kw and an antenna height of 1000 feet since the sum of the two contour ranges would be in excess of the 88 miles separation between St. Louis and Springfield. They contend that the overlap would be even greater if "usable signals" rather than the Grade B contours were taken into account. Cape Girardeau opposes the assignment of Channel 36 to Springfield. It submits that the Grade B contours would not overlap basing its contention on calculations using some of the data contained in the Appendix A of the Report and Order in Docket No. 11532. However, even under the assumptions made by Cape Girardeau, the contours fall short of overlapping by only 4 miles.

[9] Peoples Broadcasting Co. v. U. S., 209 F. 2d 286 (1953), Zenith Radio Corp. v. FCC, 211 F. 2d 629 (1954).

31. In view of the foregoing we will authorize Signal Hill to operate on Channel 2 on a temporary basis pending final action on an application for regular operation on Channel 2 in this city or the issuance of a final decision in a comparative hearing concerning this facility. Signal Hill, under the terms of the temporary authorization, will be required to cease operation upon the commencement of operation by the regular operator on Channel 2. Acceptance of this temporary authorization by Signal Hill shall be deemed as a surrender of any and all existing rights it may have with respect to Channel 36. In authorizing Signal Hill to operate on a temporary basis on Channel 2 as outlined above, we emphasize that in any comparative hearing involving regular operation on Channel 2, no effect whatsoever will be given to any expenditure of funds by Signal Hill pursuant to the temporary authorization, nor will any other preference redound to Signal Hill by virtue of the temporary grant. The extraordinary procedures adopted in this case are necessary solely in light of the particular problems involved in providing a continuing television service to the people of St. Louis. See Peoples Broadcasting Company v. United States, 209 F. 2d 286 (1953). In the event that Signal Hill does not accept the temporary authorization for Channel 2 subject to the conditions described above, Channel 39 will be assigned to Springfield.

32. On February 11, 1956, Cape Girardeau Broadcasting filed a Motion for Oral Argument. Signal Hill filed an opposition to said motion and the movant has replied. All interested parties have had adequate opportunity to present their data, views and arguments with respect to the matters raised in this proceeding by means of written comments and replies. We are not persuaded that oral argument would serve any useful purpose in the determination of the issues presented. Accordingly, Cape Girardeau's request is denied.

33. As noted in footnote 1 above, the Commission on June 29, 1956, released a Final Decision granting the application of WMAY-TV, Inc., but providing the Commission may, without further proceedings, substitute for Channel 2 such other channel as may be assigned to Springfield to replace Channel 2 in this proceeding and the Commission stated that a further order would be issued subsequent to the conclusion of this proceeding. An appropriate order will be issued in the adjudicatory proceeding with respect to this matter in light of our action herein.

34. In view of the foregoing: *It is ordered*, That effective April 15, 1957, § 3.606, Table of Television Channel Assignments, is amended, to read as follows: [10]

City	Channel
Springfield, Ill.	20+, 26−, 36−, *66+.
St. Louis, Mo.	2, 4−, 5−, *9, 11−, 30, 42+.
Jacksonville, Ill.	49−.
Davenport, Iowa-Rock Island-Moline, Ill.	4+, 6+, 8, *30+, 42−, 68.
Terre Haute, Ind.	2+, 10, *57+, 63−, 73+.

[10] The tabulation also reflects the amendment for Davenport-Rock Island-Moline in the Peoria proceeding in Docket No. 11749 by the addition of Channel 8.

35. Authority for the adoption of the amendments is contained in sections 1, 4 (i) and (j), 301, 303 (a), (b), (c), (d), (e), (f), (g), (h) and (r), 307 (b), and 316 of the Communications Act of 1934, as amended, and section 4 of the Administrative Procedure Act.

36. *It is further ordered*, That effective April 15, 1957, the outstanding authorization of Signal Hill Telecasting Corporation for the operation of Station KTVI on Channel 36 in St. Louis, Missouri, is modified to provide for temporary operation on Channel 2 subject to the following conditions:

(a) Said temporary authorization to expire automatically upon the commencement of operation on Channel 2 in St. Louis by a permittee so authorized by the final action of the Commission on any application or applications for regular operation on Channel 2;

(b) The submission to the Commission by April 1, 1957, of all necessary information on FCC Form No. 301, executed in triplicate, for the preparation of engineering specifications to cover the temporary operation on Channel 2. Said information should be in conformance with or be accompanied by an appropriate request for waiver of the existing rules and regulations of the Commission, including the change in the Table of Television Channel Assignments adopted herein allocating Channel 2 to Terre Haute, Indiana;

(c) Construction looking to a change to Channel 2 not to commence until specifically authorized by the Commission after the information requested in (b) above is submitted;

(d) In the event that Signal Hill is unable to commence operation on Channel 2 pursuant to such temporary authority by the effective date specified above, the Commission will consider a request for continued operation on Channel 36 until such temporary operation on Channel 2 can be commenced, but in no event will such continued operation on Channel 36 be extended beyond the date that a station commences operation on Channel 36 in Springfield, Illinois;

(e) Acceptance of said temporary authorization on Channel 2 shall be deemed as a surrender of any and all rights Signal Hill may have with respect to Channel 36;

(f) In any comparative hearing involving regular operation on Channel 2 in St. Louis no effect whatsoever will be given to any expenditure of funds by Signal Hill pursuant to the temporary authorization, nor will any preference redound to Signal Hill by virtue of the grant of or operation under said temporary authorization;

(g) That Signal Hill advise the Commission in writing by March 15, 1957, whether it accepts the temporary authorization for operation on Channel 2 subject to the conditions described above.

(Sec. 4, 48 Stat. 1066, as amended; 47 U. S. C. 154. Interprets or applies secs. 301, 303, 307, 48 Stat. 1081, 1082, 1083; 47 U. S. C. 301, 303, 307)

Adopted: February 26, 1957.

Released: March 1, 1957.

FEDERAL COMMUNICATIONS COMMISSION,[11]
[SEAL] MARY JANE MORRIS,
Secretary.

[F. R. Doc. 57-1730; Filed, Mar. 7, 1957; 8:45 a. m.]

[Docket No. 11749; FCC 57-182]

[Rules Amdt. 3-53]

PART 3—RADIO BROADCAST SERVICES

TABLE OF ASSIGNMENTS, TELEVISION BROADCAST STATIONS

In the matter of amendment of § 3.606, Table of Assignments, Television Broadcast Stations (Peoria, Illinois, Davenport, Iowa-Rock Island-Moline, Illinois.

1. The Commission has before it for consideration the proposals set out in its Notice of Proposed Rule Making (FCC 56-590) released in this proceeding on June 26, 1956, and subsequent further Notices, for the reallocation of television channels in the Peoria and Rock Island, Illinois, areas. Interested parties have been afforded the opportunity of filing comments directed to the proposals and of advancing their own counterproposals, and we are now in a position to issue our Report.

2. The Commission last June issued its Report and Order (FCC 56-587) in the general television allocation proceeding in Docket No. 11532, outlining a long-range program designed to improve the television allocation structure. Since it will be some years before this long-range program can be implemented, consideration was also given to what interim action might be taken for improving the opportunities for effective competition among a greater number of stations in individual communities. In furtherance of this interim program, rule making proceedings such as the instant one have been initiated proposing changes in channel assignments for several communities throughout the country.

3. With respect to the Peoria area, the Commission proposed to deintermix Peoria by shifting VHF Channel 8 to Rock Island, Illinois, and adding UHF Channel 25 to Peoria, as follows:

City	Channel No.	
	Present	Proposed
Peoria, Ill.	8, 19, *27, 43...	19, 25, *27, 43.
Rock Island, Ill.	(See Davenport, Iowa).	8.
Galesburg, Ill.	40	77.

*Reserved for noncommercial educational use.

[11] Commissioners McConnaughey and Doerfer dissenting in part and concurring in part and issuing statements filed as part of original document; Commissioner Mack dissenting; Commissioner Craven abstaining from voting.

4. On July 23, 1956, the Commission issued a Notice of Further Proposed Rule Making (FCC 56–738) concluding that the public interest would be served by assigning an additional UHF channel to Peoria and proposed that Channel 31 be added in addition to Channel 25. Peoria, under this proposal, would have four commercial UHF outlets and one UHF educational channel, a total of five UHF channels.

5. On September 5, 1956, the Commission released a Notice of Further Proposed Rule Making (FCC 56–821) in the several reallocation proceedings, suggesting offset carrier designations for the proposed assignments. In the Peoria case the following offsets were listed:

City	Channel No.	
	Present	Proposed
Galesburg, Ill.	40−	77.
Peoria, Ill.	8, 19, *37−, 43+	19, 25+, 31+, *37−, 43+.
Rock Island, Ill.	(See Davenport, Iowa).	8.

The Notice pointed out that the assignment of Channel 31+ in Peoria would require a change in the offset carrier requirement of Channel 31 in Milwaukee, Wisconsin, from 31+ to 31−.

6. On November 30, 1956, the Commission released a Memorandum Opinion and Order (FCC 56–1189) concerning petitions filed by WIRL Television Company requesting reconsideration of the Commission's Notice of Proposed Rule Making and a full evidentiary hearing.[1] WIRL's petitions were denied "* * * without prejudice to the Commission's right to consider the contentions thereof in connection with the comments to be filed in [this proceeding]".

7. On November 30, 1956, the Commission released a Memorandum Opinion and Order (FCC 56–1190) denying a Motion filed by WMBD, Inc., requesting that the Commission sever the proposal to assign Channel 31 to Peoria from the rest of the proceeding and move up the time for filing comments with respect to this facet of the case. The Commission concluded, that the proposed channel changes for Peoria were not separate and distinct, but constituted an integral part of its interim reallocation program for this area.

[1] WIRL Television Company is the conditional grantee on Channel 8 in Peoria. On June 29, 1956, after a comparative hearing, the Commission released a Final Decision granting the application of WIRL Television Company, but providing that "* * * the Commission may without further proceedings, substitute for Ch. 8 such other channel as may be assigned to Peoria, Illinois, instead of Channel 8 in the rule making proceedings now pending in Docket No. 11749, and subject to the further condition that no construction shall be commenced under the permit here granted until further order of the Commission to be issued subsequent to the conclusion of Docket No. 11749 by the Commission and specification by the Commission of either Channel 8 or such other channel as may be substituted for it in Docket No. 11749 as the channel on which WIRL Television Company shall operate." WMBD Inc., 11 RR 533, 608.

8. Several parties have submitted counterproposals:

(a) Tele-Views News Company, an Illinois corporation which states that it is a prospective applicant for Channel 8 in the Davenport-Rock Island-Moline area, urges that Channel 8 be shifted from Peoria to the hyphenated area of Davenport-Rock Island-Moline rather than Rock Island alone.[2]

(b) Galesburg Broadcasting Company, Inc., operator of AM Station WGIL in Galesburg, Illinois, urges that Channel 8 be assigned to Galesburg rather than Rock Island.

(c) Central Broadcasting Company, operator of VHF Station WOC–TV on Channel 6 in Davenport, Iowa, requests that in the event Channel 8 is deleted from Peoria, it be assigned to another city in the Peoria area or to a city in South-Central Illinois rather than Rock Island, or that it be reserved for noncommercial educational use in Rock Island.

(d) Turner-Farrar Association, operator of UHF Station WSIL–TV on Channel 22 in Harrisburg, Illinois, requests that Channel 8 be assigned to Harrisburg as well as Rock Island.

9. Comments have been filed by interested parties: West Central Broadcasting Company (WEEK–TV) on Channel 43 and Hilltop Broadcasting Company (WTVH) on Channel 19 in Peoria; American Broadcasting Company, Joint Council on Educational Television; Turner-Farrar Association (WSIL–TV) on Channel 22 in Harrisburg, Illinois; and Tele-Views News Company, Inc., support the proposal for the deletion of Channel 8 from Peoria. WMBD, Inc., unsuccessful applicant for Channel 8 in Peoria, supports that portion of the Commission's proposal which would assign UHF Channel 31 to Peoria. WIRL Television Company (WIRL–TV), conditional grantee on Channel 8 in Peoria,[3] filed comments opposing the deintermixture proposal. Reply comments were submitted by West Central and Hilltop, ABC, Turner-Farrar, Tele-Views, Galesburg, WMBD, Inc., and WRL. In addition, KRNT–TV Company (KRNT–TV) on Chtannel 8 in Des Moines, Iowa, and WKBH Television, Inc. (WKBT), on Channel 8 in La Crosse, Wisconsin, filed reply comments in opposition to the reallocation of Channel 8 to Rock Island.[4]

10. We noted in our Report and Order issued last June, outlining the proposals for interim action, that because of the widely varying circumstances in individual markets, as well as the numerous factors bearing on the choice of techniques in any individual community or area, it would not be possible to formulate rigid criteria to be applied in individual cases in order to indicate the course that would best serve the public interest for each community. We did conclude, however, that certain considerations would have a bearing on our decisions in the individual cities. We stated that in markets with one or more commercial VHF channels, the merits of proposals to eliminate a VHF channel would depend, in large part, on such factors as:

(a) Whether significant numbers of people would lack service as a result of the elimination of the VHF channel.

(b) Whether one or more UHF stations are operating in the area.

(c) Whether a reasonably high proportion of the sets in use can receive UHF signals.

(d) Whether the terrain is reasonably favorable for UHF coverage.

(e) Whether, taking into account all the local circumstances, the elimination of a VHF channel would be consistent with the objective of improving the opportunities for effective competition among a greater number of stations.

Similarly, we noted that the desirability of assigning additional VHF channels to communities would depend principally upon:

(a) Whether it is possible to locate the new transmitter so as to meet the minimum transmitter spacings.

(b) Whether, in cases where it is necessary to move the channel from another city, there is greater need for the channel in the area to which it is proposed to be assigned.

(c) Whether the addition of a new VHF assignment would be consistent with the objectives of improving the opportunities for effective competition among a greater number of stations.

We must consider the proposals to delete VHF Channel 8 from Peoria and to assign this frequency elsewhere in the light of these factors.

11. Peoria is a predominantly UHF area from the standpoint of operating stations and channel assignments. Several UHF stations are on the air, both in Peoria and the surrounding territory. Stations WEEK–TV on Channel 43 [5] and WTVH on Channel 19 have been operating in Peoria since 1953; and UHF stations are operating in Bloomington, Illinois [5a] (WBLN) on Channel 15 (35 miles from Peoria), Springfield, Illinois [6] (WICS) on Channel 20 (62 miles from Peoria), and Decatur, Illinois (WTVP) on Channel 17 (68 miles from Peoria). The latter three stations, though some distances from Peoria, provide UHF service to substantial portions of the Peoria

[2] Under the Commission's rules channels assigned to two or more cities in combinations are available upon application in any one of the listed cities.

[3] See footnote 1.

[4] The Attorney General of the State of Illinois filed a comment opposing the deletion of Channel 8 from Peoria. Numerous letters, cards and resolutions to the same effect were received from cities, villages, organizations and individuals in the Peoria area. Letters supporting the proposal were submitted by the Mayor of Moline, Illinois, and Radio Station WQUA in Moline.

[5] On February 13, 1957, the Commission granted the application (BPCT–2180) of West Central (WEEK–TV) for a satellite television station on UFH Channel 36 at La Salle, Illinois, approximately 50 miles north of Peoria.

[5a] The Commission was recently notified that WBLN has ceased operations on February 5, 1957, because of financial difficulties, but hoped to return to the air within a month.

[6] In a separate proceeding in Docket No. 11747, the Commission has determined that Springfield should be made an all-UHF community by deleting Channel 2 and substituting UHF Channels 26 and 36.

area. In addition to operating stations, UHF channels are available in the immediate Peoria area; Channel 40 at Galesburg, Channel 69 at Pekin, [6a] Channel 60 at Kewanee, Channel 53 at Lincoln, Channel 21 at White Heath, and Channel 55 at Streater, Illinois. On the other hand, only one VHF channel is assigned to Peoria, Channel 8, which is not in operation; and relatively little VHF service now invades the immediate Peoria area. VHF stations are operating in such cities as Rock Island (74 miles), Davenport, Iowa (75 miles), Champaign, Illinois (81 miles) Quincy, Illinois (109 miles), and Hannibal, Missouri (112 miles). While these stations provide VHF service to parts of the Peoria area, Grade B service over the city of Peoria is not provided, with the possible exception that the Rock Island station on Channel 4, if its transmitter site is shifted, and Channel 8 in Rock Island would provide Grade B service. The record indicates, moreover, that viewers in Peoria watch the two Peoria UHF stations the great bulk of the time.

12. The UHF character of the Peoria area is further illustrated by the high percentage of television sets in the area capable of receiving UHF transmissions. Peoria and the Peoria standard metropolitan area (Peoria and Tazewell Counties) are virtually 100 percent converted for UHF, and the percentage of UHF-equipped sets approaches 100 percent for the entire service area of the operating UHF stations.[7]

13. The record indicates that the terrain in the Peoria area is generally suitable for UHF propagation, and we are confident that UHF can deliver satisfactory service in this area. Except for the relatively small sparsely settled Illinois River Valley, the region is reasonably flat; and the UHF stations maintain that the homes in this Valley already receive satisfactory service. WIRL argues that while close-in coyerage is generally good in clear and unobstructed regions, dead spots are found. We believe, however, that the terrain in the Peoria area is adequate for UHF.

14. No viewers will lose existing service by virtue of the deletion of Channel 8 from Peoria since a station is not presently operating on this frequency. However, the question is posed whether any areas that might receive service from a Channel 8 station in Peoria would get no service from any other station, i. e., whether deletion of Channel 8 will result in a "white area."

15. The Peoria UHF stations have made measurements on UHF Station WEEK–TV (Channel 43) in Peoria and have extrapolated the results to the proposed height and power of the station (360 kw at 1154 feet). On the basis of these measurements they submit that the expected coverage of the UHF station would be greater than that expected for

[6a] On February 13, 1957, the Commission granted a construction permit (BPCT–2223) for a station on Channel 69 in Pekin to Mid-Illinois Television Company.

[7] WIRL does note, however, that a number of counties on the perimeter of the present Peoria UHF service area have very little conversion.

Station WIRL–TV on Channel 8 employing maximum power of 316 kw at 992 feet for all directions but the southeast, and that no areas that would get service from Channel 8 in Peoria would fail to get service if it is deleted. However, WIRL challenges the measurments, noting that no corrections were made for the noise level in the recording field intensity meter. Applying the corrections suggested by the instruction manual for the measuring instrument, WIRL recomputes the field intensities and redraws the field intensity vs. distance curves for the radials measured and concludes that UHF signals in the Peoria area would be above the average of those predicted in the rules out to line of sight, or roughly 37.5 miles, but would be below these values beyond the line of sight, with the rate of decline of the measured signal about 8 db below the predicted for every 10 miles of distance beyond the line of sight. The net result is that the measured distance to the Grade B contour of WEEK–TV with 170 kw power at 546 feet (its present facilities) is 37.7 miles, or very close to the 38 mile figure obtained from the present curves. Projecting these measurements to other heights and powers would produce much smaller distances for Grade B coverage than that claimed by the UHF stations. For example, WIRL submits a figure of 45.7 miles to the Grade B contour of a UHF station using 1000 kw at 1000 feet, while the UHF stations claim 65 mile coverage with 360 kw power at 1154 feet. The results of the recomputation by WIRL appear to be reasonable, as does its method for taking ambient noise into account; and we believe that the UHF coverage in Peoria would probably be considerably less than that claimed on the basis of the measurements.

16. The UHF stations in support of deintermixture, employing the propagation curves set out in the rules, compute the potential "white area" to be 28 square miles containing 710 persons.[8] WIRL, using the same curves, computes the "white area" to be 376 square miles with 28,237 persons. The difference in the results arises from the fact that WIRL used actual operating facilities, with the exception of maximum height and power for the Channel 8 station at Rock Island, and the parties urging deletion of Channel 8 used 1,000 kw power for the UHF stations, including a station on Channel 25 and on 31 in Peoria in place of Channel 8. WIRL in reaching its figure did not take into account any operation on a UHF channel to replace Channel 8. If a station commences operation on either or both Channel 25 or Channel 31 with more height and power than that of the stations already on the air, the "white area" as computed by WIRL would be reduced accordingly; and if a UHF station operates with 1,000 kw at 1,000 feet, it is probable that very little "white area," if any, will result, based on the prediction method set out in the rules. The UHF stations allege that on the basis of the curves in the Rules, a comparison of the area that would be served by WIRL–TV on Channel 8 and Channel 25 from the same site shows the following:

	Radius of Grade B	Total Grade B	Total Grade A
	Miles	*Square miles*	*Square miles*
WIRL (Channel 8) (316 kw., 992')	61. 5–65. 8	8, 040	12, 600
WIRL–TV (Channel 25) (1,000 kw., 992')	58–62	7, 720	11, 280

17. Since any computation of the area and population that might lose potential service by the deletion of Channel 8 from Peoria must of necessity be grounded on so many variables and assumptions, including heights and powers to be employed in the future and additional stations that might take the air, no precise computations can be made. And the problem is made more complex by the fact that the propagation curves presently available and known methods of computation do not lend themselves to precise determinations of coverage at specific locations. This wide latitude in computing coverage is demonstrated by the estimates in the record as to potential "white areas," which range from zero to an area of 376 square miles containing 28,237 persons. We believe the record supports the basis for concluding that a significant number of persons will not lose their only service if Channel 8 is deleted. In light of our action in the Springfield deintermixture case (Docket No. 11747), moreover, it is likely that Springfield UHF stations will improve their facilities and provide service to the possible "white area" south of Peoria.

18. Peoria, with a 1950 standard metropolitan area of over 250,000 and a city population of almost 112,000, ranks as the 77th market nationally. Three commercial channels, VHF Channel 8 and UHF Channels 19 and 43, are allocated. Stations have been operating on the UHF channels for some time, and the purpose of this proceeding is to determine whether a station should be permitted to operate on the VHF channel. The parties urging deintermixture submit that while Peoria's revenue potential is sufficiently large to support three or more stations all in the same band, the advent of a third station on VHF Channel 8 would create an unequal competitive situation which could seriously impair the ability of the UHF stations to provide service, possibly forcing either or both off the air or to cut back severely their service to the public. Our experience in other markets has demonstrated that the establishment of a VHF station in a UHF market such as Peoria generally seriously affects, if not cripples, the ability of the UHF stations to render

[8] The UHF stations contend that only this small rural area would "theoretically" get no service, and that only 5 square miles with 80 persons lies within the Peoria trading area. They argue, in addition, that actual service is being provided in this theoretical "white area" as evidenced by audience surveys, mail counts, etc., and that still more service will be provided in this area with the advent of improved facilities.

service. And since additional VHF channels can not be assigned to Peoria under present allocation standards, the failure of UHF would mean that Peoria might be forced to depend on a single VHF station for local service. This possibility can be obviated by eliminating the VHF channel and equalizing the competitive situation. The assignment of a third and fourth UHF channel to Peoria will enhance the possibility of more effective competition among the networks in the market and of bringing the programs of all three networks to the public. Deintermixture, we feel, would remove any artificial restraint on the establishment of a third or even fourth local station; and the number of stations would be determined solely by what the traffic can bear. We find, therefore, that deleting VHF Channel 8 from Peoria and substituting UHF Channels 25 and 31 will further our interim objective of improving the opportunities for effective competition among a greater number of stations.[9]

19. WIRL argues that effective deintermixture cannot be achieved in Peoria in light of the many VHF signals that will still invade the area despite the deletion of Channel 8. WIRL notes that even assuming deletion of Channel 2 from Springfield as proposed in another proceeding, all but a small portion of the Peoria area will still receive one or more VHF services from VHF stations in Rock Island, Champaign, Quincy and Davenport. WIRL points out that in view of minimum spacing requirements, a station employing Channel 8 in Rock Island will be forced to locate its transmitter southeast of Rock Island towards Peoria and would place a Grade B signal over Peoria. WIRL also notes that Station WHBF–TV on Channel 4 in Rock Island has an application pending to move its transmitter toward Peoria and increase antenna height. Nevertheless, while "complete" deintermixture of the Peoria area would not be achieved by deletion of Channel 8, we do not believe that the reception of VHF signals from relatively distant cities and separate markets will seriously impair UHF in Peoria, even though, as WIRL submits, Rock Island stations on Channels 4 and 8 might provide VHF Grade B service over Peoria. Furthermore, we will afford careful scrutiny to any applications for VHF channels in other cities which may appear to specify transmitter sites unnecessarily close to Peoria. We feel that the Peoria viewers will look to their own local outlets rather than to distant stations whose programs are directed to other markets; and despite the VHF signals that will remain in the area, we are confident that making Peoria an all-UHF market will enable UHF to thrive.

20. In addition to the benefits falling to the Peoria market by virtue of deintermixture, Channel 8 can be released for assignment in another community where, in light of local circumstances, the addition of a VHF outlet might improve the competitive television situation. The Commission has proposed that Channel 8 be shifted to Rock Island as a third commercial VHF outlet for the area. Tele-Views News Company urges that Channel 8 be assigned to Davenport-Rock Island-Moline instead of Rock Island alone; Galesburg Broadcasting Company, Inc. requests that Channel 8 be assigned to Galesburg in place of Rock Island; and Central Broadcasting Company (WOC–TV), a VHF operator in Davenport, urges that Channel 8 be assigned to a city in the Peoria area or South-Central Illinois rather than Rock Island, or that it be reserved for educational use in Rock Island.

21. Although we initially proposed to assign Channel 8 to Rock Island, the VHF channels presently allocated in the area are assigned to Davenport-Rock Island-Moline in combination. We agree with Tele-Views News, that if Channel 8 is assigned in the area, it should be assigned to the hyphenated community. If applications for stations in more than one of the communities to which the channel is assigned are filed, the question of which city should get the station will be determined in an adjudicatory proceeding.

22. Turner-Farrar Association, operator of UHF Station WSIL–TV on Channel 22 in Harrisburg, Illinois, requests that Channel 8 be assigned to Harrisburg as well as Rock Island. However, the allocation of Channel 8 in either Peoria, Rock Island, or Galesburg does not preclude the assignment of Channel 8 to Harrisburg—this community is well over 250 miles from Rock Island. Turner-Farrar's counterproposal for Harrisburg is proposed as an alternative to its proposal to allocate Channel 3 to this community submitted in a Petition for Rule Making filed August 3, 1956, and still pending. Accordingly, since any action we may take in this proceeding in no way affects Turner-Farrar's proposals for Harrisburg, there is no necessity for disposing of this matter in the Peoria proceeding; and consideration will be given to Turner-Farrar's proposals when we take action on its separate petition for rule making.[9a]

23. We must next determine whether Channel 8 in Rock Island, as well as the other communities for which it is proposed, would meet the technical allocation requirements. Since the distance between Rock Island and other communities where Channel 8 is also assigned does not meet the minimum spacing requirements, Channel 8 cannot be allocated to Rock Island unless it appears that a transmitter site is available that would meet minimum spacing requirements and from which spot a minimum signal can be placed over the principal city. We believe the record demonstrates the likelihood that such a site would be available. WIRL contends that in light of the area within which a site must be located to meet minimum spacing requirements, part of the city of Rock Island would be within a "shadow area" and service to Rock Island will be degraded. Similar shadowing, WIRL submits, would be found in Moline, and to a lesser extent in Davenport. However, the record reveals that even though some "shadow areas" would result, the requisite minimum city-grade signal would be placed over the entire city to be served.[10] We conclude that sites would be available for Channel 8 in the Rock Island area that would meet the minimum spacing requirements and would provide city-grade service to Rock Island, Davenport, or Moline. Channel 8 in Galesburg and the cities proposed by WOC–TV would also meet the technical allocation requirements.

24. WKBH Television, Inc., operator of Station WKBT on Channel 8 in La Crosse, Wisconsin, and KRNT–TV Company, operator of Station KRNT–TV on Channel 8 in Des Moines, Iowa, oppose the allocation of Channel 8 to Rock Island, alleging that this assignment will result in destructive interference to substantial portions of their service areas, as well as to other co-channel and adjacent channel stations. Channel 8 in Rock Island would meet all allocation requirements, and § 3.612 of the rules expressly states that television stations are not protected from any interference which may be caused by the grant of a new station in accordance with the allocation standards. The nature and extent of the protection from interference accorded to stations is limited solely to the protection resulting from the minimum assignment and station separation requirements and the rules relating to maximum powers and antenna heights. The contentions of WKBT and KRNT–TV are therefore without merit.

25. WOC–TV, operator of a VHF station in Davenport, opposes the assignment of a third VHF channel in the Davenport area, suggesting that Channel 8 be assigned to a community within a large area, which includes Peoria, or to a community in South-Central Illinois.[11] WOC–TV requests further, that if the Commission concludes that Channel 8 should be assigned to Rock Island, it should be reserved for noncommercial educational use. We find no merit in WOC–TV's proposals. They ignore the objective of the Commission's interim program of improving the opportunity for effective competition among a greater number of stations. Assigning VHF Channel 8 to one of the relatively small cities suggested by WOC–TV or reserving it for education would not further our interim program, and we are therefore rejecting these proposals.

26. Galesburg is a city of 31,425 persons about 40 miles roughly south of Rock Island in the direction of Peoria. No applications have been filed for the one UHF channel assigned. Grade B or better service is provided to Galesburg by the two VHF stations in Rock Island (WHBF–TV) and Davenport (WOC–TV). Galesburg Broadcasting Company submits that the need and desire for local television service cannot be met by UHF and that VHF wide-area coverage is necessary for an economically feasible operation in view of the small size of the market. A station in Galesburg would also provide service to Burlington, Iowa (30,613 persons) about 40 miles from Galesburg. Since Galesburg is so close to Peoria, a station in Galesburg would place a Grade A signal over Peoria.

(1) Cities (over 1,000 population) within Area No. 1: Atlanta, Cambridge, Chillicothe, Delavan, Depue, Earlville, Elmwood, El Paso, Eureka, Farmington, Galesburg, Galva, Henry, Kewanee, Knoxville, Ladd, Lacon, LaSalle, Lincoln, Mackinaw, Marseilles, Mendota, Metamora, Minok, Morton, Mt. Pulaski, Ottawa, Pekin, Peoria, Princeton, Princeville, Roanoke, Seneca, South Peking, Streator, Toluca, Toulon, Washington, Wenona, Wyoming.

(2) Cities (over 2,500 population) within 15 miles of Area No. 1: Abingdon, Bloomington, Canton, Clinton, Decatur, Moline, Monomouth, Morris, Pana, Pontiac, Rock Island, Sycamore, Taylorville.

(3) Cities (over 1,000 population) within Area No. 2: Benton, Centralia, Mt. Vernon, Salem, Sesser, Vandalia.

(4) Cities (over 2,500 population) within 15 miles of Area No. 2: Christopher, DuQuoin, Herrin, Marion, Nolomis, Pana, West Frankfort.

27. In view of all the circumstances, we believe the assignment of Channel 8 to the Rock Island area is to be preferred. The Davenport-Rock Island-Moline metropolitan area, 81st in the nation, has a 1950 population of 234,256. The city populations are: Davenport (74,549), Rock Island (48,710) and Moline (37,397). VHF stations are operating on the two VHF channels assigned: Station WHBF–TV on Channel 4 in Rock Island and Station WOC–TV on Channel 6 in Davenport. No applications have been filed for the two commercial UHF channels assigned or for the UHF educational reservation. No other Grade B VHF signals serve the cities, and no UHF stations are operating in the immediate area. In light of the establishment of VHF in the Rock Island area, there is little likelihood of any UHF activity in the near future. This area must therefore look to the VHF. Channel 8 would represent a third VHF outlet in this major market, and we believe that this assignment is to be preferred to Galesburg in furtherance of our objective of improving effective competition among a greater number of stations.

28. We have reviewed the record in this proceeding with a view to the factors listed in our Report and Order of last June and conclude that the public interest would be served by deleting Channel 8 and assigning UHF Channels 25 and 31 to Peoria, and by adding Channel 8 to Davenport-Rock Island-Moline. The Peoria area is predominantly UHF, the terrain is satisfactory for UHF propagation, the vast majority of sets are equipped for UHF, several UHF stations in the area are providing service to the public, additional UHF channels in the lower portion of the spectrum are available to replace Channel 8, and significant populations would not be without any service if it is deleted. We are confident, therefore, that UHF can provide satisfactory service in Peoria.

29. Peoria is the 77th market with a 1950 standard metropolitan area population of 250,512 and a city population of 111,856. We do not dispute that Peoria may be larger than the Davenport-Rock Island-Moline market, but the assignment of Channel 8 cannot be made in a vacuum purely on the basis of size and importance of the competing markets. The proposals must be examined in the light of all the factors and our interim objective of improving the opportunity for more effective competition among a greater number of stations. This can be achieved in both Peoria and the Rock Island area by shifting Channel 8 from one market to the other. Without a VHF in Peoria, as many stations would be able to operate as the market will support. But the advent of a VHF station will, in all likelihood, result in less effective competition among fewer stations. On the other hand, the Rock Island area is predominantly VHF. There is little chance of additional television service in the area unless a VHF channel is added, and Channel 8 would afford a much-needed third local outlet. We believe that the action we are now taking carries out the mandate of section 307 (b) of the Communications Act in providing a fair, efficient and equitable distribution of television service to the several states and communities by increasing the likelihood of more television service and more local TV outlets in both the Peoria and Rock Island areas. It should be emphasized that in deleting Channel 8 from Peoria our primary purpose is not to ensure the profitable operation of particular UHF licensees. Rather, we wish to ensure more effective competition among a greater number of stations in order that the public in Peoria will be afforded more and better television service.[12]

30. WIRL charges that this proceeding is illegal and improper and reasserts the contentions advanced in its Petition to Reconsider Action In Instituting Proposed Rule Making and Petition for a Full Evidentiary Hearing. WIRL argues that it is a "permittee" entitled to all the protection afforded by sections 303 (f) and 316 (a) of the Communications Act of 1934, as amended. WIRL charges, further, that the issues raised in the proceeding and the type of proof adduced make it essential that an evidentiary hearing be afforded. Finally, WIRL asserts that even if the instant proceeding were appropriate, a full evidentiary hearing would be the only procedural device for developing fully the critical aspects of the proposals. We find these contentions to be without merit. This proceeding concerning the reallocation of television channels constitutes a valid exercise of our rule making process under the Communications Act and the Administrative Procedure Act. See Logansport Broadcasting Corp. v. U. S., 210 F. 2d 24; Peoples Broadcasting Company v. FCC, 209 F. 2d 286. WIRL clearly does not have the status of a permittee within the meaning of sections 303 (f) and 316 (a) of the act. The Commission made clear in the adjudicatory proceeding involving Channel 8 in Peoria (WMBD, Inc., 10 RR 533, 607–608) that although it had arrived at a determination as to which of the two applicants merit the grant, recognition had to be given to the subject rule making proceeding which proposed to reassign Channel 8 to another city. Accordingly, the Commission expressly provided that it may, without further proceedings, substitute for Channel 8 such other channel as may be assigned to Peoria in the subject rule making proceeding. WIRL either accepted the grant subject to these express conditions or did not accept it. Under either of these alternatives no further proceedings need be undertaken to delete Channel 8 from Peoria in light of WIRL's status. Nor do we believe that any further proceedings are necessary or desirable in this case because of the nature of the proceeding. All parties have had an adequate opportunity to present their comments and views to the Commission and we have given them careful and detailed consideration. This normal rule making process is entirely adequate for a determination of the issues, and further proceedings, including evidentiary hearings, would merely serve to delay this matter unnecessarily.

31. As noted above, the Commission on June 29, 1956, released a Final Decision granting the application of WIRL in the Peoria adjudicatory proceeding, but provided that the Commission may, without further proceedings, substitute for Channel 8 such other channel as may be assigned to Peoria in this proceeding to replace Channel 8. The Commission stated that a further order would be issued subsequent to the conclusion of

[9] WMBD, Inc., urges the assignment of UHF Channel 31 to Peoria irrespective of whether Channel 8 is deleted.

[9a] On February 20, 1957, Turner-Farrar filed a Further Petition for Rule Making under separate heading urging the assignment of Channel 8 to Harrisburg as an alternative to its Channel 3 proposal.

[10] Tele-Views prepared four terrain profiles from a site which indicate that certain areas within Rock Island and Moline would be below line-of-sight and would therefore be in a shadow area. The maximum distance below line-of-sight from any point within the city limits would be approximately 100 feet. The 2–10 mile average ground elevation in the direction of the main cities is 737 feet, and the resulting antenna height above average terrain is 1,000 feet. The average distance to the shadowed areas in the three cities from the transmitter site is 16 miles. Using an effective radiated power of 316 kw and an antenna height above average terrain of 1,000 feet, the calculated signal in the city would be 93 dbu. Calculations using accepted methods show that the maximum shadow loss in Davenport, Rock Island and Moline would be 6 db. If this figure were applied to the calculated figure of 93 dbu, the maximum signal expected in this area would be 87 dbu, which is 10 db above the minimum signal required for "city grade" service.

[11] Four tables submitted by WOC–TV show the cities within 15 miles of two areas where Channel 8 could be assigned in conformity with separation requirements and where city-grade service could be provided from suitable transmitter sites.

[12] Our action herein, moreover, comports with our decision in the Springfield deintermixture proceeding (Docket No. 11747). In that case we have concluded that the public interest would be served by deleting Channel 2 from Springfield. A station on this frequency in Springfield would have provided VHF service to parts of the service areas of the UHF stations in Peoria; and conversely a station on Channel 8 in Peoria would provide VHF service to portions of the area that will be served by UHF stations in the Springfield-Decatur area, which the Commission believes should be all-UHF.

this proceeding in light of our action herein. An appropriate order will be issued in the adjudicatory proceeding with respect to this matter.

32. Authority for the adoption of the amendments is contained in sections 1, 4 (i) and (j), 301, 303 (a), (b), (c), (d), (e), (f), (g), (h) and (r) and 307 (b) of the Communication Act of 1934, as amended, and section 4 of the Administrative Procedure Act.

33. In view of the foregoing: *It is ordered*, That effective April 15, 1957, the Table of Assignments contained in § 3.606 of the Commission's rules and regulations is amended, insofar as the communities named are concerned as follows: [12]

(a) Amend to read:

City	Channel No.
Galesburg, Ill.	77.
Peoria, Ill.	19, 25+, 31+, *37–, 43+.
Davenport, Iowa-Rock Island-Moline, Ill.	4+, 6+, 8, *30+, 42–, 68.

(b) Change the offset carrier requirement only of the Channel 31+ assignment in Milwaukee, Wisconsin, to Channel 31—.

(Sec. 4, 48 Stat. 1066, as amended; 47 U. S. C. 154. Interprets or applies secs. 301, 303, 307, 48 Stat. 1081, 1082, 1083; 47 U. S. C. 301, 303, 307)

Adopted: February 26, 1957.

Released: March 1, 1957.

FEDERAL COMMUNICATIONS COMMISSION,[14]
[SEAL] MARY JANE MORRIS,
Secretary.

[F. R. Doc. 57-1731; Filed, Mar. 7, 1957; 8:45 a. m.]

[Docket No. 11751; FCC 57-178]

[Rules Amdt. 3-56]

PART 3—RADIO BROADCAST SERVICES

TABLE OF ASSIGNMENTS, TELEVISION BROADCAST STATIONS

In the matter of amendment of § 3.606, Table of Assignments, Television Broadcast Stations (Albany-Schenectady-Troy, New York and Vail Mills, New York).

1. The Commission has before it for consideration the proposals set out in its Notice of Proposed Rule Making (FCC 56-592) released in this proceeding on June 26, 1956, for the reallocation of television channels in the Albany-Schenectady-Troy and Vail Mills, New York, areas. Interested parties have been afforded the opportunity of filing comments directed to the Commission's proposals and of advancing counterproposals, and we are now in a position to issue our decision in the matter.

2. The Commission issued its Report and Order (FCC 56-587) last June in the general television allocation proceeding in Docket No. 11532, outlining a long-range program designed to improve the television allocation structure. Since some years may be required to implement this long-range program, we also considered in that proceeding what interim action might be taken to improve the opportunities for effective competition among a greater number of stations in individual communities. In furtherance of this interim program the instant rule making proceeding and a number of others have been initiated proposing changes in channel assignments for various communities throughout the country.

3. With respect to the Albany-Schenectady-Troy area, the Commission proposed to deintermix this area partially by deleting VHF Channel 10 from Vail Mills and adding UHF Channel 47 to Albany-Schenectady-Troy, New York, as follows: [1]

City	Channel No.	
	Present	Proposed
Albany-Schenectady-Troy, N. Y. Vail Mills, N. Y.	6, *17+, 23–, 35, 41. 10–	6, *17+, 23–, 35, 41, 47.

*Reserved for educational use.

4. Comments and reply comments supporting the Commission's proposal were filed by Van Curler Broadcasting Corporation, the permittee of Station WTRI on Channel 35 at Albany: the American Broadcasting Company, New York, New York; WKNY-TV Corporation, permittee of Station WKNY-TV on Channel 21, Poughkeepsie, New York, and the Joint Council on Educational Television, New York, New York. Hudson Valley Broadcasting Co., Inc., permittee of WCDA on Channel 41 at Albany, filed comments opposing the Commission's proposal.

5. Several parties included counterproposals in their Comments.

(a) Van Curler Broadcasting Corporation, the American Broadcasting Company and WKNY-TV Corporation, permittee of Station WKNY-TV on Channel 21, Poughkeepsie, New York, propose in addition to the deletion of Channel 10 at Vail Mills, that Channel 6 be withdrawn from commercial use in the Albany-Schenectady-Troy area so as to completely deintermix the area. Van Curler suggests that Channel 6 be substituted for the present Channel 17 non-commercial educational reservation at Albany or that Channel 6 be shifted from Schenectady to Syracuse, New York. ABC also suggests that Channel 6 be moved from Schenectady to Syracuse, New York, as an alternative to its proposal in the Elmira proceeding (Docket No. 11758) to allocate Channel 9 to Syracuse. WKNY-TV Corporation endorsed the counterproposal of Van Curler in its Reply Comments. General Electric Company, licensee of Station WRGB on Channel 6 at Schenectady, opposed the deletion of Channel 6 from commercial use in the Albany-Schenectady-Troy area.[2]

(b) Alternatively, ABC also proposed that Channel 8 be shifted from New Haven, Connecticut, to the Albany-Schenectady-Troy area at reduced separations in the event that Channel 10 is not deleted from Vail Mills in order to make the Tri-City area a three station VHF area. Triangle Publications, Inc. (Radio and Television Division), licensee of Station WNHC-TV on Channel 8, New Haven, Connecticut, and Mt. Washington TV, Inc., licensee of Station WMTV on Channel 8, Poland Spring, Maine, filed Reply Comments in opposition to this alternative counterproposal of ABC.

(c) In addition to the foregoing proposals, Mohawk Valley Television, Inc., Fairfield, New York, proposed the "drop-in" of Channel 2 at Utica, New York.[3]

[12] The tabulation also reflects the action taken by the Commission in the Springfield proceeding in Docket No. 11747 assigning Channel 68 to Davenport-Rock Island-Moline in place of Channel 36.

[14] Commissioner Doerfer dissenting; Commissioner Mack dissenting and issuing a statement; filed as part of original document; Commissioner Craven abstaining from voting.

[1] The offset carrier designations were listed in a Notice of Further Proposed Rule Making (FCC 56-821) released September 5, 1956, in the several reallocation proceedings.

[2] General Electric Company also moved to dismiss such of the Comments filed in the proceeding which propose the deletion of Channel 6 from commercial use in Schenectady, claiming that they are beyond the scope of the instant proceeding and that they relate to a matter expressly excluded by the Commission when it instituted the proceeding. We believe that this argument is without merit, and that the motion should be denied. Our Notice of Proposed Rule Making in the instant proceeding, as well as our June, 26, 1956, Report and Order in the general television allocations proceeding in Docket No. 11532, both duly published in the FEDERAL REGISTER, made it clear that our purpose for instituting the instant proceeding was to further our program for improving the television situation in individual communities and areas. The tentative changes in television channel assignments proposed by the Commission in its Notice of Proposed Rule Making for improving the television situation in the Albany-Schenectady-Troy area did not preclude other parties from submitting alternative proposals affecting the same general area for consideration, and, in fact, the Notice invited such proposals. An ample opportunity has been afforded to submit reply comments in opposition to this counterproposal, and we believe the counterproposal in question is properly before us for consideration along with the Commission's proposal and all others filed in the proceeding.

[3] On July 19, 1956, the Commission issued a Memorandum Opinion and Order (FCC 56-748) denying a petition filed by Mohawk Valley, seeking amendment of the Table of Television Assignments so as to assign Channel 2 as a "drop-in" to Fairfield, New York, some 17 miles northeast of Utica, since the mileage separation rules did not then permit the assignment to Utica. The Commission stated that the proposal to add a second VHF channel in the Utica area would tend to inhibit the growth of UHF in that area, contra to the objectives set out in the Report and Order issued last June in Docket 11532, and that since Fairfield is only about 45 miles from the UHF satellite station WCDA at Hagaman, N. Y., and approximately 60 miles from WROW-TV (now WCDA) at Albany, it would conflict with the objective of the Commission's proposal in the instant proceeding. The Commission stated, however, that Mohawk Valley would have a full opportunity to participate in the instant proceeding and to submit its counterproposals.

Copper City Broadcasting Corporation, licensee of Station WKTV on Channel 13 at Utica, filed a reply to the Mohawk Valley comments and counterproposal in which it took no specific position with respect to the proposed assignment of Channel 2 to Utica.

6. In outlining our interim plans for improving the television situation in individual communities and areas in our decision in the general allocation proceeding last June, we noted that the widely varying circumstances in individual markets and the numerous factors bearing on the choice of techniques in any individual community or area made it impossible to formulate rigid criteria which could automatically be applied in individual cases to indicate the course which would best serve the public interest in each community. We concluded, however, that the following considerations would have a bearing on our decisions with respect to proposals to change channel allocations in specific communities or areas:

(a) In markets with one or more commercial VHF assignments, the merits of proposals to eliminate a VHF commercial assignment would depend to a large extent on such factors as: (1) Whether significant numbers of people would lack service as a result of the elimination of the VHF channels; (2) whether one or more UHF stations are operating in the area; (3) whether a reasonably high proportion of the sets in use can receive UHF signals; (4) whether the terrain is reasonably favorable for UHF coverage; and (5) whether, taking into account all the local circumstances, the elimination of a VHF channel would be consistent with the objective of improving the opportunities for effective competition among a greater number of stations.

(b) The desirability of assigning a first VHF channel or of adding an additional VHF channel would depend principally upon: (1) whether it is possible to locate the new transmitter so as to meet minimum transmitter spacings; (2) whether, in cases where it is necessary to move the channel from another city, there is greater need for the channel in the area to which it is proposed to be assigned; and (3) whether the addition of a new VHF assignment would be consistent with the objective of improving the opportunities for effective competition among a greater number of stations.

7. Accordingly, we have considered the Commission's proposal to delete Channel 10 from Vail Mills, and also the counterproposals relating to the deletion of both Channels 6 and 10, in light of the foregoing factors.

8. The Albany-Schenectady-Troy area may be characterized as a UHF area inasmuch as the preponderance of television channel allocations and operating stations in the area are UHF. Hudson Valley Broadcasting Co., Inc., has been operating UHF Station WCDA (formerly WROW-TV) on Channel 41 at Albany since October 1953. Van Curler Broadcasting Company commenced operation on UHF Station WTRI on Channel 35 in Albany in February of 1954. Operation of WTRI was suspended on January 31, 1955, but WTRI is now back on the air, having resumed operation in June 1956. Hudson Valley also has been operating UHF Station WCDB on Channel 29 at Hagaman, about 20 miles northwest of Schenectady, as a satellite of WCDA since March 1956. Another UHF station, WMGT on Channel 19 at North Adams, Massachusetts, about 35 miles southeast of the Tri-City area, operated from February 1954 to February 27, 1956, when its operation was suspended because of destruction of its tower. On November 29, 1956, its permittee, Greylock Broadcasting Company, was granted an STA to resume operation of WMGT, and on February 6, 1957, the Commission granted an application for voluntary assignment of the construction permit of WMGT to Hudson Valley to operate WMGT as a satellite of WCDA at Albany. Construction permits have also been outstanding for Stations WTVZ, the educational reservation on Channel 17, and for WPTR-TV on Channel 23 at Albany-Schenectady-Troy since July 1952, and June 1953, respectively, but the stations have never been constructed. Another UHF station, WKNY-TV on Channel 21 at Poughkeepsie, about 60 miles south of Albany, is now off the air, having been in operation from April 1954, to July 1956. In addition to the operating and assigned stations on these channels, four vacant UHF channels are available in the general area of Albany, Schenectady and Troy: Channel 59 at Amsterdam, New York, about 12 miles northwest of Schenectady; Channel 39 at Glens Falls, New York, about 45 miles north of Albany; Channel 74 at Bennington, Vermont, about 30 miles northeast of Albany, and Channel 66 at Kingston, New York, about 50 miles south of Albany. Further, five operating UHF stations provide a Grade B signal to portions of the Grade B contours of WRGB or the proposed Channel 10 Vail Mills station. These stations are Stations WWLP on Channel 22 at Springfield, Mass., 83 miles from the Tri-Cities; Station WATR-TV, on Channel 53, Waterbury, Connecticut, 90 miles away; WICC-TV on Channel 43 at Bridgeport, Conn., 113 miles distant; WGTH on Channel 18 at Hartford, Conn., about 90 miles distant, and WKNB-TV on Channel 30 at New Britain, about 90 miles distant. The Grade B signal of WAAB-TV on Channel 20 at Worcester, Mass., some 103 miles from the Tri-Cities, will also be received in portions of the Grade B contours of a Channel 10 or Channel 6 station when it commences operation.

9. Only two VHF channels have been allocated to the Albany-Schenectady-Troy area: Channel 6 to Albany-Schenectady-Troy, on which General Electric Company has operated WRGB at Schenectady commercially since 1947; and Channel 10 at Vail Mills, about 20 miles northwest of Schenectady, which assignment became effective December 16, 1955.[4] The application of Hudson Valley Broadcasting Company (BPCT-2202) for Channel 10 at Vail Mills has been on file since September 19, 1956. No VHF station except Station WRGB now puts a Grade B signal over Albany, Schenectady, or Troy, but nine CHF stations—all over 72 miles from the Tri-City area—provide a Grade B signal to portions of the Grade B contour of a Channel 10 (Vail Mills) station, or to portions of the Grade B contour of Station WRGB on Channel 6 at Schenectady. They are Station WKTV on Channel 13 in Utica, New York, about 72 miles from the Tri-Cities; Station WMUR-TV on Channel 9 at Manchester, New Hampshire, about 120 miles from the Tri-Cities; Stations WSYR-TV on Channel 3 and WHEN-TV on Channel 8 at Syracuse, New York, about 118 miles from the Tri-Cities; WCNY-TV on Channel 7 at Carthage, New York, about 127 miles from the Tri-Cities; WNBF-TV on Channel 12 at Binghamton, New York, about 127 miles from the Tri-Cities, Station WPTZ on Channel 5 at Plattsburg, New York, about 120 miles from the Tri-Cities; and WCAX-TV on Channel 3 at Burlington, Vermont, about 120 miles from the Tri-Cities.

10. The firm entrenchment of UHF in the Tri-Cities area is further indicated by the steady increase in conversions to UHF and by the high percentage of television sets in the area which are capable of receiving UHF transmissions. The record indicates that both the proponents and opponents of partial or complete deintermixture in the Tri-Cities area agree that as of October 1956, approximately 80 percent of the television homes in the urbanized Albany-Schenectady-Troy areas (Albany, Schenectady and Rensselaer Counties, wherein the cities of Albany, Schenectady and Troy are located) had television sets which were equipped to receive UHF transmissions. Van Curler states that conversions to UHF have increased at an average annual rate of more than 25 percent in the three-year period since UHF stations first began operating in the area and that it can be expected that at this rate all or substantially all of the sets in the area will be converted to UHF within a few years. General Electric points out that the American Research Bureau, Inc. reports, upon which the parties will rely for the 80 percent conversion estimate, indicate that the UHF receiver-saturation in all television homes in the urbanized areas of Albany-Schenectady-Troy increased from 51 percent in February 1955 to 66 percent in February 1956 and then to 80 percent in October 1956.

11. The record indicates that the central portion of the Albany-Schenectady-Troy area—which contains the densely populated urbanized areas of Albany, Schenectady and Troy—is in relatively flat terrain and is generally suitable for UHF coverage. The UHF operating stations and the high rate of conversions in these urbanized areas support this conclusion. Although General Electric opposes the deletion of Channel 6 from the Tri-Cities area, it recognizes that the terrain in Albany, Schenectady, and Rennselaer Counties wherein the cities of Albany, Schenectady and Troy are lo-

[4] The effective date of this allocation was stayed by the Court of Appeals on December 9, 1955, and the stay was dissolved on July 9, 1956 (Van Curler B/C Corp., et al. vs. U. S. et al., Case No. 12998, U. S. C. A., D. C.) (14 Pike & Fischer RR 2001).

cated is such that UHF can adequately serve these urbanized areas if Channel 6 is deleted from Schenectady. While the surrounding terrain is rough, hilly and mountainous, we do not agree with the parties opposing the deletion of the VHF assignments in the area that it is an impossible area for UHF. Hudson Valley claims that the poorness of the region for UHF is demonstrated by the fact that the service of its UHF Station WCDA to the northwest in the Schenectady area and within WCDA's Grade A contour was so inadequate that it was compelled to install a satellite operation (WCDB) at Hagaman and that its service to the east in the Troy area is so poor that it plans to operate WMGT at North Adams, Massachusetts, also as a satellite to more adequately serve this area. However, Van Curler points out that the difficulties experienced by WCDA in serving the area do not prove that the area is bad for UHF and that they are understandable in light of the fact that WCDA's antenna is located in the Hudson River Valley rather than at a higher elevation, such as is the antenna of WTRI which is on a mountain and almost 700 feet higher than WCDA's antenna. Van Curler claims that in view of the fact that most of the population in the Tri-Cities area is concentrated in the valleys, UHF stations by locating their antennas at strategic high elevations, can adequately serve the areas where the population is concentrated. As proof of this contention Van Curler points to the results of the comparative measurements which it made on WTRI which indicate that WTRI's measured contours extend over areas including between 80 and 90 percent of the population which would be expected to lie with its predicted contours and to the results of its mail pull studies which show that WTRI's signal is well received in the populated areas throughout most of its predicted Grade B contour and even beyond, and that the areas from which it receives little or no mail response from viewers is confined to mountainous areas where there is little or no population. Van Curler also states that in the event Channel 10 is deleted it plans to go forward with its plans to substantially increase the service area of WTRI by the use of high power and to improve its service by increasing WTRI's broadcast hours from 76 hours per week to 119 hours per week. Van Curler points out that it has already filed an application (BMPCT-4437, filed December 21, 1956) for modification of WTRI's construction permit to permit operation at 1,379 kw instead of 380 kw. While the measurements submitted by General Electric and Van Curler also indicate that the coverage of a VHF station in this terrain is much greater than that of a UHF station and that the coverage of a UHF station in this terrain, even with its antenna located at a high elevation, may be no more than 30 to 50 percent of that predicted by the Rules, we are of the view that the record demonstrates that in this terrain the populous valley areas can be satisfactorily served by UHF and that outlying areas can be reached and UHF service areas enlarged when necessary by the use of such techniques as higher power and antenna heights, satellites, translators, etc.

12. Although no viewers would lose existing service by the deletion of Channel 10 from Vail Mills since no station presently operates on this frequency, the question remains, however, whether any areas that would receive service from a Channel 10 station at Vail Mills would not get service from any other station; i. e., whether the deletion of Channel 10 from Vail Mills would create a "white area". We also have before us the counterproposal advanced herein which requests that Channel 6 at Schenectady, as well as Channel 10 at Vail Mills, be deleted from commercial use in the Albany-Schenectady-Troy area. In addition, therefore, we must explore the question of whether any areas that now receive service from Station WRGB on Channel 6 at Schenectady would lose their only television service if Channel 6 is removed from commercial use in the Tri-City area, and, if so, the extent of the "white areas".

13. Van Curler submits engineering computations—made in accordance with the rules and using authorized powers, antenna heights and locations of existing stations and assuming power of 316 kw and an antenna height of 1,000 feet for a Vail Mills Channel 10 operation—which indicate that only a small area of about 229 square miles more than 70 miles northwest of Albany in the Adirondack Mountains, containing about 1,145 people, would receive no Grade B service from any other station in the event that Channel 10 is deleted. It states that even this small "white" area will disappear entirely in a few years when existing VHF stations in Utica, Plattsburg, New York, or Burlington, Vermont, make increases in their power and antenna height. If, in addition to the deletion of Channel 10 from Vail Mills, Channel 6 is also deleted from commercial use at Schenectady, Van Curler—using the same methods and assumptions and assuming also that a UHF operation with power of 1,000 kw at the presently authorized height (1,020 feet) and location of WRGB will replace Station WRGB—computes the total area which would lose Grade B service to be 1,188 square miles, and the population therein to be 26,995. Van Curler claims, however, that when the UHF stations WMGT at Adams, Massachusetts and WKNY–TV at Poughkeepsie return to the air and existing UHF stations go to maximum facilities, there will be no area which would lose its only Grade B service if both Channels 10 and 6 were deleted from the area.

14. Using similar methods and assumptions as Van Curler, Hudson Valley computes the Grade B "white area" that will exist if Channel 10 is deleted to be 274 square miles containing 765 people, and the Grade B "white area" created by the deletion of both Channels 6 and 10 to be 1,053 square miles containing 7,913 people. Hudson Valley's engineers claim, however, that they believe the "white area" to be much greater than indicated by these figures in light of the fact that measurements taken in similar terrain of both UHF and VHF stations indicate that the UHF contours computed in accordance with the rules are overly optimistic for the rough terrain in this part of New York. While General Electric submitted no computations showing the areas and populations which would lose their only service in the event Channel 6 were to be deleted, on the basis of surveys, it estimates that even if both Stations WMGT at Adams, Massachusetts and WKNY at Poughkeepsie were to resume operation, 120,700 people, or about one-fourth of the total number served by WRGB, would be deprived of all television service if Channel 6 were deleted. This figure of 120,700 is derived from a sample survey of the area outside the three metropolitan counties of Albany-Schenectady-Troy. We are not at all convinced that this is a valid conclusion to be reached from that survey when other results of the survey are examined. For example, a careful examination of all the results of that survey discloses that a substantial number of UHF set owners in the area were not receiving UHF stations at the time of the survey because of some mechanical difficulty associated with their sets, i. e., improper antenna, broken know selector, etc. Such homes have been included in the figure of 120,700, apparently on the assumption that since the UHF portion of these sets was not in good repair at the time of the survey, such homes could not be considered as being able to receive UHF stations. We think that a contrary assumption is not only possible but probable. And on the basis of this assumption, i. e., homes with UHF sets out of adjustment should be considered as being able to receive UHF service, the result of the survey, even assuming its validity in all other respects, would indicate that a substantially smaller number of people than 120,700 might be unable to receive UHF service. More basically however, a serious question is also raised as to the validity of projecting the experience of the existing UHF set owners surveyed in the area to the total population of the area in the event all homes were UHF homes. Neither the survey nor the comments of General Electric cite any reasons for the validity of this projection procedure, and it is merely stated that it has been done on the assumption that "conversion of VHF sets would meet the same degree of success as the present UHF homes have met."

15. Since any computation of the area and population that might gain or lose their only potential and/or present television service by the deletion of Channel 10 or both Channels 10 and 6 from the Tri-Cities area must be based on so many variables and assumptions, including transmitter locations, heights and powers to be employed in the future and additional stations that might go on the air, no conclusive computations as to "white area" can be made. And the problem is made more complex by the fact that the propagation curves presently available and known methods of computation do not lend themselves to precise determinations of coverage at specific locations. We believe the record supports the conclusion that no significant number of persons would lose their only service if

Channel 10 were deleted and that the removal of Channel 6 also—particularly in light of the improvement in facilities of existing UHF stations in the area and the increase in the number of UHF stations which can be expected if this area is deintermixed—would cause no substantial number of persons in the Tri-Cities area to lose their only existing service.

16. The cities of Albany, Schenectady, and Troy, with 1950 city population of 134,995, 91,785 and 72,311, respectively, are in a market which ranks as the 31st in the country with a 1950 metropolitan area population of 514,490. Two VHF channels are allocated in this area, Channel 6 to Albany-Schenectady-Troy, which is occupied by the pre-freeze station WRGB at Schenectady, and Channel 10 at Vail Mills, a small unincorporated community of approximately 250 persons some 20 miles northwest of Schenectady. This allocation was made to Vail Mills in 1955 since the channel could not be allocated to the Tri-Cities in accordance with the minimum mileage separation requirements of the Rules. An application is now pending for Channel 10. In addition, three commercial UHF channels, Channels 23, 35 and 41, and one non-commercial educational channel, Channel 17, are allocated to Albany-Schenectady-Troy. Stations are operating on Channels 35 and 41, and construction permits have been outstanding for some time for Channels 17 and 23. Six other UHF channels have been allocated in the general area, but to date only the UHF satellite station at Hagaman is in operation. Another UHF satellite station, WMBT at North Adams, Massachusetts, is expected to commence operation in the near future, but the four UHF channels allocated to Amsterdam, Glen Falls, Kingston, New York and to Bennington, Vermont, remain unused. Further, WKNY–TV Corporation indicates in its Comments that its UHF operation at Poughkeepsie, New York, which has been off the air since July 25, 1956, would be reactivated if the television situation in the Tri-Cities area is improved. The primary purpose of this proceeding is to determine whether, in the light of all the factors and our interim objective of improving the opportunity for more effective competition among a greater number of stations, the Albany-Schenectady-Troy area should be partially deintermixed by deleting Channel 10 from Vail Mills or, in view of the counterproposals submitted herein, wholly deintermixed, by deleting Channel 6 also from the area or reserving it for educational use.

17. The parties urging deletion of the VHF assignments in the area contend that the opportunities for improved and effective competition in the Tri-Cities area can be met by eliminating the VHF channels assigned to the area or, alternatively, by the assignment of additional VHF channels to the area. They claim, however, that since only two VHF channels may be assigned to the area under present allocation standards whereas many UHF channels are available, the obvious choice should be the deletion of the VHF channels. They assert that experience has shown that UHF stations will not be able to compete effectively in a two station VHF market, and that if Channel 10 is retained at Vail Mills, instead of a minimum of four UHF stations (the two Albany UHF stations and the two UHF satellite stations at Hagaman and Adams, Massachusetts), the area will have but two commercial VHF stations; the UHF frequencies allocated to neighboring communities such as Amsterdam, Glen Falls, Bennington and Kingston, New York, will go to waste, and the public's investment in UHF receivers and converters, as well as the investments of the UHF permittees, will be wasted. If Channel 10 is retained and the UHF stations cease operation, it is also contended that it is unlikely that the UHF educational reservation in the area will ever be used, and that the network program choice now available in the Albany area would be reduced. On the other hand, if Channel 10 is deleted, it is contended that the existing UHF stations in the area will probably continue to operate and UHF set circulation will continue to increase. However, the proponents urge that only by making the Tri-City area all-UHF by deleting both Channels 10 and 6 from the area will it be possible to place all stations on an equal competitive footing and to meet the Commission's objective of providing maximum effective competition among the greatest possible number of stations.

18. In opposition to the deletion of Channel 10 from Vail Mills, Hudson Valley claims that although it is a UHF operator in the Tri-Cities area, it sought the addition of Channel 10 to the area and now urges that this allocation not be disturbed because it believes that the interests of the public can best be served by having a second and competitive VHF service. It contends that if Channel 10 is deleted more than a million people would be deprived of Grade B or better service from a second VHF station, and that since Channel 10 can only be used at Vail Mills this valuable frequency should not be wasted to enhance the competitive status of other grantees. With respect to the counterproposal to delete Channel 6 from Schenectady, General Electric states that there is no evidence that the development of competing television services in the Tri-Cities area was inhibited by the Commission's decision in Docket No. 11238 in November, 1955, to continue the allocation of Channel 6 for commercial use at Schenectady; that there were only two operating stations in the area at that time—VHF Station WRGB and UHF Station (now WCDA) WROW–TV—whereas there are now four—WRGB, and UHF Stations WCDA, WCDB and WTRI. It states further that the comments submitted in the record contain no evidence that the elimination of Channel 6 at Schenectady would result in a greater number of stations in operation beyond the suggestion that the UHF station at Poughkeepsie might return to the air and unsupported expressions of hope that additional UHF stations would be constructed in other outlying communities in that event. In addition, General Electric claims that no evidence has been submitted which supports the conclusion that deletion of Channel 6 from commercial use would result in more effective competition among stations; that service to the public would be enhanced by more competition; or that the service now being rendered in the area suffers from any absence of competition, and it urges that in all these respects, the available evidence requires a contrary conclusion.

19. We have reviewed the record in this proceeding in the light of the factors listed in our Report and Order of last June, and we have concluded that the public interest would be served by deleting Channel 10 from Vail Mills and Channel 6 from Schenectady and making it available for assignment elsewhere. The Tri-Cities area is now predominantly UHF; despite the ruggedness of the terrain, satisfactory service can be provided by UHF since the population is largely concentrated in the valley areas; the percentage of television sets capable of receiving UHF signals is high; several UHF stations are already operating in the area, construction permits are outstanding for a number of UHF stations in the area; and additional UHF channels are available. In our opinion, UHF can provide satisfactorily the multiple services that a market of this size needs. However, our experience in other markets convinces us that the advent of a second VHF station in a UHF market, such as Albany-Schenectady-Troy, would, in all probability, destroy the ability of the existing UHF stations to continue to provide service in the area. Since additional VHF channels cannot be assigned to the area under present allocation standards;* only two VHF channels are allocated to the entire Tri-City market; no VHF channels are allocated to cities closer than 72 miles from the Tri-Cities area, and no VHF stations from without the Tri-Cities area put a Grade B or stronger signal over any of the three principal cities, the failure of UHF in this area would mean that these cities and this important and sizable

* While ABC has proposed herein that VHF Channel 8 be shifted from New Haven, Connecticut, to the Tri-Cities area to provide a third VHF channel in the area in the event that Channel 10 is not deleted from Vail Mills, this proposed assignment admittedly would not comport with the minimum mileage spacing requirements of the Rules. A Channel 8 operation as Schenectady-Albany-Troy would be only 120 miles from the co-channel assignment at Syracuse. We have repeatedly indicated that operations at substandard spacings would not promote efficiency in the use of the limited channels available and have rejected all such proposals (See Memorandum Opinion and Order, FCC 56–1269, Docket 11532, released December 27, 1956). We therefore are rejecting this proposal without further consideration, and, in light thereof, need not consider further the objections raised by Triangle Publications, Inc., licensee of WNHC–TV on Channel 8 at New Haven, and by Mt. Washington TV, Inc., licensee of Station WMTW on Channel 8 at Poland Spring, Maine, to the allocation of Channel 8 in the Albany-Schenectady-Troy area.

market would be dependent upon two television services. By eliminating Channel 10 at Vail Mills, the continued existence of the present services in the area at least can be reasonably assured. However, our experience also indicates that the continued operation of one VHF station in the market will not enhance the potentiality for other UHF stations on the UHF channels allocated to the area and to neighboring communities nor the possibility of more effective competition among a greater number of stations and among the networks. Deletion of both VHF assignments, we believe, is necessary to remove any artifical restraint on the establishment of additional stations in the area and to create a situation whereby the number of stations can be determined solely by what the traffic will bear. We find, therefore, that the deletion of Channel 10 from Vail Mills, and likewise the deletion from commercial use of Channel 6 at Schenectady will further our objective of improving the opportunities for effective competition among a greater number of stations. While some VHF service may be provided to portions of the Tri-Cities area by stations in relatively distant cities and separate markets, we do not believe that UHF in this market will be adversely affected by such VHF signals. We believe that the action we are now taking carries out the mandate of section 307 (b) of the Communications Act by increasing the likelihood of more television service and more local television outlets in the Albany-Schenectady-Troy area. It should be emphasized that in removing Channels 10 and 6 from this area our primary purpose is not to guarantee the profitable operation of particular UHF licensees but to insure more effective competition among a greater number of stations in order that the public in the Tri-Cities area will be afforded more and better television service.

20. In addition to the improved competitive television situation which will result in the Albany-Schenectady-Troy area by virtue of the deletion of both VHF allocations, Channel 6 can be shifted to another community where, in light of local circumstances, the addition of a VHF channel might improve the competitive television situation. Both Van Curler and ABC have submitted counterproposals suggesting that Channel 6 be deleted from Schenectady and shifted to Syracuse to provide that city with a third VHF station which could compete on an equal footing with its two existing VHF stations. As an alternative, Van Curler urged that Channel 6 be reserved for educational purposes at Albany. WKNY–TV Corporation at Poughkeepsie also endorsed these counterproposals. The proposal to assign Channel 6 to Syracuse would comply with the mileage separation requirements of the Rules if a Channel 6 transmitter were located slightly south of Syracuse, but Canada would have to be notified of this assignment inasmuch, as Van Curler indicates, from a transmitter location south of Syracuse (site of WSYR–TV or WHEN–TV) there would be a co-channel separation of but 170.5 miles with Station CBLT, Toronto, Ontario, Canada, and from the center of Syracuse but 167 miles.*

21. We are of the view that the merits of the proposal to shift Channel 6 to Syracuse outweigh the advantages for retaining Channel 6 in the Tri-Cities area for educational use. Two VHF channels are allocated to Syracuse and stations are operating on both channels (Stations WSYR–TV on Channel 3 and Station WHEN–TV on Channel 8). VHF stations at Utica, New York and Binghamton, New York, also provide Grade B service to the city. No UHF stations are operating in Syracuse; few receivers in the Syracuse area are equipped for UHF reception, and while a construction permit has been issued for the UHF educational reservation, Channel 43, the station has never been constructed. In light of the two operating VHF stations in the area and these additional circumstances, we are convinced that Syracuse, the 50th ranking market in the country with a population of 220,583 and a metropolitan area population of 341,719, will remain a two-station market unless a third VHF channel is allocated. We believe therefore that the allocation of Channel 6 to Syracuse will serve the need of this community for more local television outlets and will improve the opportunities for effective competition among a greater number of stations and networks in the Syracuse market.

22. We do not believe that any action should be taken at this time with respect to the counterproposal submitted by Mohawk Valley Television, Inc., for the "drop-in" of Channel 2 at Utica, New York, to provide the Rome-Utica area with a second VHF channel allocation and a second competitive VHF television service. Before taking action on this proposal or any other proposal for further channel reallocations or assignments in the Central New York area and adjacent areas in neighboring states, we intend to study carefully the channel allocation availabilities and needs of this region in light of the action which we are taking concurrently in this case and in the Elmira deintermixture proceeding. However, the action we are now taking does not rule out this proposal nor foreclose it from consideration after our study is completed.

23. For the foregoing reasons, it is the judgment of the Commission that amendment of the Table of Assignments for Television Broadcast Stations (§ 3.606) of the Commission's rules by deleting Channel 10 from Vail Mills, New York; substituting Channel 47 for Channel 6 at Albany-Schenectady-Troy, New York, and assigning Channel 6 to Syracuse would promote the public interest, convenience and necessity. However, General Electric Company has an outstanding license for operation of Station WRGB on Channel 6 at Schenectady, New York. In view of the provisions of sections 303 (f) and 316 of the Communications Act of 1934, as amended, the frequency of Station WRGB could not be changed from Channel 6 to Channel 47 without a hearing, in the absence of the consent of the licensee.

24. *Accordingly, it is ordered*, That General Electric Company is hereby notified of the proposed modification of its authorization to specify operation on Channel 47, and the grounds and reasons therefor, and is directed to show cause why such order of modification should not issue, by filing with the Commission at its offices in Washington, D. C., on or before April 15, 1957, a response stating in detail the reasons why it believes its authorization should not be so modified.

25. An original and 14 copies of the response should be filed, and should indicate whether or not General Electric Company requests a public hearing in the matter and whether it intends to appear at such hearing and present evidence on the matters specified herein and in said response.

26. The failure to file a response by April 15, 1957, shall be deemed a consent by respondent to the modification of its authorization as proposed, and a final order will be issued accordingly, unless in a petition filed at least five days before said date respondent shows good cause why such time should be extended. The failure to indicate in said response that respondent requests a hearing will be deemed a waiver of its right to a hearing.

27. If a response is filed and the right to request a hearing has been waived, the Commission may, depending upon the facts alleged and the proof offered, either call upon General Electric to furnish additional information under oath, designate the matter for hearing on its own motion or issue without further proceedings an order modifying General Electric's license as proposed.

28. *It is further ordered*, That effective April 15, 1957, the Table of Assignments contained in § 3.606 of the Commission's rules and regulations is amended by deleting from the Table, Vail Mills, New York, 10—.

29. Authority for the amendments herein is contained in sections 1, 4 (i and (j), 301, 303 (a), (b), (c), (d), (e), (f), (g), (h) and (r), and 307 (b) of the Communications Act of 1934, as amended, and section 4 of the Administrative Procedure Act.

(Sec. 4, 48 Stat. 1066, as amended; 47 U. S. C. 154. Interprets or applies secs. 301, 303, 307, 48 Stat. 1081, 1082, 1083; 47 U. S. C. 301, 303, 307)

Adopted: February 26, 1957.

Released: March 1, 1957.

FEDERAL COMMUNICATIONS COMMISSION,[1]

[SEAL] MARY JANE MORRIS, *Secretary.*

[F. R. Doc. 57–1732; Filed, Mar. 7, 1957; 8:45 a. m.]

* In accordance with Section H of the Canadian-United States Television Agreement (TIAS2594), all changes in the Table of Assignments in communities within 250 miles of the U. S.-Canadian border are subject to notification with the opportunity of protest.

[1] Commissioner Doerfer dissenting; Commissioner Mack dissenting and issuing a statement filed as part of original document.

[Docket No. 11757; FCC 57–186]

[Rules Amdt. 3–58]

PART 3—RADIO BROADCAST SERVICES

TABLE OF ASSIGNMENTS, TELEVISION BROADCAST STATIONS

In the matter of amendment of § 3.606, Table of Assignments, Television Broadcast Stations (Evansville, Indiana).

1. The Commission has before it for consideration the proposals set out in its Notice of Proposed Rule Making (FCC 56–598) issued in this proceeding on June 26, 1956, and subsequent further Notices, for the reallocation of television assignments in Evansville so as to change the educational reservation in that city from Channel 56 to Channel 7, as well as related counterproposals discussed hereafter. Interested parties have been afforded an opportunity to submit comments directed to the Commission's proposals and to advance counterproposals, and we are now in a position to issue our Report.

2. The Commission last June issued its Report and Order in the general television allocation proceeding in Docket No. 11532, outlining a long-range program designed to improve the television allocation structure. At the same time we considered what action might be taken to improve the opportunities for more effective competition among a greater number of stations in individual communities and areas pending a resolution of the long-range program, which will require some years to implement. In furtherance of this interim program a number of rule making proceedings such as the instant one have been initiated proposing channel changes for various communities.

3. With respect to Evansville, the Commission proposed to deintermix Evansville by shifting the educational reservation from UHF Channel 56 to VHF Channel 7, as follows:

City	Channel No.	
	Present	Proposed
Evansville, Ind.	7, 14, 50, *56[1]	*7, 14, 50, 56.

*Reserved for educational use.
[1] On January 30, 1957, the Commission shifted UHF Channel 62 from Evansville to Owensboro, Kentucky, and shifted Channel 14 from Owensboro to Evansville.

4. On October 22, 1956, the Commission issued a Memorandum Opinion and Order (FCC 56–1007) with respect to petitions filed by Mid-America Broadcast Corporation, Senator Robert Humphreys, Governor A. B. Chandler of Kentucky, and Mayor Andrew Broaddus of Louisville, Kentucky, seeking to amend the Commission's Table of Television Assignments so as to shift Channel 7 from Evansville, Indiana, to Louisville, Kentucky, as follows:

City	Channel No.	
	Present	Proposed
Evansville, Ind.	7, 14, 50, *56.	14, 50, *56.
Louisville, Ky.	3, 11, *15, 21, 41, 51.	3, 7, 11, *15, 21, 41, 51.

The Commission stated that this request should be considered in conjunction with the subject proceeding and that there was no necessity for amending the Notice of Rule Making or for instituting further rule making to incorporate the Louisville proposal, and that parties advancing this proposal could fully prosecute it as a counterproposal in this proceeding.

5. In addition to the foregoing proposals, Premier Television, Inc., operator of Station WFIE on Channel 14 in Evansville; and WEHT, Inc., operator of Channel 50 in Henderson, Kentucky, jointly submitted a counterproposal urging that the Commission's proposal for Channel 7 be adopted and that, in addition, Channel 9 at Hatfield, Indiana, be reserved for educational use.

6. On December 3, 1956 the Commission released a Memorandum Opinion and Order (FCC 56–1191) concerning a petition filed by Evansville Television, Inc. (WTVW) requesting withdrawal of the Commission's June 26, 1956, Notice of Proposed Rule Making in this proceeding. WTVW's petition was denied "* * * without prejudice to the Commission's right to consider the contentions thereof in connection with the comments to be filed in [this proceeding]".

7. Comments have been filed by interested parties: Premier Television, Inc. (WFIE) on Channel 14 in Evansville; WEHT, Inc. (WEHT) on Channel 50 in Henderson, Kentucky; the American Broadcasting Company; and the Joint Council on Educational Television all of whom support the Commission's proposal to reserve Channel 7 for educational use or to delete it from Evansville. Evansville Television, Inc. (WTVW) on Channel 7 in Evansville and the Evansville Chamber of Commerce oppose the proposal. Comments favoring the counterproposal to reserve Channel 9 at Hatfield for educational use, in addition to the reservation or deletion of Channel 7 at Evansville, were filed by the permittees of WFIE and WEHT. Parties filing comments favoring the counterproposal to shift Channel 7 to Louisville for use in that city as a commercial channel were Mid-America Broadcasting Corporation, permittee of Station WKLO–TV on Channel 21 (operation suspended) in Louisville; the American Broadcasting Company; Harry Lee Waterfield, Acting Governor of the State of Kentucky; Mayor Andrew Broaddus of Louisville; Robert Humphreys, United States Senator from Kentucky; and Governor A. B. Chandler of Kentucky.[1] Reply comments were submitted by the permittees of WFIE, WEHT and WTVW and by ABC. A joint "Motion to Strike Comments Related to Channel 9 at Hatfield, Indiana" was field by Owensboro On the Air, Inc., and Owensboro Publishing Company, applicants for stations on Channel 9 at Hatfield, Indiana. A "Motion to Strike Reply Comments of Premier Television, Inc., and WEHT, Inc." was filed by WTVW; an opposition to this motion was tendered by WFIE and WEHT, and a reply thereto was filed by the movant.

8. We noted in our Report and Order, issued last June, outlining the proposals for interim action, that because of the widely varying circumstances in individual markets, as well as the numerous factors bearing on the choice of techniques in any individual community or area, it would not be possible to formulate rigid criteria to be applied to individual cases in order to indicate the course that would best serve the public interest in each community. We did conclude, however, that certain considerations would have a bearing on our decisions in the individual cities. We stated that in markets with one or more commercial VHF channels, the merits of proposals to eliminate a VHF channel would depend, in large part, on such factors as:

(1) Whether significant numbers of people would lack service as a result of the elimination of the VHF channel.

(2) Whether one or more UHF stations are operating in the area.

(3) Whether a reasonably high proportion of the sets in use can receive UHF signals.

(4) Whether the terrain is reasonably favorable for UHF coverage.

(5) Whether, taking into account all the local circumstances, the elimination of a VHF channel would be consistent with the objective of improving the opportunities for effective competition among a greater number of stations.

Similarly, we noted that the desirability of assigning additional VHF channels to communities would depend principally upon:

(1) Whether it is possible to locate the new transmitter so as to meet minimum transmitter spacings.

(2) Whether, in cases where it is necessary to move the channel from another city, there is greater need for the channel in the area to which it is proposed to be assigned.

(3) Whether the addition of a new VHF assignment would be consistent with the objective of improving the opportunities for effective competition among a greater number of stations.

We proceed to consider the various proposals and counterproposals relating to Channels 7 and 9 in the light of these factors.

9. The Evansville area is a predominantly UHF area from the standpoint of operating stations and channel assignments. Premier Television, Inc., operates UHF Station WFIE on Channel 14 in Evansville and WEHT, Inc., operates UHF Station WEHT on Channel 50 in Henderson, Kentucky, a city just across the Ohio River from Evansville. Another UHF station operating in the general area is WSIL–TV on Channel 22 in Harrisburg, Illinois, some 56 miles from Evansville. A construction permit is held for Station WRAY–TV on Channel 52 in Princeton, Indiana, about 25

[1] Numerous petitions, resolutions, letters and post cards opposing the deletion or reservation of Channel 7 were received from cities, villages, organizations and individuals in the Evansville-Owensboro area. A number of other communications were received from state and local officials and from organizations and individuals in the Louisville area asking that Channel 7 be allocated to Louisville.

miles from Evansville, which station suspended operations in July 1954. Another construction permit is held for Station WKYT on Channel 62 in Owensboro, Kentucky, about 30 miles from Evansville. In addition to operating stations, 8 UHF channels are available in the Evansville area: Channel 16 in Olney, Illinois, 58 miles from Evansville; Channel 19 in Jasper, Indiana, 42 miles away; Channel 26 in Madisonville, Kentucky, 45 miles away; Channel 31 in Tell City, Indiana, 43 miles away; Channel 38 in Mt. Vernon, Illinois, 75 miles away; Channel 44 in Vincennes, Indiana, 48 miles away; Channel 45 in Princeton, Kentucky, 62 miles away; and Channel 60 in Washington, Indiana, 48 miles away. On the other hand, only two VHF channels are allocated to the entire area within 75 miles of Evansville: Channel 7 in Evansville, on which Station WTVW is now operating; and Channel 9 in Hatfield, Indiana, a community 13 miles from Owensboro and 21 miles from Evansville, which channel is now the subject of a comparative hearing between two competing applicants. No other VHF station put a Grade B or stronger signal over Evansville, and relatively little VHF service now invades the immediate Evansville area. A construction permit is held for, but operation has not yet commenced at, Station WBSD–TV on Channel 6 in Paducah, Kentucky, 85 miles from Evansville. The only other VHF stations which serve any portions of the Grade B contour of WTVW on Channel 7 at Evansville are Stations WAVE–TV and WHAS–TV in Louisville, 98 miles from Evansville; WTRI–TV in Terre Haute, 100 miles from Evansville; WTTV–TV in Bloomington, Indiana, 100 miles from Evansville; and WSM–TV and WLAC–TV in Nashville, Tennessee, 132 miles from Evansville.

10. The UHF character of the Evansville area is further illustrated by the high percentage of television sets in the area capable of receiving the UHF transmissions. Evansville and the Evansville standard metropolitan area (Vanderburgh County) are virtually 100 percent converted to UHF. Data in the record also indicates that over 84 percent of the receivers in Daviess County (Owensboro) can receive UHF signals, and the percentage of UHF-equipped sets approaches that figure in the entire service area of the operating UHF stations.

11. The record indicates that the terrain in the Evansville area is generally smooth and consists chiefly of flat farmlands of southern Illinois, southern Indiana and north-western Kentucky. WFIE and WEHT claim that in the area to the northwest of Evansville, the area where there are the fewest television signals and hence where long-range propagation is most important, the terrain consists almost entirely of smooth farmland. Contrarily, WTVW asserts that the areas now "receiving satisfactory service from Channel 7 contain rugged terrain which is not favorable for UHF transmission", and its consulting engineer mentions that there are "areas of irregular terrain * * * in the vicinity of the Ohio River and east of Evansville." Yet we note that WTVW has nowhere stated the extent of this allegedly "rugged", "irregular" terrain; nor has it asserted that this uneven terrain is within the WTVW Channel 7 Grade B contour.[2] We find nothing in the record before us which demonstrates that the terrain in the Evansville area would provide significant difficulties for UHF propagation.

12. An important question requiring resolution is whether any areas that now receive Station WTVW on Channel 7 in Evansville would lose their only television service if Channel 7 is reserved for education; i. e., whether the reservation of Channel 7 will result in the creation of a "white area." Since counterproposals advanced in this proceeding ask that Channel 7 be shifted to Louisville and used there as a commercial channel, and that Channel 9 in Hatfield be reserved for education, our consideration of the merits of these counterproposals, as well as the Commission's initial proposal, requires that we endeavor to ascertain on the basis of available indications whether any "white areas" will result and, if so, the extent of such "white areas": (1) If only Channel 7 is reserved or deleted, and (2) if both Channels 7 and 9 are reserved or deleted. Further, we should consider whether, if Channel 7 is shifted from Evansville to Louisville, the "white area", if any, which would result in the Evansville area would be partially or completely offset by present "white area" in the Louisville area which, as a result of the channel shift, would receive its first television service.

13. Both WKLO–TV and WTVW computed the "white area" (i. e., the area which could lose its only Grade B or stronger signal) which would result from the reservation or removal of Channel 7 from Evansville and the retention of Channel 9 in Hatfield. WKLO–TV asserts that this "white area" would comprise 154 square miles (population not given); yet WTVW states that the "white area" would constitute 734 square miles with a population of 28,928 persons. Each party's computation was made in accordance with the methods prescribed in our Rules, using presently authorized powers and antenna heights. WKLO–TV, however, took into consideration, as if they were operating stations, two authorized but not operating UHF stations in Princeton, Indiana,[3] and Owensboro, Kentucky; while WTVW did not take into account these UHF authorizations.

14. WFIE and WEHT assert that the "white area" which would result from the reservation or deletion of both Channel 7 at Evansville and Channel 9 at Hatfield would comprise 534 square miles and 23,094 persons. WTVW, on the other hand, contends that this "white area" would be 974 square miles with a population of 90,713. The disparity between these computations, like those discussed in the preceding paragraph, arise primarily from the fact that WFIE and WEHT assumed that the authorized but not operating UHF stations in Princeton and Owensboro were rendering television service, while WTVW did not take these authorizations into account.

15. The UHF stations supporting deintermixture ran field intensity measurements in the three areas which, according to their computations employing the propagation curves set out in the rules, will become "white areas" if both Channels 7 at Evansville and 9 at Hatfield are deleted or reserved for education. These measurements appear to show that some UHF service exists at the present time in these areas. While many of the 161 locations measured apparently do receive a good television picture, others do not. Since coverage at VHF and UHF frequencies is a statistical matter, it is not possible to judge the exact nature of the service unless a sufficiently large sampling is taken, which was not the case with these measurements. Hence, we do not attach decisional significance to these measurements. WFIE and WEHT contend that their UHF coverage has been proved by actual observation and mail response to be 10 to 15 miles in excess of their Grade B contours, as such contours are computed in accordance with the Commission's rules. They further state that they plan to expand their facilities to provide more extensive coverage, and that operation of their stations with 1,000 kw at 1,000 feet would eliminate any "white area" resulting from the reservation or deletion of Channel 7, since coverage of such UHF stations would equal that of an Evansville Channel 7 operation with maximum facilities (316 kw at 1,000 feet).[4]

16. If Channel 7 is moved to Louisville, WKLO–TV asserts that an operation on that channel would provide a first service (i. e., would result in the elimination of present "white areas") to 1,237 square miles or 1,883 square miles, depending upon which of two competing applications for Channel 13 at Bowling Green, Kentucky, is granted.[5] Approximately 56,300 persons reside in the 1,237 square miles "white area" and 75,300 persons in the 1,883 square mile "white area".

17. Since any computation of the areas and populations that might gain or lose their only present and/or potential television service from the Commission's proposal and from any of the counterproposals urged in this proceeding must of necessity be grounded on so many variables and assumptions, including transmitter locations, heights and powers to be employed in the future and additional stations that might sign on the air, no precise computations can be made. And the problem is made more complex by the fact that the propagation curves presently available and known methods of computation do not lend themselves to precise determinations of coverage at specific locations. However, our careful analysis of all the information which is available on this record has led us to the conclusion that if Channel 7 is moved from Evansville to Louisville, the population that will lose its only service (predictions vary from zero to 28,928) will be more than offset by the population that will gain its first service (predictions vary from 56,300 to 75,300). It is also apparent that the population that will lose its only service if Channel 7 is shifted from Evansville to Louisville and if Channel 9 is reserved for education or deleted (predictions vary from 23,094 to 90,713) will be substantially or completely offset by the population that will gain its only service from a Louisville operation on Channel 7.

18. Evansville, the 108th market in the nation, with a 1950 standard metropolitan area population of 160,422 and a city population of 128,636, has been allocated three commercial channels, VHF Channel 7 and UHF Channels 14 and 50. Channel 56, also allocated to Evansville, is an educational reservation. Stations have been operating on the UHF channels for several years. Station WTVW, on Channel 7, signed on the air only during September 1956. Owensboro, Kentucky, and Hatfield, Indiana, are both approximately 30 miles from Evansville. A construction permit is held for Station WKYT on Channel 62 in Owensboro, Kentucky, 30 miles from Evansville; and a comparative hearing is in progress between two applicants for Channel 9 at Hatfield, Indiana, 21 miles from Evansville. The primary purpose of this proceeding is to determine whether the Evansville area, which includes Owensboro and Hatfield, should be wholly or partially deintermixed by either deleting or reserving for education one or both of the VHF channels now allocated to the area. The proponents of deintermixture contend that, based upon experience in larger markets than Evansville, it is an established fact that UHF stations cannot compete successfully with two or more VHF stations in a single market. Thus, they argue that Channel 7 in Evansville and Channel 9 in Hatfield should be removed from competition with UHF stations. They emphasize that there is a potential of 5 UHF stations in the Evansville market, and that more UHF channels are available to communities on the periphery of the region. They argue that, while none of these as yet unused UHF channels would be utilized if the area becomes partially or predominantly VHF, if it is kept free of destructive VHF competition there is an economic potential for use of the UHF channels in these smaller cities surrounding Evansville with the expected availability of better and cheaper film, small market network plans and lower operating costs. WFIE and WEHT allege that, even though they have managed to survive four months of competition from one VHF station, this fact is no yardstick to predict future survival, because only one VHF station is now on the air, although another VHF (Channel 9 in Hatfield) will sign on later. WFIE and WEHT further assert that during the four months that VHF Station WTVW has been on the air, it has operated with a low power, temporary physical plant and without a live network interconnection; and that WTVW has been racked with internal difficulties, transfer of control to new parties and other inter-corporate problems.

19. WTVW contends that the objective of improving the opportunities for effective competition among a greater number of stations would not be accomplished through adoption of the proposal, since WFIE and WEHT are already effectively competing against Station WTVW. WTVW emphasizes that the UHF stations have retained their NBC and CBS affiliations, while WTVW has obtained a less desirable ABC affiliation. WTVW further notes that the proposed reservation or deletion of Channel 7 will not effectively deintermix the Evansville area, because a station on Hatfield Channel 9 will provide Grade B service to most of the Evansville Channel 7 Grade B service area, and since VHF stations in Louisville, Bloomington, Indianapolis, Terre Haute, and Nashville serve parts of the WTVW service area.

20. Our experience in other markets has demonstrated that the continuance of a single VHF station in a UHF market such as Evansville generally seriously affects the ability of the UHF stations to render service; while the advent of a second VHF station in such a market frequently spells the demise of all or most of the UHF service in the area. Since only one VHF channel is assigned to Evansville and only two VHF channels are allocated for the entire Evansville–Owensboro area, since no other VHF stations put a Grade B or stronger signal over Evansville, and since additional VHF channels cannot be assigned to the area under present allocation standards, the failure of UHF would mean that Evansville would be forced to depend upon a single VHF station for local service and would receive only two television services. This possibility can be obviated by eliminating the VHF channels in Evansville and Hatfield and thereby equalizing the competitive situation. The assignment of a third commercial UHF channel to Evansville and of a second UHF channel to Owensboro will enhance the possibility of more effective competition among the networks in these markets and of bringing the programs of all three networks to the public. Deintermixture, we feel, would remove any artificial restraint on the establishment of a third or even a fourth station in the area; and the number of stations would be determined solely by what the traffic will bear. We find, therefore, that the removal of Channel 7 from Evansville, the transfer of Channel 9 from Hatfield to Evansville where it will be reserved for educational use, and the allocation of UHF Channel 31 to Evansville[6] and UHF Channel 56 to Owensboro[7] will further our interim objective of improving the opportunities for effective competition among a greater number of stations. While we recognize that "complete" deintermixture of the area now served by Station WTVW on Channel 7 will not be achieved by these channel changes since some VHF service is provided to the periphery of this area by stations in other cities, we do not believe that the reception of VHF signals from relatively distant cities and separate markets will seriously impair UHF in Evansville and throughout the Evansville trade area. Furthermore, it is noted that much of the service areas of the UHF stations will, as a result of the removal of Channels 7 and 9 from commercial operation in the area, be free from VHF competition.

21. In addition to the benefits falling to the Evansville market by virtue of deintermixture, Channel 7 can be assigned to another community, Louisville, where, in light of local circumstances, the addition of a VHF outlet should improve the competitive television situation. This city has a population of 369,129, and the Louisville standard metropolitan area has a population of 576,900, the 25th market in the nation. Louisville now has two VHF channel assignments with operating stations on both channels. No other VHF station provide a Grade B or stronger signal to Louisville. Although three UHF channels are assigned to Louisville for commercial use and an additional UHF is reserved for education, there are no UHF stations on the air there[8] or in any city closer than Lexington, Kentucky, some 70 miles from Louisville. The parties urging the counterproposal to shift Channel 7 to Louisville assert that there is no chance of additional television service in that predominantly VHF area unless a VHF channel is added, and that Channel 7 would afford a much-needed third local outlet. They assert that a minimum of three fully competitive facilities in each of the major markets in the nation, including Louisville, is required to promote effective local competition and to provide adequate competition between national networks.

22. We must next determine whether Channel 7 in Louisville would meet the technical allocation requirements. Since the distances between the City of Louisville and reference points in other communities where Chanel 7 is also assigned do not meet the mileage separation provisions of our rules, Channel 7 cannot be

[2] WTVW claims "extended service" beyond the WTVW Grade B contour to that station's 316 microvolt per meter contour.

[3] Station WRAY–TV operated on Channel 52 in Princeton from December 10, 1953, to July 15, 1954. The construction permit for this station is still outstanding.

[4] The opponents argue that it would be folly to expect the UHF stations in the Evansville area to increase facilities to maximum power and antenna height, since the resulting increase in service areas of the UHF stations would be in predominantly VHF areas now served by VHF stations in Louisville, Bloomington, Terre Haute, Nashville, and Paducah, where few sets are equipped to receive UHF signals.

[5] In making this determination, WKLO–TV computed the Grade B contours of all stations, using presently authorized powers and antenna heights. The Louisville Channel 7 transmitter site was assumed to be at Big Spring, Kentucky, with 316 kw at 1,500 feet.

[6] The assignment of Channel 31 to Evansville requires its deletion from Tell City, Indiana, and the substitution therefor of Channel 78 in Tell City. No application has been filed for a station in Tell City.

[7] The assignment of Channel 56 to Owensboro requires its deletion from Evansville, where it is now a noncommercial educational reservation. As shown in paragraph 23, infra, Channel 9 is being shifted to Evansville as the educational reservation for that city.

[8] WKLO–TV operated on Channel 21 in Louisville from October 18, 1953 to April 20, 1954.

allocated to Louisville unless it appears that a transmitter site is available that would meet minimum spacing requirements and from which location a minimum "city grade" signal can be placed over Louisville. We believe the record demonstrates that such a site would be available.[9]

23. We have reviewed the record in this proceeding with a view to the factors listed in our Report and Order of June 26, 1956, and conclude that the public interest would be served by deleting Channel 7 and assigning UHF Channel 31 to Evansville, and by adding Channel 7 to Louisville. We also believe that the counterproposal to reserve for education Channel 9, now assigned to Hatfield, Indiana, would serve the public interest, convenience and necessity. However, since Evansville has a population of 128,636 and a metropolitan area population of 160,422, is the seat of several noted educational institutions of higher learning and is the principal educational center in its trade area, we believe that Channel 9 should be reserved for educational use in Evansville rather than in Hatfield. We further conclude that UHF Channel 56, now reserved for education in Evansville, should be unreserved and shifted to Owensboro, Kentucky.[10] The Evansville area (including Owensboro and Hatfield) is predominantly UHF; the terrain is satisfactory for UHF propagation; the vast majority of sets are equipped for UHF; several UHF stations in the area are providing service to the public; and additional UHF channels are available to replace Channels 7 and 9. Further, the population that will lose its only service in the Evansville area will be largely or completely offset by the population that will gain its first service from a Louisville station on Channel 7.

24. We believe that the action we are now taking carries out the mandate of section 307 (b) of the Communications Act, because it will result in the assignment of frequencies so as to provide a more fair, efficient and equitable distribution of television service in both the Evansville and Louisville areas, and will increase the likelihood of more TV service and more local TV outlets in these areas. It should be emphasized that in removing Channel 7 from Evansville and in reserving Channel 9 for education in that city our primary purpose is not to guarantee the profitable operation of particular UHF licensees. Rather, we wish to insure more effective competition among a greater number of stations in order that the public in the Evansville area will be afforded more and better television service.

25. WTVW reasserts the contentions advanced in its petition for withdrawal of the Commission's June 26, 1956, Notice of Proposed Rule Making in this proceeding. WTVW argues that the Commission has arbitrarily, and hence illegally, selected Evansville for deintermixture without having first adopted any reasonable formula for deintermixture to be applied nationwide for the selection of cities to be deintermixed. This contention is without merit. Our June 26, 1956, Report and Order in the general television allocation proceeding (Docket No. 11532) makes abundantly clear the fact that the Commission was embarking upon a longe-range program of research and development looking toward the feasibility and advisability of shifting all or a major part of the television service in this nation to the UHF band. The Report and Order further stated that, since some years will occur before such a long-range program could be implemented, the Commission has deemed it appropriate to initiate action to improve, at the earliest practicable time, the opportunities for effective competition among a greater number of stations in those communities where in our view such action offers the most likelihood of achieving the desired salutary results. Although the Commission on its own motion selected as the subjects of rule making thirteen areas, including the Evansville area, where channel changes appeared to offer the best possibility of furthering our program, we emphasized that these areas would not necessarily be the only ones for which deintermixture proposals would be entertained. On July 19, 1956, the Commission, at the instance of a petitioner, instituted similar rule making in a fourteenth area Columbia, South Carolina. Other rule making petitions seeking deintermixture of other markets are pending and will be considered in due course. Where the proposals embodied in these petitions appear to offer sufficient promise of furthering our program of improving the opportunities for effective competition among a greater number of stations, rule making proceedings will be instituted. It is thus apparent that the Commission has not arbitrarily picked certain communities as the sole subjects of deintermixture proceedings without giving due consideration to the effect that such rule making will have upon the national television allocations structure.

26. WTVW contends that the instant rule making proceeding illegally deprives it of its statutory right to a full adjudicatory-evidentiary hearing, as required by sections 303 (f) and 316 of the Communications Act. It does not do this. This proceeding looks toward a change in § 3.606 of the Commission's rules, the Table of Assignments of television broadcast channels. It thus constitutes a valid exercise of our rule making function in compliance with the Communications Act and the Administrative Procedure Act. See Logansport Broadcasting Corp. v. United States, 210 F. 2d 24; Peoples Broadcasting Company v. FCC, 209 F. 2d 286. The channel changes herein proposed do not in any way eliminate or diminish the substantive right of a broadcast permittee or licensee to a full evidentiary hearing, if one is requested, before its authorization can be modified.

27. WTVW argues that UHF is a technically inferior service at this stage of development due to difficulties of reception, failure of receiver components and additional operating costs; and that it is therefore unfair to deprive Evansville, the principal city of an important industrial and agricultural trade area, of the more efficient and effective service possible on a VHF channel. We do not agree with this contention. The action that we are taking will result in the Evansville area becoming an all-UHF market. Our experience with UHF operations during the past several years convinces us that in UHF-only areas and in areas where the only VHF service is fringe service from distant cities, UHF has proved that it is fully capable of rendering service satisfactory to the general public, and to local and national advertisers who provide the necessary economic support for such stations. In such non-intermixed areas almost all sets are capable of receiving UHF signals, and the UHF stations program to meet the needs of every segment of their diverse audience, including commerce, agriculture, industry and government.

28. Owensboro On the Air, Inc. and Owensboro Publishing Company, applicants for Channel 9 at Hatfield, Indiana have moved to strike the WFIE and WEHT counterproposal that Channel 9 in Hatfield be deleted or reserved for education. The Hatfield applicants assert that this counterproposal is beyond the scope of this proceeding and that any action by the Commission to delete Channel 9 or reserve it for education would violate the provisions for notice prescribed by section 4 of the Administrative Procedure Act. We disagree with this contention. Our June 26, 1956, Notice of Proposed Rule Making stated that the instant proceeding is being conducted in furtherance of our program for improving the opportunities for effective competition among a greater number of stations in specific areas, which program was enunciated in our June 26, 1956, Report and Order in the general television allocations proceeding (Docket No. 11532).[11] Since the need for area deintermixture was treated at some length in the Report and Order, all parties were on notice that the instant proceeding, as well as the other deintermixture proceedings, concern the need for and advisability of area deintermixture. Unquestionably Evansville and Hatfield, being only about 21 miles apart, are in the same general area.[12] The untenability of the Hatfield applicants' motion to strike is further demonstrated by

[9] WKLO-TV has suggested such a site near Big Spring, Kentucky, where a 316 kw operation with a 1,500 foot above average terrain tower would put a "city grade" (77 dbu) signal over all of Louisville. This proposed operation near Big Spring was relied upon by WKLO-TV in its assertion that a Louisville Channel 7 operation would provide a first service to a substantially large present "white area", which determination was discussed in paragraph 16, supra.

[10] It is noted that this reallocation leaves Hatfield without an assignment of its own. Yet since Hatfield is less than 15 miles from Owensboro, pursuant to the provisions of § 3.607 (b) of the rules, applications can be filed for a station in Hatfield on Channel 56.

[11] Both of these June 26, 1956, releases (Notice in this proceeding and the Report and Order in Docket 11532) were duly published in the FEDERAL REGISTER. This constitutes constructive notice of all parties under prevailing statutes.

[12] The record discloses that Station WTVW on Channel 7 in Evansville puts a Grade A signal over Hatfield, and that both of the Hatfield Channel 9 applicants propose to provide Evansville with a Grade A signal.

the fact that the WFIE and WEHT counterproposal to delete or reserve for education Channel 9 was included as an integral part of their initial comments in this proceeding, which comments were filed on December 3, 1956. Reply comments were timely if filed by December 28, 1956. The Channel 9 applicants were thus afforded an ample opportunity to submit comments in opposition to this counterproposal. We need not decide whether these Hatfield applicants had constructive notice of the filing of the WFIE and WEHT counterproposal, since they unquestionably had actual notice of this filing some time prior to December 28, 1956. The Hatfield applicants could not otherwise have filed their motion to strike on that date.

29. On January 15, 1957, Evansville Television, Inc. (WTVW) filed a motion to strike the WFIE and WEHT Reply Comments. WTVW asserts that the WFIE and WEHT field intensity measurement data, and other data relating to programs carried on WFIE and WEHT, submitted in their Reply Comments, constituted new material, were not in reply to anything filed by other parties and hence should have been filed with the WFIE and WEHT original comments. The UHF stations, in their opposition to this motion, assert that their reply comments were filed in specific response to allegations and comments made by WTVW and other parties in their original comments. WTVW also moves to strike as improper and scandalous those portions of the WFIE and WEHT Reply Comments (1) which alleged that the original WTVW comments did not correctly set forth the operating powers of the Evansville UHF stations; and (2) which stated that WTVW erred in summarizing certain station ownership data. The UHF permittees, in their opposition to the motion to strike, assert that the statements made in their Reply Comments about operating powers and station ownership are true and accordingly could not have been improper. We believe that the WTVW motion should be denied. We know of no reason to disbelieve the WFIE and WEHT contention that their field intensity measurements were made to rebut the WFTV contention, urged in that party's original comments, that UHF coverage is inferior to VHF coverage. Further, program data of UHF stations in the Evansville area submitted by WFIE and WEHT in their Reply Comments can reasonably be construed as a valid attempt to answer the criticism levelled at these UHF stations' public service program record by the Evansville Chamber of Commerce in its original comments. Likewise, we believe that WFIE and WEHT sufficiently refuted assertions made in the original WFTV comments in stating that the WTVW comments incorrectly set forth the operating powers of the Evansville UHF stations and erroneously summarized certain station ownership data.

30. For the foregoing reasons, it is the judgment of the Commission that amendment of the Table of Assignments for Television Broadcast Stations (§ 3.606 (b) of the Commission's rules) by shifting Channel 7 from Evansville, Indiana to Louisville, Kentcky; assigning Channel 31 to Evansville; substituting Channel 78 for Channel 31 in Tell City, Indiana; shifting Channel 9 from Hatfield, Indiana, to Evansville where the channel is to be reserved for noncommercial educational use; and by unreserving Channel 56 and shifting it from Evansville to Owensboro, Kentucky would promote the public interest, convenience and necessity. However, Evansville Television, Inc., has an outstanding authorization for operation of Station WTVW on Channel 7 in Evansville. In view of the provisions of sections 303 (f) and 316 of the Communications Act of 1934, as amended, the frequency of Station WTVW could not be changed from Channel 7 to Channel 31 without the consent of the permittee or, absent such consent, a public hearing being first held.

31. *Accordingly, it is ordered,* That effective April 15, 1957, the Table of Assignments contained in § 3.606 of the Commission's rules and regulations is amended in the following respects:

City	Channel	
	Delete	Add
Tell City, Ind.	31—	78
Hatfield, Ind. (delete)	9+	
Evansville, Ind.	*56	9+
Owensboro, Ky.		56—

32. Respondent should file an original and 14 copies of its response, and should indicate therein whether or not it requests a public hearing in the matter and whether it intends to appear at such hearing and present evidence on the matters specified herein and in said response.

33. The failure to file a response by April 15, 1957, shall be deemed a consent by respondent to the modification of its authorization as proposed, and a final order will be issued accordingly, unless in a petition filed at least five days before said date respondent shows good cause why such time should be extended. The failure to indicate in said response that respondent requests a hearing will be deemed a waiver of its right to a hearing.

34. If a response is filed and the right to request a hearing has been waived, the Commission may, depending upon the facts alleged and proof offered, either call upon respondent to furnish additional information under oath, designate the matter for hearing on its own motion or issue without further proceedings an order modifying respondent's authorization as proposed.

35. *It is further ordered,* That effective April 15, 1957, the Table of Assignments contained in § 3.606 of the Commission's rules and regulations is amended in the following respects:

City	Channel No.	
	Present	Proposed
Elmira, N. Y.	9, 18, 24	18, 24, 30
Auburn, N. Y.	37	

36. Authority for the foregoing amendments is contained in sections 1, 4 (i) and (j), 301, 303 (a), (b), (c), (d), (e), (f), (g), (h) and (r), and 307 (b) of the Communications Act of 1934, as amended, and section 4 of the Administrative Procedure Act.

(Sec. 4, 48 Stat. 1066, as amended; 47 U. S. C. 154. Interprets or applies secs. 301, 303, 307, 48 Stat. 1081, 1082, 1083; 47 U. S. C. 301, 303, 307)

Adopted: February 26, 1957.

Released: March 1, 1957.

FEDERAL COMMUNICATIONS COMMISSION,[13]
[SEAL] MARY JANE MORRIS,
Secretary.

[F. R. Doc. 57-1733; Filed, Mar. 7, 1957; 8:45 a. m.]

[Docket No. 11758; FCC 57-179]

[Rules Amdt. 3-54]

PART 3—RADIO BROADCAST SERVICES

TABLE OF ASSIGNMENTS; TELEVISION BROADCAST STATIONS

In the matter of amendment of § 3.606, Table of Assignments Television Broadcast Stations (Elmira, New York).

1. The Commission has before it for consideration the proposals set out in its Notice of Proposed Rule Making (FCC-599) released in this proceeding on June 26, 1956, and subsequent further Notices, for the reallocation of television channels in the Elmira, New York area. Interested parties have been afforded the opportunity of filing comments directed to the proposals and of advancing their own counterproposals, and we are now in a position to issue our Report.

2. The Commission on June 26, 1956, issued its Report and Order (FCC 56-587) in the General Television Allocation Proceeding in Docket No. 11532 outlining a long-range program designed to improve the television allocation structure. At the same time we considered what action might be taken to improve the opportunities for more effective competition among a greater number of stations in individual communities and areas pending a resolution of the long-range program, which will require some years to implement. In furtherance of this interim program a number of rule making proceedings such as the instant one have been initiated proposing channel changes for various communities.

3. With respect to the Elmira area, the Commission proposed to deintermix Elmira by deleting VHF Channel 9 from Elmira and by substituting therefor UHF Channel 30, as follows:

[13] Commissioner Doerfer dissenting; Commissioner Mack dissenting and issuing a statement filed as part of original document.

4. On November 30, 1956, the Commission released a Memorandum Opinion and Order (FCC 56-1186) concerning a petition filed by Veterans Broadcasting Company, Inc., an applicant for VHF Channel 9 in Elmira, requesting reconsideration of the Commission's Notice of Proposed Rule Making in this proceeding. The Veterans petition was denied "• • • without prejudice to the Commission's right to consider the contentions thereof in connection with the comments to be filed in [this proceeding]".

5. Two parties have submitted counterproposals:

(a) The American Broadcasting Company proposes adoption of the Commission's proposal and in addition asks that Syracuse be assigned its third VHF channel, as follows:

City	Channel No.	
	Present	Proposed
Elmira, N. Y.	9, 18, 24	18, 24, 30
Auburn, N. Y.	37	
Syracuse, N. Y.	3, 8	3, 7, 9
Carthage-Watertown, N. Y.	7	8

(b) Daniel W. Casey, Sr., et al. d/b as the Syracuse Group, like ABC, requests adoption of the Commission's proposal and also the allocation of a third VHF channel to Syracuse, but by different channel changes, as follows:

City	Channel No.	
	Present	Proposed
Elmira, N. Y.	9, 18, 24	18, 24, 30
Auburn, N. Y.	37	
Syracuse, N. Y.	3, 8	3, 9, 13
Carthage-Watertown, N. Y.	7	8
Utica-Rome, N. Y.	13	7

6. Comments have been filed by interested parties: Central New York Broadcasting Corporation (WSYE-TV) on Channel 18 in Elmira; WBRE-TV, Inc. (WBRE-TV) on Channel 28 and Wyoming Valley Broadcasting Company (WILK-TV) on Channel 34 in Wilkes-Barre, Pennsylvania; and the Joint Council on Educational Television support the proposal for the deletion on Channel 9 from Elmira. WTVE, Inc. (WTVE) on Channel 24 in Elmira, Veterans Broadcasting Company, Inc., and Television Associates of Elmira, Inc., applicants for VHF Channel 9 in Elmira, filed comments opposing the deintermixture proposal. The American Broadcasting Company and Daniel W. Casey, Sr., et al. d/b as the Syracuse Group filed comments favoring their respective counterproposals. Reply comments were submitted by WSYE-TV, WBRE-TV, WILK-TV, WTVE, ABC, the Syracuse Group, Meredith Syracuse Television Corporation (WHEN-TV) on Channel 8 in Syracuse, the Brookway Company (WCNY-TV) on Channel 7 in Carthage, and Mt. Washington Television, Inc. (WNTV) on Channel 8 in Poland Springs, Maine.

7. We noted in our Report and Order, issued last June, outlining the proposals for interim action, that because of the widely varying circumstances in individual markets, as well as the numerous factors bearing on the choice of techniques in any individual community or area, it would not be possible to formulate rigid criteria to be supplied to individual cases in order to indicate the course that would best serve the public interest in each community. We did conclude, however, that certain considerations would have a bearing on our decisions in the individual cities. We stated that in markets with one or more commercial VHF channels, the merits of proposals to eliminate a VHF channel would depend, in large part, on such factors as:

1. Whether significant numbers of people would lack service as a result of the elimination of the VHF channel.

2. Whether one or more UHF stations are operating in the area.

3. Whether a reasonably high proportion of the sets in use can receive UHF signals.

4. Whether the terrain is reasonably favorable for UHF coverage.

5. Whether, taking into account all the local circumstances, the elimination of a VHF channel would be consistent with the objective of improving the opportunities for effective competition among a greater number of stations.

Similarly, we noted that the desirability of assigning additional VHF channels to communities would depend principally upon:

1. Whether it is possible to locate the new transmitter so as to meet minimum transmitter spacings.

2. Whether, in cases where it is necessary to move the channel from another city, there is greater need for the channel in the area to which it is proposed to be assigned.

3. Whether the addition of a new VHF assignment would be consistent with the objective of improving the opportunities for effective competition among a greater number of stations.

We must consider the various proposals and counterproposals relating to Channels 7 and 9 in the light of these factors.

8. Elmira is in the midst of a predominantly UHF area from the standpoint of operating stations and channel assignments. Stations WSYE-TV on Channel 18 and WTVE on Channel 24 are operating in Elmira.[1] In addition, four other UHF stations provide a Grade B or stronger signal to parts of the area which would receive a Grade B signal from an Elmira Channel 9 station (assuming 316 kw at 1,000 feet from a site in the center of Elmira): WARM-TV on Channel 16 and WGBI-TV on Channel 22 in Scranton, 76 miles from Elmira; and WBRE-TV on Channel 28 and WILK-TV on Channel 43 in Wilkes-Barre, 75 miles from Elmira. There are also seven authorized UHF stations which, if operated with the facilities specified in their construction permits, would serve with Grade B or stronger signals, parts of the Elmira Channel 9 Grade B service area, as follows: (1) WCBF on Channel 15 in Rochester, New York, 84 miles from Elmira; (2) WHCU-TV on Channel 20 in Ithaca, New York, 30 miles from Elmira; (3) WRAK-TV on Channel 36 in Williamsport, Pennsylvania, 60 miles from Elmira; (4) WNOK-TV on Channel 38 in Sunbury, Pennsylvania, 85 miles from Elmira; (5) WINR-TV on Channel 40 in Binghamton, New York, 46 miles from Elmira; (6) WTVU on Channel 44 in Scranton, Pennsylvania, 76 miles from Elmira; and (7) WAZL-TV on Channel 63 in Hazelton, Pennsylvania, 93 miles from Elmira.

Two pending applications for UHF stations on Channel 27 in Rochester, New York and on Channel 32 in Lock Haven, Pennsylvania propose to serve parts of the Elmira Channel 9 Grade B service area. In addition, UHF channels are available in twelve cities within 80 miles of Elmira: Channel 33 at Batavia, New York; Channel 72 at Cortland, New York; Channel 50 at Hornell, New York; Channel 54 at Olean, New York; Channel 62 at Oneonta, New York; Channel 31 at Oswego, New York; Channel 70 at Bradford, Pennsylvania; Channel 31 at Dubois, Pennsylvania; Channel 42 at Emporium, Pennsylvania; Channel 74 at Lewiston, Pennsylvania; Channel 66 at Shamokin, Pennsylvania, and Channel 26 at Shinglehouse, Pennsylvania. The only VHF station which puts a Grade B or stronger signal into Elmira is Station WNBF-TV on Channel 12, Binghamton, New York, 45 miles from Elmira. The other VHF stations which serve parts of the area which would be served by a station on Channel 9 in Elmira are Stations WSYR-TV on Channel 3 and WHEN-TV on Channel 8 in Syracuse, 75 miles from Elmira; Station WKTV on Channel 13 in Utica, New York, 107 miles from Elmira; WROC-TV on Channel 5 and WVET-TV/WHEC-TV (share time) on Channel 10 in Rochester, 84 miles from Elmira; and WBEN-TV on Channel 4 in Buffalo, 119 miles from Elmira.

9. The UHF character of the Elmira area is further illustrated by the high percentage of television stations in the area capable of receiving UHF transmissions. The proponents of the Commission's proposal assert that the Elmira area is now approximately 80 percent converted for UHF, and they predict that conversions in and near Elmira should reach almost 100 percent by March 1957. The record further discloses that, as of September 1954, Wilkes-Barre was virtually 100 percent converted to receive UHF signals and Scranton was 85.7 percent converted. The permittees of the UHF stations in Wilkes-Barre further assert that recent listening surveys disclose that in all of the Pennsylvania counties which an Elmira Channel 9 operation would service, except three counties which are geographically closer to Station WNBF-TV in Binghamton than to Scranton or Wilkes-Barre, UHF stations rank first in popularity and receptivity. These Wilkes-Barre operators thus reason that

[1] The Commission was notified that on February 13, 1957, Station WTVE ceased operations "after prolonged financial difficulties". It is noted that WTVE, Inc., permittee of this station, is an applicant for Channel 9 in Elmira and filed comments and reply comments in this proceeding opposing the deintermixture proposal.

UHF conversion is high in each of these northern Pennsylvania counties.

10. The record indicates that the terrain in the Elmira area is generally rough and irregular, the elevation of area within ten miles of Elmira varying between 800 feet and 1,900 feet above mean sea level with narrow valleys and sharp mountain peaks. While even the proponents of the Commission's proposal concede that the Elmira area is hilly and mountainous, they argue that the general public acceptance of UHF stations in the area, particularly the four in Wilkes-Barre and Scranton, demonstrates the fact that UHF stations can and do render satisfactory service in spite of the terrain.

11. No viewers will lose an existing service by virtue of the deletion of Channel 9 from Elmira, since a station is not presently operating on this frequency. However, the question is posed whether any areas that might receive service from a Channel 9 station in Elmira would get no service from any other station, i. e., whether deletion of Channel 9 will result in a "white area."

12. The proponents of the Commission's proposal calculated and compared the Grade B contours of a VHF station on Channel 9 in Elmira with maximum facilities and of a UHF station in Elmira on Channel 30 with 1,000 kw of power and a tower 1,000 feet above average terrain. Both stations were assumed to be located in the center of Elmira. This study shows that only 539 persons who would receive a Grade B signal from the Channel 9 station would not receive a Grade B signal from the Channel 30 station or from any existing or authorized station. These parties thus conclude that only an insignificant number of people would lack service if Channel 30 is substituted for Channel 9 at Elmira.

13. The Elmira Channel 9 applicants submitted an engineering study made in accordance with the Commission's rules. This study shows that a "white area" i. e., an area with no Grade B television service, of 112 square miles (population not given) would result from the substitution of Channel 30 for Channel 9 at Elmira if maximum facilities are assumed for the Channel 9 operation, if a power of 1,000 kw and 1,000 foot antenna are assumed for the Channel 30 operation, and if all authorized stations are considered as if they were operating with the facilities specified in their construction permits. The Channel 9 applicants further assert that if the Commission's proposal is adopted and a Channel 30 station does not operate with 1,000 kw of power and with a 1,000 foot tower, the "white area" would be between 112 square miles and 637 square miles (population not given), depending upon the magnitude of the Channel 30 facilities. These applicants further state that the adoption of the Commission's proposal would result in the creation of a "white area" of 1,413 square miles and a population of 30,681 if only presently operating stations are considered and if it is assumed that a station on Channel 30 would operate with low power and moderate tower height.

14. The proponents of the proposal to delete Channel 9 from Elmira contend that the prediction of the Channel 9 applicants that adoption of the Commission's proposal might create a substantial "white area" fails to take into account specific plans for the improvement of existing facilities and the activation of outstanding UHF construction permits. The proponents of the Commission's proposal argue that the possibility of Channel 9 being permanently assigned to Elmira has served as the chief deterrent to the improvement of the facilities of UHF stations in the area, and that the deletion of Channel 9 will presage continuing improvements in the effective service of the UHF.

15. Since any computation of the area and population that might lose potential service by the deletion of Channel 9 from Elmira must be necessity be grounded on so many variables and assumptions, including heights and powers to be employed in the future and additional stations that might take the air, no precise computations can be made. And the problem is made more complex by the fact that the propagation curves presently available and known methods of computation do not lend themselves to precise determinations of coverage at specific locations. This wide latitude in computing coverage is demonstrated by the estimates in the record as to potential "white areas" from 539 persons (area not given) to an area of 1,413 square miles containing 30,681 persons. We believe the record supports the conclusion that no significant number of persons will lose their only service if Channel 7 is deleted.

16. Elmira, with a population of 49,716, has been allocated three commercial channels, VHF Channel 9 and UHF Channels 18 and 24. Stations are operating on the UHF channels, and the purpose of this proceeding is to determine whether a station should be permitted to operate on the VHF channel. The parties urging deintermixture contend that Elmira and the region surrounding it is an overwhelmingly UHF area at the present time and should be allowed to remain so; that experience in Elmira proves that UHF can be successful and can receive community acceptance in a deintermixed market; that the area will enjoy a significantly greater availability and choice of services if UHF is permitted to survive than if Channel 9 forces multiple existing UHF stations off the air; and that an operation on Channel 9 in Elmira may effectively preclude UHF operations in both Elmira and Binghamton, as well as proving substantially detrimental to the development of UHF service throughout southern New York and north-central Pennsylvania. Our experience in other markets has demonstrated that the establishment of a VHF station in a UHF market such as Elmira generally seriously affects, if not cripples, the ability of the UHF stations to render service. And since additional VHF channels cannot be assigned to Elmira under present allocation standards, the failure of UHF would mean that Elmira and the surrounding area might be forced to depend on a single VHF station for local service. This possibility can be obviated by eliminating the VHF channel and equalizing the competitive situation. The assignment of a third UHF channel to Elmira will enhance the possibility of more effective competition among stations in the market. Deintermixture, we feel, would remove any artificial restraint on the establishment of a third local station, and the number of stations would be determined solely by what the traffic can bear. We find, therefore, that the deletion of VHF Channel 9 from Elmira and the substitution therefor of UHF Channel 30 will further our interim objective of improving the opportunities for effective competition among a greater number of stations.

17. The Channel 9 applicants assert that Station WTVE on UHF Channel 24 in Elmira has not been successful financially and will be unable to continue long the operation of its UHF station,[2] and that if Elmira is to continue to have local television service, it must be on VHF.[3] The proponents of the Commission's proposal assert, in answer to this prediction of the demise of WTVE on Channel 24, that since the permittee of that station is one of those championing the retention of Channel 9 and is an applicant for that channel, WTVE has deliberately been operated on a limited basis without any vigorous or enthusiastic effort to demonstrate that UHF operation in Elmira can be successful. The parties favoring deintermixture further predict that if, after the deletion of Channel 9, WTVE, Inc., should surrender its authorization for Channel 24, other applicants will come forward who will wish to operate on both Channels 24 and 30 in Elmira.

18. In addition to the benefits falling to the Elmira market by virtue of deintermixture, Channel 9 can be released for assignment in another community where, in light of local circumstances, the addition of a VHF outlet might improve the competitive television situation. Both the American Broadcasting Company and Daniel W. Casey, Sr., et al. d/b as the Syracuse Group have submitted counterproposals asking that Channel 9 be deleted from Elmira and that a third VHF channel be allocated to Syracuse. Various VHF channel shifts are proposed in each of these counterproposals. Hence, we must next determine whether these counterproposals would meet the technical allocation requirements of our

[2] WTVE has recently signed off the air. See footnote 1, supra.

[3] The Channel 9 applicants assert that widespread opposition by the public in the Elmira area to the proposal to delete Channel 9 has been demonstrated by the large number of communications to this effect which the Commission has received from local commercial establishments, agricultural, educational, health and fraternal organizations, civic, religious and government groups and individuals. The proponents of the Commission's proposal reply to this contention by arguing that no demonstration has been made that the groups and individuals who have sent communications to the Commission favoring the retention of Channel 9 were objectively informed about the numerous complex factors involved in this proceeding, and that the Elmira group who sparkplugged this writing campaign, the "keep Channel 9 Committee", was dominated (4 out of 5 members) by representatives of the applicants for Channel 9 and hence was a highly partisan group.

rules. The ABC counterproposal to add a third VHF channel to Syracuse by moving Channel 9 from Elmira to Syracuse, by substituting Chanpel 7 for Channel 8 in Syracuse and by substituting Channel 8 for Channel 7 in Carthage admittedly involves substandard mileage separations. Under the ABC counterproposal the Channel 7 facility at Syracuse would be only 125 miles from the co-channel assignment at Buffalo, New York. We believe that this counterproposal should be rejected. It is our view that operations at substandard spacings should not be utilized at this time. See Memorandum Opinion and Order of December 19, 1956 (released December 27, 1956) in Docket No. 11532 (FCC 56–1269).

19. The Syracuse Group's counterproposal to allocate a third VHF channel to Syracuse by changing VHF assignments in that city and in Carthage and Utica-Rome, New York (see paragraph 5, supra, for channel shifts) would meet all minimum mileage separation requirements of our rules. Nevertheless, Meredith Syracuse Television Corporation, operator of Station WHEN-TV on Channel 8 in Syracuse; the Brockway Company, licensee of Station WCNY–TV on Channel 7 in Carthage, New York; and Mt. Washington, TV, Inc., licensee of Station WMTV on Channel 8 in Poland Springs, Maine, oppose the Syracuse Group's counterproposal, alleging that the channel shifts required by it would result in destructive interference to substantial portions of their service areas, as well as to other co-channel and adjacent channel stations. Section 3.612 of our rules expressly states that television stations are not protected from any interference which may be caused by the grant of a new station in full compliance with all of the Commission's allocation requirements. The nature and extent of the protection from interference accorded to stations is limited solely to the protection resulting from the minimum assignment and station separation requirements and the rules relating to maximum powers and antenna heights. The contentions of WHEN–TV, WCNY–TV and WMTV are therefore without merit.

20. The counterproposal of the Syracuse Group, while meeting the Commission's mileage separation requirements, might not prove satisfactory to Canada. With Channel 9 in Syracuse, there would be a co-channel separation of but 169.53 miles with Station CBOFT, Ottawa, Ontario, and but 171.87 miles with Station CBLT, Toronto, Ontario.[4]

21. ABC and the Syracuse Group contend that there is substantial need for a third VHF channel in Syracuse, since there are two operating VHF stations (WSYR–TV on Channel 3 and WHEN–TV on Channel 8), no other VHF channels allocated, no UHF stations and virtually no receivers equipped to receive UHF in the Syracuse area. ABC alleges that it has been unable to obtain a primary affiliation with either of the Syracuse VHF stations and as a result has been severely handicapped in this, the 52nd market in the country. The Syracuse Group contends that the two Syracuse VHF stations serve an area containing approximately 2,500,000 persons and a market with industrial retail sales of almost 3 billion dollars; and that, since both of the existing stations carry heavy network schedules, it is physically impossible for them to present to viewers in the area the variety of programs available from the 3 major networks, film networks, independent film producers and distributors, and from local talent sources.

22. The opponents of the ABC and Syracuse Group counterproposals allege that it is unrealistic to consider Syracuse as if it were an isolated market; that the cities of Syracuse, Utica and Rome are closely linked together geographically[5] and culturally; and that within the Syracuse-Utica-Rome area are 3 VHF stations; the 2 in Syracuse plus Station WKTV on Channel 13 in Utica. These opponents argue that Station WKTV is now received in parts of Syracuse, and could easily render good service to all of Syracuse with the use of fairly simple receiving antennas if the station were to go to maximum authorized power. Meredith Syracuse Television Corporation (WHEN–TV) asserts that the counterproposals should also be denied because of the substantial adverse effect upon competition which would result in the Syracuse-Utica-Rome area. This would be caused, Meredith claims, because of adjacent channel interference limiting Station WHEN–TV's service on Channel 9 and because any station on Channel 7 in Syracuse would be subject to severe restrictions on height and power, while the existing station on Channel 3 (WSYR–TV) would continue to enjoy its inherent advantages of low channel operation. Meredith further asserts that Syracuse should not be awarded a third VHF channel when other larger metropolitan areas, such as Rochester and Albany-Schenectady-Troy, have only two each.

23. In reply to these contentions the Syracuse Group states that there is no support for Meredith's classification of Syracuse-Utica-Rome as one market; that neither the Commission, recognized marketing publications nor national time-buyers consider this as a single market; and that neither Syracuse station provides Grade A service to Utica nor does the Utica station provide Grade A service to Syracuse.

24. We have reviewed the record in this proceeding with a view to the factors listed in our Report and Order of June 26, 1956, and conclude that the public interest would be served by deleting VHF Channel 9 from Elmira and by substituting therefor UHF Channel 30, in accordance with the Commission's proposal. The Elmira area is predominantly UHF; the terrain, while not the best for UHF propagation, is not so severe that UHF cannot serve the area; the vast majority of sets are equipped for UHF, a number of UHF stations in the area are providing service to the public, an additional UHF channel in the lower portion of the spectrum (Channel 30) is available to replace Channel 9, and significant populations would not be without service if it is deleted. We are confident, therefore, that UHF can provide satisfactory service to Elmira.

25. This proposal must be examined in the light of our objective of improving the opportunity for more effective competition among a greater number of stations. This can be achieved by substituting UHF Channel 30 for VHF Channel 9 in Elmira. The advent of a VHF station will, in all likelihood, result in less effective competition among fewer stations. We believe that the action we are now taking carries out the mandate of section 307 (b) of the Communications Act, because it will result in the assignment of frequencies so as to provide a more fair, efficient and equitable distribution of television service in the Elmira area, and will increase the likelihood of more TV service and more local TV outlets in that city and surrounding areas. It should be emphasized that in deleting Channel 9 from Elmira our primary purpose is not to ensure the profitable operation of particular UHF licensees. Rather, we wish to ensure more effective competition among a greater number of stations in order that the public in Elmira and the surrounding area will be afforded more and better television service.

26. We do not believe that any action should be taken in this proceeding on the counterproposals to allocate an additional VHF channel to Syracuse. The action we are now taking does not rule out these proposals; contrarily, it makes VHF Channel 9 available for assignment to some already predominantly VHF market, be it Syracuse or some other. The Report and Order in the Albany-Schenectady-Troy-Vail Mills, New York, deintermixture proceeding (Docket No. 11751), which is being issued concurrently with this decision, indicates that the Commission, on the basis of information now before it, believes that a more satisfactory way to bring a third VHF channel to Syracuse would be to shift Channel 6 from Albany-Schenectady-Troy to Syracuse.

27. Authority for the adoption of the amendments is contained in sections 1, 4 (i) and (j), 301, 303 (a), (b), (c), (d), (e), (f), (g), (h) and (r) and 307 (b) of the Communications Act of 1934, as amended, and section 4 of the Administrative Procedure Act.

28. In view of the foregoing: *It is ordered*, That effective April 15, 1957, the Table of Assignments contained in § 3.606, of the Commission's rules and regulations is amended, insofar as the communities named are concerned, as follows:

Amend to read:

City	Channel No.
Elmira, N. Y.	18+, 24–, 30
Auburn, N. Y.	

(Sec. 4, 48 Stat. 1066 as amended; 47 U. S. C. 154. Interprets or applies secs. 301, 303, 307, 48 Stat. 1081, 1082, 1083; 47 U. S. C. 301, 303, 307.)

Adopted: February 26, 1957.

Released: March 1, 1957.

FEDERAL COMMUNICATIONS COMMISSION,[6]

[SEAL] MARY JANE MORRIS, *Secretary.*

[F. R. Doc. 57–1734; Filed, Mar. 7, 1957; 8:45 a. m.]

[Docket No. 11759; FCC 57–185]

[Rules Amdt. 3–57]

PART 3—RADIO BROADCAST SERVICES

TABLE OF ASSIGNMENTS; TELEVISION BROADCAST STATIONS

In the matter of amendment of § 3.606, Table of Assignments, Television Broadcast Stations (Fresno-Santa Barbara, California).

1. The Commission has before it for consideration the proposal set out in its Notice of Proposed Rule Making (FCC 56–600) released in this proceeding on June 26, 1956, for the reallocation of television channels in the Fresno and Santa Barbara areas.

2. Last June the Commission issued a Report and Order (FCC 56–587) in the general television allocation proceeding in Docket No. 11532, outlining a long-range program designed to improve the television allocation structure. However, since it will be some years before this long-range program can be fully implemented, consideration was also given to what action might be taken in the interim to improve the opportunities for effective competition among a greater number of stations in individual communities. In furtherance of this interim program, rule making proceedings, such as the instant one, have been initiated proposing changes in channel assignments for several communities throughout the country.

3. The Commission in this proceeding has proposed to make Fresno an all-UHF community by adding UFH Channel 30 and shifting VHF Channel 12 to Santa Barbara, as follows: [1]

City	Channel No.	
	Present	Proposed
Fresno	12+, *18–, 24, 47, 53.	*18–, 24, 3C+, 47, 53.
Madera	30+	59.
Santa Barbara	3–, 20, 26.	3–, 12+, 20, 26.

*Reserved for education.

[1] The offset carrier designations were listed in a Notice of Further Proposed Rule Making (FCC 56–821) released September 5, 1956, in the several reallocation proceedings.

[6] Commissioner Doerfer dissenting; Commissioner Mack dissenting and issuing a statement filed as part of original document.

4. The following counterproposals have been submitted by interested parties:

(a) Bakersfield Broadcasting Company (KBAK–TV) on UHF Channel 29 in Bakersfield, California, proposes that Channel 12 be shifted from Fresno to Bakersfield instead of Santa Barbara.

(b) American Broadcasting Company also suggests that Channel 12 be shifted from Fresno to Bakersfield but urges, in addition, that Channel 8 also be assigned to Bakersfield.

(c) Fred M. Hall, Sidney M. Held and Carroll R. Hauser propose that Channel 12 be shifted from Fresno to Ventura, California instead of Santa Barbara.

(d) S. H. Patterson (KSAN–TV) on Channel 32 in San Francisco urges that in addition to the Commission's proposal, Channel 11 should be assigned to San Francisco by substituting Channel 12 for Channel 11 in San Jose, California.[2]

(e) Capitol Radio Enterprises (KGMS–TV), permittee of UHF Channel 46 in Sacramento, filed a separate petition on August 27, 1956, which proposes that Channel 12 be assigned to Sacramento by substituting Channel 11 for Channel 12 in Chico, California, and Channel 8 for Channel 11 in Yreka, California.[3]

(f) Inland Broadcasting Corporation, Riverside, California, filed a pleading urging that Channel 12 remain in Fresno in order that Channel 12 can be shifted from Tijuana, Mexico, to Riverside or San Bernardino, California, if current private negotiations with Mexican officials for changing the assignments are successful.

5. Comments have been filed by interested parties: McClatchy Broadcasting (KMJ–TV) on UHF Channel 24 in Fresno; O'Neill Broadcasting Company (KJEO) on UHF Channel 47 in Fresno; UHF Telecasting Corporation (KVVG) on UHF Channel 27 in Tulare, California; Channel City Television and Broadcasting Corporation, Santa Barbara, California; and Joint Council on Educational Television support the Commission's proposal for shifting Channel 12 from Fresno to Santa Barbara.[4] Comments supporting their various counterproposals listed above were filed by Bakersfield Broadcasting Company (KBAK–TV), ABC, Fred M. Hall et al., S. H. Patterson (KSAN) and Inland Broadcasting Corporation. Standard Radio and Television Company (KNTV) on Channel 11 in San Jose, filed an opposition to S. H. Patterson's counterproposal for San Francisco and Capital City TV Corporation (KCCC) on UHF Channel 40 in Sacramento, and Sacramento Telecasters, Inc. (KBET–TV) on VHF Channel 10 in Sacramento, filed oppositions to Capitol Radio Enterprises' proposal for Sacramento. California Inland Broadcasting Company (KFRE–TV) on Channel 12 in Fresno; KARM, The George Harm Station, unsuccessful applicant for Channel 12 in Fresno; and Inland Broadcasting Corporation oppose the deletion of Channel 12 from Fresno. Reply comments were filed by McClatchy (KMJ–TV), O'Neill (KJEO), Channel City, California Inland (KFRE–TV), Bakersfield Broadcasting (KBAK–TV), and ABC. KTTV, Inc. (KTTV) on Channel 11 in Los Angeles, and Santa Barbara Broadcasting and Television Corporation (KEYT) on Channel 3 in Santa Barbara, filed Replies opposing the proposal of Inland Broadcasting for Riverside-San Bernardino.[5]

6. We noted in our Report and Order issued last June, outlying the proposals for interim action, that because of the widely varying circumstances in individual markets, as well as the numerous factors bearing on the choice of techniques in any individual community or area, it would not be possible to formulate rigid criteria to indicate the course that would best serve the public interest for each community. We did conclude, however, that certain considerations would have a bearing on our decisions in the individual cities. We explained that in markets with one or more commercial VHF channels, the merits of proposals to eliminate a VHF channel would depend, in large part, on such factors as:

(a) Whether significant numbers of people would lack service as a result of the elimination of the VHF channel.

(b) Whether one or more UHF stations are operating in the area.

[2] On October 10, 1956, S. H. Patterson filed a separate petition advancing an alternative plan for assigning an additional VHF channel, Channel 13, to San Francisco by substituting UHF Channel 19 for VHF Channel 6, which is reserved for education in Sacramento, and substituting Channel 6 for Channel 13 in Stockton, California.

[3] In Docket No. 11795 the Commission substituted Channel 19 for Channel 11 in Yreka.

[4] The following parties filed letters supporting the assignment of Channel 12 to Santa Barbara: Board of Supervisors, Santa Barbara County; Santa Barbara Chamber of Commerce; Santa Barbara City Schools; Santa Barbara County Superintendent of Schools and Santa Barbara Community Chest.

[5] In addition, the following groups filed oppositions to the deletion of Channel 12 from Fresno: Board of Supervisors of the County of Fresno; Fresno County and City Chamber of Commerce; Mt. Whitney Lumber Company "on behalf of the people of Johnsondale, California"; Board of Supervisors of Madera County; Superintendent of Mariposa County Unified School District; District Superintendent of Porterville Union High School and College; Lone Pine, California Lions Club; Lone Pine, California Chamber of Commerce; Board of Supervisors of Mariposa County; Commission of the City of Fresno; Kings County Farm Bureau of Women; President of California Farm Bureau Federation; Comments signed by 102 residents of Coarsegold, California, and its environs; Board of Directors of Tulare County Farm Bureau; Comments signed by 49 residents of Mariposa County; Comments signed by 81 residents in and near Auberry and Big Creek, Calif.; Board of Directors of the Downtown Association of Fresno; Fresno County Farm Bureau; Mariposa County Farm Bureau; Kings County Farm Bureau; Mariposa County Chamber of Commerce; Petition signed by 13 residents of Mariposa, California; Tulare County Cattlemen's Association; Petition signed by 37 residents of Bass Lake Area of Madera County, and Petition signed by 234 residents of the Three Rivers, California, region.

[4] In accordance with Section H of the Canadian-United States Television Agreement (TIAS 2594), all changes in the Table of Assignments in communities within 250 miles of the United States-Canadian border are effected by a procedure of notification with the Canadian Government having the opportunity to object to the proposed changes.

[5] Syracuse is about 45 miles from Utica and 35 miles from Rome, while Utica and Rome are approximately 14 miles apart.

(c) Whether a reasonably high proportion of the sets in use can receive UHF signals.

(d) Whether the terrain is reasonably favorable for UHF coverage.

(e) Whether, taking into account all the local circumstances, the elimination of a VHF channel would be consistent with the objective of improving the opportunities for effective competition among a greater number of stations.

7. Similarly, we noted that the desirability of assigning additional VHF channels to communities would depend principally upon:

(a) Whether it is possible to locate the new transmitter so as to meet the minimum transmitter spacings.

(b) Whether, in cases where it is necessary to move the channel from another city, there is greater need for the channel in the area to which it is proposed to be assigned.

(c) Whether the addition of a new VHF assignment would be consistent with the objectives of improving the opportunities for effective competition among a greater number of stations.

8. We must consider the various proposals to delete VHF Channel 12 from Fresno and to assign this frequency elsewhere in the light of these factors. Fresno ranks as the 65th standard metropolitan area with a 1950 population of over 275,000. The city population is over 90,000. Four commercial channels, VHF Channel 12 and UHF Channels 24, 47 and 53 are allocated, and UHF Channel 18 is reserved for education. Stations have been operating on UHF Channels 24 and 47 for several years, and a station operated on Channel 53 for a short period but is now off the air. Station KFRE–TV went on the air on Channel 12 last May.[6] The purpose of this proceeding is to determine whether the VHF station should be switched to UHF and Fresno made an all-UHF community, i. e., whether taking into account all of the local circumstances in Fresno, the elimination of Channel 12 would improve the opportunities for effective competition among a greater number of stations.

9. Despite the fact that Station KFRE–TV has been operating on VHF Channel 12 since last May, the Fresno area is predominantly UHF. KFRE–TV is the only VHF station in a wide area, the closest other VHF stations being KERO–TV at Bakersfield (Channel 10) and KSBW–TV at Salinas, both over 100 miles from Fresno. Other than KFRE–TV, no other Grade B or better VHF service is provided to the City of Fresno or to the greater part of the surrounding area. UHF Stations KMJ–TV on Channel 24 and KJEO on Channel 47 have been on the air in Fresno since 1953; and Station KVVG operates on Channel 27 in Tulare, California, some 47 miles from Fresno, serving the City of Fresno and much of the area with a Grade A signal. Station KBID–TV operated in Fresno on Channel 53 for a short period during 1954, but is now off the air. Station KTRB–TV is authorized to operate on Channel 14 in Modesto, California, about 90 miles from Fresno, but has never been on the air. In addition, UHF channels are assigned to a number of communities in the general area: Madera, 18 miles from Fresno; Visalia, 40 miles; Merced, 50 miles; Delano, 72 miles and Bishop, 85 miles.

10. The UHF stations in Fresno went on the air several years before KFRE–TV, the lone VHF station; and virtually all of the television sets in Fresno and the Fresno Standard Metropolitan Area are capable of receiving UHF transmissions. The UHF conversion rate for the nearby Counties of Kern, Kings, Madera, Merced and Tulare is also very high.

11. The Central Valley of California is an area of level terrain, some 250 miles long and averaging 45 miles wide, surrounded by high mountain ranges. The City of Fresno is situated in the San Joaquin Valley, which comprises the southern portion of the Central Valley. Two parallel ranges of mountains, one to the east and one to the west, and a third range to the south, border the San Joaquin Valley. The Valley floor is essentially flat and devoid of natural formations which might impede UHF propagation, and the great bulk of the population in the area reside in the many communities dotting the Valley. The tall mountains close to the Valley floor offer excellent television transmitter sites which keep shadowing effects to a minimum.[7] We find, in view of these circumstances, that the terrain in the Fresno area is well suited for UHF transmissions, and we are confident that UHF can provide good television to the great majority of the people in the Fresno area.

12. We must consider whether the deletion of Channel 12 from Fresno would mean that some areas and persons served by VHF Station KFRE–TV would not get service from any other station, i. e., whether deletion of Channel 12 would result in "white area".

13. The UHF stations urging deintermixture conducted a terrain and field intensity survey of the existing operation of VHF Station KFRE–TV on Channel 12 and UHF Station KJEO on Channel 47 in Fresno. The transmitters of the two stations are only about a quarter of a mile apart and are situated at approximately the same elevation, about 4,000 feet above the valley floor. The measurements, made along four radials, indicate the following:

Radial	Measured distances to Grade A contour	
	Channel 12 (316 kw)	Channel 47 (440 kw)[1]
	Miles	*Miles*
175°	88	77
205°	90	95
265°	93	90
290°	78	77

[1] This is the maximum power in the main lobe, not RMS power.

14. The UHF stations contend, on the basis of their survey, that all of the Fresno trading and market area is now served by UHF with a Grade A or better signal and submit that no "white area" would result from the deletion of Channel 12. They maintain that the only areas served by the Fresno VHF station and not served by the Fresno UHF stations are either in rugged, sparsely settled mountainous regions or in localities which receive better service from other stations closer to them. They also point out that the field strength survey was made with VHF Station KFRE–TV operating at maximum power (316 kw) while UHF station KJEO was operating with only 440 kw, about 10 percent of the 5 megawatt maximum now permitted by the rules.

15. In this connection, the two Fresno UHF stations and KVVG in Tulare have represented that they will seek higher power if Channel 12 is deleted from Fresno.[8] An engineering study based on the rules indicates that these three UHF stations operating with powers of 1,000 kw at their present antenna heights, would place a Grade A signal over the entire San Joaquin Valley, where about 95 percent of the population served by Channel 12 is concentrated, and a Grade B signal over almost all of the area now receiving Grade B service from Channel 12. The study, as conducted by the UHF stations, further indicates that if the three UHF stations operate with maximum power of 5 megawatts at their present antenna heights, Grade B signals would be placed over all of the area now receiving Grade B service from KFRE–TV; and that if KFRE–TV operates with 5 megawatts on UHF Channel 30 rather than Channel 12, it would provide a Grade B signal to 23,500 square miles, including all of the 19,000 square miles within its present Grade B contour.[9]

[6] On January 12, 1956, the Commission released a Memorandum Opinion and Order in the adjudicatory proceeding involving Channel 12 in Fresno (Docket No. 9050) denying a petition of O'Neill Broadcasting Company requesting that final action in the adjudicatory proceeding be held in abeyance until after final determination of all matters pending before the Commission involving reassignment of Channel 12. In this Memorandum Opinion and Order the Commission referred to its Memorandum Opinion and Order and Decision, In re Application of Gulf Coast Broadcasting Company (Docket No. 11559) adopted December 7, 1955. In that document the Commission noted that the issuance of a construction permit cannot operate to negate its rule making power should it subsequently be determined that it is in the public interest to order a station to operate on another channel.

[7] The transmitter of UHF Station KJEO is on a mountain some 4,400 feet above Fresno, and the site of UHF Station KMJ–TV is on another mountain 3,316 feet above Fresno. The transmitter of KVVG, the Tulare UHF station, is 4,700 feet above the Valley floor.

[8] The UHF stations also prepared an engineering study based on the methods prescribed in the rules, using present sites, power and tower heights, which concluded that only 37 persons would receive no service if Channel 12 is deleted and 2,810 persons would receive only one service.

[9] O'Neill Broadcasting Company (KJEO, Channel 47) recently filed an application for a change in transmitter, antenna and power. The application would increase the average power from 178 kw to 380 kw and the proposed substitution of a directional antenna for the present antenna would provide a maximum power of 546 kw in two directions.

16. The opponents of deintermixture contend, but make no engineering showing, that an increase to maximum power by the Fresno and Tulare UHF stations would not eliminate heavy shadowing in the mountainous regions which, they claim, comprise approximately 50% of KFRE–TV's Grade B service area. They urge that "thousands" of people living within this mountainous area would be deprived of their only television service if Channel 12 is deleted.

17. A number of comments were submitted by various groups and organizations in the outlying sectors of the Fresno area opposing the deletion of Channel 12. These parties assert that prior to the advent of KFRE–TV on Channel 12, many persons in the mountainous areas to the east and west of the Central Valley and others in small communities, farms and ranches nesting in foothills between ranges, were unable to obtain television service, but are now able to receive KFRE–TV with reasonable clarity. They argue that if this channel is removed, their only satisfactory service will be lost. The UHF stations contend, on the other hand, that the Fresno and Tulare UHF stations, operating with maximum power, would provide service to as much of the mountainous area as does KFRE–TV; and KJEO represents that if, contrary to its prediction, the increase in powers of the Fresno and Tulare UHF stations do not entirely eliminate any "white areas" in the mountain regions resulting from deletion of Channel 12, it will provide translator or satellite service to any areas where such service would be justified.

18. Any computation of the area and population that might lose service by the deletion of Channel 12 from Fresno must be grounded on so many variables and assumptions, such as powers and heights to be employed in the future and additional stations that might take the air, that no precise computations are feasible. Moreover, the problem is made more complex by the fact that the propagation curves presently available and known methods of computation do not lend themselves to precise determinations of coverage at specific locations. Nevertheless, we believe the record supports the basis for concluding that it is not likely that a significant number of persons will lose their only service if Channel 12 is deleted. The UHF stations in the Fresno area are presently providing good television service over a wide area and have represented to the Commission that their facilities will be improved if Channel 12 is deleted. We are confident, therefore, that deletion of Channel 12 will not result in the creation of any significant "white area."

19. The UHF stations submit that the San Joaquin Valley is presently being well served by the two UHF stations in Fresno and the UHF station in Tulare, and maintain that the area can well support a third Fresno UHF outlet. They urge that if all of the stations in the area operate in the UHF band, all will have an equal chance of surviving, but that the advent of a VHF station has seriously affected the ability of the UHF stations to provide service in the area. They allege that their experience since Stations KFRE–TV began operating on Channel 12 makes it apparent that UHF stations cannot compete on an equitable basis with a VHF station in the Fresno market. Time-buyer resistance to UHF, they state, has been an almost insurmountable obstacle when the VHF station enters the picture; and they submit that if Fresno is not deintermixed by deleting Channel 12, some or even all of the UHF stations in the Valley may succumb. But if the Fresno area is made all UHF, they assert that the public would enjoy a significantly greater choice of services.[9]

20. KFRE–TV argues that Fresno is entitled to a first VHF service since other cities in California of similar size and economic importance have one or more VHF outlets. Confining Fresno to the inferior UHF, they maintain, would discriminate against Fresno and place it at a serious disadvantage. They submit that it would impair the ability of a television station in Fresno to reach remote rural areas whose economic, social and cultural interests are tied to Fresno. They contend that, moreover, effective deintermixture cannot be achieved in the area since a great portion of the area is already blanketed by VHF signals from other cities. Finally, the opponents of deintermixture submit that UHF stations in Fresno can compete with at least one VHF station because the market is large and independent enough to support more than one station.

21. Our experience in other markets has demonstrated that the establishment of a VHF station in a UHF market such as Fresno generally seriously affects the ability of the UHF stations to continue to render service to the public. Since additional VHF channels cannot be assigned to Fresno under existing allocation standards, the demise of UHF would mean that the Fresno area might be forced to depend on a single VHF station for local service. This possibility can be obviated by eliminating the VHF channel and thus equalizing the competitive situation. The assignment of a fourth UHF channel to Fresno in place of VHF Channel 12, we believe, will enhance the possibility of more effective competition among the stations in the area as well as the networks. Such deintermixture would remove any artificial restraint on the establishment of additional local stations: the number of stations would be determined solely by what the Fresno market can support. We therefore believe that deleting VHF Channel 12 from Fresno and substituting UHF Channel 30 will serve the public interest by furthering our interim objective of improving the opportunity for effective competition among a greater number of stations.

22. In addition to the benefits falling to Fresno by virtue of deintermixture, Channel 12 can be released for assignment in another community or communities where, in light of the prevailing circumstances, the addition of a VHF outlet would be likely to improve the television situation. The Commission has proposed that Channel 12 be shifted to Santa Barbara as a second VHF outlet. However, if Channel 12 is deleted from Fresno, it can be assigned to any one of several cities to the south of Fresno and in addition, to any one of at least two cities to the north of Fresno; and, as noted above, several counterproposals have been advanced suggesting various plans for the use of Channel 12 upon its deletion from Fresno.[10]

23. We shall first discuss proposals for employing Channel 12 south of Fresno. As noted, the Commission is proposing to shift Channel 12 to Santa Barbara; Bakersfield Broadcasting Company and American Broadcasting Company [11] propose that Channel 12 be shifted to Bakersfield; and Fred M. Hall et al. propose that Channel 12 be shifted to Ventura. These three proposals—Santa Barbara, Bakersfield, and Ventura—are mutually exclusive since the frequency can be assigned to only one of the cities in compliance with minimum spacings.

24. We must determine at the outset whether Channel 12 in Santa Barbara, Bakersfield, or Ventura would meet the technical allocation requirements. The record indicates that Channel 12 can be allocated to Santa Barbara in accordance with minimum spacing requirements. However, since Santa Barbara is within 250 miles of the United States-Mexican Border, Mexico must be consulted with respect to any reassignment

[9] UHF Station KJEO asserts that since KFRE–TV went on the air on Channel 12, it has not only lost its CBS affiliation to the VHF station but has also lost some $17,000 in monthly business from 24 national and local accounts. KFRE–TV contends, on the other hand, that during December 1956 KJEO had more sponsored half-hour regional and national spot programs that KMJ–TV and KFRE–TV combined; that Station KMJ–TV has carried about the same number of half-hour national and regional spot programs as has KFRE–TV; and that KMJ–TV is still a "must buy" ABC affiliate.

[10] Inland Broadcasting Corporation submitted a document in the proceeding asserting that it proposes to employ Channel 12 in the Riverside-San Bernardino area if this frequency can be shifted from Tijuana. Inland explains that it has begun private negotiations with Mexican officials looking toward the reassignment of this channel, and requests that the Commission not assign Channel 12 to any community that would preclude the use of this frequency in Riverside-San Bernardino. KTTV, Inc. (KTTV) on Channel 11 in Los Angeles and Santa Barbara Broadcasting and Television Corporation (KEYT) on Channel 3 in Santa Barbara oppose Inland's request. The Commission presently has no negotiations underway with Mexico concerning the reallocation of channels in Tijuana. We do not believe that it would be appropriate to withhold action in this proceeding on the speculative and uncertain basis of private negotiations designed to rework television allocations in Mexico. The request of Inland Broadcasting Corporation is therefore rejected.

[11] ABC suggests that Channel 8 be assigned to Bakersfield as well as Channel 12. However, Channel 8 cannot be assigned to Bakersfield in accordance with present minimum spacing requirements, and this proposal must therefore be rejected at the outset.

of channels in Santa Barbara.[12] The distance between Santa Barbara and Tijuana, Baja California, Mexico, where Channel 12 is now assigned, is about 200 miles, well above the 190-mile minimum required for domestic co-channel assignments in this zone; and sites are available to the north of Santa Barbara that would afford greater co-channel spacing. Negotiations with Mexico with respect to the use of Channel 12 in Santa Barbara are underway.

25. The record also indicates that Channel 12 can be employed in Bakersfield and Ventura in accordance with technical allocation standards; but with respect to Ventura, this entails location of a site to meet minimum spacings. Further, since both Bakersfield and Ventura are also within 250 miles of the Mexican border, Mexico would have to be consulted concerning the use of Channel 12 in these cities as well as in Santa Barbara. The distance from Bakersfield to Tijuana is about 225 miles, while Ventura is only about 180 miles from Tijuana.

26. Santa Barbara is the 157th standard metropolitan area, with a population of 98,220. The city has a population of 44,913 persons. Although one VHF channel and 2 UHF channels are assigned, only the VHF channel is in use. The parties supporting the proposal to assign Channel 12 to Santa Barbara urge that it would provide much needed service and would make possible an additional local outlet which could not be provided by UHF. They contend that satisfactory service from stations in other cities is not provided and submit that Santa Barbara needs an additional VHF station in order that it might have a choice of programs of local origination and local expression and receive more network programs, syndicated and film features, and programs of public interest and national importance.

27. Bakersfield is a city of 34,784 persons 105 miles south of Fresno in the San Joaquin Valley. Two channels are presently assigned, VHF Channel 10 on which Station KERO is operating, and UHF Channel 29 on which Station KBAK–TV is operating. ABC and Bakersfield Broadcasting Company (KBAK–TV), the operator on Channel 29, urge the assignment of Channel 12 in Bakersfield. They argue that the Santa Barbara area already receives multiple VHF services from stations in other cities and its own station on Channel 3, while Bakersfield receives no outside service.

28. Ventura is a city of 30,209 persons about 40 miles from the center of Los Angeles, 20 miles south of Santa Barbara. No channels are presently assigned, but 8 or more VHF stations serve Ventura with a Grade B or better signal. Fred M. Hall et al., in urging the assignment of Channel 12 to this community, submit that Ventura needs the facility more than Santa Barbara since the latter already has a VHF station, Ventura County has more households than Santa Barbara County, and the Santa Barbara station does not originate programs from Ventura or elsewhere in Ventura County, nor does it regularly provide residents of the county with any programs of local interest.

29. We believe the record supports the basis for assigning Channel 12 to Santa Barbara rather than Ventura. We do not believe that the assignment of Channel 12 to Ventura, as a first channel in the community, would further our objective of improving the opportunity for effective competition among a greater number of stations. Channel 12 in Ventura would represent an 8th VHF channel in the Los Angeles area. In Santa Barbara Channel 12 will provide a much needed second local outlet for a much larger community. Moreover, an assignment to Santa Barbara would likely be more acceptable to Mexico because of the greater distance to Tijuana.

30. We also believe that the record supports the basis for preferring the assignment of Channel 12 to Santa Barbara over Bakersfield. We feel that this assignment will better serve our objective of fostering effective competition among a greater number of stations in making possible a second local television service to a significantly larger community. Santa Barbara is presently a completely VHF area with no UHF stations in operation or contemplated. This is not the case in Bakersfield where a UHF station is on the air and other UHF stations are operating in the San Joaquin Valley. The addition of a second VHF station in Bakersfield could defeat the purpose of deintermixing the Fresno area by placing an additional VHF signal over part of the area which we believe should be UHF.

31. We recognize that Fresno as the 65th standard metropolitan area in the country is larger than Santa Barbara. The Fresno VHF operator argues, on this basis, that Channel 12 should be retained there. However, television assignments cannot be made purely on the basis of the size and importance of the competing markets: The proposals must be viewed in the light of all factors and particularly with reference to our objective of improving the opportunities for more effective competition among a greater number of stations. We believe that we can improve the television situation in both Fresno and Santa Barbara by shifting Channel 12 from one market to the other. Without a VHF station in Fresno, the market will have as many television stations as it can support; but the continuance of a VHF station will, in all likelihood, mean less effective competition among fewer stations. Santa Barbara, on the other hand, is predominantly VHF. There is little chance of additional television service for the area unless a VHF channel is added, and Channel 12 would afford a much needed additional local outlet. This shift in frequency, we feel, is consistent with the mandate of section 307 (b) of the Communications Act in providing a fair, efficient and equitable distribution of television service to the several States and communities and increasing the likelihood of the establishment of more television service and more local television outlets in both communities.

32. As noted above, in addition to employing Channel 12 in a community to the south of Fresno, various proposals have been advanced suggesting that Channel 12 be assigned to a community to the north of Fresno as well. S. H. Patterson (KSAN–TV), on Channel 32 in San Francisco, urges that additional channel changes should be made so as to assign Channel 11 to San Francisco by substituting Channel 12 for Channel 11 at San Jose, California. Since Standard Radio and Television Company operates Station KNTV on Channel 11 in San Jose, this station would be required to change frequency, and Standard Radio has filed an opposition to the counterproposal.[13]

33. The Patterson proposal for San Francisco conflicts with a proposal filed under separate heading on August 27, 1956, by Capitol Radio Enterprises (KGMS–TV), Sacramento, California. Capitol proposes that Channel 12 be assigned to Sacramento by substituting Channel 11 for Channel 12 in Chico, California. Since the Patterson proposal would assign Channel 12 to San Jose and Capitol would assign this channel in Sacramento, less than 90 miles from San Jose, the Patterson and Capitol proposals are mutually exclusive. Oppositions to Capitol's proposal have been filed by Sacramento Telecasters, Inc. (KBET–TV) on Channel 10 in Sacramento and Capital City TV Corporation (KCCC) on Channel 40 in Sacramento.

34. Although the deletion of Channel 12 from Fresno would make the assignment of this frequency to a community north of Fresno engineeringly feasible, we see no need for reaching a determination on these proposals in this proceeding. As noted, the proposals conflict with other proposals not submitted in this proceeding and raise questions extraneous to this proceeding. We do not believe that we need determine at this time to what city to the north of Fresno, if any, Channel 12 should be assigned if it is deleted from Fresno. If we determine that Channel 12 should be deleted from Fresno, consideration can be given to proposals for employing Channel 12 to the north of Fresno in a separate proceeding.

35. We have reviewed the record in this proceeding, with a view to the factors listed in our Report and Order of last June and conclude that the public interest would be served by deleting Channel 12 from Fresno and assigning Channel 30 and by adding Channel 12 to Santa Barbara. The Fresno area is predominantly UHF, the terrain is satisfactory for UHF propagation, the vast majority of sets are capable of receiving UHF, several UHF stations are providing service in the area, a low UHF channel is available to replace Channel 12, and it is not likely that significant populations would be without any service if it is deleted.

36. For the foregoing reasons it is the Commission's judgment that the television Table of Assignments (§ 3.606) should be amended by shifting Channel 12 from Fresno to Santa Barbara, assigning Channel 30 to Fresno, and substituting Channel 59 for Channel 30 in Madera. However, California Inland Broadcasting Company holds a license for operation of Station KFRE–TV on Channel 12 in Fresno. In view of the provisions of sections 303 (f) and 316 of the Communications Act of 1934, as amended, the frequency of Station KFRE–TV cannot be changed from Channel 12 to Channel 30 without the consent of the licensee or, absent such consent, a public hearing first being held.

37. *Accordingly, it is ordered,* That California Inland Broadcasting Company is hereby notified of the proposed modification of its license to specify operation on Channel 30, and the grounds and reasons therefor, and California Inland is directed to show cause why such order of modification should not issue, by filing with the Commission at its offices in Washington, D. C., on or before April 15, 1957, a response stating in detail the reasons why it believes its license should not be so modified.

38. An original and 14 copies of the response should be filed, and should indicate whether or not California Inland requests a public hearing in the matter and whether it intends to appear at such hearing and present evidence on the matters specified herein and in said response.

39. The failure to file a response by the above specified date shall be deemed a consent by California Inland to the modification of its license as proposed and a final order will be issued accordingly, unless in a petition filed at least 5 days before said date, California Inland shows good cause why such time should be extended. Failure to indicate in its response that California Inland requests a hearing will be deemed a waiver of its right to a hearing.

40. If a response is filed and the right to request a hearing has been waived, the Commission may, depending on the facts alleged and proof offered, either call upon California Inland to furnish additional information under oath, designate the matter for hearing on its own motion or issue without further proceedings an order modifying California Inland's license as proposed.

41. *It is further ordered,* That effective April 15, 1957, the Table of Television Channel Assignments (§ 3.606 of the Commission's rules) is amended by deleting Channel 30+ and adding Channel 59 for Madera, California.

42. Authority for the amendments herein is contained in sections 1, 4 (i), and (j), 301, 303 (a), (b), (c), (d), (e), (f), (g), (h) and (r), and 307 (b) of the Communication Act of 1934, as amended, and section 4 of the Administrative Procedure Act.

(Sec. 4, 48 Stat. 1066, as amended; 47 U. S. C. 154. Interprets or applies secs. 301, 303, 307, 48 Stat. 1081, 1082, 1083; 47 U. S. C. 301, 303, 307)

Adopted: February 26, 1957.

Released: March 1, 1957.

FEDERAL COMMUNICATIONS COMMISSION,[14]

[SEAL] MARY JANE MORRIS, *Secretary.*

[F. R. Doc. 57–1735; Filed, Mar. 7, 1957; 8:45 a. m.]

[12] TIAS 2366, as amended by TIAS 2654. Agreement Between the United States and Mexico on the Allocation of Television Channels Along the United States-Mexican Border (signed at Mexico June 4 and 25, 1952; entered into force June 25, 1952) (§ 2.601 (a) of the rules).

[13] The KSAN–TV proposal for San Francisco in order to meet all mileage separation requirements assumes a grant of the application of Television Diablo, Inc. (File No. BPCT–2187) to change the transmitter to Station KOVR, Stockton, California. This application was granted November 8, 1956, but a protest was filed and on January 2, 1957, the grant was stayed, and a hearing on the protest is scheduled.

[14] Commissioners Doerfer and Mack dissenting and issuing statements filed as part of original document; Commissioner Craven abstaining from voting.

PROPOSED RULE MAKING

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Parts 904, 934, 996, 999]

[Docket Nos. AO–14–A25; AO–83–A21; AO–203–A7; AO–204–A7]

MILK IN THE GREATER BOSTON, MERRIMACK VALLEY, SPRINGFIELD, AND WORCESTER, MASSACHUSETTS, MARKETING AREAS

NOTICE OF RECOMMENDED DECISION AND OPPORTUNITY TO FILE WRITTEN EXCEPTIONS THERETO WITH RESPECT TO PROPOSED MARKETING AGREEMENTS AND PROPOSED AMENDMENTS TO ORDERS, AS AMENDED, REGULATING HANDLING

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and marketing orders (7 CFR Part 900), notice is hereby given of the filing with the Hearing Clerk of this recommended decision of the Deputy Administrator, Agricultural Marketing Service, United States Department of Agriculture, with respect to proposed marketing agreements and proposed amendments to the orders, as amended, regulating the handling of milk in the Greater Boston, Merrimack Valley, Springfield, and Worcester, Massachusetts, marketing areas.

Interested parties may file written exceptions to this recommended decision with the Hearing Clerk, Room 112, Administration Building, United States Department of Agriculture, Washington 25, D. C., not later than the 10th day after publication of this recommended decision in the FEDERAL REGISTER. Exceptions should be filed in quadruplicate.

Preliminary statement. A public hearing, on the record of which the proposed marketing agreements and the proposed orders amending the orders, now in effect, were formulated, was called by the Agricultural Marketing Service, United States Department of Agriculture, following receipt of petitions filed on behalf of the major cooperative producer groups in the market. Following the receipt of the original petition all interested parties were invited to submit additional proposals.

The public hearing was held in Montpelier, Vermont, on December 3, and in Boston, Massachusetts, on December 4–7, 1956, pursuant to a notice published in the FEDERAL REGISTER on November 1, 1956 (21 F. R. 9069; F. R. Doc. 56–9544). The material issues considered at the hearing were concerned with the following:

1. Limitation of the effect of the supply-demand adjuster of the Class I pricing formula.

2. The level and basis of the Class II price.

3. Elimination of the butter and cheese adjustment and revision of the butterfat differential.

4. Revision of the definition and treatment of producer handlers.

5. Reconsideration of the exempt milk provisions.

6. Revisions of the classification and assignment provisions with reference to milk moving between the four markets.

7. Consideration of an equalization payment under the Boston order on Class I milk received from other Federal order plants.

8. Clarification of pooling status in the case of a plant moving from one regulated market to another.

9. Revision of the distributing plant definition under the Boston order to provide a tolerance to exempt nonpool plants which might accidently dispose of a small volume of milk in the Boston marketing area.

10. Revision of the country plant pooling qualifications under the Merrimack Valley order.

11. Other minor changes.

Findings and conclusions. Upon the evidence adduced at the hearing and the record thereof, it is hereby found and concluded that:

1. *Limitation of the effect of the supply-demand adjuster of the Class I pricing formula.* No change should be made at this time in the Class I pricing formula. Under the present order provisions the Class I price is determined on the basis of an economic type formula which reflects changes in the national commodity price level, in the level of consumer incomes in New England, and in prices which dairy farmers must pay for feed and labor in the conduct of their dairy enterprise. The resulting index is adjusted seasonally and to reflect the current fluid milk supply-demand relationship in the combined markets. All

other things remaining equal, the pricing mechanism is geared to lower the price seasonally 20 percent, or about $1.10 at the present level, in four successive steps between December and May and, conversely, to raise the price 20 percent, or about $1.10 a hundredweight, in four successive steps between June and October. The price is further adjusted upward or downward to reflect the current supply-demand relationship.

During 1956 the effect of the supply-demand adjuster was to lower the Class I price as much as 66 cents in the months of January through June and as little as 22 cents in November and December. Two bargaining cooperatives proposed that the supply-demand adjuster be suspended or amended to prevent it from reducing the price by more than 22 cents for the months of January through April 1957. In support of their proposal proponents pointed out that the feed situation in the area is less favorable than in the same period in the previous year, both in terms of quantity and quality. They further maintained that even in normal winters the cost of producing milk in the months of January through March is as high as in the months of November and December.

It is intended that the Class I price shall be a price which will bring forth a necessary but not excessive, volume of milk to supply the Class I needs of the fluid market throughout the year. The seasonal adjustments are included in the pricing formula to encourage a seasonal pattern of receipts from producers more nearly in line with the Class I demands of the market. It is recognized that cows take at least as much care and feed during the barn feeding months of January, February and March as in the months of November and December. However, November and December are normally the shortest months of production. Starting in January production begins an increase which normally continues into June and then falls off through the month of November. In 1956 producer receipts in the Boston market during the month of June were 150 percent of the receipts during the month of November. Stated another way, November receipts from producers were 66.7 percent of June receipts. The pattern of Class I sales in the market is much more uniform than production. Class I sales in November 1956 were 114 percent of sales in the month of June. The seasonality in pricing is intended to provide encouragement to the producer to produce his annual volume of milk in a pattern which more nearly meets the pattern of consumption in the market.

Whenever the supply-demand adjuster acts to reduce the Class I price, the market has a greater volume of supply than is needed. In the period December 1955 through May 1956, the Class I price per hundredweight in the New England Federal order markets fell $1.76. Five-eighths of this drop was the normal seasonality in pricing and three-eighths was the result of the action of the supply-demand adjuster. Notwithstanding this sharp drop in price, the supply of producer milk in October 1956, the last month for which statistics were available at the time of the hearing, was almost identical with that of October 1955. Official notice is taken of the fact that producer receipts in November 1956 were six percent higher than in November 1955. While there also have been substantial increases in the Class I sales, the supply of milk in the Boston market is still significantly more than that necessary for Class I use.

The fact that the Boston and New York milksheds overlap and producers and plants can, and do, shift from one market to the other, emphasizes the need for close price alignment between the two markets. The Class I price, and the blended price particularly, in 1955 and 1956 have strongly favored the Boston market with the result that in recent months there has been a substantial movement of producers and plants out of the New York pool into the Boston pool. Any increase in the annual level of the Boston price at this time, even though temporary, would further increase the disparity of prices between the two markets and would provide even greater encouragement for the New York producers and plants to shift to the Boston market.

It seems likely that producers proposing restriction on the action of the supply-demand adjuster at this time were primarily motivated by a recollection of the pattern of price movements in the first half of 1956 and that they were attempting to prevent a recurrence of this situation in 1957. Analysis of the statistics in the record indicates that the Class I price during the early part of 1957 will be substantially higher than during the same period of 1956. Official notice is taken of the December 26 announcement by the Boston market administrator of a Class I price for January 1957 of $6.07 per hundredweight which is 64 cents above the price for January 1956. It now seems likely that the Class I price in the months of February through June will be 42 cents higher than the price for the same period in 1956. Under these circumstances, there is no reason to believe that the level of price prevailing in the New England markets will not continue to bring forth at least an adequate supply of milk for the market. Accordingly, the request for restricting the action of the supply-demand adjuster should be denied.

2. *The level and basis of the Class II price.* The alternative Class II pricing formula based on the average U. S. manufacturing milk price should be adjusted to provide an approximate 8-cent increase in the resulting price. This alternative pricing formula should continue to provide the effective Class II price in any month in which no Boston weighted average cream price is reported and in any other month when the resulting price is higher than that computed by use of the weighted average cream price. The adjustment of the reported average U. S. manufacturing milk price to a 3.7 basis should be accomplished by the use of a butterfat differential equal to the New York 92-score butter price as reported by the United States Department of Agriculture, plus 25 percent.

The appropriate price level for Class II milk is that which will move the milk in an orderly manner into dairy products for which outlets are available in the local market and at the same time return to producers the highest practical prices for such milk.

The use of the U. S. manufacturing milk price series based on current price quotations as an alternative Class II pricing component was adopted in the New England orders effective April 1, 1954 and was intended to establish a minimum Class II price under these orders in line with the current prices for milk used in manufacturing in the country as a whole. At the time of this adoption, consideration was also given to the use of the price series reflecting the price of milk utilized in making salted butter and Cheddar cheese and the midwestern condensery pay price. It was concluded at that time that while it would be possible to apply seasonal adjustment factors to either of these two series, the use of the manufacturing milk price series actually reflected prices paid for all manufactured uses and hence, represented a more logical basis for use in the Boston market.

At the time of its adoption, various interests in the market indicated some reservation regarding its use. It is significant that at the current hearing virtually all of the handlers and the organized producer groups who testified on this issue supported the use of the U. S. manufacturing milk price series as a basis of pricing Class II milk. One cooperative association supported the midwestern condensery pay price series. However, the record fails to show any compelling reasons for shifting away from the manufacturing milk price series which holds the confidence of most producers and handlers in the market. It is concluded that greater price stability is provided in relating the Class II price to a series reflecting prices paid at various types of manufacturing milk plants rather than a single type.

Proponents of the proposal to increase the Class II price support the seasonality which is carried in the pricing formula. They take the position, however, that the basic level of price is too low. In support of its position, one large cooperative which is an operating as well as a bargaining association in these markets indicated that it has made attractive earnings from handling Class II milk at its own plants in the past few years. It further testified that proprietary handlers are actively soliciting new producers and taking over the operation of additional plants. The association maintained that this is a compelling reason to conclude that the current price level is too low. In further support of their position, producer proponents pointed out that the Boston Class II price has historically maintained a favorable relationship with the New York Class III price, that the New York Class III price was raised an average of almost 10 cents per hundredweight effective July 1956, and that this had shifted the balance in favor of the New York Class III price.

The operating cooperative associations in the market joined the bargaining cooperatives in their position that an upward adjustment in the Class II price is needed. However, the bargaining cooperatives would increase the price by 10 cents per hundredweight while the operating cooperatives indicated that 3 cents would be more appropriate.

The determination of the appropriate level of surplus pricing which should apply under a given set of circumstances is necessarily a matter of judgment. In appraising the Class II price under the New England orders the experience of the cooperative associations handling Class II milk in the market is necessarily an important criterion. The fact that these cooperatives have found the current price level financially attractive and the fact that proprietary handlers appear to be actively soliciting additional supplies of milk indicates that some upward price adjustment is desirable. Certainly Boston producers located, as they are, close to the large eastern population centers should expect a higher return for Class II milk then the average dairymen distant from markets. At the same time, the juxtaposition of the Boston and New York milksheds necessitates the close alignment of prices between these two markets.

The condensery pay price and the New York Class III price are reported on a 3.5 percent butterfat basis and the comparison of these prices with the Boston price can be made most satisfactorily at this test. Official notice is taken of these reported and announced prices for the months of November and December 1956 which were not available at the time of the hearing. During the years 1954, 1955 and 1956 the Boston Class II price on a 3.5 percent butterfat basis averaged 2 cents, 5 cents, and 7 cents, respectively, over the New York Class III price, not considering the effect of the July 1956 amendment to the New York Class III price. During the same period, the Boston price was 5 cents, 9 cents and 12 cents, respectively, below the midwestern condensery pay price and 9 cents, 8 cents, and 6 cents, respectively, above the U. S. manufacturing milk price.

Under the Class II pricing formula in the New England orders since April 1, 1954, the manufacturing milk price has been the effective Class II pricing component in four of the remaining months of 1954, in seven of the twelve months of 1955, and in nine of the twelve months of 1956. Under such circumstances the role of the manufacturing milk price as a New England pricing mechanism for Class II milk has become increasingly important.

Under the present pricing provisions the adjustment of the reported U. S. manufacturing milk price to a 3.7 percent butterfat basis is accomplished by the direct ratio method. This procedure was adopted because it appeared to approximate most closely the practice followed by the reporting plants. Evidence introduced at this hearing raises some question as to the validity of this position. It appears likely that in actual practice a number of different procedures may be used in adjusting price to a specified fat test. The use of the direct ratio method of adjusting price assigns all of the value to the fat. In this market where skim milk has a significant value, a butterfat differential based on market butter quotations is necessary in order to reflect accurately the separate values of butterfat and skim milk. It is hereinafter proposed that the New York 92-score butter quotation plus 25 percent divided by 10 be used as the butterfat differential in pricing milk to Boston handlers and in the interest of consistency it is concluded that this differential can appropriately be used to adjust the U. S. manufacturing milk price. This differential changes by small amounts the value presently assigned to 3.7 percent milk by using the direct ratio method of adjusting the U. S. manufacturing milk price. On an annual basis it is estimated that the use of the New York butter quotation would raise the Class II price by about one cent, leaving 7 cents of the proposed 8-cent increase to be secured by other means.

The present pricing provisions adjust the U. S. manufacturing price monthly by stated differentials which are intended to encourage handlers to accept the milk in excess of Class I requirements during the months when seasonally excessive supplies normally exist. The seasonality which has existed in the formula has tended to promote the orderly handling of all producer milk and it is not intended that this seasonality should be disturbed. The remaining seven cents of the proposed increase may best be incorporated in the pricing mechanism by increasing the stated monthly adjustments by that amount.

If an increase of 8 cents in the Boston price level, resulting from the recommended application of the U. S. manufacturing milk price, and the July 1956 amendment to the New York Class III price were to be applied retroactively from January 1, 1954, they would have provided virtually identical average prices for Boston Class II milk and New York Class III milk during the three-year period 1954–1956.

Several witnesses at the hearing presented weighted price comparisons which were intended to show on the one hand that the price should be increased at least 10 cents and on the other that a three-cent increase is all that is necessary for alignment of prices between New York and Boston. In this connection, however, figures presented by the operating cooperatives indicate that in 1954–1955 the weighted average price of Class II milk of 3.7 percent butterfat content was two cents above the New York Class III price. Consideration of the effect of the July 1956 New York amendment supports the increase of the U. S. manufacturing milk price component of the Boston Class II formula herein proposed.

The 8-cent increase in the U. S. manufacturing milk price component would have provided a Boston Class II price which was above the U. S. manufacturing milk price by from 12 to 14 cents during this period 1954 through 1956, which is concluded to be an appropriate relationship with prices for milk used in manufacturing in the country as a whole.

Certain handlers at the hearing suggested that sounder pricing would prevail if the use of the Boston weighted cream price as a Class II price determinant was discontinued. They suggested that the Class II pricing formula be adjusted to reflect in returns to producers the average benefit which they received by virtue of the use of the weighted cream price over the past several years. The continuation of the weighted average cream price is premised on the principle that producers should have assurance that in those periods when local cream supplies are considerably below market needs, they will receive a price for their Class II milk commensurate with the handlers' average cost of securing supplemental supplies.

3. *Elimination of the butter and cheese adjustment and revision of the butterfat differentials.* The butter and cheese adjustment, which under the present provisions of the Boston order operates to reduce the value of butterfat used in making butter and cheese during the months of April through July, should be eliminated except when the Class II price is based on the weighted average cream price. When the Class II price in such months is based on the weighted average cream price, milk used in butter and cheese should be priced on the basis of the alternative Class II pricing component derived from the U. S. manufacturing milk price.

Under the present order provisions when the Class II price is based on the U. S. manufacturing milk price the butter and cheese differential is the difference between the Chicago 92-score butter quotation plus 22 percent and the New York 92-score butter quotation plus 20 percent. If the Class II price is based on the weighted average cream price the butter and cheese differential is determined by dividing by 3.7 the fat value of such price and subtracting therefrom a value equal to the New York 92-score butter quotation plus 20 percent.

Certain proponents at the hearing questioned the validity of any butter and cheese adjustment in the Boston order while at the same time the operating cooperatives proposed that the butter and cheese adjustment be extended to all months of the year and that there be no increase in Class II price applicable to milk used in butter and cheese.

New England has historically been a deficit cream market and while in recent years the market has become more nearly self-sufficient there is no indication that supplies are at such levels that it is necessary to facilitate the disposition of milk in butter and cheese. The large eastern population centers should normally provide a ready outlet for butterfat in fluid cream, ice cream and frozen cream and its use in the manufacture of butter and Cheddar type cheese should not be encouraged. The manufacture of these products in New England at the same time that fluid cream is imported to the region from outside areas is an inefficient and uneconomic utilization of butterfat as between regions.

The seasonality in the Class II price is provided in the order to assure a market for all producer milk during the flush months of production and at the same time to provide an incentive to handlers to make milk available when needed for

Class I use in other months of the year. The U. S. manufacturing milk price is a composite price weighted to reflect the prices paid and the proportionate volumes of milk utilized in the various manufacturing uses and, as such, reflects the prices paid for and the proportionate volumes of milk used in butter and cheese. Under the pricing formula this price is seasonally adjusted so that the resulting Class II price during the flush months is below this average manufacturing price. Hence, there is no reason why further adjustment should be made to provide a still lower price for milk used in butter and cheese. As a practical matter the butter and cheese adjustment as presently calculated is of no consequence in these months when the price is based on the manufacturing milk price. During the past three years the differential per pound of fat, exclusive of July 1955 when the weighted average cream price was the Class II price determinant, has averaged approximately one-half of a cent. In July 1955 the adjustment was slightly over 7 cents.

When the Class II price during any of the months of April through July is based on the weighted average cream price it is likely that such price may be somewhat high for milk going in butter and cheese. The existence of a weighted average cream price, of course, is in itself an indication of a short butterfat market and raises a serious question as to whether any butterfat should be manufactured into butter and cheese during such period. Nevertheless, it is concluded that the price for butterfat utilized in butter and cheese in any such month should not reflect the higher butterfat value resulting from the use of the cream price but should continue to be priced on the basis of the U. S. manufacturing price component. It is believed that manufacturers in this market operating such facilities generally would have difficulty in making short-run shifts in their manufacturing operations.

The basis for computing the butterfat differential under the Boston and secondary market orders be revised to provide for the use of a New York 92-score butter quotation rather than the Chicago 92-score butter quotation whenever there is no Boston weighted average cream price.

A producer association proposed a method of determining the alternative butterfat differential from what might be considered the gross butterfat value reflected in the U. S. average manufacturing price. This method has merit in relating the butterfat differential to the value of butterfat in the Class II price, whether determined from cream and powder values or from the U. S. average manufacturing price. However, the method is exceedingly complex. Generally it would yield a differential a little above the level of Chicago butter plus 25 percent.

The Chicago and New York 92-score butter quotations usually maintain a rather close alignment, with the New York quotation running higher by about three-quarters of a cent. Increased by 25 percent this difference amounts to slightly less than a cent a pound of butterfat, or just under a tenth of a cent in terms of the butterfat differential. On an annual basis, use of the New York butter quotation to determine the alternative butterfat differential would produce approximately the same result as the complex method proposed by the producer association. The New York quotation also is recognized as a sound price from which to calculate butterfat values in eastern markets. As previously concluded, however, the price for producer milk utilized in Class II should reflect the higher value resulting from the use of the weighted average cream price, when such price is determined and produces a Class II price above that computed by use of the U. S. manufacturing milk price. Under such circumstances the producer butterfat differential should also reflect the higher value resulting from the use of the cream price.

4. *Revision of definition and treatment of producer-handlers.* No action should be taken on the basis of this record to restrict qualification under the producer-handler definition by the imposition of a maximum distribution volume. Also no change should be made in the treatment of a handler's own farm production. However, the definition of producer-handler should be changed so as to make clear that such a person must operate a processing and packaging plant from which Class I milk is disposed of in the marketing area. Other order changes should be made to provide that receipts in bulk from producer-handlers by pool handlers and buyer-handlers shall be treated as outside milk rather than as producer milk.

The orders now provide that a producer-handler shall be both a handler and dairy farmer and shall receive no milk other than exempt milk from other dairy farmers except producer-handlers. The Boston order further provides that a producer-handler's farm must be located within 80 miles of Boston.

Producer-handlers were exempt from full regulation under the New England orders primarily on the premise that they represented small business operations which were not a serious competitive factor in the market; that the terms of the orders would impose an undue burden of record keeping upon them; and administrative effort in regulation of their operations would be difficult and costly.

Proponents for a change in the producer-handler definition at the hearing made no claim that past operations of producer-handlers have contributed to market instability and they suggested that insofar as possible they did not desire to disturb operations of producer-handlers of long standing.

The situation which apparently prompted the proposal for reconsideration of the treatment of producer-handlers under the New England orders was an announcement by a Springfield handler, whose supply consists solely of fully regulated milk, of his intention to create a large producer-handler operation. However, there is no indication that this can be done practicably. Certainly, on the basis of this record it would be inappropriate to change significantly the impact of regulation on the producer-handlers in the Boston, Merrimack Valley, and Worcester markets because of a special situation currently developing in the Springfield market.

The Boston market in particular has a number of producer-handlers of substantial size who have historically been a part of the market. Adoption of any volume distribution limit which would be of value in controlling the operations of a producer-handler would place these producer-handlers in a fully regulated status and would materially affect their business. Consideration of any substantial change in the orders as they apply to producer-handlers should be more complete than would be possible on the basis of this record.

Basically, the problem outlined by proponents appears to be directly associated with the spread between the blend and the Class I price. If dairy farmers are attempting to get into the distributing business as producer-handlers it is being done to take advantage of the margin between the blend and Class I price and/or the spread which handlers enjoy between producer and resale prices. The solution seemingly lies in better alignment of the blend and Class I prices.

Some producer-handlers who testified at the hearing suggested that the privilege now granted to producer-handlers of delivering their excess milk to the market as producer milk constituted an unfair advantage over regular producers. Since a producer-handler does not share his Class I sales with regular producers, he should not be permitted to dilute the pool with his excess milk and share in the market blend. Accordingly, it is concluded that producer-handlers' bulk milk deliveries to other types of handlers, other than exempt milk, should be treated as outside milk.

Clarification of the producer-handler definition should be made to specifically set forth the requirement that a producer-handler must operate a processing and packaging plant. This is the intent of the present provision and represents the distinguishing difference between the producer-handler and the dairy farmer who delivers exempt milk.

5. *Reconsideration of the exempt milk provisions.* The exempt milk provisions of each order should be revised to exclude milk received in bulk at a regulated plant from a plant not regulated under such order, except under emergency conditions resulting from fire, flood, hurricane or similar extraordinary circumstances. No change should be made in the exempt milk provisions of the respective orders as they apply to receipts from a dairy farmer, except to extend the application to include all fluid milk products other than cream.

The exempt milk provisions were first incorporated in the New England orders to recognize relationships of long standing and permit small dairy farmers with a local market for their own farm production to use regulated plants for their processing and packaging without payment obligations under the orders. Such a dairy farmer's operation was considered similar to that of a producer-handler, except that the latter operated his own plant. Later the provisions were extended to include processing and packaging transactions between regulated and unregulated plants. A principal reason for such extension was to meet emergency conditions which might render the unregulated plant temporarily inoperative.

Until recently the volume of exempt milk handled by Boston pool handlers has been inconsequential. It has been more substantial in the secondary markets, primarily because of the larger proportion of dairy farmers located near the market, with opportunities to engage in retail distribution and because of a number of public and private institutions which maintain dairy herds and use the exempt milk provision to have milk processed and packaged for their own use.

The record indicates that in 1956 a multiple-plant handler began to take advantage of the exempt milk provisions to use a regulated plant for processing and packaging unregulated milk sold outside the marketing area. The record also shows that during the latter part of 1956 another multiple-plant handler began to take advantage of the exempt milk provisions to manipulate blend prices between markets and to relieve local situations which had previously made it necessary for the handler to pay premiums.

The use of regulated plants for processing and packaging milk, under the exempt milk provisions, for disposition in nonfederally regulated areas may provide a loophole by which Class I sales are lost for regulated milk. The orders should not promote practices which may lead to such loss of Class I sales. Accordingly, it is concluded that the application of the exempt milk provisions to receipts of bulk milk from nonfederally regulated plants should be discontinued. The unregulated dealer with inadequate facilities, who relies on other persons for his processing and packaging but desires to remain unregulated may do so by finding another unregulated dealer to perform such operations. In a similar manner multiple-plant handlers with both regulated and unregulated plants should not have the privilege of processing and packaging their unregulated milk in their regulated plants. If they desire to maintain Class I operations outside of the scope of regulation they must adjust their business so that the unregulated milk does not get into the regulated plants.

The exempt milk provisions should not provide the medium whereby multiple-plant handlers operating in two or more of the New England Federal order markets may manipulate blended prices as between orders. If in a handler's opinion undesirable price relationships develop between markets, corrective measures should be sought through amendment of the orders and not by price manipulations involving the abuse of the exempt milk provisions.

It is recognized that catastrophic conditions may render a plant temporarily unusable and a dealer may have to devise an emergency program for handling milk during such situations. It is believed that the orders should not deter handling of milk under such circumstances and accordingly it is proposed that the exempt milk definition should continue to cover movements of milk from an unregulated plant to a regulated plant, for processing and packaging, under such catastrophic conditions. However, the provision should not be applicable in the case of ordinary plant breakdowns or work stoppages, involving situations which are clearly the usual risk of any handler. These are readily distinguishable from extraordinary circumstances which are completely beyond the handler's control.

No change is being recommended with reference to the general application of the exempt milk provisions to dairy farmers. At the hearing proponents proposed that volume limitations similar to those proposed for producer-handlers be applied to exempt milk for dairy farmers. The imposition of volume limitations on producer-handlers is not being recommended on the basis of this hearing and hence it appears inappropriate to impose such limitations on dairy farmers who are not producer-handlers.

The exempt milk provisions should be amended to cover the return of all packaged fluid milk products, other than cream. There appears to be no basic reason for permitting the exempt milk provisions to apply to packaged milk but not to other Class I products.

Elsewhere in this recommended decision it is concluded that producer-handlers' bulk deliveries to other types of handlers, other than of exempt milk, should be treated as outside milk. Parallel treatment would seem to require that any excess milk of those dairy farmers who do not operate plants but who make use of the exempt milk provisions in distributing Class I milk in the marketing area should also be treated as outside milk. However, it must be recognized that a dairy farmer without a plant does not have handler status and is not required to keep records and make reports to the market administrator. The market administrator has no satisfactory means of determining that an individual delivering exempt milk as a dairy farmer did not also deliver additional milk in the status of a producer either to the same handler or to another handler. In any event the volume of milk which might be so delivered is apparently negligible and it is concluded that no change need be made in this regard.

6. *Revision of the classification and assignment provisions with reference to milk moving between the four markets.* The orders should be amended to provide that fluid milk products, other than cream, moved in packaged form from a regulated plant under one of these orders to a regulated plant under another of these orders, or sold directly to consumers in another marketing area regulated under one of these orders, shall be assigned to Class I milk and credited to the market from which it originates.

The several New England orders operating under marketwide pooling arrangement are generally so constructed as to permit free movement of milk between markets. If a handler in one of these markets extends his operations to another federally regulated market such sales should be considered as a part of the fluid milk sales for which producers in his market receive the Class I price. To permit unrestricted competition for sales among handlers, all of whose milk is priced and regulated on a uniform basis, full reciprocity in the movement of packaged milk as between regulated plants in the four markets and on sales direct to consumers in another marketing area should be provided.

The orders should permit free movement of Class I milk in packaged form between regulated markets. Adoption of this principle will permit handlers in the Merrimack Valley, Springfield, or Worcester markets to supply Class I milk in packaged form to Boston regulated plants as well as to regulated plants under the other secondary orders. Such handlers will also be able to make direct sales to consumers in all the other marketing areas and have the Class I sales credited to their own market. Boston handlers already enjoy this privilege in the secondary markets with the exception of sales directly to consumers in the Springfield marketing area. In effect, this amendment will change the emphasis in determining classification of milk moved between regulated markets from sales "directly to consumers" to sales "in packaged form".

Bulk milk will continue to be classified and assigned as heretofore, except that the exempt milk provisions will no longer apply to receipts of such milk from unregulated plants. The classification and assignment provisions of the present orders are clear and well integrated as they relate to bulk milk movements between regulated markets. Packaged milk, on the other hand, will be considered as Class I milk and credited to the market from which it originates.

In view of the recommended difference in treatment between bulk product and packaged product, a definition of the term "packaged fluid milk products" should be included in the order. It is intended that such term include all fluid milk products in any container in which it was delivered to the consumer, regardless of size.

7. *Consideration of an equalization payment under the Boston order on Class I milk received from other Federal order plants.* No provision should be made in the Boston order for equalization payments on milk moved to the Greater Boston marketing area from other federally regulated plants.

It was proposed that a provision similar to that currently provided in each of the secondary market orders be included in the Boston order. Proponents pointed out that Boston milk moving to New York and allocated to Class I under that order may be subject to an equalization payment and accordingly that similar treatment should be provided for New York milk moving to Boston. They further suggested that the procedure for equalizing payments as contained in the secondary market orders seemingly has been effective in offsetting inter-pool zone differential advantages without obstructing free and efficient movement of milk supplies between the several markets.

Under the terms of the various orders, the Secretary establishes prices to re-

flect the use value of the milk, which prices are intended to bring forth an adequate but not excessive supply of milk for the market. Under usual circumstances the difference in prices as between markets reflects only transportation differentials and the local supply-demand situation. It is intended that milk should move freely between markets in response to price differences due to changing supply-demand relationships.

Accordingly, it is concluded that no provision should be made for equalization payments on New York order milk disposed of in the Boston market.

It seems likely that this same principle would be equally applicable among all the New England orders. While the secondary market orders presently contain provisions for equalization payments between federally regulated markets these provisions were not an issue at the hearing and no change should be made on the basis of this record.

8. *Clarification of pooling status in the case of a plant moving from one regulated market to another.* The pool plant provisions of the secondary market orders should be revised to specify clearly under which secondary market order a plant will be pooled in the event that it meets the pooling requirements under more than one of such orders and to assure pool status during the flush months to a country plant which met all of the pooling requirements during the months of October through February but which was actually a pool plant under one of the other orders during any part of this period. In this regard it is concluded that a plant qualifying for pooling under more than one of the secondary market orders in any month should be pooled under that order for the market in which it does the greater volume of its Class I business.

Under the present provisions of each of the secondary market orders a basic requirement for pool status is that the plant not be operated as a pool plant under either the Boston, New York or the other two secondary market orders. Each order also provides minimum shipping requirements which a county plant must meet to qualify for pooling during the October-February period and a plant qualifying in each of the months of October through February may be pooled during the months of March through September without making shipments to the market. Under these provisions it is possible for a plant to qualify for pooling in any one month under more than one order by virtue of its shipments or direct Class I disposition in the marketing area. In such eventuality the orders give no direction for determining under which order the plant should be permitted pool status. While this has not yet become an actual problem, the emphasis on centralized processing and packaging operations and other efficiencies in transportation and distribution make it a strong possibility.

A country plant which continuously meets all the pooling requirements of a particular order should not lose its pooling status in the market in the months of March through September solely by virtue of the fact that its shipments into one of the other marketing areas in one or more months of October through February were greater than into such market where it normally associates.

The proposal made at the hearing would provide a designated priority of pooling for plants qualifying under more than one order. It is concluded that a plant should more properly be pooled under the order for that market in which it disposes of the greater volume of Class I milk.

While the mileage limitation contained in the city plant definitions makes it unlikely that a city plant might qualify under more than one secondary market order it is concluded that the order should provide a basis for ascertaining under which order a plant should be pooled if such situation should occur. Again, the principle of association with the market in which the greater volume of Class I business is done should be controlling.

The changes proposed herein are not intended in any way to change a plant's pooling status relative to the New York or Boston orders.

9. *Revision of the "distributing plant" definition under the Boston order.* The definition of the term "distributing plant" in the Boston order should be revised to provide a tolerance for casual or accidental Class I distribution to consumers in the Boston marketing area by a regulated secondary market order plant, to avoid unintentional pooling of such secondary market plant under the Boston order. Such tolerance should not be applicable to plants which are not regulated by any of the secondary market orders.

The Boston order contains a provision under which a plant can be designated as a nonpool plant, but this provision applies only to nondistributing plants. A handler who wishes to avoid the pooling of any of his plants under the order can do so by requesting nonpool plant designation of such plants by the market administrator. This designation cannot be applicable to any plant from which Class I milk, in the form of milk, was disposed of directly to consumers in the marketing area, because the plant thereby would have met the definition of a "distributing plant". No quantity tolerance of any kind, so far as such direct distribution is concerned, is presently contained in the definition of the term "distributing plant."

The proposal for a small tolerance was made by a handler with multiple plant operations which include regulated plants in both the Boston and secondary market orders as well as unregulated plants. To provide greater operating efficiencies this company centralizes certain packaging operations and as a result packaged milk may move from its secondary market plants to its Boston order plants. If a single quart of such milk, through error, should be delivered to a customer in the Boston marketing area without intermediate movement to a Boston plant, the secondary market plant would very probably become subject to pooling under the Boston order. Such unintentional pooling could bring about a substantial difference in blend prices to producers under the several orders and possibly disrupt orderly marketing in the area.

The proponent requested a two percent tolerance but did not limit his request to secondary market plants. It is concluded that this tolerance should not apply to plants which are not regulated under any of these orders but that it would be appropriate and would give ample protection in the case of regulated plants under the secondary market orders, without invalidating the principle that the Boston order shall have prior claim in pooling any plant doing a significant business in the Boston marketing area.

A handler with a single plant operation must dispose of more than 10 percent of his receipts as Class I milk in the marketing area before becoming fully regulated and therefore it is unlikely that accidental sales in the area will have this result. The multiple plant operator has the privilege of pooling part or all of his operation if he meets this 10 percent requirement and also meets the specified shipping requirements for each plant. On the other hand, each of such a handler's plants can much more readily become a pool plant. If such handler does not choose to pool his entire operation he may file a request for nonpool designation of certain plants. Even if he does file such a request a casual disposition of Class I milk directly to consumers in the marketing area from a plant which was ordinarily an unregulated plant might bring such plant under full regulation. A multiple plant operator is given a considerable amount of freedom in deciding whethor or not to pool his entire operation and he must accept the full responsibility for protecting his unregulated plants from regulation. Ordinarily, a handler maintains unregulated plant status for one or more of his plants because of the financial advantages associated with that status. Hence, the pooling of a plant which is normally an unregulated plant would not adversely affect the pool in the great majority of cases, and would continue to assure uniform pricing among handlers. Therefore, no concession should be granted in the case of unregulated distributing plants to protect their status as unregulated plants.

10. *Revise the country receiving plant qualifications under the Merrimack Valley order.* The pooling provisions under the Merrimack Valley order should be amended to permit a country plant which processes and packages Class I milk for sale in the marketing area to qualify as a pool plant in each month in which at least 10 percent of its total receipts of fluid milk products other than cream is disposed of in the marketing area as Class I milk. The permissive deduction of Class I sales made directly to consumers outside the marketing area before determining utilization for pooling requirements should be deleted. There was no proposal in the notice of hearing to change the 30 percent shipping requirements applicable to the usual country plants and no change should be made in that regard.

Under the present provisions of the order, 30 percent of a country plant's total receipts, after deducting Class I sales direct to consumers outside the marketing area, must be disposed of directly to consumers in the marketing area as Class I milk or be shipped as milk to city plants at which more than 50 percent of the total receipts of fluid milk products, other than cream, is disposed of as Class I milk. The order also provides that any country plant which is a pool plant continuously in each of the months of October through February shall be a pool plant continuously for the following months of March through September regardless of the quantity then disposed of in the marketing area. This 30 percent requirement was temporarily reduced by suspension action to 10 percent to protect the pooling status of a plant presently associated with the market, until there could be a review of the pooling requirements at a public hearing.

It was proposed at the hearing that each country receiving plant located within 40 miles of the marketing area, and processing and packaging fluid milk products for distribution direct to consumers and/or through other handlers shall be a pool plant in any month in which the quantity of fluid milk products, other than cream, disposed of in the marketing area as Class I milk, is at least 10 percent of its total receipts of fluid milk products, other than cream. No proposal was made for changing the 30 percent standard as it would apply to the usual type of supply plant. The Manchester Dairy System, proponent of the proposal, is a country plant with processing and packaging facilities. Manchester Dairy System makes substantial Class I sales in packaged form to other regulated handlers in the marketing area. It also makes sales in bulk to such handlers. In addition, it makes sales to unregulated plants and direct sales to consumers outside the marketing area.

The Manchester Dairy System has been continuously associated with the Merrimack Valley market since prior to the inception of Federal regulation of the market. Pooling requirements as they affect Manchester Dairy System have been an issue at several previous hearings and the amendment to the order effective September 1, 1952 which permitted a country plant to deduct Class I sales to consumers outside the marketing area from total receipts prior to the determination of Class I business done in the marketing area was made to facilitate Manchester Dairy System's continued qualification. The suspension order issued September 14, 1956, was also made to assure Manchester continued pooling status pending review of the problem at this hearing.

The difficulties of the Manchester Dairy System in meeting the pooling requirements of the order are primarily centered in the fact that it has no direct distribution in the marketing area but has acted primarily as a servicing agent for other regulated handlers. Business gained in earlier years by acting as a supplier of packaged milk and bulk milk to other regulated handlers has substantially diminished as the distributing handlers have installed their own facilities or have changed to other sources of supply. Up to the present time the Manchester Dairy System has been able to meet the pooling requirements, but its continued ability to do so is problematical.

A country plant, under the definition of that term in the order is any plant which is located beyond 10 miles of the marketing area, and conversely a city plant is a plant located within 10 miles of the marketing area. Under usual circumstances, a country plant is merely a supply plant doing no processing and packaging of milk for fluid distribution whereas a city plant usually does perform such operations and distributes Class I milk in the marketing area. Any country plant, such as that of Manchester Dairy System, whose operations are similar to those of city plants should be permitted to qualify for pooling on a basis similar to that for city plants. However, such a country plant should no longer be permitted to qualify for pooling in the flush months on the basis of its continuous pool plant status during the short season, but should be required to qualify on the basis of Class I distribution in the marketing area in each month in the same manner as city plants.

Question was raised at the hearing as to whether a country plant should be entitled to the zone price differentials applicable to country plants if it is permitted to pool on performance standards similar to those for city plants. The changes herein proposed will in no way affect the cost of transporting milk to the market and the zone price differentials should be equally applicable under the revised standard.

11. *Other changes.* Minor amendments to the Boston order should be made so as to insure that plants, coming under regulation because of the addition of four towns to the marketing area on November 1, 1956, should be eligible for pooling in the 1957 flush season if they continuously meet all of the pooling requirements from that date. The status as producers of dairy farmers delivering to such plants should also be preserved for the 1957 flush season.

The administration assessment provisions of the Merrimack Valley order should be extended so as to apply to handlers' receipts of exempt milk processed at regulated plants. The administrative cost in the verification of such exempt milk is equally as great as that applicable to other milk to which the assessment applies. The recommended change will also provide uniformity of treatment under the New England orders.

General findings. (a) The proposed marketing agreements and the orders, now in effect, and as hereby proposed to be amended, and all of the terms and conditions thereof will tend to effectuate the declared policy of the act;

(b) The proposed marketing agreements and orders, as amended, and as hereby proposed to be amended, regulate the handling of milk in the same manner as, and are applicable to persons in the respective classes of industrial and commercial activity, specified in a proposed marketing agreement and order upon which a hearing has been held; and

(c) The parity prices of milk as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the respective marketing areas; and the minimum prices specified in the proposed marketing agreements and in the orders, as amended, and as hereby proposed to be amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk in each of said marketing areas, respectively, and be in the public interest.

Rulings on proposed findings and conclusions. Briefs were filed on behalf of interested parties. The briefs contained suggested findings of fact, conclusions, and arguments with respect to the proposals considered at the hearing. Every point covered in the briefs was carefully examined along with the evidence in the record in making the findings and reaching the conclusions hereinbefore set forth. To the extent that the suggested findings and conclusions are inconsistent with the findings and conclusions contained herein the request to make such findings or to reach such conclusions is denied.

Recommended marketing agreements and orders. The following proposed orders, amending the orders as amended, are recommended as the detailed and appropriate means by which these conclusions may be carried out. The proposed marketing agreements are not included in this decision because the regulatory provisions thereof would be the same as those contained in the proposed amending orders:

Boston order:

1. Add a new sentence at the end of § 904.2 (d) to read as follows: "With respect to the months of April through June 1957, the term shall not include any dairy farmer from whom the handler's receipts of nonpool milk during the months of July through October 1956 consisted only of milk received at a plant which became subject to this order as a result of the extension of the marketing area to include the towns of Framingham, Natick, Wayland, and Weston."

2. Delete the first sentence of § 904.2 (e) and substitute the following: "'Producer' means any dairy farmer whose milk is delivered from his farm to a pool plant, except a dairy farmer for other markets, a dairy farmer with respect to exempt milk delivered, and a producer-handler."

3. Delete § 904.2 (i) and substitute the following:

(i) "Producer-handler" means any dairy farmer who receives milk of his own production only from farms located within 80 miles of the State House in Boston and operates a processing and packaging plant from which Class I milk is disposed of in the marketing area; and who receives no milk, other than exempt milk, from other dairy farmers except producer-handlers.

4. Delete the period at the end of § 904.3 (g) and add the following: ": *Provided*, That in the case of a plant which would lose its pool plant status under another Federal order by meeting the definition of a distributing plant under this order, the term shall apply only if such Class I disposition to consumers in the marketing area exceeds two percent of its total receipts of fluid milk products other than cream."

5. In § 904.4 (g) (1) delete the semicolon at the end of § 904.4 (g) (1) and add the following: "and any fluid milk products, other than cream, and other than milk which meets the definition of exempt milk, which are received in bulk from producer-handlers at the regulated plant of a pool handler or a buyer-handler."

6. In § 904.4 (g) (2) delete the word "and" after the words "emergency milk", and the semicolon (;) after the phrase "pursuant to § 904.27" and add the following: ", and receipts of packaged fluid milk products from any plant which is a regulated plant under the provisions of the Merrimack Valley, Springfield, or Worcester orders;"

7. In § 904.4 (g) (3) insert immediately after the words "Merrimack Valley" the following: ", Springfield"

8. Delete § 904.4 (i) and substitute the following:

(i) "Exempt milk" means:

(1) Milk received at a regulated plant in bulk from the dairy farmer who produced it, for processing and packaging, and for which an equivalent quantity of packaged fluid milk products, other than cream, is returned to the dairy farmer during the same month; or

(2) Milk received at a regulated plant in bulk from an unregulated plant to be processed and packaged, and for which an equivalent quantity of packaged fluid milk products, other than cream, is returned to the operator of the unregulated plant during the same month, if such receipt of bulk milk and return of packaged fluid milk products occurs during an interval in which the facilities of the unregulated plant at which the milk is usually processed and packaged are temporarily unusable because of a fire, flood, storm, or similar extraordinary circumstances completely beyond the handler's control; or

(3) Packaged fluid milk products, other than cream, received at a regulated plant from an unregulated plant in return for an equivalent quantity of bulk milk moved from a regulated plant for processing and packaging during the same month.

9. In § 904.4 add a new paragraph (k) to read as follows:

(k) "Packaged fluid milk products" means fluid milk products which have been placed in containers for disposition to consumers and have not been removed from those containers prior to such disposition.

10. In § 904.21 (c) delete the word "distributing" as it occurs immediately following the words "each city".

11. In § 904.21 (f) delete the figure "1956" and substitute therefor the figure "1957".

12. Delete § 904.29 (c).

13. In § 904.41 (b) delete the word "solids" following the words "spray process nonfat dry milk".

14. Delete paragraph (d) (1) of § 904.41 and substitute the following:

(1) Adjust the average price for milk for manufacturing purposes, f. o. b. plants United States, as reported on a preliminary basis by the United States Department of Agriculture for the month by subtracting for each one-tenth of 1 percent of average butterfat content above 3.7 percent, or adding for each one-tenth of 1 percent of average butterfat content below 3.7 percent, an amount per hundredweight which shall be calculated by the market administrator by multiplying by 0.125 the average of the daily prices, using the midpoint of any range as one price, for Grade A (92-score) butter at wholesale in the New York market as reported for the period between the 16th day of the preceding month and the 15th day, inclusive, of the current month by the United States Department of Agriculture.

15. Revise the table set forth in § 904.41 (d) (2) to read as follows:

Month:	*Amount (cents)*
January	+15
February	+14
March	−03
April	−07
May	−10
June	−09
July	+10
August	+19
September	+16
October	+18
November	+19
December	+19

16. Delete all of § 904.44 and substitute the following:

§ 904.44 *Butter and cheese adjustment.* During the months of April, May, June, and July, in which the Class II price is computed pursuant to § 904.41 (c), the value of a pool handler's milk computed pursuant to § 904.50 shall be reduced by an amount determined as follows:

(a) Subtract from the price computed pursuant to § 904.41 (c) the price computed pursuant to § 904.41 (d) and divide by 3.7. The result is the butter and cheese differential.

(b) Determine the pounds of butterfat in Class II milk received from producers, which was processed into salted butter, Cheddar cheese, American Cheddar cheese, Colby cheese, washed curd cheese, or part skim Cheddar cheese at a plant of the first handler of such butterfat or at a plant of a second person to which such butterfat was moved.

(c) Subtract, such portion of the quantity determined in paragrah (b) of this section as was made into salted butter and disposed of by the handler or such second person in a form other than salted butter.

(d) Multiply the remaining pounds of butterfat determined pursuant to paragraph (c) of this section by the butter and cheese differential determined pursuant to paragraph (a) of this section.

17. In § 904.63 delete the word "Chicago" as it appears immediately following the words "for Grade A (92-score) butter at wholesale in the" and substitute the word "New York".

18. In § 904.65 (a) (1) insert the words "or producer-handler's plant" immediately after the words "unregulated plant".

19. Delete § 904.65 (a) (2) and substitute the following:

(2) On outside milk received at any regulated plant from an unregulated plant or producer-handler's plant located in Maine, the payment shall be at the difference between the price pursuant § 904.40 applicable at the zone location of the Maine plant and the lesser of either the simple average for the month of the lowest minimum semimonthly prices for Class II milk containing 3.7 percent butterfat which are established by the Maine Milk Commission for the market in which such Maine plant is located or the price determined pursuant to § 904.41 applicable at the zone location of such plant.

20. In § 904.65 (a) (3) insert the words "or producer-handler's plant" immediately after the words "unregulated plant" in both instances in which they appear in the subparagraph.

Merrimack Valley Order:

1. Delete the phrase "under the Boston order," as it appears at the end of § 934.2 (d) and substitute therefor the words "under the Boston, Worcester, or Springfield orders."

2. Delete the first sentence of § 934.3 (e) and substitute therefor the following: " 'Producer' means any dairy farmer whose milk is delivered from his farm to a pool plant, except a dairy farmer for other markets, a dairy farmer with respect to exempt milk delivered, and a producer-handler."

3. Delete § 934.2 (i) and substitute therefor the following:

(i) "Producer-handler" means any dairy farmer who operates a processing and packaging plant from which Class I milk is disposed of in the marketing area, and who receives no milk, other than exempt milk, from other dairy farmers except producer-handlers,

4. In § 934.3 (e) change the section references "934.20, 934.21 and 934.22" to read "934.20, 934.21, 934.22 and 934.23".

5. Delete the semicolon at the end of subparagraph (1) of § 934.4 (g) and add the following: "and any fluid milk products, other than cream, and other than milk which meets the definition of exempt milk, which are received in bulk from producer-handlers at the regulated plant of a pool handler or a buyer-handler."

6. In § 934.4 (g) (3) insert a comma (,) immediately following the word "Boston" and add thereafter the word "Springfield".

7. Delete § 934.4 (i) and substitute therefor the following:

(i) "Exempt milk" means:

(1) Milk received at a regulated plant in bulk from the dairy farmer who produced it, for processing and packaging, and for which an equivalent quantity of packaged fluid milk products, other than cream, is returned to the dairy farmer during the same month; or

(2) Milk received at a regulated plant in bulk from an unregulated plant to be processed and packaged, and for which an equivalent quantity of packaged fluid milk products, other than cream, is returned to the operator of the unregulated plant during the same month, if such receipt of bulk milk and return of packaged fluid milk products occurs during an interval in which the facilities of the unregulated plant at which the milk is usually processed and packaged are temporarily unusable because of fire, flood, storm, or similar extraordinary circumstances completely beyond the handler's control; or

(3) Packaged fluid milk products, other than cream, received at a regulated plant from an unregulated plant in return for an equivalent quantity of bulk milk moved from a regulated plant for processing and packaging during the same month.

8. In § 934.4 insert a new paragraph (j) as follows:

(j) "Packaged fluid milk products" means fluid milk products which have been placed in containers for disposition to consumers and have not been removed from those containers prior to such disposition.

9. Delete § 934.16 (d) and substitute the following:

(d) If moved to a plant subject to the Boston order, or moved in bulk to a plant subject to the Worcester or Springfield orders they shall be classified in the class to which the receipt is assigned under such other order.

10. Renumber § 934.16 (e) as (f) and insert a new paragraph (e) to read as follows:

(e) If moved in packaged form to a plant subject to the Worcester or Springfield orders, they shall be classified as Class I milk.

11. Delete § 934.20 and substitute therefor the following:

§ 934.20 *Basic requirements for pool plant status.* Subject to the provisions of § 934.23, each receiving plant shall be a pool plant in each month in which it meets the applicable requirements of §§ 934.21 or 934.22, together with the following basic requirements.

(a) A majority of the dairy farmers delivering milk to the plant hold certificates of registration issued pursuant to Chapter 94, sections 16C and 16G, of the Massachusetts General Laws.

(b) The handler operating the plant holds a license which has been issued by the milk inspector of a city or town in the marketing area, pursuant to Chapter 94, section 40, of the Massachusetts General Laws, or a majority of the dairy farmers delivering milk to the plant are approved by such an inspector as sources of supply for milk for sale in his municipality.

12. Delete § 934.22 and substitute therefor a new § 934.22 to read as follows:

§ 934.22 *Additional requirements for country pool plants.* (a) Any country plant at which fluid milk products regularly are processed and packaged for disposition in the marketing area as Class I milk shall be a pool plant in any month in which at least 10 percent of the plant's total receipts of fluid milk products, other than cream, is disposed of in the marketing area as Class I milk.

(b) Any country plant which does not meet the requirements of paragraph (a) of this section shall be a pool plant in any month in which more than 30 percent of its total receipts of fluid milk products, other than cream, is disposed of directly to consumers in the marketing area as Class I milk or is shipped as milk to city plants at which more than 50 percent of the total receipts of fluid milk products, other than cream, is disposed of as Class I milk.

(c) Any country plant which meets the pool plant requirements under this order during each of the months of October through February and which is a pool plant under this order or under the Boston, Worcester, or Springfield orders during each of such months except a plant which is a pool plant under paragraph (a) of this section, shall be a pool plant continuously for the following months of March through September, regardless of the quantity then disposed of in the marketing area, if the handler's request for pool plant status for such seven-month period is received by the market administrator before March 1 of that year. Changes in the identity of the handler operating the plant shall not affect the application of this paragraph.

13. Add a new § 934.23 to read as follows:

§ 934.23 *Conditions resulting in nonpool plant status.* Any plant shall be a nonpool plant in any month in which any of the following conditions apply:

(a) The plant has the status of a pool plant under the provisions of the Boston, New York, or Worcester orders.

(b) The plant is operated by a handler in his capacity as a producer-handler.

(c) The plant also meets all the applicable pooling requirements of the Springfield order and the combined quantity of Class I milk disposed of in the Springfield marketing area directly to consumers, and of milk shipped to Springfield city plants at which more than 50 percent of the total receipts of fluid milk products, other than cream, is disposed of as Class I milk, exceeds the combined quantity of such disposition and shipments in the Merrimack Valley marketing area.

(d) Except as provided in § 934.22 (b) each of a handler's plants which is a nonpool receiving plant during any of the months of October through February shall not be a pool plant in any of the following months of March through September in which it is operated by the same handler, an affiliate of the handler, or any person who controls or is controlled by the handler, unless its operation during October through February was in the handler's capacity as a producer-handler.

14. In § 934.27 (b) insert after the word "Receipts" the phrase "in bulk".

15. Renumber § 934.27 (c) as (d) and insert a new paragraph (c) to read as follows:

(c) Receipts in packaged form of fluid milk products, other than cream, from regulated plants under the Worcester or Springfield orders shall be assigned to Class I milk.

16. Delete § 934.50 (g).

17. In § 934.72 insert after the words "receipts from his own production" the words "receipts of exempt milk processed at a regulated plant,".

Springfield order:

1. Delete the phrase "under the Boston order" as it appears at the end of § 996.2 (d) and substitute therefor the words "under the Boston, Merrimack Valley, or Worcester orders".

2. Delete the first sentence of § 996.2 (e) and substitute therefor the following: " 'Producer' means any dairy farmer whose milk is delivered from his farm to a pool plant, except a dairy farmer for other markets, a dairy farmer with respect to exempt milk delivered, and a producer-handler."

3. Delete § 996.2 (i) and substitute therefor the following:

(i) "Producer-handler" means any dairy farmer who operates a processing and packaging plant from which Class I milk is disposed of in the marketing area, and who receives no milk, other than exempt milk, from other dairy farmers except producer-handlers.

4. In § 996.3 (e) change the section references "996.20, 996.21, and 996.22" to read "996.20, 996.21, 996.22 and 996.23".

5. Delete the semicolon at the end of subparagraph (1) of § 996.4 (g) and add the following: "and any fluid milk products, other than cream, and other than milk which meets the definition of exempt milk, which are received in bulk from producer-handlers at the regulated plant of a pool handler or a buyer-handler."

6. In § 996.4 (g) (3) delete the phrase "under the Worcester order" and substitute therefor the words "under the Boston, Merrimack Valley, or Worcester orders".

7. Delete § 996.4 (i) and substitute the following:

(i) "Exempt milk" means:

(1) Milk received at a regulated plant in bulk from the dairy farmer who produced it, for processing and packaging, and for which an equivalent quantity of packaged fluid milk products, other than cream, is returned to the dairy farmer during the same month; or

(2) Milk received at a regulated plant in bulk from an unregulated plant to be processed and packaged, and for which an equivalent quantity of packaged fluid milk products, other than cream, is returned to the operator of the unregulated plant during the same month, if such receipt of bulk milk and return of packaged fluid milk products occurs during an interval in which the facilities of the unregulated plant at which the milk is usually processed and packaged are temporarily unusable because of fire, flood, storm, or similar extraordinary circumstances completely beyond the handler's control; or

(3) Packaged fluid milk products, other than cream, received at a regulated plant from an unregulated plant in return for an equivalent quantity of bulk milk moved from a regulated plant for processing and packaging during the same month.

8. In § 996.4 insert a new paragraph (j) as follows:

(j) "Packaged fluid milk products" means fluid milk products which have been placed in containers for disposition to consumers and have not been removed from those containers prior to such disposition.

9. In § 996.16 (d) delete the phrase "If moved to a plant subject to the New York, Boston, Merrimack Valley, or Worcester orders" and substitute therefor the phrase "If moved to a plant subject to the New York or Boston orders."

10. Renumber § 996.16 (e) as (f) and insert a new paragraph (e) to read as follows:

(e) If moved to a plant subject to the Merrimack Valley or Worcester orders, they shall be classified in the class to which they are assigned under such other order, except that if moved in packaged form they shall be classified as Class I milk.

11. Delete § 996.20 and substitute therefor the following:

§ 996.20 *Basic requirements for pool plant status.* Subject to the provisions of § 996.23, each receiving plant shall be a pool plant in each month in which it meets the applicable requirements of §§ 996.21 or 996.22, together with the following basic requirements:

(a) A majority of the dairy farmers delivering milk to the plant hold certificates of registration issues pursuant to Chapter 94, sections 16C and 16G, of the Massachusetts General Laws.

(b) The handler operating the plant holds a license which has been issued by the milk inspector of a city or town in the marketing area, pursuant to Chapter 94, section 40, of the Massachusetts General Laws, or a majority of the dairy farmers delivering milk to the plant are approved by such an inspector as sources of supply for milk for sale in his municipality.

12. Delete § 996.22 and substitute therefor a new § 996.22 to read as follows:

§ 996.22 *Additional requirements for country pool plants.* (a) Each country receiving plant shall be a pool plant in any month in which more than 30 percent of its total receipts of fluid milk products, other than cream, is disposed of as Class I milk directly to consumers in the marketing area or is shipped as milk to city plants at which more than 50 percent of the total receipts of fluid milk products, other than cream, is disposed of as Class I milk.

(b) Any country plant which meets the pool plant requirements under this order during each of the months of October through February and which is a pool plant under this order or under the Boston, Merrimack Valley, or Worcester orders during each of such months shall be a pool plant continuously for the following months of March through September, regardless of the quantity then disposed of in the marketing area, if the handler's written request for pool plant status for such seven-months' period is received by the market administrator before March 1 of that year. Changes in the identity of the handler operating the plant shall not affect the application of this paragraph.

13. Add a new § 996.23 to read as follows:

§ 996.23 *Conditions resulting in nonpool plant status.* Any plant shall be a nonpool plant in any month in which any of the following conditions apply:

(a) The plant has the status of a pool plant under the provisions of the Boston, New York, or Worcester orders.

(b) The plant is operated by a handler in his capacity as a producer-handler.

(c) The plant also meets all the applicable pooling requirements of the Merrimack Valley order, and the combined quantity of Class I milk disposed in the Merrimack Valley marketing area directly to consumers, and of milk shipped to Merrimack Valley city plants at which more than 50 percent of the total receipts of fluid milk products other than cream is disposed of as Class I milk, exceeds the combined quantity of such disposition and shipments in the Springfield marketing area.

(d) Each of a handler's plants which is a nonpool receiving plant during any of the months of October through February shall not be a pool plant in any of the following months of March through September in which it is operated by the same handler, an affiliate of the handler, or any person who controls or is controlled by the handler, unless its operation during October through February was in the handler's capacity as a producer-handler.

14. In § 996.27 (b) insert after the word "Receipts" the phrase "in bulk".

15. Renumber § 996.27 (c) as (d) and insert a new paragraph (c) to read as follows:

(c) Receipts in packaged form of fluid milk products, other than cream, from regulated plants under the Merrimack Valley or Worcester orders shall be assigned to Class I milk.

Worcester order:

1. Delete the first sentence of § 999.2 (e) and substitute the following: " 'Producer' means any dairy farmer whose milk is delivered from his farm to a pool plant, except a dairy farmer for other markets, a dairy farmer with respect to exempt milk delivered, and a producer-handler."

2. Delete § 999.2 (i) and substitute the following:

(i) "Producer-handler" means any dairy farmer who operates a processing and packaging plant from which Class I milk is disposed of in the marketing area, and who receives no milk, other than exempt milk, from other dairy farmers except producer-handlers.

3. In § 999.3 (e) change the section references "999.20, 999.21, and 999.22" to read "999.20, 999.21, 999.22 and 999.23".

4. Delete the semicolon at the end of subparagraph (1) of § 999.4 (g) and add the following: "and any fluid milk products, other than cream, and other than milk which meets the definition of exempt milk, which are received in bulk from producer-handlers at the regulated plant of a pool handler or a buyer-handler."

5. Delete § 999.4 (i) and substitute the following:

(i) "Exempt milk" means:

(1) Milk received at a regulated plant in bulk from the dairy farmer who produced it, for processing and packaging, and for which an eqivalent quantity of packaged fluid milk products, other than cream, is returned to the dairy farmer during the same month; or

(2) Milk received at a regulated plant in bulk from an unregulated plant to be processed and packaged, and for which an equivalent quantity of packaged fluid milk products, other than cream, is returned to the operator of the unregulated plant during the same month, if such receipt of bulk milk and return of packaged fluid milk products occurs during an interval in which the facilities of the unregulated plant at which the milk is usually processed and packaged are temporarily unusable because of fire, flood, storm, or similar extraordinary circumstances completely beyond the handler's control; or

(3) Packaged fluid milk products, other than cream, received at a regulated plant from an unregulated plant in return for an equivalent quantity of bulk milk moved from a regulated plant for processing and packaging during the same month.

6. In § 999.4 insert a new paragraph (j) as follows:

(j) "Packaged fluid milk products" means fluid milk products which have been placed in containers for disposition to consumers and have not been removed from those containers prior to such disposition.

7. In § 999.16 (d) delete the phrase "If moved to a plant subject to the New York, Boston, Merrimack Valley, or Springfield orders" and substitute therefor the phrase "If moved to a plant subject to the New York or Boston orders".

8. Renumber § 999.16 (e) as (f) and insert a new paragraph (e) to read as follows:

(e) If moved to a plant subject to the Merrimack Valley or Springfield orders, they shall be classified in the class to which they are assigned under such other order, except that if moved in packaged form they shall be classified as Class I milk.

9. Delete § 999.20 and substitute therefor the following:

§ 999.20 *Basic requirements for pool plant status.* Subject to the provisions of § 999.23, each receiving plant shall be a pool plant in each month in which it meets the applicable requirements of §§ 999.21 or 999.22, together with the following basic requirements:

(a) A majority of the dairy farmers delivering milk to the plant hold certificates of registration issued pursuant to Chapter 94, sections 16C and 16G, of the Massachusetts General Laws.

(b) The handler operating the plant holds a license which has been issued by the milk inspector of a city or town in the marketing area, pursuant to Chapter 94, section 40, of the Massachusetts General Laws, or a majority of the dairy farmers delivering milk to the plant are approved by such an inspector as sources of supply for milk for sale in his municipality.

10. Delete § 999.22 and substitute therefor a new § 999.22 to read as follows:

§ 999.22 *Additional requirements for country pool plants.* (a) Each country receiving plant shall be a pool plant in any month in which more than 50 percent of its total receipts of fluid milk products, other than cream, is disposed of as Class I milk directly to consumers in the marketing area or is shipped as milk to city plants at which more than 50 percent of the total receipts of fluid milk products, other than cream, is disposed of as Class I milk.

(b) Any country plant which meets the pool plant requirements under this order during each of the months of October through February and which is a pool plant under this part or under the Boston order during each of such months shall be a pool plant continuously for the following months of March through September, regardless of the quantity then disposed of in the marketing area, if the handler's written request for pool plant status for such seven-months' period is received by the market administrator before March 1 of that year. Changes in the identity of the handler operating the plant shall not affect the application of this paragraph.

11. Add a new § 999.23 to read as follows:

§ 999.23 *Conditions resulting in nonpool plant status.* Any plant shall be a nonpool plant in any month in which the following conditions apply:

(a) The plant has the status of a pool plant under the provisions of the Boston or New York orders.

(b) The plant is operated by a handler in his capacity as a producer-handler.

(c) Except as provided in § 999.22 (b), each of a handler's plants which is a nonpool receiving plant during any of the months of October through February shall not be a pool plant in any of the following months of March through September in which it is operated by the same handler, an affiliate of the handler, or any person who controls or is controlled by the handler, unless its operation during October through February was in the handler's capacity as a producer-handler.

12. In § 999.27 (b) insert after the word "Receipts" the phrase "in bulk".

13. Renumber § 999.27 (c) as (d) and insert a new paragraph (c) to read as follows:

(c) Receipts in packaged form of fluid milk products, other than cream, from regulated plants under the Merrimack Valley or Springfield orders shall be assigned to Class I milk.

Issued at Washington, D. C., this 5th day of March 1957.

[SEAL] ROY W. LENNARTSON,
Deputy Administrator.

HANDLING OF ANTI-HOG-CHOLERA SERUM AND HOG-CHOLERA VIRUS

NOTICE OF REOPENING OF HEARING ON PROPOSED AMENDMENTS TO MARKETING AGREEMENT AND ORDER, AS AMENDED

Pursuant to the provisions of the Anti-Hog-Cholera Serum and Hog-Cholera Virus Marketing Agreement Act (7 U. S. C. 851 et seq.) and the rules of practice and procedure governing formulation of Marketing Agreements and Marketing Orders applicable to anti-hog-cholera serum and hog-cholera virus (9 CFR Part 132), notice is hereby given that the hearing held in Kansas City, Missouri, on July 23, 1956, on proposed amendments to the marketing agreement and to the order, as amended, regulating the handling of anti-hog-cholera serum and hog-cholera virus, pursuant to notice duly published in the FEDERAL REGISTER (21 F. R. 4519), is hereby reopened for the purpose and to the extent hereinafter set forth. The reopened hearing will be held in the United States Courts Building, Court Room of the U. S. Court of Appeals for the Eighth Circuit, Sixth Floor, 811 Grand Avenue, Kansas City, Missouri, on Monday, April 15, 1957, beginning at 10:00 a. m., c. s. t.

The purpose of the reopened hearing is afford interested parties opportunity to submit additional evidence with respect to the proposed provision regarding "bids" contained in Proposal No. 5 of the aforesaid notice of hearing, and the recommended findings, conclusions and proposed order provision with respect thereto issued by the Acting Chief, Animal Inspection and Quarantine Branch, on October 22, 1956 (21 F. R. 8326). Evidence also will be received in regard to the submission by handlers of sealed bids at other than posted prices in response to public invitations to bid issued by Federal or State agencies who are classified as "wholesalers" under the order. The reopened hearing will be confined to evidence on the foregoing issues regarding "bids". Evidence on other issues will not be received.

Copies of this notice of reopening of hearing may be procured from the Hearing Clerk, Room 112, Administration Building, United States Department of Agriculture, Washington, D. C., or may there be inspected.

Done at Washington, D. C. this 5th day of March 1957.

[SEAL] M. R. CLARKSON,
Acting Administrator,
Agricultural Research Service.

DEPARTMENT OF COMMERCE

Federal Maritime Board

[46 CFR Part 235]

[Docket No. 789]

FILING OF FREIGHT RATES IN FOREIGN IMPORT COMMERCE OF THE UNITED STATES

AMENDMENT TO NOTICE OF ORAL ARGUMENT

The notice of oral argument in this docket which was served February 28, 1957 is hereby amended so that the last two paragraphs thereof will read as follows:

Now therefore, notice is hereby given that oral argument will be heard by the Board, on March 19, 1957, beginning at 9:30 a. m., in Room 4519 New G. A. O. Building, 441 G Street NW., Washington, D. C., with respect to (1) whether the Board has statutory authority to issue the proposed rule, and (2) any other question germane to such rule and/or the issuance thereof, on which respondents and other interested persons may desire to be heard.

All respondents and other interested persons in this proceeding are requested to notify the Secretary, Federal Maritime Board, Washington, D. C. immediately whether they will participate in the oral argument and, if so, the amount of time desired for argument.

Dated: March 6, 1957.

By order of the Federal Maritime Board.

JAMES L. PIMPER,
Secretary.

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR Part 3]

[Docket No. 11754; FCC 57-184]

TELEVISION BROADCAST STATIONS

TABLE OF ASSIGNMENTS

In the matter of amendment of § 3.606, Table of Assignments, Television Broadcast Stations (Madison, Wisconsin-Rockford, Illinois-Fond du Lac, Wisconsin.

1. The Commission has before it for consideration its Notice of Proposed Rule Making issued in this proceeding on June 26, 1956 (FCC 56-595) proposing to change the noncommercial educational assignment at Madison, Wisconsin, from Channel 21 to Channel 3 by making the following changes in the Table of Assignments for Television Broadcast Stations (§ 3.606 of the Commission's rules):

City	Channel No.	
	Present	Proposed
Madison, Wis.	3, *21, 27, 33	*3, 21, 27, 33

*Reserved for educational use.

The Commission also has under consideration (see Memorandum Opinion and Order, released October 22, 1956, FCC 56–1008) a counterproposal submitted by Winnebago Television Corporation, permittee of Station WTVO, operating on Channel 39 at Rockford, Illinois, proposing to shift Channel 3 from Madison to Rockford by making the following changes in the Table of Assignments: [1]

City	Channel No.	
	Present	Proposed
Madison, Wis.	3, *21, 27, 33	*21, 27, 33, 39
Rockford, Ill.	13, 39, *45	3, 13, *45
Fond du Lac, Wis.	54	68

*Reserved for educational use.

2. Comments were filed by the following interested parties: Radio Wisconsin, Inc., permittee of Station WISC–TV, Channel 3 at Madison, and the Wisconsin Committee to Save Existing Rural Television Service opposed any change in the Table of Assignments. Bartell Television Corporation, operator of Station WMTV, Channel 33 at Madison, and the Joint Council on Educational Television supported the change in the educational reservation in Madison to Channel 3 as proposed by the Commission. Monona Broadcasting Company, permittee of Station WKOW–TV, Channel 27 at Madison, also supported the Commission's proposal, and indicated a conditional approval of the counterproposal to shift Channel 3 to Rockford. Winnebago Television Corporation, operator of Station WTVO, Channel 39 at Rockford, Illinois, and the American Broadcasting Company urged that Channel 3 be deleted from Madison and assigned to Rockford.

3. On December 28, 1956, the last day for filing reply comments in this proceeding, the Wisconsin State Radio Council, licensee of Station WHA–TV, a noncommercial educational television station operating on Channel 21 at Madison, filed a pleading captioned as a "Reply" and described in the body thereof as "its reply as to why said respondent's outstanding authorization should not be modified to specify operation on Channel 3 in place of Channel 21." The Council referred to its participation in prior proceedings (Dockets numbered 8736, 8975, 8976, 9175, 11335) as indicating its position to be that it favored VHF over UHF for educational purposes and that it did not object to a shift from Channel 21 to Channel 3 if funds could be procured to cover the expense involved, and stated that it has taken no action to indicate a change in its position. Contending that the pleading was not a reply comment, since it replies to nothing, and that as an original comment it was untimely filed, Radio Wisconsin (WISC–TV) has filed a motion to dismiss the "Reply". We do not see how Radio Wisconsin, of all the parties in this proceeding, could possibly be prejudiced by our consideration of the document. Moreover, we are of the view that the "Reply" of the State Council serves as a basis for evaluation of the conflicting claims by Radio Wisconsin and the proponents of the Commission's proposal as to the use that would be made of Channel 3 for educational purposes if the Commission's proposal should be finalized, and that it therefore should properly be treated as a reply comment in this proceeding.

4. We look upon the "Reply" of the State Council as merely a statement that it would like to shift its operation from Channel 21 to Channel 3 if it could afford the expense involved in the move. This statement, in the context of the circumstances, leads only to the conclusion that it would not be in the public interest to effectuate any change in the Madison educational reservation. Station WHA–TV presently operates with low power (10.7 kw with an antenna height of 230 feet above average terrain) and is on the air only 20 hours per week, 4 hours per day Monday through Friday. There is no indication of any possibility that funds would be available in the reasonably near future for either improvement of the technical facilities or extension of the broadcast day. Indeed, all the indications are to the contrary, since in 1955 the people of Wisconsin overwhelmingly rejected a referendum proposal to establish a statewide educational network. Quite obviously, the operation of Station WHA–TV is a holding operation, with little or no likelihood that the State Radio Council could find the means to convert the station for operation on Channel 3. Thus, since adoption of the Commission's proposal would require the station to cease operation on Channel 21 and operate on Channel 3 or not at all, a change in the authorized assignment could well be the death knell of educational television in Madison. Clearly, the public interest would not be served by further consideration of the proposal, and we shall pass to the consideration of the counterproposal to shift Channel 3 to Rockford.

5. As we noted in our Report and Order of June 26, 1956 (FCC 56–587) in the general television allocation proceeding in Docket No. 11532, because of the widely varying circumstances in individual markets and the numerous factors bearing on the choice of techniques in any individual community or area, it is impossible to formulate rigid criteria in order to indicate the course that would best serve the public interest for each community. We did conclude, however, that certain considerations would have a bearing on our decisions in the individual cities. We stated that in markets with one or more commercial VHF, the merits of proposals to eliminate a VHF commercial assignment would depend to a large extent on such factors as:

1. Whether significant numbers of people would lack service as a result of the elimination of the VHF channel.
2. Whether one or more UHF stations are operating in the area.
3. Whether a reasonably high proportion of the sets in use can receive UHF signals.
4. Whether the terrain is reasonably favorable for UHF coverage.
5. Whether, taking into account all the local circumstances, the elimination of a VHF channel would be consistent with the objective of improving the opportunities for effective competition among a greater number of stations.

Similarly, we noted that the desirability of assigning additional VHF channels to communities would depend principally upon such factors as:

1. Whether it is possible to locate the new transmitter so as to meet minimum transmitter spacings.
2. Whether, in cases where it is necessary to move the channel from another city, there is greater need for the channel in the area to which it is proposed to be assigned.
3. Whether the addition of a new VHF assignment would be consistent with the objective of improving the opportunities for effective competition among a greater number of stations.

We will consider the proposal to shift Channel 3 to Rockford in the light of those factors.

6. Madison is located in Dane County in the south central part of Wisconsin, is rated as the 102nd market, and has a population of 96,056 and a metropolitan area population of 169,357. There are now operating in Madison one VHF television station and three UHF stations, one of which is non-commercial educational. The VHF station (WISC–TV) commenced operation in June 1956, while the UHF commercial stations (WKOW–TV and WMTV) have been on the air since 1953. It is agreed that about 99 percent of the television sets in Madison and Dane County can receive UHF signals, and only all-channel sets are being sold in the Madison area.

7. No Grade B signals, other than from the local stations, are received in Madison. However, to the east a substantial portion of the service areas of the Madison UHF stations receives Grade B service from VHF stations in Milwaukee, while to the south VHF Station WREX, Rockford, Illinois, provides Grade B service to a substantial area also served by the Madison UHF stations. To the north and west of the city, Grade B contours of the UHF stations are not subjected to any invasion of Grade B signals except for a slight penetration from Station WKBT, La Crosse, Wisconsin. While it is clear that the terrain to the east and southeast of Madison is relatively smooth and favorable for the propagation of UHF signals, the terrain to the north and west is rough and broken. As would normally be expected, and as

[1] As an alternative Winnebago urged in comments filed herein that, if Channel 3 is not assigned to Rockford, the Rockford area be deintermixed by deleting Channel 13. Since no other channel was proposed as a substitute for Channel 13 and no comments supporting this proposal were received, it will not be considered in this proceeding.

field intensity measurements made by the opposing parties show, the attenuation of the UHF signals in these areas is greater than in the area to the east. At the same time, the population in these areas is more scattered and communities that could be expected to support television stations under present conditions are few and far between, as is well demonstrated by the fact that within a triangle bounded by Madison, La Crosse and Dubuque, Iowa, only one commercial allocation has been made, i. e., Channel 15 at Richland Center, population of 4,608, located about 55 miles from both La Crosse and Madison. It is in this area to the north and west of Madison that "white area" would be expected if Channel 3 should be deleted from Madison.

8. Since any computation of the area and population that would lose service by the deletion of Channel 3 from Madison must of necessity be grounded on so many variables and assumptions, including antenna heights and operating powers to be employed in the future and additional stations that might take the air, no precise computations can be made. The problem is made more complex by the fact that the propagation curves presently available and known methods of computation do not lend themselves to precise determinations of coverage at specific locations. Even field intensity measurements are not a complete answer to the problem, since different techniques and methods in the taking of measurements and their analysis can lead to widely varying results. Thus, any computation of "white area" is largely a matter of judgment in which individuals may reasonably differ. This is especially so when, as here, the "white area" calculations are based on a combination of measurements and computations from average propagation curves.

9. All parties agree that WISC–TV has been providing the only Grade B service to an area about 50 miles north of Madison and to another area about 50 miles southwest of the city. But there is a very wide discrepancy between the claims of the opposing parties as to the extent of these areas. The discrepancy results from differences of from 15 to 20 miles in the radii of coverage of one of the UHF stations as measured by the opposing parties. Thus, Monona Broadcasting Company has computed these "white areas" to be a total of 1,163 square miles with a population of 26,629, while Radio Wisconsin (WISC–TV) has computed the "white areas" to be a total of 3,164 square miles with a population of 102,159. Each party concedes that the difference in their results is quite substantial and cannot be explained by normally expected differences in techniques or equipment. Each party has alleged various defects in the method used by the other. However, the principal controversy centers on the respective methods of calibration of the measuring equipment. In our opinion the method used by Monona involves numerous opportunities for misleading results. In any event, since the measured fields of Monona are so much greater than indicated by our rules and by measurements made by others in similar terrain, and since in many instances the measured fields are greater than free-space fields as far as 20 miles from the UHF transmitter, they are in our opinion substantially too high, especially at distances beyond the radio horizon. On the other hand the WISC–TV measurements appear to coincide more closely with the best available data on UHF propagation. Accordingly, in the absence of disinterested measurements we feel warranted in relying to a greater extent on the measurements of WISC–TV.[2]

10. The operation of a station on Channel 3 at Rockford, Illinois, would have no effect upon the "white area" to the north of Madison, which Monona and Winnebago Television Corporation (WTVO), through the same engineer, compute as 684 square miles with a population of 11,644, and which, of course, is estimated to be substantially greater by WISC–TV. As to the "white area" to the southwest of Madison, the proponents of deintermixture contend that this entire area would receive service from a station on Channel 3 at Rockford operating with maximum power and antenna height. On the other hand, WISC–TV estimates that the total white areas, including the area to the north of Madison, would be 1,672 square miles with a population of 59,233 if the Rockford station operated with maximum power and antenna height, and 2,143 square miles with a population of 74,345 if the Rockford station operated with 50 kw power and an antenna height of 650 feet. It is our judgment that the white area would more nearly approximate the calculations by WISC–TV. This judgment is based upon the considerations discussed in paragraph 9 and also upon the fact that terrain to the north and west of Madison is sufficiently rough to result in additional pockets of white area due to shadowing within the Grade B contours of the UHF stations as computed by the parties.

11. In recognition of the "white area" problem, Monona claims that on the basis of its measurements a UHF station operating in Madison with power of 1,000 kw and an antenna height of 1,200 feet would have greater coverage than WISC–TV as presently operating on Channel 3, thus eliminating any "white area" resulting from the deletion of Channel 3,[3] and asserts that, if Madison is deintermixed, it will improve its facilities to the extent indicated, or, in the alternative, will build satellite stations at Dubuque, Iowa and Portage, Wisconsin.[4] It also asserts that in addition it will operate such translators as may be necessary to replace any lost service not otherwise regained. Monona also contends that considerations of loss of service should not be limited to Grade B signals since satisfactory service is received beyond the Grade B contour, and that surveys have shown that in the "white areas" here involved many persons were receiving satisfactory service from one or more stations even before WISC–TV went on the air. Such considerations (service beyond Grade B contours and potential service from new or improved facilities) are by no means immaterial in allocation matters, but the weight to be given to such factors in a particular case will depend upon the evaluation of other more decisive factors, including the effects of the shift of a channel to another area, in this case Rockford.

12. Rockford is located in north central Illinois about 55 miles south of Madison and 79 miles northwest of Chicago. It is rated as the 112th market and has a population of 92,927 and a metropolitan area population of 152,385. It has been allocated and there are now operating one VHF station (WREX–TV) and one UHF station (WTVO). Station WTVO, the only UHF station operating in Northern Illinois, has been on the air since April 1953, while WREX–TV went on the air in September 1953. The only outside station which places a Grade B signal in the city of Rockford is WISC–TV. However, the Grade B service area of WTVO also receives Grade B service in part from VHF stations in Chicago, Milwaukee, Rock Island, and Davenport, Iowa, as well as from the UHF stations in Madison. Winnebago (WTVO) agrees that the conversion of sets for the reception of UHF signals is reasonably satisfactory in Rockford and the area between Rockford and Madison, but alleges that the picture is less favorable in other rural areas.

13. In order to maintain the required mileage separations from the transmitters of existing stations, the transmitter of a station operating on Channel 3 at Rockford would have to be located at some distance from the city in the direction of Madison. If located as far as possible from Madison (43 miles) and operating at the maximum power and height, as proposed by Winnebago, its Grade A contour would be very close to the city of Madison, and its Grade B contour would overlap practically all of the Grade B contours of the Madison UHF stations. Under the Commission's rules the transmitter could be located within 33 miles of Madison, in which event the city of Madison would be within the Grade A contour. If a station operating on Channel 3 at Rockford operated with less than the maximum facilities, it would still provide acceptable service to Madison and its immediate area, and would not fill in as much "white area" to the southwest of the city.

14. A Channel 3 station at Rockford operating at maximum power and height would, according to Winnebago, provide the first Grade B service to an area of 96 square miles with a population of 3,999 to the southeast of Rockford. In view of the much greater

[2] In its reply comments Monona requested that the measurements of WISC–TV and the computations based thereon be stricken from the record. Radio Wisconsin (WISC–TV) opposed this request. As indicated above, we deny Monona's request.

[3] WISC–TV disputes this claim and asserts that on the basis on its measurements a UHF station would have to utilize power far in excess of present maximum in order to fill in the white areas.

[4] In its reply comments Bartell Television Corporation (WMTV) indicated an intention to pursue a similar course of action.

"white area" which would result from the deletion of Channel 3 from Madison (see paragraphs 8 and 9), it cannot be said that there is a greater need for Channel 3 at Rockford than at Madison. Rather, it appears to us that the Madison area with its rougher terrain has the greater need for the longer range propagation afforded by a VHF station, and that, therefore, the continued allocation of Channel 3 to Madison would result in a more "fair, efficient and equitable" distribution of the available facilities pursuant to the mandate of section 307 (b) of the act.[8]

15. Moreover, it does not appear that the proposed shift of Channel 3 would improve the opportunities for effective competition among a greater number of stations. Madison and Rockford are presently treated as separate television markets. Channel 3 at Rockford operating as proposed by Winnebago would provide in the city of Madison what is tantamount to a Grade A signal, while the city does not now receive even a Grade B signal from an outside station. Hence, Madison would not be effectively deintermixed. Indeed, with the VHF competition for network affiliation and national advertising coming from an outside station straddling two markets, there is far more likelihood that one of the three Madison stations would be forced to cease operations than under the present allocations. Neither would the competitive situation at Rockford be improved to the extent claimed by Winnebago. The disparity in coverage between the proposed operation of a Channel 3 station and WREX–TV would be greater than now exists between WREX–TV and WTVO, but to the disadvantage of WREX–TV instead of WTVO. It will not do to say that coverage could then be equalized by improving the facilities of WREX–TV.[9] For this would serve to make the competitive situation at Madison still worse by the introduction of a second strong outside signal. In short, we see far greater probability that at least five commercial stations will continue to operate in the Madison-Rockford area under the present allocations that would be the case if Channel 3 were shifted to Rockford.

16. On February 25, 1957, Winnebago (WTVO, Rockford) filed a petition for leave to file additional comments, suggesting that a change in the transmitter location of Station WCIA, Channel 3, Champaign, Illinois, would permit a Channel 3 station at Rockford to use a transmitter site southwest (instead of northwest) of the city at a distance of 65 to 70 miles (instead of 43 miles) from Madison. Because of the lateness of the request, the petition for permission to file additional comments is denied. We point out, however, that the offered solution would not cure all the deficiencies and would aggravate the "white area" situation to the southwest of Madison.

17. In view of the greater need for a VHF channel in the Madison area and our conviction that a change in assignments would not improve the opportunities for effective competition among a greater number of stations, we conclude that the shift of Channel 3 to Rockford as proposed would be against the public interest. We have also concluded that it would be contrary to the public interest to reserve Channel 3 for educational use at Madison (see paragraph 4).

18. *Accordingly, it is ordered,* That this proceeding be terminated.

Adopted: February 26, 1957.

Released: March 1, 1957.

FEDERAL COMMUNICATIONS COMMISSION,[7]
[SEAL] MARY JANE MORRIS,
Secretary.

[F. R. Doc. 57-1737; Filed, Mar. 7, 1957; 8:46 a. m.]

[8] We therefore reject the argument made by Monona in its supplemental comments that section 307 (b) required the shift of Channel 3 to Rockford, and that the instant case was closely analagous to the proposed shift of Channel 2 from Springfield, Illinois to St. Louis, Missouri. Further, we point out that, since Channel 2 had never gone on the air at Springfield, no person will suffer a loss of service previously received, that the loss of potential service is relatively insignificant, and that the gain of new first services resulting from the allocation of Channel 2 to St. Louis and Terre Haute will approximately balance the potential loss. Monona's argument is based largely on the premise that section 307 (b) requires that VHF channels be allocated among the several States in proportion to their respective areas and populations. We consider the premise to be fallacious as ignoring the service that can be rendered by UHF stations. Clearly, in any fair, efficient and equitable distribution of television channels the service to be rendered by UHF stations must be taken into account.

[9] In passing, we note that the present disparity in the coverages of the Rockford stations would disappear if the UHF station should improve its operating facilities.

[47 CFR Part 3]

[Docket No. 11748; FCC 57-181]

TELEVISION BROADCAST STATIONS

TABLE OF ASSIGNMENTS

In the matter of amendment of § 3.606, Table of Assignments Television Broadcast Stations (Hartford, Connecticut-Providence, Rhode Island).

1. The Commission has before it for consideration its Notice of Proposed Rule Making issued in this proceeding on June 26, 1956 (FCC 56-589) proposing to shift Channel 3 from Hartford, Connecticut to Providence, Rhode Island, by making the following changes in the Table of Assignments for Television Broadcast Stations (§ 3.606 of the Commission's rules):

City	Channel No.	
	Present	Proposed
Hartford, Conn.	3, 18, *24	18, *24, 61
Meriden, Conn.	65	
Easthampton, Mass.	61	
Providence, R. I.	10, 12, 16, *36	3, 10, 12, 16, *36

*Reserved for educational use.

[7] Commissioners Hyde and Bartley dissenting and issuing statements, filed as part of the original document; Commissioner Lee dissenting.

2. Comments in favor of the proposals were made jointly by New Britain Broadcasting Company (WKNB–TV, Channel 30, New Britain, Connecticut), Hampden - Hampshire Corporation (WHYN–TV, Channel 40, Springfield-Holyoke, Massachusetts), Springfield Television Broadcasting Corporation (WWLP, Channel 22, Springfield, Massachusetts), and Greenfield Television Broadcasting Corporation (WRLP, Channel 32, Greenfield, Massachusetts), and the latter three also filed joint reply comments.[1] Comments in support of the proposal were also filed by the Joint Council on Educational Television (JCET),[2] American Broadcasting Company, Capitol Television Corporation and Intercity Broadcasters, Inc., the last two parties describing themselves as prospective applicants for Channel 3 if it should be assigned to Providence. Comments and reply comments in opposition to the proposal were filed by Travelers Broadcasting Service Corporation, conditional grantee of Station WTIC–TV, Channel 3, Hartford, Connecticut, and WGBH Educational Foundation, licensee of non-commercial education Station WGBH–TV, Channel 2, Boston, Massachusetts.[3] Other parties filed comments and reply comments favoring the proposal insofar as it involved deleting Channel 3 at Hartford, but offered various counterproposals as to the new location of the channel. Thus, Channel 18 of Rhode Island, Inc., permittee of Station WNET (operation suspended), Channel 16, Providence, Rhode Island, has suggested that Channel 3, instead of being assigned to Providence, be assigned to any one of six communities in Rhode Island: Cranston, Warwick, Newport, West Warwick, Westerly, or Narragansett Pier. Salisbury Broadcasting Corporation, licensee of Station WWOR–TV (operation suspended), Channel 14, Worcester, Massachusetts, has proposed that Channel 3 be assigned to Worcester rather than Providence. Bridgeport Broadcasting Company, permittee of Station WICC–TV, Channel 43, Bridgeport, Connecticut, has suggested that Channel 3 be assigned to both Bridgeport and Providence.[4]

3. The Notice of Proposed Rule Making (FCC 56–589) looking to the reallocation of Channel 3 from Hartford to Providence was issued as a part of the interim program of channel assignments announced in the Commission's Report and Order of June 26, 1956 (FCC 56–587) in the general television allocations proceeding in Docket No. 11532. At that

[1] Soon after the filing of original comments the Commission approved the sale of WKNB–TV to the National Broadcasting Company, Inc., which did not file any comments with respect to the Commission's proposal.

[2] In its reply comments JCET withdrew its support of the proposal.

[3] The honorable Abraham Ribicoff, Governor of Connecticut, submitted reply comments in support of the retention of Channel 3 at Hartford.

[4] National Broadcasting Company, Inc. (licensee of Stations WRCV–TV, Ch. 3, Philadelphia, Pa., and WRCA–TV, Channel 4, New York City, N. Y.) filed comments in opposition to the proposed assignment to Bridgeport.

time it seemed to a majority of the Commission that the deintermix proposal[5] merited consideration as a possible solution to some of the problems facing the expansion of television broadcasting in the area, it appearing that it offered reasonable prospect for improving the opportunities for effective competition among a greater number of stations in the southern New England area. Now, after carefully considering the comments submitted by interested parties, a majority of the Commission has reached the conclusion that adoption of the proposal or any of the counterproposals advanced by the parties would not be in the public interest.

4. As was pointed out in the Report and Order of June 26, 1956 (par. 31): "Because of the widely varying circumstances in individual markets and the numerous factors which bear on the choice of techniques in any individual community or area, it is not possible to formulate rigid criteria whose perfunctory application to individual cases will automatically indicate the course which would best serve the public interest in each community." After further extensive consideration of the problem of deintermixture, and even with the assistance of the detailed comments of interested parties in the industry, it is still impossible to point to any rigid criteria as the basis for decision. Hence, the decision in this proceeding has been reached after careful evaluation and application to the situation here presented of the considerations outlined in the Report and Order of June 26, 1956 (par. 31):

In markets with one or more commercial VHF assignments, the merits of proposals to eliminate a VHF commercial assignment would depend to a large extent on such factors as:

1. Whether significant numbers of people would lack service as a result of elimination of the VHF channel.

2. Whether one or more UHF stations are operating in the area.

3. Whether a reasonably high proportion of the sets in use can receive UHF signals.

4. Whether the terrain is reasonably favorable for UHF coverage.

5. Whether, taking into account all the local circumstances, the elimination of a VHF channel would be consistent with the objective of improving the opportunities for effective competition among a greater number of stations.

The desirability of assigning a first VHF channel or of adding an additional VHF channel would depend principally upon:

1. Whether it is possible to locate the new transmitter so as to meet minimum transmitter spacings.

2. Whether, in cases where it is necessary to move the channel from another city, there is greater need for the channel in the area to which it is proposed to be assigned.

3. Whether the addition of a new VHF assignment would be consistent with the objective of improving the opportunities for effective competition among a greater number of stations.

5. The area involved in this proceeding lies between the large metropolitan centers of New York City, New York, and Boston, Massachusetts, and is one of the most densely populated sections of the United States. In the area there are many cities with populations of 75,000 or more.[6] However, because of their location and the scarcity of VHF channels, it has not been possible to allocate more than five VHF channels in the entire area: Channel 6 to New Bedford, Massachusetts; Channels 10 and 12 to Providence, Rhode Island; Channel 8 to New Haven, Connecticut; and Channel 3 to Hartford, Connecticut. Such cities as Springfield and Worcester, Massachusetts, and Bridgeport, Connecticut, with large metropolitan areas, have no VHF assignments. It is thus clear that, if the cities in the area are to have locally originating television services, they must depend for the most part on UHF stations.

6. The commercial television assignments at Providence, and there are no other commercial assignments in the State of Rhode Island, are Channels 10, 12, and 16. The VHF Channels (10 and 12) are in use, but the operation of Station WNET on Channel 16 was terminated in July, 1955. There are at present two UHF stations operating in the Hartford-New Britain area: WHCT Channel 18, Hartford, and WKNB–TV, Channel 30, New Britain, now owned by Columbia Broadcasting System, Inc., and National Broadcasting Company, Inc., respectively. Channel 3, the subject of this proceeding, is also assigned to Hartford, but there are no other commercial assignments, either VHF or UHF, for the metropolitan area.[7] The Hartford-New Britain metropolitan area lies in the Connecticut River Valley, which has been defined as an area 100 miles long and extending about 20 miles on each side of the river. This area includes within its confines the metropolitan area of Springfield-Holyoke, Massachusetts. On its borders are such centers as New Haven and Waterbury, Connecticut, Worcester and Adams-Pittsfield, Massachusetts. Two UHF stations are operating in Springfield-Holyoke (WWLP and WHYN–TV), and parts of the area that would be served by a station operating on Channel 3 at Hartford presently receive service from five additional UHF stations: WATR–TV, Waterbury, Connecticut; WICC–TV, Bridgeport, Connecticut; WCDB, Hagaman, New York; and WTRI and WCDA, Albany, New York. An additional UHF service will be provided in the northern part of the Valley when WRLP, Channel 32, Greenfield, Massachusetts, a satellite of WWLP in Springfield, goes on the air. It is also expected that WMGT, Channel 19, Adams, Massachusetts, will resume operations as a "satellite" of WCDA in Albany.[8] The only Grade A VHF signal now received in the Connecticut River Valley is from WNHC–TV, New Haven, Connecticut, and this grade of signal does not reach the Connecticut-Massachusetts border. That station's Grade B contours extends north beyond Springfield, Massachusetts. Other Grade B signals are received in parts of the Valley from the following VHF stations: WRGB, Schenectady, New York; WBZ–TV, Boston, Massachusetts; and WJAR–TV and WPRO–TV, Providence, Rhode Island. None of these Grade B signals reach the Hartford metropolitan area.

7. With the scarcity of VHF signals and the availability of many UHF services, it is naturally to be expected that the percentage of sets converted for the reception of UHF signals is comparatively high in the Connecticut River Valley. Even the opponents of the proposed deletion of Channel 3 from Hartford concede that in and near Hartford more than 93 percent of all television homes can receive UHF signals, and that the conversion rate approaches 100 percent in Hampden County (Springfield-Holyoke), Massachusetts. However, as is also to be expected, the rate of conversion falls off as one leaves the vicinity of Hartford and approaches areas where VHF signals are received. Thus, there is little conversion in New Haven, where a VHF station is on the air, or even in Waterbury and Bridgeport, where UHF stations are operating but service is received from VHF stations in New York City. Areas adjacent to Rhode Island, including the city of New London, which receive service from Providence stations, have little or no conversion.

8. The operation of UHF stations in the Hartford-New Britain and Springfield-Holyoke areas, together with the high conversion rate in those cities and the intervening area, would seem to indicate that UHF stations are capable of providing adequate service to those cities and the immediately surrounding areas. However, those opposing the deintermixture of Hartford contend that, with the exception of a strip of about 15 to 20 miles on each side of the river, the Connecticut River Valley is poorly suited to

[5] The proposal, if adopted, would result in there being three VHF assignments in Providence, and three UHF assignments (and no VHF) in the Hartford-New Britain area.

[6] Included among these are the following (1950 populations in parentheses): in Massachusetts: Worcester (203,000), Springfield (162,000), Fall River (112,000), and New Bedford (109,000); in Rhode Island: Providence (249,000) and Pawtucket (81,000); and in Connecticut: Hartford (177,000), Bridgeport (159,000), New Haven 164,000), Waterbury (104,000) and New Britain (74,000).

[7] In denying requests for the assignment of additional UHF channels to the Hartford area, the Commission said in its Sixth Report and Order (par. 284): "In view of the total spectrum space available for use in the State of Connecticut the Commission is not in a position to grant any further assignments to Hartford for commercial purposes. The assignments we have made permit practically no further assignments in either the VHF or the UHF."

[8] Construction permits are held for the following UHF stations (never on the air unless so indicated) which would, if activated, provide service to parts of the area within the Grade B contour if a Channel 3 station at Hartford: WNLC–TV, New London, WELI–TV, New Haven, and WSTF, Stamford, all in Connecticut; WKNY–TV, Kingston, New York (on the air from April 21, 1954, to July 25, 1956); WPTB–TV, Albany, New York; WAAB, Worcester, Mass.; WWOR–TV, Worcester (on the air from December 4, 1954, to September 5, 1956); and WKNE–TV, Keene, New Hampshire.

UHF reception because of its wooded, rough, hilly terrain. This contention is based, not only on a generally acknowledged characteristic of UHF service, but on field intensity measurements indicating a rapid rate of signal loss at distances beyond 20 miles. Of course, it must be conceded that the terrain in the Connecticut River Valley is not as favorable for UHF reception as the terrain in the vicinity of Springfield or Peoria, Illinois, for example, but we are not convinced that it is as unsuitable as the opponents would have it. The measurements on which they rely were taken at a height of only 10 feet above ground and extrapolated to a height of 30 feet (normal roof-top). We are confident, and measurements taken by the proponents bear us out, that field intensity measurements taken at the normal height of roof-top antennas would show a much more favorable propagation of UHF signals. We also note that because of the comparatively short distances between cities with television stations on the air,[9] long range propagation of television signals is not as necessary in the public interest as it is in other areas of the nation.

9. Even assuming that UHF stations can provide a reasonably adequate service in the Hartford area, there still remains the question whether a significant number of people would lack service as a result of the deletion of Channel 3 from Hartford. Both the proponents and opponents of the proposed deintermixture agree that, if computations of coverage are made in accordance with the Commission's rules, there would be no such "white" areas (without Grade B or better service) resulting from the removal of Channel 3. However, on the basis of field intensity measurements [10] the opponents claim that the removal of Channel 3 would result in a "white" area of about 140 square miles with a population of approximately 56,000 in the State of Connecticut. We do not believe that those measurements are conclusive, since it is entirely possible that extreme shadowing existing at ground levels may disappear at 30 feet, and it is difficult to make a correlation between the signal strength at 10 feet and at 30 feet in cluttered areas. Moreover, the measurements were necessarily taken on a limited number of radials. Hence, on the record before us it is impossible to estimate with any certainty whether a "white" area would exist if Channel 3 were deleted at Hartford, and it would be impossible to remove all doubts in the matter without minutely pin-pointed measurements, which would be impractical, if not impossible, in view of such factors as time and expense. We do believe that the shadow areas depicted by the opponents would not be as severe as claimed, but, in view of the rugged terrain in parts of the Hartford area, we are practically certain that UHF service would not approach the ideal envisioned by the proponents. There are, without doubt, throughout the areas of rougher terrain "pockets" where UHF reception is not satisfactory, as is shown by the low conversion rate in Litchfield and Tolland Counties (adjoining Hartford County on the west and east) where the residents apparently prefer fringe service from VHF stations. A station operating on Channel 3 in Hartford could fill in such "white" areas in Massachusetts as well as Connecticut to a much higher degree than could a UHF station. A Channel 3 station would also be more likely to provide a second service to persons now limited to one television service, either UHF or VHF. The opponents estimate that the Connecticut area so limited would be 884 square miles with a population of 103,037. While for the reasons set out above we do not believe that the number will be as great as estimated, it is our judgment that the number will be substantial in view of the rugged terrain in part of the area.

10. On the other hand, there is no claim and it appears to be the fact that there is no "white" area in Rhode Island. Rather, the entire State already has at least two Grade B services and only an area estimated at 19 square miles is limited to one Grade A service. Providence receives Grade A service from its two local VHF stations and from WBZ–TV, Boston, and will receive another Grade A service when Channel 5 at Boston goes on the air. The only comparable service in the Hartford-New Britain metropolitan area is from its two local UHF stations and station WNHC–TV at New Haven.

11. Hartford is rated as the 27th market and has a population of 177,397 with a metropolitan area population of 358,081. New Britain is considered a separate metropolitan area for census purposes, and the population of the combined metropolitan areas is 505,064. Providence is rated as the 29th market and has a population of 248,674 with a metropolitan area population of 737,203, more than 135,000 of which are in Massachusetts. Hartford and the State of Connecticut are growing at a more rapid rate than are Providence and the State of Rhode Island. Connecticut's population is almost 3 times the population of Rhode Island and is more than 4 times larger in area. Providence and Hartford are the capital cities of their respective States and are so situated that a VHF station in either city could render service to all or substantially all of its respective State.

12. In consideration of the service and lack of service and the relative importance of the respective areas, we cannot say that Providence has a greater need for Channel 3, or that the move to Providence would result in a greater compliance with the requirement of section 307 (b) of the Communications Act for a "fair, efficient and equitable" distribution of television facilities to each of the several States and communities.

13. The foregoing consideration as to the comparative needs of the respective cities would in itself foreclose a shift of Channel 3 from Hartford to Providence. There are, however, additional reasons why the change should not be made. We stated in our Report and Order of June 26, 1956, that one of the principal factors in a decision on adding an additional VHF channel would be whether it was possible to locate the transmitter so as to meet the minimum transmitter spacings. In the allocation of Channel 3 to Providence the critical spacing requirements are the separations from the transmitters of noncommercial educational station WGBH–TV (Channel 2) and commercial station WBZ–TV (Channel 4) at Boston. It is beyond dispute that the transmitter of a station operating on Channel 3 would, under our rules, have to locate so far south of Providence that it could not provide a principal city signal over all or even the greater part of the city. This fact alone would likewise prevent the proposed assignment. Hence, the proponents of the deintermixing of Hartford place greater stress on the counterproposal to assign Channel 3 to any one of several communities in Rhode Island south of Providence.

14. Such an assignment would not in our view make for a "fair, efficient and equitable" distribution of the available facilities any more than would the assignment to Providence. Since the obvious principal purpose of the proposed assignment would be to serve the city of Providence and since it has been our experience that a station in a small city located near a larger city must depend to a great extent upon revenues derived from coverage of the larger city we would feel justified in weighing the comparative needs as we did in the case of Providence. And even looking at the proposed assignment as the first local outlet for one of the Rhode Island communities, for the same reasons that we preferred Hartford over Providence, we are of the view that the mandate of section 307 (b) of the act would be more fully complied with by preferring Hartford or by restoring Channel 3 to New London, Connecticut, where it had been tentatively assigned prior to its assignment to Hartford. Moreover, we do not consider that the assignment of Channel 3 to southern Rhode Island would make for an efficient allocation. The proposed transmitter site would meet the minimum mileage separations, but the line of adjacent channel interference with WGBH–TV (Channel 2) and WBZ–TV (Channel 4) would fall within the limits of the city of Providence or in the thickly settled area immediately adjacent to the northern city limits. Thus, depending upon the selectivity of receivers and other conditions affecting reception, there would be problems with respect to the reception of the Channel 3 signal in the very city the serving of which would be the primary objective of the allocation. For example, a substantial number of the residents of Providence and vicinity may not be able to obtain satisfactory reception of the Channel 3 signal, and other substantial numbers who can receive the signal might be deprived of the service from two Boston stations (WBZ–TV and WGBH–TV) which they have been accustomed to receive. While our rules contemplate that adjacent channel interference will be ignored so long as minimum transmitter spacings are met, we do not believe it would be in the public interest to make the proposed allocation with knowledge that such a substantial portion of the population to be served might be adversely affected by the adjacent channel interference.

15. In view of the basic deficiencies discussed above with respect to the allocation of Channel 3 to Providence or Rhode Island, we deem it unnecessary and inappropriate to make any determination as to whether adoption of the proposal would be consistent with the objective of improving the opportunities for effective competition among a greater number of stations.

16. Hampden-Hampshire Corporation (WHYN–TV, Springfield-Holyoke), Springfield Television Broadcasting Corporation (WWLP, Springfield) and Greenfield Television Broadcasting Corporation (WRLP, Greenfield) have made a joint request that oral argument be held in this proceeding. We have carefully considered the documents filed by the various parties and have found them helpful in our deliberations. We are of the view that oral argument would not be of any substantial assistance in the resolution of the questions presented, and accordingly the request is denied. The same parties on February 21, 1957, filed a request for permission to file supplemental comments, suggesting as a solution to the transmitter spacing problem that WGBH Educational Foundation be ordered to show cause why it should not be required to share the site and tower of WBZ–TV. This change in the transmitter location of Station WGBH–TV, it is alleged, would permit the location of a Channel 3 transmitter sufficiently close to Providence to provide a principal city signal over the entire city. Because of the lateness of the request, and also because the offered solution does not cure all the deficiencies in the proposal, the request for permission to file supplemental comments is denied.

17. There remains for discussion only the counterproposals with respect to the allocation of Channel 3 to Bridgeport, Connecticut, and Worcester, Massachusetts. The Bridgeport proposal is tied in with the proposal to allocate Channel 3 to Providence and would fall with it. Moreover, the allocation of Channel 3 at Bridgeport would involve the necessity of operation with low power and directional antenna and would represent a substantial departure from the minimum co-channel spacing of 170 miles.[11] As we have often indicated, it is our view that such allocations would not serve the public interest at the present time. See Memorandum Opinion and Order of December 19, 1956 (released December 27, 1956) in Docket No. 11532 (FCC 56–1269). We reaffirm that view here.

18. With respect to the proposal to relocate Channel 3 at Worcester, Massachusetts, it, too, presents problems as to a transmitter location. In order to maintain the required separation of 60 miles from adjacent channel station WBZ–TV (Boston), the transmitter of a Channel 3 station would have to be located at a minimum of 31 miles west of the center of Worcester and 28 miles from the nearest city limits. With operation at maximum power and antenna height, it could not provide a principal city signal to any part of Worcester, and would involve adjacent channel interference within the city limits. Clearly, this would not be a permissible allocation. Moreover, the closest available transmitter location to Worcester would be only 27 miles from Hartford and 12 miles from Springfield. It would be closer to Springfield by about 12 miles than would the transmitter of the proposed Channel 3 station at Hartford. Consequently, a Worcester Channel 3 station would place a stronger signal in both Hartford and especially Springfield than it would in Worcester. Under these circumstances the Connecticut River Valley would not be effectively deintermixed.

19. In view of the above considerations we are convinced that the adoption of the Commission's proposal or any of the counterproposals would not serve the public interest, and we conclude therefore that the allocation of Channel 3 to Hartford should remain unchanged.

20. *Accordingly, it is ordered,* That this proceeding be terminated.

Adopted: February 26, 1957.

Released: March 1, 1957.

FEDERAL COMMUNICATIONS COMMISSION,[12]
[SEAL] MARY JANE MORRIS,
Secretary.

[F. R. Doc. 57–1736; Filed, Mar. 7, 1957; 8:46 a. m.]

[9] For example, the distance from Hartford to Springfield is only 26 miles; from Hartford to New Haven, 34 miles; and from Hartford to Waterbury, 23 miles.

[10] As previously indicated, these measurements were made at a height of 10 feet above ground and extrapolated to a height of 30 feet above ground. The proponents made measurements at both 10 feet and 30 feet above ground at some of the same points measured by the opponents, and assert that the dual measurements demonstrate the inaccuracy of the extrapolations. The proponents also contend that the routes chosen for the field surveys were in deep valleys and thus not typical.

[11] It is approximately 140 miles from Bridgeport to the transmitter of WRCV–TV (Ch. 3) in Philadelphia, and only 76 miles from Bridgeport to the proposed location of a Channel 3 station in Rhode Island.

[12] Commissioners McConnaughey, Chairman; and Craven concurring in the result; Commissioners Hyde and Bartley dissenting and issuing statements filed as part of original document, Commissioner Lee dissenting.

NOTICES

DEPARTMENT OF COMMERCE

Federal Maritime Board

PORT OF NEW YORK AUTHORITY AND UNITED PORT SERVICE CO.

NOTICE OF AGREEMENTS FILED FOR APPROVAL

Notice is hereby given that the following described agreements have been filed with the Board for approval pursuant to section 15 of the Shipping Act, 1916, (39 Stat. 733, 46 U. S. C. 814):

(1) Agreement No. 8185 between The Port of New York Authority and United Port Service Company providing for the leasing of certain lands, structures, fixtures, improvements and other property at Port Newark, Newark, New Jersey, to United Port Service upon completion of certain construction work by The Port Authority, for the purpose of exclusive berthing privileges by the Lessee for vessels of the steamship lines named in said lease for the reception, temporary storage, loading and unloading and handling of passengers, cargo, ships' stores, supplies and gear on or from vessels berthed at said piers, except the backhandling and other handling of lumber which is to be performed by the Port Authority or persons designated by the Port Authority.

(2) Agreement No. 8185–1 modifying Agreement No. 8185 (described above) to provide that United Port Service Company may berth passenger and cargo vessels, other than those of the shipping lines specified in the lease and that the charges for dockage, wharfage, storage, etc., will be at least equal in amount to those set forth in the Port Authority's Schedule of Rates and Charges in effect at that time at Port Newark.

Interested parties may inspect these agreements and obtain copies thereof at the Regulation Office, Federal Maritime Board, Washington, D. C., and may submit, within 20 days after publication of this notice in the FEDERAL REGISTER, written statements with reference to either of the agreements and their position as to approval, disapproval, or modification, together with request for hearing should such hearing be desired.

Dated: March 5, 1957.

By order of the Federal Maritime Board.

GEO. A. VIEHMANN,
Assistant Secretary.

GRACE LINE, INC., ET AL.

NOTICE OF AGREEMENTS FILED FOR APPROVAL

Notice is hereby given that the following described agreements have been filed with the Board for approval pursuant to section 15 of the Shipping Act, 1916, 39 Stat. 733, 46 U. S. C. 814:

(1) Agreement No. 7796–5, between Grace Line, Inc., and Cia. Sud-Ameri-

cana de Vapores (Chilean Line), modifies approved pooling Agreement No. 7796, as amended, by adding coal and dolomite in bulk in shipload quantities to commodities listed in the agreement on which the parties have agreed not to pool southbound earnings. Agreement No. 7796, as amended, covers the trade between U. S. Atlantic ports and Chilean ports; and

(2) Agreement No. 7797–3, between Gulf & South American Steamship Co., Inc., and Cia. Sud-Americana de Vapores (Chilean Line), modifies approved pooling Agreement No. 7797, as amended, by adding coal and dolomite in bulk in shipload quantities to commodities listed in the agreement on which the parties have agreed not to pool earnings. Agreement No. 7797, as amended, covers the trade from U. S. Gulf ports to Chilean ports.

Interested parties may inspect these agreements and obtain copies thereof at the Regulation Office, Federal Maritime Board, Washington, D. C., and may submit, within 20 days after publication of this notice in the FEDERAL REGISTER, written statements with reference to either of the agreements and their position as to approval, disapproval, or modification, together with request for hearing should such hearing be desired.

Maritime Administration

TRADE ROUTES NO. 17—U. S. ATLANTIC, GULF AND PACIFIC PORTS/INDONESIA-MALAYA

MODIFICATION OF CONCLUSIONS AND DETERMINATIONS REGARDING ESSENTIALITY AND UNITED STATES FLAG SERVICE REQUIREMENTS

Notice is hereby given that on March 1, 1957, the Acting Maritime Administrator, acting pursuant to section 211 of the Merchant Marine Act, 1936, as amended, ordered that "Trade Route No. 17" conclusions and determinations as published in the FEDERAL REGISTER of March 29, 1955 (20 F. R. 1900) be modified to read as follows:

Trade Route No. 17—U. S. Atlantic, Gulf and Pacific Ports/Indonesia-Malaya. Between U. S. Atlantic, Gulf and Pacific ports and ports in Indonesia-Malaya (including Singapore, Sarawak and North Borneo) via the Panama Canal and/or the Suez Canal.

Trade Route No. 17 is reaffirmed as an essential United States foreign trade route and is redescribed as shown above.

It is determined that United States flag sailing requirements are approximately between 8 and 12 freighter sailings per month over the following services:

Service No.	*Approximate monthly sailings*	
1	[1] 1–2	U. S. Atlantic (via Panama Canal) and California to Indonesia-Malaya and return, including Far East ports—Hong Kong and south, en route;
2	[1] 1–2	U. S. Gulf and Atlantic via Suez to Indonesia-Malaya and return;
3	1	U. S. Gulf via Panama Canal and Far East to Indonesia-Malaya and return via California to Pacific Northwest; and
4	1	U. S. Pacific Northwest via Far East to Indonesia-Malaya and return via California to Pacific Northwest; and
	[2] 4–6	Round-the-World eastbound and westbound serving U. S. Atlantic and California/Indonesia-Malaya, originating at U. S. Atlantic.

[1] At least one sailing per month to return over the general track followed on the outbound voyage, with some of the remaining voyages continuing around the world. The sailing requirements for Service No. 1 and Service No. 2 are additive and to the extent that sailings in one service are less than the maximum number indicated for that service, sailings in the other service may be increased commensurately.

[2] The 4–6 sailings are included in the Round-the-World Westbound and Eastbound services determined to be essential by the Maritime Administrator as published in the FEDERAL REGISTER issues of June 22 and October 13, 1955 (20 F. R. 4374 and 20 F. R. 7707) and do not amend or supersede those determinations. The term "round (around) the world" as used herein in connection with sailings and sailing requirements refers to cargo ships sailings and excludes combination (passenger-cargo) ship sailings.

It is determined that C–3 type freighters are suitable for this trade and that for interim operations C–2's and to some extent Victory type freighters are suitable to round out sailing requirements of United States flag lines as a whole. New ships for this trade should have adequate refrigerator and deep tank spaces and should be somewhat superior to the present C–3 type freighters.

Dated: March 5, 1957.

By order of the Maritime Administrator.

JAMES L. PIMPER,
Secretary.

[Docket No. 11871; FCC 57–196]

PRESS WIRELESS, INC. AND WESTERN UNION TELEGRAPH CO.

MEMORANDUM OPINION AND ORDER ASSIGNING MATTER FOR PUBLIC HEARING

In the matter of Press Wireless, Inc., v. The Western Union Telegraph Company, complaint with respect to delays in handling messages specifically routed via Press Wireless.

1. This matter is before us as a result of a Complaint filed by Press Wireless, Inc. (Press Wireless) on November 8, 1956, wherein it is alleged that The Western Union Telegraph Company (Western Union) has permitted unreasonable delays in transferring to the complainant international press messages filed with the defendant specifically routed by the sender via Press Wireless. The complainant also alleges that the employees of the defendant's international cable system obtained from domestic employees of the defendant the names of customers routing press traffic via the complainant and used this information to solicit traffic from customers of the complainant. A copy of the Complaint was served upon the defendant and as required by § 1.577 of our rules the defendant was called upon to satisfy the Complaint or respond thereto by December 14, 1956.

2. In its Answer filed December 14, 1956, Western Union denies the acts complained of, and requests that the Complaint be dismissed. On December 26, 1956 Press Wireless filed a Reply and Petition, to which Petition Western Union filed an Opposition on January 14, 1957.

3. On May 22, 1956, Press Wireless filed an application under section 214 of the Communications Act of 1934, as amended, (File No. T–C–1187) for authority to lease and operate temporary wire facilities between New York, New York and Chicago, Illinois during the Democratic National Convention from August 13, 1956 to August 18, 1956. In support of its application, Press Wireless alleged that experience indicated that press traffic from a hinterland point, filed with another carrier, has been subject to delays, inaccuracies and misroutings, due in large part to the multiple handling to which such traffic is subjected compared to the one handling when such traffic is filed directly with a company specializing in handling the one class of traffic, as does Press Wireless. Western Union objected to the grant of this application, alleging that it had already made all the necessary special arrangements for the handling of press traffic during the convention, that it has long specialized in the handling of press traffic, that its facilities in Chicago would be entirely adequate for the needs of the press, and that Press Wireless would receive service comparable or as satisfactory as that given to the various press associations and newspapers.

4. By Memorandum Opinion and Order adopted July 19, 1956, the Commission denied the complainant's application, and on July 24, 1956, Press Wireless filed a Petition for reconsideration and grant of the application. Western Union filed an Opposition to such Petition on August 1, 1956, to which Press Wireless replied on the same day. The Commission, by Memorandum Opinion and Order adopted August 6, 1956, denied the Petition for reconsideration.

5. In our Memorandum Opinion and Order of July 19, 1956, as well as in our letter to Western Union of the same date, it was suggested that record keeping in both Chicago and New York might be eliminated in order that some of the delays experienced by Press Wireless in the past should not be repeated. It was also requested that Western Union landline employees in Chicago be made aware of the obligation of Western Union landlines not to solicit overseas traffic for its own cable system. In the July 19, 1956, letter to Western Union it was specifically pointed out that it was incumbent upon Western Union to prevent any deviations from its obligations to serve all carriers equally. In this connection Western Union's attention was invited to the penalties provided by law for a willful or knowing failure to live up to such obligations. It was also requested that Western Union reply no later than August 6, 1956, indicating what was being done by it to assure complete impartiality of its employees. In its response of August 3, 1956, Western Union stated that the recording of information at New York would be done while the message was in process of transmission to the international carrier instead of before transmission so that the prompt movement of traffic would be in no way impeded, and that as a result of a conference between headquarters representatives and the general manager of Lake Division, instructions were issued to all landline employees in Chicago telling them to observe strict impartiality toward all international carriers.

6. The Press Wireless Complaint. In its Complaint, Press Wireless makes four principal allegations of fact as follows:

(a) That Western Union permitted substantial and unreasonable delays to occur in the transfers to the complainant of messages specifically routed via the complainant;

(b) That Western Union misrepresented to the Commission the manpower and facilities it would make available for the handling of press traffic during the Democratic National Convention at Chicago;

(c) That Western Union's cable system employees obtained from its domestic landline employees the names of customers specifically routing traffic via the complainant and solicited such customers for their traffic; and

(d) That the complainant suffered damage to its reputation and goodwill and a loss of business because of the defendant Western Union's acts.

7. As examples of the above described alleged delays, the complainant lists all international press messages allegedly filed with the defendant during the Democratic National Convention, specifically routed via the complainant, and shows elapsed times ranging from nineteen minutes to five hours between time of filing with the defendant and subsequent transfer to complainant. It is asserted that the delays on these particular messages violate the express terms of the aforementioned Commission Memorandum Opinion and Order adopted July 19, 1956, as well as the terms of the Commission's letter of that date to Western Union in connection with such proceeding (see paragraph 5 above). Alleging that the above-mentioned Memorandum Opinion and Order was based upon the defendant's representation that it would have adequate facilities and manpower to give adequate service during the Convention, the complainant requests that the Commission independently investigate the extent to which the above mentioned Order and letter were violated, and the extent to which misrepresentations may have been made concerning the facilities and manpower to be used by the defendant at Chicago. In this connection, complainant also requests that defendant preserve the records of all international press messages filed with it since November 1, 1955, so that a comparison may be made of the service furnished by defendant to its own cable division and other international carriers.

8. It is also alleged by the complainant that employees of Western Union's cable system obtained from employees of Western Union's landline system the names of customers filing press traffic with the defendant specifically routed via the complainant, and used that information to solicit such customers for press traffic, all in violation of the International Formula,[1] and sections 202 and 605 of the Communications Act of 1934, as amended.

9. The complainant also alleges that press traffic demands expeditious handling and in most instances loses value

[1] The International Formula was prescribed by the Commission at the time of the merger of Western Union and Postal Telegraph, Inc., in 1943 to insure, among other things, that the single domestic telegraph company which resulted from such merger would treat all international telegraph carriers alike in the pick up and delivery of international telegraph message traffic in the United States. Under the International Formula Press Wireless is entitled to receive from Western Union all traffic specifically routed via Press Wireless, see 10 FCC 184 at pp. 184–185 and 191–192, (1943).

if inordinate delays occur between filing and receipt by the addressee; and that it has established a valuable reputation and goodwill based on its rapid and efficient transmission of press traffic which have been severely damaged by the defendant's alleged delays thereby causing complainant a substantial loss of business.

10. Press Wireless requests that the Commission, after investigation and hearing, order the defendant to cease and desist from continuing the alleged practices. It also requests permission to file a supplemental complaint for damages, interest and counsel fees, upon findings after such investigation and hearing.

11. The Western Union Answer. The defendant denies the four principal allegations of fact contained in the Complaint which are set forth in paragraph 6 above. The defendant further claims it does not have knowledge sufficient to form a belief as to the truth of complainant's allegations with respect to the need for expeditious handling of press traffic, or the effect of delays thereon on complainant's reputation with respect to such matters.

12. The defendant has appended as an exhibit to its Answer a list of all press messages filed with it specifically routed via the complainant at Chicago during the Democratic National Convention, showing elapsed times between filing and transfer to Press Wireless. There appear to be variations between this list and that contained in the Complaint, both as to identification of particular messages, as well as to elapsed times alleged. The purport of the defendant's list is to show that the elapsed times were much less than claimed by the complainant, and that no unreasonable delays occurred.

13. On the basis of all the foregoing the defendant requests that the Complaint be dismissed.

14. The Press Wireless Reply and Petition. In its Reply, the complainant alleges that the Western Union Answer is not responsive with respect to the complainant's allegations regarding the demands of press traffic for expeditious handling, its loss of value if inordinate delays occur between filing and receipt by the addressee, as well as the complainant's allegations with respect to its valuable reputation and goodwill based on its rapid and efficient transmission of press traffic. In the Reply it is also alleged that the Answer contains no analysis of the speed of service given to press traffic routed via defendant's cable system during this period from the same point, and that the exhibit appended to the Answer does not indicate whether the various times shown are Eastern, Central or Pacific, Daylight or Standard.

15. The Reply further contains a Petition that the Commission require that the defendant:

(a) Answer the above described portions of the Complaint;

(b) Amend the exhibit appended to the Answer to show the times of filing and transfer of messages in terms of correct local time;

(c) Submit an accurate analysis of the speed of service given to its own cable system for overseas press traffic originating with the defendant during the Chicago Convention; and

(d) Preserve its records of all international press traffic originating with it from November 1, 1955.

16. The Western Union Opposition. In its Opposition, Western Union alleges that the defendant did not have sufficient knowledge of the press deadlines to enable it to either admit or deny paragraphs 5 and 10 of the Complaint. It indicates that all the times shown on the exhibit appended to the Answer were Central Standard Time. It urges that the complainant's request for an analysis of the speed of service given to the defendant's cable system be denied as being beyond the scope of the pleadings, and also urges denial of the request of the complainant that the defendant preserve records of all international press traffic originating with it since November 1, 1955, because compliance with that request would impose an undue burden and great expense on the defendant.

17. The Press Wireless Petition. As noted above, the complainant's Reply contained a Petition asking that the Commission require the defendant to do various things (see paragraph 15). In its Opposition to the Press Wireless Petition, the defendant states that all times shown on its exhibit appended to its Answer are Central Standard Time, and that the elapsed times indicated thereon are computed solely on that basis. It thus appears that the defendant has satisfied complainant's Petition in that respect.

18. It appears to us that the complainant's request that we require the defendant to preserve its records of all international press traffic originated with the defendant during the Chicago Convention, would be unreasonably burdensome on the defendant. The speed of service in transferring international press traffic originated with the defendant to the complainant is a prime issue in this matter, and a comparison of the speed of that service with that given to press traffic originated with the defendant and routed either via its own cable system or via another international carrier would appear to be pertinent to the determination of the issues raised by the Press Wireless Complaint. However, in order that such comparisons may be made, it does not appear necessary to check the many thousands of international press messages originated with the defendant all over the country since November 1, 1955, but rather that such a check might more reasonably be made from international press messages filed with the defendant during a representative period from representative points. Since the crux of the complaint is the service afforded international press traffic originated with the defendant routed via the complainant during the Chicago Convention, the defendant will be required to preserve its records of all international press traffic originated with it at Chicago, Illinois, during the month of August, 1956. In order that a more recent comparison of service might be obtained, the defendant will also be required to preserve its records of all international press traffic originated with it in New York, New York; Boston, Massachusetts; Chicago, Illinois; San Francisco, California; Washington, D. C.; New Orleans, Louisiana; St. Louis, Missouri; and Los Angeles, California; during the month of January, 1957. This appears to us to be a more reasonable requirement, particularly as there is no indication that anyone would be willing to undertake the task of checking all international press messages originated with the defendant all over the country in the course of more than a year.

19. The request for a more specific answer to those allegations in the Complaint relating to the complainant's alleged valuable reputation and goodwill based on its rapid and efficient transmission of press traffic, and to the demands of press traffic for expeditious handling and loss of value if inordinate delays occur, does not appear proper. These matters, as well as the request for an analysis of the speed of service given by Western Union to its own cable system for overseas press traffic originating with the defendant during the Chicago Convention, do not appear to be matters appropriately handled in the pleadings, but rather are evidentiary matters which should be dealt with in the course of the hearing itself.

20. In view of all of the foregoing we are denying the Press Wireless Petition, except that we are requiring the defendant to preserve international press traffic originating with it in specified cities (see paragraph 18 above.).

21. Request of Press Wireless to file a supplemental complaint for damages, interest and counsel fees. In its Complaint of November 8, 1956, Press Wireless requested permission to file a supplemental complaint for damages, interest and counsel fees, pursuant to Section 1.584 of the Commission's Rules. We are giving Press Wireless leave to file a supplemental complaint in accordance with § 1.584, subject, however, to the provisions of § 1.586 (b) of our rules, that such supplemental complaint must be filed within the statutory period stated in section 415 of the Communications Act of 1934, as amended, which is within one year after the cause of action has accrued.

22. Request of Press Wireless for an independent investigation. In its Complaint of November 8, 1956, Press Wireless also requests that we undertake an independent investigation of our own to determine the extent to which our Memorandum Opinion and Order of July 19, 1956, and our letter to Western Union of the same date have been violated, and the extent to which misrepresentations, if any, were made to the Commission respecting the manpower and facilities to be placed in Chicago by the defendant. It would appear that such matters are in issue in this case, and that information as to the manpower and facilities made available at Chicago by the defendant will be sufficiently developed in the course of the proceedings, so as to make an independent investigation on those points unnecessary.

23. With respect to the allegation that the defendant's cable system employees during the Chicago Convention and at other times and places obtained from domestic employees of the defendant the names of customers routing press traffic via the complainant, and used this information to solicit press traffic from customers of the complainant, complainant fails to mention specific instances wherein this practice occurred, and does not allege this to be a fact, but merely "on information and belief." As such, these allegations do not warrant an independent investigation, and furthermore, as they are also in issue in the instant proceeding, the full facts concerning them will be brought forth during the hearing. Accordingly, we are denying the Press Wireless request for an independent investigation into these matters.

24. Disposition of the matter by formal hearing. Press Wireless has requested that the Commission, after investigation and hearing concerning the alleged unlawful practices of the defendant, enter an Order requesting the defendant to cease and desist from continuing the practices complained of. The Press Wireless request for an independent investigation has been disposed of above (see paragraphs 22 and 23).

25. The complainant has raised several issues of fact in respect to the manner in which the defendant has handled traffic originated with it specifically routed via the complainant, as well as to whether the defendant's cable system employees have solicited customers of the complainant for international press traffic. It seems to us that these issues as well as the other issues raised by the pleadings are sufficiently serious to warrant setting this matter for hearing. Upon consideration of all the facts that will be brought forth at the time of hearing, we shall be in a better position to dispose of the matter.

Accordingly, it is ordered, This 27th day of February 1957 that the Press Wireless, Inc., Petition filed December 26, 1956, is denied; but that The Western Union Telegraph Company is ordered to preserve until further order the originals and all its records of all international press traffic filed with it in Chicago, Illinois, during the month of August 1956, and all originals as well as all its records of all international press traffic filed with it in New York, New York, Boston, Massachuestts, Chicago, Illinois, San Francisco, California, Washington, D. C., New Orleans, Louisiana, St. Louis, Missouri, and Los Angeles, California, during the month of January 1957;

It is further ordered, That, Press Wireless is given leave to file a supplemental complaint for damages, subject to the requirements set forth in § 1.586 (b) of the Commission's rules, that such supplemental complaint must be filed within the statutory period stated in section 415 of the Communications Act of 1934, as amended;

It is further ordered, That the request set forth in the Complaint that the Commission undertake an independent investigation of its own into the extent to which the Commission's Memorandum Opinion and Order of July 19, 1956, and its letter to Western Union of the same date have been violated, and the extent to which misrepresentations, if any, were made to the Commission respecting the manpower and facilities to be placed in Chicago by the defendant, is denied;

It is further ordered, That, pursuant to the provisions of Sections 202, 206, 207, 208, 209, 222, and 605 of the Communications Act of 1934, as amended, a public hearing shall be held at a time and place to be specified in a subsequent order on the substantive issues presented in the Complaint filed by Press Wireless on November 8, 1956, the Answer filed by Western Union on December 14, 1956, and the Reply thereto filed by Press Wireless on December 26, 1956;

It is further ordered, That, without in any way limiting the scope of the hearing on the above-referred-to issues, such hearing shall include the following issues raised by the pleadings:

(a) Whether Western Union has negligently or intentionally or otherwise, caused or permitted delays to occur in the handling and transmission of press traffic filed with it for delivery to Press Wireless for retransmission to foreign countries; and if so, the nature, extent and effect thereof;

(b) Whether any traffic handling practices of Western Union subjected press traffic routed via the complainant to a pattern of delay, and if so, the effect thereof on Press Wireless;

(c) Whether the traffic handling practices of Western Union with respect to press traffic filed with it during the Democratic National Convention at Chicago, August 13, 1956, through August 18, 1956, were contrary to any of the requirements set forth in the Commission's Memorandum Opinion and Order, In re Press Wireless, Inc., July 19, 1956, and the Commission's letter to Western Union of the same date, or any other requirement made pursuant to the Communications Act of 1934, as amended;

(d) Whether Western Union made misrepresentations to the Commission regarding its plans for handling or its ability to handle press traffic at Chicago during the aforesaid Convention; and if so, the nature, extent and effects of such misrepresentations:

(e) Whether, if no misrepresentations were made, Western Union through negligence or deliberate intent or for any other reason subjected press traffic routed via Press Wireless to undue or unnecessary delays;

(f) Whether there is any substantial time difference between the service afforded to press traffic routed via Press Wireless, during the aforesaid Convention at Chicago, or at any other time since November 1955, and that afforded to press traffic routed via Western Union cables and other competing international carriers; and if so, the nature, extent, cause and effects thereof; and

(g) Whether Western Union cable system employees, during the aforesaid Convention, at Chicago or at any other times and places, obtained from the domestic landline employees of the defendant by any means whatever the names of customers routing press traffic via Press Wireless and used this information to solicit press traffic from customers of Press Wireless; and if so, whether this is in violation of sections 202, 222, and 605 of the Communications Act of 1934, as amended, and the provisions of the International Formula.

It is further ordered, That, a copy of this order shall be served on the parties complainant and defendant herein.

Released: March 4, 1957.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

[F. R. Doc. 57-1784; Filed, Mar. 7, 1957; 8:53 a. m.]

[Docket No. 11943; FCC 57-196]

PARISH BROADCASTING CORP. (KAPK)

ORDER DESIGNATING APPLICATION FOR HEARING ON STATED ISSUES

In re application of Parish Broadcasting Corporation (KAPK), Minden, Louisiana; Docket 11943, File No. BP-10749; for construction permit.

At a session of the Federal Communications Commission held at its offices in Washington, D. C. on the 27th day of February 1957;

The Commission having under consideration the above-captioned application of the Parish Broadcasting Corporation for a construction permit to increase the power of Station KAPK, Minden, Louisiana, from 100 watts to 250 watts and to operate on the presently assigned frequency of 1240 kilocycles, unlimited time;

It appearing that the applicant is legally, technically, financially and otherwise qualified, except as may appear from the issues specified below, to operate Station KAPK as proposed, but that the proposed operation would cause objectionable interference to Station KOCA, Kilgore, Texas (1240 kc, 250 w, U) and would receive interference which may cause a loss in population which would be excessive under section 3.28 (c) of the Commission's rules; and

It further appearing that, pursuant to section 309 (b) of the Communications Act of 1934, as amended, the subject applicant was advised by letter dated December 17, 1956, of the aforementioned interference and that the Commission was unable to conclude that a grant of the application would be in the public interest; and

It further appearing that the applicant submitted measurement data on January 24, 1957, purporting to prove that the proposed operation would not be involved in interference with Station KOCA but that the measurements made on Station KOCA toward the proposed operation were made at random points rather than along a straight path in any specified direction and therefore are not acceptable; and that the measurements made on the existing operation of Station KAPK were made for only a distance of 26 miles which, with the conductivity shown on Figure M-3 of the Commission's Technical Standards where applicable, indicate that the proposed operation of KAPK would be involved in interference with Station KOCA; and

It further appearing that the Commission, after consideration of the above, is of the opinion that a hearing is necessary;

It is ordered, That, pursuant to section 309 (b) of the Communications Act of 1934, as amended, the said application is designated for hearing, at a time and place to be specified in a subsequent order, upon the following issues:

1. To determine the areas and populations which may be expected to gain or lose primary service from the operation of Station KAPK as proposed, and the availability of other primary service to such areas and populations.

2. To determine whether the proposed operation of Station KAPK would cause objectionable interference to Station KOCA, Kilgore, Texas, or any other existing standard broadcast stations, and, if so, the nature and extent thereof, the areas and populations affected thereby and the availability of other primary service to such areas and populations.

3. To determine whether, because of the interference received, the proposed operation of KAPK would comply with § 3.28 (c) of the Commission's rules; and if compliance with § 3.28 (c) is not achieved, whether circumstances exist which would warrant a waiver of said section of the rules.

4. To determine, in the light of the evidence adduced pursuant to the foregoing issues, whether the above-captioned application should be granted.

It is further ordered, That Radio Station KOCA, Inc., licensee of Station KOCA, Kilgore, Texas, is made a party to the proceeding;

It is further ordered, That, to avail themselves of the opportunity to be heard, the Parish Broadcasting Corporation and Radio Station KOCA, pursuant to § 1.387 of the Commission's rules, in person or by attorney, shall within 20 days of the mailing of this order, file with the Commission, in triplicate, a written appearance stating an intention to appear on the date fixed for the hearing and present evidence on the issues specified in this order.

Released: March 4, 1957.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

[F. R. Doc. 57-1785; Filed, Mar. 7, 1957; 8:53 a. m.]

STATEMENT OF DELEGATIONS OF AUTHORITY

EMERGENCY EXEMPTION OF VESSELS

At a session of the Federal Communications Commission held at its offices in Washington, D. C. on the 27th day of February 1957;

The Commission having under consideration the necessity for amending section 0.292 (b) of the Commission's Statement of Delegations of Authority to authorize the Crief of the Safety & Special Radio Services Bureau or, in his absence, the Acting Chief of the Bureau, to act upon requests filed pursuant to section 383 of the Communications Act of 1934, as amended, for exemption of vessels from the compulsory radio requirements of Title III, Part III of the act under emergency circumstances;

It appearing that such amendment is designed to improve the internal administration of the Commission and will facilitate the prompt and orderly handling of the above described requests;

It further appearing that the amendment herein ordered relates to internal Commission organization and procedure and, therefore, compliance with the public notice and rule making procedures prescribed by sections 4 (a) and (b) of the Administrative Procedure Act is not required;

It further appearing that authority for the proposed amendment is contained in section 5 (d) (1) of the Communications Act of 1934, as amended;

It is ordered, That, effective February 27, 1957 section 0.292 (b) of the Commission's Statement of Delegations of Authority is amended to read as follows:

(b) Applications or requests for exemption, pursuant to the provisions of sections 352 (b) and 383 of the Communications Act, Regulations 5 or 6, Chapter IV of the Safety Convention, or Article 6 of the Great Lakes Agreement.

(1) For emergency and renewal exemption of ships.

(2) For initial exemptions of ships of less than 100 gross tons (except for vessels subject to the Great Lakes Agreement or Title III, Part III of the Act).

(3) For exemption from Title III, Part II of the Act of ships operated in the Gulf of Mexico which participate in oil well drilling operations when the circumstances are substantially the same as those in precedent cases decided by the Commission en banc.

Released: March 5, 1956.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

[F. R. Doc. 57-1786; Filed, Mar. 7, 1957; 8:54 a. m.]

FEDERAL POWER COMMISSION

[Docket No. G-11184]

UNITED FUEL GAS CO., AND ATLANTIC SEABOARD CORP.

NOTICE OF APPLICATION AND DATE OF HEARING

MARCH 4, 1957.

Take notice that on October 2, 1956, United Fuel Gas Company (United) a West Virginia corporation, and a subsidiary of The Columbia Gas System, Inc., (Columbia) and Atlantic Seaboard Corporation (Atlantic) a Delaware corporation, also a subsidiary of Columbia, having their principal place of business at 1700 Mac Corkle Avenue SE., Charleston, West Virginia, filed a joint application and on November 23, 1956, a supplement thereto, pursuant to section 7 of the Natural Gas Act, for a certificate of public convenience and necessity authorizing United to construct and operate certain additional transmission facilities and to exchange natural gas with Atlantic, and authorizing Atlantic to install and operate certain natural gas facilities to enable it to deliver natural gas to United, in accordance with an exchange arrangement (Exhibit M) as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in the application, which is on file with the Commission and open for public inspection.

United proposes to construct and operate approximately 11.1 miles of 12¾-inch gas transmission pipeline (Line PM-83) extending in an easterly direction from United's Beaver Creek Compressor Station to Atlantic's Boldman Compressor Station, together with the construction and operation of the necessary measuring and regulating facilities at the terminus thereof on the premises of Boldman Station and also to install and operate the necessary recording calorimeters, all at a total estimated cost of $535,000. These proposed facilities will be located within Floyd County, Kentucky.

Atlantic seeks authority to install and operate new compressor cylinders and related facilities at its Boldman Compressor Station in Pike County, Kentucky for the purpose of adapting its existing facilities to proposed operational arrangements at an estimated cost of $145,000.

The proposed facilities will be financed by The Columbia Gas System, Inc.

Applicants further request authorization for the exchange and delivery of natural gas between United and Atlantic pursuant to a proposed form of exchange agreement.

United desires to continue to deliver certain volumes of high BTU unprocessed Kentucky gas to its Leach gasoline extraction plant in Boyd County, Kentucky where a profitable extraction of ethane and other heavier hydrocarbons is made. United also delivers certain volumes of this high BTU gas to Union Carbide and Carbon Corporation (Carbide) for further extraction. Both extraction plants, at present, utilize gas that United receives from Kentucky West Virginia Gas Company (Kentucky-West Virginia) at United's Beaver Creek Compressor Station and along United's 20-inch Line P, connecting this station with its Kenova Station and nearby Leach Plant. This high BTU gas is received from Kentucky-West Virginia for the account of Equitable Gas Company (Equitable) under a current exchange agreement between the two parties.

When Kentucky Hydrocarbon Company, the subsidiary formed by Kentucky-West Virginia to manage the new extraction plant, commences operation United will not receive the untreated high BTU gas now transported and processed in its Leach extraction plant and will receive in lieu thereof equal volumes of lower BTU gas under its exchange agreement with Kentucky-West Virginia.

United proposes herein to route the processed Kentucky-West Virginia low BTU gas into Atlantic's system at Boldman through United's existing Beaver-Boldman Line. In exchange for this gas, Atlantic will deliver to United at Boldman certain volumes of high BTU gas which Atlantic now purchases from United, such gas being produced and purchased by United south of Boldman in Kentucky. United will transport this high BTU gas westward through its proposed new Boldman-Beaver line and on into its Leach plant for extraction, thus maintaining profitable operation at Leach. Although Atlantic will be deprived of its high BTU gas, it will receive larger volumes of lower BTU gas from United to compensate for the difference in heat content.

Applicants allege that United presently receives volumes of natural gas of 102,000 to 112,000 Mcf per day at its Kenova Station. Of this volume, United transports up to 100,000 Mcf per day to its Leach extraction plant in Boyd County, Kentucky, for the recovery of hydrocarbons heavier than ethane, bypassing the remaining volumes due to capacity limitations at Leach plant. Following its extraction operations, United delivers approximately 45,000 Mcf per day of the gas treated at Leach plant to Union Carbide & Carbon Corporation (Carbide) for further extraction pursuant to agreement. Carbide has advised United that it does not propose to extend the existing contract, which will expire March 31, 1957. The extraction processes, on an annual basis, currently result in a net credit to United's cost of service of approximately $1,141,000, of which $297,600 is attributable to the operation of the Leach plant alone.

Applicants allege that the proposed project would increase United's cost of service by $119,000 per year, and the net result would be that approximately $178,000 per year would be credited to United's cost of service. Without the proposed project, United estimates a loss at Leach of approximately $77,000 per year.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on April 8, 1957, at 9:30 a. m., e. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such application: *Provided, however*, That the Commission may, after a noncontested hearing, dispose of the proceedings pursuant to the provisions of § 1.30 (c) (1) or (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will not be necessary for Applicant to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before March 25, 1957. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

[SEAL] JOSEPH H. GUTRIDE,
Secretary.

[F. R. Doc. 57-1767; Filed, Mar. 7, 1957; 8:49 a. m.]

[Docket No. G-10956]

CITIES SERVICE GAS CO.

NOTICE OF APPLICATION

MARCH 4, 1957.

Take notice that Cities Service Gas Company (Applicant), a Delaware corporation with its principal place of business in Oklahoma City, Oklahoma, filed on August 22, 1956, an application, and amendment thereto on February 7, 1957, for a certificate of public convenience and necessity, pursuant to section 7 of the Natural Gas Act authorizing Applicant (a) to construct and operate natural gas facilities and (b) to abandon natural gas facilities and service subject to the jurisdiction of the Commission, all as more fully represented in the application and amendment thereto on file with the Commission and open for public inspection. The facilities to be constructed and operated, and the service and facilities to be abandoned are described as follows:

CONSTRUCTION

ADDITION TO BLACKWELL COMPRESSOR STATION

Construct a 3,600-horsepower addition to Applicant's Blackwell compressor station located in the NW¼ of Section 15, T. 27 N., R. 1 W., Kay County, Oklahoma.

GRABHAM COMPRESSOR STATION TO GLAVIN MEASURING STATION

(a) Construct 41 miles of 30" gas pipe line beginning at the Verdigris River in the NW¼ Section 3, T. 33 S., R. 16 E., Montgomery County, Kansas, and extending northeasterly and northerly to Applicant's Petrolia compressor station located in the NW¼ of Section 32, T. 26 S., R. 18 E., Allen County, Kansas.

(b) Construct 33 miles of 30" gas pipe line beginning at Applicant's Petrolia compressor station in the NW¼ of Section 32, T. 26 S., R. 18 E., Allen County, Kansas, and extending northerly and northeasterly to Applicant's Welda compressor station located in the SE¼ of Section 34, T. 21 S., R. 19 E., Anderson County, Kansas.

(c) Construct 15 miles of 26" gas pipe line beginning at the north terminus of Applicant's existing 26" pipe line in the SW¼ of Section 1, T. 14 S., R. 22 E. and extending northeasterly to Applicant's Glavin measuring station located in the SW¼ of Section 23, T. 12 S., R. 24 E., all in Johnson County, Kansas.

(d) Construct 4 miles of 4" gas pipe line beginning at the easterly terminus of Applicant's existing 8" line located in the NE¼ of Section 22, T. 30 S., R. 16 E. and extending easterly to a point of connection with Applicant's proposed 30" gas pipe line in the NE¼ of Section 20, T. 30 S., R. 17 E., Wilson County, Kansas.

VILAS STORAGE FIELD

Acquire, develop and operate an underground gas storage field, plug and abandon old wells, drill, equip and connect approximately 100 new storage wells and construct storage field pipe lines aggregating 9.6 miles of 26" line, 0.6 miles of 16" line, 1.7 miles of 8" line, 1 mile of 6" line, and 10.6 miles of 4" line, and dehydration facilities for 100,000 Mcf of gas per day in Applicant's proposed Vilas Storage Field located in Townships 27 and 28 South, Range 17 East, Wilson and Neosho Counties, Kansas.

GLAVIN MEASURING STATION TO KANSAS CITY

Construct 6.59 miles of 30" gas pipe line beginning at the northerly terminus of Applicant's 30" gas pipe line near the center of section 13, T. 12 S., 24 E., Johnson County, Kansas, and extending northeasterly to Applicant's 47th Street town border measuring station located in the NE¼ of Section 3, T. 12 S., R. 25 E., Johnson County, Kansas.

OTTAWA-SEDALIA SYSTEM

Construct 10 miles of 20" gas pipe line beginning at Applicant's Ottawa compressor station in the NW¼ of Section 32, T. 16 S., R. 20 E., Franklin County, Kansas, and extending easterly to the NW¼ of Section 25, T. 16 S., R. 21 E., Miami County, Kansas.

SUPERIOR SYSTEM

Construct 6 miles of 12" gas pipe line beginning at the northerly terminus of Applicant's existing 12" pipe line in the SW¼ of Section 4, T. 23 S., R. 5 W. and extending northwesterly to the NE¼ of Section 14, T. 22 S., R. 6 W., Reno County, Kansas.

FACILITIES TO BE RECLAIMED

(a) Reclaim two 16" gas pipel ines totaling 76.53 miles and 0.54 mile of 18" beginning at the Verdigris River in the NW¼ Section 3, T. 33 S., R. 16 E., Montgomery County, Kansas, and extending northeasterly and northerly to Applicant's Petrolia compressor station located in the NW¼ Section 32, T. 26 S., R. 18 E., Allen County, Kansas.

(b) Reclaim two 16" gas pipe lines totaling 65.34 miles, beginning at Applicant's Petrolia compressor station in the NW¼ Section 32, T. 26 S., R. 18 E., Allen County, Kansas, and extending northerly and northeasterly to Applicant's Welda compressor station located in the SE¼ Section 34, T. 21 S., R. 19 E., Anderson County, Kansas.

(c) Reclaim two 16" gas pipe lines totaling 20.60 miles, beginning at the north terminus of Applicant's existing 26" gas pipe line in the SW¼ Section 1, T. 14 S., R. 22 E., and extending northeasterly to Applicant's Glavin Measuring Station located in the SW¼ Section 23, T. 12 S., R. 24 E., Johnson County, Kansas.

(d) Reclaim 4.37 miles of 16" and 2.04 miles of 18" gas pipe line, beginning at the northerly terminus of Applicant's 30" gas pipe line near the center of Section 13 T. 12 S., R. 24 E., Johnson County, Kansas, and extending to Applicant's 47th Street Town Border Measuring Station, located in the NE¼ Section 3, T. 12 S., R. 25 E., Johnson County, Kansas.

(e) Reclaim 10.0 miles of 12" gas pipe line, beginning at Applicant's Ottawa Compressor Station in the NW¼ Section 32, T. 16 S., R. 20 E., Franklin County, Kansas, and extending easterly to the NW¼ Section 25, T. 16 S., R. 21 E., Miami County, Kansas.

(f) Reclaim 6.0 miles of 8" gas pipe line beginning at the northerly terminus of Applicant's existing 12" pipe line in the SW¼ Section 4, T. 23 S., R. 5 W., and extending northwesterly to the NE¼ Section 14, T. 22 S., R. 6 W., Reno County, Kansas.

SERVICE TO BE ABANDONED

Abandon service of natural gas to The Gas Service Company for resale to 72 individual domestic tap customers located on Applicant's facilities to be reclaimed herein between Applicant's Grabham Compressor Station and Glavin Measuring Station.

The application recites the proposed construction and operation, and the proposed reclaim of facilities, and abandonment of service and facilities are required for the primary purpose of meeting Applicant's increase at peak day firm requirements to existing customers. Applicant estimates that the peak day firm demand in the Kansas City Area which is served in part by the portion of its system involved herein will increase from 559,252 Mcf in 1956–57 to 629,314 Mcf by 1959–60, an increase over these years of 70,062 Mcf.

The estimated cost of Applicant's proposals is stated to be $3,893,000.00 less $743,000.00 (the salvage value of reclaimed materials) which will be paid for in part from treasury cash and in part from the proceeds of new issues of first mortgage bonds.

The change in routing of the proposed new facilities, and the proposed reclaiming of facilities will result in abandonment of service to 72 individual domestic top consumers of the Gas Service Company located between the Verdigris River northeast of Grabham Compressor Station and the Glavin Measuring Station.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before March 25, 1957.

[SEAL] JOSEPH H. GUTRIDE, *Secretary.*

[Docket No. G–9594 etc.]

TEXAS CO. ET AL.

NOTICE OF CONSOLIDATION OF PROCEEDINGS AND DATE OF HEARING

MARCH 4, 1957.

In the matters of The Texas Company, Docket Nos. G–9594, G–9595; The Texas Company (Operator) et al., Docket No. G–11710.

On February 27, 1957, Notice of Consolidation of Proceedings and Date of Hearing was issued with respect to the Texas Company, Docket Nos. G–8969, G–9576, G–9593, G–9596, G–9609, G–9161, G–10884, G–11321, G–11322, G–11323, and G–11333 and with respect to the Texas Company (Operator), et al., Docket Nos. G–11324 and G–11391.

The captioned proceedings, like those covered in the February 27, 1957, Notice, relate to proposed changes in rates which heretofore have been suspended by order of the Commission, with the provision that a public hearing be held thereon at a date to be fixed by notice from the Secretary.

Take notice that the captioned related proceedings will also be heard on the consolidated record provided for in the previous Notice to the end that they may be disposed of as promptly as possible.

Take further notice that pursuant to the prior orders of the Commission in each of the above proceedings and the Natural Gas Act, particularly sections 4 and 15 thereof, and the Commission's rules of practice and procedure, a public hearing will be held commencing on April 8, 1957, at 10:00 a. m. E. S. T., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters and issues involved in these consolidated proceedings.

Interested State commissioners may participate as provided by §§ 1.8 and 1.37 (f) of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.37 (f)).

[F. R. Doc. 57–1750; Filed, Mar. 7, 1957; 8:45 a. m.]

[Docket No. G–7448 etc.]

CROW DRILLING CO., INC., AND TRANS-TEX DRILLING CO.

NOTICE OF APPLICATIONS AND DATE OF HEARING

MARCH 4, 1957

In the matters of Crow Drilling Company, Inc., Docket No. G–7448; Crow Drilling Company, Inc., Docket No. G–10451; Trans-Tex Drilling Company, Docket No. G–10452 and G–10490.

Take notice that Crow Drilling Company, Inc., having its pricipal place of business in Shreveport, Louisiana, filed an application on May 21, 1956, in Docket No. G–10451, pursuant to section 7 (b) of the Natural Gas Act, for permission and approval to abandon service to United Gas Pipe Line Company covering the production of natural gas from seven wells located in the Greenwood-Waskom Field, Caddo Parish, Louisiana, all producing from the Raluxy Formation, all as more fully described in the application on file with the Commission and open to public inspection.

Simultaneous with the above application for abandonment of service, Trans-Tex Drilling Company filed an application in Docket No. G–10452, pursuant to section 7 (c) of the Natural Gas Act, for authority to continue the service to United Gas Pipe Line Company proposed to be abandoned by Crow Drilling Company in Docket No. G–10451.

On May 28, 1956, Crow Drilling Company, Inc., filed an amendment to its pending application in Docket No. G–7448,[1] requesting that it be permitted to abandon the service for which it had previously sought authorization in its application in Docket No. G–7448, covering the sale of natural gas to Arkansas-Louisiana Gas Company from the A. W. Dunn No. 1 Well, located in the Greenwood-Waskom Field, Caddo Parish, Louisiana, all as more fully described in the amendment filed herein, and now on file with the Commission and open to public inspection.

Simultaneous with the above amendment, Trans-Tex Drilling Company filed an application in Docket No. G–10490, pursuant to section 7 (c) of the Natural Gas Act, for authority to continue the sale sought to be abandoned by Crow Drilling Company, Inc., in Docket No. G–7448. The application is now on file with the Commission and open to public inspection.

The respective applications and amendment herein, state, that Crow Drilling Company sold its interest in the seven Paluxy Wells and the A. W. Dunn No. 1 Well to Trans-Tex Drilling Company, which proposes to continue service to United Gas Pipe Line Company and Arkansas Louisiana pursuant to the existing gas sales contracts previously filed with the Commission.

These related matters should be heard on a consolidated record and disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on April 9, 1957, at 9:30 a. m., e. s. t., in a Hearing Room of the Federal Power Commission, 441 G Street, NW., Washington, D. C., concerning the matters involved in and the issues presented by such applications: *Provided, however,* That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of § 1.30 (c) (1) or (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for applicants to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before March 21, 1957. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

[SEAL] JOSEPH H. GUTRIDE, *Secretary.*

[F. R. Doc. 57–1751; Filed, Mar. 7, 1957; 8:45 a. m.]

[Docket No. G–9402 etc.]

OIL LEASE OPERATING CO. AND COMMERCIAL PETROLEUM & TRANSPORT CO.

NOTICE OF APPLICATIONS AND DATE OF HEARING

MARCH 4, 1957.

In the matters of Oil Lease Operating Co. (Operator), Docket Nos. G–9402, G–9403, G–9404; Commercial Petroleum & Transport Co., Docket Nos. G–9405, G–9406, G–9407.

Take notice that Commercial Petroleum & Transport Co. (Commercial Petroleum) with its principal place of business in Houston, Texas, filed on September 26, 1955, applications in Docket Nos. G–9405, G–9406 and G–9407, pursuant to section 7 (b) of the Natural Gas Act, for permission and approval to abandon natural gas service authorized by the Commission in Docket Nos. G–5986 through G–5988 by order issued May 21, 1956, in the consolidated Docket Nos. G–5974, et al. proceeding, all as more fully described in the applications herein and now on file with the Commission open to public inspection.

On September 26, 1955, Oil Lease Operating Co. (Oil Lease), a Texas corporation with its principal place of business in Houston, Texas, filed application in Docket Nos. G–9402, G–9403 and G–9404 pursuant to section 7 (c) of the Natural Gas Act, for authority to continue the services proposed to be abandoned by Commercial Petroleum in its above-named dockets. The applications of Oil Lease are on file with the Commission and open to public inspection.

Commercial Petroleum states that it was dissolved on May 1, 1955; that it surrendered its charter and discontinued business; that all of its properties, contracts, permits, certificates, rate schedules and other assets, pertaining to its oil and gas properties, were assigned to its former stockholders, consisting of 27 individuals, estates, guardians, and corporations. Commercial Petroleum states further, that such former stockholders entered into a contract in writing with Oil Lease, which authorizes Oil Lease to operate and manage the gas properties which such stockholders acquired in the liquidation of Commercial Petroleum.

These related matters should be heard on a consolidated record and disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on April 11, 1957, at 9:30 a. m., e. s. t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such applications: *Provided, however,* That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of § 1.30 (c) (1) or (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for applicants to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before March 25, 1957. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

[1] The application in Docket No. G–7448 was duly noticed in consolidation with Docket No. G–6366 et al., by publication in the FEDERAL REGISTER on April 26, 1956, 21 F. R. 2707–2708 and subsequently severed from that consolidated proceeding by the Commission's order issued June 25, 1956 in Docket No. G–6366 et al.

SECURITIES AND EXCHANGE COMMISSION

[File No. 1–3827]

GREAT SWEET GRASS OILS LTD.

ORDER SUMMARILY SUSPENDING TRADING

MARCH 4, 1957.

In the matter of trading on the American Stock Exchange in the $1.00 par value capital stock of Great Sweet Grass Oils Limited, File No. 1–3827.

I. The $1.00 par value Capital Stock of Great Sweet Grass Oils Limited (hereinafter called "registrant") is listed and registered on the American Stock Exchange, a national securities exchange (hereinafter called "the exchange").

II. The Commission on October 19, 1956, issued its order and notice of hearing under section 19 (a) (2) of the Securities Exchange Act of 1934 (hereinafter called "the act"), and on October 24, 1956, issued its amended order and notice of hearing under the act to determine at a hearing to be held November 13, 1956, whether it is necessary or appropriate for the protection of investors to suspend for a period not exceeding twelve months, or to withdraw, the registration of the Capital Stock of registrant on the exchange for failure to comply with section 13 of the act and the rules and regulations thereunder, in that the Commission had reason to believe that the reports filed by registrant on Form 8–K and Form 10–K were false and misleading in certain respects set forth in said orders. On October 31, 1956, the Commission issued its second amended order and notice of hearing under section 19 (a) (2) of the act restating the allegations in the original and amended orders and including allegations that the Commission had reason to believe that the registrant's current report on Form 8–K for the month of December, 1955, and amendments thereto, and that registrant's annual report on Form 10–K for its fiscal year ended December 31, 1955, and amendments thereto, were false and misleading in additional respects set forth in said order. In November 16, 1956, the Commission issued its third amended order and notice of hearing under section 19 (a) (2) of the act restating the allegations in the original and amended orders and including allegations that the Commission had reason to believe that the registrant's current report on Form 8–K for the month of August, 1955, was false and misleading in certain respects set forth in said order, and that the Form 8–K report for the month of December, 1955, and the Form 10–K report for the fiscal year ended December 31, 1955 were false and misleading in additional respects set forth in said order. On February 21, 1957, the Commission issued its order summarily suspending trading pursuant to section 19 (a) (4) of the act in said securities on the exchange for the reasons set forth in said order to prevent fraudulent, deceptive and manipulative acts or practices from February 23, 1957, to March 4, 1957, inclusive.

III. On November 7, 1956, counsel representing registrant requested a postponement of the hearing under section 19 (a) (2) of the act in order to enable him to prepare for the hearing. Pursuant to this request, the Commission on November 7, 1956, issued its order postponing the date of said hearing to November 26, 1956. Said hearing has commenced but has not yet been concluded by Commission order or decision.

IV. The Commission has reason to believe that the false reports filed by registrant as alleged in the orders and notices of hearing referred to in paragraph II and the relationship between registrant and Kroy Oils Limited, also subject to an order issued concurrently herewith under section 19 (a) (4) of the act, and also subject to an order and notice of hearing under section 19 (a) (2) of the act, which hearing has been consolidated with the hearing referred to in paragraph III, are such as to cause widespread confusion and uncertainty in the market for registrant's shares. Under the circumstances recited in this order, the Commission is of the opinion that it would be impossible for the investing public to reach an informed judgment at this time as to the value of registrant's securities or for trading in such securities to be conducted in an orderly and equitable manner.

V. The Commission being of the opinion that the public interest requires the summary suspension of trading in such security on the exchange and that such action is necessary and appropriate for the protection of investors; and

The Commission being of the opinion that such suspension is necessary in order to prevent fraudulent, deceptive, or manipulative acts or practices, with the result that it will be unlawful under section 15 (c) (2) of the act and the Commission's Rule X-15C2–2 thereunder for any broker or dealer to make use of the mails or of any means or instrumentality of interstate commerce to effect any transaction in, or to induce or attempt to induce the purchase or sale of, such security otherwise than on a national securities exchange.

It is ordered, Pursuant to section 19 (a) (4) of the act that trading in said securities on the American Stock Exchange be summarily suspended in order to prevent fraudulent, deceptive, or manipulative acts or practices for a period of ten days from March 5, 1957, to March 14, 1957, inclusive.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[F. R. Doc. 57–1754; Filed, Mar. 7, 1957; 8:46 a. m.]

[File No. 1–3679]

KROY OILS LTD.

ORDER SUMMARILY SUSPENDING TRADING

MARCH 4, 1957.

In the matter of trading on the American Stock Exchange in the 20¢ par value

capital stock of Kroy Oils Limited, File No. 1–3679.

I. The 20¢ par value Capital Stock of Kroy Oils Limited, an Alberta corporation (hereinafter called "registrant"), is listed and registered on the American Stock Exchange, a national securities exchange (hereinafter called "the exchange").

II. The Commission on November 2, 1956, issued its order and notice of hearing under section 19 (a) (2) of the Securities Exchange Act of 1934 (hereinafter called "the act") to determine at a hearing to be held on November 20, 1956, whether it is necessary or appropriate for the protection of investors to suspend for a period not exceeding twelve months, or to withdraw, the registration of the Capital Stock of registrant on the exchange for failure to comply with section 13 of the act and the rules and regulations adopted thereunder, in that the Commission has reason to believe that a current report for the month of May, 1956, on Form 8–K, filed by registrant with the Commission was false and misleading in certain respects set forth in said order. On February 21, 1957, the Commission issued its order summarily suspending trading of said securities on the exchange pursuant to section 19 (a) (4) of the act for the reasons set forth in said order to prevent fraudulent, deceptive or manipulative acts or practices for a period of ten days from February 23, 1957, to March 4, 1957, inclusive.

III. On November 7, 1956, counsel representing registrant requested a postponement of the hearing under section 19 (a) (2) of the act in order to enable him to prepare for the hearing. Pursuant to this request, the Commission on November 7, 1956, issued its order postponing the date of said hearing to November 26, 1956. Said hearing has commenced but has not yet been concluded by Commission order or decision.

IV. The Commission has reason to believe that the false report filed by registrant as alleged in the order and notice of hearing referred to in paragraph II and the relationship between registrant and Great Sweet Grass Oils Limited, also subject to an order issued concurrently herewith under section 19 (a) (4) of the act, and also subject to an order and notice of hearing under section 19 (a) (2) of the act, which hearing has been consolidated with the hearing referred to in paragraph III, are such as to cause widespread confusion and uncertainty in the market for registrant's shares. Under the circumstances recited in this order, the Commission is of the opinion that it would be impossible for the investing public to reach an informed judgment at this time as to the value of registrant's securities or for trading in such securities to be conducted in an orderly and equitable manner.

V. The Commission being of the opinion that the public interest requires the summary suspension of trading in such security on the exchange and that such action is necessary and appropriate for the protection of investors; and

The Commission being of the opinion that such suspension is necessary in order to prevent fraudulent, deceptive, or manipulative acts or practices, with the result that it will be unlawful under section 15 (c) (2) of the act and the Commission's Rule X-15C2–2 thereunder for any broker or dealer to make use of the mails or any means or instrumentality of interstate commerce to effect any transaction in, or to induce or attempt to induce the purchase or sale of, such security otherwise than on a national securities exchange.

It is ordered, Pursuant to section 19 (a) (4) of the act that trading in said securities on the American Stock Exchange be summarily suspended in order to prevent fraudulent, deceptive, or manipulative acts or practices for a period of ten days from March 5, 1957, to March 14, 1957, inclusive.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[File No. 70–3555]

CENTRAL AND SOUTH WEST CORP. ET AL.

ORDER GRANTING APPLICATION AND PERMITTING DECLARATION TO BECOME EFFECTIVE

MARCH 4, 1957.

In the matter of Central and South West Corporation, Central Power and Light Company, Public Service Company of Oklahoma, Southwestern Gas and Electric Company (File No. 70–3555).

Central and South West Corporation ("Central"), a registered holding company, and three of its public utility subsidiaries, Central Power and Light Company ("Power"), Public Service Company of Oklahoma ("Public Service"), and Southwestern Gas and Electric Company ("Southwestern"), having filed, pursuant to sections 6, 7, 9, and 10 of the Public Utility Holding Company Act of 1935 ("act") and Rule U-50 promulgated thereunder, a joint application-declaration and amendments thereto regarding the following proposed transactions:

Central proposes to issue and sell, to or through underwriters or investment bankers who shall have agreed promptly to make a public offering thereof, 600,000 additional shares of its $5 par value common stock, at competitive bidding pursuant to Rule U-50 of the rules and regulations promulgated under the act.

The net proceeds received by Central from the sale of the 600,000 additional shares of common stock will be applied by Central to the prepayment, without premium or penalty, of $7,500,000 principal amount of 3½ percent bank loan notes due March 1, 1958, and to the purchase, at the par value thereof, of additional shares of the common stocks of Power, Public Service and Southwestern of the aggregate par amount of $10,500,000. Any excess of such proceeds over $18,000,000 may be used to purchase additional shares of the common stock of one or more of Central's four principal subsidiaries (subject to further approval of the Commission), or for general corporate purposes.

Public Service proposes to amend its Articles of Incorporation to increase from 4,000,000 to 6,000,000 the number of shares of its authorized $10 par value common stock, of which there are outstanding 3,900,000 shares.

Power, Public Service, and Southwestern, respectively, propose to issue and sell to Central, and Central proposes to acquire for cash, at the par value thereof, additional shares of common stock as follows:

(a) Power, 250,000 shares, per value $10 per share, for $2,500,000;

(b) Public Service, 400,000 shares, par value $10 per share, for $4,000,000;

(c) Southwestern, 400,000 shares, par value $10 per share, for $4,000,000.

Power, Public Service, and Southwestern will use the proceeds received from the issue and sale of their common stocks to finance in part the cost of their construction programs.

The Corporation Commission of Oklahoma has jurisdiction over the proposed issuance and sale of common stock by Public Service. That Commission has authorized the proposed issue and sale of additional common stock by Public Service. No other State or Federal commission, except this Commission, has jurisdiction over the proposed transactions.

The estimated fees and expenses to be incurred by Central in connection with the proposed issue and sale of its common stock aggregate $50,000, including counsel fees of Stevenson, Dendtler, Bailey & McCabe of $10,000, fees of local counsel of $800, accountant's fee $5,000, and service company fee of $7,000. The fees and expenses of independent counsel for underwriters are estimated at $7,000 and $500 respectively, and are to be paid by the purchasers of the Central stock. The fees and expenses to be incurred by Central in connection with the acquisition of the subsidiary stocks are estimated at $200.

The fees and expenses to be incurred by the subsidiaries in connection with their proposed issuances and sales of common stock are estimated as follows: Power $3,000; Public Service $25,000 (including $20,000 to the State of Oklahoma as increased capital stock authorization fee); and Southwestern $4,700.

Due notice of the filing of the joint application-declaration (Holding Company Act Release No. 13385, February 18, 1957) having been given in the manner prescribed by Rule U-23 of the rules and regulations promulgated under the act, and no hearing in respect thereof having been requested of or ordered by the Commission; and

The Commission finding in respect of the joint application-declaration that the applicable provisions of the act and the rules thereunder are satisfied, observing no basis for adverse findings or the imposition of terms and conditions, it appearing that the fees and expenses to be incurred in connection with the proposed transactions are not unreasonable if they do not exceed the estimates hereinabove stated, and the Commission deeming it appropriate in the public interest and in the interest of investors and consumers to grant and permit to become effective, forthwith, the joint application-declaration, as amended.

It is ordered, Pursuant to Rule U-23 and the applicable provisions of the act, that the joint application-declaration, as amended, be, and it hereby is, granted and permitted to become effective, forthwith, subject, however, to the terms and conditions specified in Rules U-24 and U-50.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[F. R. Doc. 57–1756; Filed, Mar. 7, 1957; 8:47 a. m.]

[File No. 70–3562]

WORCESTER COUNTY ELECTRIC CO. AND NEW ENGLAND ELECTRIC SYSTEM

NOTICE OF PROPOSED RIGHTS OFFERING BY SUBSIDIARY AND PROPOSAL OF PARENT COMPANY TO PURCHASE ALL SHARES UNSUBSCRIBED BY MINORITY STOCKHOLDERS

MARCH 4, 1957.

In the matter of Worcester County Electric Company, New England Electric System, (File No. 70–3562).

Notice is hereby given that New England Electric System ("NEES"), a registered holding company, and its public-utility subsidiary, Worcester County Electric Company ("Worcester"), have filed a joint application-declaration with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("act") designating sections 6 (a), 6 (b), 9 (a), and 10 of the act and Rules U-42 (b) (2) and U-50 thereunder as applicable to the proposed transactions, which are summarized as follows:

The authorized and outstanding capital stock of Worcester consists of 526,120 common shares (par value $25 per share), of which, as of February 12, 1957, NEES owned 522,533 shares (99.318 percent) and the minority public holders (90 in number) owned 3,587 shares (0.682 percent). Worcester proposes to increase its common capital stock by the issue and sale, for cash, of 87,686 additional shares, offering such shares to its stockholders at a price of $55 per share on the basis of one new share for each six shares held. Rights to subscribe will be evidenced by full and fractional share warrants, exercisable during a subscription period of 21 days. However, only full shares will be issued. NEES proposes to exercise its rights to subscribe for 87,088 full shares of additional stock to which it will be entitled. The minority public holders will be entitled to subscribe for 597 full shares. NEES also proposes to purchase at the end of the subscription period all unsubscribed shares at the subscription price of $55 per share. The subscription price was determined by Worcester's board of directors after consideration of earnings, dividends, and book value of the Worcester common stock and other comparable utility company common stocks.

NEES will use treasury funds for its proposed acquisitions. Worcester will apply the proceeds from the sale of the additional common stock, amounting to $4,822,730, to the discharge of a like amount of promissory notes payable to NEES. Worcester and NEES desire to consummate the proposed issue and sale of additional common stock in order to finance permanently a portion of the capitalizable additions to Worcester's plant through the issuance of equity securities.

The Massachusetts Department of Public Utilities has jurisdiction over the proposed issue and sale of common stock by Worcester. The application-declaration states that no Federal commission, other than this Commission, has jurisdiction over the proposed transactions and no state commission approval is necessary with respect to the acquisition of securities by NEES.

The expenses to be incurred by Worcester and NEES in connection with the proposed transactions are estimated to aggregate $7,000 and $300, respectively.

Notice is further given that any interested person may, not later than March 18, 1957, at 5:30 p. m., request the Commission in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law, if any, raised by said application-declaration which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D. C. At any time after said date, said application-declaration, as filed or as amended, may be granted and permitted to become effective as provided in Rule U-23 of the rules and regulations promulgated under the act, or the Commission may grant exemption from its rules as provided in Rules U-20 (a) and U-100, or take such other action as it may deem appropriate.

By the Commission.

[File No. 70–3564]

NEW ORLEANS PUBLIC SERVICE, INC.

NOTICE OF PROPOSED ISSUE AND SALE AT COMPETITIVE BIDDING OF PRINCIPAL AMOUNT OF FIRST MORTGAGE BONDS

MARCH 4, 1957.

Notice is hereby given that New Orleans Public Service, Inc. ("Company"), a public utility subsidiary of Middle South Utilities, Inc., a registered holding company, has filed an application pursuant to the Public Utility Holding Company Act of 1935 ("act"), designating section 6 (b) thereof and Rule U–50 thereunder as applicable to the proposed transaction, which is summarized as follows:

The Company proposes to issue and sell at competitive bidding, pursuant to Rule U-50, $6,000,000 principal amount of First Mortgage Bonds __ percent Series due April 1, 1987. Public invitations for bids will be issued on or about March 21, 1957. Each bid shall specify the coupon rate (which shall be a multiple of ⅛ of 1 percent) to be borne by the Bonds, and the price (exclusive of accrued interest) to be paid to the Company for the Bonds, which price shall be not less than the principal amount of the Bonds and not more than 102¾ percent of such principal amount.

The Bonds will be issued under the Company's Mortgage and Deed of Trust, dated as of July 1, 1944, to the Chase Manhattan Bank and Arthur F. Henning, successor Trustees, as heretofore supplemented and as it will be supplemented by a Fourth Supplemental Indenture to be dated April 1, 1957.

The issuance of the Bonds has been authorized by the City of New Orleans, the regulatory authority of the State in which the Company is organized and doing business.

The net proceeds to be received by the Company from the sale of the Bonds will be applied toward financing its construction program, and, if circumstances warrant, toward partial payment, prior to maturity, of its outstanding nine-month 4 percent bank notes due October 2, 1957.

The Company estimates its fees and expenses to be incurred herein as follows:

Federal stamp tax	$6,600.00
Filing fee, this Commission	616.50
Charges of Trustee	4,000.00
Haskins & Sells, accountants	4,000.00
Printing and engraving	21,500.00
Ebasco Services, Incorporated	5,500.00
Company counsel:	
Chaffe, McCall, Phillips, Burke & Hopkins	2,000.00
Jones, Walker, Waechter, Poitevent & Denegre	2,000.00
Reid & Priest	7,000.00
Miscellaneous (including Blue Sky)	6,933.50
Total	60,150.00

The fee of Beekman & Bogue, counsel for the successful bidders, is estimated at $5,000.

Notice is further given that any interested person may, not later than March 18, 1957 at 5:30 p. m., request the Commission in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law, if any, raised by said application which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D. C. At any time after said date the application, as filed or as amended, may be granted as provided by Rule U-23 of the rules and regulations promulgated under the act, or the Commission may grant exemption from its rules as provided in Rules U-20 (a) and U-100, or take such other action as it may deem appropriate.

By the Commission.

[File No. 70-3566]

WEST PENN POWER CO. AND WEST PENN ELECTRIC CO.

NOTICE OF PROPOSAL BY SUBSIDIARY TO ISSUE AND SELL ADDITIONAL COMMON STOCK

MARCH 4, 1957.

Notice is hereby given that The West Penn Electric Company ("Electric"), a registered holding company, and its public-utility subsidiary, West Penn Power Company ("Power"), have filed a joint application-declaration pursuant to the Public Utility Holding Company Act of 1935 ("act"), designating sections 6, 7, 9, 10 and 12 thereof and Rules U-43 and U-44 thereunder as applicable to the proposed transactions, which are summarized as follows:

Power has outstanding 3,522,480 shares of Common Stock (without par value) and, pursuant to a rights offering to the holders of such outstanding shares, proposes to issue and sell additional shares sufficient to produce proceeds of approximately $12,000,000.

Electric, which owns 3,346,367 shares (approximately 95 percent) of Power's outstanding Common Stock, has agreed to purchase at the subscription price all of the additional shares not subscribed by the public stockholders. It further proposes to purchase, at a price to be announced when the rights are issued, such rights as are properly assigned and delivered to it before their expiration.

Based on present market conditions, it is estimated that the offering price of the additional Common Stock will be not less than $48 nor more than $53 per share, and that the number of shares will be not more than 251,606 (1 for 14) nor less than 234,832 (1 for 15). On or about March 21, 1956, transferable warrants will be issued to the public holders of record at the close of business on the second full business day prior thereto, evidencing their rights to purchase additional shares at the subscription price stated therein. The rights will expire on or about April 16, 1957. No fractional shares will be issued.

Under the terms of the Trust Indenture, dated as of September 1, 1949, securing its 3½ percent Sinking Fund Collateral Trust Bonds, Electric has covenanted to maintain the Common Stock of Power pledged with the Trustee at 94.6 percent of all the issued and outstanding common stock of Power; and, pursuant to such covenant, Electric proposes to pledge approximately 94.6 percent of the additional shares to be issued by Power with Chemical Corn Exchange Bank, the Indenture Trustee.

Power proposes to use the proceeds from the sale of the additional Common Stock, together with treasury cash and the proceeds from a later (1957) issue of about $20,000,000 of senior securities, in financing the 1957 and 1958 construction requirements of itself and its subsidiaries, estimated at $61,000,000.

It is stated that the Pennsylvania Public Utility Commission has jurisdiction over the issuance by Power of the additional common stock, and that the order of said commission will be filed by amendment.

Power's expenses herein are estimated as follows:

Price Waterhouse & Co., accountants	$2,000
Sullivan & Cromwell, attorneys	2,500
Printing	3,000
Subscription agent, transfer agent and registrar	1,000
Federal stamp tax	19,000
Registration fee	1,250
Miscellaneous	2,250
Total	31,000

Notice is further given that any interested person may, not later than March 18, 1957 at 5:30 p. m., request the Commission in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law, if any, raised by said application-declaration which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D. C. At any time after said date the application-declaration, as filed or as amended, may be granted and permitted to become effective as provided in Rule U-23 of the rules and regulations promulgated under the act, or the Commission may grant exemption from its rules as provided in Rules U-20 (a) and U-100 or take such other action as it may deem appropriate.

By the Commission.

INTERSTATE COMMERCE COMMISSION

FOURTH SECTION APPLICATIONS FOR RELIEF

MARCH 5, 1957.

Protests to the granting of an application must be prepared in accordance with Rule 40 of the general rules of practice (49 CFR 1.40) and filed within 15 days from the date of publication of this notice in the FEDERAL REGISTER.

LONG-AND-SHORT-HAUL

FSA No. 33336: *Paper Winding Cores, From and To Official Territory.* Filed by O. E. Schultz, Agent, for interested rail carriers. Rates on newsprint paper winding cores, old and used, carloads (returned to points of origin) from and to points within official (including Illinois) territory, from points in southern and western trunk line territories to points in official (including Illinois) territory to Canada.

Grounds for relief: Carrier competition and circuity.

FSA No. 33337: *Paper Winding Cores to Western and Canadian Points.* Filed by W. J. Prueter, Agent, for interested rail carriers. Rates on cores, newsprint paper winding, old or reused, in carloads, as described in the application returned to original points of origin from points in southern, official, Illinois and western trunk line territories to points in Illinois, Indiana, Iowa, Kansas, Kentucky, Michigan, Minnesota, Missouri, Nebraska and Wisconsin also to points in Manitoba and Ontario, Canada.

Grounds for relief: Carrier competition and circuity.

FSA No. 33338: *Foodstuffs—Southern Ports to Central Territory.* Filed by H. M. Engdahl, Agent, for interested rail carriers. Rates on foodstuffs, canned, preserved, etc., carloads from southern south Atlantic, Florida, and Gulf ports (import traffic) to specified points in Indiana, Ohio, and West Virginia.

Grounds for relief: Port competition and circuitous routes.

Tariff: Supplement 30 to Agent Engdahl's tariff I. C. C. 133.

FSA No. 33339: *Paper Winding Cores Between and to Points in the South.* Filed by O. W. South, Jr., Agent, for interested rail carriers. Rates on newsprint paper winding cores, new or used, carloads between points in southern territory, and from points in official, including Illinois territory and western trunk line territory to points in southern territory.

Grounds for relief: Carrier competition and circuity.

FSA No. 33340: *Substituted Service—Motor-Rail-Motor, Pennsylvania Railroad.* Filed by The Eastern Central Motor Carriers Association, Inc., Agent, for The Pennsylvania Railroad Company and interested motor carriers. Rates on freight loaded in highway trailers and transported on railroad flat cars between Chicago, Ill., and Baltimore, Md. (on traffic originating at, or destined to, points on motor carriers beyond the named points).

Grounds for relief: Motor truck competition.

Tariff: Eastern Central Motor Carriers Association, Inc., Agent, tariff I. C. C. No. 14, Supplement No. 2.

By the Commission.

[SEAL] HAROLD D. McCOY,
Secretary.

TITLE 7—AGRICULTURE

Chapter VIII—Commodity Stabilization Service (Sugar), Department of Agriculture

Subchapter E—Determination of Sugar Commercially Recoverable

[Sugar Determination 833.3]

PART 833—MAINLAND CANE SUGAR AREA

1956 CROP

Pursuant to the provisions of section 302 (a) of the Sugar Act of 1948, as amended (hereinafter referred to as "act"), the following determination is hereby issued:

§ 833.3 *Sugar commercially recoverable from sugarcane in the mainland cane sugar area*—(a) *Definitions.* For the purpose of this section, the terms:

(1) "Trash" means green or dried leaves, loose sugarcane tops, attached sugarcane tops at or above the green-leaf roll, dirt and all other extraneous material.

(2) "Gross weight" means the total weight (short tons) of sugarcane, including trash, as delivered by a producer for processing for sugar production.

(3) "Net weight" means: (i) In Louisiana, the weight obtained by deducting from gross weight, the weight of trash in the sugarcane, as determined in the customary manner, and (ii) in Florida, 96.0 percent of gross weight.

(b) *Recoverable sugar.* For the 1956 crop of sugarcane, the amount of sugar, raw value, commercially recoverable from sugarcane grown on a farm in the mainland cane sugar area and marketed (or processed by the producer) for the extraction of sugar or liquid sugar, from an acreage not in excess of the proportionate share for the farm, shall be obtained by multiplying the net weight of the sugarcane by the hundredweight of sugar, raw value, specified for the average percentage of sucrose in the normal juice of such sugarcane as follows:

(1) *For farms in Louisiana.*

Percentage of sucrose in normal juice: [1]	*Hundredweight of sugar*
8.0	0.901
9.0	1.068
10.0	1.265
11.0	1.442
12.0	1.598
13.0	1.757
14.0	1.919
15.0	2.083
16.0	2.249
17.0	2.418
18.0	2.588

[1] Sugar recoverable for the intervening tenths of 1 percent shall be calculated by straight interpolation.

(2) *For farms in Florida.*

Percentage of sucrose in normal juice: [1]	*Hundredweight of sugar*
8.0	0.940
9.0	1.112
10.0	1.314
11.0	1.496
12.0	1.657
13.0	1.821
14.0	1.988
15.0	2.157
16.0	2.328
17.0	2.502
18.0	2.677

[1] Sugar recoverable for the intervening tenths of 1 percent shall be calculated by straight interpolation.

(3) *Computation of rates and applicability.* The rates shown in this section represents the simple averages of sugar commercially recoverable at various normal juice sucrose levels for the crop years 1951, 1952, 1953, 1954, and 1955, with required adjustments to conform to net weight of sugarcane, as defined in paragraph (a) of this section. Sugar commercially recoverable for each such year was computed from data shown on the recapitulation of final sugar manufacturing reports for each of such crops in each State under the formula customarily used for the mainland cane sugar area.

This determination supersedes, with respect to the 1956 crop, § 833.2, Determination of Sugar Commercially Recoverable—Mainland Cane Sugar Area, issued October 20, 1949 (14 F. R. 6514) and amended September 15, 1950 (15 F. R. 6285).

STATEMENT OF BASES AND CONSIDERATIONS

Determinations of amounts of sugar commercially recoverable from sugar beets and sugarcane are required under section 302 (a) of the act to establish

the amounts of sugar upon which payments under the act are made.

The previous determination, as issued on October 20, 1949, and amended September 15, 1950, was effective for the crops of 1949 through 1955. The statement issued in conjunction with it reviewed the bases of the determinations which were effective for the crops of 1937 through 1948. The rates of recoverability set forth in those determinations were computed from the average recoveries obtained at the mills in each State during specified crop years. The determination issued in 1949 provided for the use of moving base periods comprising for each crop the next preceding five crop years.

The recovery rates which were effective for the crop years 1937 through 1947 were computed with respect to the gross weight of sugarcane. With the increased use of machinery in harvesting sugarcane in the latter part of this crop period, the amount of trash in sugarcane increased to such an extent that the determinations issued for the crops of 1948 through 1955 provided for use of the net weight of sugarcane. In Louisiana, it has been customary to make deductions from gross weights of sugarcane for trash based upon samples taken from deliveries made by individual producers. In Florida, sugarcane has been purchased at the Clewiston and Okeelanta mills for a number of years with a standard deduction for trash of 4 percent. No deduction for trash has been made at the Fellsmere mill and, accordingly, the gross weights of sugarcane have been used for that mill area in lieu of net weights. In view of this variation from the general basis, the operators of the Fellsmere mill were requested to make pilot trash determinations on the 1955 crop of sugarcane, in a manner similar to tests conducted on recent crops at the Clewiston and Okeelanta mills. The tests at the Fellsmere mill revealed that the average percentage of trash for the 1955 crop did not differ greatly from the standard deduction made at the other mills. Under these circumstances, it is deemed reasonable and appropriate, beginning with the 1956 crop, to determine net weight of sugarcane at 96 percent of gross weight for all farms in Florida for purposes of Sugar Act payments and to make effective revised recovery rates which reflect the net weight basis. For subsequent consideration of this matter and other problems relating to the tonnage of sugarcane, tests are to be continued at each of the three mills to determine the actual average percentage of trash in sugarcane.

The rates set forth in paragraph (b) (1) and (2) were computed in the same manner as for the crops of 1949 through 1955, except for the adjustments required in using the net weight of sugarcane for the Fellsmere production. This determination also differs from the former one in that several terms are defined in paragraph (a) for clarification purposes. To permit further consideration of the trash problem and other pertinent matters, this determination is made effective for the 1956 crop only.

Accordingly, I hereby find and conclude that the foregoing determination will effectuate the purposes of section 302 (a) of the act.

(Sec. 403, 61 Stat. 932; 7 U. S. C. 1153. Interprets or applies secs. 302, 303, 304; 61 Stat. 930, as amended, 931; 7 U. S. C. 1132, 1133, 1134)

Issued this 6th day of March 1957.

[SEAL] TRUE D. MORSE,
Acting Secretary.

Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders), Department of Agriculture

[Navel Orange Reg. 109]

PART 914—NAVEL ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

LIMITATION OF HANDLING

§ 914.409 *Navel Orange Regulation 109*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 14, as amended (7 CFR Part 914; 21 F. R. 4707), regulating the handling of navel oranges grown in Arizona and designated part of California, effective September 22, 1953, under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.; 68 Stat. 906, 1047), and upon the basis of the recommendation and information submitted by the Navel Orange Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such navel oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The Navel Orange Administrative Committee held an open meeting on March 7, 1957, after giving due notice thereof, to consider supply and market conditions for navel oranges and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such navel oranges; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject thereto which cannot be completed on or before the effective date hereof.

(b) *Order.* (1) The quantity of navel oranges grown in Arizona and designated part of California which may be handled during the period beginning at 12:01 a. m., P. s. t., March 10, 1957, and ending at 12:01 a. m., P. s. t., March 17, 1957, is hereby fixed as follows:

(i) District 1: 323,400 cartons;

(ii) District 2: 739,200 cartons;

(iii) District 3: Unlimited movement;

(iv) District 4: Unlimited movement.

(2) All navel oranges handled during the period specified in this section are subject also to all applicable size restrictions which are in effect pursuant to this part during such period.

(3) As used in this section, "handled," "District 1," "District 2," "District 3," "District 4," and "carton" have the same meaning as when used in said amended marketing agreement and order.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: March 8, 1957.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[F. R. Doc. 57-1868; Filed, Mar. 8, 1957; 11:51 a. m.]

[Lemon Reg. 676, Amdt. 1]

PART 953—LEMONS GROWN IN CALIFORNIA AND ARIZONA

LIMITATION OF SHIPMENTS

Findings. 1. Pursuant to the marketing agreement, as amended, and Order No. 53, as amended (7 CFR Part 953; 21 F. R. 4393), regulating the handling of lemons grown in the State of California or in the State of Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.; 68 Stat. 906, 1047), and upon the basis of the recommendation and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of the quantity of such lemons which may be handled, as hereinafter provided, will tend to effectuate the declared policy of the act.

2. It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice and engage in public rule-making procedure, and postpone the effective date of this amendment until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this amendment is based became available and the time when this amendment must become effective in order to effectuate the declared policy of the Agricultural Marketing Agreement Act of 1937, as amended, is insufficient, and this amendment relieves restriction on the handling of lemons grown in the State of California or in the State of Arizona.

Order, as amended. The provisions in paragraph (b) (1) (ii) of § 953.783 (Lemon Regulation 676, 22 F. R. 1317) are hereby amended to read as follows:

(ii) District 2: 204,600 cartons.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: March 6, 1957.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[F. R. Doc. 57-1822; Filed, Mar. 8, 1957; 8:50 a. m.]

[Lemon Reg. 677]

PART 953—LEMONS GROWN IN CALIFORNIA AND ARIZONA

LIMITATION OF SHIPMENTS

§ 953.784 *Lemon Regulation 677*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 53, as amended (7 CFR Part 953; 20 F. R. 8451; 21 F. R. 4393), regulating the handling of lemons grown in the State of California or in the State of Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.; 68 Stat. 906, 1047), and upon the basis of the recommendation and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of the quantity of such lemons which may be handled, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. Shipments of lemons, grown in the State of California or in the State of Arizona, are currently subject to regulation pursuant to said amended marketing agreement and order; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after an open meeting of the Lemon Administrative Committee on March 6, 1957; such meeting was held, after giving due notice thereof to consider recommendations for regulation, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such lemons; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period hereinafter specified; and compliance with this section will not require any special preparation on the part of persons subject thereto which cannot be completed by the effective time thereof.

(b) *Order.* (1) The quantity of lemons grown in the State of California or in the State of Arizona which may be handled during the period beginning at 12:01 a. m., P. s. t., March 10, 1957, and ending at 12:01 a. m., P. s. t., March 17, 1957, is hereby fixed as follows:

(i) District 1: 6,510 cartons;

(ii) District 2: 204,600 cartons;

(iii) District 3: Unlimited movement.

(2) As used in this section, "handled," "District 1," "District 2," "District 3," and "carton" have the same meaning as when used in the said amended marketing agreement and order.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: March 7, 1957.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[F. R. Doc. 57-1859; Filed, Mar. 8, 1957; 9:01 a. m.]

TITLE 14—CIVIL AVIATION

Chapter I—Civil Aeronautics Board

[Civil Air Regs., Amdt. 4b-5]

PART 4b—AIRPLANE AIRWORTHINESS; TRANSPORT CATEGORIES

EMERGENCY EVACUATION PROVISIONS

The presently effective emergency evacuation provisions contained in § 4b.362 of Part 4b of the Civil Air Regulations were adopted on November 15, 1951, and were considered appropriate for airplanes which were then in the design stage. Airplanes currently undergoing development are considerably larger in passenger capacity; consequently, the emergency evacuation provisions heretofore effective are considered in need of revision. Furthermore, experience with these requirements indicates a need for additional revision to make them more practicable for application to all airplanes subject to these provisions.

This amendment makes certain changes in the number, size, and location of emergency exits. Also, provision is made for a somewhat greater flexibility of application of these regulations. In addition, this amendment prescribes exit configurations for high-wing airplanes, and provides for evacuation means in case of unplanned ditching in water for all airplanes.

Pursuant to the provisions of § 4b.11 (c) of Part 4b, an applicant for type certification may elect to show compliance with this amendment even though the date of application for type certification was made prior to the effective date of this amendment. However, it is considered that the provisions of § 4b.362 are so interrelated that if the applicant elects to show compliance with any portion of the section, he should be required to show compliance with the entire section.

Interested persons have been afforded an opportunity to participate in the making of this amendment (21 F. R. 7688), and due consideration has been given to all relevant matter presented.

In consideration of the foregoing, the Civil Aeronautics Board hereby amends Part 4b of the Civil Air Regulations (14 CFR Part 4b, as amended) effective April 9, 1957.

1. By amending the introductory paragraph of § 4b.362 to read as follows:

§ 4b.362 *Emergency evacuation.* Crew and passenger areas shall be provided with emergency evacuation means to permit rapid egress in the event of crash landings, whether with the landing gear extended or retracted, taking into account the possibility of the airplane being on fire. If the airplane is divided into separate compartments arranged so that the minimum unobstructed passageway between such compartments is not available as required by paragraph (g) of this section, requirements of this section shall be applied to each compartment independently. Passenger and crew entrances and service doors shall be considered as emergency exits if they meet the applicable requirements of this section.

2. By amending § 4b.362 (a) to read as follows:

§ 4b.362 *Emergency evacuation.* • • •

(a) *Flight crew emergency exits.* Flight crew emergency exits shall be located in the flight crew area, one on each side of the airplane, or, alternatively, a top hatch shall be provided. Such exits shall be of sufficient size and shall be so located as to permit rapid evacuation by the crew. Such exits shall not be required in airplanes having a passenger capacity of 20 or less if the Administrator finds that the proximity of passenger emergency exits to the flight crew area offers a convenient and readily accessible means of evacuation for the flight crew.

3. By amending § 4b.362 (b) to read as follows:

(b) *Passenger emergency exits; type and location.* All required exits shall be in such specific locations as will afford the most effective means of passenger evacuation. The type of exits and their general location shall be as follows:

(1) Type I: A rectangular opening of not less than 24 inches wide by 48 inches high, with corner radii not greater than ⅓ the width of the exit. The first Type I exit on each side of the fuselage shall be located in the aft portion of the passenger compartment unless the configuration of the airplane is such that some other location would afford a more effective means of passenger evacuation. All Type I exits shall be floor level exits.

(2) Type II: A rectangular opening of not less than 20 inches wide by 44 inches high, with corner radii not greater than ⅓ the width of the exit. Unless Type I exits are required, one Type II exit on each side of the fuselage shall be located in the aft portion of the passenger compartment except where the configuration of the airplane is such that some other location would afford a more effective means of passenger evacuation. Type II exits shall be floor level exits unless located over the wing in which case they shall have a step-up inside the airplane of not more than 10 inches and a step-down outside the airplane of not more than 17 inches.

(3) Type III: A rectangular opening of not less than 20 inches wide by 36 inches high, with corner radii not greater than ⅓ the width of the exit, located over the wing with a step-up inside the airplane of not more than 20 inches and a step-down outside the airplane of not more than 27 inches.

(4) Type IV: A rectangular opening of not less than 19 inches wide by 26 inches high, with corner radii not greater than ⅓ the width of the exit, located over the wing with a step-up inside the airplane of not more than 29 inches and a step-down outside the airplane of not more than 36 inches.

NOTE: Larger openings than those specified in paragraph (b) of this section shall be acceptable, whether or not of rectangular shape, provided that the specified rectangular openings can be inscribed therein, and provided further that the base of the inscribed rectangular opening meets the specified step-up and step-down heights.

4. By amending § 4b.362 (c) to read as follows:

(c) *Passenger emergency exits; number required.* Emergency exits of the type and location prescribed in paragraph (b) of this section shall be accessible to the passengers and shall be provided in accordance with subparagraphs (1) through (5) of this paragraph.

(1) The relation between the passenger seating capacity and the type and number of exits provided on each side of the airplane shall be as follows:

Passenger seating capacity	Emergency exits required on each side of the fuselage			
	Type I	Type II	Type III	Type IV
1 to 19 inclusive	------	------	1	------
20 to 39 inclusive	------	1	------	1
40 to 59 inclusive	1	------	------	1
60 to 79 inclusive	1	------	1	------
80 to 109 inclusive	1	------	1	1
110 to 139 inclusive	2	------	1	------
140 to 179 inclusive	2	------	2	------
180 to 219 inclusive	2	2	------	------

NOTE: Although similar exits and their locations are prescribed for each side of the fuselage, it is not the intent of this regulation to require that the exits necessarily be at locations diametrically opposite each other.

(2) Additional exits shall be provided on airplanes having 220 or more passengers. The additional exits shall provide an effective means of passenger evacuation consistent with the minima provided in the table in subparagraph (1) of this paragraph.

(3) In applying subparagraph (1) of this paragraph, it shall be acceptable to install 2 Type IV exits in lieu of each required Type III exit.

(4) If the Administrator finds that there exist compensating factors in the emergency evacuation means provided, it shall be permissible to increase the passenger seating capacity beyond that shown in subparagraph (1) of this paragraph, except that such increase in seating capacity shall in no case exceed 10 passengers.

(5) On airplanes where the vertical location of the wing does not permit the installation of over-wing exits, an exit the dimensions of which are not less than those prescribed in paragraph (b) (3) of this section shall be installed for each Type III and each Type IV exit required by subparagraph (1) of this paragraph.

5. By amending § 4b.362 (d) to read as follows:

(d) *Ditching emergency exits.* It shall be shown that there is not less than one emergency exit located above the water line for every 35 passengers and at least one such exit per side shall meet the minimum dimensions of the exit specified in paragraph (b) (3) of this section. It shall be permissible to substitute for any side exit an easily accessible overhead hatch of not less than the clear dimensions of the exit specified in paragraph (b) (3) of this section.

6. By amending § 4b.362 (e) (7) by deleting the words, "other than Type IV (see paragraph (b) of this section)" and substituting in lieu thereof the words, "other than exits located over the wing".

7. By amending § 4b.362 (g) by adding the following sentence at the end thereof: "Access shall be provided from the main aisle to all Type III and Type IV exits and such access shall not be obstructed by seats, berths, or other protrusions to an extent which would reduce the effectiveness of the exit, except that minor obstructions shall be permissible if the Administrator finds that compensating factors are present to maintain the effectiveness of the exit."

8. By amending § 4b.362 (h) by adding the following sentence at the end thereof: "For airplanes having a maximum passenger seating capacity of 19 or less, these aisle widths shall not be less than 12 inches wide up to a height above the floor of 25 inches and not less than 20 inches above that height."

(Sec. 205, 52 Stat, 984; 49 U. S. C. 425. Interprets or applies secs. 601, 603, 52 Stat. 1007, 1009, as amended; 49 U. S. C. 551, 553)

Effective date: April 19, 1957.

Adopted: March 5, 1957.

By the Civil Aeronautics Board.

[SEAL] M. C. MULLIGAN,
Secretary.

Chapter II—Civil Aeronautics Administration, Department of Commerce

[Amdt. 189]

PART 608—RESTRICTED AREAS

WILMINGTON, OHIO; ALTERATION

The restricted area alteration appearing hereinafter has been coordinated with the civil operators involved, the Army, the Navy and the Air Force, through the Air Coordinating Committee, Airspace Panel and is adopted to become effective when indicated in order to promote safety of the flying public. Since a military function of the United States is involved, compliance with the notice, procedure and effective date provisions of section 4 of the Administrative Procedure Act is not required.

Part 608 is amended as follows:

In § 608.43, the Wilmington, Ohio, area (R-109), amended on October 31, 1951 in 16 F. R. 11066, is further amended by changing the "Description by Geographical Coordinates" column to read: "Beginning at latitude 38°48'30", longitude 83°02'00"; thence West to latitude 38°48'30", longitude 83°15'00"; thence Northwest to latitude 39°06'30", longitude 84°00'00"; thence North to latitude 39°20'00", longitude 84°00'00"; thence Northeast to latitude 39°41'45", longitude 83°32'45"; thence East to latitude 39°41'30", longitude 83°15'00"; thence Southeast to latitude 39°30'00", longitude 83°01'30"; thence South to the point of beginning".

(Sec. 205, 52 Stat. 984, as amended; 49 U. S. C. 425. Interprets or applies sec. 601, 52 Stat. 1007, as amended; 49 U. S. C. 551).

This amendment shall become effective on March 15, 1957.

[SEAL] JAMES T. PYLE,
Administrator of Civil Aeronautics.

[F. R. Doc. 57-1795; Filed, Mar. 8, 1957; 8:45 a. m.]

TITLE 5—ADMINISTRATIVE PERSONNEL

Chapter III—Foreign and Territorial Compensation

[Dept. Reg. 108.312]

PART 325—ADDITIONAL COMPENSATION IN FOREIGN AREAS

DESIGNATION OF DIFFERENTIAL POSTS

Section 325.11 *Designation of differential posts* is amended as follows effective on the dates indicated:

1. Effective as of the beginning of the first pay period following March 9, 1957, paragraph (a) is amended by the deletion of the following:

Ishigaki Island, Ryukyus.
Miyako Island, Ryukyus.

2. Effective as of the beginning of the first pay period following March 9, 1957, paragraph (b) is amended by the deletion of the following:

Philippines, all posts except Angeles, Baguio City, Cagayan, Cavite (including Sangley Point), Ilagan, Iloilo, Manila and Naga City.

3. Effective as of the beginning of the first pay period following March 9, 1957, paragraph (c) is amended by the deletion of the following:

Iloilo, Philippines.

4. Effective as of the beginning of the first pay period following March 9, 1957, paragraph (b) is amended by the addition of the following:

Cape Makkovik, Canada.
Cut Throat Island, Canada.
Elliston Ridge, Canada.
Fox Harbor, Canada.
La Scie, Canada.
Philippines, all posts except Angeles, Baguio City, Cagayan, Cavite (including Sangley Point), Ilagan, Manila and Naga City.
Spotted Isle, Canada.

5. Effective as of the beginning of the first pay period following December 1, 1956, paragraph (c) is amended by the addition of the following:

Aleppo, Syria.

(Sec. 102, Part I, E. O. 10000, 13 F. R. 5453; 3 CFR, 1948 Supp.)

For the Secretary of State.

Dated: February 28, 1957.

I. W. CARPENTER, Jr.,
Assistant Secretary-Controller.

[F. R. Doc. 57-1813; Filed, Mar. 8, 1957; 8:48 a. m.]

TITLE 47—TELECOMMUNICATION

Chapter I—Federal Communications Commission

[Rules Amdt. 2-28]

PART 2—FREQUENCY ALLOCATIONS AND RADIO TREATY MATTERS; GENERAL RULES AND REGULATIONS

LAWS, TREATIES, AGREEMENTS AND ARRANGEMENTS RELATING TO RADIO

The Commission having under consideration the desirability of making certain editorial changes in § 2.601 of its rules and regulations; and

It appearing, that the Amendments adopted herein are editorial in nature, and, therefore, prior publication of notice of proposed rule making under the provisions of section 4 of the Administrative Procedure Act is unnecessary, and the amendments may become effective immediately; and

It further appearing, that the amendments adopted herein are issued pursuant to authority contained in sections 4 (i), (5) (d) (1) and 303 (r) of the Communications Act of 1934, as amended, and section 0.341 (a) of the Commission's Statement of Organization, Delegations of Authority and Other Information;

It is ordered, This 4th day of March 1957 that, effective March 4, 1957, § 2.601 is amended as set forth below.

(Sec. 4, 48 Stat. 1066, as amended; 47 U. S. C. 154. Interprets or applies sec. 303, 48 Stat. 1082, as amended; sec. 5, 66 Stat. 713; 47 U. S. C. 303, 155)

Released: March 5, 1957.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

1. Part 2 is amended by replacing the existing text of § 2.601 with the text below:

§ 2.601 *Laws, Treaties, Agreements and Arrangements Relating to Radio.* (Corrected to March 1, 1957. Unless otherwise indicated, copies of these documents listed below may be obtained from the Government Printing Office, Washington 25, D. C.)

(a) The applicable Federal Laws, International Treaties, Agreements, and Arrangements in force relating to radio and to which the United States of America is a party, are listed below:

Date	Series [1]	Subject
1925	T. S. 724-A	Arrangements between the United States, Great Britain, Canada, and Newfoundland. Effected by exchange of notes signed Sept. and Oct., 1925, providing for the prevention of interference by ships off the coast of these countries with radio broadcasting. Entered into force Oct. 1, 1925. (Not available at the Government Printing Office.)
1928 and 1929	T. S. 767-A	Arrangement between the United States and the Dominion of Canada governing radio communication between private experimental stations. Effected by exchange of notes signed Oct. 2, and Dec. 29, 1928, and Jan. 12, 1929. Entered into force Jan. 1, 1929. This Arrangement is continued by the Arrangement contained in E. A. S. 62. (Not available at the Government Printing Office.)
1929	T. S. 777-A	Arrangement between the United States, Canada, Cuba, and Newfoundland relating to assignment of high frequencies on the North American Continent. Effected by exchange of notes signed at Ottawa on Feb. 26 and 28, 1929. Entered into force Mar. 1, 1929. (Cuba ceased to be a party by virtue of notice to the Canadian Government of Oct. 5, 1933.) Arrangement still in force with respect to the United States and Canada (including Newfoundland). (Not available at the Government Printing Office.)
1934		Communications Act of 1934, as amended.
1934	E. A. S. 62	Arrangement between the United States and the Dominion of Canada relative to radio communications between private experimental stations and between amateur stations. Continues the Arrangement effected by the Arrangement contained in T. S. 767-A. Effected by exchange of notes Apr. 23, and May 2 and 4, 1934. Entered into force on May 4, 1934. (Not available at the Government Printing Office.)
1934	E. A. S. 66	Arrangement between the United States and Peru concerning radio communications between amateur stations on behalf of third parties. Effected by exchange of notes signed Feb. 16, and May 23, 1934. Entered into force May 23, 1934. (Not available at the Government Printing Office.)
1934	E. A. S. 72	Arrangement between the United States and Chile relative to radio communications between amateur stations on behalf of third parties. Effected by exchange of notes signed Aug. 2 and 17, 1934. Entered into force Aug. 17, 1934. (Not available at the Government Printing Office.)
1937	E. A. S. 109	Agreement between the United States and Canada relating to the exchange of information concerning issuance of radio licenses. Effected by exchange of notes signed Mar. 2 and 10, Aug. 17, Sept. 8 and 20, Oct. 9, 1937. Entered into force Sept. 8, 1937. This Agreement was largely superseded by the notification procedure established in the NARBA (T. S. 962, E. A. S. 227, and TIAS 1553) and under the Inter-American Radio Communications Convention (T. S. 938). (Not available at the Government Printing Office.)
1937	T. S. 938	Inter-American Radio Communications Convention between the United States and Other Powers. Signed at Havana, Dec. 13, 1937 (First Inter-American Conference). Entered into force Apr. 17, 1939. (Not available at the Government Printing Office.)
1937	T. S. 962	North American Regional Broadcasting Agreement (NARBA) between the United States, Canada, Cuba, Dominican Republic, Haiti, and Mexico. Signed at Havana, Dec. 13, 1937. Entered into force Mar. 29, 1941. E. A. S. 227 and TIAS 1553 supplement this Agreement. (Not available at the Government Printing Office.)
1938	T. S. 949	Regional Radio Convention between the United States (in behalf of the Canal Zone) and Other Powers. Signed at Guatemala City, Dec. 8, 1938. Entered into force Oct. 8, 1939. (Not available at the Government Printing Office.)
1938	E. A. S. 136	Arrangement between the United States and Canada relative to Radio Broadcasting. Effected by exchange of notes signed Oct. 28, and Dec. 10, 1938. Entered into force Mar. 29, 1941. (Not available at the Government Printing Office.)
1938	E. A. S. 142	Agreement between the United States and Canada concerning Radio Communications. Effected by exchange of notes signed in June, July, August, September, October, November and December 1938. Entered into force Aug. 1, 1938. (Not available at the Government Printing Office.)
1939	E. A. S. 143	Arrangement between the United States and Canada concerning the Use of Radio for Civil Aeronautical Services. Effected by exchange of notes signed Feb. 20, 1939. Entered into force Feb. 20, 1939. (Not available at the Government Printing Office.)
1940	E. A. S. 196	Agreement between the United States and Mexico with regard to Broadcasting. Effected by exchange of notes signed Aug. 24, and 28, 1940. Entered into force Mar. 29, 1941. (Not available at the Government Printing Office.)
1941	E. A. S. 227	Supplementary North American Regional Broadcasting Agreement signed at Washington, D. C., Jan. 30, 1941. Entered into force Mar. 29, 1941. (See T. S. 962 and TIAS 1553.) (Not available at the Government Printing Office.)
